WESTERN PENNSYLVANIA MEDICAL COLLEGE

CITY OF PITTSBURGH.

SESSIONS OF 1889—90.

The REGULAR SESSION begins on the last Tuesday of September, and continues six months. During this session, in addition to four Didactic Lectures, two or three hours are daily allotted to Clinical Instruction. Attendance upon two regular courses of lectures is requisite for graduation. A three years' graded course is also provided. The SPRING SESSION embraces recitations, clinical lectures and exercises, and didactic lectures on special subjects; this session begins the second Tuesday in April, and continues ten weeks.

The laboratories are open during the collegiate year for instruction in chemistry, microscopy, practical demonstrations in medical and surgical pathology, and lessons in normal histology. Special importance attaches to "the superior clinical advantages possessed by this College." For particulars, see annual announcement and catalogue, for which, address the Secretary of Faculty, Prof. J. W. J. McKENNAN.

Business correspondence should be addressed to
PROF. W. J. ASDALE, 2107 Penn Avenue, Pittsburgh.

NATIONAL MEDICAL COLLEGE.

MEDICAL DEPARTMENT OF THE

COLUMBIAN UNIVERSITY,

WASHINGTON, D. C.

The 68th Annual Session will begin October 7th and end March 1st. Graded three years' course required. Women admitted. Professors: J. F. Thompson, W. W. Johnston, A. F. A. King, E. T. Fristoe, Wm. Lee, D. W. Prentiss, D. K. Shute.

For circulars, address

A. F. A. KING, M. D., DEAN, 726 THIRTEENTH ST., N. W., WASHINGTON D. C.

DETROIT COLLEGE OF MEDICINE.

SESSION 889-90.

Clinical and Practical teaching are made an important feature of this College. Clinical instruction is given daily at HARPER, ST. MARY'S and ST. LUKE'S HOSPITAL, at the COLLEGE, at COLLEGE EYE and EAR INFIRMARY, ST. MARY'S FREE EYE and EAR INFIRMARY, and at the three FREE DISPENSARIES. The facilities offered by this college are unsurpassed for the practical study of MEDICINE, SURGERY, OBSTETRICS, GYNÆCOLOGY, DISEASES OF CHILDREN, GENITO-URINARY, and ORTHOPÆDIC SURGERY, OPHTHALMOLOGY and OTOLOGY, DERMATOLOGY and LARYNGOLOGY.

REGULAR SESSION opens on Wednesday, Sept. 25, and continues six months. During the session, the Professors will take special pains to examine the Students upon the subjects of the previous lectures.

SPRING SESSION begins April 2d, 1890; and closes June 11th.

FEES.—Matriculation fee, $5; Fees for Regular Session, $50; Spring Session, $10, to those who attend the regular term—to all others, $25; Hospital Fee, $10; Graduation Fee, $30; Perpetual Ticket, $100.

For further particulars, and for College Circular, apply to

FACULTY:

JAMES R. LEAMING, M.D., Emeritus Professor of Diseases of the Chest and Physical Diagnosis; Special Consulting Physician in Chest Diseases to St. Luke's Hospital.

EDWARD B. BRONSON, M.D., Professor of Dermatology; Visiting Dermatologist to the Charity Hospital; Consulting Dermatologist to Bellevue Hospital (Out-door Department).

A. G. GERSTER, M.D., Professor of Surgery; Visiting Surgeon to the German and Mt. Sinai Hospitals.

V. P. GIBNEY, M.D., Professor of Orthopædic Surgery; Orthopædic Surgeon to the Nursery and Child's Hospital; Surgeon-in-Chief to the Hospital for Ruptured and Crippled.

LANDON CARTER GRAY, M.D., Professor of Diseases of the Mind and Nervous System; Attending Physician to Hospital for Nervous and Mental Diseases, and to St. Mary's Hospital.

EMIL GRUENING, M.D., Professor of Ophthalmology; Visiting Ophthalmologist to Mt. Sinai Hospital, and to the German Hospital.

*JAMES B. HUNTER, M.D., Professor of Gynæcology; Surgeon to the Woman's Hospital; Surgeon to the New York Cancer Hospital; Consulting Surgeon to the New York Infirmary for Women and Children; President of the Faculty.

PAUL F. MUNDÉ, M.D., Professor of Gynæcology; Gynæcologist to Mt. Sinai Hospital; Consulting Gynæcologist to St. Elizabeth Hospital.

A. R. ROBINSON, M.D., Professor of Dermatology; Professor of Normal and Pathological Histology in the Woman's Medical College.

DAVID WEBSTER, M.D., Professor of Ophthalmology; Surgeon to the Manhattan Eye and Ear Hospital.

JOHN A. WYETH, M.D., Professor of Surgery; Visiting Surgeon to Mt. Sinai Hospital; Consulting Surgeon to St. Elizabeth Hospital; Secretary of the Faculty.

W. GILL WYLIE, M.D., Professor of Gynæcology; Gynæcologist to Bellevue Hospital.

R. C. M. PAGE, M. D., Professor of General Medicine and Diseases of the Chest; Physician to St. Elizabeth Hospital; Attending Physician to the Northwestern Dispensary, Department of Chest Diseases.

D. BRYSON DELAVAN, M. D., Professor of Laryngology and Rhinology; Laryngologist to the Demilt Dispensary.

JOSEPH WILLIAM GLEITSMANN, M. D., Professor of Laryngology and Rhinology; Laryngologist and Octologist to the German Dispensary.

OREN D. POMEROY, M.D., Professor of Otology; Surgeon Manhattan Eye and Ear Hospital; Ophthalmic Surgeon to New York Infants' Asylum, and Consulting Surgeon to the Paterson Eye and Ear Infirmary.

HENRY N. HEINEMAN, M. D., Professor of General Medicine and Diseases of the Chest; Attending Physician to Mt. Sinai Hospital.

B. SACHS, M.D., Professor of Diseases of the Mind and Nervous System; Consulting Neurologist to the Montefiore Home for Chronic Invalids.

THOMAS R. POOLEY, M.D., Professor of Ophthalmology; Surgeon-in-Chief of the New Amsterdam Eye and Ear Hospital; Ophthalmic Surgeon to the Sheltering Arms; Consulting Ophthalmologist to the St. Bartholomew's Hospital.

L. EMMETT HOLT, M.D., Professor of Diseases of Children; Visiting Physician to the New York Infant Asylum; Consulting Physician to the Hospital for Ruptured and Crippled.

AUGUST SEIBERT, M.D., Professor of Diseases of Children; Physician to the Children's Department of the German Dispensary.

H. MARION SIMS, M.D., Professor of Gynæcology, Gynæcologist to St. Elizabeth Hospital and New York Infant Asylum.

WILLIAM F. FLUHRER, M.D., Professor of Genito-Urinary Surgery; Surgeon to Bellevue and St. Sinai Hospitals.

HENRY C. COE, M. D., M. R. C. S. (Eng.), Professor of Gynecology; Attending Surgeon to New York Cancer Hospital; Assistant Surgeon to Woman's Hospital; Obstetric Surgeon to Maternity Hospital; Obstetrician to New York Infant Asylum; Gynecologist to Presbyterian Hospital, Out-door Department.

* Deceased.

THE NEW YORK POLYCLINIC is a School of Clinical Medicine and Surgery for *Practitioners only*. No didactic lectures are given. The classes are limited. The demonstrations are made at the Polyclinic School and Hospital, and in the various Hospitals in New York City with which the Faculty are connected.

Session of 1889-90 opens Monday, September 16th, 1889. For further information and for catalogue, address

JOHN A. WYETH, M.D.,
Secretary of the Faculty,

Or WILLIS O. DAVIS, Clerk,

A. G. SPALDING & BROS.'

Gymnasium Department.

From this time henceforth the **Gymnasium** in all its important details will be a department in our business to which we shall devote especial attention.

With the addition to our own valuable patents, those of the **A. J. Reach Company,** of Philadelphia, recently purchased by us, enables us to claim the most **extensive department** of **Gymnasium Appliances in the world.**

We have been encouraged in this **important** movement by the constantly increasing demand from **Colleges, Seminaries,** and other **Educational** Institutions for Gymnasium Supplies, and henceforth we shall devote special attention to furnishing **plans, specifications,** and **estimates** to such and for **private residences** as well, and solicit correspondence with all contemplating the introduction of gymnastics for any purpose.

The Peerless Pulley Weight, illustration of which appears on this page, is a most perfect appliance for the development of the **chest** and **arms,** adjustable to the height of *any* person, and in weight from five to thirty pounds. For **man or woman** this is the peer of any method yet devised, especially for home use. Realizing the attention the **medical profession** and the **teacher,** are now giving to **healthful** exercise in **schools,** we solicit also their correspondence, and any orders, or business prceeding from such, will be gratefully received, and entitled to our best rates of discount, and will receive prompt and careful attention.

Visitors to our different establishments at **Chicago, New York,** and **Philadelphia** will always be welcome and politely served by the many efficient salesmen constantly in attendance.

EXCERPTS.

PHENACETINE.—Dr. DUJARDIN-BEAUMETZ, Paris.—"It is above all as an analgesic that Phenacetine outrivals its predecessors. While it is quite as powerful as antipyrin and acetanilid, it does not cause the pain in the stomach, or the scarlatiniform rash of the former; nor does it give rise to the cyanosis of the latter. However prolonged may be its administration—and we have given it for months in doses of 1.0 to 2.0 Gm. (15 to 30 grains) per day—we have never observed any bad effect. We have used it for the relief of every form of pain (neuralgias, migraine, rheumatic pains, muscular rheumatism, acute articular rheumatism, the lightning pains of tabes, etc.) and always with the best results."

M. F. PRICE, M. D., President Southern California Medical Society.—"A patient says, 'I have headache,' and I order Phenacetine with confidence, and always with a report of relief."

THOS. W. AYERS, M. D., Jacksonville, Ala.—"As an antipyretic I have had nothing but the very best results from its use. As an antineuralgic there is no question, but it is superior to antipyrin. It is much more energetic in its action than either antipyrin or antifebrin."

SULFONAL.—HUNTER MCGUIRE, M. D., Richmond, Va.—"Has found it particularly valuable in insomnia following the use of alcohol."

HENRY M. WETHERILL, JR., M. D., Ph. G., Philadelphia.—"The almost universal report of Sulfonal is that it has little or no effect upon the vast majority of insomnous subjects save the important one of increasing, prolonging the natural tendency to sleep; that its action is not narcotic but purely hypnotic."

W. H. FLINT, M. D., New York (Discussion before N. Y. State Medical Association).—"He had used Sulfonal as being the most efficient or desirable of the new hypnotics. He had not yet seen a Sulfonal habit. There had been about eighty per cent. of successes in his cases."

JAMES STEWART, M. D., Montreal.—"Sulfonal produces no disagreeable secondary symptoms nor any unfavorable effects on the heart or circulation. Its action was by giving rest to the cells of the cerebral cortex and thereby causing sleep."

Sulfonal-Bayer has been before the Medical Profession for some time, receiving its unqualified endorsement, but the use has been limited in many cases, owing to the hesitation of the practicioner in recommending so costly a remedy.

A substantial reduction in price having been made, it enables physicians to freely prescribe it whenever indicated, and brings it within the reach of all classes of patients.

ESTABLISHED 16 YEARS. BEWARE OF IMITATIONS.

COLDEN'S LIQUID BEEF TONIC

AN INVALUABLE AID IN MEDICAL PRACTICE.

ORIGINAL | COLDEN'S LIEBIG'S LIQUID EXTRACT OF BEEF AND TONIC INVIGORATOR. | LABEL.

ESSENTIALLY DIFFERENT FROM ALL OTHER BEEF TONICS. UNIVERSALLY ENDORSED BY LEADING PHYSICIANS.

This preparation, consisting of the Extract of Beef (prepared by Baron Liebig's process), the best Brandy obtainable, soluble Citrate of Iron, Cinchona and Gentian is offered to the Medical Profession upon its own merits. It is of inestimable value in the treatment of **Debility, Convalescence from Severe Illness Anæmia, Malarial Fever, Chlorosis, Incipient Consumption, Nervous Weakness,** and maladies requiring a Tonic and Nutrient. It is quickly absorbed by the Stomach and upper portion of the Alimentary Canal, and therefore finds its way into the circulation quite rapidly.

COLDEN'S LIQUID BEEF TONIC appeals to the judgment of intelligent Physicians in the treatment of

ALL CASES OF GENERAL DEBILITY.

By the urgent request of several eminent members of the medical profession, I have added to each wineglassful of this preparation two grains of Soluble Citrate of Iron, and which is designated on the label, **"With Iron, No. 1;"** while the same preparation, **Without Iron,** is designated on the label as **"No. 2."**

In prescribing this preparation, physicians should be particular to mention *"COLDEN'S,"* viz., *"Ext. Carnis Fl. Comp. (Colden)."* A Sample of **COLDEN'S BEEF TONIC** will be sent free on application, to any physician (enclosing business card) in the United States. *Sold by druggists generally.*

FRENCH, RICHARDS & CO.'S

COMPRESSED TABLETS,

PHENACETIN, ... 3 and 5 grains.
ANTIPYRIN, ... 3 and 5 grains.
PHENACETIN and SALOL, ... 2½ grains each.
QUININE, Sulphate and Bi-Sulphate, ... ½, 1, 2, 3, 4, and 5 grs.

These Compressed Tablets, or more correctly compressed powders, are made from the purest materials without the use of any excipient. Smooth and elegant in appearance; uniform in size; regular in weight. Our Compressed Tablets are distinguished by their ready solubility.

COMPRESSED ANTISEPTIC TABLETS.

Each Tablet contains:

7.3 grains, ... Hydrarg. Bichlor.
7.7 grains, ... Ammon. Chlor.

One Tablet dissolved in one pint of water will make a 1 to 1,000 solution, containing 1 part of Corrosive Sublimate in 1000 parts of water. Put up in pounds, half pounds, quarter pounds, and bottles containing respectively 100 and 25 Tablets each.

COMPRESSED ANTISEPTIC PASTILLES.

(Dr. Carl Sieler's Formulæ.)

For making Antiseptic Sprays, Nasal Wash, Mouth Wash, etc., one Tablet dissolved in four tablespoonfuls of warm water makes a solution which can be used as a spray or wash. Put up in screw-capped bottles containing 50 Pastilles each, also in one pound bottles, half-pound bottles, and quarter-pound bottles.

N. B.—These Pastilles must not be confounded with our Antiseptic Tablets, which contain Corrosive Sublimate, and are used as a germicide.

A full line of Compressed Tablets of approved formulæ always in stock.

These preparations are obtainable from the retail drug trade or can be had on application to the manufacturers,

FRENCH, RICHARDS & CO.,

1001, 1003, and 1005 MARKET STREET, Phila.

FELLOWS'
HYPO-PHOS-PHITES

(SYR: HYPOPHOS: COMP: FELLOWS)

Contains **The essential elements** to the Animal Organization—Potash and Lime.

The **Oxydizing Agents**—Iron and Manganese;

The **Tonics**—Quinine and Strychnine,

And the **Vitalizing Constituent**—Phosphorus,

Combined in the form of a Syrup, with *slight alkaline reaction.*

It Differs in Effect from all others, being pleasant to taste, acceptable to the stomach, and harmless under prolonged use.

It has Sustained a High Reputation in America and England for efficiency in the treatment of Pulmonary Tuberculosis, Chronic Bronchitis, and other affections of the respiratory organs, and is employed also in various nervous and debilitating diseases with success.

Its Curative Properties are largely attributable to Stimulant, Tonic, and Nutritive qualities, whereby the various organic functions are recruited.

In Cases where innervating constitutional treatment is applied, and tonic treatment is desirable, this preparation will be found to act with safety and satisfaction.

Its Action is Prompt; stimulating the appetite and the digestion, it promotes assimilation, and enters directly into the circulation with the food products.

The Prescribed Dose produces a feeling of buoyancy, removing depression or melancholy, and hence is of great value in the treatment of MENTAL AND NERVOUS AFFECTIONS.

From its exerting a double tonic effect and influencing a healthy flow of the secretions, its use is indicated in a wide range of diseases.

Prepared by JAMES I. FELLOWS, Chemist,

48 VESEY STREET, NEW YORK.

Circulars sent to Physicians on Application.

PHENACETINE-BAYER IN INFLUENZA.

We have just received advices that Phenacetine-Bayer is being used to advantage both in Russia and Germany, in the treatment of the present epidemic of **INFLUENZA.** It is also being extensively employed in America for the same purpose.

Dr. A. C. HALLAM, Brooklyn, N. Y., states :—"That he has used Phenacetine extensively in the present epidemic of Influenza and has been well pleased with its effects. The rapidity with which it relieves the muscular pains has been very gratifying to him, the patient breaking out in a profuse perspiration, and in a few hours seeming relieved of all but the catarrhal symptoms, which run on and call for other treatment."—*The New York Medical Journal*, Jan. 4, 1890.

221 GENESEE STREET, UTICA, N. Y., January 6, 1890.

To the Editor of the New York Medical Journal:

SIR: I desire to echo the statement made in your last issue by Dr. A. C. Hallam, of Brooklyn, viz.: That in the treatment of fifty cases of influenza I have used phenacetine in five-grain doses repeated hourly until fifteen grains had been taken, and in *every case* the severe muscular pains and headache disappeared; following this with five-grain doses, three times daily, of the salicylate of cinchonidine. The disease disappeared upon the fourth day, and in *no cases* have there been any sequelæ either of bronchitis or pneumonia. Phenacetine, I consider superior in every way to antipyrine and acetanilide.

CHARLES R. WEED, M. D.

Phenacetine-Bayer (Para-Acetphenetidine), prepared by the Farbenfabriken, formerly Friedr. Bayer & Co., Elberfeld, is supplied by us in one-ounce vials and also in the form of our soluble pills, containing two, four, and five grains each. Either form may be obtained of any reputable apothecary.

W. H. Schieffelin & Co.,
170 & 172 WILLIAM STREET,
NEW YORK.

SUCCUS ALTERANS

(McDADE.)

SUCCUS ALTERANS is a purely vegetable compound of the preserved juices of Stillingia Sylvatica Lappa Minor, Phytolacca Decandra, Smilax Sarsaparilla, and Xanthoxylum Carolinianum, as collected by Dr. Geo. W. McDade, exclusively for Eli Lilly & Co., and endorsed by Dr. J. Marion Sims.

SUCCUS ALTERANS continues to gain favor from its remarkable Alterative and Tonic properties, *eliminating specific poison from the blood* and *increasing the proportion of red corpuscles in anæmic patients* to a wonderful degree; is endorsed by the medical profession, and in use by many hospitals of note.

SUCCUS ALTERANS in venereal and cutaneous diseases is fast supplanting Mercury, the Iodides, and Arsenic; and is a certain remedy for Mercurialization, Iodism, and the dreadful effects often following the use of Arsenic in skin diseases.

SUCCUS ALTERANS is also strongly recommended for its Tonic and Alterative effects in myriad forms of scrofulous disease, and in all cases where anæmia is a factor. Such patients rapidly develop a good appetite, sleep soundly, and gain flesh rapidly. Many cases are on record where patients increased ten to twenty-five pounds in weight in a few weeks.

SUCCUS ALTERANS is giving satisfactory results in treatment of *Chronic Rheumatism*, and can be used with confidence.

SUCCUS ALTERANS may be given for any length of time, without injury to the patient.

SUCCUS ALTERANS is put up in pint round amber bottles, and *never in bulk.*

Send for copy of our Hand-Book of Pharmacy and Therapeutics. Useful for reference and contains much valuable information.

PIL. APHRODISIACA

(LILLY.)

Phosphorus and **Nux Vomica**, as is well known to the profession, act as powerful tonics to the nervous system, especially the spinal cord, and can be relied upon as possessing real aphrodisiac power. The **Damiana** used is the genuine **Turnera Aphrodisiaca.** By our process for the manufacture of **Phosphorus Pills**, a thorough subdivision of phosphorus in the mass is obtained, and, with a coating perfectly **protecting** it from **oxidation**, there is nothing to be desired. It is necessary that the administration of this pill be continued from **three to four weeks**, or until the **system is thoroughly under the influence of the remedy.** It is indicated in **mental overwork, sexual debility, impotency.** It is decidedly beneficial in cases of **nocturnal emissions**, the result of excesses, **mental apathy**, or indifference, and in an **enfeebled condition of the general system**, with **weakness or dull pain in the lumbo sacral region.** In diseases of the **reproductive organs** of the female, and especially of the uterus, it is one of our most valuable agents, acting as a **uterine tonic**, and gradually removing abnormal conditions, while at the same time, it imparts tone and vigor; hence, it is of value in **Leucorrhea, Amenorrhea, Dysmenorrhea,** and to remove the tendency to repeated miscarriages.

One Hundred Mailed on Receipt of $1.00.

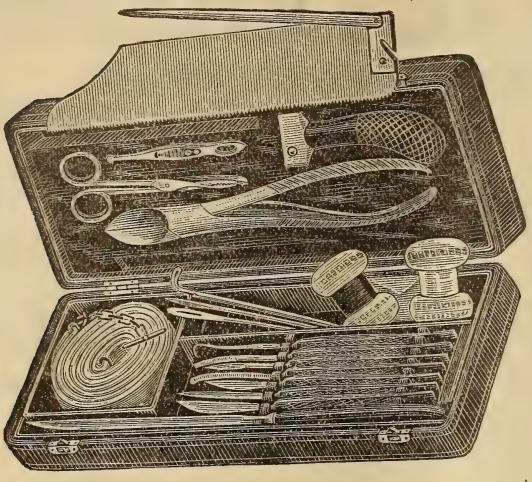
SUPPLIED BY ALL DRUGGISTS.

LENTZ'S ASEPTIC COMPACT OPERATING SET, No. 10.



We have from time to time made improvements to this set and are now making a perfect aseptic set, which offers especial facilities for aseptic precautions; the blades are soldered into hollow German-silver handles, nickel-plated, are light so as not to be unwieldy and admit of a firm grasp when operating.

The saw is adjusted to the handle on an entirely new principle, being made to separate easily and to facilitate thorough cleansing.

The handle is entirely of metal and fenestrated to overcome unnecessary weight.

Scissors and Forceps having French locks can be separated, and the slide can be easily removed from Artery and Needle Forceps.

Therefore, no opportunity is offered for the lodgment and development of germs.

The entire set is patterned with especial reference to facility in cleansing.

The instruments can be sterilized by placing them in boiling water, without fear of damaging them. Wood or rubber handles will not admit of this procedure. For price, see case A.

The following instruments are put up in either a fine Mahogany or Morocco case, with nickel trimmings, lined with velvet, and has an extra space for Trephine with handle, and Elevator if desired.

One Amputating Knife (6 in. blade); One Finger Knife; One Hernia Knife; One Sharp Curved Bistoury; Two Scalpels; One Tenotome; One Tenaculum; One Pair Scissors, curved or flat; One Saw (9 in. blade); One Liston's Bone Forceps, with Spring; One Artery and Needle Forceps, improved; One Esmarch's Flat Rubber Tourniquet, with Chain; One Hæmostatic Forceps; One Director, with Aneurism Needle; Two Silver Probes; Silk, Wire, Wax and Needles.

With the Sixteen Instruments Contained in this Case, any Ordinary Operation may be Performed.

SIZE, 11 INCHES LONG, 4 INCHES WIDE, 2 INCHES HIGH.

A.—German Silver aseptic Handles on Knives and Saw, ... $34 00
B.—Hard Rubber aseptic Handles on Knives and Saw, ... 29 00

RABUTEAU'S DRAGEES OF IRON

Laureate of the Institute of France.—Prize in Therapeutics.

The studies made by the Physicians of the Hospitals have demonstrated that the **Genuine Dragees of Iron of Rabuteau** are superior to all other preparations of Iron in cases of *Chlorosis, Anæmia, Leucorrhœa, Debility, Exhaustion, Convalescence, Weakness of Children*, and the maladies caused by the Impoverishment and Alteration of the blood after periods of fatigue, watching, and excesses of any kind.

TAKE 4 TO 6 DRAGEES DAILY.

Rabuteau's Elixir of Iron is recommended to those persons who may be unable to swallow the Dragees. Dose —*A small wineglassful with meals.*

Rabuteau's Syrup of Iron is specially designed for children. Chalybeate medication, by means of **Rabuteau's Iron**, is the most economical and the most rational known to therapeutics.

No constipation, no diarrhœa, complete assimilation.

Take only the GENUINE IRON OF RABUTEAU of

CLIN & CO., Paris.

SOLUTION OF THE SALICYLATE OF SODA OF DOCTOR CLIN.

Laureate of the Paris Faculty of Medicine (MONTYON PRIZE).

Dr. Clin's Solution, always identical in its composition, and of an agreeable taste, permits the easy administration of *pure Salicylate of Soda*, and the variation of the dose in accordance with the indications presented.

"The *Salicylate of Soda* used by **Clin** is of perfect purity, "and is prepared with the greatest care; it is a medicament "in which we may have every confidence."

—*Paris Society of Medicine, Meeting of Feb. 8th, 1879.*

Clin's Solution, very exactly mixed, contains: 2 grammes of *Salicylate of Soda* per tablespoonful, 50 centigrammes of *Salicylate of Soda* per teaspoonful.

Paris—CLIN & CO.—Paris

AND BY ALL DRUGGISTS.

CAPSULES MATHEY-CAYLUS

WITH THIN ENVELOPE OF GLUTEN.

CONTAINING COPAIBA AND ESSENCE OF SANTAL; COPAIBA, CUBEBS, AND THE ESSENCE OF SANTAL; COPAIBA, IRON, AND THE ESSENCE OF SANTAL.

"**The Mathey-Caylus Capsules,** of the *Essence of* "*Santal*, associated with the Balsams, possess an incontesta- "ble efficaciousness, and are employed with the greatest "success for the rapid cure of old or recent *Discharges*, "*Gonorrhœa, Blenorrhœa, Leucorrhœa, Cystitis of the Neck*, "*Urethritis, Catarrh*, and other *diseases of the bladder*, together "with all affections of the *Urinary Passages.*"

"Thanks to their thin envelope of *Gluten*, which is essen- "tially assimilable, the *Mathey-Caylus Capsules* are digested "by the most delicate persons, and never weary the stomach."

—*Gazette des Hopitaux de Paris.*

CLIN & CO., Paris,

AND OF ALL DRUGGISTS.

NEURALGIAS

PILLS OF DR. MOUSSETTE.

The **Moussette Pills** of aconitine and quinium, calm or cure *Gastralgia, Hemicrania, Headache, Sciatica*, and the most obstinate Neuralgias.

"The sedative action exerted by the **Moussette Pills** "upon the apparatus of the sanguineous circulation by the "intermediation of the vaso-motor nerves, indicates their "use in *neuralgias of the trigemini nerves*, (fifth pair), *con-* "*gestive neuralgias*, and *painful and inflammatory Rheumatismal* "*affections.*"

"Aconitine produces marvelous effects in the treatment "of *facial neuralgias* when they are not symptomatic of "intracranial tumor."—*Society of Biology of Paris, Meeting* "*of the 28th February, 1880.*

DOSE—Take 3 to 6 pills during the twenty-four hours.

ACCEPT ONLY THE GENUINE MOUSSETTE PILLS OF

CLIN & CO.,—Paris.

GRAND NATIONAL PRIZE OF 16,600 FRANCS,

QUINA-LAROCHE

This meritorious **Elixir, QUINA-LAROCHE,** is prepared from the **three** Cinchonas; it is an agreeable and doubtless highly efficacious remedy.

—*The Lancet.*

VINOUS ELIXIR,

A STIMULATING RESTORATIVE

—AND—

ANTI-FEBRILE TONIC.

QUINA-LAROCHE under the form of a vinous **Elixir** contains the totality of the numerous principles of the **three** Cinchona barks. It is a preparation which renders great services to Therapeutics.—Extract of the *Gazette des Hôpitaux*, Paris.

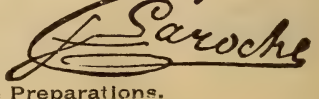
FAR SUPERIOR TO ALL ORDINARY CINCHONA WINES.

LAROCHE'S QUINA, tried by the Academy of Medicine of Paris, is a specially prepared COMPOUND EXTRACT of Quinquina, a careful analysis, confirmed by experience, has shown that most of the wines and syrups hitherto used have not contained all the properties of this precious bark, of these some, although beneficial, are altogether lost, while many preparations contain but half the properties of the bark in varying proportions.

MR. LAROCHE, by his peculiar method, has succeeded in extracting all the active principles of the quinquina, combining these with *Catalan Wine* forming an Elixir free from the disagreeable bitterness of other simular preparations. Practitioners have found triple advantages in the use of this Elixir, it is a *strong tonic*, is easily administered, and perfectly harmless, being free from the unpleasant effects of Quinine.

THE FERRUGINOUS QUINA-LAROCHE is the invigorating tonic *par excellence*, having the advantage of being easily assimilated by the gastric juice; without, in any way, deranging the action of the digestive organs, proving itself to be a most efficacious remedy in cases of impoverishment of the blood, ANÆMIA, CHLOROSIS, INTESTINAL HÆMORRHAGE, CASTRALGIA, EXHAUSTION, ETC., ETC.

PARIS.—22 RUE DROUOT.—PARIS.



E. FOUGERA & CO., New York,

Sole Agents for the United States for the above Preparations.

To persons who are seeking a Perfectly Safe and Desirable Investment,

I can unhesitatingly recommend, and back by my name and reputation, **a Bond paying 6 per cent. interest clear of State tax,** secured by a paid-up capital of $500,000 and collateral deposited with the Girard Life Insurance, Annuity and Trust Company of Philadelphia, as Trustee for the bondholders. Principal and interest payable at the office of "The Girard," where Bonds can be registered if desired. Price of Bonds par and accrued interest. For full detailed information, apply to

Nine years Actuary of the Girard Life Insurance, Annuity and Trust Company, at office in "GIRARD BUILDING."

DR. MASSEY'S PRIVATE SANITARIUM

3607 Locust Street

PHILADELPHIA

This institution, in addition to complete arrangements for the treatment of Nervous Diseases by rest, electricity, massage, etc., under comfortable surroundings, is specially equipped for the treatment of cases of Fibroid Tumors and other intractable diseases of the pelvic viscera, by the conservative use of strong electric currents. For particulars, address

DR. G. BETTON MASSEY
1706 Walnut Street, Philadelphia

GENUINE BLAUD'S PILLS.

These pills, which have been inserted in the new French Pharmacopœia, have been employed with the greatest success for more than fifty years by most French and foreign physicians, to cure anemia, chlorosis, and all chlorotic affections in which iron is indicated.

Here is the opinion of men most eminent in medical science who have employed them.

"For thirty-five years, in which I have practised medicine, I have recognized the incontestable advantages of BLAUD'S PILLS over all other ferruginous preparations, and I regard them as the best anti-chlorotic."—Dr. Double, *Ex-President of the Academy of Medicine.*

"Of all the ferruginous preparations, which have given good results in the treatment of chlorotic affections, BLAUD'S PILLS appear to us to deserve to hold the first rank."—*Dictionnaire universel de médecine,* Vol. II, p. 99.

These pills, prepared according to the genuine formule of the originator, by his nephew, Aug. Blaud, Pharmacist of the Faculty of Paris, are sold only in bottles of 200 pills and half bottles of 100 pills, at a cost of 5 and 3 francs ($1.00, and seventy-five cents), and never in smaller quantities. *See that his name is stamped on each pill.* **PARIS, 8 RUE PAYENNE,** and at every Pharmacy. (Beware of imitations.)

Prof. Loisette's MEMORY

DISCOVERY AND TRAINING METHOD

In spite of adulterated imitations which miss the theory, and practical results of the Original, in spite of the grossest misrepresentations by envious would-be competitors, and in spite of "base attempts to rob" him of the fruit of his labors, (all of which demonstrate the undoubted superiority and popularity of his teaching), Prof. Loisette's Art of Never Forgetting is recognized to-day in both Hemispheres as marking an Epoch in Memory Culture. His Prospectus (sent post free) gives opinions of people in all parts of the globe who have actually studied his System by correspondence, showing that his System is *used only while being studied, not afterwards;* that *any book can be learned in a single reading, mind-wandering cured, &c.* For Prospectus, Terms and Testimonials address

BINDER FOR THE "Reporter,"

Price, 50 cents.

The 153d Semi-Annual Course of Instruction on Practical Obstetrics, at the Phila. Lying-in Charity's School of Practical Obstetrics will Begin Monday, April 7th, 1890.

The course of Instruction will embrace the same features that have made it so popular in the last few years. There is an abundance of material, and every Student will receive Instruction at the bedside of the LIVING WOMAN, in ACTIVE labor. For application for membership in the class (which is limited) apply to Dr. Charles Meigs Wilson, Surgeon in charge, Phila. Lying-in Charity, S. W. Cor. 11th & Cherry Sts., Phila.

A limited number of advanced or post-graduate Students will be taken for Instruction on Practical Gynecology. All hours will be arranged so as not to interfere with the work at the various Colleges. The Instruction and opportunities of the Lying-in Charity are free to Dr. Wilson's Office Students.

BROMIDIA

THE HYPNOTIC.

FORMULA.—

Every fluid drachm contains 15 grains EACH of Pure Chloral Hydrat. and purified Brom. Pot., and one-eighth grain EACH of gen. imp. ext. Cannabis Ind. and Hyoscyam.

DOSE.—

One-half to one fluid drachm in WATER or SYRUP every hour, until sleep is produced.

INDICATIONS.—

Sleeplessness, Nervousness, Neuralgia, Headache, Convulsions, Colic, Mania, Epilepsy, Irritability, etc. In the restlessness and delirium of fevers it is absolutely invaluable.

IT DOES NOT LOCK UP THE SECRETIONS.

PAPINE

THE ANODYNE.

Papine is the Anodyne or pain-relieving principle of Opium, the Narcotic and Convulsive Elements being eliminated. It has less tendency to cause Nausea, Vomiting, Constipation, Etc.

INDICATIONS.—

Same as Opium or Morphia.

DOSE.—

(ONE FLUID DRACHM)—represents the Anodyne principle of one-eighth grain of Morphia.

IODIA

The Alterative and Uterine Tonic.

FORMULA.—

Iodia is a combination of active principles obtained from the Green Roots of Stillingia, Helonias, Saxifraga, Menispermum, and Aromatics. Each fluid drachm also contains five grains Iod. Potas., and three grains Phos. Iron.

DOSE.—

One or two fluid drachms (more or less as indicated) three times a day before meals.

INDICATIONS.—

Syphilitic, Scrofulous and Cutaneous Diseases, Dysmenorrhea, Menorrhagia, Leucorrhea, Amenorrhea, Impaired Vitality, Habitual Abortions, and General Uterine Debility.

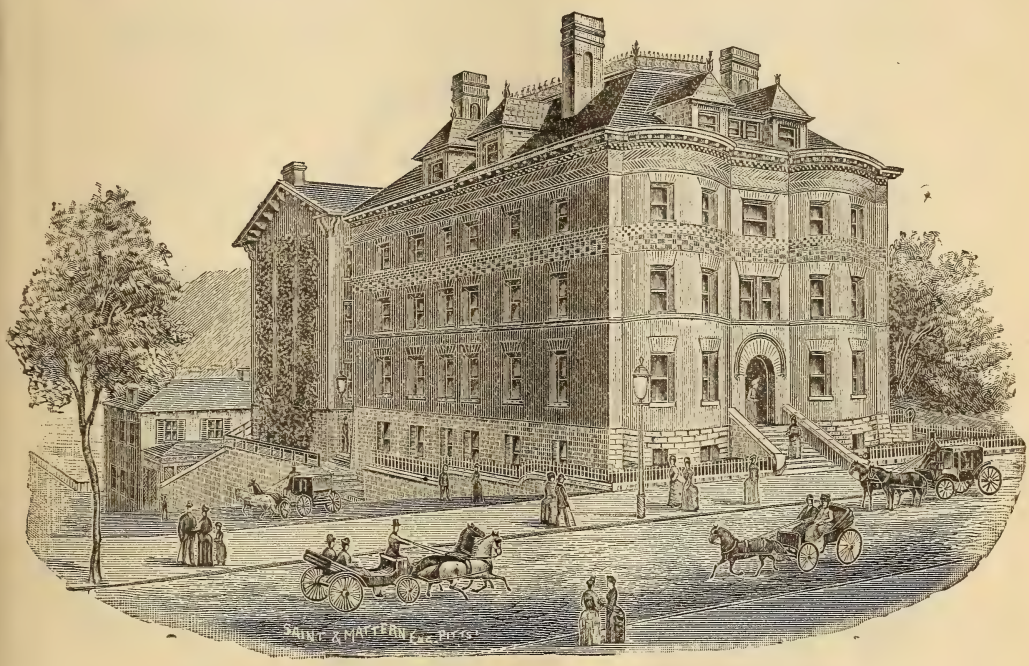
DR. R. S. SUTTON'S

Sanatorium for Diseases of Women.



Seventh Year Opens September 1, 1889.

ALLEGHENY CITY, PA.

This Institution is located on high ground, and overlooks the Allegheny, Monongahela and Ohio rivers; it commands a view of the city of Pittsburgh, and its picturesque surroundings. The building is large and beautiful, it is provided with every modern convenience, the halls are heated by steam, the rooms are commodious, well lighted and ventilated, and heated by open grates. The house is provided with a private parlor and reading-room for patients. The dining-room is large, handsomely finished, and furnished with small tables, securing privacy at meals for those who do not care to have meals served in their own rooms. Patients can be as secluded, should they desire it, as in a well appointed hotel. Each patient is examined by Dr. Sutton, and receives his daily personal attention, while Dr. J. H. Williamson, a physician of ample hospital experience, resides in the Institution, and has, under Dr. Sutton, the immediate care of the patients. The Institution accommodates 25 patients, and is equal in comfort to the best hotels.

Electricity, baths, douches, massage, local treatment, general medication and surgical operations are resorted to according to the requirements of each patient.

For further information address the Matron

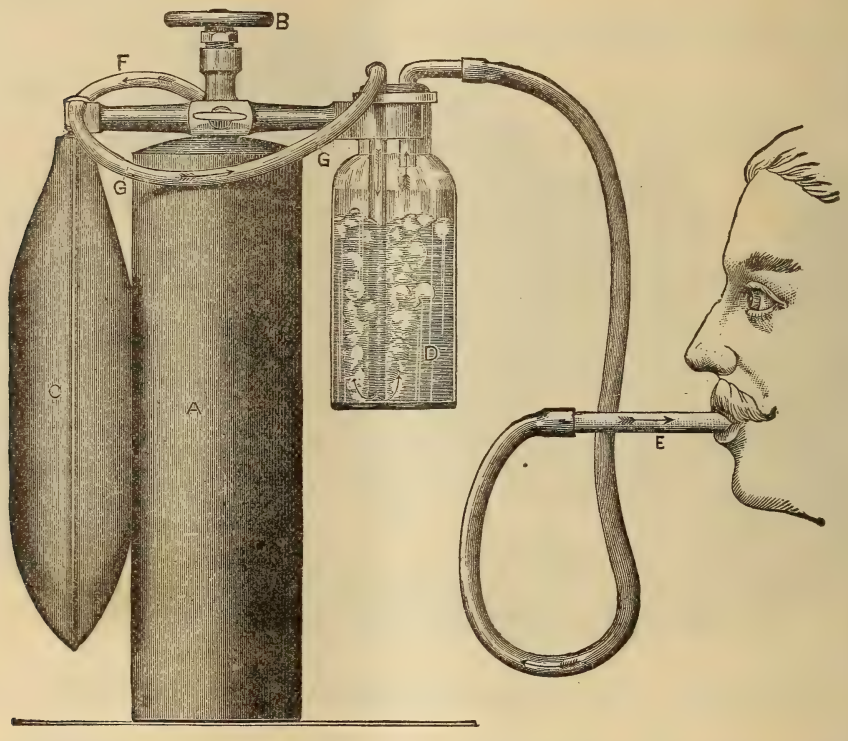
MISS KENNEDY,

170 Ridge Ave., Allegheny, Pa.

INHALATION APPARATUS

FOR

THE THERAPEUTIC ADMINISTRATION OF OXYGEN.



In the treatment of lung troubles by Oxygen its exhibition by inhalation is preferred. The apparatus herewith shown is a modification of the Nitrous Oxide apparatus which we have supplied for many years. It is made in the best manner throughout, and is the outcome of years of experience in the manufacture of gas apparatus. It will be found to meet all the requirements.

We supply the gas in two sizes of cylinders, containing respectively forty and one hundred gallons, either pure Oxygen, or a mixture of Oxygen and Nitrous Oxide in definite proportions of 20 per cent., and forty per cent. of Nitrous Oxide.

Whether pure or mixed the gas is sold at the uniform price of 5 cents a gallon. The cost of the cylinders will be refunded on their return empty with the valves in good condition. Full description of Inhalation and Enema apparatuses with directions for use accompany each apparatus, or will be supplied on application.

PRICES.

Inhalation Apparatus	$5.00
Cylinder, 40 gallons' capacity	6.00
40 gallons Gas, either pure Oxygen or mixed Oxygen and Nitrous Oxide	2.00
Complete Apparatus, Cylinder, and 40 gallons Gas	$13.00
Inhalation Apparatus	$5.00
Cylinder, 100 gallons' capacity	15.00
100 gallons Gas, either pure or mixed	5.00
Complete Apparatus, Cylinder, and 100 gallons Gas	$25.00

THE BEST ANTISEPTIC
FOR BOTH INTERNAL AND EXTERNAL USE.

ANTISEPTIC, PROPHYLACTIC, DEODORANT.

LISTERINE

NON-TOXIC, NON-IRRITANT, NON-ESCHAROTIC.

FORMULA—Listerine is the essential antiseptic constituent of Thyme, Eucalyptus, Baptisia, Gaultheria and Mentha Arvensis, in combination. Each fluid drachm also contains two grains of refined and purified Benzo-boracic Acid.

DOSE—Internally: One teaspoonful three or more times a day (as indicated) either full strength, or diluted, as necessary for varied conditions.

LISTERINE is a well-proven antiseptic agent—an antizymotic—especially adapted to internal use, and to make and maintain surgical cleanliness—asepsis—in the treatment of all parts of the human body, whether by spray, irrigation, atomization, or simple local application, and therefore characterized by its particular adaptability to the field of

PREVENTIVE MEDICINE—INDIVIDUAL PROPHYLAXIS.

Diseases of the Uric Acid Diathesis.

LAMBERT'S

LITHIATED HYDRANGEA

KIDNEY ALTERATIVE—ANTI-LITHIC.

FORMULA—Each fluid drachm of "Lithiated Hydrangea" represents thirty grains of FRESH HYDRANGEA and three grains of CHEMICALLY PURE Benzo-Salicylate of Lithia. Prepared by our improved process of osmosis, it is INVARIABLY of DEFINITE and UNIFORM therapeutic strength, and hence can be depended upon in clinical practice.

DOSE—One or two teaspoonfuls four times a day (preferably between meals).

Urinary Calculus, Gout, Rheumatism, Bright's Disease, Diabetes, Cystitis, Hæmaturia Albuminuria, and Vesical irritations generally.

We have much valuable literature upon { GENERAL ANTISEPTIC TREATMENT, LITHEMIA, DIABETES, CYSTITIS, ETC. } To forward to Physicians upon request.

21 Park Place N.Y.

Geo Hamlin Prest. Chas Roome Parmele Treas.

GENTLEMEN:

The Case of your wines sent me for analysis by Dr. A. L. Hummel, of the "Annals of Hygiene," containing specimens of your La Rosa Zinfandel, Mataro, Riesling, Royal Tokay, and Royal Grape Brandy, has been duly received.

I have examined them for the common contaminants of wine; to wit: Sulphurous acid and sulphites, salicylic acid, fuchsin, lead salts, etc., none of which I found present therein.

I have also determined their alcoholic strength, extractives, and ashes, and found them to correspond strictly in this respect with the standard of pure and natural wines, which cannot be said of many of the imported wines.

As a native of a wine-producing country, I consider myself somewhat of a judge of wines, and regard your products as comparing more than favorably with most of the wines from abroad which are sold at higher prices, so much so that I enclose within my order for fifty bottles of La Rosa Zinfandel, which I expect to use hereafter exclusively at my table.

Very Respectfully,

L. WOLFF, M.D.,
Demonstrator of Chemistry, Jefferson Medical College.

CEREBRAL EXHAUSTION

HORSFORD'S ACID PHOSPHATE.

It has been shown that the phosphates are found in excess in the urine in cases where the nerve centres (the brain and spinal cord) have been overworked, or subjected to undue labor, and the opinion is confirmed that there is a received relation between an excess of phosphates in the urine, and intellectual exercise.

This preparation supplies the phosphates and phosphoric acid, is readily assimilated, pleasant to the taste, and aids digestion.

Dr. S. A. HARVEY, Cheboygan, Mich., says:

"I have used it with marked benefit, in several cases of cerebral irritation."

Send for descriptive circular. Physicians who wish to test it will be furnished a bottle on application, without expense, except express charges.

Prepared under the direction of Prof. E. N. HORSFORD, by the

Rumford Chemical Works, Providence, R. I.

Beware of Substitutes and Imitations.

CAUTION:—Be sure the word "HORSFORD'S" is printed on the label. All others are spurious. Never sold in bulk.

A Phosphorized Cerebro-Spinant

(FRELIGH'S TONIC).

FORMULA.

Ten minims of the Tonic contain the equivalents (according to the formulæ of the U. S. P., and Dispensatory) of

Tinct. Nux Strychnos,	1 minim.
" Ignatia Amara,	1 "
" Cinchona,	4 "
" Matricaria,	1 "
" Gentian,	½ "
" Columbo,	½ "
" Phosphorus, C. P.,	1-300 gr.
Aromatics,	2 minims.

Dose: 5 to 10 drops in 2 tablespoonfuls of water.

INDICATIONS.

Paralysis, Neurasthenia, Sick and Nervous Headache, Dyspepsia, Epilepsy, Locomotor Ataxia, Insomnia, Debility of Old Age, and in the Treatment of Mental and Nervous Diseases.

A BALTIMORE PHYSICIAN, WHOSE DIPLOMA DATES FROM 1825, SAYS:

"Your combination I find vastly more effective than any tonic I have ever used. It furnishes a most powerful evidence of the vastly increased power of medicament by combination and judicious pharmaceutic preparation."

Price, One Dollar per Bottle, containing 100 of the Average 5-Drop Doses.—Physicians' single sample delivered, charges prepaid, on application. That every physician may be his own judge of its value, irrespective of the opinions of others, we make the following

SPECIAL OFFER:

We will send to any physician, delivered, charges prepaid, on receipt of twenty-five cents, and his card or letter-head, half a dozen physicians' samples, sufficient to test it on as many cases for a week to ten days each. The Tonic is kept in stock regularly by all the leading wholesale druggists of the country. As we furnish no samples through the trade, wholesale or retail, for samples, directions, price-lists, etc., address,

I. O. WOODRUFF & CO.,

Manufacturers of Physicians' Specialties,

Apollinaris

"THE QUEEN OF TABLE WATERS."

The filling at the Apollinaris Spring (Rhenish Prussia), amounted to

11,894,000 BOTTLES IN **1887,**
12,720,000 BOTTLES IN **1888** AND
15,822,000 BOTTLES IN **1889.**

"The annual consumption of this favorite beverage affords a striking proof of the widespread demand which exists for table water of absolute purity, and it is satisfactory to find that, wherever one travels, in either hemisphere, it is to be met with; it is ubiquitous, and should be known as the cosmopolitan table water. 'Quod ab omnibus, quod ubique.'"—BRITISH MEDICAL JOURNAL.

THE BEST NATURAL APERIENT.

THE APOLLINARIS COMPANY, LIMITED, London, beg to announce that, as numerous APERIENT WATERS are offered to the public under names of which the word "Hunyadi" forms part, they have now adopted an additional Label comprising their Registered Trade Mark of selection, which consists of

A RED DIAMOND.

This Label will henceforth also serve to distinguish the HUNGARIAN APERIENT WATER SOLD BY THE COMPANY from all other Aperient Waters.

DEMAND THE 
DIAMOND MARK.

And insist upon receiving the HUNGARIAN APERIENT WATER of the APOLLINARIS COMPANY, LIMITED, London.

THE VALUE OF NUTRITION IN DISEASE.

All physicians who have ever used Murdock's Liquid Food and Suppositories recognize their value over all other foods, in breaking up disease and building up the patients after disease, preventing a relapse, **as the same results are obtained as in surgery.** Its value in surgical cases we illustrate by the records of the different cities and of Murdock's Free Surgical Hospital for Women, which is the largest in the United States. It contains 114 beds, every bed free, including operation, the operations ranging from 1000 to 1200 yearly, representing 90 of the worst classes known in surgery. Among these cases we have had **Cancer of uterus** (*Kolpo-hysterectomy*), 13; **Salpingitis** (*Tait's operation*), 31; **Fibroid of uterus** (*abdominal hysterectomy*), 19; **Ventral operation, hernia,** (*abdominal section*), 12; **Cancer of bowel** (*incision*), 2; **Parovarian cyst, 6; Papillomatous cyst** (*extirpation*), 4; **Tubercular peritonitis** (*incision*), 1, **Ovarian cystoma 27; Nymphomania** (*Battey*), 1; **Exploratory abdominal incisions, 12; Fibroid with abdominal abscess** (*Hegar*), 2; **Hysterorraphy, 2; Dermoid cyst, 3; Cirrhotic ovaries,** (*Battey*), 4; **Fibroid uterus** (*Hegar*), 6; **Hystero-epilepsy** (*Battey*), 1; **Haemato-Salpinx** (*Tait*), 5; **Rupture of intestine into vagina, 1; Dislocated kidney, 2; Fibroid tumor abdominal wall, 1; Resection of intestine** (*Senn*), 1; **Ruptured perineum, 294.** Patients are in the Hospital 8 days before and 26 days after operation, on an average.

In Boston, last year, 42 deaths were from Cancer in the Breast. In Murdock's Hospital, 35 such cases were operated on without a death, the patients remaining in the Hospital, on an average, 18 days.

Mortality	in Boston,	25.60	per 1000.
"	of Women in Boston,	29,00	" "
"	**in Murdock's Free Surgical Hospital,**	**5.00**	" "
"	New York,	26.32	" "
"	Philadelphia,	20.00	" "
"	Chicago,	20.90	" "
"	St. Louis,	20.49	" "

showing our mortality is only one-sixth as great as of those in health. As good results were obtained in our General Hospital, which we kept open 27 months, **thus showing the value of nutrition as found in Murdock's Liquid Food, and so recognized by the British and American Medical Associations,** before which essays were read and discussed, and it is the only Raw food preparation on which essays were ever read.

Physicians are invited to visit our Hospitals and Works, also to send in patients and to be present at the operations. For any physician who has not used our Liquid Food (and Suppositories for adults and infants), we will deliver free samples to any express company in Boston.

When babies do not thrive, never change their food, but add five or more drops at each feeding of Murdock's Liquid Food, and their lost or needed vitality will be restored in less than thirty days. It is invaluable when weaning babies or when teething. If mothers will take one teaspoonful to a tablespoonful before each meal and on retiring, they will receive as much benefit as the baby.

Murdock Liquid Food Co., Boston.

GOUDRON DE BLOUNT

PREPARED FROM THE GENUINE CAROLINA TAR.

DOSE.—One fluid drachm four or more times a day (as indicated), either full strength, diluted, or, in combination.

INDICATIONS.—Chronic and acute affections of the Air Passages, Coughs, Colds, Bronchitis, Asthma and Consumption.

WILLIAM MURRELL, M.D., F.R.C.P.,

Lecturer on Pharmacology and Therapeutics at the Westminster Hospital; Examiner in Materia Medica to the Royal College of Physicians of London; Fellow of the Medico-Chirurgical College of Philadelphia,

Says:—"I have used with success 'Goudron de Blount.' The results have been good, and the preparation is popular with patients."

CHEMISTS' CORPORATION,

Clinical Notes sent on Application. ST. LOUIS, MO.

Permanent Pepsin.

THE INSEPARABLE STANDARDS OF VALUE ARE PERMANENCY AND ACTIVITY.

WHEN a physician prescribes pepsin and his patient finds that it "sticks to the paper," that it forms a gummy mass "in powders," he may rely upon it that FAIRCHILD'S PEPSIN has not been dispensed; if he has ordered Fairchild's, this behavior is positive evidence that he and his patient have been the victims of "substitution."

Pepsins which are hygroscopic, which do undergo upon exposure to air the changes characteristic of peptone, are offered (in the form of scales and in powder) with pretensions to permanent quality.

If a product is sought, of well-proven permanency and of highest standard of activity, FAIRCHILD'S PEPSIN is the one which will never give cause for complaint.

Fairchild's was the original "Scale Pepsin;" the first positively "free from starch, sugar, acid, peptones or any added substance." The host of imitations of "Scale Pepsin" bear witness to the value and reputation of the original.

FAIRCHILD BROS. & FOSTER,

82 and 84 Fulton Street, New York.

ALETRIS CORDIAL

UTERINE TONIC AND RESTORATIVE.

Prepared from the Aletris Farinosa or True Unicorn and Aromatics.

INDICATIONS.

Amenorrhea, Dysmenorrhea, Leucorrhea, Prolapsus Uteri, Sterility, to Prevent Miscarriage, Etc.

DOSE:—ONE TEASPOONFUL THREE OR FOUR TIMES A DAY.

UNRIVALED AS A UTERINE TONIC IN IRREGULAR, PAINFUL, SUPPRESSED AND EXCESSIVE MENSTRUATION.

It Restores Normal Action to the Uterus, and Imparts Vigor to the Entire Uterine System.

☞Where women have miscarried during previous pregnancies, or in any case where miscarriage is feared, the ALETRIS CORDIAL is indicated, and should be continuously administered during entire gestation.

CHAS. CLAY, M. R. C. S., Manor House, Dewsbury, England, says:—I find Aletris Cordial (Rio) is of great service in threatened miscarriage.

FRANCIS E. CANE, L. R. C. S., &c., Leeds, England, says:—I have tried the Aletris Cordial (Rio) in two cases of long standing dysmenorrhea, with excellent results. One of these patients has spent a week in bed every month for two years. After all the usual remedies, I put her on Aletris Cordial, and for the last two periods she has been out and about all the time.

L. M. WATSON, M. D., Delhi, Ills., says:—I have used Aletris Cordial (Rio) in cases of dysmenorrhea. suppressed menses and threatened miscarriage, and also, combined with Celerina, as a tonic after confinement, with the happiest results, and now I am using it on a case of leucorrhea, with injections of S. H. Kennedy's Extract of Pinus Canadensis, and it is acting like a charm.

P. H. OWEN, M. D., Morganville, Ala., says:—I have prescribed Aletris Cordial (Rio) in several cases with the most satisfactory results, and regard it as the best uterine tonic I have met with in a professional experience of over twenty-five years. In cases of threatened miscarriage it acts like a charm. Would recommend its continuous administration in all cases when there is any indication of miscarriage.

Dr. W. BERTHELOT, Santander, Spain, says:—I have tried the Aletris Cordial (Rio), and it has seemed to me to be useful, especially in cases of dysmenorrhea.

Dr. RASQUINET, Jupile, near Liege, Belgium, says:—I tried Aletris Cordial (Rio) in the case of a woman who had had several miscarriages at the end of five months, and who is now again pregnant, having reached the seventh month: thanks to Aletris Cordial.

R. REECE, M. R. C. S., Walton-on-Thames, England, says:—Aletris Cordial (Rio) in painful menstruation is most valuable. A wife of a minister suffered much, and had had three miscarriages. I prescribed Aletris Cordial. She has for the first time, gone her full time, and was safely confined with a male child.

J. T. COLLIER, M. D., Brooks, Me., says:—I have used your Aletris Cordial (Rio) in cases of females at the menopause. Consider it one of the finest remedies for these cases.

Dr. GORDILLON, St. Amand, France, says: I have tried the Aletris Cordial (Rio) in a case of dysmenorrhea. The result I obtained from the use of your preparation was excellent, better than I had obtained in the same patient by prescribing the usual remedies employed in such cases.

W. F. TOOMBS, M. D., Morrillton, Ark., says:—I have used a great deal of your Aletris Cordial (Rio) and I find it all you claim for it in amenorrhea, dysmenorrhea, metritis, leucorrhea; I don't think it has an equal. I have used it in two cases of threatened miscarriage and the trouble was obviated. For a general Uterine Tonic I know of nothing superior.

R. D. PATTERSON, L. R. C. S. &c., Medical Officer, Caledon Dispensary, Co. Tyrone, Ireland, says:—I have very great pleasure in testifying to the very high opinion I hold of Aletris Cordial (Rio) in threatened miscarriage.

BOUDAULT'S PEPSINE

The only Pepsine used in the Hospitals of Paris for the last Thirty Years.

Unlike the various substitutes which, in most cases, are but unscientific or incompatible compounds, forced upon the Medical Profession as aids to digestion by extensive advertising, but which, when submitted to the proper tests, are found to be useless as digestive agents, Pepsine is constantly gaining in the esteem of the careful practitioner.

Since the introduction of Pepsine by Boudault and Corvisart in 1854, the original BOUDAULT'S PEPSINE HAS BEEN AT ALL TIMES CONSIDERED THE BEST, as is attested by the awards it has received at the Expositions of 1867, 1868, 187 1873, in 1876 at the Centennial Exposition of Philadelphia, and in 1878 at the Paris Exposition.

The most reliable tests, carefully applied, will satisfy everyone that BOUDAULT'S PEPSINE HAS A MUCH HIGHER DIGESTIVE POWER than the best Pepsines now before the Profession, and is therefore especially worthy of their attention.

BOUDAULT'S PEPSINE is prepared in the form of Pepsine Acid and Pepsine Neutral. It is sold in bottles of one ounce, with a measure containing exactly five grains; also in bottles of four, eight, and sixteen ounces for dispensing.

BOUDAULT'S WINE OF PEPSINE

FORMULA OF DR. CORVISART.

The taste of Pepsine being perfectly disguised in this Wine, it may be recommended to persons who have difficulty in taking Pepsine in the form of Powder. This Wine is tested so that a tablespoonful of it is equal in digestive power to ten grains of Boudault's Pepsine in powder. Sold only in bottles of eight ounces.

TANRET'S PELLETIERINE

For the Treatment of Tape-Worm (Tænia Solium).

This New Tænifuge, the Active Alkaloid of Pomegranate Bark, has of late come into extensive use in France for the treatment of Tape-Worm (Tænia Solium). The results of numerous experiments with it at the Marine Hospitals of Toulon, St. Mandrier, etc., and in the Hospitals of Paris, St. Antoine, La Charité, Necker Beaujon, etc., have all been most satisfactory. Doctor Dujardin Beaumetz, Member of the Academy of Medicine, and Professor Laboulbene, in their report to the Society of Therapeutics, have given it their unqualified approval, after the most searching experiments. This preparation is pleasant to administer, and, if certain preliminaries are observed, success will be insured.

Sold only in bottles containing one dose.

DUCRO'S ALIMENTARY ELIXIR

A Combination uniting the properties of Alcoholic Stimulants and Raw Meat.

This preparation, which has been used with great success in the hospitals of Paris since 1868, is adapted to the treatment of all diseases requiring administration, in a small volume, of a tonic able to stimulate and support the vital forces, as *Pulmonar Phthisis, Depression and Nervous Debility, Adynamia, Malarious Cachexia, etc.*

Prepared by EMILE DURIEZ & CO., Successors to DUCRO & CIE, Paris.

KIRKWOOD'S INHALER

This is the only complete, reliable, and effective inhaler in use, arranged for the direct application of Muriate of Ammonia and other remedial agents in the state of vapor to the diseased parts of the air-passages in the treatment of catarrh and diseases of the throat and lungs. No heat or warm liquids required in its use.

It is entirely different from the various frail, cheap instruments that have been introduced.

KIRKWOOD'S INHALER is accompanied by testimonials of the highest professional character, together with carefully prepared formulas for use.

RETAIL PRICE, COMPLETE, $2.50.

☞ A liberal discount allowed to the trade and profession. For descriptive pamphlet or other information address

E. FOUGERA & CO., 30 North William St., New York,

Sole Agents for the above Preparations.

DOCTOR, thousands of Infants die from Artificial Feeding who would live and thrive if their Mothers were enabled to yield good milk copiously by using Nutrolactis, the Galactagogue.

UNIVERSITY OF PENNSYLVANIA.—Medical Department.

The 124TH ANNUAL WINTER SESSION began Tuesday, October 1st, 1889, at 12 M., and will continue until May 1st, 1890.
The PRELIMINARY SESSION began September 18th, 1889.
The curriculum is graded and three annual winter sessions are required. Practical instruction, including laboratory work in Chemistry, Histology, Osteology and Pathology, with Bedside Instruction in Medicine, Surgery and Gynecology are a part of the regular course and without additional expense.

FACULTY.

JOSEPH LEIDY, M.D., LL.D., Professor of Anatomy.
D. HAYES AGNEW, M.D., LL.D., Honorary Professor of Clinical Surgery.
WILLIAM PEPPER, M.D., LL.D., Professor of Theory and Practice of Medicine, and of Clinical Medicine.
WILLIAM GOODELL, M.D., Professor of Gynecology.
JAMES TYSON, M.D., Professor of Clinical Medicine.
HORATIO C. WOOD, M.D., LL.D., Professor of Materia Medica, Pharmacy and General Therapeutics.
THEODORE G. WORMLEY, M.D., LL.D., Professor of Chemistry and Toxicology.
JOHN ASHHURST, JR., M.D., Professor of Surgery and of Clinical Surgery.
EDWARD T. REICHERT, M.D., Professor of Physiology.
WILLIAM F. NORRIS, M.D., Honorary Prof. of Ophthalmology
BARTON COOKE HIRST, M.D., Professor of Obstetrics.
J. WILLIAM WHITE, M.D., Professor of Clinical Surgery.
JOHN GUITÉRAS, M.D., Professor of General Pathology and Morbid Anatomy.
GEORGE A. PIERSOL, M.D., Professor of Histology and Embryology.
SAMUEL G. DIXON, M.D., Professor of Hygiene.

WESTERN PENNSYLVANIA MEDICAL COLLEGE

CITY OF PITTSBURGH.

SESSIONS OF 1889—90.

The REGULAR SESSION begins on the last Tuesday of September, and continues six months. During this session, in addition to four Didactic Lectures, two or three hours are daily allotted to Clinical Instruction. Attendance upon two regular courses of lectures is requisite for graduation. A three years' graded course is also provided. The SPRING SESSION embraces recitations, clinical lectures and exercises, and didactic lectures on special subjects; this session begins the second Tuesday in April, and continues ten weeks.

The laboratories are open during the collegiate year for instruction in chemistry, microscopy, practical demonstrations in medical and surgical pathology, and lessons in normal histology. Special importance attaches to "the superior clinical advantages possessed by this College." For particulars, see annual announcement and catalogue, for which, address the Secretary of Faculty, Prof. J. W. J. McKENNAN.

Business correspondence should be addressed to
PROF. W. J. ASDALE, 2107 Penn Avenue, Pittsburgh.

NATIONAL MEDICAL COLLEGE.

MEDICAL DEPARTMENT OF THE

COLUMBIAN UNIVERSITY,

WASHINGTON, D. C.

The 68th Annual Session will begin October 7th and end March 1st. Graded three years' course required. Women admitted. Professors: J. F. Thompson, W. W. Johnston, A. F. A. King, E. T. Fristoe, Wm. Lee, D. W. Prentiss, D. K. Shute.

For circulars, address
A. F. A. KING, M. D., DEAN, 726 THIRTEENTH ST., N. W., WASHINGTON D. C.

DETROIT COLLEGE OF MEDICINE.

SESSION 1889-90.

Clinical and Practical teaching are made an important feature of this College. Clinical instruction is given daily at HARPER, ST. MARY'S and ST. LUKE'S HOSPITAL, at the COLLEGE, at COLLEGE EYE and EAR INFIRMARY, ST. MARY'S FREE EYE and EAR INFIRMARY, and at the three FREE DISPENSARIES. The facilities offered by this college are unsurpassed for the practical study of MEDICINE, SURGERY, OBSTETRICS, GYNÆCOLOGY, DISEASES OF CHILDREN, GENITO-URINARY, and ORTHOPÆDIC SURGERY, OPHTHALMOLOGY and OTOLOGY, DERMATOLOGY and LARYNGOLOGY.

REGULAR SESSION opens on Wednesday, Sept. 25, and continues six months. During the session, the Professors will take special pains to examine the Students upon the subjects of the previous lectures.

SPRING SESSION begins April 2d, 1890; and closes June 11th.

FEES.—Matriculation fee, $5; Fees for Regular Session, $50; Spring Session, $10, to those who attend the regular term—to all others, $25; Hospital Fee, $10; Graduation Fee, $30; Perpetual Ticket, $100.

The Acutely Ill.

When a patient is acutely ill, the digestive powers share in the general condition, and consequently the food supplied should be of the most easily assimilable character. The predigestion of starchy matters outside the body, as in MELLIN'S FOOD, is necessary, and the soluble carbohydrates of which this food consists, soluble because predigested, form the true food of the acutely ill.—J. MILNER FOTHERGILL, M.D., Edin.

A sample of MELLIN'S FOOD *will be sent to any physician, free of expense, upon application.*

Doliber-Goodale Co., Boston, Mass.

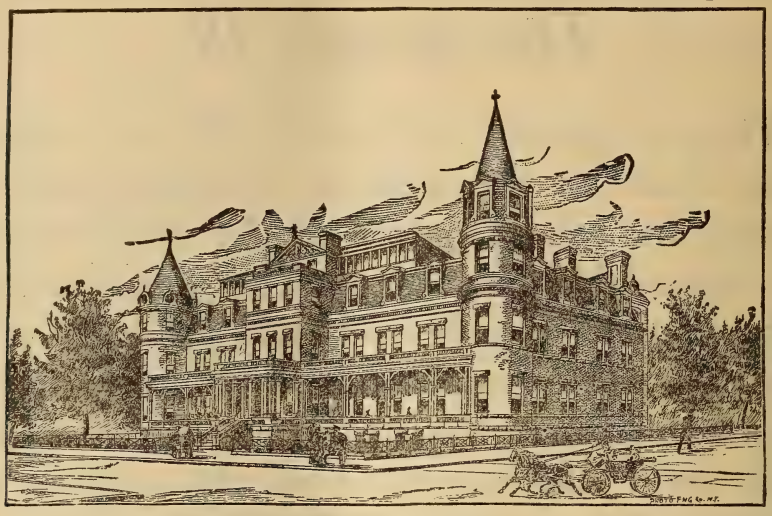
DR. WILLIAM A. HAMMOND'S SANITARIUM,

FOR DISEASES OF THE NERVOUS SYSTEM, Washington, D. C.



DR. WILLIAM A. HAMMOND announces to the medical profession that he has returned from New York to Washington, D. C., where he has established, in a building especially erected for the purpose, a *Sanitarium* for the treatment of mild and curable cases of mental derangement, diseases of the nervous system generally, cases of the morphia and chloral habits, and such other affections as may properly be treated by the remedial agencies under his control.

The *Sanitarium* is situated on Columbia Heights, at the corner of Fourteenth Street and Sheridan Avenue. The position is the highest in the immediate vicinity of Washington, the soil is dry, and all the surroundings are free from noxious influences. Electricity in all its forms, baths, douches, massage, inhalations, nursing, etc., are provided as may be required by patients, in addition to such other medical treatment as may be deemed advisable.

A large *Solarium* for sun-baths and exercise in cold or inclement weather and heated with steam in winter, is constructed on the top of the main building.

The *Sanitarium* has now been in successful operation since the 7th of January, 1889.

For further information Dr. Hammond can be addressed at The Sanitarium, Fourteenth Street and Sheridan Avenue, Washington, D. C.

FRENCH, RICHARDS & CO.'S

COMPRESSED TABLETS,

PHENACETIN, ... 3 and 5 grains.
ANTIPYRIN, ... 3 and 5 grains.
PHENACETIN and SALOL, ... 2½ grains each.
QUININE, Sulphate and Bi-Sulphate, ... ½, 1, 2, 3, 4, and 5 grs.

These Compressed Tablets, or more correctly compressed powders, are made from the purest materials without the use of any excipient. Smooth and elegant in appearance; uniform in size; regular in weight. Our Compressed Tablets are distinguished by their ready solubility.

COMPRESSED ANTISEPTIC TABLETS.

Each Tablet contains:
7.3 grains, ... Hydrarg. Bichlor.
7.7 grains, ... Ammon. Chlor.

One Tablet dissolved in one pint of water will make a 1 to 1,000 solution, containing 1 part of Corrosive Sublimate in 1000 parts of water. Put up in pounds, half pounds, quarter-pounds, and bottles containing respectively 100 and 25 Tablets each.

COMPRESSED ANTISEPTIC PASTILLES.

(Dr. Carl Sieler's Formulæ.)

For making Antiseptic Sprays, Nasal Wash, Mouth Wash, etc., one Tablet dissolved in four tablespoonfuls of warm water makes a solution which can be used as a spray or wash. Put up in screw-capped bottles containing 50 Pastilles each, also in one pound bottles, half-pound bottles, and quarter-pound bottles.

N. B.—These Pastilles must not be confounded with our Antiseptic Tablets, which contain Corrosive Sublimate, and are used as a germicide.

A full line of Compressed Tablets of approved formulæ always in stock.

These preparations are obtainable from the retail drug trade or can be had on application to the manufacturers,

FRENCH, RICHARDS & CO.,

1001, 1003, and 1005 MARKET STREET, Phila.

MEDICAL AND SURGICAL REPORTER,

P. O. BOX 843. PHILADELPHIA.

Doctor:

Did you ever think of the philosophy of a course of treatment by the Hypophosphites of Lime and Soda?

It affords a most beautiful study in physiological repair. It is firmly based on Virchow's principles of cellular pathology.

When a plant is not thriving well the horticulturist treats it, not with medicine, but with its appropriate plant food. We should draw a lesson from this more often than we do.

Thousands of cases die every year, and thousands of others pass into hopeless invalidism, simply because the first perversions of nutrition are not corrected by supplying the system in abundance with the appropriate tissue food. As lime and soda are so abundantly found in animal tissues, and are necessary to unite with the organic elements in the formation of new cells, it must be evident that most of the departures from health are due to a lack of the proper proportion of these elements supplied to the tissues.

These errors of nutrition, if taken at the beginning, are quickly and easily corrected; but if they are allowed to go on until grave anatomical lesions are produced, or profound alterations of the nervous system are established, the cure must be slow and gradual, yet none the less sure if the treatment be continued.

A very important particular in prescribing the Hypophosphites of Lime and Soda is to secure their absolute chemical purity. This is secured and guaranteed in McArthur's Syrup. Its results are uniform and reliable. It is not filled up and complicated with the delusive irritant "tonics."

If at any time you want any other ingredient used it can be added to the prescription.

In McArthur's Syrup you get the chemically pure Hypophosphites of Lime and Soda. It is put up for use in physicians' prescriptions, hence has no labels or directions on the bottle.

Our valuable treatise on "The Curability and Treatment of Consumption" will be sent free to any physician requesting it. Also one bottle of McArthur's Syrup, if you will agree to pay express charges.

PHENACETINE-BAYER IN INFLUENZA.

We have just received advices that Phenacetine-Bayer is being used to advantage both in Russia and Germany, in the treatment of the present epidemic of **INFLUENZA.** It is also being extensively employed in America for the same purpose.

Dr. A. C. HALLAM, Brooklyn, N. Y., states :—"That he has used Phenacetine extensively in the present epidemic of Influenza and has been well pleased with its effects. The rapidity with which it relieves the muscular pains has been very gratifying to him, the patient breaking out in a profuse perspiration, and in a few hours seeming relieved of all but the catarrhal symptoms, which run on and call for other treatment."—*The New York Medical Journal*, Jan. 4, 1890.

221 GENESEE STREET, UTICA, N. Y., January 6, 1890.

To the Editor of the New York Medical Journal:

SIR: I desire to echo the statement made in your last issue by Dr. A. C. Hallam, of Brooklyn, viz.: That in the treatment of fifty cases of influenza I have used phenacetine in five-grain doses repeated hourly until fifteen grains had been taken, and in *every case* the severe muscular pains and headache disappeared; following this with five-grain doses, three times daily, of the salicylate of cinchonidine. The disease disappeared upon the fourth day, and in *no cases* have there been any sequelæ either of bronchitis or pneumonia. Phenacetine, I consider superior in every way to antipyrine and acetanilide.

CHARLES R. WEED, M. D.

Phenacetine-Bayer (Para-Acetphenetidine), prepared by the Farbenfabriken, formerly Friedr. Bayer & Co., Elberfeld, is supplied by us in one-ounce vials and also in the form of our soluble pills, containing two, four, and five grains each. Either form may be obtained of any reputable apothecary.

W. H. Schieffelin & Co.,
170 & 172 WILLIAM STREET,
NEW YORK.

The Acutely Ill.

When a patient is acutely ill, the digestive powers share in the general condition, and consequently the food supplied should be of the most easily assimilable character. The predigestion of starchy matters outside the body, as in MELLIN'S FOOD, is necessary, and the soluble carbohydrates of which this food consists, soluble because predigested, form the true food of the acutely ill.—J. MILNER FOTHERGILL, M.D., Edin.

A sample of MELLIN'S FOOD ***will be sent to any physician, free of expense, upon application.***

Doliber-Goodale Co., Boston, Mass.

A Phosphorized Cerebro-Spinant

(FRELIGH'S TONIC).

FORMULA.

Ten minims of the Tonic contain the equivalents (according to the formulæ of the U. S. P., and Dispensatory) of

Tinct. Nux Strychnos,	1	minim.
" Ignatia Amara,	1	"
" Cinchona,	4	"
" Matricaria,	1	"
" Gentian,	½	"
" Columbo,	½	"
" Phosphorus, C. P.,	1-300	gr.
Aromatics,	2	minims.

Dose: 5 to 10 drops in 2 tablespoonfuls of water.

INDICATIONS.

Paralysis, Neurasthenia, Sick and Nervous Headache, Dyspepsia, Epilepsy, Locomotor Ataxia, Insomnia, Debility of Old Age, and in the Treatment of Mental and Nervous Diseases.

A BALTIMORE PHYSICIAN, WHOSE DIPLOMA DATES FROM 1825, SAYS:

"Your combination I find vastly more effective than any tonic I have ever used. It furnishes a most powerful evidence of the vastly increased power of medicament by combination and judicious pharmaceutic preparation."

Price, One Dollar per Bottle, containing 100 of the Average 5-Drop Doses.—Physicians' single sample delivered, charges prepaid, on application. That every physician may be his own judge of its value, irrespective of the opinions of others, we make the following

SPECIAL OFFER:

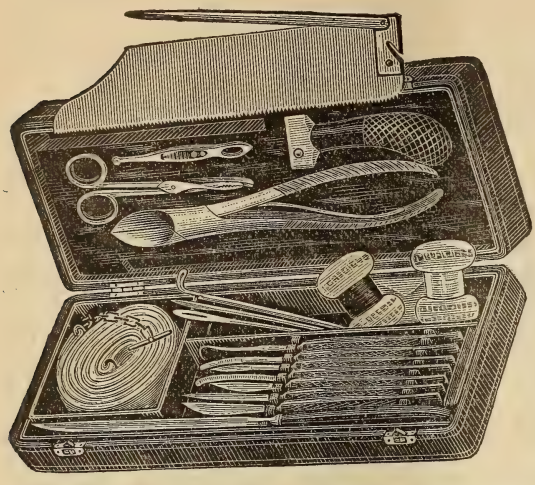
We will send to any physician, delivered, charges prepaid, on receipt of twenty-five cents, and his card or letter-head, half a dozen physicians' samples, sufficient to test it on as many cases for a week to ten days each. The Tonic is kept in stock regularly by all the leading wholesale druggists of the country. As we furnish no samples through the trade, wholesale or retail, for samples, directions, price-lists, etc., address,

I. O. WOODRUFF & CO.,

Manufacturers of Physicians' Specialties,

No. 88 Maiden Lane, New York City.

LENTZ'S ASEPTIC COMPACT OPERATING SET, No. 10.



We have from time to time made improvements to this set and are now making a perfect aseptic set, which offers especial facilities for aseptic precautions; the blades are soldered into hollow German-silver handles, nickel-plated, are light so as not to be unwieldy and admit of a firm grasp when operating.

The saw is adjusted to the handle on an entirely new principle, being made to separate easily and to facilitate thorough cleansing.

The handle is entirely of metal and fenestrated to overcome unnecessary weight.

Scissors and Forceps having French locks can be separated, and the slide can be easily removed from Artery and Needle Forceps.

Therefore, no opportunity is offered for the lodgment and development of germs.

The entire set is patterned with especial reference to facility in cleansing.

The instruments can be sterilized by placing them in boiling water, without fear of damaging them. Wood or rubber handles will not admit of this procedure. For price, see case A.

The following instruments are put up in either a fine Mahogany or Morocco case, with nickel trimmings, lined with velvet, and has an extra space for Trephine with handle, and Elevator if desired.

One Amputating Knife (6 in. blade); One Finger Knife; One Hernia Knife; One Sharp Curved Bistoury; Two Scalpels; One Tenotome; One Tenaculum; One Pair Scissors, curved or flat; One Saw (9 in. blade); One Liston's Bone Forceps, with Spring; One Artery and Needle Forceps, improved; One Esmarch's Flat Rubber Tourniquet, with Chain; One Hæmostatic Forceps; One Director, with Aneurism Needle; Two Silver Probes; Silk, Wire, Wax and Needles.

With the Sixteen Instruments Contained in this Case, any Ordinary Operation may be Performed.

SIZE, 11 INCHES LONG, 4 INCHES WIDE, 2 INCHES HIGH.

A.—German Silver aseptic Handles on Knives and Saw, ... **$34 00**
B.—Hard Rubber aseptic Handles on Knives and Saw, ... **29 00**
C.—Ebony Handles on Knives and Saw (as shown in illustration), ... **25 00**
Either Set, with Trephine and Elevator in addition, ... **4 65**

ANTIFEBRIN IN INFLUENZA!

This use of this Renowned ANTIPYRETIC, ANODYNE, SEDATIVE and NERVINE seems suggested by the following Judgments passed on it by Reputed Authorities in Symptomatically *Allied Complaints:*—

As an **Antifebrile** Dose:—2 to 4 grains *single;* 16 to 32 grains *daily.*—(WEINSTEIN, Vienna.)

As an **Anodyne** and **Nervine** Dose in severest Neurotic and Secondary Pains:—8 to 16 grains, *one to four times per day.*—(DEMIEVILLE, Lausanne.)

Mode of Administration:

"Even the *initial dose* gave evident relief; commonly within half an hour. If this did not suffice to break up the symptoms materially, a second dose followed in an hour or two; at the very utmost a third one was given the same day.

"The remedy was effective and well tolerated at all times; at all hours of the day; on an empty or a full stomach; even during menstruation.

"The form of exhibition was that of *powders*, wrapped in *wafers*. The readier solubility of the Antifebrin in Alcohol indicates the advisability of following the dose by a small draught of Wine or Brandy."—(OTT, Prague.)

ANOTHER MODE OF ADMINISTRATION:—*Dissolve* your Dose (4 to 12 grains) of **ANTIFEBRIN** in ½–1 ounce (1 to 2 Tablespoonfuls) of *Boiling Water*,—stirring for a minute or two, until dissolved. Allow the Solution *to cool down* to about 104 degrees F. (being just comfortably warm) and sweeten to taste, *Before Taking!*—NO ALCOHOL, WINE, or LIQUOR needed with it when thus prepared.

ANTIFEBRIN

was found **Superior** to the **Following** Remedies in **Efficacy**, or in Safety, or in **Both**:—

Antipyrine,—*Quinine*,—*Morphine*,—*Opium*,—CHLORAL HYDRATE—ACONITE,—CAFFEINE,—KAIRINE,—*Salicylic Acid*,—CARBOLIC ACID,—*Bromides*,—IODIDES.

Among the Medical Authorities from whose Clinical and other Published Reports the above-stated PREFERENCES OF ANTIFEBRIN OVER OTHER REMEDIES have been drawn, are the following:

HARE, University of Pennsylvania;—DUJARDIN-BEAUMETZ, Paris;—HERCZEL, Heidelberg;—MURRAY, *Brit. Med. Journal;*—PAVAIVAJNA, *Centralblatt für die gesammte Therapie;*—BARR, Bridgeport, Ill.;—KELL, Delphos, O.;—HAY, New York;—HAAS, Prague.

Antifebrin was also *found to be:*

"Thoroughly *reliable* as an ANTIPYRETIC."—(DEMME, Berne.)

"*Not only* powerfully ANTITHERMIC, but also a most *useful* NERVINE."—(LEPINE, Lyons.)

"A *powerful, safe*, and *certain* ANTITHERMIC agent."—(EVANS, Easton, Pa.)

"*Complete* ANALGETIC effect in nine cases out of every ten."—(FISCHER, Cannstatt.)

RABUTEAU'S DRAGEES OF IRON

Laureate of the Institute of France.—Prize in Therapeutics.

The studies made by the Physicians of the Hospitals have demonstrated that the **Genuine Dragees of Iron of Rabuteau** are superior to all other preparations of Iron in cases of *Chlorosis, Anæmia, Leucorrhœa, Debility, Exhaustion, Convalescence, Weakness of Children*, and the maladies caused by the Impoverishment and Alteration of the blood after periods of fatigue, watching, and excesses of any kind.

TAKE 4 TO 6 DRAGEES DAILY.

Rabuteau's Elixir of Iron is recommended to those persons who may be unable to swallow the Dragees. Dose —*A small wineglassful with meals.*

Rabuteau's Syrup of Iron is specially designed for children. Chalybeate medication, by means of **Rabuteau's Iron**, is the most economical and the most rational known to therapeutics.

No constipation, no diarrhœa, complete assimilation.

Take only the GENUINE IRON OF RABUTEAU of

CLIN & CO., Paris.

SOLUTION OF THE SALICYLATE OF SODA OF DOCTOR CLIN.

Laureate of the Paris Faculty of Medicine (MONTYON PRIZE).

Dr. Clin's Solution, always identical in its composition, and of an agreeable taste, permits the easy administration of *pure Salicylate of Soda*, and the variation of the dose in accordance with the indications presented.

"The *Salicylate of Soda* used by **Clin** is of perfect purity, "and is prepared with the greatest care; it is a medicament "in which we may have every confidence."

—*Paris Society of Medicine, Meeting of Feb. 8th, 1879.*

Clin's Solution, very exactly mixed, contains: 2 grammes of *Salicylate of Soda* per tablespoonful, 50 centigrammes of *Salicylate of Soda* per teaspoonful.

Paris—CLIN & CO.—Paris

NEURALGIAS

PILLS OF DR. MOUSSETTE.

The **Moussette Pills** of aconitine and quinium, calm or cure *Gastralgia, Hemicrania, Headache, Sciatica*, and the most obstinate Neuralgias.

"The sedative action exerted by the **Moussette Pills** "upon the apparatus of the sanguineous circulation by the "intermediation of the vaso-motor nerves, indicates their "use in *neuralgias of the trigemini nerves*, (fifth pair), *con-* "*gestive neuralgias*, and *painful and inflammatory Rheumatismal* "*affections*."

"Aconitine produces marvelous effects in the treatment "of *facial neuralgias* when they are not symptomatic of "intracranial tumor."—*Society of Biology of Paris, Meeting* "*of the 28th February, 1880.*

Dose—Take 3 to 6 pills during the twenty-four hours.

ACCEPT ONLY THE GENUINE MOUSSETTE PILLS OF

CLIN & CO.,—Paris.

GRAND NATIONAL PRIZE OF 16,600 FRANCS,

QUINA-LAROCHE

This meritorious **Elixir, QUINA-LAROCHE,** is prepared from the three Cinchonas; it is an agreeable and doubtless highly efficacious remedy.

—*The Lancet.*

VINOUS ELIXIR,

A STIMULATING RESTORATIVE

—AND—

ANTI-FEBRILE TONIC.

QUINA-LAROCHE under the form of a vinous **Elixir** contains the totality of the numerous principles of the **three** Cinchona barks. It is a preparation which renders great services to Therapeutics.—Extract of the *Gazette des Hôpitaux*, Paris.

FAR SUPERIOR TO ALL ORDINARY CINCHONA WINES.

LAROCHE'S QUINA, tried by the Academy of Medicine of Paris, is a specially prepared COMPOUND EXTRACT of Quinquina, a careful analysis, confirmed by experience, has shown that most of the wines and syrups hitherto used have not contained all the properties of this precious bark, of these some, although beneficial, are altogether lost, while many preparations contain but half the properties of the bark in varying proportions.

MR. LAROCHE, by his peculiar method, has succeeded in extracting all the active principles of the quinquina, combining these with *Catalan Wine* forming an Elixir free from the disagreeable bitterness of other similar preparations. Practitioners have found triple advantages in the use of this Elixir, it is a *strong tonic*, is easily administered, and perfectly harmless, being free from the unpleasant effects of Quinine.

THE FERRUGINOUS QUINA-LAROCHE is the invigorating tonic *par excellence*, having the advantage of being easily assimilated by the gastric juice; without, in any way, deranging the action of the digestive organs, proving itself to be a most efficacious remedy in cases of impoverishment of the blood, ANÆMIA, CHLOROSIS, INTESTINAL HÆMORRHAGE, CASTRALGIA, EXHAUSTION, ETC., ETC.

The 153d Semi-Annual Course of Instruction on Practical Obstetrics, at the Phila. Lying-in Charity's School of Practical Obstetrics will Begin Monday, April 7th, 1890.

The course of Instruction will embrace the same features that have made it so popular in the last few years. There is an abundance of material, and every Student will receive Instruction at the bedside of the LIVING WOMAN, in ACTIVE labor. For application for membership in the class (which is limited) apply to Dr. Charles Meigs Wilson, Surgeon in charge, Phila. Lying-in Charity, S. W. Cor. 11th & Cherry Sts., Phila.

A limited number of advanced or post-graduate Students will be taken for Instruction on Practical Gynecology. All hours will be arranged so as not to interfere with the work at the various Colleges. The Instruction and opportunities of the Lying-in Charity are free to Dr. Wilson's Office Students.

BROMIDIA

THE HYPNOTIC.

FORMULA.—

Every fluid drachm contains 15 grains EACH of Pure Chloral Hydrat. and purified Brom. Pot., and one-eighth grain EACH of gen. imp. ext. Cannabis Ind. and Hyoscyam.

DOSE.—

One-half to one fluid drachm in WATER or SYRUP every hour, until sleep is produced.

INDICATIONS.—

Sleeplessness, Nervousness, Neuralgia, Headache, Convulsions, Colic, Mania, Epilepsy, Irritability, etc. In the restlessness and delirium of fevers it is absolutely invaluable.

IT DOES NOT LOCK UP THE SECRETIONS.

PAPINE

THE ANODYNE.

Papine is the Anodyne or pain-relieving principle of Opium, the Narcotic and Convulsive Elements being eliminated. It has less tendency to cause Nausea, Vomiting, Constipation, Etc.

INDICATIONS.—

Same as Opium or Morphia.

DOSE.—

(ONE FLUID DRACHM)—represents the Anodyne principle of one-eighth grain of Morphia.

IODIA

The Alterative and Uterine Tonic.

FORMULA.—

Iodia is a combination of active principles obtained from the Green Roots of Stillingia, Helonias, Saxifraga, Menispermum, and Aromatics. Each fluid drachm also contains five grains Iod. Potas., and three grains Phos. Iron.

DOSE.—

One or two fluid drachms (more or less as indicated) three times a day before meals.

INDICATIONS.—

Syphilitic, Scrofulous and Cutaneous Diseases, Dysmenorrhea, Menorrhagia, Leucorrhea, Amenorrhea, Impaired Vitality, Habitual Abortions, and General Uterine Debility.

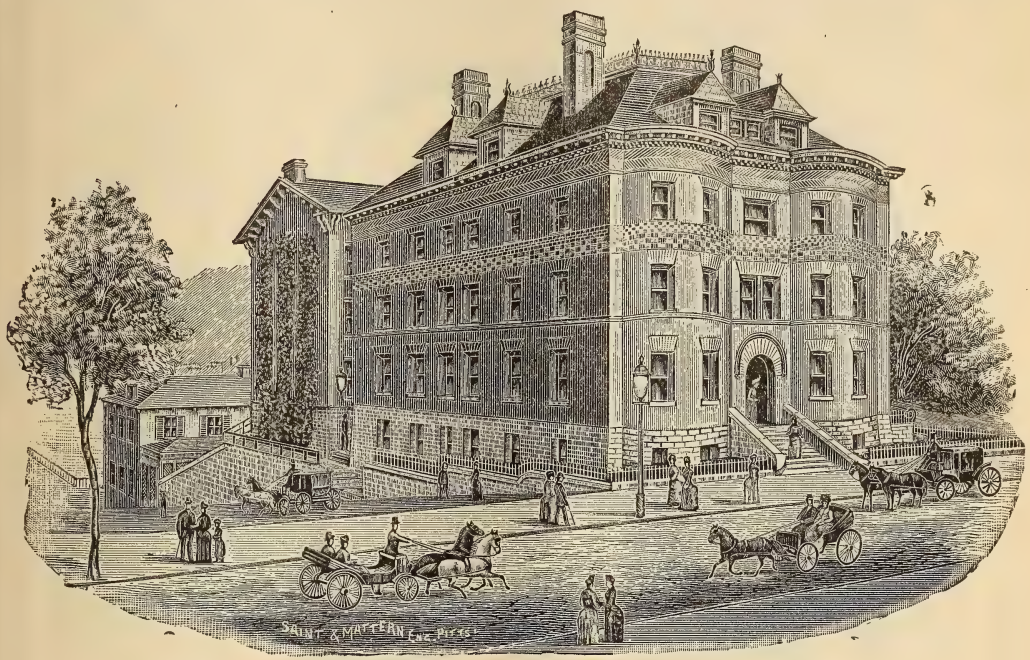
DR. R. S. SUTTON'S

Sanatorium for Diseases of Women.



Seventh Year Opens September 1, 1889.

ALLEGHENY CITY, PA.

This Institution is located on high ground, and overlooks the Allegheny, Monongahela and Ohio rivers; it commands a view of the city of Pittsburgh, and its picturesque surroundings. The building is large and beautiful, it is provided with every modern convenience, the halls are heated by steam, the rooms are commodious, well lighted and ventilated, and heated by open grates. The house is provided with a private parlor and reading-room for patients. The dining-room is large, handsomely finished, and furnished with small tables, securing privacy at meals for those who do not care to have meals served in their own rooms. Patients can be as secluded, should they desire it, as in a well appointed hotel. Each patient is examined by Dr. Sutton, and receives his daily personal attention, while Dr. J. H. Williamson, a physician of ample hospital experience, resides in the Institution, and has, under Dr. Sutton, the immediate care of the patients. The Institution accommodates 25 patients, and is equal in comfort to the best hotels.

Electricity, baths, douches, massage, local treatment, general medication and surgical operations are resorted to according to the requirements of each patient.

For further information address the Matron

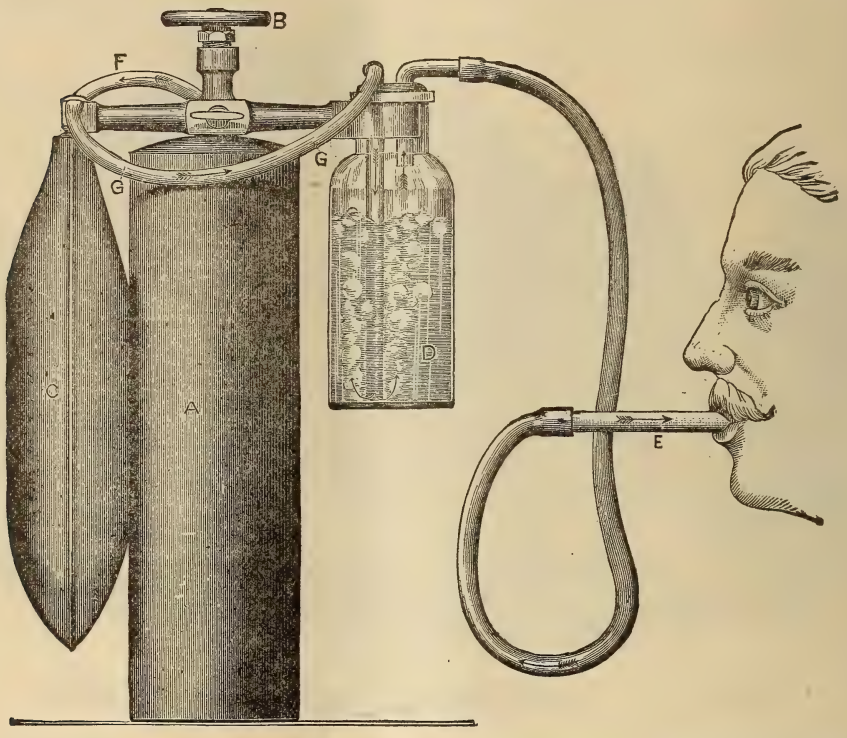
INHALATION APPARATUS

FOR

THE THERAPEUTIC ADMINISTRATION OF OXYGEN.



In the treatment of lung troubles by Oxygen its exhibition by inhalation is preferred. The apparatus herewith shown is a modification of the Nitrous Oxide apparatus which we have supplied for many years. It is made in the best manner throughout, and is the outcome of years of experience in the manufacture of gas apparatus. It will be found to meet all the requirements.

We supply the gas in two sizes of cylinders, containing respectively forty and one hundred gallons, either pure Oxygen, or a mixture of Oxygen and Nitrous Oxide in definite proportions of 20 per cent., and forty per cent. of Nitrous Oxide.

Whether pure or mixed the gas is sold at the uniform price of 5 cents a gallon. The cost of the cylinders will be refunded on their return empty with the valves in good condition. Full description of Inhalation and Enema apparatuses with directions for use accompany each apparatus, or will be supplied on application.

PRICES.

Inhalation Apparatus	$5.00
Cylinder, 40 gallons' capacity	6.00
40 gallons Gas, either pure Oxygen or mixed Oxygen and Nitrous Oxide	2.00
Complete Apparatus, Cylinder, and 40 gallons Gas	$13.00
Inhalation Apparatus	$5.00
Cylinder, 100 gallons' capacity	15.00
100 gallons Gas, either pure or mixed	5.00
Complete Apparatus, Cylinder, and 100 gallons Gas	$25.00

THE BEST ANTISEPTIC
FOR BOTH INTERNAL AND EXTERNAL USE.

ANTISEPTIC. PROPHYLACTIC. DEODORANT.

LISTERINE

NON-TOXIC. NON-IRRITANT. NON-ESCHAROTIC.

FORMULA—Listerine is the essential antiseptic constituent of Thyme, Eucalyptus, Baptisia, Gaultheria and Mentha Arvensis, in combination. Each fluid drachm also contains two grains of refined and purified Benzo-boracic Acid.

DOSE—Internally: One teaspoonful three or more times a day (as indicated) either full strength, or diluted, as necessary for varied conditions.

LISTERINE is a well-proven antiseptic agent—an antizymotic—especially adapted to internal use, and to make and maintain surgical cleanliness—asepsis—in the treatment of all parts of the human body, whether by spray, irrigation, atomization, or simple local application, and therefore characterized by its particular adaptability to the field of

PREVENTIVE MEDICINE—INDIVIDUAL PROPHYLAXIS.

Diseases of the Uric Acid Diathesis.

LAMBERT'S

LITHIATED HYDRANGEA

KIDNEY ALTERATIVE—ANTI-LITHIC.

FORMULA—Each fluid drachm of "Lithiated Hydrangea" represents thirty grains of FRESH HYDRANGEA and three grains of CHEMICALLY PURE Benzo-Salicylate of Lithia. Prepared by our improved process of osmosis, it is INVARIABLY of DEFINITE and UNIFORM therapeutic strength, and hence can be depended upon in clinical practice.

DOSE—One or two teaspoonfuls four times a day (preferably between meals).

Urinary Calculus, Gout, Rheumatism, Bright's Disease, Diabetes, Cystitis, Hæmaturia Albuminuria, and Vesical irritations generally..

We have much valuable literature upon { GENERAL ANTISEPTIC TREATMENT, LITHEMIA, DIABETES, CYSTITIS, ETC. } To forward to Physicians upon request:

LAMBERT PHARMACAL CO., ST. LOUIS, MO.

CALIFORNIA VINTAGE CO.

21 PARK PLACE. N.Y.

Geo Hamlin Prest. Chas Roome Parmele Treas.

GENTLEMEN:

The Case of your wines sent me for analysis by Dr. A. L. Hummel, of the "Annals of Hygiene," containing specimens of your La Rosa Zinfandel, Mataro, Riesling, Royal Tokay, and Royal Grape Brandy, has been duly received.

I have examined them for the common contaminants of wine; to wit: Sulphurous acid and sulphites, salicylic acid, fuchsin, lead salts, etc., none of which I found present therein.

I have also determined their alcoholic strength, extractives, and ashes, and found them to correspond strictly in this respect with the standard of pure and natural wines, which cannot be said of many of the imported wines.

As a native of a wine-producing country, I consider myself somewhat of a judge of wines, and regard your products as comparing more than favorably with most of the wines from abroad which are sold at higher prices, so much so that I enclose within my order for fifty bottles of La Rosa Zinfandel, which I expect to use hereafter exclusively at my table.

Very Respectfully,

L. WOLFF, M.D.,
Demonstrator of Chemistry, Jefferson Medical College.

Champagne ANALYZED

Of Interest to all Medical Practitioners.

WHAT IS SAID BY

THOMAS KING CHAMBERS, M.D., F.R.C.P.
R. OGDEN DOREMUS, M.D.
F. W. PAVY, M.D., F.R.S.

"Champagne, with a minimum of alcohol, is by far the wholesomest, and possesses remarkable exhilarating power."—THOMAS KING CHAMBERS, M.D., F.R.C.P.

"Having occasion to investigate the question of wholesome beverages, I have made a chemical analysis of the most prominent brands of Champagne. I find G. H. Mumm & Co.'s Extra Dry to contain, in a marked degree, less alcohol than the others. I therefore most cordially commend it not only for its purity but as the most wholesome of the Champagnes."—R. OGDEN DOREMUS, M.D., *Professor of Chemistry, Bellevue Hospital Medical College, New York.*

"Champagne, while only possessing the alcoholic strength of natural wines, is useful for exciting the flagging powers in case of exhaustion"—F. W. PAVY, M.D., F.R.S., *Lecturer on Physiology at Guy's Hospital, London.*

The remarkable vintage of 1884 of **C. H. MUMM & CO.'S EXTRA DRY CHAMPAGNE,** the finest for a number of years, is now imported into this market, and pronounced by connoisseurs unsurpassed for excellence and bouquet.

FRED'K DE BARY & CO., New York,

SOLE AGENTS IN THE UNITED STATES AND CANADA.

Permanent Pepsin.

THE INSEPARABLE STANDARDS OF VALUE ARE PERMANENCY AND ACTIVITY.

WHEN a physician prescribes pepsin and his patient finds that it "sticks to the paper," that it forms a gummy mass "in powders," he may rely upon it that FAIRCHILD'S PEPSIN has not been dispensed; if he has ordered Fairchild's, this behavior is positive evidence that he and his patient have been the victims of "substitution."

Pepsins which are hygroscopic, which do undergo upon exposure to air the changes characteristic of peptone, are offered (in the form of scales and in powder) with pretensions to permanent quality.

If a product is sought, of well-proven permanency and of highest standard of activity, FAIRCHILD'S PEPSIN is the one which will never give cause for complaint.

Fairchild's was the original "Scale Pepsin;" the first positively "free from starch, sugar, acid, peptones or any added substance." The host of imitations of "Scale Pepsin" bear witness to the value and reputation of the original.

FAIRCHILD BROS. & FOSTER,

82 and 84 Fulton Street, New York.

Apollinaris

"THE QUEEN OF TABLE WATERS."

The filling at the Apollinaris Spring (Rhenish Prussia), amounted to

11,894,000 BOTTLES IN **1887,**
12,720,000 BOTTLES IN **1888** AND
15,822,000 BOTTLES IN **1889.**

"The annual consumption of this favorite beverage affords a striking proof of the widespread demand which exists for table water of absolute purity, and it is satisfactory to find that, wherever one travels, in either hemisphere, it is to be met with; it is ubiquitous, and should be known as the cosmopolitan table water. 'Quod ab omnibus, quod ubique.'"—BRITISH MEDICAL JOURNAL.

THE BEST NATURAL APERIENT.

THE APOLLINARIS COMPANY, LIMITED, London, beg to announce that, as numerous APERIENT WATERS are offered to the public under names of which the word "Hunyadi" forms part, they have now adopted an additional Label comprising their Registered Trade Mark of selection, which consists of

A RED DIAMOND.

This Label will henceforth also serve to distinguish the **HUNGARIAN APERIENT WATER SOLD BY THE COMPANY** from all other **Aperient Waters.**

DEMAND THE 
DIAMOND MARK.

And insist upon receiving the HUNGARIAN APERIENT WATER of the APOLLINARIS COMPANY, LIMITED, London.

THE VALUE OF NUTRITION IN DISEASE.

All physicians who have ever used Murdock's Liquid Food and Suppositories recognize their value over all other foods, in breaking up disease and building up the patients after disease, preventing a relapse, **as the same results are obtained as in surgery.** Its value in surgical cases we illustrate by the records of the different cities and of Murdock's Free Surgical Hospital for Women, which is the largest in the United States. It contains 114 beds, every bed free, including operation, the operations ranging from 1000 to 1200 yearly, representing 90 of the worst classes known in surgery. Among these cases we have had **Cancer of uterus** (*Kolpo-hysterectomy*), 13; **Salpingitis** (*Tait's operation*), 31; **Fibroid of uterus** (*abdominal hysterectomy*), 19; **Ventral operation, hernia,** (*abdominal section*), 12; **Cancer of bowel** (*incision*), 2; **Parovarian cyst, 6; Papillomatous cyst** (*extirpation*), 4; **Tubercular peritonitis** (*incision*), 1, **Ovarian cystoma 27; Nymphomania** (*Battey*), 1; **Exploratory abdominal incisions, 12; Fibroid with abdominal abscess** (*Hegar*), 2; **Hysterorraphy, 2; Dermoid cyst, 3; Cirrhotic ovaries,** (*Battey*), 4; **Fibroid uterus** (*Hegar*), 6; **Hystero-epilepsy** (*Battey*), 1; **Haemato-Salpinx** (*Tait*), 5; **Rupture of intestine into vagina, 1; Dislocated kidney, 2; Fibroid tumor abdominal wall, 1; Resection of intestine** (*Senn*), 1; **Ruptured perineum, 294.** Patients are in the Hospital 8 days before and 26 days after operation, on an average.

In Boston, last year, 42 deaths were from Cancer in the Breast. In Murdock's Hospital, 35 such cases were operated on without a death, the patients remaining in the Hospital, on an average, 18 days.

Mortality in Boston,	25.60	per 1000.
" of Women in Boston,	29,00	" "
" **in Murdock's Free Surgical Hospital,**	**5.00**	" "

showing our mortality is only one-sixth as great as of those in health. As good results were obtained in our General Hospital, which we kept open 27 months, **thus showing the value of nutrition as found in Murdock's Liquid Food, and so recognized by the British and American Medical Associations,** before which essays were read and discussed, and it is the only Raw food preparation on which essays were ever read.

Physicians are invited to visit our Hospitals and Works, also to send in patients and to be present at the operations. For any physician who has not used our Liquid Food (and Suppositories for adults and infants), we will deliver free samples to any express company in Boston.

When babies do not thrive, never change their food, but add five or more drops at each feeding of Murdock's Liquid Food, and their lost or needed vitality will be restored in less than thirty days. It is invaluable when weaning babies or when teething. If mothers will take one teaspoonful to a tablespoonful before each meal and on retiring, they will receive as much benefit as the baby.

Murdock Liquid Food Co., Boston.

GARDNER'S

SYRUP OF HYDRIODIC ACID,

Introduced in 1878 by R. W. GARDNER.

The Reputation which Hydriodic Acid has Attained During the past Eleven Years was Won by this Preparation.

Numerous Imitations prepared differently, and weaker in Iodine, are offered, from the use of which the same therapeutic effects cannot be obtained.

Caution.—Use no Syrup of Hydriodic Acid which has turned red. This shows decomposition and free Iodine. In this state it acts as an irritant and fails to produce desirable results.

Unprincipled apothecaries substitute imitations when Gardner's Syrup is prescribed, and physicians, failing to get desirable and promised results, attribute the fault, unjustly, to Gardner's Syrup.

THERAPEUTIC INDICATIONS.

Hay Fever; Rose Cold; Poisoning by Lead, Mercury or Arsenic; Acute and Chronic Rheumatism; Asthma; Chronic Bronchitis; Catarrh; Congestion of Lungs in Children; Adenitis; Eczema; Lupus; Chronic Malarial Poisoning; Lumbago; Acute Pneumonia; Psoriasis; Scrofulous Diseases; Goitre; Enlarged Glands; Cold Abscesses; Indolent Sores; Excessive Fat; Fatty Degeneration of the Heart; to absorb non-malignant Tumors; and in the latter stages of Syphilis; Syphilitic Phthisis.

Details of treatment furnished physicians upon application to undersigned without charge.

Gardner's Chemically Pure Syrups of Hypophosphites.

Embracing the separate Syrups of Lime, of Soda, of Iron, of Potassa, of Manganese, and an Elixir of the Quinia Salt; enabling physicians to accurately follow Dr. Churchill's method, by which thousands of authenticated cases of Phthisis have been cured. The only salts, however, used by Churchill in Phthisis are those of Lime, of Soda, and of Quinia, and always separately according to indications,—never combined.

The reason for the use of single Salts is because of antagonistic action of the different bases, injurious and pathological action of Iron, Potassa, Manganese, etc., in this disease.

These facts have been demonstrated by thirty years' clinical experience in the treatment of this disease exclusively, by Dr. Churchill, who was the first to apply these remedies in Medical practice. Modified doses are also required in this disease; seven grains during twenty-four hours being the maximum dose in cases of Phthisis, because of increased susceptibility of the patient to their action, the danger of producing toxic symptoms (as hemorrhage, rapid softening of tubercular deposit, etc.), and the necessity that time be allowed the various functions to recuperate simultaneously; over-stimulation, by pushing the remedy, resulting in crisis and disaster.

A pamphlet of sixty-four pages, devoted to a full explanation of these details and others, such as contra-indicated remedies, indications for the use of each hypophosphite, reasons for the use of absolutely pure Salts, protected in Syrup from oxidation, etc., mailed to physicians without charge upon application to

R. W. GARDNER, 158 William St., N. Y. City.

W. H. SCHIEFFELIN & CO., Sole Wholesale Agents, New York.

CELERINA

NERVE TONIC, STIMULANT AND ANTISPASMODIC.

FORMULA.—Every Fluid Drachm represents FIVE grains EACH—Celery, Coca, Kola, Viburnum and Aromatics.

INDICATIONS.—Loss of Nerve-Power (so usual with Lawyers, Preachers, Writers and Business Men), Impotency, Spermatorrhea, Nervous Headache, Neuralgia, Paralysis, Hysteria, Opium Habit, Inebriety, Dyspepsia, and ALL LANGUID conditions of the System.

Indispensable to restore a patient after alcoholic excess.

DOSE.—One or two Teaspoonfuls three or more times a day, as directed by the Physician.

LIQUID IRON-RIO

Palatable and easily assimilated. Does not produce Nausea, nor irritate the Stomach. Does not Cause Headache, nor Constipate. Does not Stain the Teeth. It is so Acceptable to the Stomach that its Use is Admissible when all other forms of Iron would be rejected. Being so Readily Assimilable, it only requires a small Dose.

Each Fluid Drachm contains ONE GRAIN of Iron in a Pleasant and Digestible Form.

DOSE.—One or more Teaspoonfuls as indicated, during or after meals.

S. H. KENNEDY'S

CONCENTRATED EXTRACT OF

PINUS CANADENSIS

DARK. A NON-ALCOHOLIC LIQUID. WHITE.

A MOST VALUABLE NON-IRRITATING MUCOUS ASTRINGENT.

INDICATIONS.—Albuminuria, Diarrhea, Dysentery, Night-Sweats, Hemorrhages, Profuse Expectoration, Catarrh, Sore Throat, Leucorrhea, and other Vaginal Diseases, Piles, Sores, Ulcers, Burns, Scalds, Gonorrhea, Gleet, Etc.

When Used as an Injection, to Avoid Staining of Linen, the WHITE Pinus should be used.

RECOMMENDED BY PROMINENT EUROPEAN AND AMERICAN PHYSICIANS.

RIO CHEMICAL CO., St. Louis, Mo., U. S. A.

LONDON. PARIS. CALCUTTA. MONTREAL.

BOUDAULT'S PEPSINE

The only Pepsine used in the Hospitals of Paris for the last Thirty Years.

Unlike the various substitutes which, in most cases, are but unscientific or incompatible compounds, forced upon the Medical Profession as aids to digestion by extensive advertising, but which, when submitted to the proper tests, are found to be useless as digestive agents, Pepsine is constantly gaining in the esteem of the careful practitioner.

Since the introduction of Pepsine by Boudault and Corvisart in 1854, the original BOUDAULT'S PEPSINE HAS BEEN AT ALL TIMES CONSIDERED THE BEST, as is attested by the awards it has received at the Expositions of 1867, 1868, 187 1873, in 1876 at the Centennial Exposition of Philadelphia, and in 1878 at the Paris Exposition.

The most reliable tests, carefully applied, will satisfy everyone that BOUDAULT'S PEPSINE HAS A MUCH HIGHER DIGESTIVE POWER than the best Pepsines now before the Profession, and is therefore especially worthy of their attention.

BOUDAULT'S PEPSINE is prepared in the form of Pepsine Acid and Pepsine Neutral. It is sold in bottles of one ounce, with a measure containing exactly five grains; also in bottles of four, eight, and sixteen ounces for dispensing.

BOUDAULT'S WINE OF PEPSINE

FORMULA OF DR. CORVISART.

The taste of Pepsine being perfectly disguised in this Wine, it may be recommended to persons who have difficulty in taking Pepsine in the form of Powder. This Wine is tested so that a tablespoonful of it is equal in digestive power to ten grains of Boudault's Pepsine in powder. Sold only in bottles of eight ounces.

TANRET'S PELLETIERINE

For the Treatment of Tape-Worm (Tænia Solium).

This New Tænifuge, the Active Alkaloid of Pomegranate Bark, has of late come into extensive use in France for the treatment of Tape-Worm (Tænia Solium). The results of numerous experiments with it at the Marine Hospitals of Toulon, St. Mandrier, etc., and in the Hospitals of Paris, St. Antoine, La Charité, Necker Beaujon, etc., have all been most satisfactory. Doctor Dujardin Beaumetz, Member of the Academy of Medicine, and Professor Laboulbene, in their report to the Society of Therapeutics, have given it their unqualified approval, after the most searching experiments. This preparation is pleasant to administer, and, if certain preliminaries are observed, success will be insured.

Sold only in bottles containing one dose.

DUCRO'S ALIMENTARY ELIXIR

A Combination uniting the properties of Alcoholic Stimulants and Raw Meat.

This preparation, which has been used with great success in the hospitals of Paris since 1868, is adapted to the treatment of all diseases requiring administration, in a small volume, of a tonic able to stimulate and support the vital forces, as *Pulmonar Phthisis, Depression and Nervous Debility, Adynamia, Malarious Cachexia, etc.*

Prepared by EMILE DURIEZ & CO., Successors to DUCRO & CIE, Paris.

KIRKWOOD'S INHALER

This is the only complete, reliable, and effective inhaler in use, arranged for the direct application of Muriate of Ammonia and other remedial agents in the state of vapor to the diseased parts of the air-passages in the treatment of catarrh and diseases of the throat and lungs. No heat or warm liquids required in its use.

It is entirely different from the various frail, cheap instruments that have been introduced.

KIRKWOOD'S INHALER is accompanied by testimonials of the highest professional character, together with carefully prepared formulas for use.

RETAIL PRICE, COMPLETE, $2.50.

☞ A liberal discount allowed to the trade and profession. For descriptive pamphlet or other information address

PHILADELPHIA.

ESTABLISHED 1855.

DRS. STRONG'S SANITARIUM,

SARATOGA SPRINGS, NEW YORK.

Receives persons recommended to it by their home physicians for Treatment, Change, Rest or Recreation, and places them under well-regulated hygienic conditions so helpful in the treatment of chronic invalids or the overtaxed.

For Treatment: In addition to the ordinary remedial agents, it employs Turkish, Russian, Roman, Sulphur, Electro-Thermal, the French Douche (Charcot's), and all Hydropathic Baths; Vacuum Treatment, Swedish Movements Massage, Pneumatic Cabinet, Inhalations of Medicated, Compressed, and Rarefied Air, Electricity in various forms, Thermo-Cautery, Calisthenics, and Saratoga Waters, under the direction of a staff of educated physicians.

For Change: This Institution is located in a phenomenally dry, tonic, and quiet atmosphere, in the lower arc of the Adirondack Zone, and within the "Snow Belt."

For Rest: The Institution offers a well-regulated, quiet home, heated by steam and thoroughly ventilated, with cheering influences and avoiding the depressing atmosphere of invalidism.

For Recreation: To prevent introspection, are household sports at all seasons of the year, and in Winter, tobogganning, elegant sleighing, etc.; in Summer, croquet, lawn-tennis, etc.

Private professional references furnished upon application. Physicians are invited to inspect the Institution at their convenience. A liberal discount to physicians and their families.

For further information, address, DRS. S. S. & S. E. STRONG.

THE OLD STYLE discarded on account of pulling apart, while the elastic is still in good condition.

THE "MASTER" SURGICAL ELASTIC STOCKINGS

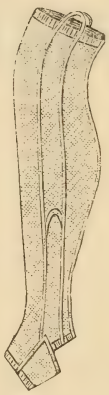
FOR VARICOSE VEINS, WEAK AND SWOLLEN JOINTS, DROPSY OF THE LIMBS, SPRAINS, etc.

PROVIDED WITH

THE PATENT NON-ELASTIC STAYS AND ADJUSTING LOOPS,

By the aid of which they can be drawn on easily, like pulling on a boot. They will last much longer than the old style, as the stays prevent them from being torn apart in drawing them on.

ALL KINDS AND SIZES IN THREAD OR SILK ELASTIC. Made under D. Master's Patents, Nov. 29, 1881, March 21, 1882. Send for descriptive circular and price-list to



THE NEW STYLE cannot pull apart and consequently lasts until worn out.

UNIVERSITY OF PENNSYLVANIA.—Medical Department.

The 124TH ANNUAL WINTER SESSION began Tuesday, October 1st, 1889, at 12 M., and will continue until May 1st, 1890.
The PRELIMINARY SESSION began September 18th, 1889.
The curriculum is graded and three annual winter sessions are required. Practical instruction, including laboratory work in Chemistry, Histology, Osteology and Pathology, with Bedside Instruction in Medicine, Surgery and Gynecology are a part of the regular course and without additional expense.

FACULTY.

JOSEPH LEIDY, M.D., LL.D., Professor of Anatomy.
D. HAYES AGNEW, M.D, LL.D., Honorary Professor of Clinical Surgery.
WILLIAM PEPPER, M.D., LL.D., Professor of Theory and Practice of Medicine, and of Clinical Medicine.
WILLIAM GOODELL, M.D., Professor of Gynecology.
JAMES TYSON, M.D., Professor of Clinical Medicine.
HORATIO C. WOOD, M.D., LL.D, Professor of Materia Medica, Pharmacy and General Therapeutics.
THEODORE G. WORMLEY, M.D., LL.D., Professor of Chemistry and Toxicology.
JOHN ASHHURST, JR., M.D., Professor of Surgery and of Clinical Surgery.

WESTERN PENNSYLVANIA MEDICAL COLLEGE
CITY OF PITTSBURGH.
SESSIONS OF 1889—90.

The REGULAR SESSION begins on the last Tuesday of September, and continues six months. During this session, in addition to four Didactic Lectures, two or three hours are daily allotted to Clinical Instruction. Attendance upon two regular courses of lectures is requisite for graduation. A three years' graded course is also provided. The SPRING SESSION embraces recitations, clinical lectures and exercises, and didactic lectures on special subjects; this session begins the second Tuesday in April, and continues ten weeks.

The laboratories are open during the collegiate year for instruction in chemistry, microscopy, practical demonstrations in medical and surgical pathology, and lessons in normal histology. Special importance attaches to "the superior clinical advantages possessed by this College." For particulars, see annual announcement and catalogue, for which, address the Secretary of Faculty, Prof. J. W. J. McKENNAN.

Business correspondence should be addressed to
PROF. W. J. ASDALE, 2107 Penn Avenue, Pittsburgh.

NATIONAL MEDICAL COLLEGE.
MEDICAL DEPARTMENT OF THE
COLUMBIAN UNIVERSITY,
WASHINGTON, D. C.

The 68th Annual Session will begin October 7th and end March 1st. Graded three years' course required. Women admitted. Professors: J. F. Thompson, W. W. Johnston, A. F. A. King, E. T. Fristoe, Wm. Lee, D. W. Prentiss, D. K. Shute.

For circulars, address
A. F. A. KING, M. D., DEAN, 726 THIRTEENTH ST., N. W., WASHINGTON D. C.

DETROIT COLLEGE OF MEDICINE.
SESSION 889-90.

Clinical and Practical teaching are made an important feature of this College. Clinical instruction is given daily at HARPER, ST. MARY'S and ST. LUKE'S HOSPITAL, at the COLLEGE, at COLLEGE EYE and EAR INFIRMARY, ST. MARY'S FREE EYE and EAR INFIRMARY, and at the three FREE DISPENSARIES. The facilities offered by this college are unsurpassed for the practical study of MEDICINE, SURGERY, OBSTETRICS, GYNÆCOLOGY, DISEASES OF CHILDREN, GENITO-URINARY, and ORTHOPÆDIC SURGERY, OPHTHALMOLOGY and OTOLOGY, DERMATOLOGY and LARYNGOLOGY.

REGULAR SESSION opens on Wednesday, Sept. 25, and continues six months. During the session, the Professors will take special pains to examine the Students upon the subjects of the previous lectures.

SPRING SESSION begins April 2d, 1890; and closes June 11th.

FEES.—Matriculation fee, $5; Fees for Regular Session, $50; Spring Session, $10, to those who attend the regular term—to all others, $25; Hospital Fee, $10; Graduation Fee, $30; Perpetual Ticket, $100.

☞This can be done only in connection with paid-up subscriptions.☜

FOR **$10.00** we will send the **REPORTER** for one year, **$5.00**
and **DICTIONARY OF PRACTICAL SURGERY.** By various British Hospital Surgeons. Edited by Christopher Heath, F. R. C. S. One volume, 8vo. Over 2,000 pages. Cloth, ... **$7.50**

"A most excellent book for the library of the surgeon, and especially for the country practitioner; as a book of reference it is so concise and at the same time so complete."—C. B. PORTER, M. D., Boston, Mass.
"As a means of ready reference for the student and busy practitioner this book stands unexcelled."—N. SENN, M. D.

FOR **$9.00** we will send the **REPORTER** for one year, **$5.00**
and **THOMAS'S MEDICAL DICTIONARY.** A complete Pronouncing Medical Dictionary. Embracing the Terminology of Medicine and the kindred Sciences, with their signification, etymology, and pronunciation. With an Appendix, comprising an explanation of the Latin terms and phrases occurring in Medicine, Anatomy, Pharmacy, etc., together with the necessary directions for writing Latin Prescriptions, etc., etc. By Joseph Thomas, M. D., LL.D. Imperial 8vo. 844 pages. Sheep, ... **$6.00**

"It is just the book for a medical or any other student, and it should be in the office of every physician. This dictionary supplies a place that has never been filled. I have looked it through and find all the new words that I have sought."—PROF. A. F. PATTON, College of Physicians and Surgeons, Boston, Mass.

Or, **TREATISE ON HUMAN ANATOMY, by JOSEPH LEIDY, M. D.,** Professor of Anatomy in the University of Pennsylvania, etc., etc. New (second) edition, re-written and enlarged. Containing 495 illustrations. 8vo. Extra cloth, ... **$6.00**

"The student can master and retain a practical knowledge of anatomy in a shorter time and with less hard work from this text-book than from any other work extant, and it has been our privilege to teach anatomy for several years."—MEDICAL ADVANCE, Ann Arbor, Mich.

FOR **$6.50** we will send the **REPORTER** for one year, **$5.00**
VIRCHOW'S CELLULAR PATHOLOGY, as based upon Physiological and Pathological Histology. Twenty lectures delivered at the Pathological Institute of Berlin. Translated from the Second Edition by F. Chance, M. D. 134 illustrations. Eighth American Ed. Cloth, **$3.00**

Or, **DAY. DISEASES OF CHILDREN.** A practical and systematic treatise for practitioners and students. By Wm. H. Day, M. D. Second edition. Rewritten and very much enlarged. 8vo. 752 pages. Price, Cloth, ... **$3.00**

Or, **HARLEY. DISEASES OF THE LIVER,** with or without Jaundice. Diagnosis and Treatment. By George Harley, M. D. With colored plates and numerous illustrations. 8vo. Price, Cloth, ... **$3.00**

FOR **$6.00** we will send the **REPORTER** for one year, and any two of the following books: **$5.00**

1.—THE NURSING AND CARE OF THE NERVOUS AND THE INSANE. By Chas. K. Mills, M. D., ... **$1.00**

2.—MATERNITY; INFANCY; CHILDHOOD. By John M. Keating, M. D., **$1.00**

3.—OUTLINES FOR THE MANAGEMENT OF DIET; or, The Regulation of Food to the Requirements of Health and the Treatment of Disease. By E. T. Bruen, M. D., **$1.00**

4.—FEVER NURSING. Designed for the use of professional and other Nurses. By J. C. Wilson, A. M., M. D., ... **$1.00**

5.—DISEASES AND INJURIES OF THE EAR: Their Prevention and Cure. By Chas. H. Burnett, A. M., M. D., ... **$1.00**

Or, **FOR $6.00,** any one of the above Nursing Books and **THOMSON'S (Sir Henry) SURGERY OF THE URINARY ORGANS.** Some important points connected with the Surgery of the Urinary Organs. Illustrated. Cloth, ... **$1.25**

The only prominent Emulsion of Cod-Liver Oil introduced directly to the medical profession. It is advertised exclusively in medical journals.

HYDROLEINE.

(HYDRATED OIL.)

Produces rapid increase in Flesh and Strength.

FORMULA.—Each Dose contains:			
Pure Cod Liver Oil.....80 m. (drops)		Soda.....1-2 Grains.	
Distilled Water.....35 "		Salicylic Acid.....1-4 "	
Soluble Pancreatin..... 5 Grains.		Hyocholic Acid.....1-20 "	

Recommended and Prescribed by EMINENT PHYSICIANS Everywhere. It is pleasant to the Taste and acceptable to the most delicate Stomach.

IT IS ECONOMICAL IN USE AND CERTAIN IN RESULTS.

HYDROLEINE (Hydrated Oil) is not a simple alkaline emulsion of oleum morrhuæ, but a hydro-pancreated preparation, containing acids and a small percentage of soda. Pancreatin is the digestive principle of fatty foods, and in the soluble form here used, readily converts the oleaginous material into assimilable matter, a change so necessary to the reparative process in all wasting diseases.

The following are some of the diseases in which HYDROLEINE is indicated:

Phthisis, Tuberculosis, Catarrh, Cough, Scrofula, Chlorosis, General Debility, etc.

TO BRAIN WORKERS of all classes, **HYDROLEINE** is invaluable, supplying as it does, the true brain-food, and being more easily assimilated by the digestive organs than any other emulsion.

The principles upon which this discovery is based have been described in a treatise on "The Digestion and Assimilation of Fats in the Human Body," and "Consumption and Wasting Diseases," by two distinguished London physicians, which will be sent free on application.

SOLD BY DRUGGISTS GENERALLY.

C. N. CRITTENTON,

SOLE AGENT FOR THE UNITED STATES. 115 FULTON STREET, N. Y.

A Sample of Hydroleine will be sent free upon application, to any physician (enclosing business card) in the U. S.

COMPRESSED TABLETS,

PHENACETIN, ... 3 and 5 grains.
ANTIPYRIN, ... 3 and 5 grains.
PHENACETIN and SALOL, ... 2½ grains each.
QUININE, Sulphate and Bi-Sulphate, ... ½, 1, 2, 3, 4, and 5 grs.
QUININE and CHOCOLATE, quinine tannate 1 grain; and chocolate 9 grains.

These Compressed Tablets, or more correctly compressed powders, are made from the purest materials without the use of any excipient. Smooth and elegant in appearance; uniform in size; regular in weight. Our Compressed Tablets are distinguished by their ready solubility.

COMPRESSED ANTISEPTIC TABLETS.

Each Tablet contains:

7.3 grains, ... Hydrarg. Bichlor.
7.7 grains, ... Ammon. Chlor.

One Tablet dissolved in one pint of water will make a 1 to 1,000 solution, containing 1 part of Corrosive Sublimate in 1000 parts of water. Put up in pounds, half pounds, quarter-pounds, and bottles containing respectively 100 and 25 Tablets each.

COMPRESSED ANTISEPTIC PASTILLES.

(Dr. Carl Sieler's Formulæ.)

For making Antiseptic Sprays, Nasal Wash, Mouth Wash, etc., one Tablet dissolved in four tablespoonfuls of warm water makes a solution which can be used as a spray or wash. Put up in screw-capped bottles containing 50 Pastilles each, also in one pound bottles, half-pound bottles, and quarter-pound bottles.

N. B.—These Pastilles must not be confounded with our Antiseptic Tablets, which contain Corrosive Sublimate, and are used as a germicide.

A full line of Compressed Tablets of approved formulæ always in stock.

These preparations are obtainable from the retail drug trade or can be had on application to the manufacturers,

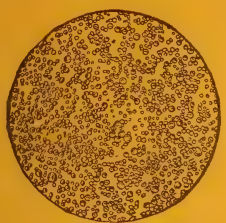
FRENCH, RICHARDS & CO.,

1001, 1003, and 1005 MARKET STREET, Phila.

Peptonized Cod Liver Oil and Milk.

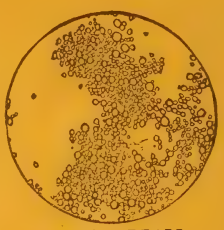
THE PERFECTION OF ALL COD LIVER OIL PREPARATIONS.

In consequence of its albuminoid constituents we formerly were unable to prepare PEPTONIZED COD LIVER OIL AND MILK so that it would keep satisfactorily, but have now overcome every difficulty, which places it far ahead of any preparation of Cod Liver Oil.



Peptonized Cod Liver Oil and Milk
200 Diameters.

It is more easily digested and assimilated, and more nutritious than any product of Cod Liver Oil in the market.



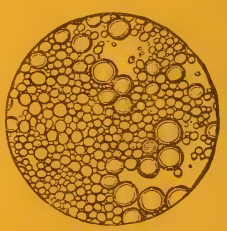
Cow's Milk.
200 Diameters.

It is partially predigested, and is, therefore, more easily retained by weak and enfeebled stomachs, and eructations are less likely to follow.

*** No. 1.**
200 Diameters.

It contains 50 per cent. of pure Norwegian Cod Liver Oil. The remaining percentage is composed of milk, and an emulsion formed with Irish Moss. No gums are used in its manufacture.

It mixes readily with water, and makes a pleasant drink.



*** No. 2.**
200 Diameters.

* Of all the principal preparations of Cod Liver Oil in the market, No. 1 contained the largest oil globules, and No. 2 the smallest.

Samples of the preparations were purchased of the wholesale trade in Baltimore.

MESSRS. REED & CARNRICK, New York City.

DEAR SIRS:—I have examined your **Peptonized Cod Liver Oil and Milk** microscopically, with the following results.

For comparison it may be stated that the average diameter of the oil globule is from one-third to one-half that of the red blood corpuscles. THE ABOVE PHOTOMICROGRAPHS SHOW THEIR SIZE AS COMPARED TO MILK AND EMULSIONS OF COD LIVER OIL IN THE MARKET.

Very truly yours,
JAMES R. DUGGAN, M. D., PH.D.,
Fellow in the Johns Hopkins University.
Secretary Baltimore Microscopical Society.

ANALYSIS OF PEPTONIZED COD LIVER OIL AND MILK, by Prof. ATTFIELD, PH. D., F. C. S., etc., author of a Manual of General, Medical, and Pharmaceutical Chemistry.

I have analyzed PEPTONIZED COD LIVER OIL AND MILK, and find that it is exactly what the makers state it to be. The sample submitted to me has all the properties of a specimen prepared by myself, except that their machinery has produced a more perfect emulsion than my hand labor can effect. Indeed I find by the aid of the microscope, that as regards perfection of emulsion—that is, admixture of a fatty with a non-fatty fluid—the oil in PEPTONIZED COD LIVER OIL AND MILK is in a finer state of division than the butter is in ordinary milk.

(Signed), JOHN ATTFIELD, LONDON, England.

If any physician has a patient who cannot take and retain Cod Liver Oil in any form, send to us for sample of PEPTONIZED COD LIVER OIL AND MILK.

Cod Liver Oil and Milk is put up plain and also combined with Hypophosphites. Each tablespoonful containing 2 grs. each Hypophosphite Lime and Soda.

REED & CARNRICK, NEW YORK.

PHENACETINE-BAYER IN INFLUENZA.

We have just received advices that Phenacetine-Bayer is being used to advantage both in Russia and Germany, in the treatment of the present epidemic of **INFLUENZA.** It is also being extensively employed in America for the same purpose.

Dr. A. C. HALLAM, Brooklyn, N. Y., states :—"That he has used Phenacetine extensively in the present epidemic of Influenza and has been well pleased with its effects. The rapidity with which it relieves the muscular pains has been very gratifying to him, the patient breaking out in a profuse perspiration, and in a few hours seeming relieved of all but the catarrhal symptoms, which run on and call for other treatment."—*The New York Medical Journal*, Jan. 4, 1890.

221 GENESEE STREET, UTICA, N. Y., January 6, 1890.

To the Editor of the New York Medical Journal:

SIR: I desire to echo the statement made in your last issue by Dr. A. C. Hallam, of Brooklyn, viz.: That in the treatment of fifty cases of influenza I have used phenacetine in five-grain doses repeated hourly until fifteen grains had been taken, and in *every case* the severe muscular pains and headache disappeared; following this with five-grain doses, three times daily, of the salicylate of cinchonidine. The disease disappeared upon the fourth day, and in *no cases* have there been any sequelæ either of bronchitis or pneumonia. Phenacetine, I consider superior in every way to antipyrine and acetanilide.

CHARLES R. WEED, M. D.

Phenacetine-Bayer (Para-Acetphenetidine), prepared by the Farbenfabriken, formerly Friedr. Bayer & Co., Elberfeld, is supplied by us in one-ounce vials and also in the form of our soluble pills, containing two, four, and five grains each. Either form may be obtained of any reputable apothecary.

W. H. Schieffelin & Co.,
170 & 172 WILLIAM STREET,
NEW YORK.

Permanent Pepsin.

THE INSEPARABLE STANDARDS OF VALUE ARE PERMANENCY AND ACTIVITY.

WHEN a physician prescribes pepsin and his patient finds that it "sticks to the paper," that it forms a gummy mass "in powders," he may rely upon it that FAIRCHILD'S PEPSIN has not been dispensed; if he has ordered Fairchild's, this behavior is positive evidence that he and his patient have been the victims of "substitution."

Pepsins which are hygroscopic, which do undergo upon exposure to air the changes characteristic of peptone, are offered (in the form of scales and in powder) with pretensions to permanent quality.

If a product is sought, of well-proven permanency and of highest standard of activity, FAIRCHILD'S PEPSIN is the one which will never give cause for complaint.

Fairchild's was the original "Scale Pepsin;" the first positively "free from starch, sugar, acid, peptones or any added substance." The host of imitations of "Scale Pepsin" bear witness to the value and reputation of the original.

FAIRCHILD BROS. & FOSTER,

82 and 84 Fulton Street, New York.

A Phosphorized Cerebro-Spinant

(FRELIGH'S TONIC).

FORMULA.

Ten minims of the Tonic contain the equivalents (according to the formulæ of the U. S. P., and Dispensatory) of

Tinct. Nux Strychnos,	1 minim.
" Ignatia Amara,	1 "
" Cinchona,	4 "
" Matricaria,	1 "
" Gentian,	½ "
" Columbo,	½ "
" Phosphorus, C. P.,	1-300 gr.
Aromatics,	2 minims.

Dose: 5 to 10 drops in 2 tablespoonfuls of water.

INDICATIONS.

Paralysis, Neurasthenia, Sick and Nervous Headache, Dyspepsia, Epilepsy, Locomotor Ataxia, Insomnia, Debility of Old Age, and in the Treatment of Mental and Nervous Diseases.

A BALTIMORE PHYSICIAN, WHOSE DIPLOMA DATES FROM 1825, SAYS:

"Your combination I find vastly more effective than any tonic I have ever used. It furnishes a most powerful evidence of the vastly increased power of medicament by combination and judicious pharmaceutic preparation."

Price, One Dollar per Bottle, containing 100 of the Average 5-Drop Doses.—Physicians' single sample delivered, charges prepaid, on application. That every physician may be his own judge of its value, irrespective of the opinions of others, we make the following

SPECIAL OFFER:

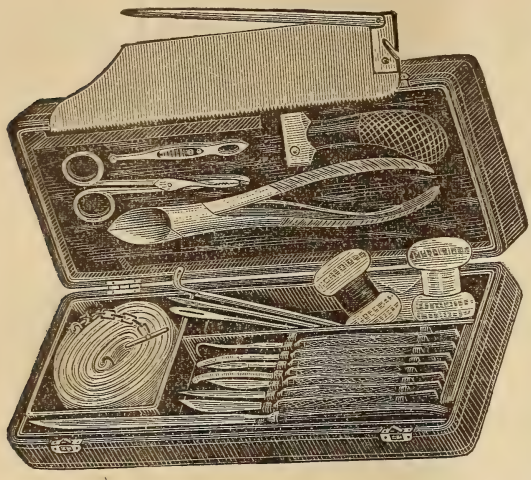
We will send to any physician, delivered, charges prepaid, on receipt of twenty-five cents, and his card or letter-head, half a dozen physicians' samples, sufficient to test it on as many cases for a week to ten days each. The Tonic is kept in stock regularly by all the leading wholesale druggists of the country. As we furnish no samples through the trade, wholesale or retail, for samples, directions, price-lists, etc., address,

I. O. WOODRUFF & CO.,

Manufacturers of Physicians' Specialties,

No. 88 Maiden Lane, New York City.

LENTZ'S ASEPTIC COMPACT OPERATING SET, No. 10.



We have from time to time made improvements to this set and are now making a perfect aseptic set, which offers especial facilities for aseptic precautions; the blades are soldered into hollow German-silver handles, nickel-plated, are light so as not to be unwieldy and admit of a firm grasp when operating.

The saw is adjusted to the handle on an entirely new principle, being made to separate easily and to facilitate thorough cleansing.

The handle is entirely of metal and fenestrated to overcome unnecessary weight.

Scissors and Forceps having French locks can be separated, and the slide can be easily removed from Artery and Needle Forceps.

Therefore, no opportunity is offered for the lodgment and development of germs.

The entire set is patterned with especial reference to facility in cleansing.

The instruments can be sterilized by placing them in boiling water, without fear of damaging them. Wood or rubber handles will not admit of this procedure. For price, see case A.

The following instruments are put up in either a fine Mahogany or Morocco case, with nickel trimmings, lined with velvet, and has an extra space for Trephine with handle, and Elevator if desired.

One Amputating Knife (6 in. blade); One Finger Knife; One Hernia Knife; One Sharp Curved Bistoury; Two Scalpels; One Tenotome; One Tenaculum; One Pair Scissors, curved or flat; One Saw (9 in. blade); One Liston's Bone Forceps, with Spring; One Artery and Needle Forceps, improved; One Esmarch's Flat Rubber Tourniquet, with Chain; One Hæmostatic Forceps; One Director, with Aneurism Needle; Two Silver Probes; Silk, Wire, Wax and Needles.

With the Sixteen Instruments Contained in this Case, any Ordinary Operation may be Performed.

SIZE, 11 INCHES LONG, 4 INCHES WIDE, 2 INCHES HIGH.

A.—German Silver aseptic Handles on Knives and Saw, ... **$34 00**
B.—Hard Rubber aseptic Handles on Knives and Saw, ... **29 00**
C.—Ebony Handles on Knives and Saw (as shown in illustration), ... **25 00**
Either Set, with Trephine and Elevator in addition, ... **4 65**

DISCOUNT 25 PER CENT. TO PHYSICIANS. Our Catalogue of 260 pages will be sent on receipt of 10 cts. for postage.

ANTIFEBRIN IN INFLUENZA!

This use of this Renowned ANTIPYRETIC, ANODYNE, SEDATIVE and NERVINE seems suggested by the following Judgments passed on it by Reputed Authorities in Symptomatically *Allied Complaints:*—

As an **Antifebrile** Dose:—2 to 4 grains *single;* 16 to 32 grains *daily.*—(WEINSTEIN, Vienna.)

As an **Anodyne** and **Nervine** Dose in severest Neurotic and Secondary Pains:—8 to 16 grains, *one to four times per day.*—(DEMIEVILLE, Lausanne.)

Mode of Administration:

"Even the *initial dose* gave evident relief; commonly within half an hour. If this did not suffice to break up the symptoms materially, a second dose followed in an hour or two; at the very utmost a third one was given the same day.

"The remedy was effective and well tolerated at all times; at all hours of the day; on an empty or a full stomach; even during menstruation.

"The form of exhibition was that of *powders*, wrapped in *wafers*. The readier solubility of the Antifebrin in Alcohol indicates the advisability of following the dose by a small draught of Wine or Brandy."—(OTT, Prague.)

ANOTHER MODE OF ADMINISTRATION:—*Dissolve* your Dose (4 to 12 grains) of **ANTIFEBRIN** in ½–1 ounce (1 to 2 Tablespoonfuls) of *Boiling Water*,—stirring for a minute or two, until dissolved. Allow the Solution *to cool down* to about 104 degrees F. (being just comfortably warm) and sweeten to taste, *Before Taking!*—NO ALCOHOL, WINE, or LIQUOR needed with it when thus prepared.

ANTIFEBRIN

was found **Superior** to the **Following** Remedies in **Efficacy**, or in Safety, or in **Both**:—

Antipyrine,—*Quinine*,—*Morphine*,—*Opium*,—CHLORAL HYDRATE—ACONITE,—CAFFEINE,—KAIRINE,—*Salicylic Acid*,—CARBOLIC ACID,—*Bromides*,—IODIDES.

Among the Medical Authorities from whose Clinical and other Published Reports the above-stated PREFERENCES OF ANTIFEBRIN OVER OTHER REMEDIES have been drawn, are the following:

HARE, University of Pennsylvania;—DUJARDIN-BEAUMETZ, Paris;—HERCZEL, Heidelberg;—MURRAY, *Brit. Med. Journal;*—PAVAIVAJNA, *Centralblatt für die gesammte Therapie;*—BARR, Bridgeport, Ill.;—KELL, Delphos, O.;—HAY, New York;—HAAS, Prague.

Antifebrin was also *found to be:*

"Thoroughly *reliable* as an ANTIPYRETIC."—(DEMME, Berne.)

"*Not only* powerfully ANTITHERMIC, but also a most *useful* NERVINE."—(LEPINE, Lyons.)

"A *powerful, safe*, and *certain* ANTITHERMIC agent."—(EVANS, Easton, Pa.)

"*Complete* ANALGETIC effect in nine cases out of every ten."—(FISCHER, Cannstatt.)

RABUTEAU'S DRAGEES OF IRON

Laureate of the Institute of France.—Prize in Therapeutics.

The studies made by the Physicians of the Hospitals have demonstrated that the **Genuine Dragees of Iron of Rabuteau** are superior to all other preparations of Iron in cases of *Chlorosis, Anæmia, Leucorrhœa, Debility, Exhaustion, Convalescence, Weakness of Children*, and the maladies caused by the Impoverishment and Alteration of the blood after periods of fatigue, watching, and excesses of any kind.

TAKE 4 TO 6 DRAGEES DAILY.

Rabuteau's Elixir of Iron is recommended to those persons who may be unable to swallow the Dragees. Dose —*A small wineglassful with meals.*

Rabuteau's Syrup of Iron is specially designed for children. Chalybeate medication, by means of **Rabuteau's Iron,** is the most economical and the most rational known to therapeutics.

No constipation, no diarrhœa, complete assimilation.

Take only the GENUINE IRON OF RABUTEAU of
CLIN & CO., Paris.

SOLUTION OF THE SALICYLATE OF SODA OF DOCTOR CLIN.

Laureate of the Paris Faculty of Medicine (MONTYON PRIZE).

Dr. Clin's Solution, always identical in its composition, and of an agreeable taste, permits the easy administration of *pure Salicylate of Soda*, and the variation of the dose in accordance with the indications presented.

"The *Salicylate of Soda* used by **Clin** is of perfect purity, "and is prepared with the greatest care; it is a medicament "in which we may have every confidence."

—*Paris Society of Medicine, Meeting of Feb. 8th, 1879.*

Clin's Solution, very exactly mixed, contains: 2 grammes of *Salicylate of Soda* per tablespoonful, 50 centigrammes of *Salicylate of Soda* per teaspoonful.

Paris—CLIN & CO.—Paris

PILLS OF DR. MOUSSETTE.

The **Moussette Pills** of aconitine and quinium, calm or cure *Gastralgia, Hemicrania, Headache, Sciatica*, and the most obstinate Neuralgias.

"The sedative action exerted by the **Moussette Pills** "upon the apparatus of the sanguineous circulation by the "intermediation of the vaso-motor nerves, indicates their "use in *neuralgias of the trigemini nerves*, (fifth pair), *con-* "*gestive neuralgias*, and *painful and inflammatory Rheumatismal* "*affections*."

"Aconitine produces marvelous effects in the treatment "of *facial neuralgias* when they are not symptomatic of "intracranial tumor."—*Society of Biology of Paris, Meeting* "*of the 28th February, 1880.*

DOSE—Take 3 to 6 pills during the twenty-four hours.

ACCEPT ONLY THE GENUINE MOUSSETTE PILLS OF
CLIN & CO.,—Paris.

GRAND NATIONAL PRIZE OF 16,600 FRANCS,

QUINA-LAROCHE

This meritorious **Elixir, QUINA-LAROCHE,** is prepared from the **three** Cinchonas; it is an agreeable and doubtless highly efficacious remedy.

—*The Lancet.*

VINOUS ELIXIR,

A STIMULATING RESTORATIVE

—AND—

ANTI-FEBRILE TONIC.

QUINA-LAROCHE under the form of a vinous **Elixir** contains the totality of the numerous principles of the **three** Cinchona barks. It is a preparation which renders great services to Therapeutics.—Extract of the *Gazette des Hôpitaux*, Paris.

FAR SUPERIOR TO ALL ORDINARY CINCHONA WINES.

LAROCHE'S QUINA, tried by the Academy of Medicine of Paris, is a specially prepared COMPOUND EXTRACT of Quinquina, a careful analysis, confirmed by experience, has shown that most of the wines and syrups hitherto used have not contained all the properties of this precious bark, of these some, although beneficial, are altogether lost, while many preparations contain but half the properties of the bark in varying proportions.

MR. LAROCHE, by his peculiar method, has succeeded in extracting all the active principles of the quinquina, combining these with *Catalan Wine* forming an Elixir free from the disagreeable bitterness of other similar preparations. Practitioners have found triple advantages in the use of this Elixir, it is a *strong tonic*, is easily administered, and perfectly harmless, being free from the unpleasant effects of Quinine.

THE FERRUGINOUS QUINA-LAROCHE is the invigorating tonic *par excellence*, having the advantage of being easily assimilated by the gastric juice; without, in any way, deranging the action of the digestive organs, proving itself to be a most efficacious remedy in cases of impoverishment of the blood, ANÆMIA, CHLOROSIS, INTESTINAL HÆMORRHAGE, CASTRALGIA, EXHAUSTION, ETC., ETC.

THE NEW STYLE cannot pull apart and consequently lasts until worn out.

BROMIDIA

THE HYPNOTIC.

FORMULA.—

Every fluid drachm contains 15 grains EACH of Pure Chloral Hydrat. and purified Brom. Pot., and one-eighth grain EACH of gen. imp. ext. Cannabis Ind. and Hyoscyam.

DOSE.—

One-half to one fluid drachm in WATER or SYRUP every hour, until sleep is produced.

INDICATIONS.—

Sleeplessness, Nervousness, Neuralgia, Headache, Convulsions, Colic, Mania, Epilepsy, Irritability, etc. In the restlessness and delirium of fevers it is absolutely invaluable.

IT DOES NOT LOCK UP THE SECRETIONS.

PAPINE

THE ANODYNE.

Papine is the Anodyne or pain-relieving principle of Opium, the Narcotic and Convulsive Elements being eliminated. It has less tendency to cause Nausea, Vomiting, Constipation, Etc.

INDICATIONS.—

Same as Opium or Morphia.

DOSE.—

(ONE FLUID DRACHM)—represents the Anodyne principle of one-eighth grain of Morphia.

IODIA

The Alterative and Uterine Tonic.

FORMULA.—

Iodia is a combination of active principles obtained from the Green Roots of Stillingia, Helonias, Saxifraga, Menispermum, and Aromatics. Each fluid drachm also contains five grains Iod. Potas., and three grains Phos. Iron.

DOSE.—

One or two fluid drachms (more or less as indicated) three times a day before meals.

INDICATIONS.—

Syphilitic, Scrofulous and Cutaneous Diseases, Dysmenorrhea, Menorrhagia, Leucorrhea, Amenorrhea, Impaired Vitality, Habitual Abortions, and General Uterine Debility.

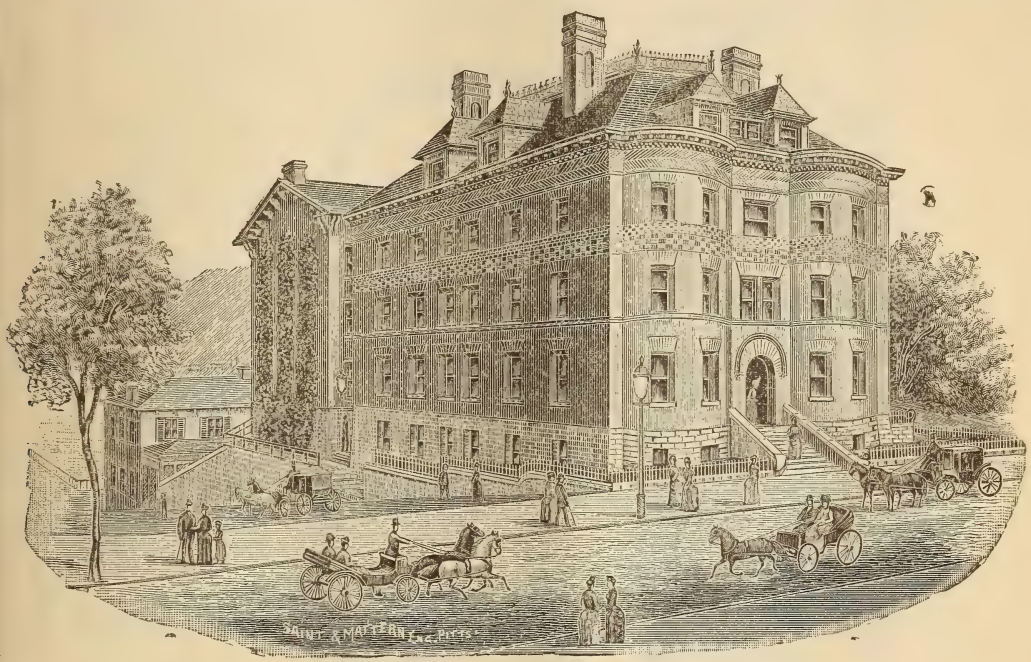
DR. R. S. SUTTON'S

Sanatorium for Diseases of Women.



Seventh Year Opens September 1, 1889.

ALLEGHENY CITY, PA.

This Institution is located on high ground, and overlooks the Allegheny, Monongahela and Ohio rivers; it commands a view of the city of Pittsburgh, and its picturesque surroundings. The building is large and beautiful, it is provided with every modern convenience, the halls are heated by steam, the rooms are commodious, well lighted and ventilated, and heated by open grates. The house is provided with a private parlor and reading-room for patients. The dining-room is large, handsomely finished, and furnished with small tables, securing privacy at meals for those who do not care to have meals served in their own rooms. Patients can be as secluded, should they desire it, as in a well appointed hotel. Each patient is examined by Dr. Sutton, and receives his daily personal attention, while Dr. J. H. Williamson, a physician of ample hospital experience, resides in the Institution, and has, under Dr. Sutton, the immediate care of the patients. The Institution accommodates 25 patients, and is equal in comfort to the best hotels.

Electricity, baths, douches, massage, local treatment, general medication and surgical operations are resorted to according to the requirements of each patient.

For further information address the Matron

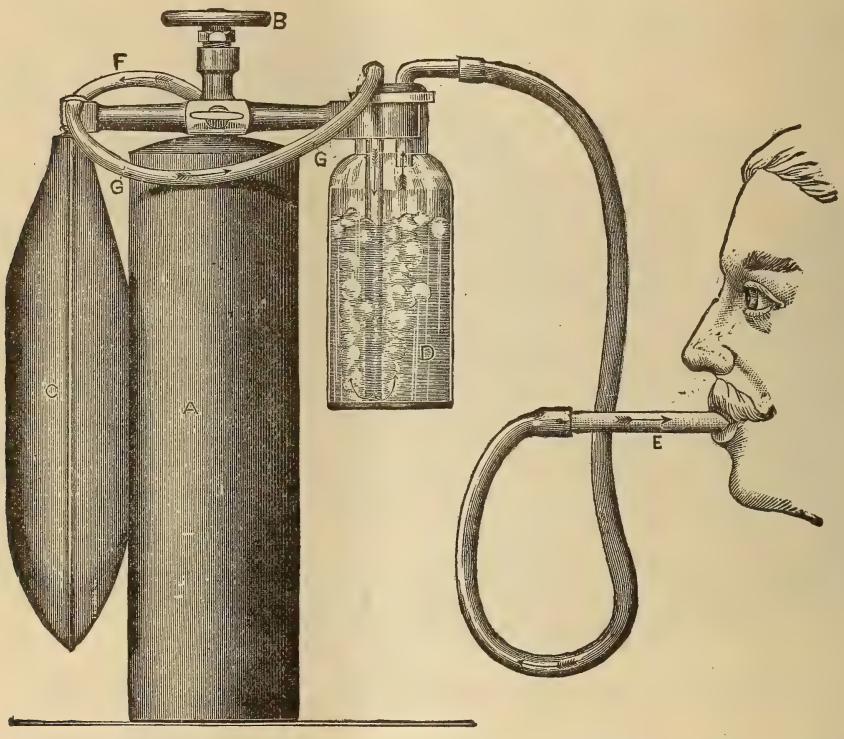
INHALATION APPARATUS

FOR

THE THERAPEUTIC ADMINISTRATION OF OXYGEN.



In the treatment of lung troubles by Oxygen its exhibition by inhalation is preferred. The apparatus herewith shown is a modification of the Nitrous Oxide apparatus which we have supplied for many years. It is made in the best manner throughout, and is the outcome of years of experience in the manufacture of gas apparatus. It will be found to meet all the requirements.

We supply the gas in two sizes of cylinders, containing respectively forty and one hundred gallons, either pure Oxygen, or a mixture of Oxygen and Nitrous Oxide in definite proportions of 20 per cent., and forty per cent. of Nitrous Oxide.

Whether pure or mixed the gas is sold at the uniform price of 5 cents a gallon. The cost of the cylinders will be refunded on their return empty with the valves in good condition. Full description of Inhalation and Enema apparatuses with directions for use accompany each apparatus, or will be supplied on application.

PRICES.

THE BEST ANTISEPTIC
FOR BOTH INTERNAL AND EXTERNAL USE.

ANTISEPTIC, PROPHYLACTIC, DEODORANT.

LISTERINE

NON-TOXIC, NON-IRRITANT, NON-ESCHAROTIC.

FORMULA—Listerine is the essential antiseptic constituent of Thyme, Eucalyptus, Baptisia, Gaultheria and Mentha Arvensis, in combination. Each fluid drachm also contains two grains of refined and purified Benzo-boracic Acid.

DOSE—Internally: One teaspoonful three or more times a day (as indicated) either full strength, or diluted, as necessary for varied conditions.

LISTERINE is a well-proven antiseptic agent—an antizymotic—especially adapted to internal use, and to make and maintain surgical cleanliness—asepsis—in the treatment of all parts of the human body, whether by spray, irrigation, atomization, or simple local application, and therefore characterized by its particular adaptability to the field of

PREVENTIVE MEDICINE—INDIVIDUAL PROPHYLAXIS.

Diseases of the Uric Acid Diathesis.

LAMBERT'S
LITHIATED HYDRANGEA

KIDNEY ALTERATIVE—ANTI-LITHIC.

FORMULA—Each fluid drachm of "Lithiated Hydrangea" represents thirty grains of FRESH HYDRANGEA and three grains of CHEMICALLY PURE Benzo-Salicylate of Lithia. Prepared by our improved process of osmosis, it is INVARIABLY of DEFINITE and UNIFORM therapeutic strength, and hence can be depended upon in clinical practice.

DOSE—One or two teaspoonfuls four times a day (preferably between meals).

Urinary Calculus, Gout, Rheumatism, Bright's Disease, Diabetes, Cystitis, Hæmaturia Albuminuria, and Vesical irritations generally.

We have much valuable literature upon { GENERAL ANTISEPTIC TREATMENT, LITHEMIA, DIABETES, CYSTITIS, ETC. } To forward to Physicians upon request.

Geo Hamlin Prest. Chas Roome Parmele Treas.

GENTLEMEN:

The Case of your wines sent me for analysis by Dr. A. L. Hummel, of the "Annals of Hygiene," containing specimens of your La Rosa Zinfandel, Mataro, Riesling, Royal Tokay, and Royal Grape Brandy, has been duly received.

I have examined them for the common contaminants of wine; to wit: Sulphurous acid and sulphites, salicylic acid, fuchsin, lead salts, etc., none of which I found present therein.

I have also determined their alcoholic strength, extractives, and ashes, and found them to correspond strictly in this respect with the standard of pure and natural wines, which cannot be said of many of the imported wines.

As a native of a wine-producing country, I consider myself somewhat of a judge of wines, and regard your products as comparing more than favorably with most of the wines from abroad which are sold at higher prices, so much so that I enclose within my order for fifty bottles of La Rosa Zinfandel, which I expect to use hereafter exclusively at my table.

Very Respectfully,

L. WOLFF, M.D.,
Demonstrator of Chemistry, Jefferson Medical College.

PARIS MEDAL

TO

WILLIAM R. WARNER & CO.

W. R. WARNER & CO. have received a Silver Medal at the Paris World's Fair, being the highest of its kind, in recognition of the following claims:

First.—W. R. Warner & Co.'s Pills, quick solubility and accuracy.

Second.—Reliability and permanency unsurpassed. Also for Warner & Co.'s Effervescent Salts.

First—Superior effervescing properties.

Second.—General elegance, excellence, and stability.

PHYSICIANS SHOULD BE CAREFUL TO SPECIFY WARNER & CO.

☞The coating of the following pill will dissolve in 4½ minutes.☜

PIL: CHALYBEATE COMP.

(WARNER & CO.)

Nux Vomica is added as an ingredient to Pill Chalybeate to increase the tonic effect when desired.

Composition of each Pill.—℞ (Chalybeate Mass.), Carb. Protoxide of Iron, gr. 2½. Ext. Nuc. Vom. gr. 1-6.

DOSE—1 to 3 Pills.

Most advantageously employed in the treatment of Anæmia, Chlorosis, Phthisis, Scrofula, Loss of Appetite, etc.

PIL: ANTISEPTIC.

Each Pill contains: Sulphite Soda, 1 gr. Salicylic Acid, 1 gr. Ext. Nuc. Vomica, ¼ gr.

DOSE—1 to 3 Pills.

Pil. Antiseptic is prescribed with great advantage in cases of Dyspepsia attended with acid stomach and enfeebled digestion following excessive indulgence in eating or drinking. It is used with advantage in Rheumatism.

Prepared by WM. R. WARNER & CO.

PIL: ANTISEPTIC COMP.

(WARNER & CO.)

Each pill contains: Sulphite Soda, 1 gr. Salicylic Acid, 1 gr. Ext. Nuc. Vomica, ⅛ gr. Powd. Capsicum, 1-10 gr. Conc't Pepsin, 1 gr.

DOSE—1 to 3 Pills.

Pil. Antiseptic Comp. are prescribed with great advantage in cases of Dyspepsia, Indigestion, and Malassimilation of Food.

Supplied upon physician's prescription by all leading druggists. Take no substitute.

1228 MARKET ST., Phila. 18 LIBERTY ST., New York.

The Acutely Ill.

When a patient is acutely ill, the digestive powers share in the general condition, and consequently the food supplied should be of the most easily assimilable character. The predigestion of starchy matters outside the body, as in MELLIN'S FOOD, is necessary, and the soluble carbohydrates of which this food consists, soluble because predigested, form the true food of the acutely ill.—J. MILNER FOTHERGILL, M.D., Edin.

A sample of MELLIN'S FOOD *will be sent to any physician, free of expense, upon application.*

Doliber-Goodale Co., Boston, Mass.

Apollinaris

"THE QUEEN OF TABLE WATERS."

The filling at the Apollinaris Spring (Rhenish Prussia), amounted to

11,894,000 BOTTLES IN **1887,**
12,720,000 BOTTLES IN **1888** AND
15,822,000 BOTTLES IN **1889.**

"The annual consumption of this favorite beverage affords a striking proof of the widespread demand which exists for table water of absolute purity, and it is satisfactory to find that, wherever one travels, in either hemisphere, it is to be met with; it is ubiquitous, and should be known as the cosmopolitan table water. 'Quod ab omnibus, quod ubique.'"—
BRITISH MEDICAL JOURNAL.

THE BEST NATURAL APERIENT.

THE APOLLINARIS COMPANY, LIMITED, London, beg to announce that, as numerous APERIENT WATERS are offered to the public under names of which the word "Hunyadi" forms part, they have now adopted an additional Label comprising their Registered Trade Mark of selection, which consists of

A RED DIAMOND.

This Label will henceforth also serve to distinguish the HUNGARIAN APERIENT WATER SOLD BY THE COMPANY from all other Aperient Waters.

DEMAND THE 
DIAMOND MARK.

And insist upon receiving the HUNGARIAN APERIENT WATER of the APOLLINARIS COMPANY, LIMITED, London.

THE VALUE OF NUTRITION IN DISEASE.

All physicians who have ever used Murdock's Liquid Food and Suppositories recognize their value over all other foods, in breaking up disease and building up the patients after disease, preventing a relapse, **as the same results are obtained as in surgery.** Its value in surgical cases we illustrate by the records of the different cities and of Murdock's Free Surgical Hospital for Women, which is the largest in the United States. It contains 114 beds, every bed free, including operation, the operations ranging from 1000 to 1200 yearly, representing 90 of the worst classes known in surgery. Among these cases we have had **Cancer of uterus** (*Kolpo-hysterectomy*), 13; **Salpingitis** (*Tait's operation*), 31; **Fibroid of uterus** (*abdominal hysterectomy*), 19; **Ventral operation, hernia,** (*abdominal section*), 12; **Cancer of bowel** (*incision*), 2; **Parovarian cyst, 6; Papillomatous cyst** (*extirpation*), 4; **Tubercular peritonitis** (*incision*), 1, **Ovarian cystoma 27; Nymphomania** (*Battey*), 1; **Exploratory abdominal incisions, 12; Fibroid with abdominal abscess** (*Hegar*), 2; **Hysterorraphy, 2; Dermoid cyst, 3; Cirrhotic ovaries,** (*Battey*), 4; **Fibroid uterus** (*Hegar*), 6; **Hystero-epilepsy** (*Battey*), 1; **Haemato-Salpinx** (*Tait*), 5; **Rupture of intestine into vagina, 1; Dislocated kidney, 2; Fibroid tumor abdominal wall, 1; Resection of intestine** (*Senn*), 1; **Ruptured perineum, 294.** Patients are in the Hospital 8 days before and 26 days after operation, on an average.

In Boston, last year, 42 deaths were from Cancer in the Breast. In Murdock's Hospital, 35 such cases were operated on without a death, the patients remaining in the Hospital, on an average, 18 days.

Mortality in Boston,	25.60	per	1000.
" of Women in Boston,	29,00	"	"
" **in Murdock's Free Surgical Hospital,**	**5.00**	"	"
" New York,	26.32	"	"
" Philadelphia,	20.00	"	"
" Chicago,	20.90	"	"
" St. Louis,	20.49	"	"

showing our mortality is only one-sixth as great as of those in health. As good results were obtained in our General Hospital, which we kept open 27 months, **thus showing the value of nutrition as found in Murdock's Liquid Food, and so recognized by the British and American Medical Associations,** before which essays were read and discussed, and it is the only Raw food preparation on which essays were ever read.

Physicians are invited to visit our Hospitals and Works, also to send in patients and to be present at the operations. For any physician who has not used our Liquid Food (and Suppositories for adults and infants), we will deliver free samples to any express company in Boston.

When babies do not thrive, never change their food, but add five or more drops at each feeding of Murdock's Liquid Food, and their lost or needed vitality will be restored in less than thirty days. It is invaluable when weaning babies or when teething. If mothers will take one teaspoonful to a tablespoonful before each meal and on retiring, they will receive as much benefit as the baby.

Murdock Liquid Food Co., Boston.

GOUDRON DE BLOUNT

PREPARED FROM THE GENUINE CAROLINA TAR.

DOSE.—One fluid drachm four or more times a day (as indicated), either full strength, diluted, or, in combination.

INDICATIONS.—Chronic and acute affections of the Air Passages, Coughs, Colds, Bronchitis, Asthma and Consumption.

WILLIAM MURRELL, M.D., F.R.C.P.,

Lecturer on Pharmacology and Therapeutics at the Westminster Hospital; Examiner in Materic Medica to the Royal College of Physicians of London; Fellow of the Medico-Chirurgical College of Philadelphia,

Says:—"I have used with success 'Goudron de Blount.' The results have been good, and the preparation is popular with patients."

To whom all orders for samples must be addressed.

SVAPNIA IS FOR SALE BY DRUGGISTS GENERALLY.

ALETRIS CORDIAL

UTERINE TONIC AND RESTORATIVE.

Prepared from the Aletris Farinosa or True Unicorn and Aromatics.

INDICATIONS.

Amenorrhea, Dysmenorrhea, Leucorrhea, Prolapsus Uteri, Sterility, to Prevent Miscarriage, Etc.

DOSE:—ONE TEASPOONFUL THREE OR FOUR TIMES A DAY.

UNRIVALED AS A UTERINE TONIC IN IRREGULAR, PAINFUL, SUPPRESSED AND EXCESSIVE MENSTRUATION.

It Restores Normal Action to the Uterus, and Imparts Vigor to the Entire Uterine System.

☞Where women have miscarried during previous pregnancies, or in any case where miscarriage is feared, the ALETRIS CORDIAL is indicated, and should be continuously administered during entire gestation.

CHAS. CLAY, M. R. C. S., Manor House, Dewsbury, England, says:—I find Aletris Cordial (Rio) is of great service in threatened miscarriage.

FRANCIS E. CANE, L. R. C. S., &c., Leeds, England, says:—I have tried the Aletris Cordial (Rio) in two cases of long standing dysmenorrhea, with excellent results. One of these patients has spent a week in bed every month for two years. After all the usual remedies, I put her on Aletris Cordial, and for the last two periods she has been out and about all the time.

L. M. WATSON, M. D., Delhi, Ills., says:—I have used Aletris Cordial (Rio) in cases of dysmenorrhea. suppressed menses and threatened miscarriage, and also, combined with Celerina, as a tonic after confinement, with the happiest results, and now I am using it on a case of leucorrhea, with injections of S. H. Kennedy's Extract of Pinus Canadensis, and it is acting like a charm.

P. H. OWEN, M. D., Morganville, Ala., says:—I have prescribed Aletris Cordial (Rio) in several cases with the most satisfactory results, and regard it as the best uterine tonic I have met with in a professional experience of over twenty-five years. In cases of threatened miscarriage it acts like a charm. Would recommend its continuous administration in all cases when there is any indication of miscarriage.

Dr. W. BERTHELOT, Santander, Spain, says:—I have tried the Aletris Cordial (Rio), and it has seemed to me to be useful, especially in cases of dysmenorrhea.

Dr. RASQUINET, Jupile, near Liege, Belgium, says:—I tried Aletris Cordial (Rio) in the case of a woman who had had several miscarriages at the end of five months, and who is now again pregnant, having reached the seventh month, thanks to Aletris Cordial.

R. REECE, M. R. C. S., Walton-on-Thames, England, says:—Aletris Cordial (Rio) in painful menstruation is most valuable. A wife of a minister suffered much, and had had three miscarriages. I prescribed Aletris Cordial. She has for the first time, gone her full time, and was safely confined with a male child.

J. T. COLLIER, M. D., Brooks, Me., says:—I have used your Aletris Cordial (Rio) in cases of females at the menopause. Consider it one of the finest remedies for these cases.

Dr. GORDILLON, St. Amand, France, says: I have tried the Aletris Cordial (Rio) in a case of dysmenorrhea. The result I obtained from the use of your preparation was excellent, better than I had obtained in the same patient by prescribing the usual remedies employed in such cases.

W. F. TOOMBS, M. D., Morrillton, Ark., says:—I have used a great deal of your Aletris Cordial (Rio) and I find it all you claim for it in amenorrhea, dysmenorrhea, metritis, leucorrhea; I don't think it has an equal. I have used it in two cases of threatened miscarriage and the trouble was obviated. For a general Uterine Tonic I know of nothing superior.

R. D. PATTERSON, L. R. C. S. &c., Medical Officer, Caledon Dispensary, Co. Tyrone, Ireland, says:—I have very great pleasure in testifying to the very high opinion I hold of Aletris Cordial (Rio) in threatened miscarriage.

BOUDAULT'S PEPSINE

The only Pepsine used in the Hospitals of Paris for the last Thirty Years.

Unlike the various substitutes which, in most cases, are but unscientific or incompatible compounds, forced upon the Medical Profession as aids to digestion by extensive advertising, but which, when submitted to the proper tests, are found to be useless as digestive agents, Pepsine is constantly gaining in the esteem of the careful practitioner.

Since the introduction of Pepsine by Boudault and Corvisart in 1854, the original BOUDAULT'S PEPSINE HAS BEEN AT ALL TIMES CONSIDERED THE BEST, as is attested by the awards it has received at the Expositions of 1867, 1868, 187 1873, in 1876 at the Centennial Exposition of Philadelphia, and in 1878 at the Paris Exposition.

The most reliable tests, carefully applied, will satisfy everyone that BOUDAULT'S PEPSINE HAS A MUCH HIGHER DIGESTIVE POWER than the best Pepsines now before the Profession, and is therefore especially worthy of their attention.

BOUDAULT'S PEPSINE is prepared in the form of Pepsine Acid and Pepsine Neutral. It is sold in bottles of one ounce, with a measure containing exactly five grains; also in bottles of four, eight, and sixteen ounces for dispensing.

BOUDAULT'S WINE OF PEPSINE

FORMULA OF DR. CORVISART.

The taste of Pepsine being perfectly disguised in this Wine, it may be recommended to persons who have difficulty in taking Pepsine in the form of Powder. This Wine is tested so that a tablespoonful of it is equal in digestive power to ten grains of Boudault's Pepsine in powder. Sold only in bottles of eight ounces.

TANRET'S PELLETIERINE

For the Treatment of Tape-Worm (Tænia Solium).

This New Tænifuge, the Active Alkaloid of Pomegranate Bark, has of late come into extensive use in France for the treatment of Tape-Worm (Tænia Solium). The results of numerous experiments with it at the Marine Hospitals of Toulon, St. Mandrier, etc., and in the Hospitals of Paris, St. Antoine, La Charité, Necker Beaujon, etc., have all been most satisfactory. Doctor Dujardin Beaumetz, Member of the Academy of Medicine, and Professor Laboulbene, in their report to the Society of Therapeutics, have given it their unqualified approval, after the most searching experiments. This preparation is pleasant to administer, and, if certain preliminaries are observed, success will be insured.

Sold only in bottles containing one dose.

DUCRO'S ALIMENTARY ELIXIR

A Combination uniting the properties of Alcoholic Stimulants and Raw Meat.

This preparation, which has been used with great success in the hospitals of Paris since 1868, is adapted to the treatment of all diseases requiring administration, in a small volume, of a tonic able to stimulate and support the vital forces, as *Pulmonar Phthisis, Depression and Nervous Debility, Adynamia, Malarious Cachexia, etc.*

Prepared by EMILE DURIEZ & CO., Successors to DUCRO & CIE, Paris.

KIRKWOOD'S INHALER

This is the only complete, reliable, and effective inhaler in use, arranged for the direct application of Muriate of Ammonia and other remedial agents in the state of vapor to the diseased parts of the air-passages in the treatment of catarrh and diseases of the throat and lungs. No heat or warm liquids required in its use.

It is entirely different from the various frail, cheap instruments that have been introduced.

KIRKWOOD'S INHALER is accompanied by testimonials of the highest professional character, together with carefully prepared formulas for use.

RETAIL PRICE, COMPLETE, $2.50.

☞ A liberal discount allowed to the trade and profession. For descriptive pamphlet or other information address

E. FOUGERA & CO., 30 North William St., New York,

Sole Agents for the above Preparations.

WESTERN PENNSYLVANIA MEDICAL COLLEGE

CITY OF PITTSBURGH.

SESSIONS OF 1889—90.

The REGULAR SESSION begins on the last Tuesday of September, and continues six months. During this session, in addition to four Didactic Lectures, two or three hours are daily allotted to Clinical Instruction. Attendance upon two regular courses of lectures is requisite for graduation. A three years' graded course is also provided. The SPRING SESSION embraces recitations, clinical lectures and exercises, and didactic lectures on special subjects; this session begins the second Tuesday in April, and continues ten weeks.

The laboratories are open during the collegiate year for instruction in chemistry, microscopy, practical demonstrations in medical and surgical pathology, and lessons in normal histology. Special importance attaches to "the superior clinical advantages possessed by this College." For particulars, see annual announcement and catalogue, for which, address the Secretary of Faculty, Prof. J. W. J. McKENNAN.

Business correspondence should be addressed to
PROF. W. J. ASDALE, 2107 Penn Avenue, Pittsburgh.

NATIONAL MEDICAL COLLEGE.

MEDICAL DEPARTMENT OF THE

COLUMBIAN UNIVERSITY,

WASHINGTON, D. C.

The 68th Annual Session will begin October 7th and end March 1st. Graded three years' course required. Women admitted. Professors: J. F. Thompson, W. W. Johnston, A. F. A. King, E. T. Fristoe, Wm. Lee, D. W. Prentiss, D. K. Shute.

For circulars, address
A. F. A. KING, M. D., DEAN, 726 THIRTEENTH ST., N. W., WASHINGTON D. C.

DETROIT COLLEGE OF MEDICINE.

SESSION 1889-90.

Clinical and Practical teaching are made an important feature of this College. Clinical instruction is given daily at HARPER, ST. MARY'S and ST. LUKE'S HOSPITAL, at the COLLEGE, at COLLEGE EYE and EAR INFIRMARY, ST. MARY'S FREE EYE and EAR INFIRMARY, and at the three FREE DISPENSARIES. The facilities offered by this college are unsurpassed for the practical study of MEDICINE, SURGERY, OBSTETRICS, GYNÆCOLOGY, DISEASES OF CHILDREN, GENITO-URINARY, and ORTHOPÆDIC SURGERY, OPHTHALMOLOGY and OTOLOGY, DERMATOLOGY and LARYNGOLOGY.

REGULAR SESSION opens on Wednesday, Sept. 25, and continues six months. During the session, the Professors will take special pains to examine the Students upon the subjects of the previous lectures.

SPRING SESSION begins April 2d, 1890; and closes June 11th.

FEES.—Matriculation fee, $5; Fees for Regular Session, $50; Spring Session, $10, to those who attend the regular term—to all others, $25; Hospital Fee, $10; Graduation Fee, $30; Perpetual Ticket, $100.

FACULTY:

JAMES R. LEAMING, M.D., Emeritus Professor of Diseases of the Chest and Physical Diagnosis; Special Consulting Physician in Chest Diseases to St. Luke's Hospital.

EDWARD B. BRONSON, M.D., Professor of Dermatology; Visiting Dermatologist to the Charity Hospital; Consulting Dermatologist to Bellevue Hospital (Out-door Department).

A. G. GERSTER, M.D., Professor of Surgery; Visiting Surgeon to the German and Mt. Sinai Hospitals.

V. P. GIBNEY, M.D., Professor of Orthopædic Surgery; Orthopædic Surgeon to the Nursery and Child's Hospital; Surgeon-in-Chief to the Hospital for Ruptured and Crippled.

LANDON CARTER GRAY, M.D., Professor of Diseases of the Mind and Nervous System; Attending Physician to Hospital for Nervous and Mental Diseases, and to St. Mary's Hospital.

EMIL GRUENING, M.D., Professor of Ophthalmology; Visiting Ophthalmologist to Mt. Sinai Hospital, and to the German Hospital.

*JAMES B. HUNTER, M.D., Professor of Gynæcology; Surgeon to the Woman's Hospital; Surgeon to the New York Cancer Hospital; Consulting Surgeon to the New York Infirmary for Women and Children; President of the Faculty.

PAUL F. MUNDÉ, M.D., Professor of Gynæcology; Gynæcologist to Mt. Sinai Hospital; Consulting Gynæcologist to St. Elizabeth Hospital.

A. R. ROBINSON, M.D., Professor of Dermatology; Professor of Normal and Pathological Histology in the Woman's Medical College.

DAVID WEBSTER M.D., Professor of Ophthalmology; Surgeon to the Manhattan Eye and Ear Hospital.

JOHN A. WYETH, M.D., Professor of Surgery; Visiting Surgeon to Mt. Sinai Hospital; Consulting Surgeon to St. Elizabeth Hospital; Secretary of the Faculty.

W. GILL WYLIE, M.D., Professor of Gynæcology; Gynæcologist to Bellevue Hospital.

R. C. M. PAGE, M. D., Professor of General Medicine and Diseases of the Chest; Physician to St. Elizabeth Hospital; Attending Physician to the Northwestern Dispensary, Department of Chest Diseases.

D. BRYSON DELAVAN, M. D., Professor of Laryngology and Rhinology; Laryngologist to the Demilt Dispensary.

JOSEPH WILLIAM GLEITSMANN, M. D., Professor of Laryngology and Rhinology; Laryngologist and Octologist to the German Dispensary.

OREN D. POMEROY, M.D., Professor of Otology; Surgeon Manhattan Eye and Ear Hospital; Ophthalmic Surgeon to New York Infants' Asylum, and Consulting Surgeon to the Paterson Eye and Ear Infirmary.

HENRY N. HEINEMAN, M. D., Professor of General Medicine and Diseases of the Chest; Attending Physician to Mt. Sinai Hospital.

B. SACHS, M.D., Professor of Diseases of the Mind and Nervous System; Consulting Neurologist to the Montefiore Home for Chronic Invalids.

THOMAS R. POOLEY, M.D., Professor of Ophthalmology; Surgeon-in-Chief of the New Amsterdam Eye and Ear Hospital; Ophthalmic Surgeon to the Sheltering Arms; Consulting Ophthalmologist to the St. Bartholomew's Hospital.

L. EMMETT HOLT, M.D., Professor of Diseases of Children; Visiting Physician to the New York Infant Asylum; Consulting Physician to the Hospital for Ruptured and Crippled.

AUGUST SEIBERT, M.D., Professor of Diseases of Children; Physician to the Children's Department of the German Dispensary.

H. MARION SIMS, M.D., Professor of Gynæcology; Gynæcologist to St. Elizabeth Hospital and New York Infant Asylum.

WILLIAM F. FLUHRER, M.D., Professor of Genito-Urinary Surgery; Surgeon to Bellevue and St. Sinai Hospitals.

HENRY C. COE, M. D., M. R. C. S. (Eng.), Professor of Gynecology; Attending Surgeon to New York Cancer Hospital; Assistant Surgeon to Woman's Hospital; Obstetric Surgeon to Maternity Hospital; Obstetrician to New York Infant Asylum; Gynecologist to Presbyterian Hospital, Out-door Department.

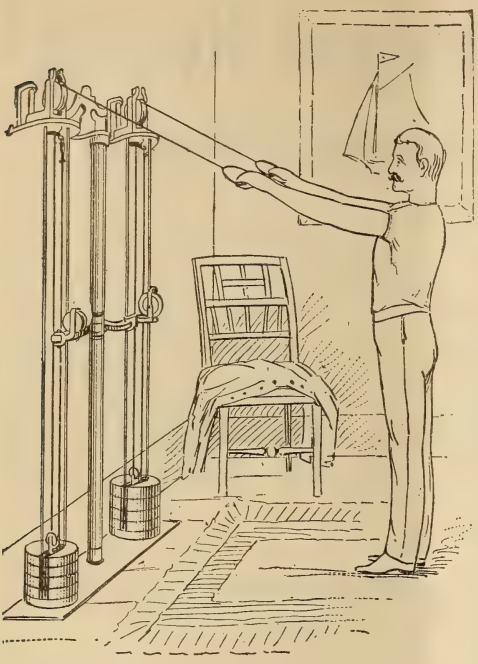
* Deceased.

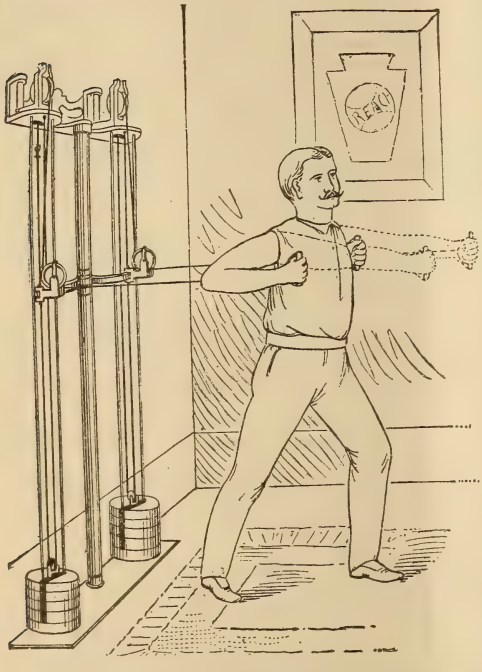
THE NEW YORK POLYCLINIC is a School of Clinical Medicine and Surgery for *Practitioners only*. No didactic lectures are given The classes are limited. The demonstrations are made at the Polyclinic School and Hospital, and in the various Hospitals in New York City with which the Faculty are connected.

Session of 1889–90 opens Monday, September 16th, 1889. For further information and for catalogue, address

JOHN A. WYETH, M.D.,
Secretary of the Faculty,

Or WILLIS O. DAVIS, Clerk,
214, 216 & 218 East 34th Street, New York City.





A. G. SPALDING & BROS.'

Gymnasium Department.

From this time henceforth the **Gymnasium** in all its important details will be a department in our business to which we shall devote especial attention.

With the addition to our own valuable patents, those of the **A. J. Reach Company,** of Philadelphia, recently purchased by us, enables us to claim the most **extensive department** of **Gymnasium Appliances in the world.**

We have been encouraged in this **important** movement by the constantly increasing demand from **Colleges, Seminaries,** and other **Educational** Institutions for Gymnasium Supplies, and henceforth we shall devote special attention to furnishing **plans, specifications,** and **estimates** to such and for **private residences** as well, and solicit correspondence with all contemplating the introduction of gymnastics for any purpose.

The Peerless Pulley Weight, illustration of which appears on this page, is a most perfect appliance for the development of the **chest** and **arms,** adjustable to the height of *any* person, and in weight from five to thirty pounds. For **man or woman** this is the peer of any method yet devised, especially for home use. Realizing the attention the **medical profession** and the **teacher,** are now giving to **healthful** exercise in **schools,** we solicit also their correspondence, and any orders, or business prceeding from such, will be gratefully received, and entitled to our best rates of discount, and will receive prompt and careful attention.

Visitors to our different establishments at **Chicago, New York,** and **Philadelphia** will always be welcome and politely served by the many efficient salesmen constantly in attendance.

A. G. SPALDING & BROS.,

CHICAGO, 108 Madison Street.
NEW YORK, 241 & 243 Broadway.
PHILADELPHIA, 1022 Market Street.
LONDON, ENGLAND, 38 Holborn Viaduct.

SAVE MONEY
IN BUYING BOOKS.

By special arrangement with the publishers we are able AT THIS TIME to offer to **OUR SUBSCRIBERS** certain valuable books at a very **LOW PRICE.**

☞This can be done only in connection with paid-up subscriptions.☜

FOR **$10.00**

we will send the **REPORTER** for one year, **$5.00**
and **DICTIONARY OF PRACTICAL SURGERY.** By various British Hospital Surgeons. Edited by Christopher Heath, F. R. C. S. One volume, 8vo. Over 2,000 pages. Cloth, ... **$7.50**

"A most excellent book for the library of the surgeon, and especially for the country practitioner; as a book of reference it is so concise and at the same time so complete."—C. B. PORTER, M. D., Boston, Mass.

MEDICAL AND SURGICAL REPORTER,

P. O. Box 843, Philadelphia.

French's Beef, Wine and Iron.

In pint bottles . . . . . $9.00 a dozen.

Each fluid ounce contains the equivalent of 2 ozs. *fresh beef* and 4 grains of Citrate of Iron.

French's Hypophosphites or Compound Syrup of Hypophosphites.

Per dozen pints . . . . . $15.00 a dozen.

FORMULA.

Each fluid drachm contains—

Calcium Hypophosphite	1½ grains.
Potassium	1 grain.
Manganese	½ grain.
Iron	½ grain.
Quinine	¼ grain.
Strychnine	1–128 grain.

It is made from freshly precipitated and chemically pure salts, so combined that they will remain in perfect solution, thereby producing a more elegant preparation than generally found in the market.

French's Wine of Coca.

Each fluid ounce represents 30 grains Erythroxylon (Coca).

1 dozen pint bottles . . . . . $12.00 a dozen.

French's Emulsion of Pure Norwegian Cod-Liver Oil

With Bi-Basic Phosphate of Lime. No unpleasant taste.

In pint bottles . . . . . $9.00 a dozen.

These preparations are obtainable from the retail drug trade, or the manufacturers will send them by express prepaid in quantities of ¼ dozen and over, on receipt of the price.

We claim for our Hypodermic Tablets:

Absolute Accuracy of Dose.

Ready and Entire Solubility.

Perfect Preservation of the Drug.

Their convenience and utility will at once be apparent on examination.

They are put up in Cylindrical Tubes, convenient for carrying in Hypodermic or Pocket case, ten tubes in a box, with twenty tablets in each tube.

NOTE.—It will only be necessary in ordering to specify the numbers, as above. Wyeth's Manufacture. These Tablets will be sent by mail, on receipt of the proper amount.

PHILADELPHIA, PA.

Doctor:

You have many patients who, at this season of the year, present the condition of extreme debility.

Some have passed the winter amidst scenes of constant gayety and the ceaseless whirl of fashionable society, with its balls, suppers and parties following in rapid succession, keeping their nervous tension up to the highest pitch, until, to use their own expression, they feel "utterly worn out." Others, the actors, singers, preachers, lecturers and other public workers, are so fatigued with the excessive mental strain of the winter that they are on the verge of nervous prostration. While still others, in humble circumstances, have endured unusual hardships, exposure and privation.

Overwork and worry are the most potent factors in the failure of health among Americans.

These are all in the most favorable condition for the development of acute disease.

You can rapidly restore them to the normal condition, and thus demonstrate the power of your art, by prescribing for them a thorough and protracted course of the Hypophosphites of Lime and Soda as found in McArthur's Syrup. Here you find these valuable salts in their absolute chemical purity.

Among specialists this is recognized as the chief therapeutic agent by which consumption, before its later stages, can be cured, and the frightful and disgusting ravages of scrofula brought completely under control, while it readily restores the victim of nervous debility.

McArthur's Syrup is prepared solely for prescription by physicians, hence no printed matter accompanies the bottle.

Its use is indicated in all diseases with debilitating discharges, or characterized by faulty nutrition. Always specify McArthur's Syrup, as others contain many ingredients entirely foreign to the case. If you desire other ingredients for use in special cases you can add them to the prescription.

Write for our pamphlet, "The Curability and Treatment of Consumption," (free), and a large sample bottle of McArthur's Syrup, on which you will pay only the express charges.

McARTHUR HYPOPHOSPHITE CO.,
BOSTON, MASS.

About advertisements.

The readers of the Reporter know that the publishers have tried to avoid the appearance—as well as the fact—of sacrificing the interest of the reader to the pecuniary gain of the Journal. Still we do not wish to underrate the value of our advertising pages to our readers. We try to admit to them nothing but what is worthy of consideration. We cannot judge of the claims of various preparations, but those we lay before our readers are worth trying and those who try them shall determine their merits.

Our readers may therefore be sure that there is much of interest to instruct them in the advertising pages; and we would strongly urge them to read these pages as regularly as they do the other part of the Reporter.

Partly because we rigidly exclude our advertisers from the "reading" pages we bespeak especial attention for what they say for themselves in the pages devoted to them.

The Publisher of the
Medical & Surgical Reporter.

PHENACETINE-BAYER IN INFLUENZA.

We have just received advices that Phenacetine-Bayer is being used to advantage both in Russia and Germany, in the treatment of the present epidemic of **INFLUENZA.** It is also being extensively employed in America for the same purpose.

Dr. A. C. HALLAM, Brooklyn, N. Y., states :—"That he has used Phenacetine extensively in the present epidemic of Influenza and has been well pleased with its effects. The rapidity with which it relieves the muscular pains has been very gratifying to him, the patient breaking out in a profuse perspiration, and in a few hours seeming relieved of all but the catarrhal symptoms, which run on and call for other treatment."—*The New York Medical Journal*, Jan. 4, 1890.

221 GENESEE STREET, UTICA, N. Y., January 6, 1890.

To the Editor of the New York Medical Journal:

SIR: I desire to echo the statement made in your last issue by Dr. A. C. Hallam, of Brooklyn, viz.: That in the treatment of fifty cases of influenza I have used phenacetine in five-grain doses repeated hourly until fifteen grains had been taken, and in *every case* the severe muscular pains and headache disappeared; following this with five-grain doses, three times daily, of the salicylate of cinchonidine. The disease disappeared upon the fourth day, and in *no cases* have there been any sequelæ either of bronchitis or pneumonia. Phenacetine, I consider superior in every way to antipyrine and acetanilide.

CHARLES R. WEED, M. D.

Phenacetine-Bayer (Para-Acetphenetidine), prepared by the Farbenfabriken, formerly Friedr. Bayer & Co., Elberfeld, is supplied by us in one-ounce vials and also in the form of our soluble pills, containing two, four, and five grains each. Either form may be obtained of any reputable apothecary.

W. H. Schieffelin & Co.,
170 & 172 WILLIAM STREET,
NEW YORK.

The Acutely Ill.

When a patient is acutely ill, the digestive powers share in the general condition, and consequently the food supplied should be of the most easily assimilable character. The predigestion of starchy matters outside the body, as in MELLIN'S FOOD, is necessary, and the soluble carbohydrates of which this food consists, soluble because predigested, form the true food of the acutely ill.—J. MILNER FOTHERGILL, M.D., Edin.

A sample of MELLIN'S FOOD ***will be sent to any physician, free of expense, upon application.***

Doliber-Goodale Co., Boston, Mass.

A Phosphorized Cerebro-Spinant

(FRELIGH'S TONIC).

FORMULA.

Ten minims of the Tonic contain the equivalents (according to the formulæ of the U. S. P., and Dispensatory) of

Tinct. Nux Strychnos,	1 minim.
" Ignatia Amara,	1 "
" Cinchona,	4 "
" Matricaria,	1 "
" Gentian,	½ "
" Columbo,	½ "
" Phosphorus, C. P.,	1-300 gr.
Aromatics,	2 minims.

Dose: 5 to 10 drops in 2 tablespoonfuls of water.

INDICATIONS.

Paralysis, Neurasthenia, Sick and Nervous Headache, Dyspepsia, Epilepsy, Locomotor Ataxia, Insomnia, Debility of Old Age, and in the Treatment of Mental and Nervous Diseases.

A BALTIMORE PHYSICIAN, WHOSE DIPLOMA DATES FROM 1825, SAYS:

"Your combination I find vastly more effective than any tonic I have ever used. It furnishes a most powerful evidence of the vastly increased power of medicament by combination and judicious pharmaceutic preparation."

Price, One Dollar per Bottle, containing 100 of the Average 5-Drop Doses.—Physicians' single sample delivered, charges prepaid, on application. That every physician may be his own judge of its value, irrespective of the opinions of others, we make the following

SPECIAL OFFER:

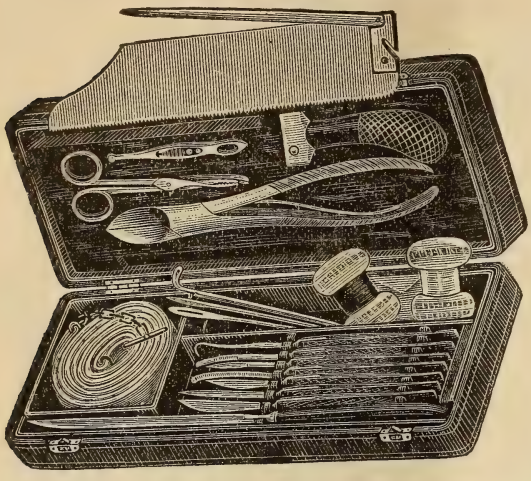
We will send to any physician, delivered, charges prepaid, on receipt of twenty-five cents, and his card or letter-head, half a dozen physicians' samples, sufficient to test it on as many cases for a week to ten days each. The Tonic is kept in stock regularly by all the leading wholesale druggists of the country. As we furnish no samples through the trade, wholesale or retail, for samples, directions, price-lists, etc., address,

I. O. WOODRUFF & CO.,

Manufacturers of Physicians' Specialties,

No. 88 Maiden Lane, New York City.

LENTZ'S ASEPTIC COMPACT OPERATING SET, No. 10.



We have from time to time made improvements to this set and are now making a perfect aseptic set, which offers especial facilities for aseptic precautions; the blades are soldered into hollow German-silver handles, nickel-plated, are light so as not to be unwieldy and admit of a firm grasp when operating.

The saw is adjusted to the handle on an entirely new principle, being made to separate easily and to facilitate thorough cleansing.

The handle is entirely of metal and fenestrated to overcome unnecessary weight.

Scissors and Forceps having French locks can be separated, and the slide can be easily removed from Artery and Needle Forceps.

Therefore, no opportunity is offered for the lodgment and development of germs.

The entire set is patterned with especial reference to facility in cleansing.

The instruments can be sterilized by placing them in boiling water, without fear of damaging them. Wood or rubber handles will not admit of this procedure. For price, see case A.

The following instruments are put up in either a fine Mahogany or Morocco case, with nickel trimmings, lined with velvet, and has an extra space for Trephine with handle, and Elevator if desired.

One Amputating Knife (6 in. blade); One Finger Knife; One Hernia Knife; One Sharp Curved Bistoury; Two Scalpels; One Tenotome; One Tenaculum; One Pair Scissors, curved or flat; One Saw (9 in. blade); One Liston's Bone Forceps, with Spring; One Artery and Needle Forceps, improved; One Esmarch's Flat Rubber Tourniquet, with Chain; One Hæmostatic Forceps; One Director, with Aneurism Needle; Two Silver Probes; Silk, Wire, Wax and Needles.

With the Sixteen Instruments Contained in this Case, any Ordinary Operation may be Performed.

SIZE, 11 INCHES LONG, 4 INCHES WIDE, 2 INCHES HIGH.

A.—German Silver aseptic Handles on Knives and Saw, ... $34 00
B.—Hard Rubber aseptic Handles on Knives and Saw, ... 29 00
C.—Ebony Handles on Knives and Saw (as shown in illustration), ... 25 00
Either Set, with Trephine and Elevator in addition, ... 4 65

ANTIFEBRIN IN INFLUENZA!

This use of this Renowned ANTIPYRETIC, ANODYNE, SEDATIVE and NERVINE seems suggested by the following **Judgments** passed on it by Reputed Authorities in Symptomatically *Allied Complaints:*—

As an **Antifebrile** Dose:—2 to 4 grains *single;* 16 to 32 grains *daily.*—(WEINSTEIN, Vienna.)

As an **Anodyne** and **Nervine** Dose in severest Neurotic and Secondary Pains:—8 to 16 grains, *one to four times per day.*—(DEMIEVILLE, Lausanne.)

Mode of Administration:

"Even the *initial dose* gave evident relief; commonly within half an hour. If this did not suffice to break up the symptoms materially, a second dose followed in an hour or two; at the very utmost a third one was given the same day.

"The remedy was effective and well tolerated at all times; at all hours of the day; on an empty or a full stomach; even during menstruation.

"The form of exhibition was that of *powders*, wrapped in *wafers*. The readier solubility of the Antifebrin in Alcohol indicates the advisability of following the dose by a small draught of Wine or Brandy."—(OTT, Prague.)

ANOTHER MODE OF ADMINISTRATION:—*Dissolve* your Dose (4 to 12 grains) of **ANTIFEBRIN** in ½–1 ounce (1 to 2 Tablespoonfuls) of *Boiling Water*,—stirring for a minute or two, until dissolved. Allow the Solution *to cool down* to about 104 degrees F. (being just comfortably warm) and sweeten to taste, *Before Taking!*—NO ALCOHOL, WINE, or LIQUOR needed with it when thus prepared.

ANTIFEBRIN

was found **Superior** to the **Following** Remedies in **Efficacy**, or in **Safety**, or in **Both**:—

Antipyrine,—*Quinine*,—*Morphine*,—*Opium*,—CHLORAL HYDRATE—ACONITE,—CAFFEINE,—KAIRINE,—*Salicylic Acid*,—CARBOLIC ACID,—*Bromides*,—IODIDES.

Among the Medical Authorities from whose Clinical and other Published Reports the above-stated PREFERENCES OF ANTIFEBRIN OVER OTHER REMEDIES have been drawn, are the following:

HARE, University of Pennsylvania;—DUJARDIN-BEAUMETZ, Paris;—HERCZEL, Heidelberg;—MURRAY, *Brit. Med. Journal;*—PAVAIVAJNA, *Centralblatt für die gesammte Therapie;*—BARR, Bridgeport, Ill.;—KELL, Delphos, O.;—HAY, New York;—HAAS, Prague.

Antifebrin was also *found to be:*

"Thoroughly *reliable* as an ANTIPYRETIC."—(DEMME, Berne.)

"*Not only* powerfully ANTITHERMIC, but also a most *useful* NERVINE."—(LEPINE, Lyons.)

"A *powerful, safe*, and *certain* ANTITHERMIC agent."—(EVANS, Easton, Pa.)

"*Complete* ANALGETIC effect in nine cases out of every ten."—(FISCHER, Cannstatt.)

RABUTEAU'S DRAGEES OF IRON

Laureate of the Institute of France.—Prize in Therapeutics.

The studies made by the Physicians of the Hospitals have demonstrated that the **Genuine Dragees of Iron of Rabuteau** are superior to all other preparations of Iron in cases of *Chlorosis, Anæmia, Leucorrhœa, Debility, Exhaustion, Convalescence, Weakness of Children*, and the maladies caused by the Impoverishment and Alteration of the blood after periods of fatigue, watching, and excesses of any kind.

TAKE 4 TO 6 DRAGEES DAILY.

Rabuteau's Elixir of Iron is recommended to those persons who may be unable to swallow the Dragees. Dose —*A small wineglassful with meals.*

Rabuteau's Syrup of Iron is specially designed for children. Chalybeate medication, by means of **Rabuteau's Iron,** is the most economical and the most rational known to therapeutics.

No constipation, no diarrhœa, complete assimilation.

Take only the GENUINE IRON OF RABUTEAU of

CLIN & CO., Paris.

SOLUTION OF THE SALICYLATE OF SODA OF DOCTOR CLIN.

Laureate of the Paris Faculty of Medicine (MONTYON PRIZE).

Dr. Clin's Solution, always identical in its composition, and of an agreeable taste, permits the easy administration of *pure Salicylate of Soda*, and the variation of the dose in accordance with the indications presented.

"The *Salicylate of Soda* used by **Clin** is of perfect purity, "and is prepared with the greatest care; it is a medicament "in which we may have every confidence."

—*Paris Society of Medicine, Meeting of Feb. 8th, 1879.*

Clin's Solution, very exactly mixed, contains: 2 grammes of *Salicylate of Soda* per tablespoonful, 50 centigrammes of *Salicylate of Soda* per teaspoonful.

Paris—CLIN & CO.—Paris

AND BY ALL DRUGGISTS.

CAPSULES MATHEY-CAYLUS

WITH THIN ENVELOPE OF GLUTEN.

CONTAINING COPAIBA AND ESSENCE OF SANTAL; COPAIBA, CUBEBS, AND THE ESSENCE OF SANTAL; COPAIBA, IRON, AND THE ESSENCE OF SANTAL.

"**The Mathey-Caylus Capsules,** of the *Essence of* "*Santal*, associated with the Balsams, possess an incontesta- "ble efficaciousness, and are employed with the greatest "success for the rapid cure of old or recent *Discharges*, "*Gonorrhœa, Blenorrhœa, Leucorrhœa, Cystitis of the Neck*, "*Urethritis, Catarrh*, and other *diseases of the bladder*, together "with all affections of the *Urinary Passages.*"

"Thanks to their thin envelope of *Gluten*, which is essen- "tially assimilable, the *Mathey-Caylus Capsules* are digested "by the most delicate persons, and never weary the stomach."

—*Gazette des Hopitaux de Paris.*

CLIN & CO., Paris,

AND OF ALL DRUGGISTS.

NEURALGIAS

PILLS OF DR. MOUSSETTE.

The **Moussette Pills** of aconitine and quinium, calm or cure *Gastralgia, Hemicrania, Headache, Sciatica*, and the most obstinate Neuralgias.

"The sedative action exerted by the **Moussette Pills** "upon the apparatus of the sanguineous circulation by the "intermediation of the vaso-motor nerves, indicates their "use in *neuralgias of the trigemini nerves*, (fifth pair), *con-* "*gestive neuralgias*, and *painful and inflammatory Rheumatismal* "*affections.*"

"Aconitine produces marvelous effects in the treatment "of *facial neuralgias* when they are not symptomatic of "intracranial tumor."—*Society of Biology of Paris, Meeting* "*of the 28th February, 1880.*

DOSE—Take 3 to 6 pills during the twenty-four hours.

ACCEPT ONLY THE GENUINE MOUSSETTE PILLS OF

CLIN & CO.,—Paris.

GRAND NATIONAL PRIZE OF 16,600 FRANCS,

QUINA-LAROCHE

This meritorious **Elixir, QUINA-LAROCHE,** is prepared from the **three** Cinchonas; it is an agreeable and doubtless highly efficacious remedy.

—*The Lancet.*

VINOUS ELIXIR,

A STIMULATING RESTORATIVE

—AND—

ANTI-FEBRILE TONIC.

QUINA-LAROCHE under the form of a vinous **Elixir** contains the totality of the numerous principles of the **three** Cinchona barks. It is a preparation which renders great services to Therapeutics.—Extract of the *Gazette des Hôpitaux*, Paris.

FAR SUPERIOR TO ALL ORDINARY CINCHONA WINES.

LAROCHE'S QUINA, tried by the Academy of Medicine of Paris, is a specially prepared COMPOUND EXTRACT of Quinquina, a careful analysis, confirmed by experience, has shown that most of the wines and syrups hitherto used have not contained all the properties of this precious bark, of these some, although beneficial, are altogether lost, while many preparations contain but half the properties of the bark in varying proportions.

MR. LAROCHE, by his peculiar method, has succeeded in extracting all the active principles of the quinquina, combining these with *Catalan Wine* forming an Elixir free from the disagreeable bitterness of other similar preparations. Practitioners have found triple advantages in the use of this Elixir, it is a *strong tonic*, is easily administered, and perfectly harmless, being free from the unpleasant effects of Quinine.

THE FERRUGINOUS QUINA-LAROCHE is the invigorating tonic *par excellence*, having the advantage of being easily assimilated by the gastric juice; without, in any way, deranging the action of the digestive organs, proving itself to be a most efficacious remedy in cases of impoverishment of the blood, ANÆMIA, CHLOROSIS, INTESTINAL HÆMORRHAGE, CASTRALGIA, EXHAUSTION, ETC., ETC.

PARIS.—22 RUE DROUOT.—PARIS.

PROVIDED WITH

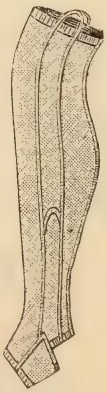
THE PATENT NON-ELASTIC STAYS AND ADJUSTING LOOPS,

By the aid of which they can be drawn on easily, like pulling on a boot. They will last much longer than the old style, as the stays prevent them from being torn apart in drawing them on.

ALL KINDS AND SIZES IN THREAD OR SILK ELASTIC. Made under D. Master's Patents, Nov. 29, 1881, March 21, 1882. Send for descriptive circular and price-list to

POMEROY TRUSS CO.,
785 Broadway, New York.

DANIEL POMEROY, Pres. CHARLES R. DEAN, Sec.



THE NEW STYLE cannot pull apart and consequently lasts until worn out.

BROMIDIA

THE HYPNOTIC.

FORMULA.—

Every fluid drachm contains 15 grains EACH of Pure Chloral Hydrat. and purified Brom. Pot., and one-eighth grain EACH of gen. imp. ext. Cannabis Ind. and Hyoscyam.

DOSE.—

One-half to one fluid drachm in WATER or SYRUP every hour, until sleep is produced.

INDICATIONS.—

Sleeplessness, Nervousness, Neuralgia, Headache, Convulsions, Colic, Mania, Epilepsy, Irritability, etc. In the restlessness and delirium of fevers it is absolutely invaluable.

IT DOES NOT LOCK UP THE SECRETIONS.

PAPINE

THE ANODYNE.

Papine is the Anodyne or pain-relieving principle of Opium, the Narcotic and Convulsive Elements being eliminated. It has less tendency to cause Nausea, Vomiting, Constipation, Etc.

INDICATIONS.—

Same as Opium or Morphia.

DOSE.—

(ONE FLUID DRACHM)—represents the Anodyne principle of one-eighth grain of Morphia.

IODIA

The Alterative and Uterine Tonic.

FORMULA.—

Iodia is a combination of active principles obtained from the Green Roots of Stillingia, Helonias, Saxifraga, Menispermum, and Aromatics. Each fluid drachm also contains five grains Iod. Potas., and three grains Phos. Iron.

DOSE.—

One or two fluid drachms (more or less as indicated) three times a day before meals.

INDICATIONS.—

Syphilitic, Scrofulous and Cutaneous Diseases, Dysmenorrhea, Menorrhagia, Leucorrhea, Amenorrhea, Impaired Vitality, Habitual Abortions, and General Uterine Debility.

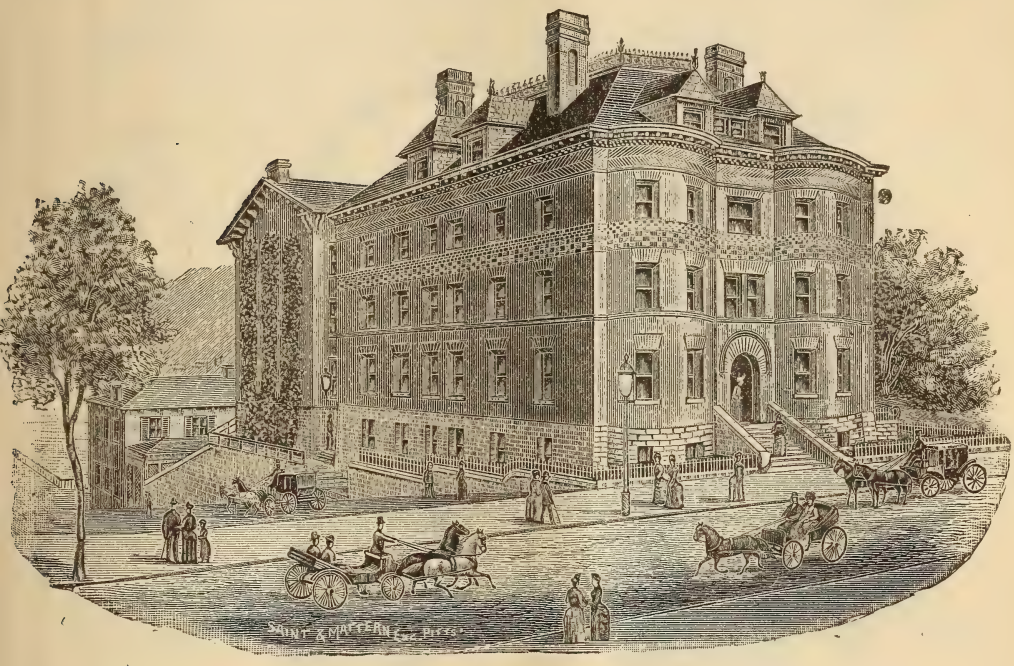
DR. R. S. SUTTON'S

Sanatorium for Diseases of Women.



Seventh Year Opens September 1, 1889.

ALLEGHENY CITY, PA.

This Institution is located on high ground, and overlooks the Allegheny, Monongahela and Ohio rivers; it commands a view of the city of Pittsburgh, and its picturesque surroundings. The building is large and beautiful, it is provided with every modern convenience, the halls are heated by steam, the rooms are commodious, well lighted and ventilated, and heated by open grates. The house is provided with a private parlor and reading-room for patients. The dining-room is large, handsomely finished, and furnished with small tables, securing privacy at meals for those who do not care to have meals served in their own rooms. Patients can be as secluded, should they desire it, as in a well appointed hotel. Each patient is examined by Dr. Sutton, and receives his daily personal attention, while Dr. J. H. Williamson, a physician of ample hospital experience, resides in the Institution, and has, under Dr. Sutton, the immediate care of the patients. The Institution accommodates 25 patients, and is equal in comfort to the best hotels.

Electricity, baths, douches, massage, local treatment, general medication and surgical operations are resorted to according to the requirements of each patient.

For further information address the Matron

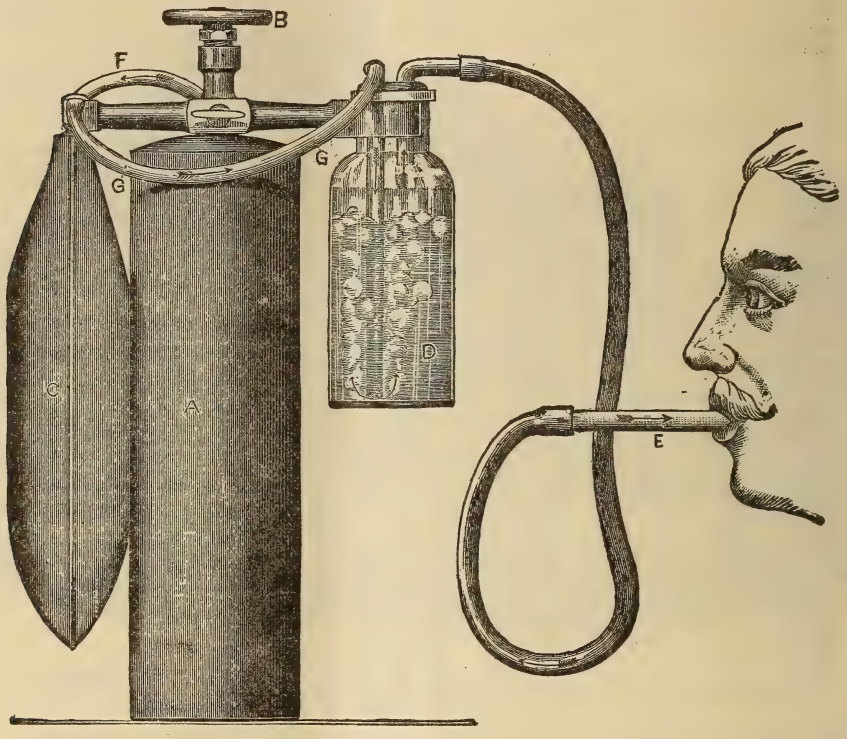
INHALATION APPARATUS

FOR

THE THERAPEUTIC ADMINISTRATION OF OXYGEN.



In the treatment of lung troubles by Oxygen its exhibition by inhalation is preferred. The apparatus herewith shown is a modification of the Nitrous Oxide apparatus which we have supplied for many years. It is made in the best manner throughout, and is the outcome of years of experience in the manufacture of gas apparatus. It will be found to meet all the requirements.

We supply the gas in two sizes of cylinders, containing respectively forty and one hundred gallons, either pure Oxygen, or a mixture of Oxygen and Nitrous Oxide in definite proportions of 20 per cent., and forty per cent. of Nitrous Oxide.

Whether pure or mixed the gas is sold at the uniform price of 5 cents a gallon. The cost of the cylinders will be refunded on their return empty with the valves in good condition. Full description of Inhalation and Enema apparatuses with directions for use accompany each apparatus, or will be supplied on application.

PRICES.

Inhalation Apparatus	$5.00
Cylinder, 40 gallons' capacity	6.00
40 gallons Gas, either pure Oxygen or mixed Oxygen and Nitrous Oxide	2.00
Complete Apparatus, Cylinder, and 40 gallons Gas	$13.00
Inhalation Apparatus	$5.00
Cylinder, 100 gallons' capacity	15.00
100 gallons Gas, either pure or mixed	5.00
Complete Apparatus, Cylinder, and 100 gallons Gas	$25.00

THE BEST ANTISEPTIC
FOR BOTH INTERNAL AND EXTERNAL USE.

ANTISEPTIC, PROPHYLACTIC, DEODORANT.

LISTERINE

NON-TOXIC, NON-IRRITANT, NON-ESCHAROTIC.

FORMULA—Listerine is the essential antiseptic constituent of Thyme, Eucalyptus, Baptisia, Gaultheria and Mentha Arvensis, in combination. Each fluid drachm also contains two grains of refined and purified Benzo-boracic Acid.

DOSE—Internally: One teaspoonful three or more times a day (as indicated) either full strength, or diluted, as necessary for varied conditions.

LISTERINE is a well-proven antiseptic agent—an antizymotic—especially adapted to internal use, and to make and maintain surgical cleanliness—asepsis—in the treatment of all parts of the human body, whether by spray, irrigation, atomization, or simple local application, and therefore characterized by its particular adaptability to the field of

PREVENTIVE MEDICINE—INDIVIDUAL PROPHYLAXIS.

Diseases of the Uric Acid Diathesis.

LAMBERT'S

LITHIATED HYDRANGEA

KIDNEY ALTERATIVE—ANTI-LITHIC.

FORMULA—Each fluid drachm of "Lithiated Hydrangea" represents thirty grains of FRESH HYDRANGEA and three grains of CHEMICALLY PURE Benzo-Salicylate of Lithia. Prepared by our improved process of osmosis, it is INVARIABLY of DEFINITE and UNIFORM therapeutic strength, and hence can be depended upon in clinical practice.

DOSE—One or two teaspoonfuls four times a day (preferably between meals).

Urinary Calculus, Gout, Rheumatism, Bright's Disease, Diabetes, Cystitis, Hæmaturia Albuminuria, and Vesical irritations generally.

We have much valuable literature upon { GENERAL ANTISEPTIC TREATMENT, LITHEMIA, DIABETES, CYSTITIS, ETC. } To forward to Physicians upon request:

Geo Hamlin Prest. Chas Roome Parmele Treas.

GENTLEMEN:

The Case of your wines sent me for analysis by Dr. A. L. Hummel, of the "Annals of Hygiene," containing specimens of your La Rosa Zinfandel, Mataro, Riesling, Royal Tokay, and Royal Grape Brandy, has been duly received.

I have examined them for the common contaminants of wine; to wit: Sulphurous acid and sulphites, salicylic acid, fuchsin, lead salts, etc., none of which I found present therein.

I have also determined their alcoholic strength, extractives, and ashes, and found them to correspond strictly in this respect with the standard of pure and natural wines, which cannot be said of many of the imported wines.

As a native of a wine-producing country, I consider myself somewhat of a judge of wines, and regard your products as comparing more than favorably with most of the wines from abroad which are sold at higher prices, so much so that I enclose within my order for fifty bottles of La Rosa Zinfandel, which I expect to use hereafter exclusively at my table.

Very Respectfully,

L. WOLFF, M.D.,
Demonstrator of Chemistry, Jefferson Medical College.

Apollinaris

"THE QUEEN OF TABLE WATERS."

The filling at the Apollinaris Spring (Rhenish Prussia), amounted to

11,894,000 BOTTLES IN **1887,**
12,720,000 BOTTLES IN **1888** AND
15,822,000 BOTTLES IN **1889.**

"The annual consumption of this favorite beverage affords a striking proof of the widespread demand which exists for table water of absolute purity, and it is satisfactory to find that, wherever one travels, in either hemisphere, it is to be met with; it is ubiquitous, and should be known as the cosmopolitan table water. 'Quod ab omnibus, quod ubique.'"—BRITISH MEDICAL JOURNAL.

THE BEST NATURAL APERIENT.

THE APOLLINARIS COMPANY, LIMITED, London, beg to announce that, as numerous APERIENT WATERS are offered to the public under names of which the word "Hunyadi" forms part, they have now adopted an additional Label comprising their Registered Trade Mark of selection, which consists of

A RED DIAMOND.

This Label will henceforth also serve to distinguish the HUNGARIAN APERIENT WATER SOLD BY THE COMPANY from all other Aperient Waters.

DEMAND THE 
DIAMOND MARK.

And insist upon receiving the HUNGARIAN APERIENT WATER of the APOLLINARIS COMPANY, LIMITED, London.

THE VALUE OF NUTRITION IN DISEASE.

All physicians who have ever used Murdock's Liquid Food and Suppositories recognize their value over all other foods, in breaking up disease and building up the patients after disease, preventing a relapse, **as the same results are obtained as in surgery.** Its value in surgical cases we illustrate by the records of the different cities and of Murdock's Free Surgical Hospital for Women, which is the largest in the United States. It contains 114 beds, every bed free, including operation, the operations ranging from 1000 to 1200 yearly, representing 90 of the worst classes known in surgery. Among these cases we have had **Cancer of uterus** (*Kolpo-hysterectomy*), 13; **Salpingitis** (*Tait's operation*), 31; **Fibroid of uterus** (*abdominal hysterectomy*), 19; **Ventral operation, hernia,** (*abdominal section*), 12; **Cancer of bowel** (*incision*), 2; **Parovarian cyst, 6; Papillomatous cyst** (*extirpation*), 4; **Tubercular peritonitis** (*incision*), 1, **Ovarian cystoma 27; Nymphomania** (*Battey*), 1; **Exploratory abdominal incisions, 12; Fibroid with abdominal abscess** (*Hegar*), 2; **Hysterorraphy, 2; Dermoid cyst, 3; Cirrhotic ovaries,** (*Battey*), 4; **Fibroid uterus** (*Hegar*), 6; **Hystero-epilepsy** (*Battey*), 1; **Haemato-Salpinx** (*Tait*), 5; **Rupture of intestine into vagina, 1; Dislocated kidney, 2; Fibroid tumor abdominal wall, 1; Resection of intestine** (*Senn*), 1; **Ruptured perineum, 294.** Patients are in the Hospital 8 days before and 26 days after operation, on an average.

In Boston, last year, 42 deaths were from Cancer in the Breast. In Murdock's Hospital, 35 such cases were operated on without a death, the patients remaining in the Hospital, on an average, 18 days.

Mortality in Boston,	. . . . .	25.60	per 1000.
" of Women in Boston,	. . . . .	29,00	" "
" **in Murdock's Free Surgical Hospital,**	.	**5.00**	" "
" New York,	. . . . .	26.32	" "
" Philadelphia,	. . . . .	20.00	" "
" Chicago,	. . . . .	20.90	" "
" St. Louis,	. . . . .	20.49	" "

showing our mortality is only one-sixth as great as of those in health. As good results were obtained in our General Hospital, which we kept open 27 months, **thus showing the value of nutrition as found in Murdock's Liquid Food, and so recognized by the British and American Medical Associations,** before which essays were read and discussed, and it is the only Raw food preparation on which essays were ever read.

Physicians are invited to visit our Hospitals and Works, also to send in patients and to be present at the operations. For any physician who has not used our Liquid Food (and Suppositories for adults and infants), we will deliver free samples to any express company in Boston.

When babies do not thrive, never change their food, but add five or more drops at each feeding of Murdock's Liquid Food, and their lost or needed vitality will be restored in less than thirty days. It is invaluable when weaning babies or when teething. If mothers will take one teaspoonful to a tablespoonful before each meal and on retiring, they will receive as much benefit as the baby.

Murdock Liquid Food Co., Boston.

GARDNER'S

SYRUP OF HYDRIODIC ACID,

Introduced in 1878 by R. W. GARDNER.

The Reputation which Hydriodic Acid has Attained During the past Eleven Years was Won by this Preparation.

Numerous Imitations prepared differently, and weaker in Iodine, are offered, from the use of which the same therapeutic effects cannot be obtained.

Caution.—Use no Syrup of Hydriodic Acid which has turned red. This shows decomposition and free Iodine. In this state it acts as an irritant and fails to produce desirable results.

Unprincipled apothecaries substitute imitations when Gardner's Syrup is prescribed, and physicians, failing to get desirable and promised results, attribute the fault, unjustly, to Gardner's Syrup.

THERAPEUTIC INDICATIONS.

Hay Fever; Rose Cold; Poisoning by Lead, Mercury or Arsenic; Acute and Chronic Rheumatism; Asthma; Chronic Bronchitis; Catarrh; Congestion of Lungs in Children; Adenitis; Eczema; Lupus; Chronic Malarial Poisoning; Lumbago; Acute Pneumonia; Psoriasis; Scrofulous Diseases; Goitre; Enlarged Glands; Cold Abscesses; Indolent Sores; Excessive Fat; Fatty Degeneration of the Heart; to absorb non-malignant Tumors; and in the latter stages of Syphilis; Syphilitic Phthisis.

Details of treatment furnished physicians upon application to undersigned without charge.

Gardner's Chemically Pure Syrups of Hypophosphites.

Embracing the separate Syrups of Lime, of Soda, of Iron, of Potassa, of Manganese, and an Elixir of the Quinia Salt; enabling physicians to accurately follow Dr. Churchill's method, by which thousands of authenticated cases of Phthisis have been cured. The only salts, however, used by Churchill in Phthisis are those of Lime, of Soda, and of Quinia, and always separately according to indications,—never combined.

The reason for the use of single Salts is because of antagonistic action of the different bases, injurious and pathological action of Iron, Potassa, Manganese, etc., in this disease.

These facts have been demonstrated by thirty years' clinical experience in the treatment of this disease exclusively, by Dr. Churchill, who was the first to apply these remedies in Medical practice. Modified doses are also required in this disease; seven grains during twenty-four hours being the maximum dose in cases of Phthisis, because of increased susceptibility of the patient to their action, the danger of producing toxic symptoms (as hemorrhage, rapid softening of tubercular deposit, etc.), and the necessity that time be allowed the various functions to recuperate simultaneously; over-stimulation, by pushing the remedy, resulting in crisis and disaster.

A pamphlet of sixty-four pages, devoted to a full explanation of these details and others, such as contra-indicated remedies, indications for the use of each hypophosphite, reasons for the use of absolutely pure Salts, protected in Syrup from oxidation, etc., mailed to physicians without charge upon application to

R. W. GARDNER, 158 William St., N. Y. City.

W. H. SCHIEFFELIN & CO., Sole Wholesale Agents, New York.

CELERINA

NERVE TONIC, STIMULANT AND ANTISPASMODIC.

FORMULA.—Every Fluid Drachm represents FIVE grains EACH—Celery, Coca, Kola, Viburnum and Aromatics.

INDICATIONS.—Loss of Nerve-Power (so usual with Lawyers, Preachers, Writers and Business Men), Impotency, Spermatorrhea, Nervous Headache, Neuralgia, Paralysis, Hysteria, Opium Habit, Inebriety, Dyspepsia, and ALL LANGUID conditions of the System.

Indispensable to restore a patient after alcoholic excess.

DOSE.—One or two Teaspoonfuls three or more times a day, as directed by the Physician.

LIQUID IRON-RIO

Palatable and easily assimilated. Does not produce Nausea, nor irritate the Stomach. Does not Cause Headache, nor Constipate. Does not Stain the Teeth. It is so Acceptable to the Stomach that its Use is Admissible when all other forms of Iron would be rejected. Being so Readily Assimilable, it only requires a small Dose.

Each Fluid Drachm contains ONE GRAIN of Iron in a Pleasant and Digestible Form.

DOSE.—One or more Teaspoonfuls as indicated, during or after meals.

S. H. KENNEDY'S

CONCENTRATED EXTRACT OF

PINUS CANADENSIS

DARK. A NON-ALCOHOLIC LIQUID. WHITE.

A MOST VALUABLE NON-IRRITATING MUCOUS ASTRINGENT.

INDICATIONS.—Albuminuria, Diarrhea, Dysentery, Night-Sweats, Hemorrhages, Profuse Expectoration, Catarrh, Sore Throat, Leucorrhea, and other Vaginal Diseases, Piles, Sores, Ulcers, Burns, Scalds, Gonorrhea, Gleet, Etc.

When Used as an Injection, to Avoid Staining of Linen, the WHITE Pinus should be used.

RECOMMENDED BY PROMINENT EUROPEAN AND AMERICAN PHYSICIANS.

RIO CHEMICAL CO., St. Louis, Mo., U. S. A.

LONDON. PARIS. CALCUTTA. MONTREAL.

BOUDAULT'S PEPSINE

The only Pepsine used in the Hospitals of Paris for the last Thirty Years.

Unlike the various substitutes which, in most cases, are but unscientific or incompatible compounds, forced upon the Medical Profession as aids to digestion by extensive advertising, but which, when submitted to the proper tests, are found to be useless as digestive agents, Pepsine is constantly gaining in the esteem of the careful practitioner.

Since the introduction of Pepsine by Boudault and Corvisart in 1854, the original BOUDAULT'S PEPSINE HAS BEEN AT ALL TIMES CONSIDERED THE BEST, as is attested by the awards it has received at the Expositions of 1867, 1868, 187 1873, in 1876 at the Centennial Exposition of Philadelphia, and in 1878 at the Paris Exposition.

The most reliable tests, carefully applied, will satisfy everyone that BOUDAULT'S PEPSINE HAS A MUCH HIGHER DIGESTIVE POWER than the best Pepsines now before the Profession, and is therefore especially worthy of their attention.

BOUDAULT'S PEPSINE is prepared in the form of Pepsine Acid and Pepsine Neutral. It is sold in bottles of one ounce, with a measure containing exactly five grains; also in bottles of four, eight, and sixteen ounces for dispensing.

BOUDAULT'S WINE OF PEPSINE

FORMULA OF DR. CORVISART.

The taste of Pepsine being perfectly disguised in this Wine, it may be recommended to persons who have difficulty in taking Pepsine in the form of Powder. This Wine is tested so that a tablespoonful of it is equal in digestive power to ten grains of Boudault's Pepsine in powder. Sold only in bottles of eight ounces.

TANRET'S PELLETIERINE

For the Treatment of Tape-Worm (Tænia Solium).

This New Tænifuge, the Active Alkaloid of Pomegranate Bark, has of late come into extensive use in France for the treatment of Tape-Worm (Tænia Solium). The results of numerous experiments with it at the Marine Hospitals of Toulon, St. Mandrier, etc., and in the Hospitals of Paris, St. Antoine, La Charité, Necker Beaujon, etc., have all been most satisfactory. Doctor Dujardin Beaumetz, Member of the Academy of Medicine, and Professor Laboulbene, in their report to the Society of Therapeutics, have given it their unqualified approval, after the most searching experiments. This preparation is pleasant to administer, and, if certain preliminaries are observed, success will be insured.

Sold only in bottles containing one dose.

DUCRO'S ALIMENTARY ELIXIR

A Combination uniting the properties of Alcoholic Stimulants and Raw Meat.

This preparation, which has been used with great success in the hospitals of Paris since 1868, is adapted to the treatment of all diseases requiring administration, in a small volume, of a tonic able to stimulate and support the vital forces, as *Pulmonar Phthisis, Depression and Nervous Debility, Adynamia, Malarious Cachexia, etc.*

Prepared by EMILE DURIEZ & CO., Successors to DUCRO & CIE, Paris.

KIRKWOOD'S INHALER

This is the only complete, reliable, and effective inhaler in use, arranged for the direct application of Muriate of Ammonia and other remedial agents in the state of vapor to the diseased parts of the air-passages in the treatment of catarrh and diseases of the throat and lungs. No heat or warm liquids required in its use.

It is entirely different from the various frail, cheap instruments that have been introduced.

KIRKWOOD'S INHALER is accompanied by testimonials of the highest professional character, together with carefully prepared formulas for use.

RETAIL PRICE, COMPLETE, $2.50.

☞ A liberal discount allowed to the trade and profession. For descriptive pamphlet or other information address

COD-LIVER OIL AND HYPOPHOSPHITES.

COD-LIVER OIL WITH LACTOPHOSPHATES.

COD-LIVER OIL AND COMP. SOL. ACID PHOSPHATES.

EMULSION COD-LIVER OIL AND WILD CHERRY.

MORRHUOL CAPSULES.

STRYKER & OGDEN,

Cor. 13th & Walnut Streets,

PHILADELPHIA.

ESTABLISHED 1855.

DRS. STRONG'S SANITARIUM,

SARATOGA SPRINGS, NEW YORK,

Receives persons recommended to it by their home physicians for Treatment, Change, Rest or Recreation, and places them under well-regulated hygienic conditions so helpful in the treatment of chronic invalids or the overtaxed.

For Treatment: In addition to the ordinary remedial agents, it employs Turkish, Russian, Roman, Sulphur, Electro-Thermal, the French Douche (Charcot's), and all Hydropathic Baths; Vacuum Treatment, Swedish Movements Massage, Pneumatic Cabinet, Inhalations of Medicated, Compressed, and Rarefied Air, Electricity in various forms, Thermo-Cautery, Calisthenics, and Saratoga Waters, under the direction of a staff of educated physicians.

For Change: This Institution is located in a phenomenally dry, tonic, and quiet atmosphere, in the lower arc of the Adirondack Zone, and within the "Snow Belt."

For Rest: The Institution offers a well-regulated, quiet home, heated by steam and thoroughly ventilated, with cheering influences and avoiding the depressing atmosphere of invalidism.

For Recreation: To prevent introspection, are household sports at all seasons of the year, and in Winter, tobogganning, elegant sleighing, etc.; in Summer, croquet, lawn-tennis, etc.

Private professional references furnished upon application. Physicians are invited to inspect the Institution at their convenience. A liberal discount to physicians and their families.

For further information, address,

DRS. S. S. & S. E. STRONG.

ONEITA

The perfection of table waters, with mineral properties unsurpassed in the treatment of Dyspepsia, Kidney and Liver troubles, Gout, Rheumatism, etc. The analysis of the spring shows a combination of mineral virtues unequaled in any other water. The water has been before the public but a short time, yet in that time has won public favor to a marked degree. Send for analysis of C. F. Chandler, Ph. D.

ONEITA SPRING CO.,
UTICA, N. Y.

ANTISEPTIC DRAINAGE TUBES.—Glass.

These Tubes have large holes, one-half inch apart, arranged alternately on opposite sides.
They are carefully finished, especial care being taken to make them smooth.
In addition to the drainage-holes, each tube has at one end two smaller holes for the insertion of Safety-Pin, through which it is prevented slipping into the wound.

FURNISHED IN SEVEN SIZES.

No. 1, $1.25 per doz.		No. 4, $1.55 per doz.	
No. 2, 1.25	"	No. 5, 1.70	"
No. 3, 1.40	"	No. 6, 1.90	"
No. 7, $2.10 per dozen.			

RAW CAT-GUT. I put this up in coils of 10 feet, four different sizes, Nos. 1, 2, 3, 4 (4 is thickest). Nos. 2 and 3 are the most useful sizes. **No. 1 Coil, 10 Cents; No. 2 Coil, 12 Cents; No. 3 Coil, 14 Cents; No. 4 Coil, 16 Cents.** Full directions with each coil for making it absolutely aseptic.

DETROIT COLLEGE OF MEDICINE.

SESSION 1889-90.

Clinical and Practical teaching are made an important feature of this College. Clinical instruction is given daily at HARPER, ST. MARY'S and ST. LUKE'S HOSPITAL, at the COLLEGE, at COLLEGE EYE and EAR INFIRMARY, ST. MARY'S FREE EYE and EAR INFIRMARY, and at the three FREE DISPENSARIES. The facilities offered by this college are unsurpassed for the practical study of MEDICINE, SURGERY, OBSTETRICS, GYNÆCOLOGY, DISEASES OF CHILDREN, GENITO-URINARY, and ORTHOPÆDIC SURGERY, OPHTHALMOLOGY and OTOLOGY, DERMATOLOGY and LARYNGOLOGY.

REGULAR SESSION opens on Wednesday, Sept. 25, and continues six months. During the session, the Professors will take special pains to examine the Students upon the subjects of the previous lectures.

SPRING SESSION begins April 2d, 1890; and closes June 11th.

FEES.—Matriculation fee, $5; Fees for Regular Session, $50; Spring Session, $10, to those who attend the regular term—to all others, $25; Hospital Fee, $10; Graduation Fee, $30; Perpetual Ticket, $100.

For further particulars, and for College Circular, apply to

H. O. WALKER, M.D., Secretary,
33 Lafayette Ave., Detroit, Mich.

Philadelphia Polyclinic and College for Graduates in Medicine.

THE POLYCLINIC HOSPITAL: A School of Practical Medicine and Surgery
IN ALL THEIR BRANCHES.
FOR PHYSICIANS ONLY.

Individual Instruction, Clinical and Demonstrative, is given; the classes being limited in order to permit of *full personal attention to each pupil,* who is thus brought into direct contact both with patients and with instructors.

Laboratory Courses may be taken in *Clinical Chemistry, Operative Surgery, Bandaging and Fracture Dressing, Anatomy, Massage, Orthopædics, Electrotherapy, Dietetics, Experimental Physiology and Pharmacology, Bacteriology and Pathology.*

A Special Course in **Ophthalmology** includes *Didactic Instruction* in *Optical Theory.* **A Special Course** in **Dietetics** includes the study of *diet-cures* and *practical manipulations* in the *preparation* of predigested and other *foods of the sick.*

Fee for any one branch, $15.00; General Ticket for all Clinical branches, $100.00. Tickets good for regular clinics for six weeks from date of issue; or, for one clinic weekly for three months.

☞ In addition to the facilities of the College Dispensary and Hospital, the Professors utilize their services in the following large general and special Hospitals: PHILADELPHIA (Medical, Surgical, Neurological, Obstetric and Pædiatric, and Dermatological Wards and Clinics); WOMAN'S (Surgical); PENNSYLVANIA (Surgical, Eye); ORTHOPÆDIC and INFIRMARY for NERVOUS DISEASES; WILLS'S EYE; HOWARD (Skin); CHILDREN'S (Ear); JEWISH (Surgical, Medical); and ST. CLEMENT'S (Surgical).

For announcement and further information, address or apply to

SOLOMON SOLIS-COHEN, M. D., Secretary, N. W. Cor. Broad and Locust Sts., Philadelphia.

DR. MASSEY'S
PRIVATE SANITARIUM
3607 Locust Street
PHILADELPHIA

This institution, in addition to complete arrangements for the treatment of Nervous Diseases by rest, electricity, massage, etc., under comfortable surroundings, is specially equipped for the treatment of cases of Fibroid Tumors and other intractable diseases of the pelvic viscera, by the conservative use of strong electric currents. For particulars, address

DR. G. BETTON MASSEY
1706 Walnut Street, Philadelphia

WESTERN PENNSYLVANIA MEDICAL COLLEGE
CITY OF PITTSBURGH.

SESSIONS OF 1889—90.

The REGULAR SESSION begins on the last Tuesday of September, and continues six months. During this session, in addition to four Didactic Lectures, two or three hours are daily allotted to Clinical Instruction. Attendance upon two regular courses of lectures is requisite for graduation. A three years' graded course is also provided. The SPRING SESSION embraces recitations, clinical lectures and exercises, and didactic lectures on special subjects; this session begins the second Tuesday in April, and continues ten weeks.

The laboratories are open during the collegiate year for instruction in chemistry, microscopy, practical demonstrations in medical and surgical pathology, and lessons in normal histology. Special importance attaches to "the superior clinical advantages possessed by this College." For particulars, see annual announcement and catalogue, for which, address the Secretary of Faculty, Prof. J. W. J. McKENNAN.

Business correspondence should be addressed to
PROF. W. J. ASDALE, 2107 Penn Avenue, Pittsburgh.

NATIONAL MEDICAL COLLEGE.
MEDICAL DEPARTMENT OF THE
COLUMBIAN UNIVERSITY,
WASHINGTON, D. C.

The 68th Annual Session will begin October 7th and end March 1st. Graded three years' course required. Women admitted. Professors: J. F. Thompson, W. W. Johnston, A. F. A. King, E. T. Fristoe, Wm. Lee, D. W. Prentiss, D. K. Shute.

For circulars, address

Gymnasium Department.

From this time henceforth the **Gymnasium** in all its important details will be a department in our business to which we shall devote especial attention.

With the addition to our own valuable patents, those of the **A. J. Reach Company**, of Philadelphia, recently purchased by us, enables us to claim the most **extensive department** of **Gymnasium Appliances in the world.**

We have been encouraged in this **important** movement by the constantly increasing demand from **Colleges, Seminaries,** and other **Educational** Institutions for Gymnasium Supplies, and henceforth we shall devote special attention to furnishing **plans, specifications,** and **estimates** to such and for **private residences** as well, and solicit correspondence with all contemplating the introduction of gymnastics for any purpose.

The Peerless Pulley Weight, illustration of which appears on this page, is a most perfect appliance for the development of the **chest** and **arms,** adjustable to the height of *any* person, and in weight from five to thirty pounds. For **man or woman** this is the peer of any method yet devised, especially for home use. Realizing the attention the **medical profession** and the **teacher,** are now giving to **healthful** exercise in **schools,** we solicit also their correspondence, and any orders, or business prceeding from such, will be gratefully received, and entitled to our best rates of discount, and will receive prompt and careful attention.

Visitors to our different establishments at **Chicago, New York,** and **Philadelphia** will always be welcome and politely served by the many efficient salesmen constantly in attendance.

COLDEN'S LIQUID BEEF TONIC

AN INVALUABLE AID IN MEDICAL PRACTICE.

ORIGINAL | COLDEN'S LIEBIG'S LIQUID EXTRACT OF BEEF AND TONIC INVIGORATOR. | LABEL.

ESSENTIALLY DIFFERENT FROM ALL OTHER BEEF TONICS. UNIVERSALLY ENDORSED BY LEADING PHYSICIANS.

This preparation, consisting of the Extract of Beef (prepared by Baron Liebig's process), the best Brandy obtainable, soluble Citrate of Iron, Cinchona and Gentian is offered to the Medical Profession upon its own merits. It is of inestimable value in the treatment of **Debility, Convalescence from Severe Illness Anæmia, Malarial Fever, Chlorosis, Incipient Consumption, Nervous Weakness,** and maladies requiring a Tonic and Nutrient. It is quickly absorbed by the Stomach and upper portion of the Alimentary Canal. and therefore finds its way into the circulation quite rapidly.

COLDEN'S LIQUID BEEF TONIC appeals to the judgment of intelligent Physicians in the treatment of

ALL CASES OF GENERAL DEBILITY.

By the urgent request of several eminent members of the medical profession, I have added to each wineglassful of this preparation two grains of Soluble Citrate of Iron, and which is designated on the label, "**With Iron, No. 1;**" while the same preparation, **Without Iron,** is designated on the label as "**No. 2.**"

In prescribing this preparation, physicians should be particular to mention "*COLDEN'S,*" viz.. "*Ext. Carnis Fl. Comp.* (*Colden.*" A Sample of **COLDEN'S BEEF TONIC** will be sent free on application, to any physician (enclosing business card) in the United States. *Sold by druggists generally.*

C. N. CRITTENTON, General Agent, 115 Fulton St., New York.

GLENN'S SULPHUR SOAP.

BEWARE OF COUNTERFEITS.

Physicians know the great value of the local use of Sulphur in the **Treatment of Diseases of the Skin.**

Constantine's Pine-Tar Soap.

THE BEST SOAP MADE.

Has been on trial among physicians for very many years as a healing agent. **By far the Best Tar Soap made.**

Wholesale Depot, C. N. CRITTENTON, 115 Fulton St, New York.

Samples of above Soaps SENT FREE, on application, to any Physician enclosing card

French's Beef, Wine and Iron.

In pint bottles . . . . . $9.00 a dozen.

Each fluid ounce contains the equivalent of 2 ozs. *fresh beef* and 4 grains of Citrate of Iron.

French's Hypophosphites or Compound Syrup of Hypophosphites.

Per dozen pints . . . . . $15.00 a dozen.

FORMULA.

Each fluid drachm contains—

Calcium Hypophosphite	1½ grains.
Potassium	1 grain.
Manganese	½ grain.
Iron	½ grain.
Quinine	¼ grain.
Strychnine	1–128 grain.

It is made from freshly precipitated and chemically pure salts, so combined that they will remain in perfect solution, thereby producing a more elegant preparation than generally found in the market.

French's Wine of Coca.

Each fluid ounce represents 30 grains Erythroxylon (Coca).

1 dozen pint bottles . . . . . $12.00 a dozen.

French's Emulsion of Pure Norwegian Cod-Liver Oil

With Bi-Basic Phosphate of Lime. No unpleasant taste.

In pint bottles . . . . . $9.00 a dozen.

These preparations are obtainable from the retail drug trade, or the manufacturers will send them by express prepaid in quantities of ¼ dozen and over, on receipt of the price.

FRENCH, RICHARDS & CO.,

1001, 1003, and 1005 MARKET STREET, PHILADELPHIA.

FELLOWS'
HYPO-PHOS-PHITES

(SYR: HYPOPHOS: COMP: FELLOWS)

Contains **The essential elements** to the Animal Organization—Potash and Lime.

The **Oxydizing Agents**—Iron and Manganese;

The **Tonics**—Quinine and Strychnine,

And the **Vitalizing Constituent**—Phosphorus,

Combined in the form of a Syrup, with *slight alkaline reaction.*

It Differs in Effect from all others, being pleasant to taste, acceptable to the stomach, and harmless under prolonged use.

It has Sustained a High Reputation in America and England for efficiency in the treatment of Pulmonary Tuberculosis, Chronic Bronchitis, and other affections of the respiratory organs, and is employed also in various nervous and debilitating diseases with success.

Its Curative Properties are largely attributable to Stimulant, Tonic, and Nutritive qualities, whereby the various organic functions are recruited.

In Cases where innervating constitutional treatment is applied, and tonic treatment is desirable, this preparation will be found to act with safety and satisfaction.

Its Action is Prompt; stimulating the appetite and the digestion, it promotes assimilation, and enters directly into the circulation with the food products.

The Prescribed Dose produces a feeling of buoyancy, removing depression or melancholy, and hence is of great value in the treatment of MENTAL AND NERVOUS AFFECTIONS.

From its exerting a double tonic effect and influencing a healthy flow of the secretions, its use is indicated in a wide range of diseases.

Prepared by JAMES I. FELLOWS, Chemist,

48 VESEY STREET, NEW YORK.

Circulars sent to Physicians on Application.

FOR SALE BY ALL DRUGGISTS.

PHILLIPS' COD-LIVER OIL

EMULSION.

SELECTED NORWAY COD-LIVER OIL (50%), combined with the PHOSPHATES.

A TRUE EMULSION WITHOUT SAPONIFICATION.

The most minute subdivision of the oil-globules yet accomplished in an Emulsion is herein presented, insuring **perfect miscibility in milk, water, or other fluid, ease of administration and digestibility.** It is **palatable** and **permanent.**

This preparation is not advertised to the public, and has the largest prescription patronage of any Emulsion in the United States.

Put up in 6 oz. and 14 oz. bottles.

A pamphlet with formula, photo-micrographic illustrations, etc., mailed upon application.

PHILLIPS' DIGESTIBLE COCOA.

In this preparation **the fat of the Cocoa-bean is wholly retained and predigested by means of Pancreatine.**

It is a **delicious food beverage rendered assimilable;** and **nourishing to a high degree.**

Besides its adaptability as a **substitute for tea and coffee** in daily use, and as **a convenient and reliable article of diet** in the sick-room, it is particularly **recommended in many conditions of debility** where a supply of carbonaceous food is indicated, but where there is difficulty attending the digestion of the ordinary fatty foods.

Correspondence solicited.

PHENACETINE-BAYER IN INFLUENZA.

We have just received advices that Phenacetine-Bayer is being used to advantage both in Russia and Germany, in the treatment of the present epidemic of **INFLUENZA.** It is also being extensively employed in America for the same purpose.

Dr. A. C. HALLAM, Brooklyn, N. Y., states :—"That he has used Phenacetine extensively in the present epidemic of Influenza and has been well pleased with its effects. The rapidity with which it relieves the muscular pains has been very gratifying to him, the patient breaking out in a profuse perspiration, and in a few hours seeming relieved of all but the catarrhal symptoms, which run on and call for other treatment."—*The New York Medical Journal,* Jan. 4, 1890.

221 GENESEE STREET, UTICA, N. Y., January 6, 1890.

To the Editor of the New York Medical Journal:

SIR: I desire to echo the statement made in your last issue by Dr. A. C. Hallam, of Brooklyn, viz.: That in the treatment of fifty cases of influenza I have used phenacetine in five-grain doses repeated hourly until fifteen grains had been taken, and in *every case* the severe muscular pains and headache disappeared; following this with five-grain doses, three times daily, of the salicylate of cinchonidine. The disease disappeared upon the fourth day, and in *no cases* have there been any sequelæ either of bronchitis or pneumonia. Phenacetine, I consider superior in every way to antipyrine and acetanilide.

CHARLES R. WEED, M. D.

Phenacetine-Bayer (Para-Acetphenetidine), prepared by the Farbenfabriken, formerly Friedr. Bayer & Co., Elberfeld, is supplied by us in one-ounce vials and also in the form of our soluble pills, containing two, four, and five grains each. Either form may be obtained of any reputable apothecary.

W. H. Schieffelin & Co.,
170 & 172 WILLIAM STREET,
NEW YORK.

SUCCUS ALTERANS

(McDADE.)

SUCCUS ALTERANS is a purely vegetable compound of the preserved juices of Stillingia Sylvatica Lappa Minor, Phytolacca Decandra, Smilax Sarsaparilla, and Xanthoxylum Carolinianum, as collected by Dr. Geo. W. McDade, exclusively for Eli Lilly & Co., and endorsed by Dr. J. Marion Sims.

SUCCUS ALTERANS continues to gain favor from its remarkable Alterative and Tonic properties, *eliminating specific poison from the blood* and *increasing the proportion of red corpuscles in anæmic patients* to a wonderful degree; is endorsed by the medical profession, and in use by many hospitals of note.

SUCCUS ALTERANS in venereal and cutaneous diseases is fast supplanting Mercury, the Iodides, and Arsenic; and is a certain remedy for Mercurialization, Iodism, and the dreadful effects often following the use of Arsenic in skin diseases.

SUCCUS ALTERANS is also strongly recommended for its Tonic and Alterative effects in myriad forms of scrofulous disease, and in all cases where anæmia is a factor. Such patients rapidly develop a good appetite, sleep soundly, and gain flesh rapidly. Many cases are on record where patients increased ten to twenty-five pounds in weight in a few weeks.

SUCCUS ALTERANS is giving satisfactory results in treatment of *Chronic Rheumatism*, and can be used with confidence.

SUCCUS ALTERANS may be given for any length of time, without injury to the patient.

SUCCUS ALTERANS is put up in pint round amber bottles, and *never in bulk.*

Send for copy of our Hand-Book of Pharmacy and Therapeutics. Useful for reference and contains much valuable information.

PIL. APHRODISIACA

(LILLY.)

Phosphorus and **Nux Vomica**, as is well known to the profession, act as powerful tonics to the nervous system, especially the spinal cord, and can be relied upon as possessing real aphrodisiac power. The **Damiana** used is the genuine **Turnera Aphrodisiaca.** By our process for the manufacture of **Phosphorus Pills**, a thorough subdivision of phosphorus in the mass is obtained, and, with a coating perfectly **protecting** it from **oxidation**, there is nothing to be desired. It is necessary that the administration of this pill be continued from **three to four weeks**, or until the **system is thoroughly under the influence of the remedy.** It is indicated in **mental overwork, sexual debility, impotency.** It is decidedly beneficial in cases of **nocturnal emissions**, the result of excesses, **mental apathy**, or indifference, and in an **enfeebled condition of the general system**, with **weakness or dull pain in the lumbo sacral region.** In diseases of the **reproductive organs** of the female, and especially of the uterus, it is one of our most valuable agents, acting as a **uterine tonic**, and gradually removing abnormal conditions, while at the same time, it imparts tone and vigor; hence, it is of value in **Leucorrhea, Amenorrhea, Dysmenorrhea**, and to remove the tendency to repeated miscarriages.

One Hundred Mailed on Receipt of $1.00.

LENTZ'S ASEPTIC COMPACT OPERATING SET, No. 10.

We have from time to time made improvements to this set and are now making a perfect aseptic set, which offers especial facilities for aseptic precautions; the blades are soldered into hollow German-silver handles, nickel-plated, are light so as not to be unwieldy and admit of a firm grasp when operating.

The saw is adjusted to the handle on an entirely new principle, being made to separate easily and to facilitate thorough cleansing.

The handle is entirely of metal and fenestrated to overcome unnecessary weight.

Scissors and Forceps having French locks can be separated, and the slide can be easily removed from Artery and Needle Forceps.

Therefore, no opportunity is offered for the lodgment and development of germs.

The entire set is patterned with especial reference to facility in cleansing.

The instruments can be sterilized by placing them in boiling water, without fear of damaging them. Wood or rubber handles will not admit of this procedure. For price, see case A.

The following instruments are put up in either a fine Mahogany or Morocco case, with nickel trimmings, lined with velvet, and has an extra space for Trephine with handle, and Elevator if desired.

One Amputating Knife (6 in. blade); One Finger Knife; One Hernia Knife; One Sharp Curved Bistoury; Two Scalpels; One Tenotome; One Tenaculum; One Pair Scissors, curved or flat; One Saw (9 in. blade); One Liston's Bone Forceps, with Spring; One Artery and Needle Forceps, improved; One Esmarch's Flat Rubber Tourniquet, with Chain; One Hæmostatic Forceps; One Director, with Aneurism Needle; Two Silver Probes; Silk, Wire, Wax and Needles.

With the Sixteen Instruments Contained in this Case, any Ordinary Operation may be Performed.

SIZE, 11 INCHES LONG, 4 INCHES WIDE, 2 INCHES HIGH.

A.—German Silver aseptic Handles on Knives and Saw, ... **$34 00**
B.—Hard Rubber aseptic Handles on Knives and Saw, ... **29 00**

ANTIFEBRIN IN INFLUENZA!

This use of this Renowned ANTIPYRETIC, ANODYNE, SEDATIVE and NERVINE seems suggested by the following Judgments passed on it by Reputed Authorities in Symptomatically *Allied Complaints:*—

As an **Antifebrile** Dose:—2 to 4 grains *single;* 16 to 32 grains *daily.*—(WEINSTEIN, Vienna.)

As an **Anodyne** and **Nervine** Dose in severest Neurotic and Secondary Pains:—8 to 16 grains, *one to four times per day.*—(DEMIEVILLE, Lausanne.)

Mode of Administration:

"Even the *initial dose* gave evident relief; commonly within half an hour. If this did not suffice to break up the symptoms materially, a second dose followed in an hour or two; at the very utmost a third one was given the same day.

"The remedy was effective and well tolerated at all times; at all hours of the day; on an empty or a full stomach; even during menstruation.

"The form of exhibition was that of *powders*, wrapped in *wafers*. The readier solubility of the Antifebrin in Alcohol indicates the advisability of following the dose by a small draught of Wine or Brandy."—(OTT, Prague.)

ANOTHER MODE OF ADMINISTRATION:—*Dissolve* your Dose (4 to 12 grains) of **ANTIFEBRIN** in ½–1 ounce (1 to 2 Tablespoonfuls) of *Boiling Water*,—stirring for a minute or two, until dissolved. Allow the Solution *to cool down* to about 104 degrees F. (being just comfortably warm) and sweeten to taste, *Before Taking!*—NO ALCOHOL, WINE, or LIQUOR needed with it when thus prepared.

ANTIFEBRIN

was found **Superior** to the **Following** Remedies in **Efficacy**, or in Safety, or in **Both**:—

Antipyrine,—*Quinine*,—*Morphine*,—*Opium*,—CHLORAL HYDRATE—ACONITE,—CAFFEINE,—KAIRINE,—*Salicylic Acid*,—CARBOLIC ACID,—*Bromides*,—IODIDES.

Among the Medical Authorities from whose Clinical and other Published Reports the above-stated PREFERENCES OF ANTIFEBRIN OVER OTHER REMEDIES have been drawn, are the following:

HARE, University of Pennsylvania;—DUJARDIN-BEAUMETZ, Paris;—HERCZEL, Heidelberg;—MURRAY, *Brit. Med. Journal;*—PAVAIVAJNA, *Centralblatt für die gesammte Therapie;*—BARR, Bridgeport, Ill.;—KELL, Delphos, O.;—HAY, New York;—HAAS, Prague.

Antifebrin was also *found to be:*

"Thoroughly *reliable* as an ANTIPYRETIC."—(DEMME, Berne.)

"*Not only* powerfully ANTITHERMIC, but also a most *useful* NERVINE."—(LEPINE, Lyons.)

"A *powerful, safe*, and *certain* ANTITHERMIC agent."—(EVANS, Easton, Pa.)

"*Complete* ANALGETIC effect in nine cases out of every ten."—(FISCHER, Cannstatt.)

RABUTEAU'S DRAGEES OF IRON

Laureate of the Institute of France.—Prize in Therapeutics.

The studies made by the Physicians of the Hospitals have demonstrated that the **Genuine Dragees of Iron of Rabuteau** are superior to all other preparations of Iron in cases of *Chlorosis, Anæmia, Leucorrhœa, Debility, Exhaustion, Convalescence, Weakness of Children*, and the maladies caused by the Impoverishment and Alteration of the blood after periods of fatigue, watching, and excesses of any kind.

TAKE 4 TO 6 DRAGEES DAILY.

Rabuteau's Elixir of Iron is recommended to those persons who may be unable to swallow the Dragees. Dose —*A small wineglassful with meals.*

Rabuteau's Syrup of Iron is specially designed for children. Chalybeate medication, by means of **Rabuteau's Iron,** is the most economical and the most rational known to therapeutics.

No constipation, no diarrhœa, complete assimilation.

Take only the GENUINE IRON OF RABUTEAU of

CLIN & CO., Paris.

SOLUTION OF THE SALICYLATE OF SODA OF DOCTOR CLIN.

Laureate of the Paris Faculty of Medicine (MONTYON PRIZE).

Dr. Clin's Solution, always identical in its composition, and of an agreeable taste, permits the easy administration of *pure Salicylate of Soda*, and the variation of the dose in accordance with the indications presented.

"The *Salicylate of Soda* used by **Clin** is of perfect purity, "and is prepared with the greatest care; it is a medicament "in which we may have every confidence."

—*Paris Society of Medicine, Meeting of Feb. 8th, 1879.*

Clin's Solution, very exactly mixed, contains: 2 grammes of *Salicylate of Soda* per tablespoonful, 50 centigrammes of *Salicylate of Soda* per teaspoonful.

GRAND NATIONAL PRIZE OF 16,600 FRANCS.

QUINA-LAROCHE

This meritorious **Elixir, QUINA-LAROCHE,** is prepared from the three Cinchonas; it is an agreeable and doubtless highly efficacious remedy.

—*The Lancet.*

VINOUS ELIXIR,

A STIMULATING RESTORATIVE

—AND—

ANTI-FEBRILE TONIC.

QUINA-LAROCHE under the form of a vinous **Elixir** contains the totality of the numerous principles of the three Cinchona barks. It is a preparation which renders great services to Therapeutics.—Extract of the *Gazette des Hôpitaux*, Paris.

FAR SUPERIOR TO ALL ORDINARY CINCHONA WINES.

LAROCHE'S QUINA, tried by the Academy of Medicine of Paris, is a specially prepared COMPOUND EXTRACT of Quinquina, a careful analysis, confirmed by experience, has shown that most of the wines and syrups hitherto used have not contained all the properties of this precious bark, of these some, although beneficial, are altogether lost, while many preparations contain but half the properties of the bark in varying proportions.

MR. LAROCHE, by his peculiar method, has succeeded in extracting all the active principles of the quinquina, combining these with *Catalan Wine* forming an Elixir free from the disagreeable bitterness of other similar preparations. Practitioners have found triple advantages in the use of this Elixir, it is a *strong tonic*, is easily administered, and perfectly harmless, being free from the unpleasant effects of Quinine.

THE FERRUGINOUS QUINA-LAROCHE is the invigorating tonic *par excellence*, having the advantage of being easily assimilated by the gastric juice; without, in any way, deranging the action of the digestive organs, proving itself to be a most efficacious remedy in cases of impoverishment of the blood, ANÆMIA, CHLOROSIS, INTESTINAL HÆMORRHAGE, CASTRALGIA, EXHAUSTION, ETC., ETC.

PARIS.—22 RUE DROUOT.—PARIS.

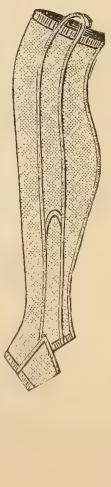
By the aid of which they can be drawn on easily, like pulling on a boot. They will last much longer than the old style, as the stays prevent them from being torn apart in drawing them on.

ALL KINDS AND SIZES IN THREAD OR SILK ELASTIC. Made under D. Master's Patents, Nov. 29, 1881, March 21, 1882. Send for descriptive circular and price-list to

POMEROY TRUSS CO.,
785 Broadway, New York.

DANIEL POMEROY, Pres. CHARLES R. DEAN, Sec.



THE NEW STYLE cannot pull apart and consequently lasts until worn out.

BROMIDIA

THE HYPNOTIC.

FORMULA.—

Every fluid drachm contains 15 grains EACH of Pure Chloral Hydrat. and purified Brom. Pot., and one-eighth grain EACH of gen. imp. ext. Cannabis Ind. and Hyoscyam.

DOSE.—

One-half to one fluid drachm in WATER or SYRUP every hour, until sleep is produced.

INDICATIONS.—

Sleeplessness, Nervousness, Neuralgia, Headache, Convulsions, Colic, Mania, Epilepsy, Irritability, etc. In the restlessness and delirium of fevers it is absolutely invaluable.

IT DOES NOT LOCK UP THE SECRETIONS.

PAPINE

THE ANODYNE.

Papine is the Anodyne or pain-relieving principle of Opium, the Narcotic and Convulsive Elements being eliminated. It has less tendency to cause Nausea, Vomiting, Constipation, Etc.

INDICATIONS.—

Same as Opium or Morphia.

DOSE.—

(ONE FLUID DRACHM)—represents the Anodyne principle of one-eighth grain of Morphia.

IODIA

The Alterative and Uterine Tonic.

FORMULA.—

Iodia is a combination of active principles obtained from the Green Roots of Stillingia, Helonias, Saxifraga, Menispermum, and Aromatics. Each fluid drachm also contains five grains Iod. Potas., and three grains Phos. Iron.

DOSE.—

One or two fluid drachms (more or less as indicated) three times a day before meals.

INDICATIONS.—

Syphilitic, Scrofulous and Cutaneous Diseases, Dysmenorrhea, Menorrhagia, Leucorrhea, Amenorrhea, Impaired Vitality, Habitual Abortions, and General Uterine Debility.

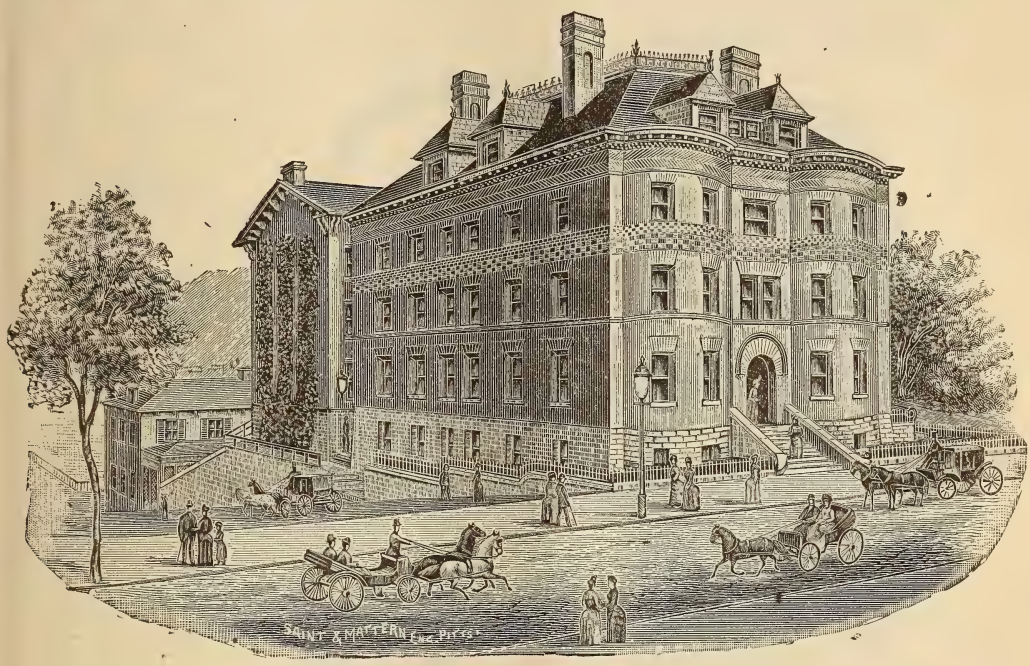
DR. R. S. SUTTON'S

Sanatorium for Diseases of Women.



Seventh Year Opens September 1, 1889.

ALLEGHENY CITY, PA.

This Institution is located on high ground, and overlooks the Allegheny, Monongahela and Ohio rivers; it commands a view of the city of Pittsburgh, and its picturesque surroundings. The building is large and beautiful, it is provided with every modern convenience, the halls are heated by steam, the rooms are commodious, well lighted and ventilated, and heated by open grates. The house is provided with a private parlor and reading-room for patients. The dining-room is large, handsomely finished, and furnished with small tables, securing privacy at meals for those who do not care to have meals served in their own rooms. Patients can be as secluded, should they desire it, as in a well appointed hotel. Each patient is examined by Dr. Sutton, and receives his daily personal attention, while Dr. J. H. Williamson, a physician of ample hospital experience, resides in the Institution, and has, under Dr. Sutton, the immediate care of the patients. The Institution accommodates 25 patients, and is equal in comfort to the best hotels.

Electricity, baths, douches, massage, local treatment, general medication and surgical operations are resorted to according to the requirements of each patient.

For further information address the Matron

MISS KENNEDY,

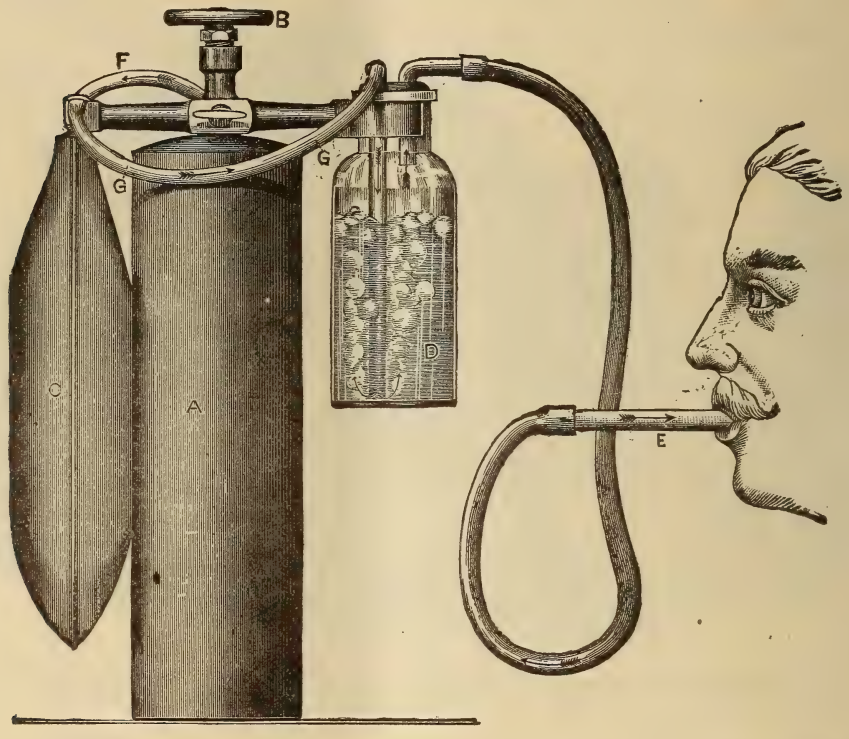
INHALATION APPARATUS

FOR

THE THERAPEUTIC ADMINISTRATION OF OXYGEN.



In the treatment of lung troubles by Oxygen its exhibition by inhalation is preferred. The apparatus herewith shown is a modification of the Nitrous Oxide apparatus which we have supplied for many years. It is made in the best manner throughout, and is the outcome of years of experience in the manufacture of gas apparatus. It will be found to meet all the requirements.

We supply the gas in two sizes of cylinders, containing respectively forty and one hundred gallons, either pure Oxygen, or a mixture of Oxygen and Nitrous Oxide in definite proportions of 20 per cent., and forty per cent. of Nitrous Oxide.

Whether pure or mixed the gas is sold at the uniform price of 5 cents a gallon. The cost of the cylinders will be refunded on their return empty with the valves in good condition. Full description of Inhalation and Enema apparatuses with directions for use accompany each apparatus, or will be supplied on application.

PRICES.

Inhalation Apparatus	$5.00
Cylinder, 40 gallons' capacity	6.00
40 gallons Gas, either pure Oxygen or mixed Oxygen and Nitrous Oxide	2.00
Complete Apparatus, Cylinder, and 40 gallons Gas	$13.00
Inhalation Apparatus	$5.00
Cylinder, 100 gallons' capacity	15.00
100 gallons Gas, either pure or mixed	5.00
Complete Apparatus, Cylinder, and 100 gallons Gas	$25.00

THE S. S. WHITE DENTAL MFG. CO.,

PHILADELPHIA, NEW YORK, BOSTON, CHICAGO, BROOKLYN.

THE BEST ANTISEPTIC
FOR BOTH INTERNAL AND EXTERNAL USE.

ANTISEPTIC, PROPHYLACTIC, DEODORANT.

LISTERINE

NON-TOXIC, NON-IRRITANT, NON-ESCHAROTIC.

FORMULA—Listerine is the essential antiseptic constituent of Thyme, Eucalyptus, Baptisia, Gaultheria and Mentha Arvensis, in combination. Each fluid drachm also contains two grains of refined and purified Benzo-boracic Acid.

DOSE—Internally: One teaspoonful three or more times a day (as indicated) either full strength, or diluted, as necessary for varied conditions.

LISTERINE is a well-proven antiseptic agent—an antizymotic—especially adapted to internal use, and to make and maintain surgical cleanliness—asepsis—in the treatment of all parts of the human body, whether by spray, irrigation, atomization, or simple local application, and therefore characterized by its particular adaptability to the field of

PREVENTIVE MEDICINE—INDIVIDUAL PROPHYLAXIS.

Diseases of the Uric Acid Diathesis.

LAMBERT'S

LITHIATED HYDRANGEA

KIDNEY ALTERATIVE—ANTI-LITHIC.

FORMULA—Each fluid drachm of "Lithiated Hydrangea" represents thirty grains of FRESH HYDRANGEA and three grains of CHEMICALLY PURE Benzo-Salicylate of Lithia. Prepared by our improved process of osmosis, it is INVARIABLY of DEFINITE and UNIFORM therapeutic strength, and hence can be depended upon in clinical practice.

DOSE—One or two teaspoonfuls four times a day (preferably between meals).

Urinary Calculus, Gout, Rheumatism, Bright's Disease, Diabetes, Cystitis, Hæmaturia Albuminuria, and Vesical irritations generally.

We have much valuable literature upon { GENERAL ANTISEPTIC TREATMENT, LITHEMIA, DIABETES, CYSTITIS, ETC. } To forward to Physicians upon request.

LAMBERT PHARMACAL CO., ST. LOUIS, MO.

French's Beef, Wine and Iron.

In pint bottles . . . . . $9.00 a dozen.

Each fluid ounce contains the equivalent of 2 ozs. *fresh beef* and 4 grains of Citrate of Iron.

French's Hypophosphites or Compound Syrup of Hypophosphites.

Per dozen pints . . . . . $15.00 a dozen.

FORMULA.

Each fluid drachm contains—

Calcium Hypophosphite	1½ grains.
Potassium	1 grain.
Manganese	½ grain.
Iron	½ grain.
Quinine	¼ grain.
Strychnine	1–128 grain.

It is made from freshly precipitated and chemically pure salts, so combined that they will remain in perfect solution, thereby producing a more elegant preparation than generally found in the market.

French's Wine of Coca.

Each fluid ounce represents 30 grains Erythroxylon (Coca).

1 dozen pint bottles . . . . . $12.00 a dozen.

French's Emulsion of Pure Norwegian Cod-Liver Oil

With Bi-Basic Phosphate of Lime. No unpleasant taste.

In pint bottles . . . . . $9.00 a dozen.

These preparations are obtainable from the retail drug trade, or the manufacturers will send them by express prepaid in quantities of ¼ dozen and over, on receipt of the price.

FRENCH, RICHARDS & CO.,

1001, 1003, and 1005 MARKET STREET, PHILADELPHIA.

CEREBRAL EXHAUSTION

HORSFORD'S ACID PHOSPHATE.

It has been shown that the phosphates are found in excess in the urine in cases where the nerve centres (the brain and spinal cord) have been overworked, or subjected to undue labor, and the opinion is confirmed that there is a received relation between an excess of phosphates in the urine, and intellectual exercise.

This preparation supplies the phosphates and phosphoric acid, is readily assimilated, pleasant to the taste, and aids digestion.

Dr. S. A. HARVEY, Cheboygan, Mich., says:

"I have used it with marked benefit, in several cases of cerebral irritation."

Send for descriptive circular. Physicians who wish to test it will be furnished a bottle on application, without expense, except express charges.

Prepared under the direction of Prof. E. N. HORSFORD, by the

Rumford Chemical Works, Providence, R. I.

Beware of Substitutes and Imitations.

CAUTION:—Be sure the word "HORSFORD'S" is printed on the label. All others are spurious. Never sold in bulk.

A Phosphorized Cerebro-Spinant

(FRELIGH'S TONIC).

FORMULA.

Ten minims of the Tonic contain the equivalents (according to the formulæ of the U. S. P., and Dispensatory) of

Tinct. Nux Strychnos,	1 minim.
" Ignatia Amara,	1 "
" Cinchona,	4 "
" Matricaria,	1 "
" Gentian,	½ "
" Columbo,	½ "
" Phosphorus, C. P.,	1-300 gr.
Aromatics,	2 minims.

Dose: 5 to 10 drops in 2 tablespoonfuls of water.

INDICATIONS.

Paralysis, Neurasthenia, Sick and Nervous Headache, Dyspepsia, Epilepsy, Locomotor Ataxia, Insomnia, Debility of Old Age, and in the Treatment of Mental and Nervous Diseases.

A BALTIMORE PHYSICIAN, WHOSE DIPLOMA DATES FROM 1825, SAYS:

"Your combination I find vastly more effective than any tonic I have ever used. It furnishes a most powerful evidence of the vastly increased power of medicament by combination and judicious pharmaceutic preparation."

Price, One Dollar per Bottle, containing 100 of the Average 5-Drop Doses.—Physicians' single sample delivered, charges prepaid, on application. That every physician may be his own judge of its value, irrespective of the opinions of others, we make the following

SPECIAL OFFER:

We will send to any physician, delivered, charges prepaid, on receipt of twenty-five cents, and his card or letter-head, half a dozen physicians' samples, sufficient to test it on as many cases for a week to ten days each. The Tonic is kept in stock regularly by all the leading wholesale druggists of the country. As we furnish no samples through the trade, wholesale or retail, for samples, directions, price-lists, etc., address,

Apollinaris

"THE QUEEN OF TABLE WATERS."

The filling at the Apollinaris Spring (Rhenish Prussia), amounted to

11,894,000 BOTTLES IN **1887,**
12,720,000 BOTTLES IN **1888** AND
15,822,000 BOTTLES IN **1889.**

"The annual consumption of this favorite beverage affords a striking proof of the widespread demand which exists for table water of absolute purity, and it is satisfactory to find that, wherever one travels, in either hemisphere, it is to be met with; it is ubiquitous, and should be known as the cosmopolitan table water. 'Quod ab omnibus, quod ubique.'"—BRITISH MEDICAL JOURNAL.

THE BEST NATURAL APERIENT.

THE APOLLINARIS COMPANY, LIMITED, London, beg to announce that, as numerous APERIENT WATERS are offered to the public under names of which the word "Hunyadi" forms part, they have now adopted an additional Label comprising their Registered Trade Mark of selection, which consists of

A RED DIAMOND.

This Label will henceforth also serve to distinguish the HUNGARIAN APERIENT WATER SOLD BY THE COMPANY from all other Aperient Waters.

DEMAND THE 
DIAMOND MARK.

And insist upon receiving the HUNGARIAN APERIENT WATER of the APOLLINARIS COMPANY, LIMITED, London.

DR. WILLIAM A. HAMMOND'S SANITARIUM,

FOR DISEASES OF THE NERVOUS SYSTEM, Washington, D. C.

DR. WILLIAM A. HAMMOND announces to the medical profession that he has returned from New York to Washington, D. C., where he has established, in a building especially erected for the purpose, a *Sanitarium* for the treatment of mild and curable cases of mental derangement, diseases of the nervous system generally, cases of the morphia and chloral habits, and such other affections as may properly be treated by the remedial agencies under his control.

The *Sanitarium* is situated on Columbia Heights, at the corner of Fourteenth Street and Sheridan Avenue. The position is the highest in the immediate vicinity of Washington, the soil is dry, and all the surroundings are free from noxious influences. Electricity in all its forms, baths, douches, massage, inhalations, nursing, etc., are provided as may be required by patients, in addition to such other medical treatment as may be deemed advisable.

A large *Solarium* for sun-baths and exercise in cold or inclement weather and heated with steam in winter, is constructed on the top of the main building.

The *Sanitarium* has now been in successful operation since the 7th of January, 1889.

For further information Dr. Hammond can be addressed at The Sanitarium, Fourteenth Street and Sheridan Avenue, Washington, D. C.

The Acutely Ill.

When a patient is acutely ill, the digestive powers share in the general condition, and consequently the food supplied should be of the most easily assimilable character. The predigestion of starchy matters outside the body, as in MELLIN'S FOOD, is necessary, and the soluble carbohydrates of which this food consists, soluble because predigested, form the true food of the acutely ill.—J. MILNER FOTHERGILL, M.D., Edin.

A sample of MELLIN'S FOOD ***will be sent to any physician, free of expense, upon application.***

Doliber-Goodale Co., Boston, Mass.

GOUDRON DE BLOUNT

PREPARED FROM THE GENUINE CAROLINA TAR.

DOSE.—One fluid drachm four or more times a day (as indicated), either full strength, diluted, or, in combination.

INDICATIONS.—Chronic and acute affections of the Air Passages, Coughs, Colds, Bronchitis, Asthma and Consumption.

WILLIAM MURRELL, M.D., F.R.C.P.,

Lecturer on Pharmacology and Therapeutics at the Westminster Hospital; Examiner in Materic Medica to the Royal College of Physicians of London; Fellow of the Medico-Chirurgical College of Philadelphia,

Says:—"I have used with success 'Goudron de Blount.' The results have been good, and the preparation is popular with patients."

Permanent Pepsin.

THE INSEPARABLE STANDARDS OF VALUE ARE PERMANENCY AND ACTIVITY.

WHEN a physician prescribes pepsin and his patient finds that it "sticks to the paper," that it forms a gummy mass "in powders," he may rely upon it that FAIRCHILD'S PEPSIN has not been dispensed; if he has ordered Fairchild's, this behavior is positive evidence that he and his patient have been the victims of "substitution."

Pepsins which are hygroscopic, which do undergo upon exposure to air the changes characteristic of peptone, are offered (in the form of scales and in powder) with pretensions to permanent quality.

If a product is sought, of well-proven permanency and of highest standard of activity, FAIRCHILD'S PEPSIN is the one which will never give cause for complaint.

Fairchild's was the original "Scale Pepsin;" the first positively "free from starch, sugar, acid, peptones or any added substance." The host of imitations of "Scale Pepsin" bear witness to the value and reputation of the original.

FAIRCHILD BROS. & FOSTER,

82 and 84 Fulton Street, New York.

ALETRIS CORDIAL

UTERINE TONIC AND RESTORATIVE.

Prepared from the Aletris Farinosa or True Unicorn and Aromatics.

INDICATIONS.

Amenorrhea, Dysmenorrhea, Leucorrhea, Prolapsus Uteri, Sterility, to Prevent Miscarriage, Etc.

DOSE:—ONE TEASPOONFUL THREE OR FOUR TIMES A DAY.

UNRIVALED AS A UTERINE TONIC IN IRREGULAR, PAINFUL, SUPPRESSED AND EXCESSIVE MENSTRUATION.

It Restores Normal Action to the Uterus, and Imparts Vigor to the Entire Uterine System.

☞Where women have miscarried during previous pregnancies, or in any case where miscarriage is feared, the ALETRIS CORDIAL is indicated, and should be continuously administered during entire gestation.

CHAS. CLAY, M. R. C. S., Manor House, Dewsbury, England, says:—I find Aletris Cordial (Rio) is of great service in threatened miscarriage.

FRANCIS E. CANE, L. R. C. S., &c., Leeds, England, says:—I have tried the Aletris Cordial (Rio) in two cases of long standing dysmenorrhea, with excellent results. One of these patients has spent a week in bed every month for two years. After all the usual remedies, I put her on Aletris Cordial, and for the last two periods she has been out and about all the time.

L. M. WATSON, M. D., Delhi, Ills., says:—I have used Aletris Cordial (Rio) in cases of dysmenorrhea. suppressed menses and threatened miscarriage, and also, combined with Celerina, as a tonic after confinement, with the happiest results, and now I am using it on a case of leucorrhea, with injections of S. H. Kennedy's Extract of Pinus Canadensis, and it is acting like a charm.

P. H. OWEN, M. D., Morganville, Ala., says:—I have prescribed Aletris Cordial (Rio) in several cases with the most satisfactory results, and regard it as the best uterine tonic I have met with in a professional experience of over twenty-five years. In cases of threatened miscarriage it acts like a charm. Would recommend its continuous administration in all cases when there is any indication of miscarriage.

Dr. W. BERTHELOT, Santander, Spain, says:—I have tried the Aletris Cordial (Rio), and it has seemed to me to be useful, especially in cases of dysmenorrhea.

Dr. RASQUINET, Jupile, near Liege, Belgium, says:—I tried Aletris Cordial (Rio) in the case of a woman who had had several miscarriages at the end of five months, and who is now again pregnant, having reached the seventh month; thanks to Aletris Cordial.

R. REECE, M. R. C. S., Walton-on-Thames, England, says:—Aletris Cordial (Rio) in painful menstruation is most valuable. A wife of a minister suffered much, and had had three miscarriages. I prescribed Aletris Cordial. She has for the first time, gone her full time, and was safely confined with a male child.

J. T. COLLIER, M. D., Brooks, Me., says:—I have used your Aletris Cordial (Rio) in cases of females at the menopause. Consider it one of the finest remedies for these cases.

Dr. GORDILLON, St. Amand, France, says: I have tried the Aletris Cordial (Rio) in a case of dysmenorrhea. The result I obtained from the use of your preparation was excellent, better than I had obtained in the same patient by prescribing the usual remedies employed in such cases.

W. F. TOOMBS, M. D., Morrillton, Ark., says:—I have used a great deal of your Aletris Cordial (Rio) and I find it all you claim for it in amenorrhea, dysmenorrhea, metritis, leucorrhea; I don't think it has an equal. I have used it in two cases of threatened miscarriage and the trouble was obviated. For a general Uterine Tonic I know of nothing superior.

R. D. PATTERSON, L. R. C. S. &c., Medical Officer, Caledon Dispensary, Co. Tyrone, Ireland, says:—I have very great pleasure in testifying to the very high opinion I hold of Aletris Cordial (Rio) in threatened miscarriage.

BOUDAULT'S PEPSINE

The only Pepsine used in the Hospitals of Paris for the last Thirty Years.

Unlike the various substitutes which, in most cases, are but unscientific or incompatible compounds, forced upon the Medical Profession as aids to digestion by extensive advertising, but which, when submitted to the proper tests, are found to be useless as digestive agents, Pepsine is constantly gaining in the esteem of the careful practitioner.

Since the introduction of Pepsine by Boudault and Corvisart in 1854, the original BOUDAULT'S PEPSINE HAS BEEN AT ALL TIMES CONSIDERED THE BEST, as is attested by the awards it has received at the Expositions of 1867, 1868, 187 1873, in 1876 at the Centennial Exposition of Philadelphia, and in 1878 at the Paris Exposition.

The most reliable tests, carefully applied, will satisfy everyone that BOUDAULT'S PEPSINE HAS A MUCH HIGHER DIGESTIVE POWER than the best Pepsines now before the Profession, and is therefore especially worthy of their attention.

BOUDAULT'S PEPSINE is prepared in the form of Pepsine Acid and Pepsine Neutral. It is sold in bottles of one ounce, with a measure containing exactly five grains; also in bottles of four, eight, and sixteen ounces for dispensing.

BOUDAULT'S WINE OF PEPSINE

FORMULA OF DR. CORVISART.

The taste of Pepsine being perfectly disguised in this Wine, it may be recommended to persons who have difficulty in taking Pepsine in the form of Powder. This Wine is tested so that a tablespoonful of it is equal in digestive power to ten grains of Boudault's Pepsine in powder. Sold only in bottles of eight ounces.

TANRET'S PELLETIERINE

For the Treatment of Tape-Worm (Tænia Solium).

This New Tænifuge, the Active Alkaloid of Pomegranate Bark, has of late come into extensive use in France for the treatment of Tape-Worm (Tænia Solium). The results of numerous experiments with it at the Marine Hospitals of Toulon, St. Mandrier, etc., and in the Hospitals of Paris, St. Antoine, La Charité, Necker Beaujon, etc., have all been most satisfactory. Doctor Dujardin Beaumetz, Member of the Academy of Medicine, and Professor Laboulbene, in their report to the Society of Therapeutics, have given it their unqualified approval, after the most searching experiments. This preparation is pleasant to administer, and, if certain preliminaries are observed, success will be insured.

Sold only in bottles containing one dose.

DUCRO'S ALIMENTARY ELIXIR

A Combination uniting the properties of Alcoholic Stimulants and Raw Meat.

This preparation, which has been used with great success in the hospitals of Paris since 1868, is adapted to the treatment of all diseases requiring administration, in a small volume, of a tonic able to stimulate and support the vital forces, as *Pulmonary Phthisis, Depression and Nervous Debility, Adynamia, Malarious Cachexia, etc.*

Prepared by EMILE DURIEZ & CO., Successors to DUCRO & CIE, Paris.

KIRKWOOD'S INHALER

This is the only complete, reliable, and effective inhaler in use, arranged for the direct application of Muriate of Ammonia and other remedial agents in the state of vapor to the diseased parts of the air-passages in the treatment of catarrh and diseases of the throat and lungs. No heat or warm liquids required in its use.

It is entirely different from the various frail, cheap instruments that have been introduced.

KIRKWOOD'S INHALER is accompanied by testimonials of the highest professional character, together with carefully prepared formulas for use.

RETAIL PRICE, COMPLETE, $2.50.

☞ A liberal discount allowed to the trade and profession. For descriptive pamphlet or other information address

E. FOUGERA & CO., 30 North William St., New York,

DETROIT COLLEGE OF MEDICINE.

SESSION 1889-90.

Clinical and Practical teaching are made an important feature of this College. Clinical instruction is given daily at HARPER, ST. MARY'S and ST. LUKE'S HOSPITAL, at the COLLEGE, at COLLEGE EYE and EAR INFIRMARY, ST. MARY'S FREE EYE and EAR INFIRMARY, and at the three FREE DISPENSARIES. The facilities offered by this college are unsurpassed for the practical study of MEDICINE, SURGERY, OBSTETRICS, GYNÆCOLOGY, DISEASES OF CHILDREN, GENITO-URINARY, and ORTHOPÆDIC SURGERY, OPHTHALMOLOGY and OTOLOGY, DERMATOLOGY and LARYNGOLOGY.

REGULAR SESSION opens on Wednesday, Sept. 25, and continues six months. During the session, the Professors will take special pains to examine the Students upon the subjects of the previous lectures.

SPRING SESSION begins April 2d, 1890; and closes June 11th.

FEES.—Matriculation fee, $5; Fees for Regular Session, $50; Spring Session, $10, to those who attend the regular term—to all others, $25; Hospital Fee, $10; Graduation Fee, $30; Perpetual Ticket, $100.

For further particulars, and for College Circular, apply to

H. O. WALKER, M.D., Secretary,

33 Lafayette Ave., Detroit, Mich.

Philadelphia Polyclinic and College for Graduates in Medicine.

THE POLYCLINIC HOSPITAL: A School of Practical Medicine and Surgery
IN ALL THEIR BRANCHES.
FOR PHYSICIANS ONLY.

Individual Instruction, Clinical and Demonstrative, is given; the classes being limited in order to permit of *full personal attention to each pupil*, who is thus brought into direct contact both with patients and with instructors.

Laboratory Courses may be taken in *Clinical Chemistry, Operative Surgery, Bandaging and Fracture Dressing, Anatomy, Massage, Orthopædics, Electrotherapy, Dietetics, Experimental Physiology and Pharmacology, Bacteriology and Pathology.*

A Special Course in **Ophthalmology** includes *Didactic Instruction* in *Optical Theory.* **A Special Course** in **Dietetics** includes the study of *diet-cures* and *practical manipulations* in the *preparation* of predigested and other *foods of the sick.*

Fee for any one branch, $15.00; General Ticket for all Clinical branches, $100.00. Tickets good for regular clinics for six weeks from date of issue; or, for one clinic weekly for three months.

☞ In addition to the facilities of the College Dispensary and Hospital, the Professors utilize their services in the following large general and special Hospitals: PHILADELPHIA (Medical, Surgical, Neurological, Obstetric and Pædiatric, and Dermatological Wards and Clinics); WOMAN'S (Surgical); PENNSYLVANIA (Surgical, Eye); ORTHOPÆDIC and INFIRMARY for NERVOUS DISEASES; WILLS'S EYE; HOWARD (Skin); CHILDREN'S (Ear); JEWISH (Surgical, Medical); and ST. CLEMENT'S (Surgical).

For announcement and further information, address or apply to

1706 Walnut Street, Philadelphia

WESTERN PENNSYLVANIA MEDICAL COLLEGE
CITY OF PITTSBURGH.
SESSIONS OF 1889—90.

The REGULAR SESSION begins on the last Tuesday of September, and continues six months. During this session, in addition to four Didactic Lectures, two or three hours are daily allotted to Clinical Instruction. Attendance upon two regular courses of lectures is requisite for graduation. A three years' graded course is also provided. The SPRING SESSION embraces recitations, clinical lectures and exercises, and didactic lectures on special subjects; this session begins the second Tuesday in April, and continues ten weeks.

The laboratories are open during the collegiate year for instruction in chemistry, microscopy, practical demonstrations in medical and surgical pathology, and lessons in normal histology. Special importance attaches to "the superior clinical advantages possessed by this College." For particulars, see annual announcement and catalogue, for which, address the Secretary of Faculty, Prof. J. W. J. McKENNAN.

Business correspondence should be addressed to

A. G. SPALDING & BROS.'

Gymnasium Department.

From this time henceforth the **Gymnasium** in all its important details will be a department in our business to which we shall devote especial attention.

With the addition to our own valuable patents, those of the **A. J. Reach Company**, of Philadelphia, recently purchased by us, enables us to claim the most **extensive department** of **Gymnasium Appliances in the world**.

We have been encouraged in this **important** movement by the constantly increasing demand from **Colleges, Seminaries**, and other **Educational** Institutions for Gymnasium Supplies, and henceforth we shall devote special attention to furnishing **plans, specifications**, and **estimates** to such and for **private residences** as well, and solicit correspondence with all contemplating the introduction of gymnastics for any purpose.

The Peerless Pulley Weight, illustration of which appears on this page, is a most perfect appliance for the development of the **chest** and **arms**, adjustable to the height of *any* person, and in weight from five to thirty pounds. For **man or woman** this is the peer of any method yet devised, especially for home use. Realizing the attention the **medical profession** and the **teacher**, are now giving to **healthful** exercise in **schools**, we solicit also their correspondence, and any orders, or business prceeding from such, will be gratefully received, and entitled to our best rates of discount, and will receive prompt and careful attention.

Visitors to our different establishments at **Chicago, New York**, and **Philadelphia** will always be welcome and politely served by the many efficient salesmen constantly in attendance.

To whom all orders for samples must be addressed.

SVAPNIA IS FOR SALE BY DRUGGISTS GENERALLY.

GENUINE BLAUD'S PILLS.

These pills, which have been inserted in the new French Pharmacopœia, have been employed with the greatest success for more than fifty years by most French and foreign physicians, to cure anemia, chlorosis, and all chlorotic affections in which iron is indicated.

Here is the opinion of men most eminent in medical science who have employed them:

"For thirty-five years, in which I have practised medicine, I have recognized the incontestable advantages of BLAUD'S PILLS over all other ferruginous preparations, and I regard them as the best anti-chlorotic."—DR. DOUBLE, *Ex-President of the Academy of Medicine.*

"Of all the ferruginous preparations, which have given good results in the treatment of chlorotic affections, BLAUD'S PILLS appear to us to deserve to hold the first rank."—*Dictionnaire universel de médecine*, Vol. II, p. 99.

These pills, prepared according to the genuine formule of the originator, by his nephew, Aug. Blaud, Pharmacist of the Faculty of Paris, are sold only in bottles of 200 pills and half bottles of 100 pills, at a cost of 5 and 3 francs ($1.00, and seventy-five cents), and never in smaller quantities. *See that his name is stamped on each pill.* **PARIS, 8 RUE PAYENNE, and at every Pharmacy.** (Beware of imitations.)

BLAUD

A HANDSOME BINDER FOR THE REPORTER

WILL BE SENT FOR 50 CENTS.

SEND MONEY WITH ORDER.

Address,

MEDICAL AND SURGICAL REPORTER,

P. O. Box 843, Philadelphia.

Doctor:

You have many patients who, at this season of the year, present the condition of extreme debility.

Some have passed the winter amidst scenes of constant gayety and the ceaseless whirl of fashionable society, with its balls, suppers and parties following in rapid succession, keeping their nervous tension up to the highest pitch, until, to use their own expression, they feel "utterly worn out." Others, the actors, singers, preachers, lecturers and other public workers, are so fatigued with the excessive mental strain of the winter that they are on the verge of nervous prostration. While still others, in humble circumstances, have endured unusual hardships, exposure and privation.

Overwork and worry are the most potent factors in the failure of health among Americans.

These are all in the most favorable condition for the development of acute disease.

You can rapidly restore them to the normal condition, and thus demonstrate the power of your art, by prescribing for them a thorough and protracted course of the Hypophosphites of Lime and Soda as found in McArthur's Syrup. Here you find these valuable salts in their absolute chemical purity.

Among specialists this is recognized as the chief therapeutic agent by which consumption, before its later stages, can be cured, and the frightful and disgusting ravages of scrofula brought completely under control, while it readily restores the victim of nervous debility.

McArthur's Syrup is prepared solely for prescription by physicians, hence no printed matter accompanies the bottle.

Its use is indicated in all diseases with debilitating discharges, or characterized by faulty nutrition. Always specify McArthur's Syrup, as others contain many ingredients entirely foreign to the case. If you desire other ingredients for use in special cases you can add them to the prescription.

Write for our pamphlet, "The Curability and Treatment of Consumption," (free), and a large sample bottle of McArthur's Syrup, on which you will pay only the express charges.

McARTHUR HYPOPHOSPHITE CO.,
BOSTON, MASS.

HELP!!

WE WANT TO ASK all the **FRIENDS** of the MEDICAL AND SURGICAL REPORTER to **HELP** to make it the strongest Medical Journal in **AMERICA,** or anywhere, for that matter. SEND CHECK OR MONEY ORDER TO

MEDICAL AND SURGICAL REPORTER,

P. O. Box 843. **PHILADELPHIA.**

Sulfonal-Bayer has been before the Medical Profession for some time, receiving its unqualified endorsement, but the use has been limited in many cases, owing to the hesitation of the practitioner in recommending so costly a remedy.

It is a matter of gratification to us to be able to announce a substantial reduction in price of

THE NEW HYPNOTIC

SULFONAL-BAYER,

which will enable physicians to freely prescribe it whenever indicated, and will bring it within the reach of all classes of patients.

So much has been written and published regarding Sulfonal that it does not here seem necessary to set forth at length its peculiar merits. We have already published two pamphlets on this subject, and the points will be found to be fully exhibited in the series of contributions contained in them. These pamphlets will be mailed to applicants.

Sulfonal was discovered by Prof. Eugen A. Baumann, of Freiburg University, and was first prepared by the Farbenfabriken vorm. Friedr. Bayer & Co., Elberfeld.

Sulfonal-Bayer is supplied by us in half-ounce and one-ounce vials.

We prepare 5-grain and 15-grain Tablets of Sulfonal-Bayer. The Tablet form is admirably adapted to the purpose of administering this drug, as when they are placed in the liquids they disintegrate, and are thus received into the system.

We also put up Sulfonal-Bayer in the form of our Soluble Pills, containing 5 grains each.

ANALGESIC—ANTIPYRETIC

PHENACETINE-BAYER.

Phenacetine-Bayer (Para-Acetphenetidine) is a white, glossy, crystalline powder, perfectly tasteless, slightly soluble in water, a little more soluble in glycerine, but most freely in alcohol, and it was first prepared by the Farbenfabriken vorm. Friedr. Bayer & Co., Elberfeld.

Phenacetine-Bayer has been received with great favor by the Medical Profession, and is daily growing in esteem both as an Antipyretic and Analgesic.

Phenacetine-Bayer is an important antineuralgic; its effect is more energetic than that of Antiyprine, and does not cause lassitude or any other disagreeable symptoms.

Our two pamphlets on Phenacetine-Bayer, containing the valuable testimony of eminent physicians, will be mailed on application.

W. H. Schieffelin & Co.,

170 & 172 William St., New York.

ESTABLISHED 1855.

DRS. STRONG'S SANITARIUM,

SARATOGA SPRINGS, NEW YORK,

Receives persons recommended to it by their home physicians for Treatment, Change, Rest or Recreation, and places them under well-regulated hygienic conditions so helpful in the treatment of chronic invalids or the overtaxed.

For Treatment: In addition to the ordinary remedial agents, it employs Turkish, Russian, Roman, Sulphur, Electro-Thermal, the French Douche (Charcot's), and all Hydropathic Baths; Vacuum Treatment, Swedish Movements Massage, Pneumatic Cabinet, Inhalations of Medicated, Compressed, and Rarefied Air, Electricity in various forms, Thermo-Cautery, Calisthenics, and Saratoga Waters, under the direction of a staff of educated physicians.

For Change: This Institution is located in a phenomenally dry, tonic, and quiet atmosphere, in the lower arc of the Adirondack Zone, and within the "Snow Belt."

For Rest: The Institution offers a well-regulated, quiet home, heated by steam and thoroughly ventilated, with cheering influences and avoiding the depressing atmosphere of invalidism.

For Recreation: To prevent introspection, are household sports at all seasons of the year, and in Winter, tobogganning, elegant sleighing etc.; in Summer, croquet, lawn-tennis, etc.

Private professional references furnished upon application. Physicians are invited to inspect the Institution at their convenience. A liberal discount to physicians and their families.

For further information, address,

DRS. S. S. & S. E. STRONG.

GOLD MEDAL, PARIS, 1878.

W. BAKER & CO.'S Breakfast Cocoa

Is absolutely pure and it is soluble.

No Chemicals

are used in its preparation. It has *more than three times the strength* of Cocoa mixed with Starch, Arrowroot or Sugar, and is therefore far more economical, *costing less than one cent a cup.* It is delicious, nourishing, strengthening, EASILY DIGESTED, and admirably adapted for invalids as well as for persons in health.

Sold by Grocers everywhere.

W. BAKER & CO., Dorchester, Mass.

Ask Grocers for our Patent Barley **CRYSTALS**, a new, **unrivalled Cereal Food,** for Breakfast, Tea and Dessert. If not sold there, write us for free samples. **GLUTEN FLOUR** and **SPECIAL DIABETIC FOOD** are invaluable waste-repairing flours for **Dyspepsia, Diabetes, Debility and Children's Food.** No bran; mainly free from starch. For all family uses nothing equals our **HEALTH FLOUR.** Send for circular offering 4 lbs. free. **FARWELL & RHINES,** Proprietors, Watertown, N. Y.

A PRACTICE WORTH FROM $1,500 TO $2,000

a year, with fine house, barn, ice-house, out buildings and 2¼ acres of land, with sufficient fruit for family use; for sale on EASY AND REASONABLE TERMS. The location being in Tompkins Co., N. Y., near the centre of the State, six miles from Cornell University and Cayuga Lake, within an hour's drive of four R. R. stations, is not excelled. The practice has been established and controlled by the present family for sixty years, and is without competition.

For further particulars, address
JOHN E. BEERS, Danby, N. Y.

A Phosphorized Cerebro-Spinant

(FRELIGH'S TONIC).

FORMULA.

Ten minims of the Tonic contain the equivalents (according to the formulæ of the U. S. P., and Dispensatory) of

Tinct. Nux Strychnos,	1 minim.
" Ignatia Amara,	1 "
" Cinchona,	4 "
" Matricaria,	1 "
" Gentian,	½ "
" Columbo,	½ "
" Phosphorus, C. P.,	1-300 gr.
Aromatics,	2 minims.

Dose: 5 to 10 drops in 2 tablespoonfuls of water.

INDICATIONS.

Paralysis, Neurasthenia, Sick and Nervous Headache, Dyspepsia, Epilepsy, Locomotor Ataxia, Insomnia, Debility of Old Age, and in the Treatment of Mental and Nervous Diseases.

A BALTIMORE PHYSICIAN, WHOSE DIPLOMA DATES FROM 1825, SAYS:

"Your combination I find vastly more effective than any tonic I have ever used. It furnishes a most powerful evidence of the vastly increased power of medicament by combination and judicious pharmaceutic preparation."

Price, One Dollar per Bottle, containing 100 of the Average 5-Drop Doses.—Physicians' single sample delivered, charges prepaid, on application. That every physician may be his own judge of its value, irrespective of the opinions of others, we make the following

SPECIAL OFFER:

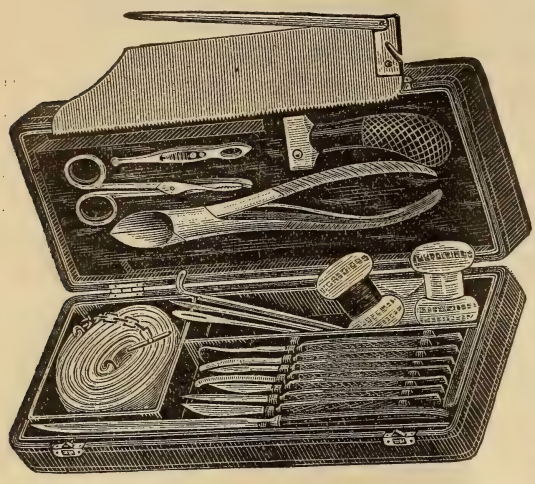
We will send to any physician, delivered, charges prepaid, on receipt of twenty-five cents, and his card or letter-head, half a dozen physicians' samples, sufficient to test it on as many cases for a week to ten days each. The Tonic is kept in stock regularly by all the leading wholesale druggists of the country. As we furnish no samples through the trade, wholesale or retail, for samples, directions, price-lists, etc., address,

I. O. WOODRUFF & CO.,

Manufacturers of Physicians' Specialties,

No. 88 Maiden Lane, New York City.

LENTZ'S ASEPTIC COMPACT OPERATING SET, No. 10.



We have from time to time made improvements to this set and are now making a perfect aseptic set, which offers especial facilities for aseptic precautions; the blades are soldered into hollow German-silver handles, nickel-plated, are light so as not to be unwieldy and admit of a firm grasp when operating.

The saw is adjusted to the handle on an entirely new principle, being made to separate easily and to facilitate thorough cleansing.

The handle is entirely of metal and fenestrated to overcome unnecessary weight.

Scissors and Forceps having French locks can be separated, and the slide can be easily removed from Artery and Needle Forceps.

Therefore, no opportunity is offered for the lodgment and development of germs.

The entire set is patterned with especial reference to facility in cleansing.

The instruments can be sterilized by placing them in boiling water, without fear of damaging them. Wood or rubber handles will not admit of this procedure. For price, see case A.

The following instruments are put up in either a fine Mahogany or Morocco case, with nickel trimmings, lined with velvet, and has an extra space for Trephine with handle, and Elevator if desired.

One Amputating Knife (6 in. blade); One Finger Knife; One Hernia Knife; One Sharp Curved Bistoury; Two Scalpels; One Tenotome; One Tenaculum; One Pair Scissors, curved or flat; One Saw (9 in. blade); One Liston's Bone Forceps, with Spring; One Artery and Needle Forceps, improved; One Esmarch's Flat Rubber Tourniquet, with Chain; One Hæmostatic Forceps; One Director, with Aneurism Needle; Two Silver Probes; Silk, Wire, Wax and Needles.

With the Sixteen Instruments Contained in this Case, any Ordinary Operation may be Performed.

SIZE, 11 INCHES LONG, 4 INCHES WIDE, 2 INCHES HIGH.

A.—German Silver aseptic Handles on Knives and Saw, ... $34 00
B.—Hard Rubber aseptic Handles on Knives and Saw, ... 29 00
C.—Ebony Handles on Knives and Saw (as shown in illustration), ... 25 00
Either Set, with Trephine and Elevator in addition, ... 4 65

ANTIFEBRIN IN INFLUENZA!

This use of this Renowned ANTIPYRETIC, ANODYNE, SEDATIVE and NERVINE seems suggested by the following Judgments passed on it by Reputed Authorities in Symptomatically *Allied Complaints:*—

As an **Antifebrile** Dose:—2 to 4 grains *single;* 16 to 32 grains *daily.*—(WEINSTEIN, Vienna.)

As an **Anodyne** and **Nervine** Dose in severest Neurotic and Secondary Pains:—8 to 16 grains, *one to four times per day.*—(DEMIEVILLE, Lausanne.)

Mode of Administration:

"Even the *initial dose* gave evident relief; commonly within half an hour. If this did not suffice to break up the symptoms materially, a second dose followed in an hour or two; at the very utmost a third one was given the same day.

"The remedy was effective and well tolerated at all times; at all hours of the day; on an empty or a full stomach; even during menstruation.

"The form of exhibition was that of *powders*, wrapped in *wafers*. The readier solubility of the Antifebrin in Alcohol indicates the advisability of following the dose by a small draught of Wine or Brandy."—(OTT, Prague.

ANOTHER MODE OF ADMINISTRATION:—*Dissolve* your Dose (4 to 12 grains) of **ANTIFEBRIN** in ½–1 ounce (1 to 2 Tablespoonfuls) of *Boiling Water*,—stirring for a minute or two, until dissolved. Allow the Solution *to cool down* to about 104 degrees F. (being just comfortably warm) and sweeten to taste, *Before Taking!*—NO ALCOHOL, WINE, or LIQUOR needed with it when thus prepared.

ANTIFEBRIN

was found **Superior** to the **Following** Remedies in **Efficacy**, or in Safety, or in **Both**:—

Antipyrine,—*Quinine*,—*Morphine*,—*Opium*,—CHLORAL HYDRATE—ACONITE,—CAFFEINE,—KAIRINE,—*Salicylic Acid*,—CARBOLIC ACID,—*Bromides*,—IODIDES.

Among the Medical Authorities from whose Clinical and other Published Reports the above-stated PREFERENCES OF ANTIFEBRIN OVER OTHER REMEDIES have been drawn, are the following:

HARE, University of Pennsylvania;—DUJARDIN-BEAUMETZ, Paris;—HERCZEL, Heidelberg;—MURRAY, *Brit. Med. Journal;*—PAVAIVAJNA, *Centralblatt für die gesammte Therapie;*—BARR, Bridgeport, Ill.;—KELL, Delphos, O.;—HAY, New York;—HAAS, Prague.

Antifebrin was also *found to be:*

"Thoroughly *reliable* as an ANTIPYRETIC."—(DEMME, Berne.)

"*Not only* powerfully ANTITHERMIC, but also a most *useful* NERVINE."—(LEPINE, Lyons.)

"A *powerful, safe*, and *certain* ANTITHERMIC agent."—(EVANS, Easton, Pa.)

"*Complete* ANALGETIC effect in nine cases out of every ten."—(FISCHER, Cannstatt.)

RABUTEAU'S DRAGEES OF IRON

Laureate of the Institute of France.—Prize in Therapeutics.

The studies made by the Physicians of the Hospitals have demonstrated that the **Genuine Dragees of Iron of Rabuteau** are superior to all other preparations of Iron in cases of *Chlorosis, Anæmia, Leucorrhœa, Debility, Exhaustion, Convalescence, Weakness of Children*, and the maladies caused by the Impoverishment and Alteration of the blood after periods of fatigue, watching, and excesses of any kind.

TAKE 4 TO 6 DRAGEES DAILY.

Rabuteau's Elixir of Iron is recommended to those persons who may be unable to swallow the Dragees. Dose —*A small wineglassful with meals.*

Rabuteau's Syrup of Iron is specially designed for children. Chalybeate medication, by means of **Rabuteau's Iron**, is the most economical and the most rational known to therapeutics.

No constipation, no diarrhœa, complete assimilation.

Take only the GENUINE IRON OF RABUTEAU of

CLIN & CO., Paris.

SOLUTION OF

THE SALICYLATE OF SODA OF DOCTOR CLIN.

Laureate of the Paris Faculty of Medicine

(MONTYON PRIZE).

Dr. Clin's Solution, always identical in its composition, and of an agreeable taste, permits the easy administration of *pure Salicylate of Soda*, and the variation of the dose in accordance with the indications presented.

"The *Salicylate of Soda* used by **Clin** is of perfect purity, "and is prepared with the greatest care; it is a medicament "in which we may have every confidence."

—*Paris Society of Medicine, Meeting of Feb. 8th, 1879.*

Clin's Solution, very exactly mixed, contains: 2 grammes of *Salicylate of Soda* per tablespoonful, 50 centigrammes of *Salicylate of Soda* per teaspoonful.

CLIN & CO.,—Paris.

GRAND NATIONAL PRIZE OF 16,600 FRANCS,

QUINA-LAROCHE

This meritorious **Elixir, QUINA-LAROCHE,** is prepared from the **three** Cinchonas; it is an agreeable and doubtless highly efficacious remedy.

—*The Lancet.*

VINOUS ELIXIR,

A STIMULATING RESTORATIVE

—AND—

ANTI-FEBRILE TONIC.

QUINA-LAROCHE under the form of a vinous **Elixir** contains the totality of the numerous principles of the **three** Cinchona barks. It is a preparation which renders great services to Therapeutics.—Extract of the *Gazette des Hôpitaux*, Paris.

FAR SUPERIOR TO ALL ORDINARY CINCHONA WINES.

LAROCHE'S QUINA, tried by the Academy of Medicine of Paris, is a specially prepared COMPOUND EXTRACT of Quinquina, a careful analysis, confirmed by experience, has shown that most of the wines and syrups hitherto used have not contained all the properties of this precious bark, of these some, although beneficial, are altogether lost, while many preparations contain but half the properties of the bark in varying proportions.

MR. LAROCHE, by his peculiar method, has succeeded in extracting all the active principles of the quinquina, combining these with *Catalan Wine* forming an Elixir free from the disagreeable bitterness of other similar preparations. Practitioners have found triple advantages in the use of this Elixir, it is a *strong tonic*, is easily administered, and perfectly harmless, being free from the unpleasant effects of Quinine.

THE FERRUGINOUS QUINA-LAROCHE is the invigorating tonic *par excellence*, having the advantage of being easily assimilated by the gastric juice; without, in any way, deranging the action of the digestive organs, proving itself to be a most efficacious remedy in cases of impoverishment of the blood, ANÆMIA, CHLOROSIS, INTESTINAL HÆMORRHAGE, CASTRALGIA, EXHAUSTION, ETC., ETC.

ALL KINDS AND SIZES IN THREAD OR SILK ELASTIC. Made under D. Master's Patents, Nov. 29, 1881, March 21, 1882. Send for descriptive circular and price-list to

POMEROY TRUSS CO.,
785 Broadway, New York.

DANIEL POMEROY, Pres. CHARLES R. DEAN, Sec.

THE NEW STYLE cannot pull apart and consequently lasts until worn out.

BROMIDIA

THE HYPNOTIC.

FORMULA.—

Every fluid drachm contains 15 grains EACH of Pure Chloral Hydrat. and purified Brom. Pot., and one-eighth grain EACH of gen. imp. ext. Cannabis Ind. and Hyoscyam.

DOSE.—

One-half to one fluid drachm in WATER or SYRUP every hour, until sleep is produced.

INDICATIONS.—

Sleeplessness, Nervousness, Neuralgia, Headache, Convulsions, Colic, Mania, Epilepsy, Irritability, etc. In the restlessness and delirium of fevers it is absolutely invaluable.

IT DOES NOT LOCK UP THE SECRETIONS.

PAPINE

THE ANODYNE.

Papine is the Anodyne or pain-relieving principle of Opium, the Narcotic and Convulsive Elements being eliminated. It has less tendency to cause Nausea, Vomiting, Constipation, Etc.

INDICATIONS.—

Same as Opium or Morphia.

DOSE.—

(ONE FLUID DRACHM)—represents the Anodyne principle of one-eighth grain of Morphia.

IODIA

The Alterative and Uterine Tonic.

FORMULA.—

Iodia is a combination of active principles obtained from the Green Roots of Stillingia, Helonias, Saxifraga, Menispermum, and Aromatics. Each fluid drachm also contains five grains Iod. Potas., and three grains Phos. Iron.

DOSE.—

One or two fluid drachms (more or less as indicated) three times a day before meals.

INDICATIONS.—

Syphilitic, Scrofulous and Cutaneous Diseases, Dysmenorrhea, Menorrhagia, Leucorrhea, Amenorrhea, Impaired Vitality, Habitual Abortions, and General Uterine Debility.

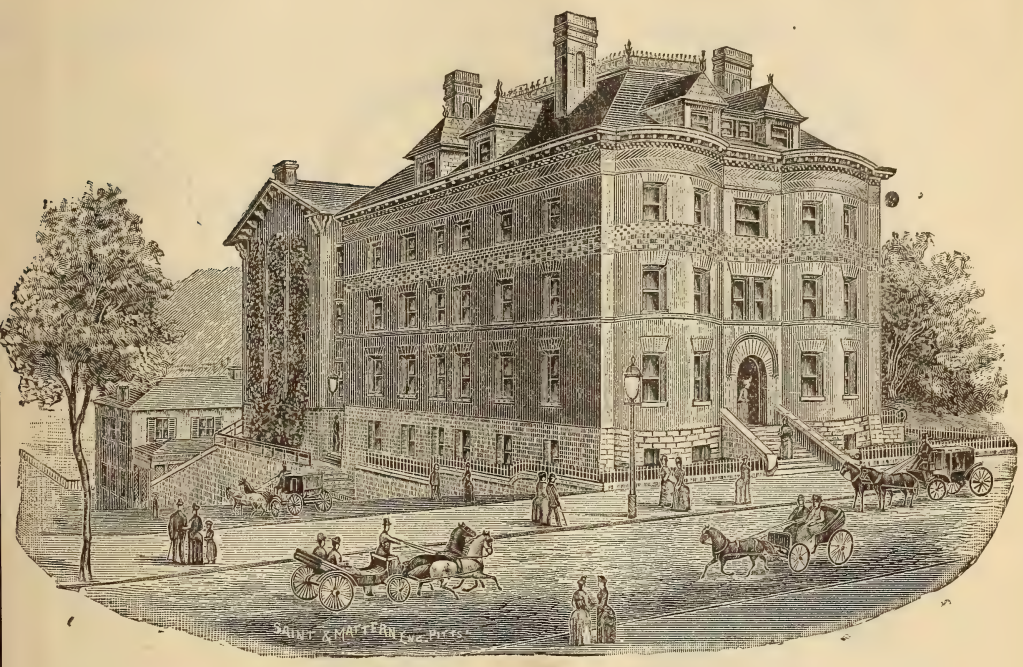
DR. R. S. SUTTON'S

Sanatorium for Diseases of Women.



Seventh Year Opens September 1, 1889.

ALLEGHENY CITY, PA.

This Institution is located on high ground, and overlooks the Allegheny, Monongahela and Ohio rivers; it commands a view of the city of Pittsburgh, and its picturesque surroundings. The building is large and beautiful, it is provided with every modern convenience, the halls are heated by steam, the rooms are commodious, well lighted and ventilated, and heated by open grates. The house is provided with a private parlor and reading-room for patients. The dining-room is large, handsomely finished, and furnished with small tables, securing privacy at meals for those who do not care to have meals served in their own rooms. Patients can be as secluded, should they desire it, as in a well appointed hotel. Each patient is examined by Dr. Sutton, and receives his daily personal attention, while Dr. J. H. Williamson, a physician of ample hospital experience, resides in the Institution, and has, under Dr. Sutton, the immediate care of the patients. The Institution accommodates 25 patients, and is equal in comfort to the best hotels.

Electricity, baths, douches, massage, local treatment, general medication and surgical operations are resorted to according to the requirements of each patient.

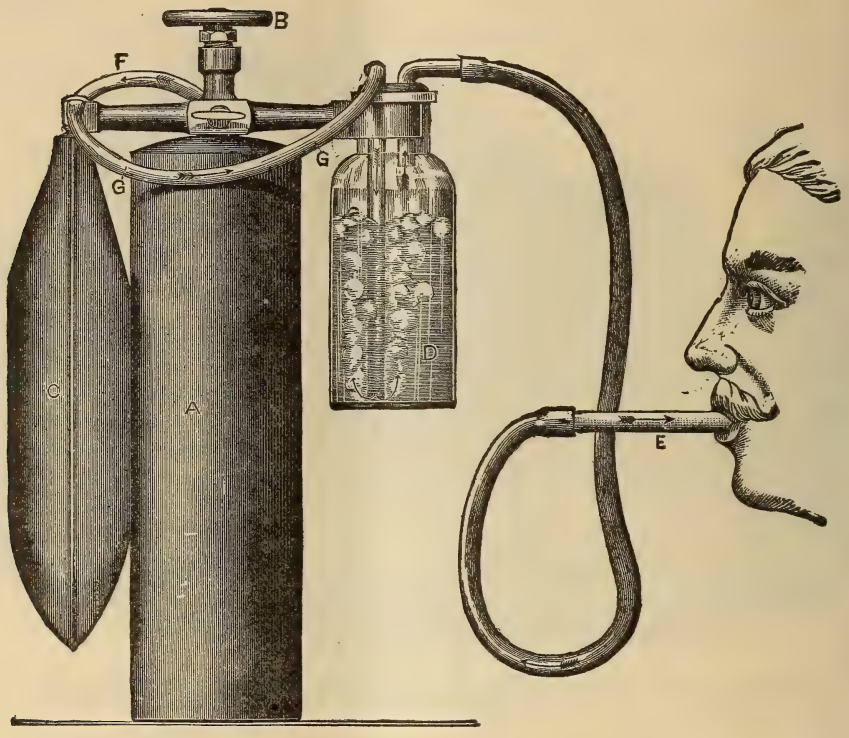
INHALATION APPARATUS

FOR

THE THERAPEUTIC ADMINISTRATION OF OXYGEN.



In the treatment of lung troubles by Oxygen its exhibition by inhalation is preferred. The apparatus herewith shown is a modification of the Nitrous Oxide apparatus which we have supplied for many years. It is made in the best manner throughout, and is the outcome of years of experience in the manufacture of gas apparatus. It will be found to meet all the requirements.

We supply the gas in two sizes of cylinders, containing respectively forty and one hundred gallons, either pure Oxygen, or a mixture of Oxygen and Nitrous Oxide in definite proportions of 20 per cent., and forty per cent. of Nitrous Oxide.

Whether pure or mixed the gas is sold at the uniform price of 5 cents a gallon. The cost of the cylinders will be refunded on their return empty with the valves in good condition. Full description of Inhalation and Enema apparatuses with directions for use accompany each apparatus, or will be supplied on application.

PRICES.

Inhalation Apparatus	$5.00
Cylinder, 40 gallons' capacity	6.00
40 gallons Gas, either pure Oxygen or mixed Oxygen and Nitrous Oxide	2.00
Complete Apparatus, Cylinder, and 40 gallons Gas	$13.00
Inhalation Apparatus	$5.00
Cylinder, 100 gallons' capacity	15.00
100 gallons Gas, either pure or mixed	5.00
Complete Apparatus, Cylinder, and 100 gallons Gas	$25.00

PHILADELPHIA, NEW YORK, BOSTON, CHICAGO, BROOKLYN.

THE BEST ANTISEPTIC
FOR BOTH INTERNAL AND EXTERNAL USE.

ANTISEPTIC, PROPHYLACTIC, DEODORANT.

LISTERINE

NON-TOXIC, NON-IRRITANT, NON-ESCHAROTIC.

FORMULA—Listerine is the essential antiseptic constituent of Thyme, Eucalyptus, Baptisia, Gaultheria and Mentha Arvensis, in combination. Each fluid drachm also contains two grains of refined and purified Benzo-boracic Acid.

DOSE—Internally: One teaspoonful three or more times a day (as indicated) either full strength, or diluted, as necessary for varied conditions.

LISTERINE is a well-proven antiseptic agent—an antizymotic—especially adapted to internal use, and to make and maintain surgical cleanliness—asepsis—in the treatment of all parts of the human body, whether by spray, irrigation, atomization, or simple local application, and therefore characterized by its particular adaptability to the field of

PREVENTIVE MEDICINE—INDIVIDUAL PROPHYLAXIS.

Diseases of the Uric Acid Diathesis.

LAMBERT'S

LITHIATED HYDRANGEA

KIDNEY ALTERATIVE—ANTI-LITHIC.

FORMULA—Each fluid drachm of "Lithiated Hydrangea" represents thirty grains of FRESH HYDRANGEA and three grains of CHEMICALLY PURE Benzo-Salicylate of Lithia. Prepared by our improved process of osmosis, it is INVARIABLY of DEFINITE and UNIFORM therapeutic strength, and hence can be depended upon in clinical practice.

DOSE—One or two teaspoonfuls four times a day (preferably between meals).

Urinary Calculus, Gout, Rheumatism, Bright's Disease, Diabetes, Cystitis, Hæmaturia Albuminuria, and Vesical irritations generally.

We have much valuable literature upon { GENERAL ANTISEPTIC TREATMENT, LITHEMIA, DIABETES, CYSTITIS, ETC. } To forward to Physicians upon request:

LAMBERT PHARMACAL CO., ST. LOUIS, MO.

French's Beef, Wine and Iron.

In pint bottles . . . . . $9.00 a dozen.

Each fluid ounce contains the equivalent of 2 ozs. *fresh beef* and 4 grains of Citrate of Iron.

French's Hypophosphites or Compound Syrup of Hypophosphites.

Per dozen pints . . . . . $15.00 a dozen.

FORMULA.

Each fluid drachm contains—

Calcium Hypophosphite	1½ grains.
Potassium	1 grain.
Manganese	½ grain.
Iron	½ grain.
Quinine	¼ grain.
Strychnine	1–128 grain.

It is made from freshly precipitated and chemically pure salts, so combined that they will remain in perfect solution, thereby producing a more elegant preparation than generally found in the market.

French's Wine of Coca.

Each fluid ounce represents 30 grains Erythroxylon (Coca).

1 dozen pint bottles . . . . . $12.00 a dozen.

French's Emulsion of Pure Norwegian Cod-Liver Oil

With Bi-Basic Phosphate of Lime. No unpleasant taste.

In pint bottles . . . . . $9.00 a dozen.

These preparations are obtainable from the retail drug trade, or the manufacturers will send them by express prepaid in quantities of ¼ dozen and over, on receipt of the price.

FRENCH, RICHARDS & CO.,

1001, 1003, and 1005 MARKET STREET, PHILADELPHIA.

Champagne ANALYZED

Of Interest to all Medical Practitioners.

WHAT IS SAID BY

THOMAS KING CHAMBERS, M.D., F.R.C.P.
R. OGDEN DOREMUS, M.D.
F. W. PAVY, M.D., F.R.S.

"Champagne, with a minimum of alcohol, is by far the wholesomest, and possesses remarkable exhilarating power."—THOMAS KING CHAMBERS, M.D., F.R.C.P.

"Having occasion to investigate the question of wholesome beverages, I have made a chemical analysis of the most prominent brands of Champagne. I find G. H. Mumm & Co.'s Extra Dry to contain, in a marked degree, less alcohol than the others. I therefore most cordially commend it not only for its purity but as the most wholesome of the Champagnes."—R. OGDEN DOREMUS, M.D., *Professor of Chemistry, Bellevue Hospital Medical College, New York.*

"Champagne, while only possessing the alcoholic strength of natural wines, is useful for exciting the flagging powers in case of exhaustion"—F. W. PAVY, M.D., F.R.S., *Lecturer on Physiology at Guy's Hospital, London.*

The remarkable vintage of 1884 of **G. H. MUMM & CO.'S EXTRA DRY CHAMPAGNE,** the finest for a number of years, is now imported into this market, and pronounced by connoisseurs unsurpassed for excellence and bouquet.

FRED'K DE BARY & CO., New York,

SOLE AGENTS IN THE UNITED STATES AND CANADA.

Permanent Pepsin.

THE INSEPARABLE STANDARDS OF VALUE ARE PERMANENCY AND ACTIVITY.

WHEN a physician prescribes pepsin and his patient finds that it "sticks to the paper," that it forms a gummy mass "in powders," he may rely upon it that FAIRCHILD'S PEPSIN has not been dispensed; if he has ordered Fairchild's, this behavior is positive evidence that he and his patient have been the victims of "substitution."

Pepsins which are hygroscopic, which do undergo upon exposure to air the changes characteristic of peptone, are offered (in the form of scales and in powder) with pretensions to permanent quality.

If a product is sought, of well-proven permanency and of highest standard of activity, FAIRCHILD'S PEPSIN is the one which will never give cause for complaint.

Fairchild's was the original "Scale Pepsin;" the first positively "free from starch, sugar, acid, peptones or any added substance." The host of imitations of "Scale Pepsin" bear witness to the value and reputation of the original.

FAIRCHILD BROS. & FOSTER,

82 and 84 Fulton Street, New York.

Apollinaris

"THE QUEEN OF TABLE WATERS."

The filling at the Apollinaris Spring (Rhenish Prussia), amounted to

11,894,000 BOTTLES IN **1887,**
12,720,000 BOTTLES IN **1888** AND
15,822,000 BOTTLES IN **1889.**

"The annual consumption of this favorite beverage affords a striking proof of the widespread demand which exists for table water of absolute purity, and it is satisfactory to find that, wherever one travels, in either hemisphere, it is to be met with; it is ubiquitous, and should be known as the cosmopolitan table water. 'Quod ab omnibus, quod ubique.'"—BRITISH MEDICAL JOURNAL.

THE BEST NATURAL APERIENT.

THE APOLLINARIS COMPANY, LIMITED, London, beg to announce that, as numerous APERIENT WATERS are offered to the public under names of which the word "Hunyadi" forms part, they have now adopted an additional Label comprising their Registered Trade Mark of selection, which consists of

A RED DIAMOND.

This Label will henceforth also serve to distinguish the HUNGARIAN APERIENT WATER SOLD BY THE COMPANY from all other Aperient Waters.

DEMAND THE 
DIAMOND MARK.

And insist upon receiving the HUNGARIAN APERIENT WATER of the APOLLINARIS COMPANY, LIMITED, London.

The Acutely Ill.

When a patient is acutely ill, the digestive powers share in the general condition, and consequently the food supplied should be of the most easily assimilable character. The predigestion of starchy matters outside the body, as in MELLIN'S FOOD, is necessary, and the soluble carbohydrates of which this food consists, soluble because predigested, form the true food of the acutely ill.—J. MILNER FOTHERGILL, M.D., Edin.

***A** sample of* MELLIN'S FOOD *will be sent to any physician, free of expense, upon application.*

Doliber-Goodale Co., Boston, Mass.

CALIFORNIA VINTAGE CO.

21 PARK PLACE N.Y.

Geo Hamlin Prest. Chas Roome Parmele Treas.

GENTLEMEN:

The Case of your wines sent me for analysis by Dr. A. L. Hummel, of the "Annals of Hygiene," containing specimens of your La Rosa Zinfandel, Mataro, Riesling, Royal Tokay, and Royal Grape Brandy, has been duly received.

I have examined them for the common contaminants of wine; to wit: Sulphurous acid and sulphites, salicylic acid, fuchsin, lead salts, etc., none of which I found present therein.

I have also determined their alcoholic strength, extractives, and ashes, and found them to correspond strictly in this respect with the standard of pure and natural wines, which cannot be said of many of the imported wines.

As a native of a wine-producing country, I consider myself somewhat of a judge of wines, and regard your products as comparing more than favorably with most of the wines from abroad which are sold at higher prices, so much so that I enclose within my order for fifty bottles of La Rosa Zinfandel, which I expect to use hereafter exclusively at my table.

Very Respectfully,

L. WOLFF, M.D.,
Demonstrator of Chemistry, Jefferson Medical College.

GARDNER'S

SYRUP OF HYDRIODIC ACID,

Introduced in 1878 by R. W. GARDNER.

The Reputation which Hydriodic Acid has Attained During the past Eleven Years was Won by this Preparation.

Numerous Imitations prepared differently, and weaker in Iodine, are offered, from the use of which the same therapeutic effects cannot be obtained.

Caution.—Use no Syrup of Hydriodic Acid which has turned red. This shows decomposition and free Iodine. In this state it acts as an irritant and fails to produce desirable results.

Unprincipled apothecaries substitute imitations when Gardner's Syrup is prescribed, and physicians, failing to get desirable and promised results, attribute the fault, unjustly, to Gardner's Syrup.

THERAPEUTIC INDICATIONS.

Hay Fever; Rose Cold; Poisoning by Lead, Mercury or Arsenic; Acute and Chronic Rheumatism; Asthma; Chronic Bronchitis; Catarrh; Congestion of Lungs in Children; Adenitis; Eczema; Lupus; Chronic Malarial Poisoning; Lumbago; Acute Pneumonia; Psoriasis; Scrofulous Diseases; Goitre; Enlarged Glands; Cold Abscesses; Indolent Sores; Excessive Fat; Fatty Degeneration of the Heart; to absorb non-malignant Tumors; and in the latter stages of Syphilis; Syphilitic Phthisis.

Details of treatment furnished physicians upon application to undersigned without charge.

Gardner's Chemically Pure Syrups of Hypophosphites.

Embracing the separate Syrups of Lime, of Soda, of Iron, of Potassa, of Manganese, and an Elixir of the Quinia Salt; enabling physicians to accurately follow Dr. Churchill's method, by which thousands of authenticated cases of Phthisis have been cured. The only salts, however, used by Churchill in Phthisis are those of Lime, of Soda, and of Quinia, and always separately according to indications,—never combined.

The reason for the use of single Salts is because of antagonistic action of the different bases, injurious and pathological action of Iron, Potassa, Manganese, etc., in this disease.

These facts have been demonstrated by thirty years' clinical experience in the treatment of this disease exclusively, by Dr. Churchill, who was the first to apply these remedies in Medical practice. Modified doses are also required in this disease; seven grains during twenty-four hours being the maximum dose in cases of Phthisis, because of increased susceptibility of the patient to their action, the danger of producing toxic symptoms (as hemorrhage, rapid softening of tubercular deposit, etc.), and the necessity that time be allowed the various functions to recuperate simultaneously; over-stimulation, by pushing the remedy, resulting in crisis and disaster.

A pamphlet of sixty-four pages, devoted to a full explanation of these details and others, such as contra-indicated remedies, indications for the use of each hypophosphite, reasons for the use of absolutely pure Salts, protected in Syrup from oxidation, etc., mailed to physicians without charge upon application to

R. W. GARDNER, 158 William St., N. Y. City.

W. H. SCHIEFFELIN & CO., Sole Wholesale Agents, New York.

CELERINA

NERVE TONIC, STIMULANT AND ANTISPASMODIC.

FORMULA.—Every Fluid Drachm represents FIVE grains EACH—Celery, Coca, Kola, Viburnum and Aromatics.

INDICATIONS.—Loss of Nerve-Power (so usual with Lawyers, Preachers, Writers and Business Men), Impotency, Spermatorrhea, Nervous Headache, Neuralgia, Paralysis, Hysteria, Opium Habit, Inebriety, Dyspepsia, and ALL LANGUID conditions of the System.

Indispensable to restore a patient after alcoholic excess.

DOSE.—One or two Teaspoonfuls three or more times a day, as directed by the Physician.

LIQUID IRON-RIO

Palatable and easily assimilated. Does not produce Nausea, nor irritate the Stomach. Does not Cause Headache, nor Constipate. Does not Stain the Teeth. It is so Acceptable to the Stomach that its Use is Admissible when all other forms of Iron would be rejected. Being so Readily Assimilable, it only requires a small Dose.

Each Fluid Drachm contains ONE GRAIN of Iron in a Pleasant and Digestible Form.

DOSE.—One or more Teaspoonfuls as indicated, during or after meals.

S. H. KENNEDY'S

CONCENTRATED EXTRACT OF

PINUS CANADENSIS

DARK. A NON-ALCOHOLIC LIQUID. WHITE.

A MOST VALUABLE NON-IRRITATING MUCOUS ASTRINGENT.

INDICATIONS.—Albuminuria, Diarrhea, Dysentery, Night-Sweats, Hemorrhages, Profuse Expectoration, Catarrh, Sore Throat, Leucorrhea, and other Vaginal Diseases, Piles, Sores, Ulcers, Burns, Scalds, Gonorrhea, Gleet, Etc.

When Used as an Injection, to Avoid Staining of Linen, the WHITE Pinus should be used.

RECOMMENDED BY PROMINENT EUROPEAN AND AMERICAN PHYSICIANS.

RIO CHEMICAL CO., St. Louis, Mo., U. S. A.

LONDON. PARIS. CALCUTTA. MONTREAL.

BOUDAULT'S PEPSINE

The only Pepsine used in the Hospitals of Paris for the last Thirty Years.

Unlike the various substitutes which, in most cases, are but unscientific or incompatible compounds, forced upon the Medical Profession as aids to digestion by extensive advertising, but which, when submitted to the proper tests, are found to be useless as digestive agents, Pepsine is constantly gaining in the esteem of the careful practitioner.

Since the introduction of Pepsine by Boudault and Corvisart in 1854, the original BOUDAULT'S PEPSINE HAS BEEN AT ALL TIMES CONSIDERED THE BEST, as is attested by the awards it has received at the Expositions of 1867, 1868, 1873, in 1876 at the Centennial Exposition of Philadelphia, and in 1878 at the Paris Exposition.

The most reliable tests, carefully applied, will satisfy everyone that BOUDAULT'S PEPSINE HAS A MUCH HIGHER DIGESTIVE POWER than the best Pepsines now before the Profession, and is therefore especially worthy of their attention.

BOUDAULT'S PEPSINE is prepared in the form of Pepsine Acid and Pepsine Neutral. It is sold in bottles of one ounce, with a measure containing exactly five grains; also in bottles of four, eight, and sixteen ounces for dispensing.

BOUDAULT'S WINE OF PEPSINE

FORMULA OF DR. CORVISART.

The taste of Pepsine being perfectly disguised in this Wine, it may be recommended to persons who have difficulty in taking Pepsine in the form of Powder. This Wine is tested so that a tablespoonful of it is equal in digestive power to ten grains of Boudault's Pepsine in powder. Sold only in bottles of eight ounces.

TANRET'S PELLETIERINE

For the Treatment of Tape-Worm (Tænia Solium).

This New Tænifuge, the Active Alkaloid of Pomegranate Bark, has of late come into extensive use in France for the treatment of Tape-Worm (Tænia Solium). The results of numerous experiments with it at the Marine Hospitals of Toulon, St. Mandrier, etc., and in the Hospitals of Paris, St. Antoine, La Charité, Necker Beaujon, etc., have all been most satisfactory. Doctor Dujardin Beaumetz, Member of the Academy of Medicine, and Professor Laboulbene, in their report to the Society of Therapeutics, have given it their unqualified approval, after the most searching experiments. This preparation is pleasant to administer, and, if certain preliminaries are observed, success will be insured.

Sold only in bottles containing one dose.

DUCRO'S ALIMENTARY ELIXIR

A Combination uniting the properties of Alcoholic Stimulants and Raw Meat.

This preparation, which has been used with great success in the hospitals of Paris since 1868, is adapted to the treatment of all diseases requiring administration, in a small volume, of a tonic able to stimulate and support the vital forces, as *Pulmonar Phthisis, Depression and Nervous Debility, Adynamia, Malarious Cachexia, etc.*

Prepared by EMILE DURIEZ & CO., Successors to DUCRO & CIE, Paris.

KIRKWOOD'S INHALER

This is the only complete, reliable, and effective inhaler in use, arranged for the direct application of Muriate of Ammonia and other remedial agents in the state of vapor to the diseased parts of the air-passages in the treatment of catarrh and diseases of the throat and lungs. No heat or warm liquids required in its use.

It is entirely different from the various frail, cheap instruments that have been introduced.

KIRKWOOD'S INHALER is accompanied by testimonials of the highest professional character, together with carefully prepared formulas for use.

RETAIL PRICE, COMPLETE, $2.50.

DETROIT COLLEGE OF MEDICINE.

SESSION 1889-90.

Clinical and Practical teaching are made an important feature of this College. Clinical instruction is given daily at HARPER, ST. MARY'S and ST. LUKE'S HOSPITAL, at the COLLEGE, at COLLEGE EYE and EAR INFIRMARY, ST. MARY'S FREE EYE and EAR INFIRMARY, and at the three FREE DISPENSARIES. The facilities offered by this college are unsurpassed for the practical study of MEDICINE, SURGERY, OBSTETRICS, GYNÆCOLOGY, DISEASES OF CHILDREN, GENITO-URINARY, and ORTHOPÆDIC SURGERY, OPHTHALMOLOGY and OTOLOGY, DERMATOLOGY and LARYNGOLOGY.

REGULAR SESSION opens on Wednesday, Sept. 25, and continues six months. During the session, the Professors will take special pains to examine the Students upon the subjects of the previous lectures.

SPRING SESSION begins April 2d, 1890; and closes June 11th.

FEES.—Matriculation fee, $5; Fees for Regular Session, $50; Spring Session, $10, to those who attend the regular term—to all others, $25; Hospital Fee, $10; Graduation Fee, $30; Perpetual Ticket, $100.

For further particulars, and for College Circular, apply to

H. O. WALKER, M.D., Secretary,

33 Lafayette Ave., Detroit, Mich.

Philadelphia Polyclinic and College for Graduates in Medicine.

THE POLYCLINIC HOSPITAL: A School of Practical Medicine and Surgery
IN ALL THEIR BRANCHES.
FOR PHYSICIANS ONLY.

Individual Instruction, Clinical and Demonstrative, is given; the classes being limited in order to permit of *full personal attention to each pupil*, who is thus brought into direct contact both with patients and with instructors.

Laboratory Courses may be taken in *Clinical Chemistry, Operative Surgery, Bandaging and Fracture Dressing, Anatomy, Massage, Orthopædics, Electrotherapy, Dietetics, Experimental Physiology and Pharmacology, Bacteriology and Pathology.*

A Special Course in **Ophthalmology** includes *Didactic Instruction* in *Optical Theory.* **A Special Course** in **Dietetics** includes the study of *diet-cures* and *practical manipulations* in the *preparation* of predigested and other *foods of the sick.*

Fee for any one branch, $15.00; General Ticket for all Clinical branches, $100.00. Tickets good for regular clinics for six weeks from date of issue; or, for one clinic weekly for three months.

☞ In addition to the facilities of the College Dispensary and Hospital, the Professors utilize their services in the following large general and special Hospitals: PHILADELPHIA (Medical, Surgical, Neurological, Obstetric and Pædiatric, and Dermatological Wards and Clinics); WOMAN'S (Surgical); PENNSYLVANIA (Surgical, Eye); ORTHOPÆDIC and INFIRMARY for NERVOUS DISEASES; WILLS'S EYE; HOWARD (Skin); CHILDREN'S (Ear); JEWISH (Surgical, Medical); and ST. CLEMENT'S (Surgical).

For announcement and further information, address or apply to

WESTERN PENNSYLVANIA MEDICAL COLLEGE
CITY OF PITTSBURGH.
SESSIONS OF 1889—90.

The REGULAR SESSION begins on the last Tuesday of September, and continues six months. During this session, in addition to four Didactic Lectures, two or three hours are daily allotted to Clinical Instruction. Attendance upon two regular courses of lectures is requisite for graduation. A three years' graded course is also provided. The SPRING SESSION embraces recitations, clinical lectures and exercises, and didactic lectures on special subjects; this session begins the second Tuesday in April, and continues ten weeks.

The laboratories are open during the collegiate year for instruction in chemistry, microscopy, practical demonstrations in medical and surgical pathology, and lessons in normal histology. Special importance attaches to "the superior clinical advantages possessed by this College." For particulars, see annual announcement and catalogue, for which, address the Secretary of Faculty, Prof. J. W. J. McKENNAN.

R. C. M. PAGE, M. D., Professor of General Medicine and Diseases of the Chest; Physician to St. Elizabeth Hospital; Attending Physician to the Northwestern Dispensary, Department of Chest Diseases.

D. BRYSON DELAVAN, M. D., Professor of Laryngology and Rhinology; Laryngologist to the Demilt Dispensary.

JOSEPH WILLIAM GLEITSMANN, M. D., Professor of Laryngology and Rhinology; Laryngologist and Octologist to the German Dispensary.

OREN D. POMEROY, M. D., Professor of Otology; Surgeon Manhattan Eye and Ear Hospital; Ophthalmic Surgeon to New York Infants' Asylum, and Consulting Surgeon to the Paterson Eye and Ear Infirmary.

HENRY N. HEINEMAN, M. D., Professor of General Medicine and Diseases of the Chest; Attending Physician to Mt. Sinai Hospital.

B. SACHS, M.D., Professor of Diseases of the Mind and Nervous System; Consulting Neurologist to the Montefiore Home for Chronic Invalids.

THOMAS R. POOLEY, M.D., Professor of Ophthalmology; Surgeon-in-Chief of the New Amsterdam Eye and Ear Hospital; Ophthalmic Surgeon to the Sheltering Arms; Consulting Ophthalmologist to the St. Bartholomew's Hospital.

L. EMMETT HOLT, M.D., Professor of Diseases of Children; Visiting Physician to the New York Infant Asylum; Consulting Physician to the Hospital for Ruptured and Crippled.

AUGUST SEIBERT, M.D., Professor of Diseases of Children; Physician to the Children's Department of the German Dispensary.

H. MARION SIMS, M.D., Professor of Gynæcology, Gynæcologist to St. Elizabeth Hospital and New York Infant Asylum.

WILLIAM F. FLUHRER, M.D., Professor of Genito-Urinary Surgery; Surgeon to Bellevue and St. Sinai Hospitals.

HENRY C. COE, M. D., M. R. C. S. (Eng.), Professor of Gynecology; Attending Surgeon to New York Cancer Hospital; Assistant Surgeon to Woman's Hospital; Obstetric Surgeon to Maternity Hospital; Obstetrician to New York Infant Asylum; Gynecologist to Presbyterian Hospital, Out-door Department.

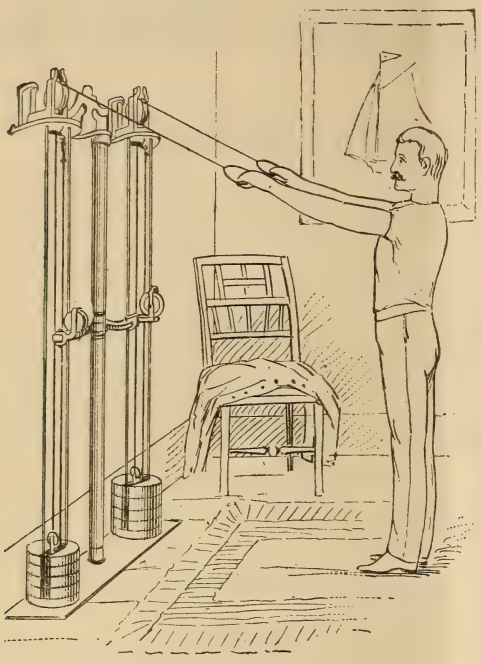
* Deceased.

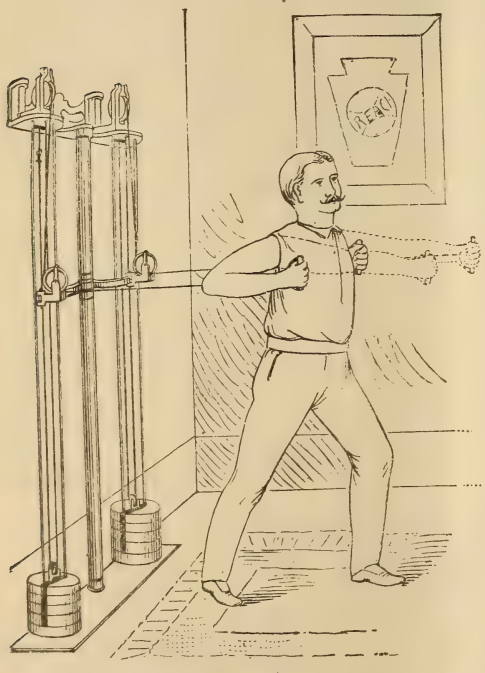
THE NEW YORK POLYCLINIC is a School of Clinical Medicine and Surgery for *Practitioners only.* **No didactic lectures are given** The classes are limited. The demonstrations are made at the Polyclinic School and Hospital, and in the various Hospitals in New York City with which the Faculty are connected.

Session of 1889-90 opens Monday, September 16th, 1889. For further information and for catalogue, address

JOHN A. WYETH, M. D.,
Secretary of the Faculty.

Or WILLIS O. DAVIS, Clerk,
214, 216 & 218 East 34th Street, New York City.





A. G. SPALDING & BROS.'

Gymnasium Department.

From this time henceforth the **Gymnasium** in all its important details will be a department in our business to which we shall devote especial attention.

With the addition to our own valuable patents, those of the **A. J. Reach Company**, of Philadelphia, recently purchased by us, enables us to claim the most **extensive department** of **Gymnasium Appliances in the world**.

We have been encouraged in this **important** movement by the constantly increasing demand from **Colleges, Seminaries,** and other **Educational** Institutions for Gymnasium Supplies, and henceforth we shall devote special attention to furnishing **plans, specifications,** and **estimates** to such and for **private residences** as well, and solicit correspondence with all contemplating the introduction of gymnastics for any purpose.

The Peerless Pulley Weight, illustration of which appears on this page, is a most perfect appliance for the development of the **chest** and **arms,** adjustable to the height of *any* person, and in weight from five to thirty pounds. For **man or woman** this is the peer of any method yet devised, especially for home use. Realizing the attention the **medical profession** and the **teacher,** are now giving to **healthful** exercise in **schools,** we solicit also their correspondence, and any orders, or business proceeding from such, will be gratefully received, and entitled to our best rates of discount, and will receive prompt and careful attention.

Visitors to our different establishments at **Chicago, New York,** and **Philadelphia** will always be welcome and politely served by the many efficient salesmen constantly in attendance.

A. G. SPALDING & BROS.,

CHICAGO, 108 Madison Street.
NEW YORK, 241 & 243 Broadway.
PHILADELPHIA, 1022 Market Street.
LONDON, ENGLAND, 38 Holborn Viaduct.

SAVE MONEY
IN BUYING BOOKS.

By special arrangement with the publishers we are able AT THIS TIME to offer to **OUR SUBSCRIBERS** certain valuable books at a very **LOW PRICE.**

This can be done only in connection with paid-up subscriptions.

FOR **$10.00** we will send the **REPORTER** for one year, **$5.00**
and **DICTIONARY OF PRACTICAL SURGERY.** By various British Hospital Surgeons. Edited by Christopher Heath, F. R. C. S. One volume, 8vo. Over 2,000 pages. Cloth, ... **$7.50**

"A most excellent book for the library of the surgeon, and especially for the country practitioner; as a book of reference it is so concise and at the same time so complete."—C. B. PORTER, M. D., Boston, Mass.
"As a means of ready reference for the student and busy practitioner this book stands unexcelled."—N. SENN, M. D.

FOR **$9.00** we will send the **REPORTER** for one year, **$5.00**
and **THOMAS'S MEDICAL DICTIONARY.** A complete Pronouncing Medical Dictionary. Embracing the Terminology of Medicine and the kindred Sciences, with their signification, etymology, and pronunciation. With an Appendix, comprising an explanation of the Latin terms and phrases occurring in Medicine, Anatomy, Pharmacy, etc., together with the necessary directions for writing Latin Prescriptions, etc., etc. By Joseph Thomas, M. D., LL.D. Imperial 8vo. 844 pages. Sheep, ... **$6.00**

"It is just the book for a medical or any other student, and it should be in the office of every physician. This dictionary supplies a place that has never been filled. I have looked it through and find all the new words that I have sought."—PROF. A. F. PATTON, College of Physicians and Surgeons, Boston, Mass.

Or, **TREATISE ON HUMAN ANATOMY, by JOSEPH LEIDY, M. D.,** Professor of Anatomy in the University of Pennsylvania, etc., etc. New (second) edition, rewritten and enlarged. Containing 495 illustrations. 8vo. Extra cloth, ... **$6.00**

"The student can master and retain a practical knowledge of anatomy in a shorter time and with less hard work from this text-book than from any other work extant, and it has been our privilege to teach anatomy for several years."—MEDICAL ADVANCE, Ann Arbor, Mich.

FOR **$6.50** we will send the **REPORTER** for one year, **$5.00**
VIRCHOW'S CELLULAR PATHOLOGY, as based upon Physiological and Pathological Histology. Twenty lectures delivered at the Pathological Institute of Berlin. Translated from the Second Edition by F. Chance, M. D. 134 illustrations. Eighth American Ed. Cloth, **$3.00**

Or, **DAY. DISEASES OF CHILDREN.** A practical and systematic treatise for practitioners and students. By Wm. H. Day, M. D. Second edition. Rewritten and very much enlarged. 8vo. 752 pages. Price, Cloth, ... **$3.00**

Or, **HARLEY. DISEASES OF THE LIVER,** with or without Jaundice. Diagnosis and Treatment. By George Harley, M. D. With colored plates and numerous illustrations. 8vo. Price, Cloth, ... **$3.00**

FOR **$6.00** we will send the **REPORTER** for one year, **$5.00**
and any two of the following books:

1.—THE NURSING AND CARE OF THE NERVOUS AND THE INSANE. By Chas. K. Mills, M. D., . . . **$1.00**

2.—MATERNITY; INFANCY; CHILDHOOD. By John M. Keating, M. D., **$1.00**

3.—OUTLINES FOR THE MANAGEMENT OF DIET; or, The Regulation of Food to the Requirements of Health and the Treatment of Disease. By E. T. Bruen, M. D., **$1.00**

4.—FEVER NURSING. Designed for the use of professional and other Nurses. By J. C. Wilson, A. M., M. D., ... **$1.00**

5.—DISEASES AND INJURIES OF THE EAR: Their Prevention and Cure. By Chas. H. Burnett, A. M., M. D., ... **$1.00**

Or, **FOR $6.00,** any one of the above Nursing Books and **THOMSON'S (Sir Henry) SURGERY OF THE URINARY ORGANS.** Some important points connected with the Surgery of the Urinary Organs. Illustrated. Cloth, ... **$1.25**

The only prominent Emulsion of Cod-Liver Oil introduced directly to the medical profession. It is advertised exclusively in medical journals.

HYDROLEINE.

(HYDRATED OIL.)

Produces rapid increase in Flesh and Strength.

FORMULA.—Each Dose contains:			
Pure Cod Liver Oil.....80 m. (drops)		Soda.....1-3 Grains.	
Distilled Water.....35 "		Salicylic Acid.....1-4 "	
Soluble Pancreatin..... 5 Grains.		Hyocholic Acid.....1-20 "	

Recommended and Prescribed by EMINENT PHYSICIANS Everywhere. It is pleasant to the Taste and acceptable to the most delicate Stomach.

IT IS ECONOMICAL IN USE AND CERTAIN IN RESULTS.

HYDROLEINE (Hydrated Oil) is not a simple alkaline emulsion of oleum morrhuæ, but a hydro-pancreated preparation, containing acids and a small percentage of soda. Pancreatin is the digestive principle of fatty foods, and in the soluble form here used, readily converts the oleaginous material into assimilable matter, a change so necessary to the reparative process in all wasting diseases.

The following are some of the diseases in which HYDROLEINE is indicated:

Phthisis, Tuberculosis, Catarrh, Cough, Scrofula, Chlorosis, General Debility, etc.

TO BRAIN WORKERS of all classes, **HYDROLEINE** is invaluable,-supplying as it does, the true brain-food, and being more easily assimilated by the digestive organs than any other emulsion.

The principles upon which this discovery is based have been described in a treatise on "The Digestion and Assimilation of Fats in the Human Body," and "Consumption and Wasting Diseases," by two distinguished London physicians, which will be sent free on application.

SOLD BY DRUGGISTS GENERALLY.

C. N. CRITTENTON,

SOLE AGENT FOR THE UNITED STATES. **115 FULTON STREET, N. Y.**

A Sample of Hydroleine will be sent free upon application, to any physician (enclosing business card) in the U. S.

P. O. Box 843, Philadelphia.

Peptonized Cod Liver Oil and Milk.

THE PERFECTION OF ALL COD LIVER OIL PREPARATIONS.

It is more easily digested and assimilated, and more nutritious than any product of Cod Liver Oil in the market.

It is partially predigested, and is, therefore, more easily retained by weak and enfeebled stomachs, and eructations are less likely to follow.

It contains 50 per cent. of pure Norwegian Cod Liver Oil. The remaining percentage is composed of Milk, and an emulsion formed with Irish Moss. No gums are used in its manufacture.

It mixes readily with water, and makes a pleasant drink.

If any Physician has a patient who cannot take and retain Cod Liver Oil in any form, send to us for sample of PEPTONIZED COD LIVER OIL and MILK.

Cod Liver Oil and Milk is put up plain, and also combined with Hypophosphites. Each tablespoonful containing 2 grs. each Hypophosphites of Lime and Soda.

REED & CARNRICK, NEW YORK.

TO SUBSCRIBERS.

SUBSCRIBERS WHO HAVE NOT yet sent payment for the current year will oblige the publisher by remitting soon. This leaf, or the lower half of it, may be *detached and forwarded* with money enclosed.

We claim for our Hypodermic Tablets:

Absolute Accuracy of Dose.
Ready and Entire Solubility.
Perfect Preservation of the Drug.

Their convenience and utility will at once be apparent on examination.

They are put up in Cylindrical Tubes, convenient for carrying in Hypodermic or Pocket case, ten tubes in a box, with twenty tablets in each tube.

NOTE.—It will only be necessary in ordering to specify the numbers, as above. Wyeth's Manufacture. These Tablets will be sent by mail, on receipt of the proper amount.

PHILADELPHIA, PA.

Doctor :

Did you ever think of the extremely important part which the Hypophosphites of Lime and Soda play in the process of animal nutrition ?

There is absolutely no complete life without them.

They enter into the composition of muscle, bone, cartilage, connective tissue, nerve tissue, and, in fact, every important tissue of the human body. Besides this, the soda salt takes the lactic acid, which is such a constant product of faulty assimilation, and breaks it up into carbonic acid gas and water, in which forms it is at once harmless and is readily discharged from the system.

When the entire system is in a healthy condition, with every organ working properly, and supplied with the proper variety of food, they are found in sufficient quantities at all times. But when the organs of digestion and assimilation get out of order, or foci of inflammation are established in various parts of the body, causing rapid destruction of tissue, they cannot then be supplied naturally in due proportion, and hence must be artificially supplied, or the system suffers and the disease progresses to its fatal termination.

In McArthur's Syrup you will find the most agreeable and reliable means of artificially supplying these important elements.

It increases the appetite, giving tone and a feeling of buoyancy and vigor to the entire system. The flesh increases and becomes firm, the cheeks take on the hue of health, and the patient feels completely restored.

The diseases in which these results are produced are consumption and all Chronic Diseases of the Throat and Lungs, Scrofula, the various forms of Nervous and Mental Debility, and Perversions of Nutrition, as Fibroids, &c.

Send for a valuable treatise on "The Curability and Treatment of Consumption," and a sample bottle of McArthur's Syrup, free, if you will pay express charges.

McARTHUR HYPOPHOSPHITE CO.,
BOSTON, MASS.

TO THE MEDICAL PROFESSION.

SPECIAL MENTION.

In offering these special preparations, there is no attempt made to "prescribe for the physician," but simply to place within his reach elegant and palatable combinations of known value, such as local pharmacists ordinarily have not the means of preparing.

Among our leading specialties we take pleasure in mentioning the following:

ALKALINE ELIXIR RHUBARB CO. AND PANCREATIN.

A combination of E. I. Rhubarb and Potass. Bicarbonate, āā 20 grs., Pancreatin, 16 grs., and Fluid Hydrastis, 10 ♏ to the fluid ounce. This is unequalled as an antacid, carminative, stomachic and digestive. It is very valuable in cholera infantum, infantile colics, dyspepsia and all abnormally acid conditions of the alimentary tract. Dose ½ to 4 teaspoonfuls every 1 to 4 hours, according to case and age.

ESSENCE OF PEPSIN (FLUID PEPSIN).

A direct solution of all the soluble constituents of the peptic glands of the pig's stomach, unchanged by chemical action or manipulation.

It is without bad odor or taste, and represents, in each fluid drachm, the digestive power of at least 20 grs. U. S. P. Sacch. Pepsin.

Readily used as a basis to which may be added Ammonio Cit. Bismuth, Strychnia, etc., as indicated.

This preparation is rapidly assuming its proper position *at the very front* of all preparations of pepsin.

NUTRITIVE HYPOPHOSPHITES.

A combination of the well-known formula of the hypophosphites of Lime, Soda, Iron, Potass., Quin., Strychnine and Manganese, with a vehicle of glycerine and cane-sugar syrup instead of glucose. More palatable, more permanent, and less likely to disturb the stomach. It is sold as a legitimate pharmaceutical preparation at legitimate prices, and is unequalled in elegance and efficacy by any similar preparation.

Specify Nutritive Hypophos.: Merrell.

ELIXIR PINUS COMPOSITUS.

Considered by those who have used it as the most valuable routine expectorant in the market. It is unlike the many syrups, etc., under similar names, and the difference will be readily appreciated when tried. Formula supplied to the profession.

EXTRACT TRIFOLIUM COMPOUND.

From the well-known and approved prescription of Dr. E. F. Rush, prepared in a concentrated form, one bottle will make 3 pints Syr. Trifolium comp'd. By its use a stronger or weaker syrup may be prepared as indicated. Formula furnished.

"Merrell Co.'s" "Green Drug," Fluid Extracts, True Salicylic Acid, Salts of Hydrastis, Fluid Hydrastis and Specialties may be obtained of wholesale druggists throughout the United States, at the Home Office at Cincinnati, or the New York Office, 96 Maiden Lane, New York City, Smith, Kline & Co., Philadelphia. Prices current and printed matter cheerfully supplied.

THE WM. S. MERRELL CHEMICAL CO.,

CINCINNATI AND NEW YORK.

PIL. PHENACETINE ET SALOL, 5 GRS., "W. H. S. & CO."

{Phenacetine-Bayer, ... 2½ grs.
{Salol, ... 2½ grs.

Anti-Rheumatic and Analgesic. This combination was first suggested by Dr. M. F. Price, Colton, Cal., President of the "Southern California Medical Society." In an address to the members he says: "In a case of acute Rheumatism, affecting elbows, wrists, knees, and ankles, ordered Phanacetine and Salol every three hours. No local application ordered. Made five daily visits, found the patient each day improved, discharged with orders to continue the medicine three times a day for a week."

After citing other cases, one of Sciatica where the patient was suffering such pain that the slightest motion caused faintness with nausea and continuous vomiting; two with acute Rheumatism, and one with Neuralgia of the stomach, Dr. Price continues:

"It will be observed that in some of these cases I have combined Salol with Phanacetine. I did this on the principle of the well-known effect of Salicylic Acid in Rheumatism, but I rely on the Phenacetine for the relief of the pain, and in this way perhaps the cure of the disease causing it." (*Southern California Practitioner*, August, 1889.)

PIL. TERPIN HYDRAT., 2 GRS., "W. H. S. & CO.,"

A new and potent remedy in the treatment of coughs, catarrh, bronchitis, and kindred diseases.

Terpin Hydrate is indicated in cases where violent irritation of the bronchial mucous membrane exists, and where the secretion is inconsiderable and peculiarly viscid, such as is met with in the chronic catarrh accompanying emphysema and phthisis. The effect obtained is always an increase and a liquefaction of the secretion, a considerable reduction of the irritation, and easy expectoration.

SOLUBLE PILLS.

Advanced pharmacy has, of late years, bestowed much attention upon eliminating the objectionable features which pertained to Pills, but it is only since their manufacture has been undertaken in wholesale quantities by responsible and capable parties that they have been produced in their present excellent quality.

The conditions of a perfect Pill are:

1st. *Ingredients of the finest quality.*
2d. *All materials weighed with scrupulous exactness.*
3d. *The mass sufficiently consistent to maintain the globular form, and yet readily soluble in the stomach.*
4th. *A coating which will preserve the mass in good condition, cover all offensive smell or taste, and facilitate deglutition.*

The continued favor which has been shown to our **Soluble Pills** is sufficient evidence that care has been bestowed upon their manufacture.

As for the purity of the drugs entering into their composition, and the presence in full and exact quantity of every article required by the formula in each case, we can only give our assurance that no deviation from correctness in any particular is, or ever has been, permitted in their manufacture; and they invite the most critical examination and test, either of analysis or of therapeutic effect.

They possess the advantage of a perfect coating, which is neither hard, bulky, opaque, nor insuluble, but elastic, thin, transparent, and readily soluble.

For further information about them we refer to our formula books and price lists, which we shall be happy to furnish upon application.

A Phosphorized Cerebro-Spinant

(FRELIGH'S TONIC).

FORMULA.

Ten minims of the Tonic contain the equivalents (according to the formulæ of the U. S. P., and Dispensatory) of

Tinct. Nux Strychnos,	1 minim.
" Ignatia Amara,	1 "
" Cinchona,	4 "
" Matricaria,	1 "
" Gentian,	½ "
" Columbo,	½ "
" Phosphorus, C. P.,	1-300 gr.
Aromatics,	2 minims.

Dose: 5 to 10 drops in 2 tablespoonfuls of water.

INDICATIONS.

Paralysis, Neurasthenia, Sick and Nervous Headache, Dyspepsia, Epilepsy, Locomotor Ataxia, Insomnia, Debility of Old Age, and in the Treatment of Mental and Nervous Diseases.

A BALTIMORE PHYSICIAN, WHOSE DIPLOMA DATES FROM 1825, SAYS:

"Your combination I find vastly more effective than any tonic I have ever used. It furnishes a most powerful evidence of the vastly increased power of medicament by combination and judicious pharmaceutic preparation."

Price, One Dollar per Bottle, containing 100 of the Average 5-Drop Doses.—Physicians' single sample delivered, charges prepaid, on application. That every physician may be his own judge of its value, irrespective of the opinions of others, we make the following

SPECIAL OFFER:

We will send to any physician, delivered, charges prepaid, on receipt of twenty-five cents, and his card or letter-head, half a dozen physicians' samples, sufficient to test it on as many cases for a week to ten days each. The Tonic is kept in stock regularly by all the leading wholesale druggists of the country. As we furnish no samples through the trade, wholesale or retail, for samples, directions, price-lists, etc., address,

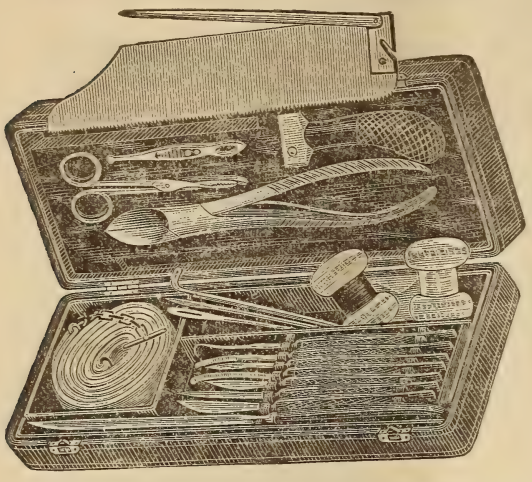
No. 88 Maiden Lane, New York City.

LENTZ'S ASEPTIC COMPACT OPERATING SET, No. 10.



We have from time to time made improvements to this set and are now making a perfect aseptic set, which offers especial facilities for aseptic precautions; the blades are soldered into hollow German-silver handles, nickel-plated, are light so as not to be unwieldy and admit of a firm grasp when operating.

The saw is adjusted to the handle on an entirely new principle, being made to separate easily and to facilitate thorough cleansing.

The handle is entirely of metal and fenestrated to overcome unnecessary weight.

Scissors and Forceps having French locks can be separated, and the slide can be easily removed from Artery and Needle Forceps.

Therefore, no opportunity is offered for the lodgment and development of germs.

The entire set is patterned with especial reference to facility in cleansing.

The instruments can be sterilized by placing them in boiling water, without fear of damaging them. Wood or rubber handles will not admit of this procedure. For price, see case A.

The following instruments are put up in either a fine Mahogany or Morocco case, with nickel trimmings, lined with velvet, and has an extra space for Trephine with handle, and Elevator if desired.

One Amputating Knife (6 in. blade); One Finger Knife; One Hernia Knife; One Sharp Curved Bistoury; Two Scalpels; One Tenotome; One Tenaculum; One Pair Scissors, curved or flat; One Saw (9 in. blade); One Liston's Bone Forceps, with Spring; One Artery and Needle Forceps, improved; One Esmarch's Flat Rubber Tourniquet, with Chain; One Hæmostatic Forceps; One Director, with Aneurism Needle; Two Silver Probes; Silk, Wire, Wax and Needles.

With the Sixteen Instruments Contained in this Case, any Ordinary Operation may be Performed.

SIZE, 11 INCHES LONG, 4 INCHES WIDE, 2 INCHES HIGH.

ANTIFEBRIN IN INFLUENZA!

This use of this Renowned ANTIPYRETIC, ANODYNE, SEDATIVE and NERVINE seems suggested by the following Judgments passed on it by Reputed Authorities in Symptomatically *Allied Complaints:*—

As an **Antifebrile** Dose:—2 to 4 grains *single;* 16 to 32 grains *daily.*—(WEINSTEIN, Vienna.)

As an **Anodyne** and **Nervine** Dose in severest Neurotic and Secondary Pains:—8 to 16 grains, *one to four times per day.*—(DEMIEVILLE, Lausanne.)

Mode of Administration:

"Even the *initial dose* gave evident relief; commonly within half an hour. If this did not suffice to break up the symptoms materially, a second dose followed in an hour or two; at the very utmost a third one was given the same day.

"The remedy was effective and well tolerated at all times; at all hours of the day; on an empty or a full stomach; even during menstruation.

"The form of exhibition was that of *powders*, wrapped in *wafers*. The readier solubility of the Antifebrin in Alcohol indicates the advisability of following the dose by a small draught of Wine or Brandy."—(OTT, Prague.)

ANOTHER MODE OF ADMINISTRATION:—*Dissolve* your Dose (4 to 12 grains) of **ANTIFEBRIN** in ½–1 ounce (1 to 2 Tablespoonfuls) of *Boiling Water*,—stirring for a minute or two, until dissolved. Allow the Solution *to cool down* to about 104 degrees F. (being just comfortably warm) and sweeten to taste, *Before Taking!*—NO ALCOHOL, WINE, or LIQUOR needed with it when thus prepared.

ANTIFEBRIN

was found **Superior** to the **Following** Remedies in **Efficacy**, or in **Safety**, or in **Both**:—

Antipyrine,—*Quinine*,—*Morphine*,—*Opium*,—CHLORAL HYDRATE—ACONITE,—CAFFEINE,—KAIRINE,—*Salicylic Acid*,—CARBOLIC ACID,—*Bromides*,—IODIDES.

Among the Medical Authorities from whose Clinical and other Published Reports the above-stated PREFERENCES OF ANTIFEBRIN OVER OTHER REMEDIES have been drawn, are the following:

HARE, University of Pennsylvania;—DUJARDIN-BEAUMETZ, Paris;—HERCZEL, Heidelberg;—MURRAY, *Brit. Med. Journal;*—PAVAIVAJNA, *Centralblatt für die gesammte Therapie;*—BARR, Bridgeport, Ill.;—KELL, Delphos, O.;—HAY, New York;—HAAS, Prague.

Antifebrin was also *found to be:*

"Thoroughly *reliable* as an ANTIPYRETIC."—(DEMME, Berne.)

"*Not only* powerfully ANTITHERMIC, but also a most *useful* NERVINE."—(LEPINE, Lyons.)

"A *powerful, safe*, and *certain* ANTITHERMIC agent."—(EVANS, Easton, Pa.)

"*Complete* ANALGETIC effect in nine cases out of every ten."—(FISCHER, Cannstatt.)

RABUTEAU'S DRAGEES OF IRON

Laureate of the Institute of France.—Prize in Therapeutics.

The studies made by the Physicians of the Hospitals have demonstrated that the **Genuine Dragees of Iron of Rabuteau** are superior to all other preparations of Iron in cases of *Chlorosis, Anæmia, Leucorrhœa, Debility, Exhaustion, Convalescence, Weakness of Children*, and the maladies caused by the Impoverishment and Alteration of the blood after periods of fatigue, watching, and excesses of any kind.

TAKE 4 TO 6 DRAGEES DAILY.

Rabuteau's Elixir of Iron is recommended to those persons who may be unable to swallow the Dragees. Dose —*A small wineglassful with meals.*

Rabuteau's Syrup of Iron is specially designed for children. Chalybeate medication, by means of **Rabuteau's Iron,** is the most economical and the most rational known to therapeutics.

No constipation, no diarrhœa, complete assimilation.

Take only the GENUINE IRON OF RABUTEAU of

CLIN & CO., Paris.

SOLUTION OF THE SALICYLATE OF SODA OF DOCTOR CLIN.

Laureate of the Paris Faculty of Medicine (MONTYON PRIZE).

Dr. Clin's Solution, always identical in its composition, and of an agreeable taste, permits the easy administration of *pure Salicylate of Soda,* and the variation of the dose in accordance with the indications presented.

"The *Salicylate of Soda* used by **Clin** is of perfect purity, "and is prepared with the greatest care; it is a medicament "in which we may have every confidence."

—*Paris Society of Medicine, Meeting of Feb. 8th, 1879.*

Clin's Solution, very exactly mixed, contains: 2 grammes of *Salicylate of Soda* per tablespoonful, 50 centigrammes of *Salicylate of Soda* per teaspoonful.

Paris—CLIN & CO.—Paris

CLIN & CO.,—Paris.

GRAND NATIONAL PRIZE OF 16,600 FRANCS,

QUINA-LAROCHE

This meritorious **Elixir, QUINA-LAROCHE,** is prepared from the **three** Cinchonas; it is an agreeable and doubtless highly efficacious remedy.

—*The Lancet.*

VINOUS ELIXIR,

A STIMULATING RESTORATIVE

—AND—

ANTI-FEBRILE TONIC.

QUINA-LAROCHE under the form of a vinous **Elixir** contains the totality of the numerous principles of the **three** Cinchona barks. It is a preparation which renders great services to Therapeutics.—Extract of the *Gazette des Hôpitaux,* Paris.

FAR SUPERIOR TO ALL ORDINARY CINCHONA WINES.

LAROCHE'S QUINA, tried by the Academy of Medicine of Paris, is a specially prepared COMPOUND EXTRACT of Quinquina, a careful analysis, confirmed by experience, has shown that most of the wines and syrups hitherto used have not contained all the properties of this precious bark, of these some, although beneficial, are altogether lost, while many preparations contain but half the properties of the bark in varying proportions.

MR. LAROCHE, by his peculiar method, has succeeded in extracting all the active principles of the quinquina, combining these with *Catalan Wine* forming an Elixir free from the disagreeable bitterness of other similar preparations. Practitioners have found triple advantages in the use of this Elixir, it is a *strong tonic,* is easily administered, and perfectly harmless, being free from the unpleasant effects of Quinine.

THE FERRUGINOUS QUINA-LAROCHE is the invigorating tonic *par excellence,* having the advantage of being easily assimilated by the gastric juice; without, in any way, deranging the action of the digestive organs, proving itself to be a most efficacious remedy in cases of impoverishment of the blood, ANÆMIA, CHLOROSIS, INTESTINAL HÆMORRHAGE, CASTRALGIA, EXHAUSTION, ETC., ETC.

PARIS.—22 RUE DROUOT.—PARIS.

It cleanses well, affords a fine lather; its employment is really delightful.

25 CENTS. DRUGGISTS.

BROMIDIA

THE HYPNOTIC.

FORMULA.—

Every fluid drachm contains 15 grains EACH of Pure Chloral Hydrat. and purified Brom. Pot., and one-eighth grain EACH of gen. imp. ext. Cannabis Ind. and Hyoscyam.

DOSE.—

One-half to one fluid drachm in WATER or SYRUP every hour, until sleep is produced.

INDICATIONS.—

Sleeplessness, Nervousness, Neuralgia, Headache, Convulsions, Colic, Mania, Epilepsy, Irritability, etc. In the restlessness and delirium of fevers it is absolutely invaluable.

IT DOES NOT LOCK UP THE SECRETIONS.

PAPINE

THE ANODYNE.

Papine is the Anodyne or pain-relieving principle of Opium, the Narcotic and Convulsive Elements being eliminated. It has less tendency to cause Nausea, Vomiting, Constipation, Etc.

INDICATIONS.—

Same as Opium or Morphia.

DOSE.—

(ONE FLUID DRACHM)—represents the Anodyne principle of one-eighth grain of Morphia.

IODIA

The Alterative and Uterine Tonic.

FORMULA.—

Iodia is a combination of active principles obtained from the Green Roots of Stillingia, Helonias, Saxifraga, Menispermum, and Aromatics. Each fluid drachm also contains five grains Iod. Potas., and three grains Phos. Iron.

DOSE.—

One or two fluid drachms (more or less as indicated) three times a day before meals.

INDICATIONS.—

Syphilitic, Scrofulous and Cutaneous Diseases, Dysmenorrhea, Menorrhagia, Leucorrhea, Amenorrhea, Impaired Vitality, Habitual Abortions, and General Uterine Debility.

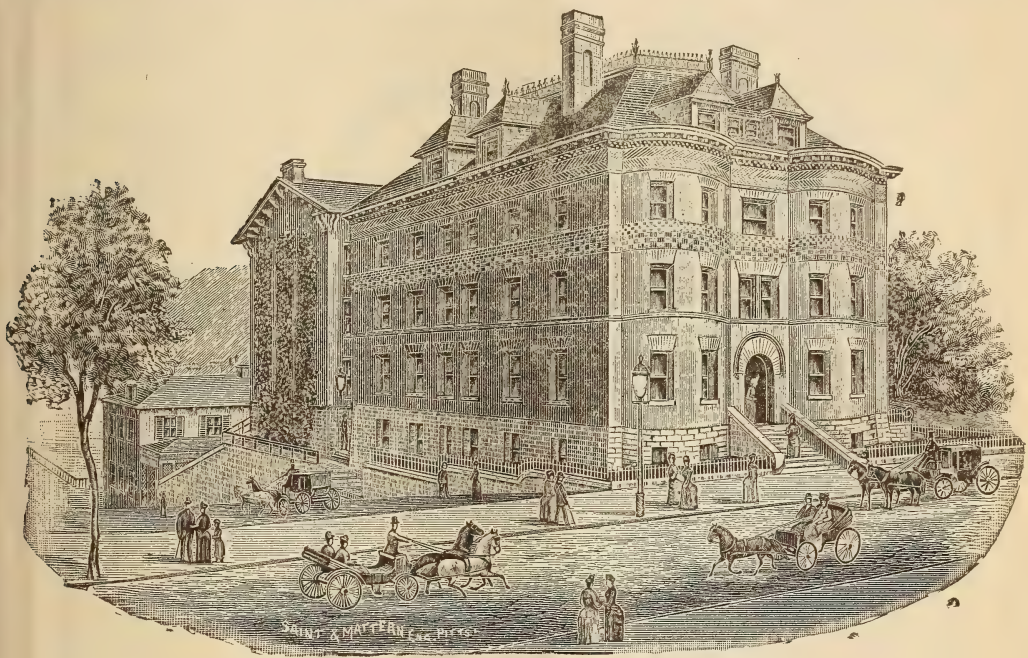
DR. R. S. SUTTON'S

Sanatorium for Diseases of Women.



Seventh Year Opens September 1, 1889.

ALLEGHENY CITY, PA.

This Institution is located on high ground, and overlooks the Allegheny, Monongahela and Ohio rivers; it commands a view of the city of Pittsburgh, and its picturesque surroundings. The building is large and beautiful, it is provided with every modern convenience, the halls are heated by steam, the rooms are commodious, well lighted and ventilated, and heated by open grates. The house is provided with a private parlor and reading-room for patients. The dining-room is large, handsomely finished, and furnished with small tables, securing privacy at meals for those who do not care to have meals served in their own rooms. Patients can be as secluded, should they desire it, as in a well appointed hotel. Each patient is examined by Dr. Sutton, and receives his daily personal attention, while Dr. J. H. Williamson, a physician of ample hospital experience, resides in the Institution, and has, under Dr. Sutton, the immediate care of the patients. The Institution accommodates 25 patients, and is equal in comfort to the best hotels.

Electricity, baths, douches, massage, local treatment, general medication and surgical operations are resorted to according to the requirements of each patient.

For further information address the Matron

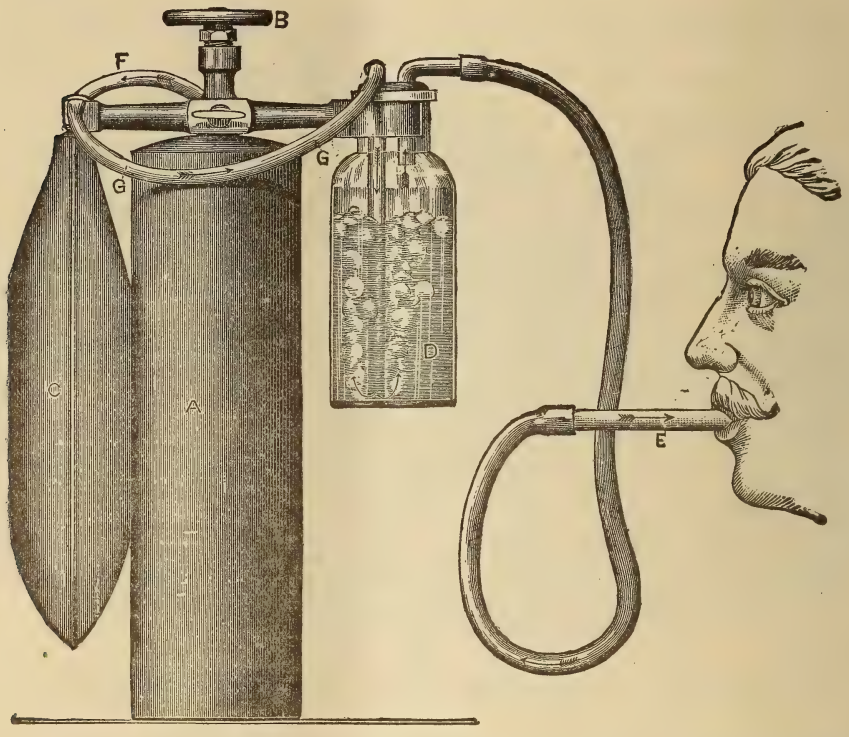
INHALATION APPARATUS

FOR

THE THERAPEUTIC ADMINISTRATION OF OXYGEN.



In the treatment of lung troubles by Oxygen its exhibition by inhalation is preferred. The apparatus herewith shown is a modification of the Nitrous Oxide apparatus which we have supplied for many years. It is made in the best manner throughout, and is the outcome of years of experience in the manufacture of gas apparatus. It will be found to meet all the requirements.

We supply the gas in two sizes of cylinders, containing respectively forty and one hundred gallons, either pure Oxygen, or a mixture of Oxygen and Nitrous Oxide in definite proportions of 20 per cent., and forty per cent. of Nitrous Oxide.

Whether pure or mixed the gas is sold at the uniform price of 5 cents a gallon. The cost of the cylinders will be refunded on their return empty with the valves in good condition. Full description of Inhalation and Enema apparatuses with directions for use accompany each apparatus, or will be supplied on application.

PRICES.

Inhalation Apparatus	$5.00
Cylinder, 40 gallons' capacity	6.00
40 gallons Gas, either pure Oxygen or mixed Oxygen and Nitrous Oxide	2.00
Complete Apparatus, Cylinder, and 40 gallons Gas	$13.00
Inhalation Apparatus	$5.00
Cylinder, 100 gallons' capacity	15.00
100 gallons Gas, either pure or mixed	5.00
Complete Apparatus, Cylinder, and 100 gallons Gas	$25.00

THE BEST ANTISEPTIC
FOR BOTH INTERNAL AND EXTERNAL USE.

ANTISEPTIC, PROPHYLACTIC, DEODORANT.

LISTERINE

NON-TOXIC, NON-IRRITANT, NON-ESCHAROTIC.

FORMULA—Listerine is the essential antiseptic constituent of Thyme, Eucalyptus, Baptisia, Gaultheria and Mentha Arvensis, in combination. Each fluid drachm also contains two grains of refined and purified Benzo-boracic Acid.

DOSE—Internally: One teaspoonful three or more times a day (as indicated) either full strength, or diluted, as necessary for varied conditions.

LISTERINE is a well-proven antiseptic agent—an antizymotic—especially adapted to internal use, and to make and maintain surgical cleanliness—asepsis—in the treatment of all parts of the human body, whether by spray, irrigation, atomization, or simple local application, and therefore characterized by its particular adaptability to the field of

PREVENTIVE MEDICINE—INDIVIDUAL PROPHYLAXIS.

Diseases of the Uric Acid Diathesis.

LAMBERT'S
LITHIATED HYDRANGEA
KIDNEY ALTERATIVE—ANTI-LITHIC.

FORMULA—Each fluid drachm of "Lithiated Hydrangea" represents thirty grains of FRESH HYDRANGEA and three grains of CHEMICALLY PURE Benzo-Salicylate of Lithia. Prepared by our improved process of osmosis, it is INVARIABLY of DEFINITE and UNIFORM therapeutic strength, and hence can be depended upon in clinical practice.

DOSE—One or two teaspoonfuls four times a day (preferably between meals).

Urinary Calculus, Gout, Rheumatism, Bright's Disease, Diabetes, Cystitis, Hæmaturia Albuminuria, and Vesical irritations generally.

We have much valuable literature upon { GENERAL ANTISEPTIC TREATMENT, LITHEMIA, DIABETES, CYSTITIS, ETC. } To forward to Physicians upon request:

LAMBERT PHARMACAL CO., ST. LOUIS, MO.

★—GENOIS'—★

Diastasic Extract of Malt,

A PURE LIQUID EXTRACT OF MALT.

CONTAINING at least 12 per cent. of extractive matter, rich in nitrogenous principles, and less than 4 per cent. of alcohol for its preservation. It is recommended for the treatment of dyspepsia, defective nutrition, flatulence, etc., as well as for a tonic. It is also recommended to persons suffering from insomnia. Its sedative and soporific action is gentle and gradual. Generally prescribed by physicians. It is now the standard malt in the market. Over 300 gross sold in Philadelphia last year. Obtainable from the retail drug trade.

Sole Wholesale Agents,

1001, 1003, and 1005 Market Street, Philadelphia.

PARIS MEDAL

TO

WILLIAM R. WARNER & CO.

W. R. WARNER & CO have received a Silver Medal at the Paris World's Fair, being the highest of its kind, in recognition of the following claims:

First.—W. R. Warner & Co.'s Pills, quick solubility and accuracy.

Second—Reliability and permanency unsurpassed. Also for Warner & Co 's Effervescent Salts.

First—Superior effervescing properties.

Second.—General elegance, excellence, and stability.

PHYSICIANS SHOULD BE CAREFUL TO SPECIFY WARNER & CO.

☞The coating of the following pill will dissolve in 4½ minutes.☜

PIL: CHALYBEATE COMP.

(WARNER & CO.)

Nux Vomica is added as an ingredient to Pill Chalybeate to increase the tonic effect when desired.

Composition of each Pill.—℞ (Chalybeate Mass.), Carb. Protoxide of Iron, gr. 2½. Ext. Nuc. Vom. gr. 1-6.

DOSE—1 to 3 Pills.

Most advantageously employed in the treatment of Anæmia, Chlorosis, Phthisis, Scrofula, Loss of Appetite, etc.

PIL: ANTISEPTIC.

Each Pill contains: Sulphite Soda, 1 gr. Salicylic Acid, 1 gr. Ext. Nuc. Vomica, ¼ gr.

DOSE—1 to 3 Pills.

Pil. Antiseptic is prescribed with great advantage in cases of Dyspepsia attended with acid stomach and enfeebled digestion following excessive indulgence in eating or drinking. It is used with advantage in Rheumatism.

Prepared by WM. R. WARNER & CO.

PIL: ANTISEPTIC COMP.

(WARNER & CO.)

Each pill contains: Sulphite Soda, 1 gr. Salicylic Acid, 1 gr. Ext. Nuc. Vomica, ⅛ gr. Powd. Capsicum, 1-10 gr. Conc't Pepsin, 1 gr.

DOSE—1 to 3 Pills.

Pil. Antiseptic Comp. are prescribed with great advantage in cases of Dyspepsia, Indigestion, and Malassimilation of Food.

Supplied upon physician's prescription by all leading druggists. Take no substitute.

1228 MARKET ST., Phila. 18 LIBERTY ST., New York.

The Acutely Ill.

When a patient is acutely ill, the digestive powers share in the general condition, and consequently the food supplied should be of the most easily assimilable character. The predigestion of starchy matters outside the body, as in MELLIN'S FOOD, is necessary, and the soluble carbohydrates of which this food consists, soluble because predigested, form the true food of the acutely ill.—J. MILNER FOTHERGILL, M.D., Edin.

A sample of MELLIN'S FOOD *will be sent to any physician, free of expense, upon application.*

Doliber-Goodale Co., Boston, Mass.

Apollinaris

"THE QUEEN OF TABLE WATERS."

The filling at the Apollinaris Spring (Rhenish Prussia), amounted to

11,894,000 BOTTLES IN **1887,**
12,720,000 BOTTLES IN **1888** AND
15,822,000 BOTTLES IN **1889.**

"The annual consumption of this favorite beverage affords a striking proof of the widespread demand which exists for table water of absolute purity, and it is satisfactory to find that, wherever one travels, in either hemisphere, it is to be met with; it is ubiquitous, and should be known as the cosmopolitan table water. 'Quod ab omnibus, quod ubique.'"—BRITISH MEDICAL JOURNAL.

THE BEST NATURAL APERIENT.

THE APOLLINARIS COMPANY, LIMITED, London, beg to announce that, as numerous APERIENT WATERS are offered to the public under names of which the word "Hunyadi" forms part, they have now adopted an additional Label comprising their Registered Trade Mark of selection, which consists of

A RED DIAMOND.

This Label will henceforth also serve to distinguish the HUNGARIAN APERIENT WATER SOLD BY THE COMPANY from all other Aperient Waters.

DEMAND THE 
DIAMOND MARK.

And insist upon receiving the HUNGARIAN APERIENT WATER of the APOLLINARIS COMPANY, LIMITED, London.

BOUDAULT'S PEPSINE

The only Pepsine used in the Hospitals of Paris for the last Thirty Years.

Unlike the various substitutes which, in most cases, are but unscientific or incompatible compounds, forced upon the Medical Profession as aids to digestion by extensive advertising, but which, when submitted to the proper tests, are found to be useless as digestive agents, Pepsine is constantly gaining in the esteem of the careful practitioner.

Since the introduction of Pepsine by Boudault and Corvisart in 1854, the original BOUDAULT'S PEPSINE HAS BEEN AT ALL TIMES CONSIDERED THE BEST, as is attested by the awards it has received at the Expositions of 1867, 1868, 187 1873, in 1876 at the Centennial Exposition of Philadelphia, and in 1878 at the Paris Exposition.

The most reliable tests, carefully applied, will satisfy everyone that BOUDAULT'S PEPSINE HAS A MUCH HIGHER DIGESTIVE POWER than the best Pepsines now before the Profession, and is therefore especially worthy of their attention.

BOUDAULT'S PEPSINE is prepared in the form of Pepsine Acid and Pepsine Neutral. It is sold in bottles of one ounce, with a measure containing exactly five grains; also in bottles of four, eight, and sixteen ounces for dispensing.

BOUDAULT'S WINE OF PEPSINE

FORMULA OF DR. CORVISART.

The taste of Pepsine being perfectly disguised in this Wine, it may be recommended to persons who have difficulty in taking Pepsine in the form of Powder. This Wine is tested so that a tablespoonful of it is equal in digestive power to ten grains of Boudault's Pepsine in powder. Sold only in bottles of eight ounces.

TANRET'S PELLETIERINE

For the Treatment of Tape-Worm (Tænia Solium).

This New Tænifuge, the Active Alkaloid of Pomegranate Bark, has of late come into extensive use in France for the treatment of Tape-Worm (Tænia Solium). The results of numerous experiments with it at the Marine Hospitals of Toulon, St. Mandrier, etc., and in the Hospitals of Paris, St. Antoine, La Charité, Necker Beaujon, etc., have all been most satisfactory. Doctor Dujardin Beaumetz, Member of the Academy of Medicine, and Professor Laboulbene, in their report to the Society of Therapeutics, have given it their unqualified approval, after the most searching experiments. This preparation is pleasant to administer, and, if certain preliminaries are observed, success will be insured.

Sold only in bottles containing one dose.

DUCRO'S ALIMENTARY ELIXIR

A Combination uniting the properties of Alcoholic Stimulants and Raw Meat.

This preparation, which has been used with great success in the hospitals of Paris since 1868, is adapted to the treatment o all diseases requiring administration, in a small volume, of a tonic able to stimulate and support the vital forces, as *Pulmonar Phthisis, Depression and Nervous Debility, Adynamia, Malurious Cachexia, etc.*

Prepared by EMILE DURIEZ & CO., Successors to DUCRO & CIE, Paris.

KIRKWOOD'S INHALER

This is the only complete, reliable, and effective inhaler in use, arranged for the direct application of Muriate of Ammonia and other remedial agents in the state of vapor to the diseased parts of the air-passages in the treatment of catarrh and diseases of the throat and lungs. No heat or warm liquids required in its use.

It is entirely different from the various frail, cheap instruments that have been introduced.

KIRKWOOD'S INHALER is accompanied by testimonials of the highest professional character, together with carefully prepared formulas for use.

RETAIL PRICE, COMPLETE, $2.50.

☞ A liberal discount allowed to the trade and profession. For descriptive pamphlet or other information address

E. FOUGERA & CO., 30 North William St., New York,

Sole Agents for the above Preparations.

GOUDRON DE BLOUNT

PREPARED FROM THE GENUINE CAROLINA TAR.

DOSE.—One fluid drachm four or more times a day (as indicated), either full strength, diluted, or, in combination.

INDICATIONS.—Chronic and acute affections of the Air Passages, Coughs, Colds, Bronchitis, Asthma and Consumption.

WILLIAM MURRELL, M.D., F.R.C.P.,

Lecturer on Pharmacology and Therapeutics at the Westminster Hospital; Examiner in Materia Medica to the Royal College of Physicians of London; Fellow of the Medico-Chirurgical College of Philadelphia,

Says:—"I have used with success 'Goudron de Blount.' The results have been good, and the preparation is popular with patients."

Clinical Notes sent on Application. ST. LOUIS, MO.

Permanent Pepsin.

THE INSEPARABLE STANDARDS OF VALUE ARE PERMANENCY AND ACTIVITY.

WHEN a physician prescribes pepsin and his patient finds that it "sticks to the paper," that it forms a gummy mass "in powders," he may rely upon it that FAIRCHILD'S PEPSIN has not been dispensed; if he has ordered Fairchild's, this behavior is positive evidence that he and his patient have been the victims of "substitution."

Pepsins which are hygroscopic, which do undergo upon exposure to air the changes characteristic of peptone, are offered (in the form of scales and in powder) with pretensions to permanent quality.

If a product is sought, of well-proven permanency and of highest standard of activity, FAIRCHILD'S PEPSIN is the one which will never give cause for complaint.

Fairchild's was the original "Scale Pepsin;" the first positively "free from starch, sugar, acid, peptones or any added substance." The host of imitations of "Scale Pepsin" bear witness to the value and reputation of the original.

FAIRCHILD BROS. & FOSTER,

82 and 84 Fulton Street, New York.

ALETRIS CORDIAL

UTERINE TONIC AND RESTORATIVE.

Prepared from the Aletris Farinosa or True Unicorn and Aromatics.

INDICATIONS.

Amenorrhea, Dysmenorrhea, Leucorrhea, Prolapsus Uteri, Sterility, to Prevent Miscarriage, Etc.

DOSE:—ONE TEASPOONFUL THREE OR FOUR TIMES A DAY.

UNRIVALED AS A UTERINE TONIC IN IRREGULAR, PAINFUL, SUPPRESSED AND EXCESSIVE MENSTRUATION.

It Restores Normal Action to the Uterus, and Imparts Vigor to the Entire Uterine System.

☞Where women have miscarried during previous pregnancies, or in any case where miscarriage is feared, the ALETRIS CORDIAL is indicated, and should be continuously administered during entire gestation.

CHAS. CLAY, M. R. C. S., Manor House, Dewsbury, England, says:—I find Aletris Cordial (Rio) is of great service in threatened miscarriage.

FRANCIS E. CANE, L. R. C. S., &c., Leeds, England, says:—I have tried the Aletris Cordial (Rio) in two cases of long standing dysmenorrhea, with excellent results. One of these patients has spent a week in bed every month for two years. After all the usual remedies, I put her on Aletris Cordial, and for the last two periods she has been out and about all the time.

L. M. WATSON, M. D., Delhi, Ills., says:—I have used Aletris Cordial (Rio) in cases of dysmenorrhea. suppressed menses and threatened miscarriage, and also, combined with Celerina, as a tonic after confinement, with the happiest results, and now I am using it on a case of leucorrhea, with injections of S. H. Kennedy's Extract of Pinus Canadensis, and it is acting like a charm.

P. H. OWEN, M. D., Morganville, Ala., says:—I have prescribed Aletris Cordial (Rio) in several cases with the most satisfactory results, and regard it as the best uterine tonic I have met with in a professional experience of over twenty-five years. In cases of threatened miscarriage it acts like a charm. Would recommend its continuous administration in all cases when there is any indication of miscarriage.

Dr. W. BERTHELOT, Santander, Spain, says:—I have tried the Aletris Cordial (Rio), and it has seemed to me to be useful, especially in cases of dysmenorrhea.

Dr. RASQUINET, Jupile, near Liege, Belgium, says:—I tried Aletris Cordial (Rio) in the case of a woman who had had several miscarriages at the end of five months, and who is now again pregnant, having reached the seventh month. thanks to Aletris Cordial.

R. REECE, M. R. C. S., Walton-on-Thames, England, says:—Aletris Cordial (Rio) in painful menstruation is most valuable. A wife of a minister suffered much, and had had three miscarriages. I prescribed Aletris Cordial. She has for the first time, gone her full time, and was safely confined with a male child.

J. T. COLLIER, M. D., Brooks, Me., says:—I have used your Aletris Cordial (Rio) in cases of females at the menopause. Consider it one of the finest remedies for these cases.

Dr. GORDILLON, St. Amand, France, says: I have tried the Aletris Cordial (Rio) in a case of dysmenorrhea. The result I obtained from the use of your preparation was excellent, better than I had obtained in the same patient by prescribing the usual remedies employed in such cases.

W. F. TOOMBS, M. D., Morrillton, Ark., says:—I have used a great deal of your Aletris Cordial (Rio) and I find it all you claim for it in amenorrhea, dysmenorrhea, metritis, leucorrhea; I don't think it has an equal. I have used it in two cases of threatened miscarriage and the trouble was obviated. For a general Uterine Tonic I know of nothing superior.

R. D. PATTERSON, L. R. C. S. &c., Medical Officer, Caledon Dispensary, Co. Tyrone, Ireland, says:—I have very great pleasure in testifying to the very high opinion I hold of Aletris Cordial (Rio) in threatened miscarriage.

DETROIT COLLEGE OF MEDICINE.

SESSION 1889-90.

Clinical and Practical teaching are made an important feature of this College. Clinical instruction is given daily at HARPER, ST. MARY'S and ST. LUKE'S HOSPITAL, at the COLLEGE, at COLLEGE EYE and EAR INFIRMARY, ST. MARY'S FREE EYE and EAR INFIRMARY, and at the three FREE DISPENSARIES. The facilities offered by this college are unsurpassed for the practical study of MEDICINE, SURGERY, OBSTETRICS, GYNÆCOLOGY, DISEASES OF CHILDREN, GENITO-URINARY, and ORTHOPÆDIC SURGERY, OPHTHALMOLOGY and OTOLOGY, DERMATOLOGY and LARYNGOLOGY.

REGULAR SESSION opens on Wednesday, Sept. 25, and continues six months. During the session, the Professors will take special pains to examine the Students upon the subjects of the previous lectures.

SPRING SESSION begins April 2d, 1890; and closes June 11th.

FEES.—Matriculation fee, $5; Fees for Regular Session, $50; Spring Session, $10, to those who attend the regular term—to all others, $25; Hospital Fee, $10; Graduation Fee, $30; Perpetual Ticket, $100.

For further particulars, and for College Circular, apply to

H. O. WALKER, M.D., Secretary,

33 Lafayette Ave., Detroit, Mich.

Philadelphia Polyclinic and College for Graduates in Medicine.

THE POLYCLINIC HOSPITAL: A School of Practical Medicine and Surgery
IN ALL THEIR BRANCHES.
FOR PHYSICIANS ONLY.

Individual Instruction, Clinical and Demonstrative, is given; the classes being limited in order to permit of *full personal attention to each pupil*, who is thus brought into direct contact both with patients and with instructors.

Laboratory Courses may be taken in *Clinical Chemistry, Operative Surgery, Bandaging and Fracture Dressing, Anatomy, Massage, Orthopædics, Electrotherapy, Dietetics, Experimental Physiology and Pharmacology, Bacteriology and Pathology.*

A Special Course in **Ophthalmology** includes *Didactic Instruction* in *Optical Theory.* **A Special Course** in **Dietetics** includes the study of *diet-cures* and *practical manipulations* in the *preparation* of predigested and other *foods of the sick.*

Fee for any one branch, $15.00; General Ticket for all Clinical branches, $100.00. Tickets good for regular clinics for six weeks from date of issue; or, for one clinic weekly for three months.

☞ In addition to the facilities of the College Dispensary and Hospital, the Professors utilize their services in the following large general and special Hospitals: PHILADELPHIA (Medical, Surgical, Neurological, Obstetric and Pædiatric, and Dermatological Wards and Clinics); WOMAN'S (Surgical); PENNSYLVANIA (Surgical, Eye); ORTHOPÆDIC and INFIRMARY for NERVOUS DISEASES; WILLS'S EYE; HOWARD (Skin); CHILDREN'S (Ear); JEWISH (Surgical, Medical); and ST. CLEMENT'S (Surgical).

For announcement and further information, address or apply to

DR. MASSEY'S
PRIVATE SANITARIUM
3607 Locust Street
PHILADELPHIA

This institution, in addition to complete arrangements for the treatment of Nervous Diseases by rest, electricity, massage, etc., under comfortable surroundings, is specially equipped for the treatment of cases of Fibroid Tumors and other intractable diseases of the pelvic viscera, by the conservative use of strong electric currents. For particulars, address

DR. G. BETTON MASSEY
1706 Walnut Street, Philadelphia

WESTERN PENNSYLVANIA MEDICAL COLLEGE
CITY OF PITTSBURGH.
SESSIONS OF 1889—90.

The REGULAR SESSION begins on the last Tuesday of September, and continues six months. During this session, in addition to four Didactic Lectures, two or three hours are daily allotted to Clinical Instruction. Attendance upon two regular courses of lectures is requisite for graduation. A three years' graded course is also provided. The SPRING SESSION embraces recitations, clinical lectures and exercises, and didactic lectures on special subjects; this session begins the second Tuesday in April, and continues ten weeks.

The laboratories are open during the collegiate year for instruction in chemistry, microscopy, practical demonstrations in medical and surgical pathology, and lessons in normal histology. Special importance attaches to "the superior clinical advantages possessed by this College." For particulars, see annual announcement and catalogue, for which, address the Secretary of Faculty, Prof. J. W. J. McKENNAN.

Business correspondence should be addressed to

A. G. SPALDING & BROS.'

Gymnasium Department.

From this time henceforth the **Gymnasium** in all its important details will be a department in our business to which we shall devote especial attention.

With the addition to our own valuable patents, those of the **A. J. Reach Company**, of Philadelphia, recently purchased by us, enables us to claim the most **extensive department** of **Gymnasium Appliances in the world**.

We have been encouraged in this **important** movement by the constantly increasing demand from **Colleges, Seminaries,** and other **Educational** Institutions for Gymnasium Supplies, and henceforth we shall devote special attention to furnishing **plans, specifications**, and **estimates** to such and for **private residences** as well, and solicit correspondence with all contemplating the introduction of gymnastics for any purpose.

The Peerless Pulley Weight, illustration of which appears on this page, is a most perfect appliance for the development of the **chest** and **arms**, adjustable to the height of *any* person, and in weight from five to thirty pounds. For **man or woman** this is the peer of any method yet devised, especially for home use. Realizing the attention the **medical profession** and the **teacher**, are now giving to **healthful** exercise in **schools**, we solicit also their correspondence, and any orders, or business prceeding from such, will be gratefully received, and entitled to our best rates of discount, and will receive prompt and careful attention.

Visitors to our different establishments at **Chicago, New York,** and **Philadelphia** will always be welcome and politely served by the many efficient salesmen constantly in attendance.

PHENACETINE-BAYER.

In therapeutic action it is like all the analgesic antithermics, it has a double action—it lowers temperature and soothes pain. The lowering of the temperature is noticeable in cases of pyrexia. In fevers, 7½ grains of Phenacetine lowers the temperature by 1.8° to 3.4° F., and the antithermic action following such a dose lasts four hours. In certain cases the apyrexial period is more prolonged even from the same dose. Phenacetine is thought by some to be superior to antipyrin and acetanilid in producing marked antithermic effects without toxic phenomena. But it is above all as an analgesic that Phenacetine outrivals its predecessor. While it is as powerful, it does not produce pain in the stomach or the scarlatinaform rash of the antipyrin, nor does it give rise to the cyanosis of the acetanilid. However prolonged may be its administration, no bad effect has ever been seen from its use. It has been used for the relief of every form of pain, even for the lightning pain of tabes, with the best results. This double action, as an antithermic and as an analgesic, results from an effect produced upon the spinal cord; and the Phenacetine may be considered a depressor of the excitability of the medulla. The digestive, respiratory, and circulatory systems are not at at all affected by Phenacetine. It is inodorous, it is tasteless, and it is innocuous. [From a paper presented to the Central Kentucky Medical Association, by Steele Bailey, M. D., New England Medical Monthly, March, 1890.]

Phenacetine-Bayer, prepared by the Farbenfabriken, formerly Friedr. Bayer & Co., Elberfeld, is supplied by us in ounces and also in the form of our soluble pills and compressed tablets, containing two, four and five grains each. Either form may be obtained of any reputable apothecary.

ARISTOL.

Aristol, a combination of iodine and thymol, manufactured by the Farbenfabriken, formerly Fredr. Bayer & Co., Elberfeld, Germany, is a valuable, inodorous and non-toxic antiseptic remedy, said to be superior to Iodoform, Iodol and Sozo-Iodol.

For further information regarding this new remedy we would refer to the notes we have published, which we will be pleased to mail to applicants.

SULFONAL-BAYER.

Wm. H. Thomson, M. D., LL. D., in speaking of Sulfonal, says:—"Sulfonal is a pure hypnotic, neither anæsthetic nor depressing in character, and it does not affect the heart or circulation, and the sleep it produces is perfect. Being quite insoluble, it requires about three hours to become thoroughly dissolved in the stomach, and should be given about two hours before bed-time. As it is not affected by the digestive secretions, it may be given shortly after the evening meal.

"Sulfonal is of great value in the insomnia of the insane, and the dose should be repeated once during the night if the sleep is too short. **It is specially recommended in cases of nervous insomnia,** also in the sleeplessness of delirium tremens. In the latter case, gr. xx. should be administered every two hours until grs. lx or lxxx have been taken, but it should be remembered that every case of delirium tremens is also a case or starvation, and to produce sleep the patient must be fed. Dose as a hypnotic, gr. xv-xx." [From Notes, Materia Medica, and Therapeutics. Lectures delivered by Prof. Wm. H. Thomson, M. D., LL.D. Edited by Wm. H. McEnroe, M. D.]

Sulfonal-Bayer, prepared by the Farbenfabriken, formerly Fredr. Bayer & Co., Elberfeld, is supplied by us in ounces and in the form of Tablets of 5, 10 and 15 grains, put up in bottles of 10 and 100 tablets each.

We also offer Sulfonal-Bayer in the form of our soluble pills, containing 5 grains each.

W. H. Schieffelin & Co.,

170 & 172 William Street,

NEW YORK.

ESTABLISHED 1855.

DRS. STRONG'S SANITARIUM,

SARATOGA SPRINGS, NEW YORK,

Receives persons recommended to it by their home physicians for Treatment, Change, Rest or Recreation, and places them under well-regulated hygienic conditions so helpful in the treatment of chronic invalids or the overtaxed.

For Treatment: In addition to the ordinary remedial agents, it employs Turkish, Russian, Roman, Sulphur, Electro-Thermal, the French Douche (Charcot's), and all Hydropathic Baths; Vacuum Treatment, Swedish Movements Massage, Pneumatic Cabinet, Inhalations of Medicated, Compressed, and Rarefied Air, Electricity in various forms, Thermo-Cautery, Calisthenics, and Saratoga Waters, under the direction of a staff of educated physicians.

For Change: This Institution is located in a phenomenally dry, tonic, and quiet atmosphere, in the lower arc of the Adirondack Zone, and within the "Snow Belt."

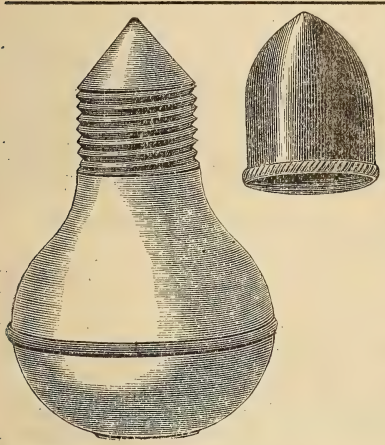
For Rest: The Institution offers a well-regulated, quiet home, heated by steam and thoroughly ventilated, with cheering influences and avoiding the depressing atmosphere of invalidism.

For Recreation: To prevent introspection, are household sports at all seasons of the year, and in Winter, tobogganning, elegant sleighing etc.; in Summer, croquet, lawn-tennis, etc.

Private professional references furnished upon application. Physicians are invited to inspect the Institution at their convenience. A liberal discount to physicians and their families.

For further information, address,

DRS. S. S. & S. E. STRONG.



THE P.P.P. SYRINGE

Is universally considered the most perfect urethral Syringe in the market, because it combines within itself all desirable qualities. It measures but 1½ x 2¾ inches, has a capacity of fully half an ounce, and is made of one piece of soft rubber with conical point. To protect this soft point and to prevent pocket dust from getting into the Syringe, a Hard Rubber cap screws air-tight over it and enables the patient to carry it in his pocket filled with the injection ordered, ready for use when away from home.

For sale by all druggists.

THE GOODYEAR RUBBER CO.,

49 MAIDEN LANE, NEW YORK.

A Phosphorized Cerebro-Spinant

(FRELIGH'S TONIC).

FORMULA.

Ten minims of the Tonic contain the equivalents (according to the formulæ of the U. S. P., and Dispensatory) of

Tinct. Nux Strychnos,	1	minim.
" Ignatia Amara,	1	"
" Cinchona,	4	"
" Matricaria,	1	"
" Gentian,	½	"
" Columbo,	½	"
" Phosphorus, C. P.,	1-300	gr.
Aromatics,	2	minims.

Dose: 5 to 10 drops in 2 tablespoonfuls of water.

INDICATIONS.

Paralysis, Neurasthenia, Sick and Nervous Headache, Dyspepsia, Epilepsy, Locomotor Ataxia, Insomnia, Debility of Old Age, and in the Treatment of Mental and Nervous Diseases.

A BALTIMORE PHYSICIAN, WHOSE DIPLOMA DATES FROM 1825, SAYS:

"Your combination I find vastly more effective than any tonic I have ever used. It furnishes a most powerful evidence of the vastly increased power of medicament by combination and judicious pharmaceutic preparation."

Price, One Dollar per Bottle, containing 100 of the Average 5-Drop Doses.—Physicians' single sample delivered, charges prepaid, on application. That every physician may be his own judge of its value, irrespective of the opinions of others, we make the following

SPECIAL OFFER:

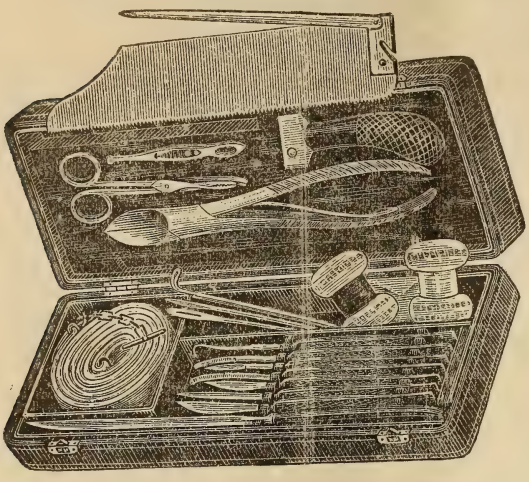
We will send to any physician, delivered, charges prepaid, on receipt of twenty-five cents, and his card or letter-head, half a dozen physicians' samples, sufficient to test it on as many cases for a week to ten days each. The Tonic is kept in stock regularly by all the leading wholesale druggists of the country. As we furnish no samples through the trade, wholesale or retail, for samples, directions, price-lists, etc., address,

I. O. WOODRUFF & CO.,

Manufacturers of Physicians' Specialties,

No. 88 Maiden Lane, New York City.

LENTZ'S ASEPTIC COMPACT OPERATING SET, No. 10.



We have from time to time made improvements to this set and are now making a perfect aseptic set, which offers especial facilities for aseptic precautions; the blades are soldered into hollow German-silver handles nickel-plated, are light so as not to be unwieldy and admit of a firm grasp when operating.

The saw is adjusted to the handle on an entirely new principle, being made to separate easily and to facilitate thorough cleansing.

The handle is entirely of metal and fenestrated to overcome unnecessary weight.

Scissors and Forceps having French locks can be separated, and the slide can be easily removed from Artery and Needle Forceps.

Therefore, no opportunity is offered for the lodgment and development of germs.

The entire set is patterned with especial reference to facility in cleansing.

The instruments can be sterilized by placing them in boiling water, without fear of damaging them. Wood or rubber handles will not admit of this procedure. For price, see case A.

The following instruments are put up in either a fine Mahogany or Morocco case, with nickel trimmings, lined with velvet, and has an extra space for Trephine with handle, and Elevator if desired.

One Amputating Knife (6 in. blade); One Finger Knife; One Hernia Knife; One Sharp Curved Bistoury; Two Scalpels; One Tenotome; One Tenaculum; One Pair Scissors, curved or flat; One Saw (9 in. blade); One Liston's Bone Forceps, with Spring; One Artery and Needle Forceps, improved; One Esmarch's Flat Rubber Tourniquet, with Chain; One Hæmostatic Forceps; One Director, with Aneurism Needle; Two Silver Probes; Silk, Wire, Wax and Needles.

With the Sixteen Instruments Contained in this Case, any Ordinary Operation may be Performed.

SIZE, 11 INCHES LONG, 4 INCHES WIDE, 2 INCHES HIGH.

ANTIFEBRIN IN INFLUENZA!

This use of this Renowned ANTIPYRETIC, ANODYNE, SEDATIVE and NERVINE seems suggested by the following Judgments passed on it by Reputed Authorities in Symptomatically *Allied Complaints:*—

As an **Antifebrile** Dose:—2 to 4 grains *single;* 16 to 32 grains *daily.*—(WEINSTEIN, Vienna.)

As an **Anodyne** and **Nervine** Dose in severest Neurotic and Secondary Pains:—8 to 16 grains, *one to four times per day.*—(DEMIEVILLE, Lausanne.)

Mode of Administration:

"Even the *initial dose* gave evident relief; commonly within half an hour. If this did not suffice to break up the symptoms materially, a second dose followed in an hour or two; at the very utmost a third one was given the same day.

"The remedy was effective and well tolerated at all times; at all hours of the day; on an empty or a full stomach; even during menstruation.

"The form of exhibition was that of *powders*, wrapped in *wafers*. The readier solubility of the Antifebrin in Alcohol indicates the advisability of following the dose by a small draught of Wine or Brandy."—(OTT, Prague.)

ANOTHER MODE OF ADMINISTRATION:—*Dissolve* your Dose (4 to 12 grains) of **ANTIFEBRIN** in ½–1 ounce (1 to 2 Tablespoonfuls) of *Boiling Water*,—stirring for a minute or two, until dissolved. Allow the Solution *to cool down* to about 104 degrees F. (being just comfortably warm) and sweeten to taste, *Before Taking!*—NO ALCOHOL, WINE, or LIQUOR needed with it when thus prepared.

ANTIFEBRIN

was found **Superior** to the **Following** Remedies in **Efficacy**, or in Safety, or in **Both**:—

Antipyrine,—*Quinine*,—*Morphine*,—*Opium*,—CHLORAL HYDRATE—ACONITE,—CAFFEINE,—KAIRINE,—*Salicylic Acid*,—CARBOLIC ACID,—*Bromides*,—IODIDES.

Among the Medical Authorities from whose Clinical and other Published Reports the above-stated PREFERENCES OF ANTIFEBRIN OVER OTHER REMEDIES have been drawn, are the following:

HARE, University of Pennsylvania;—DUJARDIN-BEAUMETZ, Paris;—HERCZEL, Heidelberg;—MURRAY, *Brit. Med. Journal;*—PAVAIVAJNA, *Centralblatt für die gesammte Therapie;*—BARR, Bridgeport, Ill.;—KELL, Delphos, O.;—HAY, New York;—HAAS, Prague.

Antifebrin was also *found to be:*

"Thoroughly *reliable* as an ANTIPYRETIC."—(DEMME, Berne.)

"*Not only* powerfully ANTITHERMIC, but also a most *useful* NERVINE."—(LEPINE, Lyons.)

"A *powerful, safe*, and *certain* ANTITHERMIC agent."—(EVANS, Easton, Pa.)

"*Complete* ANALGETIC effect in nine cases out of every ten."—(FISCHER, Cannstatt.)

RABUTEAU'S DRAGEES OF IRON

Laureate of the Institute of France.—Prize in Therapeutics.

The studies made by the Physicians of the Hospitals have demonstrated that the **Genuine Dragees of Iron of Rabuteau** are superior to all other preparations of Iron in cases of *Chlorosis, Anæmia, Leucorrhœa, Debility, Exhaustion, Convalescence, Weakness of Children*, and the maladies caused by the Impoverishment and Alteration of the blood after periods of fatigue, watching, and excesses of any kind.

TAKE 4 TO 6 DRAGEES DAILY.

Rabuteau's Elixir of Iron is recommended to those persons who may be unable to swallow the Dragees. Dose —*A small wineglassful with meals.*

Rabuteau's Syrup of Iron is specially designed for children. Chalybeate medication, by means of **Rabuteau's Iron**, is the most economical and the most rational known to therapeutics.

No constipation, no diarrhœa, complete assimilation.

Take only the GENUINE IRON OF RABUTEAU of

CLIN & CO., Paris.

CLIN & CO.,—Paris.

GRAND NATIONAL PRIZE OF 16,600 FRANCS,

QUINA-LAROCHE

This meritorious **Elixir, QUINA-LAROCHE,** is prepared from the three Cinchonas; it is an agreeable and doubtless highly efficacious remedy.

—*The Lancet.*

VINOUS ELIXIR,

A STIMULATING RESTORATIVE

—AND—

ANTI-FEBRILE TONIC.

QUINA-LAROCHE under the form of a vinous **Elixir** contains the totality of the numerous principles of the **three** Cinchona barks. It is a preparation which renders great services to Therapeutics.—Extract of the *Gazette des Hôpitaux*, Paris.

FAR SUPERIOR TO ALL ORDINARY CINCHONA WINES.

LAROCHE'S QUINA, tried by the Academy of Medicine of Paris, is a specially prepared **COMPOUND EXTRACT OF Quinquina,** a careful analysis, confirmed by experience, has shown that most of the wines and syrups hitherto used have not contained all the properties of this precious bark, of these some, although beneficial, are altogether lost, while many preparations contain but half the properties of the bark in varying proportions.

MR. LAROCHE, by his peculiar method, has succeeded in extracting all the active principles of the quinquina, combining these with *Catalan Wine* forming an Elixir free from the disagreeable bitterness of other similar preparations. Practitioners have found triple advantages in the use of this Elixir, it is a *strong tonic*, is easily administered, and perfectly harmless, being free from the unpleasant effects of Quinine.

THE FERRUGINOUS QUINA-LAROCHE is the invigorating tonic *par excellence*, having the advantage of being easily assimilated by the gastric juice; without, in any way, deranging the action of the digestive organs, proving itself to be a most efficacious remedy in cases of impoverishment of the blood, **ANÆMIA, CHLOROSIS, INTESTINAL HÆMORRHAGE, CASTRALGIA, EXHAUSTION, ETC., ETC.**

BROMIDIA

THE HYPNOTIC.

FORMULA.—

Every fluid drachm contains 15 grains EACH of Pure Chloral Hydrat. and purified Brom. Pot., and one-eighth grain EACH of gen. imp. ext. Cannabis Ind. and Hyoscyam.

DOSE.—

One-half to one fluid drachm in WATER or SYRUP every hour, until sleep is produced.

INDICATIONS.—

Sleeplessness, Nervousness, Neuralgia, Headache, Convulsions, Colic, Mania, Epilepsy, Irritability, etc. In the restlessness and delirium of fevers it is absolutely invaluable.

IT DOES NOT LOCK UP THE SECRETIONS.

PAPINE

THE ANODYNE.

Papine is the Anodyne or pain-relieving principle of Opium, the Narcotic and Convulsive Elements being eliminated. It has less tendency to cause Nausea, Vomiting, Constipation, Etc.

INDICATIONS.—

Same as Opium or Morphia.

DOSE.—

(ONE FLUID DRACHM)—represents the Anodyne principle of one-eighth grain of Morphia.

IODIA

The Alterative and Uterine Tonic.

FORMULA.—

Iodia is a combination of active principles obtained from the Green Roots of Stillingia, Helonias, Saxifraga, Menispermum, and Aromatics. Each fluid drachm also contains five grains Iod. Potas., and three grains Phos. Iron.

DOSE.—

One or two fluid drachms (more or less as indicated) three times a day before meals.

INDICATIONS.—

Syphilitic, Scrofulous and Cutaneous Diseases, Dysmenorrhea, Menorrhagia, Leucorrhea, Amenorrhea, Impaired Vitality, Habitual Abortions, and General Uterine Debility.

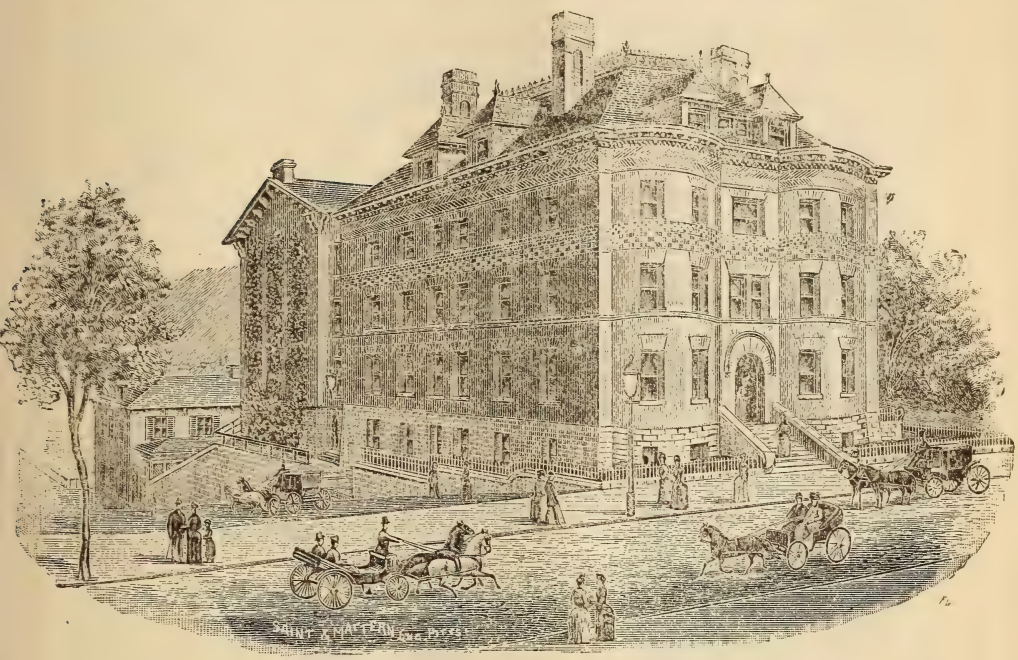
DR. R. S. SUTTON'S

Sanatorium for Diseases of Women.



Seventh Year Opens September 1, 1889.

ALLEGHENY CITY, PA.

This Institution is located on high ground, and overlooks the Allegheny, Monongahela and Ohio rivers; it commands a view of the city of Pittsburgh, and its picturesque surroundings. The building is large and beautiful, it is provided with every modern convenience, the halls are heated by steam, the rooms are commodious, well lighted and ventilated, and heated by open grates. The house is provided with a private parlor and reading-room for patients. The dining-room is large, handsomely finished, and furnished with small tables, securing privacy at meals for those who do not care to have meals served in their own rooms. Patients can be as secluded, should they desire it, as in a well appointed hotel. Each patient is examined by Dr. Sutton, and receives his daily personal attention, while Dr. J. H. Williamson, a physician of ample hospital experience, resides in the Institution, and has, under Dr. Sutton, the immediate care of the patients. The Institution accommodates 25 patients, and is equal in comfort to the best hotels.

Electricity, baths, douches, massage, local treatment, general medication and surgical operations are resorted to according to the requirements of each patient.

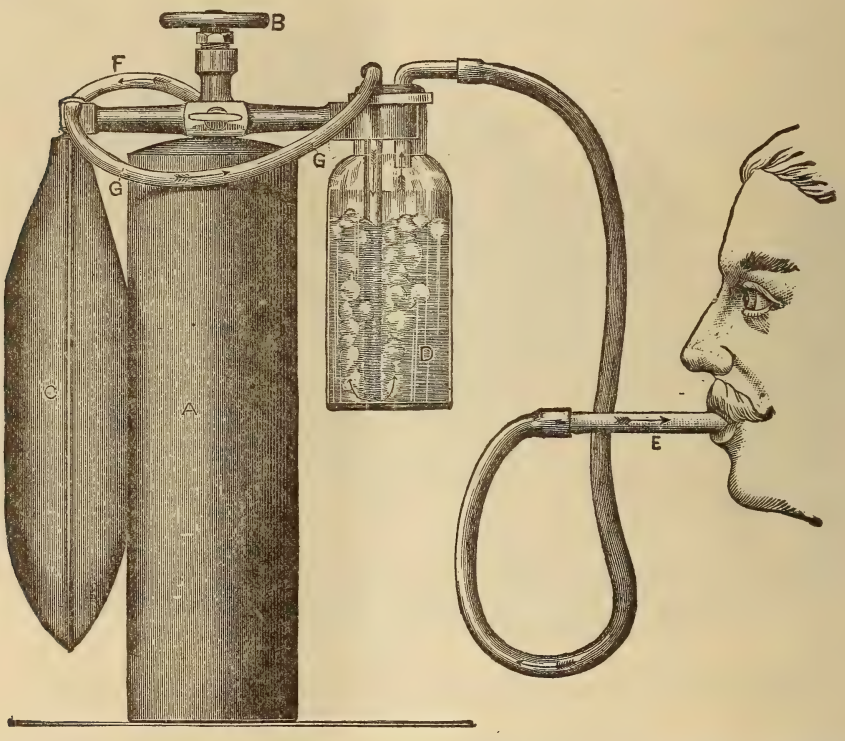
INHALATION APPARATUS

FOR

THE THERAPEUTIC ADMINISTRATION OF OXYGEN.



In the treatment of lung troubles by Oxygen its exhibition by inhalation is preferred. The apparatus herewith shown is a modification of the Nitrous Oxide apparatus which we have supplied for many years. It is made in the best manner throughout, and is the outcome of years of experience in the manufacture of gas apparatus. It will be found to meet all the requirements.

We supply the gas in two sizes of cylinders, containing respectively forty and one hundred gallons, either pure Oxygen, or a mixture of Oxygen and Nitrous Oxide in definite proportions of 20 per cent., and forty per cent. of Nitrous Oxide.

Whether pure or mixed the gas is sold at the uniform price of 5 cents a gallon. The cost of the cylinders will be refunded on their return empty with the valves in good condition. Full description of Inhalation and Enema apparatuses with directions for use accompany each apparatus, or will be supplied on application.

PRICES.

Inhalation Apparatus	$5.00
Cylinder, 40 gallons' capacity	6.00
40 gallons Gas, either pure Oxygen or mixed Oxygen and Nitrous Oxide	2.00
Complete Apparatus, Cylinder, and 40 gallons Gas	$13.00
Inhalation Apparatus	$5.00
Cylinder, 100 gallons' capacity	15.00
100 gallons Gas, either pure or mixed	5.00
Complete Apparatus, Cylinder, and 100 gallons Gas	$25.00

THE BEST ANTISEPTIC

FOR BOTH INTERNAL AND EXTERNAL USE.

ANTISEPTIC, PROPHYLACTIC, DEODORANT.

LISTERINE

NON-TOXIC, NON-IRRITANT, NON-ESCHAROTIC.

FORMULA—Listerine is the essential antiseptic constituent of Thyme, Eucalyptus, Baptisia, Gaultheria and Mentha Arvensis, in combination. Each fluid drachm also contains two grains of refined and purified Benzo-boracic Acid.

DOSE—Internally: One teaspoonful three or more times a day (as indicated) either full strength, or diluted, as necessary for varied conditions.

LISTERINE is a well-proven antiseptic agent—an antizymotic—especially adapted to internal use, and to make and maintain surgical cleanliness—asepsis—in the treatment of all parts of the human body, whether by spray, irrigation, atomization, or simple local application, and therefore characterized by its particular adaptability to the field of

PREVENTIVE MEDICINE—INDIVIDUAL PROPHYLAXIS.

Diseases of the Uric Acid Diathesis.

LAMBERT'S

LITHIATED HYDRANGEA

KIDNEY ALTERATIVE—ANTI-LITHIC.

FORMULA—Each fluid drachm of "Lithiated Hydrangea" represents thirty grains of FRESH HYDRANGEA and three grains of CHEMICALLY PURE Benzo-Salicylate of Lithia. Prepared by our improved process of osmosis, it is INVARIABLY of DEFINITE and UNIFORM therapeutic strength, and hence can be depended upon in clinical practice.

DOSE—One or two teaspoonfuls four times a day (preferably between meals).

Urinary Calculus, Gout, Rheumatism, Bright's Disease, Diabetes, Cystitis, Hæmaturia Albuminuria, and Vesical irritations generally.

We have much valuable literature upon { GENERAL ANTISEPTIC TREATMENT, LITHEMIA, DIABETES, CYSTITIS, ETC. } To forward to Physicians upon request.

LAMBERT PHARMACAL CO., ST. LOUIS, MO.

GENOIS'

Diastasic Extract of Malt,

A PURE LIQUID EXTRACT OF MALT.

CONTAINING at least 12 per cent. of extractive matter, rich in nitrogenous principles, and less than 4 per cent. of alcohol for its preservation. It is recommended for the treatment of dyspepsia, defective nutrition, flatulence, etc., as well as for a tonic. It is also recommended to persons suffering from insomnia. Its sedative and soporific action is gentle and gradual. Generally prescribed by physicians. It is now the standard malt in the market. Over 300 gross sold in Philadelphia last year. Obtainable from the retail drug trade.

To PHYSICIANS.

THE FOREMOST COCOA OF EUROPE
THE COMING ONE OF AMERICA.

VAN HOUTEN'S
"Best and Goes Farthest."

Physicians will do well in recommending, as their European colleagues do, VAN HOUTEN'S COCOA for daily family use. Now that the profession is deprecating the habitual use of alcoholic liquors, and as even tea and coffee are found too exciting for many temperaments—to say nothing of the growing number of cases of nervous disorder in this age of hot haste and feverish anxiety—the question of what beverage may be recommended, as at once refreshing and innocuous, is assuming the highest importance.

VAN HOUTEN'S
Most Appetizing. Easily Digested.

Cocoa has long been known as a useful article of diet, and its claims are steadily winning recognition. Unlike tea or coffee, it is not only a stimulant but a nourisher; and it has the great advantage of leaving none of their narcotic effects on the system. For this reason it is adapted to general use. The strong may take it with pleasure, and the weak with impunity.

VAN HOUTEN'S
The Original—Most Soluble.

"Pure soluble cocoa" is an invention of Mr C. J. Van Houten, who patented this invention in Holland. Thus all other "pure soluble cocoas" are imitations. The process of manufacturing Van Houten's cocoa is still, to-day, a secret of C. J. Van Houten & Zoon. Chemists and medical men of the highest standing say, universally, that their observation shows that the Van Houtens do exactly what science would suggest for the conversion of raw cocoa into a satisfactory article of food. They simply remove some of the originally contained fat, which is apt to disagree with the system, and in some ingenious manner, increase the solubility of flesh-forming constituents.

VAN HOUTEN'S
"Once Tried, Always Used."

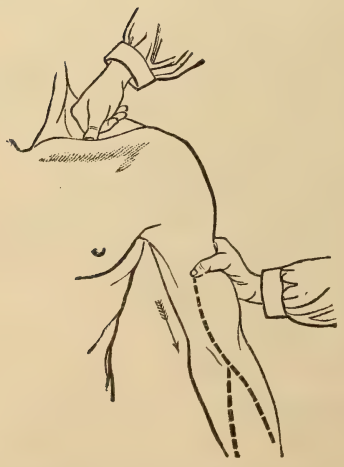
To remove excess of fat is always desirable. Some manufacturers do this by largely diluting the ground cocoa with starch. A cupful of thick beverage may thus be made, which no doubt contains a diminished amount of fat, but of course also contains a diminished amount of every other constituent of the cocoa. For persons who desire a thick, starch-like beverage, such a mixture, miscalled "soluble" cocoa, may be unobjectionable, though the cocoa in it is less easy of digestion than Van Houten's preparation. A far better method, however, is to extract, as the Van Houtens do, one part of the fat from four of cocoa, and, as a consequence, render each of the valuable constituents remaining, one-third more effective than before. Instead of being weakened by starch, Van Houten's cocoa is thus made one-third stronger in every one of its valuable properties.

VAN HOUTEN'S
"Largest Sale in the World."

THIRD EDITION.

ACCIDENTS AND EMERGENCIES

By CHARLES W. DULLES, M.D.



"A work that ought to be in every home, and every home that has a copy kept where it can be consulted at short notice is likely to find it worth many times its small cost."—*Philadelphia Evening Telegraph*, May 5, 1888.

"The methods of treatment recommended are trustworthy and reliable. The manual is one of the best of this class of books and should be in the library of every householder, ready for reference at a moment's notice."—*Science*, May 18, 1888.

BOUDAULT'S PEPSINE

The only Pepsine used in the Hospitals of Paris for the last Thirty Years.

Unlike the various substitutes which, in most cases, are but unscientific or incompatible compounds, forced upon the Medical Profession as aids to digestion by extensive advertising, but which, when submitted to the proper tests, are found to be useless as digestive agents, Pepsine is constantly gaining in the esteem of the careful practitioner.

Since the introduction of Pepsine by Boudault and Corvisart in 1854, the original BOUDAULT'S PEPSINE HAS BEEN AT ALL TIMES CONSIDERED THE BEST, as is attested by the awards it has received at the Expositions of 1867, 1868, 1873, in 1876 at the Centennial Exposition of Philadelphia, and in 1878 at the Paris Exposition.

The most reliable tests, carefully applied, will satisfy everyone that BOUDAULT'S PEPSINE HAS A MUCH HIGHER DIGESTIVE POWER than the best Pepsines now before the Profession, and is therefore especially worthy of their attention.

BOUDAULT'S PEPSINE is prepared in the form of Pepsine Acid and Pepsine Neutral. It is sold in bottles of one ounce, with a measure containing exactly five grains; also in bottles of four, eight, and sixteen ounces for dispensing.

BOUDAULT'S WINE OF PEPSINE

FORMULA OF DR. CORVISART.

The taste of Pepsine being perfectly disguised in this Wine, it may be recommended to persons who have difficulty in taking Pepsine in the form of Powder. This Wine is tested so that a tablespoonful of it is equal in digestive power to ten grains of Boudault's Pepsine in powder. Sold only in bottles of eight ounces.

TANRET'S PELLETIERINE

For the Treatment of Tape-Worm (Tænia Solium).

This New Tænifuge, the Active Alkaloid of Pomegranate Bark, has of late come into extensive use in France for the treatment of Tape-Worm (Tænia Solium). The results of numerous experiments with it at the Marine Hospitals of Toulon, St. Mandrier, etc., and in the Hospitals of Paris, St. Antoine, La Charité, Necker Beaujon, etc., have all been most satisfactory. Doctor Dujardin Beaumetz, Member of the Academy of Medicine, and Professor Laboulbene, in their report to the Society of Therapeutics, have given it their unqualified approval, after the most searching experiments. This preparation is pleasant to administer, and, if certain preliminaries are observed, success will be insured.

Sold only in bottles containing one dose.

DUCRO'S ALIMENTARY ELIXIR

A Combination uniting the properties of Alcoholic Stimulants and Raw Meat.

This preparation, which has been used with great success in the hospitals of Paris since 1868, is adapted to the treatment of all diseases requiring administration, in a small volume, of a tonic able to stimulate and support the vital forces, as *Pulmonar Phthisis, Depression and Nervous Debility, Adynamia, Malarious Cachexia, etc.*

Prepared by EMILE DURIEZ & CO., Successors to DUCRO & CIE, Paris.

KIRKWOOD'S INHALER

This is the only complete, reliable, and effective inhaler in use, arranged for the direct application of Muriate of Ammonia and other remedial agents in the state of vapor to the diseased parts of the air-passages in the treatment of catarrh and diseases of the throat and lungs. No heat or warm liquids required in its use.

It is entirely different from the various frail, cheap instruments that have been introduced.

KIRKWOOD'S INHALER is accompanied by testimonials of the highest professional character, together with carefully prepared formulas for use.

RETAIL PRICE, COMPLETE, $2.50.

☞ A liberal discount allowed to the trade and profession. For descriptive pamphlet or other information address

E. FOUGERA & CO., 30 North William St., New York,

Sole Agents for the above Preparations.

GARDNER'S

SYRUP OF HYDRIODIC ACID,

Introduced in 1878 by R. W. GARDNER.

The Reputation which Hydriodic Acid has Attained During the past Eleven Years was Won by this Preparation.

Numerous Imitations prepared differently, and weaker in Iodine, are offered, from the use of which the same therapeutic effects cannot be obtained.

Caution.—Use no Syrup of Hydriodic Acid which has turned red. This shows decomposition and free Iodine. In this state it acts as an irritant and fails to produce desirable results.

Unprincipled apothecaries substitute imitations when Gardner's Syrup is prescribed, and physicians, failing to get desirable and promised results, attribute the fault, unjustly, to Gardner's Syrup.

THERAPEUTIC INDICATIONS.

Hay Fever; Rose Cold; Poisoning by Lead, Mercury or Arsenic; Acute and Chronic Rheumatism; Asthma; Chronic Bronchitis; Catarrh; Congestion of Lungs in Children; Adenitis; Eczema; Lupus; Chronic Malarial Poisoning; Lumbago; Acute Pneumonia; Psoriasis; Scrofulous Diseases; Goitre; Enlarged Glands; Cold Abscesses; Indolent Sores; Excessive Fat; Fatty Degeneration of the Heart; to absorb non-malignant Tumors; and in the latter stages of Syphilis; Syphilitic Phthisis.

Details of treatment furnished physicians upon application to undersigned without charge.

Gardner's Chemically Pure Syrups of Hypophosphites.

Embracing the separate Syrups of Lime, of Soda, of Iron, of Potassa, of Manganese, and an Elixir of the Quinia Salt; enabling physicians to accurately follow Dr. Churchill's method, by which thousands of authenticated cases of Phthisis have been cured. The only salts, however, used by Churchill in Phthisis are those of Lime, of Soda, and of Quinia, and always separately according to indications,—never combined.

The reason for the use of single Salts is because of antagonistic action of the different bases, injurious and pathological action of Iron, Potassa, Manganese, etc., in this disease.

These facts have been demonstrated by thirty years' clinical experience in the treatment of this disease exclusively, by Dr. Churchill, who was the first to apply these remedies in Medical practice. Modified doses are also required in this disease; seven grains during twenty-four hours being the maximum dose in cases of Phthisis, because of increased susceptibility of the patient to their action, the danger of producing toxic symptoms (as hemorrhage, rapid softening of tubercular deposit, etc.), and the necessity that time be allowed the various functions to recuperate simultaneously; over-stimulation, by pushing the remedy, resulting in crisis and disaster.

A pamphlet of sixty-four pages, devoted to a full explanation of these details and others, such as contra-indicated remedies, indications for the use of each hypophosphite, reasons for the use of absolutely pure Salts, protected in Syrup from oxidation, etc., mailed to physicians without charge upon application to

R. W. GARDNER, 158 William St., N. Y. City.

W. H. SCHIEFFELIN & CO., Sole Wholesale Agents, New York.

CELERINA

NERVE TONIC, STIMULANT AND ANTISPASMODIC.

FORMULA.—Every Fluid Drachm represents FIVE grains EACH—Celery, Coca, Kola, Viburnum and Aromatics.

INDICATIONS.—Loss of Nerve-Power (so usual with Lawyers, Preachers, Writers and Business Men), Impotency, Spermatorrhea, Nervous Headache, Neuralgia, Paralysis, Hysteria, Opium Habit, Inebriety, Dyspepsia, and ALL LANGUID conditions of the System.

Indispensable to restore a patient after alcoholic excess.

DOSE.—One or two Teaspoonfuls three or more times a day, as directed by the Physician.

LIQUID IRON-RIO

Palatable and easily assimilated. Does not produce Nausea, nor irritate the Stomach. Does not Cause Headache, nor Constipate. Does not Stain the Teeth. It is so Acceptable to the Stomach that its Use is Admissible when all other forms of Iron would be rejected. Being so Readily Assimilable, it only requires a small Dose.

Each Fluid Drachm contains ONE GRAIN of Iron in a Pleasant and Digestible Form.

DOSE.—One or more Teaspoonfuls as Indicated, during or after meals.

S. H. KENNEDY'S

CONCENTRATED EXTRACT OF

PINUS CANADENSIS

DARK. A NON-ALCOHOLIC LIQUID. WHITE.

A MOST VALUABLE NON-IRRITATING MUCOUS ASTRINGENT.

INDICATIONS.—Albuminuria, Diarrhea, Dysentery, Night-Sweats, Hemorrhages, Profuse Expectoration, Catarrh, Sore Throat, Leucorrhea, and other Vaginal Diseases, Piles, Sores, Ulcers, Burns, Scalds, Gonorrhea, Gleet, Etc.

When Used as an Injection, to Avoid Staining of Linen, the WHITE Pinus should be used.

RECOMMENDED BY PROMINENT EUROPEAN AND AMERICAN PHYSICIANS.

The Acutely Ill.

When a patient is acutely ill, the digestive powers share in the general condition, and consequently the food supplied should be of the most easily assimilable character. The predigestion of starchy matters outside the body, as in MELLIN'S FOOD, is necessary, and the soluble carbohydrates of which this food consists, soluble because predigested, form the true food of the acutely ill.—J. MILNER FOTHERGILL, M.D., Edin.

A sample of MELLIN'S FOOD *will be sent to any physician, free of expense, upon application.*

DETROIT COLLEGE OF MEDICINE.

SESSION 1889-90.

Clinical and Practical teaching are made an important feature of this College. Clinical instruction is given daily at HARPER, ST. MARY'S and ST. LUKE'S HOSPITAL, at the COLLEGE, at COLLEGE EYE and EAR INFIRMARY, ST. MARY'S FREE EYE and EAR INFIRMARY, and at the three FREE DISPENSARIES. The facilities offered by this college are unsurpassed for the practical study of MEDICINE, SURGERY, OBSTETRICS, GYNÆCOLOGY, DISEASES OF CHILDREN, GENITO-URINARY, and ORTHOPÆDIC SURGERY, OPHTHALMOLOGY and OTOLOGY, DERMATOLOGY and LARYNGOLOGY.

REGULAR SESSION opens on Wednesday, Sept. 25, and continues six months. During the session, the Professors will take special pains to examine the Students upon the subjects of the previous lectures.

SPRING SESSION begins April 2d, 1890; and closes June 11th.

FEES.—Matriculation fee, $5; Fees for Regular Session, $50; Spring Session, $10, to those who attend the regular term—to all others, $25; Hospital Fee, $10; Graduation Fee, $30; Perpetual Ticket, $100.

For further particulars, and for College Circular, apply to

H. O. WALKER, M.D., Secretary,

33 Lafayette Ave., Detroit, Mich.

Philadelphia Polyclinic and College for Graduates in Medicine.

THE POLYCLINIC HOSPITAL: A School of Practical Medicine and Surgery
IN ALL THEIR BRANCHES.
FOR PHYSICIANS ONLY.

Individual Instruction, Clinical and Demonstrative, is given; the classes being limited in order to permit of *full personal attention to each pupil,* who is thus brought into direct contact both with patients and with instructors.

Laboratory Courses may be taken in *Clinical Chemistry, Operative Surgery, Bandaging and Fracture Dressing, Anatomy, Massage, Orthopædics, Electrotherapy, Dietetics, Experimental Physiology and Pharmacology, Bacteriology and Pathology.*

A Special Course in **Ophthalmology** includes *Didactic Instruction* in *Optical Theory.* **A Special Course** in **Dietetics** includes the study of *diet-cures* and *practical manipulations* in the *preparation* of predigested and other *foods of the sick.*

Fee for any one branch, $15.00; General Ticket for all Clinical branches, $100.00. Tickets good for regular clinics for six weeks from date of issue; or, for one clinic weekly for three months.

☞ In addition to the facilities of the College Dispensary and Hospital, the Professors utilize their services in the following large general and special Hospitals: PHILADELPHIA (Medical, Surgical, Neurological, Obstetric and Pædiatric, and Dermatological Wards and Clinics); WOMAN'S (Surgical) PENNSYLVANIA (Surgical, Eye); ORTHOPÆDIC and INFIRMARY for NERVOUS DISEASES; WILLS'S EYE; HOWARD (Skin); CHILDREN'S (Ear); JEWISH (Surgical, Medical); and ST. CLEMENT'S (Surgical).

For announcement and further information, address or apply to

WESTERN PENNSYLVANIA MEDICAL COLLEGE
CITY OF PITTSBURGH.
SESSIONS OF 1889—90.

The REGULAR SESSION begins on the last Tuesday of September, and continues six months. During this session, in addition to four Didactic Lectures, two or three hours are daily allotted to Clinical Instruction. Attendance upon two regular courses of lectures is requisite for graduation. A three years' graded course is also provided. The SPRING SESSION embraces recitations, clinical lectures and exercises, and didactic lectures on special subjects; this session begins the second Tuesday in April, and continues ten weeks.

The laboratories are open during the collegiate year for instruction in chemistry, microscopy, practical demonstrations in medical and surgical pathology, and lessons in normal histology. Special importance attaches to "the superior clinical advantages possessed by this College." For particulars, see annual announcement and catalogue, for which, address the Secretary of Faculty, Prof. J. W. J. McKENNAN.

Business correspondence should be addressed to

COLDEN'S LIQUID BEEF TONIC

AN INVALUABLE AID IN MEDICAL PRACTICE

ORIGINAL | COLDEN'S LIEBIG'S LIQUID EXTRACT OF BEEF AND TONIC INVIGORATOR. | LABEL.

ESSENTIALLY DIFFERENT FROM ALL OTHER BEEF TONICS. UNIVERSALLY ENDORSED BY LEADING PHYSICIANS.

This preparation, consisting of the Extract of Beef (prepared by Baron Liebig's process), the best Brandy obtainable, soluble Citrate of Iron, Cinchona and Gentian is offered to the Medical Profession upon its own merits. It is of inestimable value in the treatment of **Debility, Convalescence from Severe Illness Anæmia, Malarial Fever, Chlorosis, Incipient Consumption, Nervous Weakness,** and maladies requiring a Tonic and Nutrient. It is quickly absorbed by the Stomach and upper portion of the Alimentary Canal, and therefore finds its way into the circulation quite rapidly.

COLDEN'S LIQUID BEEF TONIC appeals to the judgment of intelligent Physicians in the treatment of

ALL CASES OF GENERAL DEBILITY.

By the urgent request of several eminent members of the medical profession, I have added to each wineglassful of this preparation two grains of Soluble Citrate of Iron, and which is designated on the label, **"With Iron, No. 1;"** while the same preparation, **Without Iron,** is designated on the label as **"No. 2."**

In prescribing this preparation, physicians should be particular to mention *"COLDEN'S,"* viz., *"Ext. Carnis Fl. Comp. (Colden)."* A Sample of **COLDEN'S BEEF TONIC** will be sent free on application, to any physician (enclosing business card) in the United States. *Sold by druggists generally.*

FELLOWS'
HYPO-PHOS-PHITES

(SYR: HYPOPHOS: COMP: FELLOWS)

Contains **The essential elements** to the Animal Organization—Potash and Lime.

The **Oxydizing Agents**—Iron and Manganese;

The **Tonics**—Quinine and Strychnine,

And the **Vitalizing Constituent**—Phosphorus,

Combined in the form of a Syrup, with *slight alkaline reaction.*

It Differs in Effect from all others, being pleasant to taste, acceptable to the stomach, and harmless under prolonged use.

It has Sustained a High Reputation in America and England for efficiency in the treatment of Pulmonary Tuberculosis, Chronic Bronchitis, and other affections of the respiratory organs, and is employed also in various nervous and debilitating diseases with success.

Its Curative Properties are largely attributable to Stimulant, Tonic, and Nutritive qualities, whereby the various organic functions are recruited.

In Cases where innervating constitutional treatment is applied, and tonic treatment is desirable, this preparation will be found to act with safety and satisfaction.

Its Action is Prompt; stimulating the appetite and the digestion, it promotes assimilation, and enters directly into the circulation with the food products.

The Prescribed Dose produces a feeling of buoyancy, removing depression or melancholy, and hence is of great value in the treatment of MENTAL AND NERVOUS AFFECTIONS.

From its exerting a double tonic effect and influencing a healthy flow of the secretions, its use is indicated in a wide range of diseases.

Prepared by JAMES I. FELLOWS, Chemist,

48 VESEY STREET, NEW YORK.

PHILLIPS' COD-LIVER OIL
EMULSION.

SELECTED NORWAY COD-LIVER OIL (50%), combined with the PHOSPHATES.

A TRUE EMULSION WITHOUT SAPONIFICATION.

The most minute subdivision of the oil-globules yet accomplished in an Emulsion is herein presented, insuring **perfect miscibility in milk, water, or other fluid, ease of administration and digestibility.** It is **palatable** and **permanent.**

This preparation is not advertised to the public, and has the largest prescription patronage of any Emulsion in the United States.

Put up in 6 oz. and 14 oz. bottles.

A pamphlet with formula, photo-micrographic illustrations, etc., mailed upon application.

PHOSPHO-MURIATE OF QUININE,
COMPOUND.

A permanent combination of the soluble **Wheat Phosphates,** with **Muriate of Quinine, Iron,** and **Strychnia.**

Of greater strength than the various Hypophosphite compounds.

A RELIABLE ALTERATO-CONSTRUCTIVE,

Particularly indicated in conditions of **disturbed nutrition** and **tissue retrograde.**

An easily appropriated general tonic, promoting digestion, and safe under prolonged use.

THE P.P.P. SYRINGE

Is universally considered the most perfect urethral Syringe in the market, because it combines within itself all desirable qualities. It measures but 1½ x 2¾ inches, has a capacity of fully half an ounce, and is made of one piece of soft rubber with conical point. To protect this soft point and to prevent pocket dust from getting into the Syringe, a Hard Rubber cap screws air-tight over it and enables the patient to carry it in his pocket filled with the injection ordered, ready for use when away from home.

For sale by all druggists.

GENUINE BLAUD'S PILLS.

These pills, which have been inserted in the new French Pharmacopœia, have been employed with the greatest success for more than fifty years by most French and foreign physicians, to cure anemia, chlorosis, and all chlorotic affections in which iron is indicated.

Here is the opinion of men most eminent in medical science who have employed them.

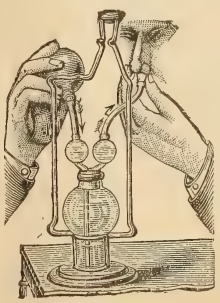
"For thirty-five years, in which I have practised medicine, I have recognized the incontestable advantages of BLAUD'S PILLS over all other ferruginous preparations, and I regard them as the best anti-chlorotic."—DR. DOUBLE, *Ex-President of the Academy of Medicine.*

"Of all the ferruginous preparations, which have given good results in the treatment of chlorotic affections, BLAUD'S PILLS appear to us to deserve to hold the first rank."—*Dictionnaire universel de médecine*, Vol. II, p. 99.

These pills, prepared according to the genuine formula of the originator, by his nephew, Aug. Blaud, Pharmacist of the Faculty of Paris, are sold only in bottles of 200 pills and half bottles of 100 pills, at a cost of 5 and 3 francs ($1.00, and seventy-five cents), and never in smaller quantities. *See that his name is stamped on each pill.* PARIS, 8 RUE PAYENNE, and at every Pharmacy. (Beware of imitations.)

BLAUD

A HOME TREATMENT



For **Catarrh, Deafness, Throat, and Lung Affections,** that will *cure.*

A new apparatus that has received the highest award, is giving universal satisfaction, and is just the thing for the busy practitioner. Special inducements to

PIL. PHENACETINE ET SALOL, 5 GRS., "W. H. S. & CO."

{Phenacetine-Bayer, ... 2½ grs.}
{Salol, ... 2½ grs.}

Anti-Rheumatic and Analgesic. This combination was first suggested by Dr. M. F. Price, Colton, Cal., President of the "Southern California Medical Society." In an address to the members he says: "In a case of acute Rheumatism, affecting elbows, wrists, knees, and ankles, ordered Phanacetine and Salol every three hours. No local application ordered. Made five daily visits, found the patient each day improved, discharged with orders to continue the medicine three times a day for a week."

After citing other cases, one of Sciatica where the patient was suffering such pain that the slightest motion caused faintness with nausea and continuous vomiting; two with acute Rheumatism, and one with Neuralgia of the stomach, Dr. Price continues:

"It will be observed that in some of these cases I have combined Salol with Phanacetine. I did this on the principle of the well-known effect of Salicylic Acid in Rheumatism, but I rely on the Phenacetine for the relief of the pain, and in this way perhaps the cure of the disease causing it." (*Southern California Practitioner*, August, 1889.)

PIL. TERPIN HYDRAT., 2 GRS., "W. H. S. & CO.,"

A new and potent remedy in the treatment of coughs, catarrh, bronchitis, and kindred diseases.

Terpin Hydrate is indicated in cases where violent irritation of the bronchial mucous membrane exists, and where the secretion is inconsiderable and peculiarly viscid, such as is met with in the chronic catarrh accompanying emphysema and phthisis. The effect obtained is always an increase and a liquefaction of the secretion, a considerable reduction of the irritation, and easy expectoration.

SOLUBLE PILLS.

Advanced pharmacy has, of late years, bestowed much attention upon eliminating the objectionable features which pertained to Pills, but it is only since their manufacture has been undertaken in wholesale quantities by responsible and capable parties that they have been produced in their present excellent quality.

The conditions of a perfect Pill are:

1*st.* *Ingredients of the finest quality.*
2*d.* *All materials weighed with scrupulous exactness.*
3*d.* *The mass sufficiently consistent to maintain the globular form, and yet readily soluble in the stomach.*
4*th.* *A coating which will preserve the mass in good condition, cover all offensive smell or taste, and facilitate deglutition.*

The continued favor which has been shown to our **Soluble Pills** is sufficient evidence that care has been bestowed upon their manufacture.

As for the purity of the drugs entering into their composition, and the presence in full and exact quantity of every article required by the formula in each case, we can only give our assurance that no deviation from correctness in any particular is, or ever has been, permitted in their manufacture; and they invite the most critical examination and test, either of analysis or of therapeutic effect.

They possess the advantage of a perfect coating, which is neither hard, bulky, opaque, nor insuluble, but elastic, thin, transparent, and readily soluble.

For further information about them we refer to our formula books and price lists, which we shall be happy to furnish upon application.

W. H. Schieffelin & Co.,
170 & 172 William Street,
NEW YORK.

LILLY'S

Improved

Glycerin Suppositories.

Contain 95 per cent. Pure Glycerin.

Made in both Adult and Infant Sizes.

FOR THE IMMEDIATE RELIEF OF CONSTIPATION.

These Suppositories are incomparably superior to those produced by others, inasmuch as the covering is impervious to moisture, unchangeable and easily removed, preserving the Suppository in all climates. The constitution of the Suppository is so modified as to cause no irritation of the rectum.

The value of **Glycerin Suppositories** in Constipation is well established, painless and copious stools being promptly produced. The Glycerin acts by lubrication and solution of the indurated feces and by stimulating the bowel, thus providing a certain and agreeable method of emptying the colon at pleasure.

After the insertion the Suppository should be retained as long as possible in order to obtain the best results.

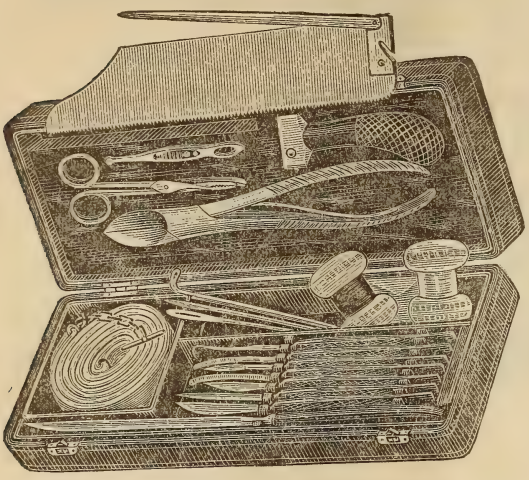
Glycerin Suppositories.—These invaluable "peristaltic persuaders" are prepared in a most excellent and approved manner by Messrs. Eli Lilly & Co., of Indianapolis. Their Suppositories contain 95 per cent. of glycerin, and a beauty of their construction is the peculiar water-proof covering of each Suppository, which is readily and easily removed. By simply pressing upon or slightly squeezing the Suppository between the fingers it slips out with astonishing ease, leaving the covering between the fingers. A great improvement, as any one will readily recognize who has ever made the effort to divest one of the ordinary Suppositories from its lead foil and tissue paper envelope. — *Medical Practitioner*, Oct., 1889.

ELI LILLY & COMPANY,

PHARMACEUTICAL CHEMISTS,

INDIANAPOLIS, IND., U. S. A.

LENTZ'S ASEPTIC COMPACT OPERATING SET, No. 10.



We have from time to time made improvements to this set and are now making a perfect aseptic set, which offers especial facilities for aseptic precautions; the blades are soldered into hollow German-silver handles, nickel-plated, are light so as not to be unwieldy and admit of a firm grasp when operating.

The saw is adjusted to the handle on an entirely new principle, being made to separate easily and to facilitate thorough cleansing.

The handle is entirely of metal and fenestrated to overcome unnecessary weight.

Scissors and Forceps having French locks can be separated, and the slide can be easily removed from Artery and Needle Forceps.

Therefore, no opportunity is offered for the lodgment and development of germs.

The entire set is patterned with especial reference to facility in cleansing.

The instruments can be sterilized by placing them in boiling water, without fear of damaging them. Wood or rubber handles will not admit of this procedure. For price, see case A.

The following instruments are put up in either a fine Mahogany or Morocco case, with nickel trimmings, lined with velvet, and has an extra space for Trephine with handle, and Elevator if desired.

One Amputating Knife (6 in. blade); One Finger Knife; One Hernia Knife; One Sharp Curved Bistoury; Two Scalpels; One Tenotome; One Tenaculum; One Pair Scissors, curved or flat; One Saw (9 in. blade); One Liston's Bone Forceps, with Spring; One Artery and Needle Forceps, improved; One Esmarch's Flat Rubber Tourniquet, with Chain; One Hæmostatic Forceps; One Director, with Aneurism Needle; Two Silver Probes; Silk, Wire, Wax and Needles.

With the Sixteen Instruments Contained in this Case, any Ordinary Operation may be Performed.

SIZE, 11 INCHES LONG, 4 INCHES WIDE, 2 INCHES HIGH.

GRAND NATIONAL PRIZE OF 16,600 FRANCS,

QUINA-LAROCHE

This meritorious Elixir, **QUINA-LAROCHE,** is prepared from the **three** Cinchonas; it is an agreeable and doubtless highly efficacious remedy.

—*The Lancet.*

VINOUS ELIXIR,

A STIMULATING RESTORATIVE

—AND—

ANTI-FEBRILE TONIC.

QUINA-LAROCHE under the form of a vinous **Elixir** contains the totality of the numerous principles of the **three** Cinchona barks. It is a preparation which renders great services to Therapeutics.—Extract of the *Gazette des Hôpitaux*, Paris.

FAR SUPERIOR TO ALL ORDINARY CINCHONA WINES.

LAROCHE'S QUINA, tried by the Academy of Medicine of Paris, is a specially prepared COMPOUND EXTRACT of Quinquina, a careful analysis, confirmed by experience, has shown that most of the wines and syrups hitherto used have not contained all the properties of this precious bark, of these some, although beneficial, are altogether lost, while many preparations contain but half the properties of the bark in varying proportions.

MR. LAROCHE, by his peculiar method, has succeeded in extracting all the active principles of the quinquina, combining these with *Catalan Wine* forming an Elixir free from the disagreeable bitterness of other similar preparations. Practitioners have found triple advantages in the use of this Elixir, it is a *strong tonic*, is easily administered, and perfectly harmless, being free from the unpleasant effects of Quinine.

THE FERRUGINOUS QUINA-LAROCHE is the invigorating tonic *par excellence*, having the advantage of being easily assimilated by the gastric juice; without, in any way, deranging the action of the digestive organs, proving itself to be a most efficacious remedy in cases of impoverishment of the blood, ANÆMIA, CHLOROSIS, INTESTINAL HÆMORRHAGE, CASTRALGIA, EXHAUSTION, ETC., ETC.

PARIS.—22 RUE DROUOT.—PARIS.

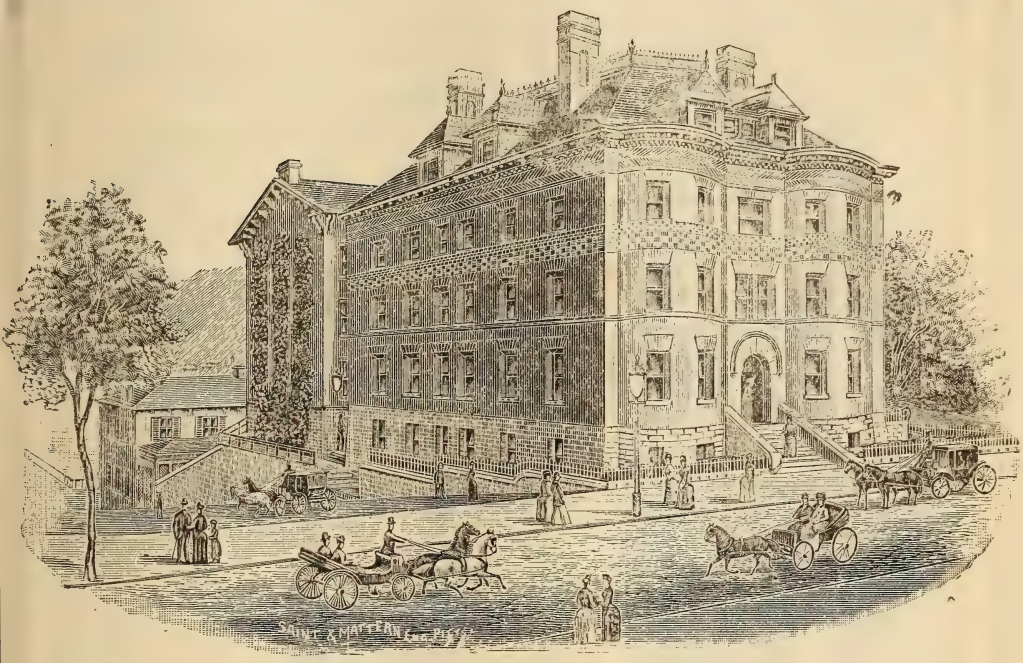
DR. R. S. SUTTON'S

Sanatorium for Diseases of Women.



Seventh Year Opens September 1, 1889.

ALLEGHENY CITY, PA.

This Institution is located on high ground, and overlooks the Allegheny, Monongahela and Ohio rivers; it commands a view of the city of Pittsburgh, and its picturesque surroundings. The building is large and beautiful, it is provided with every modern convenience, the halls are heated by steam, the rooms are commodious, well lighted and ventilated, and heated by open grates. The house is provided with a private parlor and reading-room for patients. The dining-room is large, handsomely finished, and furnished with small tables, securing privacy at meals for those who do not care to have meals served in their own rooms. Patients can be as secluded, should they desire it, as in a well appointed hotel. Each patient is examined by Dr. Sutton, and receives his daily personal attention, while Dr. J. H. Williamson, a physician of ample hospital experience, resides in the Institution, and has, under Dr. Sutton, the immediate care of the patients. The Institution accommodates 25 patients, and is equal in comfort to the best hotels.

Electricity, baths, douches, massage, local treatment, general medication and surgical operations are resorted to according to the requirements of each patient.

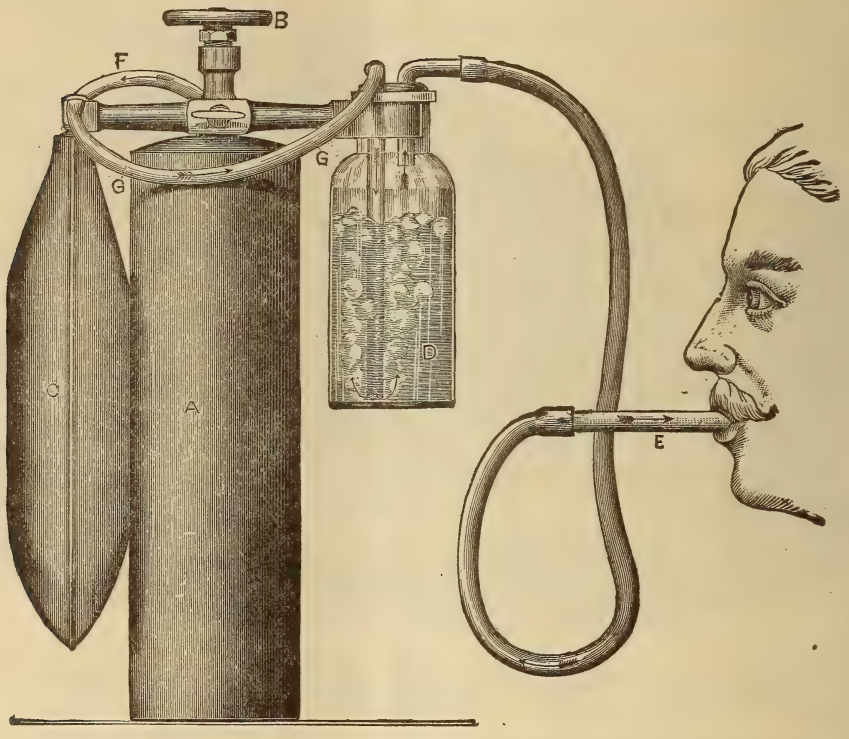
INHALATION APPARATUS

FOR

THE THERAPEUTIC ADMINISTRATION OF OXYGEN.



In the treatment of lung troubles by Oxygen its exhibition by inhalation is preferred. The apparatus herewith shown is a modification of the Nitrous Oxide apparatus which we have supplied for many years. It is made in the best manner throughout, and is the outcome of years of experience in the manufacture of gas apparatus. It will be found to meet all the requirements.

We supply the gas in two sizes of cylinders, containing respectively forty and one hundred gallons, either pure Oxygen, or a mixture of Oxygen and Nitrous Oxide in definite proportions of 20 per cent., and forty per cent. of Nitrous Oxide.

Whether pure or mixed the gas is sold at the uniform price of 5 cents a gallon. The cost of the cylinders will be refunded on their return empty with the valves in good condition. Full description of Inhalation and Enema apparatuses with directions for use accompany each apparatus, or will be supplied on application.

PRICES.

Inhalation Apparatus	$5.00
Cylinder, 40 gallons' capacity	6.00
40 gallons Gas, either pure Oxygen or mixed Oxygen and Nitrous Oxide	2.00
Complete Apparatus, Cylinder, and 40 gallons Gas	$13.00
Inhalation Apparatus	$5.00
Cylinder, 100 gallons' capacity	15.00
100 gallons Gas, either pure or mixed	5.00
Complete Apparatus, Cylinder, and 100 gallons Gas	$25.00

Diseases of the Uric Acid Diathesis.
LAMBERT'S
LITHIATED HYDRANGEA
KIDNEY ALTERATIVE—ANTI-LITHIC.

FORMULA—Each fluid drachm of "Lithiated Hydrangea" represents thirty grains of FRESH HYDRANGEA and three grains of CHEMICALLY PURE Benzo-Salicylate of Lithia. Prepared by our improved process of osmosis, it is INVARIABLY OF DEFINITE and UNIFORM therapeutic strength, and hence can be depended upon in clinical practice.

DOSE—One or two teaspoonfuls four times a day (preferably between meals).

Urinary Calculus, Gout, Rheumatism, Bright's Disease, Diabetes, Cystitis, Hæmaturia Albuminuria, and Vesical irritations generally.

We have much valuable literature upon GENERAL ANTISEPTIC TREATMENT, LITHEMIA, DIABETES, CYSTITIS, ETC. To forward to Physicians upon request.

LAMBERT PHARMACAL CO., ST. LOUIS, MO.

★ GENOIS' ★

Diastasic Extract of Malt,

A PURE LIQUID EXTRACT OF MALT.

CONTAINING at least 12 per cent. of extractive matter, rich in nitrogenous principles, and less than 4 per cent. of alcohol for its preservation. It is recommended for the treatment of dyspepsia, defective nutrition, flatulence, etc., as well as for a tonic. It is also recommended to persons suffering from insomnia. Its sedative and soporific action is gentle and gradual. Generally prescribed by physicians. It is now the standard malt in the market. Over 300 gross sold in Philadelphia last year. Obtainable from the retail drug trade.

French, Richards & Co.,

Sole Wholesale Agents,

1001, 1003, and 1005 Market Street, Philadelphia.

Derangements of the Liver.

HORSFORD'S ACID PHOSPHATE

has been used with good effect in diseases of the liver, and biliary disorders, where an acid treatment is indicated, and has especially proved a desirable medium to employ in chronic hepatic affections. By its action it stimulates the liver and promotes an increased flow of bile.

The Acid Phosphate is far superior to the nitro-muriatic acid of the pharmacopœia, in that it serves to assist digestion, and promotes in a marked degree the healthful action of the digestive organs.

Dr. H. P. NELSON, Ashland, Ohio, says: "I have used it in a case of torpor of the liver, and am highly pleased with the results obtained."

Send for descriptive circular. Physicians who wish to test it will be furnished a bottle on application, without expense, except express charges.

Rumford Chemical Works, Providence, R. I.

Beware of Substitutes and Imitations.

CAUTION:—Be sure the word "Horsford's" is printed on the label. All others are spurious. Never sold in bulk.

A Phosphorized Cerebro-Spinant

(FRELIGH'S TONIC).

FORMULA.

Ten minims of the Tonic contain the equivalents (according to the formulæ of the U. S. P., and Dispensatory) of

Tinct. Nux Strychnos,	1 minim.
" Ignatia Amara,	1 "
" Cinchona,	4 "
" Matricaria,	1 "
" Gentian,	½ "
" Columbo,	½ "
" Phosphorus, C. P.,	1-300 gr.
Aromatics,	2 minims.

Dose: 5 to 10 drops in 2 tablespoonfuls of water.

INDICATIONS.

Paralysis, Neurasthenia, Sick and Nervous Headache, Dyspepsia, Epilepsy, Locomotor Ataxia, Insomnia, Debility of Old Age, and in the Treatment of Mental and Nervous Diseases.

A BALTIMORE PHYSICIAN, WHOSE DIPLOMA DATES FROM 1825, SAYS:

"Your combination I find vastly more effective than any tonic I have ever used. It furnishes a most powerful evidence of the vastly increased power of medicament by combination and judicious pharmaceutic preparation."

Price, One Dollar per Bottle, containing 100 of the Average 5-Drop Doses.—Physicians' single sample delivered, charges prepaid, on application. That every physician may be his own judge of its value, irrespective of the opinions of others, we make the following

SPECIAL OFFER:

We will send to any physician, delivered, charges prepaid, on receipt of twenty-five cents, and his card or letter-head, half a dozen physicians' samples, sufficient to test it on as many cases for a week to ten days each. The Tonic is kept in stock regularly by all the leading wholesale druggists of the country. As we furnish no samples through the trade, wholesale or retail, for samples, directions, price-lists, etc., address,

I. O. WOODRUFF & CO.,

Manufacturers of Physicians' Specialties,

No. 88 Maiden Lane, New York City.

Apollinaris

"THE QUEEN OF TABLE WATERS."

The filling at the Apollinaris Spring (Rhenish Prussia), amounted to

11,894,000 BOTTLES IN **1887,**
12,720,000 BOTTLES IN **1888** AND
15,822,000 BOTTLES IN **1889.**

"The annual consumption of this favorite beverage affords a striking proof of the widespread demand which exists for table water of absolute purity, and it is satisfactory to find that, wherever one travels, in either hemisphere, it is to be met with; it is ubiquitous, and should be known as the cosmopolitan table water. 'Quod ab omnibus, quod ubique.'"—BRITISH MEDICAL JOURNAL.

THE BEST NATURAL APERIENT.

THE APOLLINARIS COMPANY, LIMITED, London, beg to announce that, as numerous APERIENT WATERS are offered to the public under names of which the word "Hunyadi" forms part, they have now adopted an additional Label comprising their Registered Trade Mark of selection, which consists of

A RED DIAMOND.

This Label will henceforth also serve to distinguish the HUNGARIAN APERIENT WATER SOLD BY THE COMPANY from all other Aperient Waters.

DEMAND THE 
DIAMOND MARK.

And insist upon receiving the HUNGARIAN APERIENT WATER of the APOLLINARIS COMPANY, LIMITED, London.

BOUDAULT'S PEPSINE

The only Pepsine used in the Hospitals of Paris for the last Thirty Years.

Unlike the various substitutes which, in most cases, are but unscientific or incompatible compounds, forced upon the Medical Profession as aids to digestion by extensive advertising, but which, when submitted to the proper tests, are found to be useless as digestive agents, Pepsine is constantly gaining in the esteem of the careful practitioner.

Since the introduction of Pepsine, by Boudault and Corvisart in 1854, the original BOUDAULT'S PEPSINE HAS BEEN AT ALL TIMES CONSIDERED THE BEST, as is attested by the awards it has received at the Expositions of 1867, 1868, 187 1873, in 1876 at the Centennial Exposition of Philadelphia, and in 1878 at the Paris Exposition.

The most reliable tests, carefully applied, will satisfy everyone that BOUDAULT'S PEPSINE HAS A MUCH HIGHER DIGESTIVE POWER than the best Pepsines now before the Profession, and is therefore especially worthy of their attention.

BOUDAULT'S PEPSINE is prepared in the form of Pepsine Acid and Pepsine Neutral. It is sold in bottles of one ounce, with a measure containing exactly five grains; also in bottles of four, eight, and sixteen ounces for dispensing.

BOUDAULT'S WINE OF PEPSINE

FORMULA OF DR. CORVISART.

The taste of Pepsine being perfectly disguised in this Wine, it may be recommended to persons who have difficulty in taking Pepsine in the form of Powder. This Wine is tested so that a tablespoonful of it is equal in digestive power to ten grains of Boudault's Pepsine in powder. Sold only in bottles of eight ounces.

TANRET'S PELLETIERINE

For the Treatment of Tape-Worm (Tænia Solium).

This New Tænifuge, the Active Alkaloid of Pomegranate Bark, has of late come into extensive use in France for the treatment of Tape-Worm (Tænia Solium). The results of numerous experiments with it at the Marine Hospitals of Toulon, St. Mandrier, etc., and in the Hospitals of Paris, St. Antoine, La Charité, Necker Beaujon, etc., have all been most satisfactory. Doctor Dujardin Beaumetz, Member of the Academy of Medicine, and Professor Laboulbene, in their report to the Society of Therapeutics, have given it their unqualified approval, after the most searching experiments. This preparation is pleasant to administer, and, if certain preliminaries are observed, success will be insured.

Sold only in bottles containing one dose.

DUCRO'S ALIMENTARY ELIXIR

A Combination uniting the properties of Alcoholic Stimulants and Raw Meat.

This preparation, which has been used with great success in the hospitals of Paris since 1868, is adapted to the treatment of all diseases requiring administration, in a small volume, of a tonic able to stimulate and support the vital forces, as *Pulmonar Phthisis, Depression and Nervous Debility, Adynamia, Malurious Cachexia, etc.*

Prepared by EMILE DURIEZ & CO., Successors to DUCRO & CIE, Paris.

KIRKWOOD'S INHALER

This is the only complete, reliable, and effective inhaler in use, arranged for the direct application of Muriate of Ammonia and other remedial agents in the state of vapor to the diseased parts of the air-passages in the treatment of catarrh and diseases of the throat and lungs. No heat or warm liquids required in its use.

It is entirely different from the various frail, cheap instruments that have been introduced.

KIRKWOOD'S INHALER is accompanied by testimonials of the highest professional character, together with carefully prepared formulas for use.

RETAIL PRICE, COMPLETE, $2.50.

☞ A liberal discount allowed to the trade and profession. For descriptive pamphlet or other information address

E. FOUGERA & CO., 30 North William St., New York,

Sole Agents for the above Preparations.

GOUDRON DE BLOUNT

PREPARED FROM THE GENUINE CAROLINA TAR.

DOSE.—One fluid drachm four or more times a day (as indicated), either full strength, diluted, or, in combination.

INDICATIONS.—Chronic and acute affections of the Air Passages, Coughs, Colds, Bronchitis, Asthma and Consumption.

WILLIAM MURRELL, M.D., F.R.C.P.,

Lecturer on Pharmacology and Therapeutics at the Westminster Hospital; Examiner in Materia Medica to the Royal College of Physicians of London; Fellow of the Medico-Chirurgical College of Philadelphia,

Says:—"I have used with success 'Goudron de Blount.' The results have been good, and the preparation is popular with patients."

Clinical Notes sent on Application. ST. LOUIS, MO.

Permanent Pepsin.

THE INSEPARABLE STANDARDS OF VALUE ARE PERMANENCY AND ACTIVITY.

WHEN a physician prescribes pepsin and his patient finds that it "sticks to the paper," that it forms a gummy mass "in powders," he may rely upon it that FAIRCHILD'S PEPSIN has not been dispensed; if he has ordered Fairchild's, this behavior is positive evidence that he and his patient have been the victims of "substitution."

Pepsins which are hygroscopic, which do undergo upon exposure to air the changes characteristic of peptone, are offered (in the form of scales and in powder) with pretensions to permanent quality.

If a product is sought, of well-proven permanency and of highest standard of activity, FAIRCHILD'S PEPSIN is the one which will never give cause for complaint.

Fairchild's was the original "Scale Pepsin;" the first positively "free from starch, sugar, acid, peptones or any added substance." The host of imitations of "Scale Pepsin" bear witness to the value and reputation of the original.

FAIRCHILD BROS. & FOSTER,

82 and 84 Fulton Street, New York.

ALETRIS CORDIAL

UTERINE TONIC AND RESTORATIVE.

Prepared from the Aletris Farinosa or True Unicorn and Aromatics.

INDICATIONS.

Amenorrhea, Dysmenorrhea, Leucorrhea, Prolapsus Uteri, Sterility, to Prevent Miscarriage, Etc.

DOSE:—ONE TEASPOONFUL THREE OR FOUR TIMES A DAY.

UNRIVALED AS A UTERINE TONIC IN IRREGULAR, PAINFUL, SUPPRESSED AND EXCESSIVE MENSTRUATION.

It Restores Normal Action to the Uterus, and Imparts Vigor to the Entire Uterine System.

☞Where women have miscarried during previous pregnancies, or in any case where miscarriage is feared, the ALETRIS CORDIAL is indicated, and should be continuously administered during entire gestation.

CHAS. CLAY, M. R. C. S., Manor House, Dewsbury, England, says:—I find Aletris Cordial (Rio) is of great service in threatened miscarriage.

FRANCIS E. CANE, L. R. C. S., &c., Leeds, England, says:—I have tried the Aletris Cordial (Rio) in two cases of long standing dysmenorrhea, with excellent results. One of these patients has spent a week in bed every month for two years. After all the usual remedies, I put her on Aletris Cordial, and for the last two periods she has been out and about all the time.

L. M. WATSON, M. D., Delhi, Ills., says:—I have used Aletris Cordial (Rio) in cases of dysmenorrhea. suppressed menses and threatened miscarriage, and also, combined with Celerina, as a tonic after confinement, with the happiest results, and now I am using it on a case of leucorrhea, with injections of S. H. Kennedy's Extract of Pinus Canadensis, and it is acting like a charm.

P. H. OWEN, M. D., Morganville, Ala., says:—I have prescribed Aletris Cordial (Rio) in several cases with the most satisfactory results, and regard it as the best uterine tonic I have met with in a professional experience of over twenty-five years. In cases of threatened miscarriage it acts like a charm. Would recommend its continuous administration in all cases when there is any indication of miscarriage.

Dr. W. BERTHELOT, Santander, Spain, says:—I have tried the Aletris Cordial (Rio), and it has seemed to me to be useful, especially in cases of dysmenorrhea.

Dr. RASQUINET, Jupile, near Liege, Belgium, says:—I tried Aletris Cordial (Rio) in the case of a woman who had had several miscarriages at the end of five months, and who is now again pregnant, having reached the seventh month, thanks to Aletris Cordial.

R. REECE, M. R. C. S., Walton-on-Thames, England, says:—Aletris Cordial (Rio) in painful menstruation is most valuable. A wife of a minister suffered much, and had had three miscarriages. I prescribed Aletris Cordial. She has for the first time, gone her full time, and was safely confined with a male child.

J. T. COLLIER, M. D., Brooks, Me., says:—I have used your Aletris Cordial (Rio) in cases of females at the menopause. Consider it one of the finest remedies for these cases.

Dr. GORDILLON, St. Amand, France, says: I have tried the Aletris Cordial (Rio) in a case of dysmenorrhea. The result I obtained from the use of your preparation was excellent, better than I had obtained in the same patient by prescribing the usual remedies employed in such cases.

W. F. TOOMBS, M. D., Morrillton, Ark., says:—I have used a great deal of your Aletris Cordial (Rio) and I find it all you claim for it in amenorrhea, dysmenorrhea, metritis, leucorrhea; I don't think it has an equal. I have used it in two cases of threatened miscarriage and the trouble was obviated. For a general Uterine Tonic I know of nothing superior.

R. D. PATTERSON, L. R. C. S. &c., Medical Officer, Caledon Dispensary, Co. Tyrone, Ireland, says:—I have very great pleasure in testifying to the very high opinion I hold of Aletris Cordial (Rio) in threatened miscarriage.

The Acutely Ill.

When a patient is acutely ill, the digestive powers share in the general condition, and consequently the food supplied should be of the most easily assimilable character. The predigestion of starchy matters outside the body, as in MELLIN'S FOOD, is necessary, and the soluble carbohydrates of which this food consists, soluble because predigested, form the true food of the acutely ill.—J. MILNER FOTHERGILL, M.D., Edin.

A sample of MELLIN'S FOOD *will be sent to any physician, free of expense, upon application.*

Doliber-Goodale Co., Boston, Mass.

DR. WILLIAM A. HAMMOND'S SANITARIUM,

FOR DISEASES OF THE NERVOUS SYSTEM, Washington, D. C.

DR. WILLIAM A. HAMMOND announces to the medical profession that he has returned from New York to Washington, D. C., where he has established, in a building especially erected for the purpose, a *Sanitarium* for the treatment of mild and curable cases of mental derangement, diseases of the nervous system generally, cases of the morphia and chloral habits, and such other affections as may properly be treated by the remedial agencies under his control.

The *Sanitarium* is situated on Columbia Heights, at the corner of Fourteenth Street and Sheridan Avenue. The position is the highest in the immediate vicinity of Washington, the soil is dry, and all the surroundings are free from noxious influences. Electricity in all its forms, baths, douches, massage, inhalations, nursing, etc., are provided as may be required by patients, in addition to such other medical treatment as may be deemed advisable.

A large *Solarium* for sun-baths and exercise in cold or inclement weather and heated with steam in winter, is constructed on the top of the main building.

The *Sanitarium* has now been in successful operation since the 7th of January, 1889.

For further information Dr. Hammond can be addressed at The Sanitarium, Fourteenth Street and Sheridan Avenue, Washington, D. C.

Doctor.—Three days' trial will prove that we offer a true galactagogue which greatly increases the quantity of mother's milk, notably improves the quality and removes the maternal debility due to Lactation,

DETROIT COLLEGE OF MEDICINE.

SESSION 1889-90.

Clinical and Practical teaching are made an important feature of this College. Clinical instruction is given daily at HARPER, ST. MARY'S and ST. LUKE'S HOSPITAL, at the COLLEGE, at COLLEGE EYE and EAR INFIRMARY, ST. MARY'S FREE EYE and EAR INFIRMARY, and at the three FREE DISPENSARIES. The facilities offered by this college are unsurpassed for the practical study of MEDICINE, SURGERY, OBSTETRICS, GYNÆCOLOGY, DISEASES OF CHILDREN, GENITO-URINARY, and ORTHOPÆDIC SURGERY, OPHTHALMOLOGY and OTOLOGY, DERMATOLOGY and LARYNGOLOGY.

REGULAR SESSION opens on Wednesday, Sept. 25, and continues six months. During the session, the Professors will take special pains to examine the Students upon the subjects of the previous lectures.

SPRING SESSION begins April 2d, 1890; and closes June 11th.

FEES.—Matriculation fee, $5; Fees for Regular Session, $50; Spring Session, $10, to those who attend the regular term—to all others, $25; Hospital Fee, $10; Graduation Fee, $30; Perpetual Ticket, $100.

For further particulars, and for College Circular, apply to

WESTERN PENNSYLVANIA MEDICAL COLLEGE
CITY OF PITTSBURGH.
SESSIONS OF 1889—90.

The REGULAR SESSION begins on the last Tuesday of September, and continues six months. During this session, in addition to four Didactic Lectures, two or three hours are daily allotted to Clinical Instruction. Attendance upon two regular courses of lectures is requisite for graduation. A three years' graded course is also provided. The SPRING SESSION embraces recitations, clinical lectures and exercises, and didactic lectures on special subjects; this session begins the second Tuesday in April, and continues ten weeks.

The laboratories are open during the collegiate year for instruction in chemistry, microscopy, practical demonstrations in medical and surgical pathology, and lessons in normal histology. Special importance attaches to "the superior clinical advantages possessed by this College." For particulars, see annual announcement and catalogue, for which, address the Secretary of Faculty, Prof. J. W. J. MCKENNAN.

About advertisements.

The readers of the Reporter know that the publishers have tried to avoid the appearance—as well as the fact—of sacrificing the interest of the reader to the pecuniary gain of the Journal. Still we do not wish to underrate the value of our advertising pages to our readers. We try to admit to them nothing but what is worthy of consideration. We cannot judge of the claims of various preparations, but those we lay before our readers are worth trying and those who try them shall determine their merits.

Our readers may therefore be sure that there is much to interest, & to instruct them, in the advertising pages; and we would strongly urge them to read these pages as regularly as they do the other part of the Reporter.

Partly because we rigidly exclude our advertisers from the "reading" pages we bespeak especial attention for what they say for themselves in the pages devoted to them.

The Publisher of the
Medical & Surgical Reporter.

Doctor :

Did you ever think of the extremely important part which the Hypophosphites of Lime and Soda play in the process of animal nutrition ?

There is absolutely no complete life without them.

They enter into the composition of muscle, bone, cartilage, connective tissue, nerve tissue, and, in fact, every important tissue of the human body. Besides this, the soda salt takes the lactic acid, which is such a constant product of faulty assimilation, and breaks it up into carbonic acid gas and water, in which forms it is at once harmless and is readily discharged from the system.

When the entire system is in a healthy condition, with every organ working properly, and supplied with the proper variety of food, they are found in sufficient quantities at all times. But when the organs of digestion and assimilation get out of order, or foci of inflammation are established in various parts of the body, causing rapid destruction of tissue, they cannot then be supplied naturally in due proportion, and hence must be artificially supplied, or the system suffers and the disease progresses to its fatal termination.

In McArthur's Syrup you will find the most agreeable and reliable means of artificially supplying these important elements.

It increases the appetite, giving tone and a feeling of buoyancy and vigor to the entire system. The flesh increases and becomes firm, the cheeks take on the hue of health, and the patient feels completely restored.

The diseases in which these results are produced are consumption and all Chronic Diseases of the Throat and Lungs, Scrofula, the various forms of Nervous and Mental Debility, and Perversions of Nutrition, as Fibroids, &c.

Send for a valuable treatise on "The Curability and Treatment of Consumption," and a sample bottle of McArthur's Syrup, free, if you will pay express charges.

THE P.P.P. SYRINGE

Is universally considered the most perfect urethral Syringe in the market, because it combines within itself all desirable qualities. It measures but 1½ x 2¾ inches, has a capacity of fully half an ounce, and is made of one piece of soft rubber with conical point. To protect this soft point and to prevent pocket dust from getting into the Syringe, a Hard Rubber cap screws air-tight over it and enables the patient to carry it in his pocket filled with the injection ordered, ready for use when away from home.

For sale by all druggists.

PHENACETINE-BAYER.

In therapeutic action it is like all the analgesic antithermics, it has a double action—it lowers temperature and soothes pain. The lowering of the temperature is noticeable in cases of pyrexia. In fevers, 7½ grains of Phenacetine lowers the temperature by 1.8° to 3.4° F., and the antithermic action following such a dose lasts four hours. In certain cases the apyrexial period is more prolonged even from the same dose. Phenacetine is thought by some to be superior to antipyrin and acetanilid in producing marked antithermic effects without toxic phenomena. But it is above all as an analgesic that Phenacetine outrivals its predecessor. While it is as powerful, it does not produce pain in the stomach or the scarlatinaform rash of the antipyrin, nor does it give rise to the cyanosis of the acetanilid. However prolonged may be its administration, no bad effect has ever been seen from its use. It has been used for the relief of every form of pain, even for the lightning pain of tabes, with the best results. This double action, as an antithermic and as an analgesic, results from an effect produced upon the spinal cord; and the Phenacetine may be considered a depressor of the excitability of the medulla. The digestive, respiratory, and circulatory systems are not at at all affected by Phenacetine. It is inodorous, it is tasteless, and it is innocuous. [From a paper presented to the Central Kentucky Medical Association, by Steele Bailey, M. D., New England Medical Monthly, March, 1890.]

Phenacetine-Bayer, prepared by the Farbenfabriken, formerly Friedr. Bayer & Co., Elberfeld, is supplied by us in ounces and also in the form of our soluble pills and compressed tablets, containing two, four and five grains each. Either form may be obtained of any reputable apothecary.

ARISTOL.

Aristol, a combination of iodine and thymol, manufactured by the Farbenfabriken, formerly Fredr. Bayer & Co., Elberfeld, Germany, is a valuable, inodorous and non-toxic antiseptic remedy, said to be superior to Iodoform, Iodol and Sozo-Iodol.

For further information regarding this new remedy we would refer to the notes we have published, which we will be pleased to mail to applicants.

SULFONAL-BAYER.

Wm. H. Thomson, M. D., LL. D., in speaking of Sulfonal, says:—"Sulfonal is a pure hypnotic, neither anæsthetic nor depressing in character, and it does not affect the heart or circulation, and the sleep it produces is perfect. Being quite insoluble, it requires about three hours to become thoroughly dissolved in the stomach, and should be given about two hours before bed-time. As it is not affected by the digestive secretions, it may be given shortly after the evening meal.

"Sulfonal is of great value in the insomnia of the insane, and the dose should be repeated once during the night if the sleep is too short. **It is specially recommended in cases of nervous insomnia,** also in the sleeplessness of delirium tremens. In the latter case, gr. xx. should be administered every two hours until grs. lx or lxxx have been taken, but it should be remembered that every case of delirium tremens is also a case or starvation, and to produce sleep the patient must be fed. Dose as a hypnotic, gr. xv-xx." [From Notes, Materia Medica, and Therapeutics. Lectures delivered by Prof. Wm. H. Thomson, M. D., LL.D. Edited by Wm. H. McEnroe, M. D.]

Sulfonal-Bayer, prepared by the Farbenfabriken, formerly Fredr. Bayer & Co., Elberfeld, is supplied by us in ounces and in the form of Tablets of 5, 10 and 15 grains, put up in bottles of 10 and 100 tablets each.

We also offer Sulfonal-Bayer in the form of our soluble pills, containing 5 grains each.

W. H. Schieffelin & Co.,

170 & 172 William Street,

NEW YORK.

ESTABLISHED 1855.

DRS. STRONG'S SANITARIUM,

SARATOGA SPRINGS, NEW YORK,

Receives persons recommended to it by their home physicians for Treatment, Change, Rest or Recreation, and places them under well-regulated hygienic conditions so helpful in the treatment of chronic invalids or the overtaxed.

For Treatment: In addition to the ordinary remedial agents, it employs Turkish, Russian, Roman, Sulphur, Electro-Thermal, the French Douche (Charcot's), and all Hydropathic Baths; Vacuum Treatment, Swedish Movements Massage, Pneumatic Cabinet, Inhalations of Medicated, Compressed, and Rarefied Air, Electricity in various forms, Thermo-Cautery, Calisthenics, and Saratoga Waters, under the direction of a staff of educated physicians.

For Change: This Institution is located in a phenomenally dry, tonic, and quiet atmosphere, in the lower arc of the Adirondack Zone, and within the "Snow Belt."

For Rest: The Institution offers a well-regulated, quiet home, heated by steam and thoroughly ventilated, with cheering influences and avoiding the depressing atmosphere of invalidism.

For Recreation: To prevent introspection, are household sports at all seasons of the year, and in Winter, tobogganning, elegant sleighing etc.; in Summer, croquet, lawn-tennis, etc.

Private professional references furnished upon application. Physicians are invited to inspect the Institution at their convenience. A liberal discount to physicians and their families.

For further information, address, DRS. S. S. & S. E. STRONG.

A Phosphorized Cerebro-Spinant

(FRELIGH'S TONIC).

FORMULA.

Ten minims of the Tonic contain the equivalents (according to the formulæ of the U. S. P., and Dispensatory) of

Tinct. Nux Strychnos,	1	minim.
" Ignatia Amara,	1	"
" Cinchona,	4	"
" Matricaria,	1	"
" Gentian,	½	"
" Columbo,	½	"
" Phosphorus, C. P.,	1-300	gr.
Aromatics,	2	minims.

Dose: 5 to 10 drops in 2 tablespoonfuls of water.

INDICATIONS.

Paralysis, Neurasthenia, Sick and Nervous Headache, Dyspepsia, Epilepsy, Locomotor Ataxia, Insomnia, Debility of Old Age, and in the Treatment of Mental and Nervous Diseases.

A BALTIMORE PHYSICIAN, WHOSE DIPLOMA DATES FROM 1825, SAYS:

"Your combination I find vastly more effective than any tonic I have ever used. It furnishes a most powerful evidence of the vastly increased power of medicament by combination and judicious pharmaceutic preparation."

Price, One Dollar per Bottle, containing 100 of the Average 5-Drop Doses.—Physicians' single sample delivered, charges prepaid, on application. That every physician may be his own judge of its value, irrespective of the opinions of others, we make the following

SPECIAL OFFER:

We will send to any physician, delivered, charges prepaid, on receipt of twenty-five cents, and his card or letter-head, half a dozen physicians' samples, sufficient to test it on as many cases for a week to ten days each. The Tonic is kept in stock regularly by all the leading wholesale druggists of the country. As we furnish no samples through the trade, wholesale or retail, for samples, directions, price-lists, etc., address,

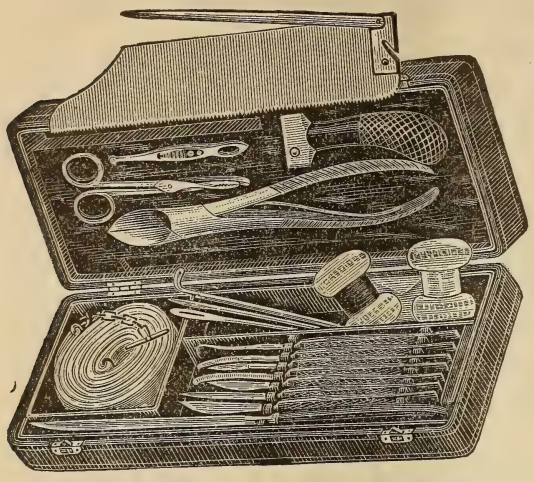
LENTZ'S ASEPTIC COMPACT OPERATING SET, No. 10.



We have from time to time made improvements to this set and are now making a perfect aseptic set, which offers especial facilities for aseptic precautions; the blades are soldered into hollow German-silver handles, nickel-plated, are light so as not to be unwieldy and admit of a firm grasp when operating.

The saw is adjusted to the handle on an entirely new principle, being made to separate easily and to facilitate thorough cleansing.

The handle is entirely of metal and fenestrated to overcome unnecessary weight.

Scissors and Forceps having French locks can be separated, and the slide can be easily removed from Artery and Needle Forceps.

Therefore, no opportunity is offered for the lodgment and development of germs.

The entire set is patterned with especial reference to facility in cleansing.

The instruments can be sterilized by placing them in boiling water, without fear of damaging them. Wood or rubber handles will not admit of this procedure. For price, see case A.

The following instruments are put up in either a fine Mahogany or Morocco case, with nickel trimmings, lined with velvet, and has an extra space for Trephine with handle, and Elevator if desired.

One Amputating Knife (6 in. blade); One Finger Knife; One Hernia Knife; One Sharp Curved Bistoury; Two Scalpels; One Tenotome; One Tenaculum; One Pair Scissors, curved or flat; One Saw (9 in. blade); One Liston's Bone Forceps, with Spring; One Artery and Needle Forceps, improved; One Esmarch's Flat Rubber Tourniquet, with Chain; One Hæmostatic Forceps; One Director, with Aneurism Needle; Two Silver Probes; Silk, Wire, Wax and Needles.

With the Sixteen Instruments Contained in this Case, any Ordinary Operation may be Performed.

SIZE, 11 INCHES LONG, 4 INCHES WIDE, 2 INCHES HIGH.

A.—German Silver aseptic Handles on Knives and Saw, ... **$34 00**
B.—Hard Rubber aseptic Handles on Knives and Saw, ... **29 00**
C.—Ebony Handles on Knives and Saw (as shown in illustration), ... **25 00**
Either Set, with Trephine and Elevator in addition, ... **4 65**

Gymnasium Department.

From this time henceforth the **Gymnasium** in all its important details will be a department in our business to which we shall devote especial attention.

With the addition to our own valuable patents, those of the **A. J. Reach Company,** of Philadelphia, recently purchased by us, enables us to claim the most **extensive department** of **Gymnasium Appliances in the world.**

We have been encouraged in this **important** movement by the constantly increasing demand from **Colleges, Seminaries,** and other **Educational** Institutions for Gymnasium Supplies, and henceforth we shall devote special attention to furnishing **plans, specifications,** and **estimates** to such and for **private residences** as well, and solicit correspondence with all contemplating the introduction of gymnastics for any purpose.

The Peerless Pulley Weight, illustration of which appears on this page, is a most perfect appliance for the development of the **chest** and **arms,** adjustable to the height of *any* person, and in weight from five to thirty pounds. For **man or woman** this is the peer of any method yet devised, especially for home use. Realizing the attention the **medical profession** and the **teacher,** are now giving to **healthful** exercise in **schools,** we solicit also their correspondence, and any orders, or business prceeding from such, will be gratefully received, and entitled to our best rates of discount, and will receive prompt and careful attention.

Visitors to our different establishments at **Chicago, New York,** and **Philadelphia** will always be welcome and politely served by the many efficient salesmen constantly in attendance.

CLIN & CO.,—Paris.

GRAND NATIONAL PRIZE OF 16,600 FRANCS,

QUINA-LAROCHE

This meritorious **Elixir, QUINA-LAROCHE,** is prepared from the **three** Cinchonas; it is an agreeable and doubtless highly efficacious remedy.

—*The Lancet.*

VINOUS ELIXIR,

A STIMULATING RESTORATIVE

—AND—

ANTI-FEBRILE TONIC.

QUINA-LAROCHE under the form of a vinous **Elixir** contains the totality of the numerous principles of the **three** Cinchona barks. It is a preparation which renders great services to Therapeutics.—Extract of the *Gazette des Hôpitaux*, Paris.

FAR SUPERIOR TO ALL ORDINARY CINCHONA WINES.

LAROCHE'S QUINA, tried by the Academy of Medicine of Paris, is a specially prepared COMPOUND EXTRACT of Quinquina, a careful analysis, confirmed by experience, has shown that most of the wines and syrups hitherto used have not contained all the properties of this precious bark, of these some, although beneficial, are altogether lost, while many preparations contain but half the properties of the bark in varying proportions.

MR. LAROCHE, by his peculiar method, has succeeded in extracting all the active principles of the quinquina, combining these with *Catalan Wine* forming an Elixir free from the disagreeable bitterness of other similar preparations. Practitioners have found triple advantages in the use of this Elixir, it is a *strong tonic*, is easily administered, and perfectly harmless, being free from the unpleasant effects of Quinine.

THE FERRUGINOUS QUINA-LAROCHE is the invigorating tonic *par excellence*, having the advantage of being easily assimilated by the gastric juice; without, in any way, deranging the action of the digestive organs, proving itself to be a most efficacious remedy in cases of impoverishment of the blood, ANÆMIA, CHLOROSIS, INTESTINAL HÆMORRHAGE, CASTRALGIA, EXHAUSTION, ETC., ETC.

PARIS.—22 RUE DROUOT.—PARIS.

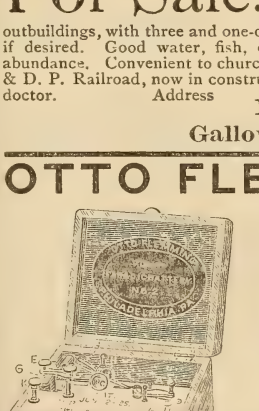
OTTO FLEMMING,



MANUFACTURER OF

Electric Specialties,

FOR USE IN

MEDICINE and SURGERY.

1009 Arch St., Phila., Pa.

I invite the closest scrutiny, analysis, and tests of the qualities of my new Vola-Batteries; my claim being, superior efficiency and regularity in their working capacity by perfect absence of annoyance, resulting from fluid in the cells. Complete apparatus for use in Electro-Gynæcology, with suitable Electrodes, Milliampere Meters, Current Controllers, Cautery Batteries, etc.

BROMIDIA

THE HYPNOTIC.

FORMULA.—

Every fluid drachm contains 15 grains EACH of Pure Chloral Hydrat. and purified Brom. Pot., and one-eighth grain EACH of gen. imp. ext. Cannabis Ind. and Hyoscyam.

DOSE.—

One-half to one fluid drachm in WATER or SYRUP every hour, until sleep is produced.

INDICATIONS.—

Sleeplessness, Nervousness, Neuralgia, Headache, Convulsions, Colic, Mania, Epilepsy, Irritability, etc. In the restlessness and delirium of fevers it is absolutely invaluable.

IT DOES NOT LOCK UP THE SECRETIONS.

PAPINE

THE ANODYNE.

Papine is the Anodyne or pain-relieving principle of Opium, the Narcotic and Convulsive Elements being eliminated. It has less tendency to cause Nausea, Vomiting, Constipation, Etc.

INDICATIONS.—

Same as Opium or Morphia.

DOSE.—

(ONE FLUID DRACHM)—represents the Anodyne principle of one-eighth grain of Morphia.

IODIA

The Alterative and Uterine Tonic.

FORMULA.—

Iodia is a combination of active principles obtained from the Green Roots of Stillingia, Helonias, Saxifraga, Menispermum, and Aromatics. Each fluid drachm also contains five grains Iod. Potas., and three grains Phos. Iron.

DOSE.—

One or two fluid drachms (more or less as indicated) three times a day before meals.

INDICATIONS.—

Syphilitic, Scrofulous and Cutaneous Diseases, Dysmenorrhea, Menorrhagia, Leucorrhea, Amenorrhea, Impaired Vitality, Habitual Abortions, and General Uterine Debility.

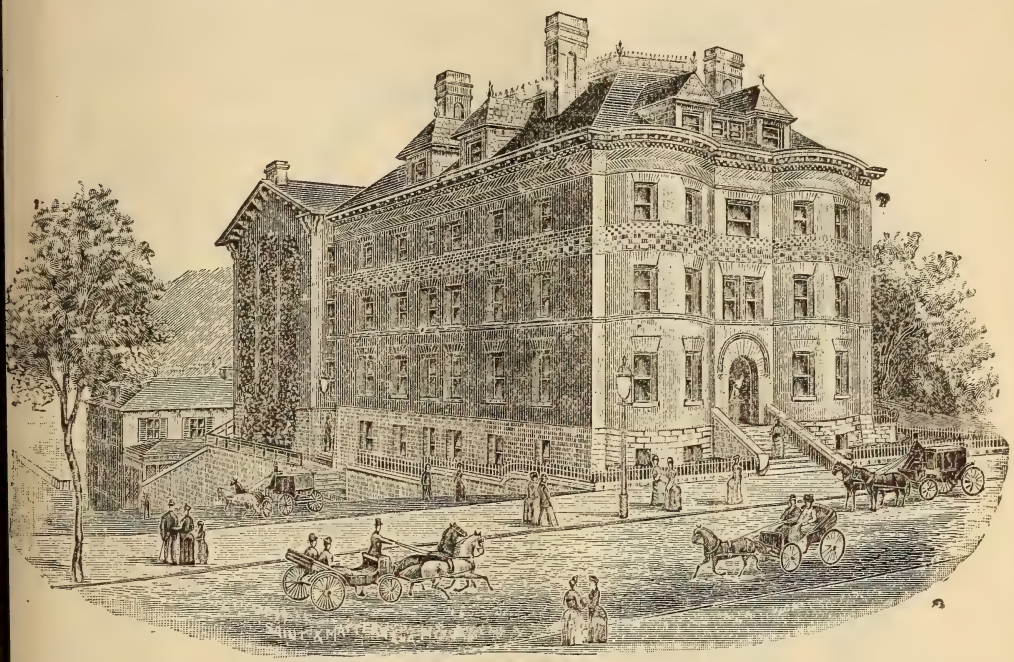
DR. R. S. SUTTON'S

Sanatorium for Diseases of Women.



Seventh Year Opens September 1, 1889.

ALLEGHENY CITY, PA.

This Institution is located on high ground, and overlooks the Allegheny, Monongahela and Ohio rivers; it commands a view of the city of Pittsburgh, and its picturesque surroundings. The building is large and beautiful, it is provided with every modern convenience, the halls are heated by steam, the rooms are commodious, well lighted and ventilated, and heated by open grates. The house is provided with a private parlor and reading-room for patients. The dining-room is large, handsomely finished, and furnished with small tables, securing privacy at meals for those who do not care to have meals served in their own rooms. Patients can be as secluded, should they desire it, as in a well appointed hotel. Each patient is examined by Dr. Sutton, and receives his daily personal attention, while Dr. J. H. Williamson, a physician of ample hospital experience, resides in the Institution, and has, under Dr. Sutton, the immediate care of the patients. The Institution accommodates 25 patients, and is equal in comfort to the best hotels.

Electricity, baths, douches, massage, local treatment, general medication and surgical operations are resorted to according to the requirements of each patient.

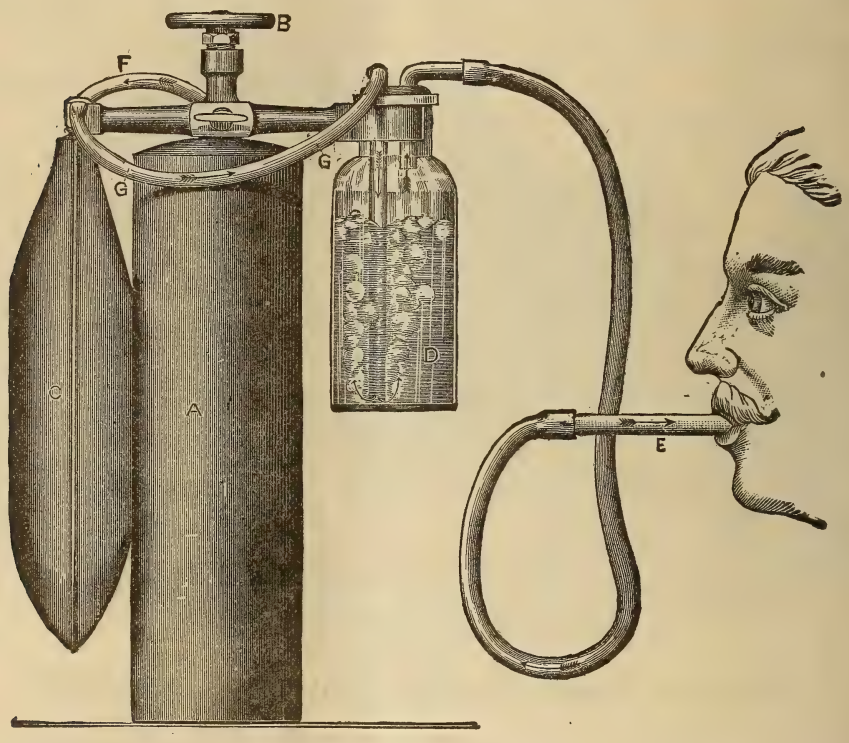
INHALATION APPARATUS

FOR

THE THERAPEUTIC ADMINISTRATION OF OXYGEN.



In the treatment of lung troubles by Oxygen its exhibition by inhalation is preferred. The apparatus herewith shown is a modification of the Nitrous Oxide apparatus which we have supplied for many years. It is made in the best manner throughout, and is the outcome of years of experience in the manufacture of gas apparatus. It will be found to meet all the requirements.

We supply the gas in two sizes of cylinders, containing respectively forty and one hundred gallons, either pure Oxygen, or a mixture of Oxygen and Nitrous Oxide in definite proportions of 20 per cent., and forty per cent. of Nitrous Oxide.

Whether pure or mixed the gas is sold at the uniform price of 5 cents a gallon. The cost of the cylinders will be refunded on their return empty with the valves in good condition. Full description of Inhalation and Enema apparatuses with directions for use accompany each apparatus, or will be supplied on application.

PRICES.

Inhalation Apparatus	$5.00
Cylinder, 40 gallons' capacity	6.00
40 gallons Gas, either pure Oxygen or mixed Oxygen and Nitrous Oxide	2.00
Complete Apparatus, Cylinder, and 40 gallons Gas	$13.00
Inhalation Apparatus	$5.00
Cylinder, 100 gallons' capacity	15.00
100 gallons Gas, either pure or mixed	5.00
Complete Apparatus, Cylinder, and 100 gallons Gas	$25.00

THE BEST ANTISEPTIC

FOR BOTH INTERNAL AND EXTERNAL USE.

ANTISEPTIC, PROPHYLACTIC, DEODORANT.

LISTERINE

NON-TOXIC. NON-IRRITANT. NON-ESCHAROTIC.

FORMULA—Listerine is the essential antiseptic constituent of Thyme, Eucalyptus, Baptisia, Gaultheria and Mentha Arvensis, in combination. Each fluid drachm also contains two grains of refined and purified Benzo-boracic Acid.

DOSE—Internally: One teaspoonful three or more times a day (as indicated) either full strength, or diluted, as necessary for varied conditions.

LISTERINE is a well-proven antiseptic agent—an antizymotic—especially adapted to internal use, and to make and maintain surgical cleanliness—asepsis—in the treatment of all parts of the human body, whether by spray, irrigation, atomization, or simple local application, and therefore characterized by its particular adaptability to the field of

PREVENTIVE MEDICINE—INDIVIDUAL PROPHYLAXIS.

Diseases of the Uric Acid Diathesis.

LAMBERT'S

LITHIATED HYDRANGEA

KIDNEY ALTERATIVE—ANTI-LITHIC.

FORMULA—Each fluid drachm of "Lithiated Hydrangea" represents thirty grains of FRESH HYDRANGEA and three grains of CHEMICALLY PURE Benzo-Salicylate of Lithia. Prepared by our improved process of osmosis, it is INVARIABLY of DEFINITE and UNIFORM therapeutic strength, and hence can be depended upon in clinical practice.

DOSE—One or two teaspoonfuls four times a day (preferably between meals).

Urinary Calculus, Gout, Rheumatism, Bright's Disease, Diabetes, Cystitis, Hæmaturia Albuminuria, and Vesical irritations generally.

We have much valuable literature upon { GENERAL ANTISEPTIC TREATMENT, LITHEMIA, DIABETES, CYSTITIS, ETC. } To forward to Physicians upon request:

LAMBERT PHARMACAL CO., ST. LOUIS, MO.

GENOIS'

Diastasic Extract of Malt,

A PURE LIQUID EXTRACT OF MALT.

CONTAINING at least 12 per cent. of extractive matter, rich in nitrogenous principles, and less than 4 per cent. of alcohol for its preservation. It is recommended for the treatment of dyspepsia, defective nutrition, flatulence, etc., as well as for a tonic. It is also recommended to persons suffering from insomnia. Its sedative and soporific action is gentle and gradual. Generally prescribed by physicians. It is now the standard malt in the market. Over 300 gross sold in Philadelphia last year. Obtainable from the retail drug trade.

Champagne ANALYZED

Of Interest to all Medical Practitioners.

WHAT IS SAID BY

THOMAS KING CHAMBERS, M.D., F.R.C.P.
R. OGDEN DOREMUS, M.D.
F. W. PAVY, M.D., F.R.S.

"Champagne, with a minimum of alcohol, is by far the wholesomest, and possesses remarkable exhilarating power."—THOMAS KING CHAMBERS, M.D., F.R.C.P.

"Having occasion to investigate the question of wholesome beverages, I have made a chemical analysis of the most prominent brands of Champagne. I find G. H. Mumm & Co.'s Extra Dry to contain, in a marked degree, less alcohol than the others. I therefore most cordially commend it not only for its purity but as the most wholesome of the Champagnes."—R. OGDEN DOREMUS, M.D., *Professor of Chemistry, Bellevue Hospital Medical College, New York.*

"Champagne, while only possessing the alcoholic strength of natural wines, is useful for exciting the flagging powers in case of exhaustion."—F. W. PAVY, M.D., F.R.S., *Lecturer on Physiology at Guy's Hospital, London.*

The remarkable vintage of 1884 of **G. H. MUMM & CO.'S EXTRA DRY CHAMPAGNE,** the finest for a number of years.
Pronounced by connoisseurs unsurpassed for excellence and bouquet.

FRED'K DE BARY & CO., New York,

MAKERS OF

The Most Active and Reliable Preparations of the Digestive Ferments

In every useful and reliable combination—as remedies per se—for the Artificial Digestion of MILK, BEEF, GRUELS and other Peptonized Food for the Sick and for the Qualitative and Quantitative Modification of Cows' Milk to the Standard of Normal Human Milk as a food for Bottle-Fed Infants.

82 and 84 Fulton St., New York City.

Apollinaris

"THE QUEEN OF TABLE WATERS."

The filling at the Apollinaris Spring (Rhenish Prussia), amounted to

11,894,000 BOTTLES IN **1887,**
12,720,000 BOTTLES IN **1888** AND
15,822,000 BOTTLES IN **1889.**

"The annual consumption of this favorite beverage affords a striking proof of the widespread demand which exists for table water of absolute purity, and it is satisfactory to find that, wherever one travels, in either hemisphere, it is to be met with; it is ubiquitous, and should be known as the cosmopolitan table water. 'Quod ab omnibus, quod ubique.'"—BRITISH MEDICAL JOURNAL.

THE BEST NATURAL APERIENT.

THE APOLLINARIS COMPANY, LIMITED, London, beg to announce that, as numerous APERIENT WATERS are offered to the public under names of which the word "Hunyadi" forms part, they have now adopted an additional Label comprising their Registered Trade Mark of selection, which consists of

A RED DIAMOND.

This Label will henceforth also serve to distinguish the HUNGARIAN APERIENT WATER SOLD BY THE COMPANY from all other Aperient Waters.

DEMAND THE 
DIAMOND MARK.

And insist upon receiving the HUNGARIAN APERIENT WATER of the APOLLINARIS COMPANY, LIMITED, London.

BOUDAULT'S PEPSINE

The only Pepsine used in the Hospitals of Paris for the last Thirty Years.

Unlike the various substitutes which, in most cases, are but unscientific or incompatible compounds, forced upon the Medical Profession as aids to digestion by extensive advertising, but which, when submitted to the proper tests, are found to be useless as digestive agents, Pepsine is constantly gaining in the esteem of the careful practitioner.

Since the introduction of Pepsine by Boudault and Corvisart in 1854, the original BOUDAULT'S PEPSINE HAS BEEN AT ALL TIMES CONSIDERED THE BEST, as is attested by the awards it has received at the Expositions of 1867, 1868, 187 1873, in 1876 at the Centennial Exposition of Philadelphia, and in 1878 at the Paris Exposition.

The most reliable tests, carefully applied, will satisfy everyone that BOUDAULT'S PEPSINE HAS A MUCH HIGHER DIGESTIVE POWER than the best Pepsines now before the Profession, and is therefore especially worthy of their attention.

BOUDAULT'S PEPSINE is prepared in the form of Pepsine Acid and Pepsine Neutral. It is sold in bottles of one ounce, with a measure containing exactly five grains; also in bottles of four, eight, and sixteen ounces for dispensing.

BOUDAULT'S WINE OF PEPSINE

FORMULA OF DR. CORVISART.

The taste of Pepsine being perfectly disguised in this Wine, it may be recommended to persons who have difficulty in taking Pepsine in the form of Powder. This Wine is tested so that a tablespoonful of it is equal in digestive power to ten grains of Boudault's Pepsine in powder. Sold only in bottles of eight ounces.

TANRET'S PELLETIERINE

For the Treatment of Tape-Worm (Tænia Solium).

This New Tænifuge, the Active Alkaloid of Pomegranate Bark, has of late come into extensive use in France for the treatment of Tape-Worm (Tænia Solium). The results of numerous experiments with it at the Marine Hospitals of Toulon, St. Mandrier, etc., and in the Hospitals of Paris, St. Antoine, La Charité, Necker Beaujon, etc., have all been most satisfactory. Doctor Dujardin Beaumetz, Member of the Academy of Medicine, and Professor Laboulbene, in their report to the Society of Therapeutics, have given it their unqualified approval, after the most searching experiments. This preparation is pleasant to administer, and, if certain preliminaries are observed, success will be insured.

Sold only in bottles containing one dose.

DUCRO'S ALIMENTARY ELIXIR

A Combination uniting the properties of Alcoholic Stimulants and Raw Meat.

This preparation, which has been used with great success in the hospitals of Paris since 1868, is adapted to the treatment of all diseases requiring administration, in a small volume, of a tonic able to stimulate and support the vital forces, as *Pulmonar Phthisis, Depression and Nervous Debility, Adynamia, Malarious Cachexia, etc.*

Prepared by EMILE DURIEZ & CO., Successors to DUCRO & CIE, Paris.

KIRKWOOD'S INHALER

This is the only complete, reliable, and effective inhaler in use, arranged for the direct application of Muriate of Ammonia and other remedial agents in the state of vapor to the diseased parts of the air-passages in the treatment of catarrh and diseases of the throat and lungs. No heat or warm liquids required in its use.

It is entirely different from the various frail, cheap instruments that have been introduced.

KIRKWOOD'S INHALER is accompanied by testimonials of the highest professional character, together with carefully prepared formulas for use.

RETAIL PRICE, COMPLETE, $2.50.

☞ A liberal discount allowed to the trade and profession. For descriptive pamphlet or other information address

E. FOUGERA & CO., 30 North William St., New York,

Sole Agents for the above Preparations.

GARDNER'S

SYRUP OF HYDRIODIC ACID,

Introduced in 1878 by R. W. GARDNER.

The Reputation which Hydriodic Acid has Attained During the past Eleven Years was Won by this Preparation.

Numerous Imitations prepared differently, and weaker in Iodine, are offered, from the use of which the same therapeutic effects cannot be obtained.

Caution.—Use no Syrup of Hydriodic Acid which has turned red. This shows decomposition and free Iodine. In this state it acts as an irritant and fails to produce desirable results.

Unprincipled apothecaries substitute imitations when Gardner's Syrup is prescribed, and physicians, failing to get desirable and promised results, attribute the fault, unjustly, to Gardner's Syrup.

THERAPEUTIC INDICATIONS.

Hay Fever; Rose Cold; Poisoning by Lead, Mercury or Arsenic; Acute and Chronic Rheumatism; Asthma; Chronic Bronchitis; Catarrh; Congestion of Lungs in Children; Adenitis; Eczema; Lupus; Chronic Malarial Poisoning; Lumbago; Acute Pneumonia; Psoriasis; Scrofulous Diseases; Goitre; Enlarged Glands; Cold Abscesses; Indolent Sores; Excessive Fat; Fatty Degeneration of the Heart; to absorb non-malignant Tumors; and in the latter stages of Syphilis; Syphilitic Phthisis.

Details of treatment furnished physicians upon application to undersigned without charge.

Gardner's Chemically Pure Syrups of Hypophosphites.

Embracing the separate Syrups of Lime, of Soda, of Iron, of Potassa, of Manganese, and an Elixir of the Quinia Salt; enabling physicians to accurately follow Dr. Churchill's method, by which thousands of authenticated cases of Phthisis have been cured. The only salts, however, used by Churchill in Phthisis are those of Lime, of Soda, and of Quinia, and always separately according to indications,—never combined.

The reason for the use of single Salts is because of antagonistic action of the different bases, injurious and pathological action of Iron, Potassa, Manganese, etc., in this disease.

These facts have been demonstrated by thirty years' clinical experience in the treatment of this disease exclusively, by Dr. Churchill, who was the first to apply these remedies in Medical practice. Modified doses are also required in this disease; seven grains during twenty-four hours being the maximum dose in cases of Phthisis, because of increased susceptibility of the patient to their action, the danger of producing toxic symptoms (as hemorrhage, rapid softening of tubercular deposit, etc.), and the necessity that time be allowed the various functions to recuperate simultaneously; over-stimulation, by pushing the remedy, resulting in crisis and disaster.

A pamphlet of sixty-four pages, devoted to a full explanation of these details and others, such as contra-indicated remedies, indications for the use of each hypophosphite, reasons for the use of absolutely pure Salts, protected in Syrup from oxidation, etc., mailed to physicians without charge upon application to

R. W. GARDNER, 158 William St., N. Y. City.

W. H. SCHIEFFELIN & CO., Sole Wholesale Agents, New York.

CELERINA

NERVE TONIC, STIMULANT AND ANTISPASMODIC.

FORMULA.—Every Fluid Drachm represents FIVE grains EACH—Celery, Coca, Kola, Viburnum and Aromatics.

INDICATIONS.—Loss of Nerve-Power (so usual with Lawyers, Preachers, Writers and Business Men), Impotency, Spermatorrhea, Nervous Headache, Neuralgia, Paralysis, Hysteria, Opium Habit, Inebriety, Dyspepsia, and ALL LANGUID conditions of the System.

Indispensable to restore a patient after alcoholic excess.

DOSE.—One or two Teaspoonfuls three or more times a day, as directed by the Physician.

LIQUID IRON-RIO

Palatable and easily assimilated. Does not produce Nausea, nor irritate the Stomach. Does not Cause Headache, nor Constipate. Does not Stain the Teeth. It is so Acceptable to the Stomach that its Use is Admissible when all other forms of Iron would be rejected. Being so Readily Assimilable, it only requires a small Dose.

Each Fluid Drachm contains ONE GRAIN of Iron in a Pleasant and Digestible Form.

DOSE.—One or more Teaspoonfuls as indicated, during or after meals.

S. H. KENNEDY'S

CONCENTRATED EXTRACT OF

PINUS CANADENSIS

DARK. A NON-ALCOHOLIC LIQUID. WHITE.

A MOST VALUABLE NON-IRRITATING MUCOUS ASTRINGENT.

INDICATIONS.—Albuminuria, Diarrhea, Dysentery, Night-Sweats, Hemorrhages, Profuse Expectoration, Catarrh, Sore Throat, Leucorrhea, and other Vaginal Diseases, Piles, Sores, Ulcers, Burns, Scalds, Gonorrhea, Gleet, Etc.

When Used as an Injection, to Avoid Staining of Linen, the WHITE Pinus should be used.

RECOMMENDED BY PROMINENT EUROPEAN AND AMERICAN PHYSICIANS.

RIO CHEMICAL CO., St. Louis, Mo., U. S. A.

LONDON. PARIS. CALCUTTA. MONTREAL.

The Acutely Ill.

When a patient is acutely ill, the digestive powers share in the general condition, and consequently the food supplied should be of the most easily assimilable character. The predigestion of starchy matters outside the body, as in MELLIN'S FOOD, is necessary, and the soluble carbohydrates of which this food consists, soluble because predigested, form the true food of the acutely ill.—J. MILNER FOTHERGILL, M.D., Edin.

A sample of MELLIN'S FOOD *will be sent to any physician, free of expense, upon application.*

Doliber-Goodale Co., Boston, Mass.

CONVALESCENTS

"can materially hasten restoration to health by taking small wineglassful of Royal Tokay (Calvico label only) half an hour before each meal. It warms the stomach, placing it in proper condition to receive the food."

DETROIT COLLEGE OF MEDICINE.

SESSION 1889-90.

Clinical and Practical teaching are made an important feature of this College. Clinical instruction is given daily at HARPER, ST. MARY'S and ST. LUKE'S HOSPITAL, at the COLLEGE, at COLLEGE EYE and EAR INFIRMARY, ST. MARY'S FREE EYE and EAR INFIRMARY, and at the three FREE DISPENSARIES. The facilities offered by this college are unsurpassed for the practical study of MEDICINE, SURGERY, OBSTETRICS, GYNÆCOLOGY, DISEASES OF CHILDREN, GENITO-URINARY, and ORTHOPÆDIC SURGERY, OPHTHALMOLOGY and OTOLOGY, DERMATOLOGY and LARYNGOLOGY.

REGULAR SESSION opens on Wednesday, Sept. 25, and continues six months. During the session, the Professors will take special pains to examine the Students upon the subjects of the previous lectures.

SPRING SESSION begins April 2d, 1890; and closes June 11th.

FEES.—Matriculation fee, $5; Fees for Regular Session, $50; Spring Session, $10, to those who attend the regular term—to all others, $25; Hospital Fee, $10; Graduation Fee, $30; Perpetual Ticket, $100.

For further particulars, and for College Circular, apply to

WESTERN PENNSYLVANIA MEDICAL COLLEGE
CITY OF PITTSBURGH.
SESSIONS OF 1889—90.

The REGULAR SESSION begins on the last Tuesday of September, and continues six months. During this session, in addition to four Didactic Lectures, two or three hours are daily allotted to Clinical Instruction. Attendance upon two regular courses of lectures is requisite for graduation. A three years' graded course is also provided. The SPRING SESSION embraces recitations, clinical lectures and exercises, and didactic lectures on special subjects; this session begins the second Tuesday in April, and continues ten weeks.

The laboratories are open during the collegiate year for instruction in chemistry, microscopy, practical demonstrations in medical and surgical pathology, and lessons in normal histology. Special importance attaches to "the superior clinical advantages possessed by this College." For particulars, see annual announcement and catalogue, for which, address the Secretary of Faculty, Prof. J. W. J. McKENNAN.

R C. M. PAGE, M. D., Professor of General Medicine and Diseases of the Chest; Physician to St. Elizabeth Hospital; Attending Physician to the Northwestern Dispensary, Department of Chest Diseases.

D. BRYSON DELAVAN, M. D., Professor of Laryngology and Rhinology; Laryngologist to the Demilt Dispensary.

JOSEPH WILLIAM GLEITSMANN, M. D., Professor of Laryngology and Rhinology; Laryngologist and Octologist to the German Dispensary.

OREN D. POMEROY, M D., Professor of Otology; Surgeon Manhattan Eye and Ear Hospital; Ophthalmic Surgeon to New York Infants' Asylum, and Consulting Surgeon to the Paterson Eye and Ear Infirmary.

HENRY N. HEINEMAN, M. D., Professor of General Medicine and Diseases of the Chest; Attending Physician to Mt. Sinai Hospital.

B. SACHS, M.D., Professor of Diseases of the Mind and Nervous System; Consulting Neurologist to the Montefiore Home for Chronic Invalids.

THOMAS R. POOLEY, M.D., Professor of Ophthalmology; Surgeon-in-Chief of the New Amsterdam Eye and Ear Hospital; Ophthalmic Surgeon to the Sheltering Arms; Consulting Ophthalmologist to the St. Bartholomew's Hospital.

L. EMMETT HOLT, M.D., Professor of Diseases of Children; Visiting Physician to the New York Infant Asylum; Consulting Physician to the Hospital for Ruptured and Crippled.

AUGUST SEIBERT, M.D., Professor of Diseases of Children; Physician to the Children's Department of the German Dispensary.

H. MARION SIMS, M.D., Professor of Gynæcology, Gynæcologist to St. Elizabeth Hospital and New York Infant Asylum.

WILLIAM F. FLUHRER, M.D., Professor of Genito-Urinary Surgery; Surgeon to Bellevue and St. Sinai Hospitals.

HENRY C. COE, M. D., M. R. C. S. (Eng.), Professor of Gynecology; Attending Surgeon to New York Cancer Hospital; Assistant Surgeon to Woman's Hospital; Obstetric Surgeon to Maternity Hospital; Obstetrician to New York Infant Asylum; Gynecologist to Presbyterian Hospital, Out-door Department.

* Deceased.

THE NEW YORK POLYCLINIC is a School of Clinical Medicine and Surgery for *Practitioners only*. No didactic lectures are given The classes are limited. The demonstrations are made at the Polyclinic School and Hospital, and in the various Hospitals in New York City with which the Faculty are connected.

Session of 1889-90 opens Monday, September 16th, 1889. For further information and for catalogue, address

JOHN A. WYETH, M. D.,
Secretary of the Faculty.

Or WILLIS O. DAVIS, Clerk,
214, 216 & 218 East 34th Street, New York City.

The only prominent Emulsion of Cod-Liver Oil introduced directly to the medical profession. It is advertised exclusively in medical journals.

HYDROLEINE.

(HYDRATED OIL.)

Produces rapid increase in Flesh and Strength.

FORMULA.—Each Dose contains:

Pure Cod Liver Oil	80 m. (drops)	Soda	1-3 Grains
Distilled Water	35 "	Salicylic Acid	1-4 "
Soluble Pancreatin	5 Grains.	Hyocholic Acid	1-20 "

Recommended and Prescribed by EMINENT PHYSICIANS Everywhere. It is pleasant to the Taste and acceptable to the most delicate Stomach.

IT IS ECONOMICAL IN USE AND CERTAIN IN RESULTS.

HYDROLEINE (Hydrated Oil) is not a simple alkaline emulsion of oleum morrhuæ, but a hydro-pancreated preparation, containing acids and a small percentage of soda. Pancreatin is the digestive principle of fatty foods, and in the soluble form here used, readily converts the oleaginous material into assimilable matter, a change so necessary to the reparative process in all wasting diseases.

The following are some of the diseases in which HYDROLEINE is indicated:

Phthisis, Tuberculosis, Catarrh, Cough, Scrofula, Chlorosis, General Debility, etc.

TO BRAIN WORKERS of all classes, **HYDROLEINE** is invaluable, supplying as it does, the true brain-food, and being more easily assimilated by the digestive organs than any other emulsion.

The principles upon which this discovery is based have been described in a treatise on "The Digestion and Assimilation of Fats in the Human Body," and "Consumption and Wasting Diseases," by two distinguished London physicians, which will be sent free on application.

SOLD BY DRUGGISTS GENERALLY.

Peptonized Cod Liver Oil and Milk.

THE PERFECTION OF ALL COD LIVER OIL PREPARATIONS.

It is more easily digested and assimilated, and more nutritious than any product of Cod Liver Oil in the market.

It is partially predigested, and is, therefore, more easily retained by weak and enfeebled stomachs, and eructations are less likely to follow.

It contains 50 per cent. of pure Norwegian Cod Liver Oil. The remaining percentage is composed of Milk, and an emulsion formed with Irish Moss. No gums are used in its manufacture.

It mixes readily with water, and makes a pleasant drink.

If any Physician has a patient who cannot take and retain Cod Liver Oil in any form, send to us for sample of PEPTONIZED COD LIVER OIL and MILK.

Cod Liver Oil and Milk is put up plain, and also combined with Hypophosphites. Each tablespoonful containing 2 grs. each Hypophosphites of Lime and Soda.

REED & CARNRICK, NEW YORK.

TO THE MEDICAL PROFESSION.

SPECIAL MENTION.

In offering these special preparations, there is no attempt made to "prescribe for the physician," but simply to place within his reach elegant and palatable combinations of known value, such as local pharmacists ordinarily have not the means of preparing.

Among our leading specialties we take pleasure in mentioning the following:

ALKALINE ELIXIR RHUBARB CO. AND PANCREATIN.

A combination of E. I. Rhubarb and Potass. Bicarbonate, āā 20 grs., Pancreatin, 16 grs., and Fluid Hydrastis, 10 ♏ to the fluid ounce. This is unequalled as an antacid, carminative, stomachic and digestive. It is very valuable in cholera infantum, infantile colics, dyspepsia and all abnormally acid conditions of the alimentary tract. Dose ½ to 4 teaspoonfuls every 1 to 4 hours, according to case and age.

ESSENCE OF PEPSIN (FLUID PEPSIN).

A direct solution of all the soluble constituents of the peptic glands of the pig's stomach, unchanged by chemical action or manipulation.

It is without bad odor or taste, and represents, in each fluid drachm, the digestive power of at least 20 grs. U. S. P. Sacch. Pepsin.

Readily used as a basis to which may be added Ammonio Cit. Bismuth, Strychnia, etc., as indicated

This preparation is rapidly assuming its proper position *at the very front* of all preparations of pepsin.

NUTRITIVE HYPOPHOSPHITES.

A combination of the well-known formula of the hypophosphites of Lime, Soda, Iron, Potass., Quin., Strychnine and Manganese, with a vehicle of glycerine and cane-sugar syrup instead of glucose. More palatable, more permanent, and less likely to disturb the stomach. It is sold as a legitimate pharmaceutical preparation at legitimate prices, and is unequalled in elegance and efficacy by any similar preparation.

Specify Nutritive Hypophos.: Merrell.

ELIXIR PINUS COMPOSITUS.

Considered by those who have used it as the most valuable routine expectorant in the market. It is unlike the many syrups, etc., under similar names, and the difference will be readily appreciated when tried. Formula supplied to the profession.

EXTRACT TRIFOLIUM COMPOUND.

From the well-known and approved prescription of Dr. E. F. Rush, prepared in a concentrated form, one bottle will make 3 pints Syr. Trifolium comp'd. By its use a stronger or weaker syrup may be prepared as indicated. Formula furnished.

"Merrell Co.'s" "Green Drug," Fluid Extracts, True Salicylic Acid, Salts of Hydrastis, Fluid Hydrastis and Specialties may be obtained of wholesale druggists throughout the United States, at the Home Office at Cincinnati, or the New York Office, 96 Maiden Lane, New York City, Smith, Kline & Co., Philadelphia. Prices current and printed matter cheerfully supplied.

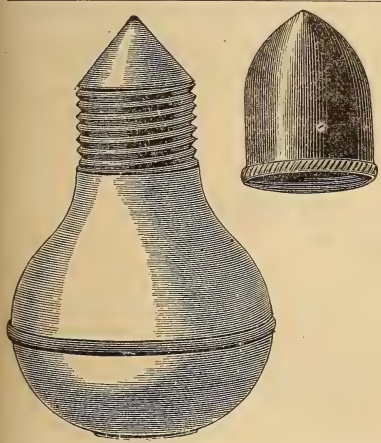
Address, MEDICAL AND SURGICAL REPORTER, P. O. Box 843, Philadelphia.



THE P.P.P. SYRINGE

Is universally considered the most perfect urethral Syringe in the market, because it combines within itself all desirable qualities. It measures but 1½ x 2¾ inches, has a capacity of fully half an ounce, and is made of one piece of soft rubber with conical point. To protect this soft point and to prevent pocket dust from getting into the Syringe, a Hard Rubber cap screws air-tight over it and enables the patient to carry it in his pocket filled with the injection ordered, ready for use when away from home.

For sale by all druggists.

ADDRESS:

Publisher Medical and Surgical Reporter,

P.O. Box 843. PHILADELPHIA, PA.

PIL. PHENACETINE ET SALOL, 5 GRS., "W. H. S. & CO."

{Phenacetine-Bayer, ... 2½ grs.
{Salol, ... 2½ grs.

Anti-Rheumatic and Analgesic. This combination was first suggested by Dr. M. F. Price, Colton, Cal., President of the "Southern California Medical Society." In an address to the members he says: "In a case of acute Rheumatism, affecting elbows, wrists, knees, and ankles, ordered Phanacetine and Salol every three hours. No local application ordered. Made five daily visits, found the patient each day improved, discharged with orders to continue the medicine three times a day for a week."

After citing other cases, one of Sciatica where the patient was suffering such pain that the slightest motion caused faintness with nausea and continuous vomiting; two with acute Rheumatism, and one with Neuralgia of the stomach, Dr. Price continues:

"It will be observed that in some of these cases I have combined Salol with Phanacetine. I did this on the principle of the well-known effect of Salicylic Acid in Rheumatism, but I rely on the Phenacetine for the relief of the pain, and in this way perhaps the cure of the disease causing it." (*Southern California Practitioner*, August, 1889.)

PIL. TERPIN HYDRAT., 2 GRS., "W. H. S. & CO.,"

A new and potent remedy in the treatment of coughs, catarrh, bronchitis, and kindred diseases.

Terpin Hydrate is indicated in cases where violent irritation of the bronchial mucous membrane exists, and where the secretion is inconsiderable and peculiarly viscid, such as is met with in the chronic catarrh accompanying emphysema and phthisis. The effect obtained is always an increase and a liquefaction of the secretion, a considerable reduction of the irritation, and easy expectoration.

SOLUBLE PILLS.

Advanced pharmacy has, of late years, bestowed much attention upon eliminating the objectionable features which pertained to Pills, but it is only since their manufacture has been undertaken in wholesale quantities by responsible and capable parties that they have been produced in their present excellent quality.

The conditions of a perfect Pill are:

1*st.* *Ingredients of the finest quality.*
2*d.* *All materials weighed with scrupulous exactness.*
3*d.* *The mass sufficiently consistent to maintain the globular form, and yet readily soluble in the stomach.*
4*th.* *A coating which will preserve the mass in good condition, cover all offensive smell or taste, and facilitate deglutition.*

The continued favor which has been shown to our **Soluble Pills** is sufficient evidence that care has been bestowed upon their manufacture.

As for the purity of the drugs entering into their composition, and the presence in full and exact quantity of every article required by the formula in each case, we can only give our assurance that no deviation from correctness in any particular is, or ever has been, permitted in their manufacture; and they invite the most critical examination and test, either of analysis or of therapeutic effect.

They possess the advantage of a perfect coating, which is neither hard, bulky, opaque, nor insuluble, but elastic, thin, transparent, and readily soluble.

For further information about them we refer to our formula books and price lists, which we shall be happy to furnish upon application.

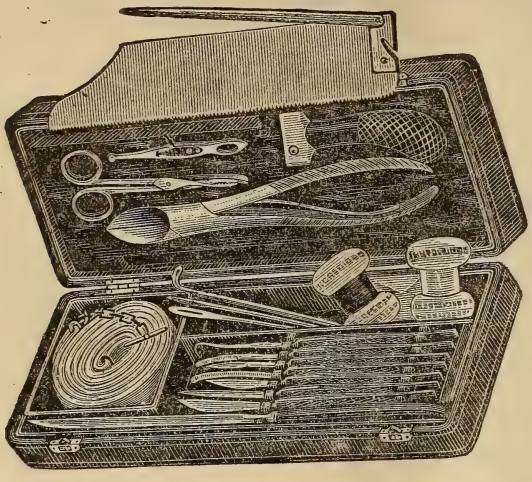
Manufacturers of Physicians' Specialties,

No. 88 Maiden Lane, New York City.

LENTZ'S ASEPTIC COMPACT OPERATING SET, No. 10.



We have from time to time made improvements to this set and are now making a perfect aseptic set, which offers especial facilities for aseptic precautions; the blades are soldered into hollow German-silver handles, nickel-plated, are light so as not to be unwieldy and admit of a firm grasp when operating.

The saw is adjusted to the handle on an entirely new principle, being made to separate easily and to facilitate thorough cleansing.

The handle is entirely of metal and fenestrated to overcome unnecessary weight.

Scissors and Forceps having French locks can be separated, and the slide can be easily removed from Artery and Needle Forceps.

Therefore, no opportunity is offered for the lodgment and development of germs.

The entire set is patterned with especial reference to facility in cleansing.

The instruments can be sterilized by placing them in boiling water, without fear of damaging them. Wood or rubber handles will not admit of this procedure. For price, see case A.

The following instruments are put up in either a fine Mahogany or Morocco case, with nickel trimmings, lined with velvet, and has an extra space for Trephine with handle, and Elevator if desired.

One Amputating Knife (6 in. blade); One Finger Knife; One Hernia Knife; One Sharp Curved Bistoury; Two Scalpels; One Tenotome; One Tenaculum; One Pair Scissors, curved or flat; One Saw (9 in. blade); One Liston's Bone Forceps, with Spring; One Artery and Needle Forceps, improved; One Esmarch's Flat Rubber Tourniquet, with Chain; One Hæmostatic Forceps; One Director, with Aneurism Needle; Two Silver Probes; Silk, Wire, Wax and Needles.

With the Sixteen Instruments Contained in this Case, any Ordinary Operation may be Performed.

SIZE, 11 INCHES LONG, 4 INCHES WIDE, 2 INCHES HIGH.

GRAND NATIONAL PRIZE OF 16,600 FRANCS,

QUINA-LAROCHE

This meritorious **Elixir, QUINA-LAROCHE,** is prepared from the three Cinchonas; it is an agreeable and doubtless highly efficacious remedy.

—*The Lancet.*

VINOUS ELIXIR,

A STIMULATING RESTORATIVE

—AND—

ANTI-FEBRILE TONIC.

QUINA-LAROCHE under the form of a vinous **Elixir** contains the totality of the numerous principles of the three Cinchona barks. It is a preparation which renders great services to Therapeutics.—Extract of the *Gazette des Hôpitaux*, Paris.

FAR SUPERIOR TO ALL ORDINARY CINCHONA WINES.

LAROCHE'S QUINA, tried by the Academy of Medicine of Paris, is a specially prepared COMPOUND EXTRACT of Quinquina, a careful analysis, confirmed by experience, has shown that most of the wines and syrups hitherto used have not contained all the properties of this precious bark, of these some, although beneficial, are altogether lost, while many preparations contain but half the properties of the bark in varying proportions.

MR. LAROCHE, by his peculiar method, has succeeded in extracting all the active principles of the quinquina, combining these with *Catalan Wine* forming an Elixir free from the disagreeable bitterness of other similar preparations. Practitioners have found triple advantages in the use of this Elixir, it is a *strong tonic*, is easily administered, and perfectly harmless, being free from the unpleasant effects of Quinine.

THE FERRUGINOUS QUINA-LAROCHE is the invigorating tonic *par excellence*, having the advantage of being easily assimilated by the gastric juice; without, in any way, deranging the action of the digestive organs, proving itself to be a most efficacious remedy in cases of impoverishment of the blood, ANÆMIA, CHLOROSIS, INTESTINAL HÆMORRHAGE, CASTRALGIA, EXHAUSTION, ETC., ETC.

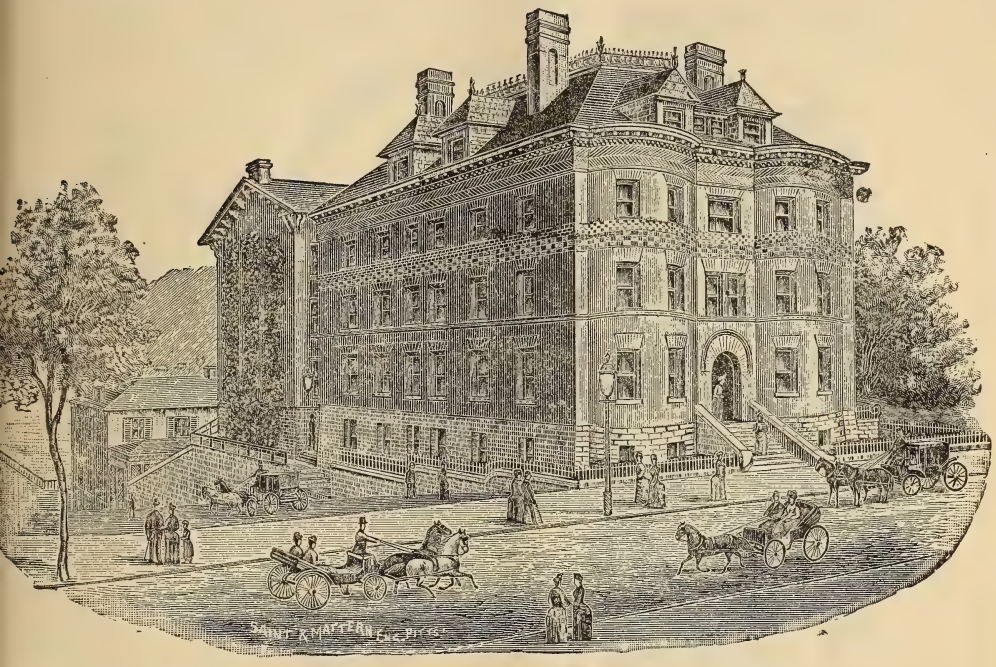
DR. R. S. SUTTON'S

Sanatorium for Diseases of Women.



Seventh Year Opens September 1, 1889.

ALLEGHENY CITY, PA.

This Institution is located on high ground, and overlooks the Allegheny, Monongahela and Ohio rivers; it commands a view of the city of Pittsburgh, and its picturesque surroundings. The building is large and beautiful, it is provided with every modern convenience, the halls are heated by steam, the rooms are commodious, well lighted and ventilated, and heated by open grates. The house is provided with a private parlor and reading-room for patients. The dining-room is large, handsomely finished, and furnished with small tables, securing privacy at meals for those who do not care to have meals served in their own rooms. Patients can be as secluded, should they desire it, as in a well appointed hotel. Each patient is examined by Dr. Sutton, and receives his daily personal attention, while Dr. J. H. Williamson, a physician of ample hospital experience, resides in the Institution, and has, under Dr. Sutton, the immediate care of the patients. The Institution accommodates 25 patients, and is equal in comfort to the best hotels.

Electricity, baths, douches, massage, local treatment, general medication and surgical operations are resorted to according to the requirements of each patient.

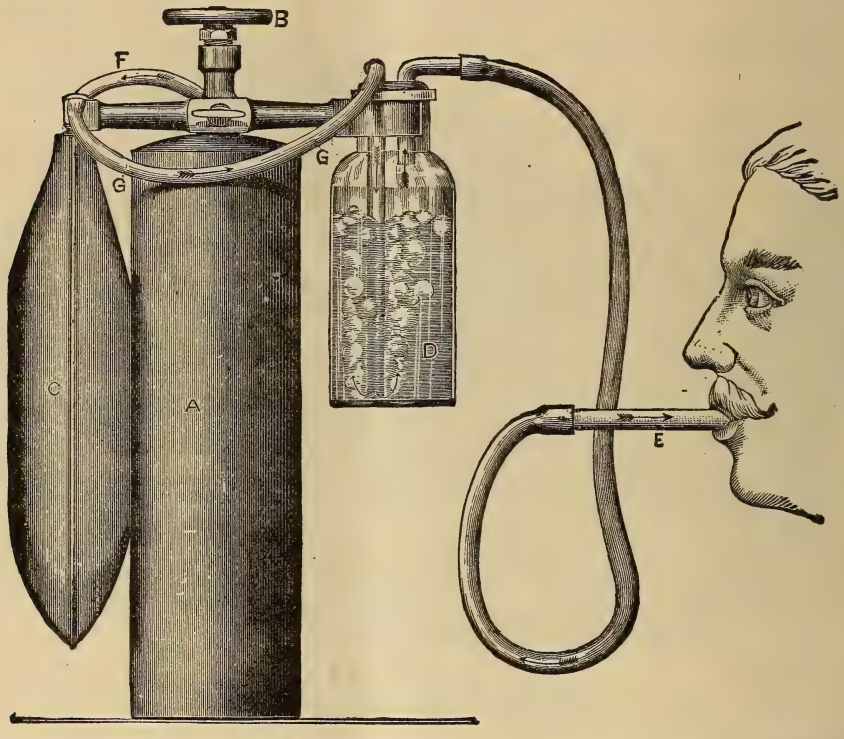
INHALATION APPARATUS

FOR

THE THERAPEUTIC ADMINISTRATION OF OXYGEN.



In the treatment of lung troubles by Oxygen its exhibition by inhalation is preferred. The apparatus herewith shown is a modification of the Nitrous Oxide apparatus which we have supplied for many years. It is made in the best manner throughout, and is the outcome of years of experience in the manufacture of gas apparatus. It will be found to meet all the requirements.

We supply the gas in two sizes of cylinders, containing respectively forty and one hundred gallons, either pure Oxygen, or a mixture of Oxygen and Nitrous Oxide in definite proportions of 20 per cent., and forty per cent. of Nitrous Oxide.

Whether pure or mixed the gas is sold at the uniform price of 5 cents a gallon. The cost of the cylinders will be refunded on their return empty with the valves in good condition. Full description of Inhalation and Enema apparatuses with directions for use accompany each apparatus, or will be supplied on application.

PRICES.

Inhalation Apparatus	$5.00
Cylinder, 40 gallons' capacity	6.00
40 gallons Gas, either pure Oxygen or mixed Oxygen and Nitrous Oxide	2.00
Complete Apparatus, Cylinder, and 40 gallons Gas	$13.00
Inhalation Apparatus	$5.00
Cylinder, 100 gallons' capacity	15.00
100 gallons Gas, either pure or mixed	5.00
Complete Apparatus, Cylinder, and 100 gallons Gas	$25.00

THE BEST ANTISEPTIC

FOR BOTH INTERNAL AND EXTERNAL USE.

ANTISEPTIC, PROPHYLACTIC, DEODORANT.

LISTERINE

NON-TOXIC. NON-IRRITANT. NON-ESCHAROTIC.

FORMULA—Listerine is the essential antiseptic constituent of Thyme, Eucalyptus, Baptisia, Gaultheria and Mentha Arvensis, in combination. Each fluid drachm also contains two grains of refined and purified Benzo-boracic Acid.

DOSE—Internally: One teaspoonful three or more times a day (as indicated) either full strength, or diluted, as necessary for varied conditions.

LISTERINE is a well-proven antiseptic agent—an antizymotic—especially adapted to internal use, and to make and maintain surgical cleanliness—asepsis—in the treatment of all parts of the human body, whether by spray, irrigation, atomization, or simple local application, and therefore characterized by its particular adaptability to the field of

PREVENTIVE MEDICINE—INDIVIDUAL PROPHYLAXIS.

Diseases of the Uric Acid Diathesis.

LAMBERT'S

LITHIATED HYDRANGEA

KIDNEY ALTERATIVE—ANTI-LITHIC.

FORMULA—Each fluid drachm of "Lithiated Hydrangea" represents thirty grains of FRESH HYDRANGEA and three grains of CHEMICALLY PURE Benzo-Salicylate of Lithia. Prepared by our improved process of osmosis, it is INVARIABLY of DEFINITE and UNIFORM therapeutic strength, and hence can be depended upon in clinical practice.

DOSE—One or two teaspoonfuls four times a day (preferably between meals).

Urinary Calculus, Gout, Rheumatism, Bright's Disease, Diabetes, Cystitis, Hæmaturia Albuminuria, and Vesical irritations generally.

We have much valuable literature upon { GENERAL ANTISEPTIC TREATMENT, LITHEMIA, DIABETES, CYSTITIS, ETC. } To forward to Physicians upon request:

LAMBERT PHARMACAL CO., ST. LOUIS, MO.

★——GENOIS'——★

Diastasic Extract of Malt,

A PURE LIQUID EXTRACT OF MALT.

CONTAINING at least 12 per cent. of extractive matter, rich in nitrogenous principles, and less than 4 per cent. of alcohol for its preservation. It is recommended for the treatment of dyspepsia, defective nutrition, flatulence, etc., as well as for a tonic. It is also recommended to persons suffering from insomnia. Its sedative and soporific action is gentle and gradual. Generally prescribed by physicians. It is now the standard malt in the market. Over 300 gross sold in Philadelphia last year. Obtainable from the retail drug trade.

French, Richards & Co.,

Sole Wholesale Agents,

1001, 1003, and 1005 Market Street, Philadelphia.

PARIS MEDAL

TO

WILLIAM R. WARNER & CO.

W. R. WARNER & CO. have received a Silver Medal at the Paris World's Fair, being the highest of its kind, in recognition of the following claims:

First.—W. R. Warner & Co.'s Pills, quick solubility and accuracy.

Second.—Reliability and permanency unsurpassed. Also for Warner & Co.'s Effervescent Salts.

First.—Superior effervescing properties.

Second.—General elegance, excellence, and stability.

PHYSICIANS SHOULD BE CAREFUL TO SPECIFY WARNER & CO.

☞ The coating of the following pill will dissolve in 4½ minutes. ☜

PIL: CHALYBEATE COMP.

(WARNER & CO.)

Nux Vomica is added as an ingredient to Pill Chalybeate to increase the tonic effect when desired.

Composition of each Pill.—℞ (Chalybeate Mass.), Carb. Protoxide of Iron, gr. 2½. Ext. Nuc. Vom. gr. 1-6.

DOSE—1 to 3 Pills.

Most advantageously employed in the treatment of Anæmia, Chlorosis, Phthisis, Scrofula, Loss of Appetite, etc.

PIL: ANTISEPTIC.

Each Pill contains: Sulphite Soda, 1 gr. Salicylic Acid, 1 gr. Ext. Nuc. Vomica, ¼ gr.

DOSE—1 to 3 Pills.

Pil. Antiseptic is prescribed with great advantage in cases of Dyspepsia attended with acid stomach and enfeebled digestion following excessive indulgence in eating or drinking. It is used with advantage in Rheumatism.

Prepared by WM. R. WARNER & CO.

PIL: ANTISEPTIC COMP.

(WARNER & CO.)

Each pill contains: Sulphite Soda, 1 gr. Salicylic Acid, 1 gr. Ext. Nuc. Vomica, ⅛ gr. Powd. Capsicum, 1-10 gr. Conc't Pepsin, 1 gr.

DOSE—1 to 3 Pills.

Pil. Antiseptic Comp. are prescribed with great advantage in cases of Dyspepsia, Indigestion, and Malassimilation of Food. Supplied upon physician's prescription by all leading druggists. Take no substitute.

1228 MARKET ST., Phila. 18 LIBERTY ST., New York.

The Acutely Ill.

When a patient is acutely ill, the digestive powers share in the general condition, and consequently the food supplied should be of the most easily assimilable character. The predigestion of starchy matters outside the body, as in MELLIN'S FOOD, is necessary, and the soluble carbohydrates of which this food consists, soluble because predigested, form the true food of the acutely ill.—J. MILNER FOTHERGILL, M.D., Edin.

A sample of MELLIN'S FOOD *will be sent to any physician, free of expense, upon application.*

Doliber-Goodale Co., Boston, Mass.

"THIS IS AN AGE OF APOLLINARIS WATER."
—WALTER BESANT.

Apollinaris

"THE QUEEN OF TABLE WATERS."

The filling at the Apollinaris Spring (Rhenish Prussia), amounted to

11,894,000 BOTTLES IN **1887,**
12,720,000 BOTTLES IN **1888** AND
15,822,000 BOTTLES IN **1889.**

"The annual consumption of this favorite beverage affords a striking proof of the widespread demand which exists for table water of absolute purity, and it is satisfactory to find that, wherever one travels, in either hemisphere, it is to be met with; it is ubiquitous, and should be known as the cosmopolitan table water. 'Quod ab omnibus, quod ubique.'"—BRITISH MEDICAL JOURNAL.

THE BEST NATURAL APERIENT.

THE APOLLINARIS COMPANY, LIMITED, London, beg to announce that, as numerous APERIENT WATERS are offered to the public under names of which the word "Hunyadi" forms part, they have now adopted an additional Label comprising their Registered Trade Mark of selection, which consists of

A RED DIAMOND.

This Label will henceforth also serve to distinguish the HUNGARIAN APERIENT WATER SOLD BY THE COMPANY from all other Aperient Waters.

DEMAND THE 
DIAMOND MARK.

And insist upon receiving the HUNGARIAN APERIENT WATER of the APOLLINARIS COMPANY, LIMITED, London

BOUDAULT'S PEPSINE

The only Pepsine used in the Hospitals of Paris for the last Thirty Years.

Unlike the various substitutes which, in most cases, are but unscientific or incompatible compounds, forced upon the Medical Profession as aids to digestion by extensive advertising, but which, when submitted to the proper tests, are found to be useless as digestive agents, Pepsine is constantly gaining in the esteem of the careful practitioner.

Since the introduction of Pepsine by Boudault and Corvisart in 1854, the original BOUDAULT'S PEPSINE HAS BEEN AT ALL TIMES CONSIDERED THE BEST, as is attested by the awards it has received at the Expositions of 1867, 1868, 187 1873, in 1876 at the Centennial Exposition of Philadelphia, and in 1878 at the Paris Exposition.

The most reliable tests, carefully applied, will satisfy everyone that BOUDAULT'S PEPSINE HAS A MUCH HIGHER DIGESTIVE POWER than the best Pepsines now before the Profession, and is therefore especially worthy of their attention.

BOUDAULT'S PEPSINE is prepared in the form of Pepsine Acid and Pepsine Neutral. It is sold in bottles of one ounce, with a measure containing exactly five grains; also in bottles of four, eight, and sixteen ounces for dispensing.

BOUDAULT'S WINE OF PEPSINE

FORMULA OF DR. CORVISART.

The taste of Pepsine being perfectly disguised in this Wine, it may be recommended to persons who have difficulty in taking Pepsine in the form of Powder. This Wine is tested so that a tablespoonful of it is equal in digestive power to ten grains of Boudault's Pepsine in powder. Sold only in bottles of eight ounces.

TANRET'S PELLETIERINE

For the Treatment of Tape-Worm (Tænia Solium).

This New Tænifuge, the Active Alkaloid of Pomegranate Bark, has of late come into extensive use in France for the treatment of Tape-Worm (Tænia Solium). The results of numerous experiments with it at the Marine Hospitals of Toulon, St. Mandrier, etc., and in the Hospitals of Paris, St. Antoine, La Charité, Necker Beaujon, etc., have all been most satisfactory. Doctor Dujardin Beaumetz, Member of the Academy of Medicine, and Professor Laboulbene, in their report to the Society of Therapeutics, have given it their unqualified approval, after the most searching experiments. This preparation is pleasant to administer, and, if certain preliminaries are observed, success will be insured.

Sold only in bottles containing one dose.

DUCRO'S ALIMENTARY ELIXIR

A Combination uniting the properties of Alcoholic Stimulants and Raw Meat.

This preparation, which has been used with great success in the hospitals of Paris since 1868, is adapted to the treatment of all diseases requiring administration, in a small volume, of a tonic able to stimulate and support the vital forces, as *Pulmonar Phthisis, Depression and Nervous Debility, Adynamia, Malarious Cachexia, etc.*

Prepared by EMILE DURIEZ & CO., Successors to DUCRO & CIE, Paris.

KIRKWOOD'S INHALER

This is the only complete, reliable, and effective inhaler in use, arranged for the direct application of Muriate of Ammonia and other remedial agents in the state of vapor to the diseased parts of the air-passages in the treatment of catarrh and diseases of the throat and lungs. No heat or warm liquids required in its use.

It is entirely different from the various frail, cheap instruments that have been introduced.

KIRKWOOD'S INHALER is accompanied by testimonials of the highest professional character, together with carefully prepared formulas for use.

RETAIL PRICE, COMPLETE, $2.50.

☞ A liberal discount allowed to the trade and profession. For descriptive pamphlet or other information address

E. FOUGERA & CO., 30 North William St., New York,

Sole Agents for the above Preparations.

GOUDRON DE BLOUNT

PREPARED FROM THE GENUINE CAROLINA TAR.

DOSE.—One fluid drachm four or more times a day (as indicated), either full strength, diluted, or, in combination.

INDICATIONS.—Chronic and acute affections of the Air Passages, Coughs, Colds, Bronchitis, Asthma and Consumption.

WILLIAM MURRELL, M.D., F.R.C.P.,

Lecturer on Pharmacology and Therapeutics at the Westminster Hospital; Examiner in Materia Medica to the Royal College of Physicians of London; Fellow of the Medico-Chirurgical College of Philadelphia,

Says:—"I have used with success 'Goudron de Blount.' The results have been good, and the preparation is popular with patients."

ALETRIS CORDIAL

UTERINE TONIC AND RESTORATIVE.

Prepared from the Aletris Farinosa or True Unicorn and Aromatics.

INDICATIONS.

Amenorrhea, Dysmenorrhea, Leucorrhea, Prolapsus Uteri, Sterility, to Prevent Miscarriage, Etc.

DOSE:—ONE TEASPOONFUL THREE OR FOUR TIMES A DAY.

UNRIVALED AS A UTERINE TONIC IN IRREGULAR, PAINFUL, SUPPRESSED AND EXCESSIVE MENSTRUATION.

It Restores Normal Action to the Uterus, and Imparts Vigor to the Entire Uterine System.

☞Where women have miscarried during previous pregnancies, or in any case where miscarriage is feared, the ALETRIS CORDIAL is indicated, and should be continuously administered during entire gestation.

CHAS. CLAY, M. R. C. S., Manor House, Dewsbury, England, says:—I find Aletris Cordial (Rio) is of great service in threatened miscarriage.

FRANCIS E. CANE, L. R. C. S., &c., Leeds, England, says:—I have tried the Aletris Cordial (Rio) in two cases of long standing dysmenorrhea, with excellent results. One of these patients has spent a week in bed every month for two years. After all the usual remedies, I put her on Aletris Cordial, and for the last two periods she has been out and about all the time.

L. M. WATSON, M. D., Delhi, Ills., says:—I have used Aletris Cordial (Rio) in cases of dysmenorrhea. suppressed menses and threatened miscarriage, and also, combined with Celerina, as a tonic after confinement, with the happiest results, and now I am using it on a case of leucorrhea, with injections of S. H. Kennedy's Extract of Pinus Canadensis, and it is acting like a charm.

P. H. OWEN, M. D., Morganville, Ala., says:—I have prescribed Aletris Cordial (Rio) in several cases with the most satisfactory results, and regard it as the best uterine tonic I have met with in a professional experience of over twenty-five years. In cases of threatened miscarriage it acts like a charm. Would recommend its continuous administration in all cases when there is any indication of miscarriage.

Dr. W. BERTHELOT, Santander, Spain, says:—I have tried the Aletris Cordial (Rio), and it has seemed to me to be useful, especially in cases of dysmenorrhea.

Dr. RASQUINET, Jupile, near Liege, Belgium, says:—I tried Aletris Cordial (Rio) in the case of a woman who had had several miscarriages at the end of five months, and who is now again pregnant, having reached the seventh month. thanks to Aletris Cordial.

R. REECE, M. R. C. S., Walton-on-Thames, England, says:—Aletris Cordial (Rio) in painful menstruation is most valuable. A wife of a minister suffered much, and had had three miscarriages. I prescribed Aletris Cordial. She has for the first time, gone her full time, and was safely confined with a male child.

J. T. COLLIER, M. D., Brooks, Me., says:—I have used your Aletris Cordial (Rio) in cases of females at the menopause. Consider it one of the finest remedies for these cases.

Dr. GORDILLON, St. Amand, France, says: I have tried the Aletris Cordial (Rio) in a case of dysmenorrhea. The result I obtained from the use of your preparation was excellent, better than I had obtained in the same patient by prescribing the usual remedies employed in such cases.

W. F. TOOMBS, M. D., Morrillton, Ark., says:—I have used a great deal of your Aletris Cordial (Rio) and I find it all you claim for it in amenorrhea, dysmenorrhea, metritis, leucorrhea; I don't think it has an equal. I have used it in two cases of threatened miscarriage and the trouble was obviated. For a general Uterine Tonic I know of nothing superior.

R. D. PATTERSON, L. R. C. S. &c., Medical Officer, Caledon Dispensary, Co. Tyrone, Ireland, says:—I have very great pleasure in testifying to the very high opinion I hold of Aletris Cordial (Rio) in threatened miscarriage.

DETROIT COLLEGE OF MEDICINE.

SESSION 1889-90.

Clinical and Practical teaching are made an important feature of this College. Clinical instruction is given daily at HARPER, ST. MARY'S and ST. LUKE'S HOSPITAL, at the COLLEGE, at COLLEGE EYE and EAR INFIRMARY, ST. MARY'S FREE EYE and EAR INFIRMARY, and at the three FREE DISPENSARIES. The facilities offered by this college are unsurpassed for the practical study of MEDICINE, SURGERY, OBSTETRICS, GYNÆCOLOGY, DISEASES OF CHILDREN, GENITO-URINARY, and ORTHOPÆDIC SURGERY, OPHTHALMOLOGY and OTOLOGY, DERMATOLOGY and LARYNGOLOGY.

REGULAR SESSION opens on Wednesday, Sept. 25, and continues six months. During the session, the Professors will take special pains to examine the Students upon the subjects of the previous lectures.

SPRING SESSION begins April 2d, 1890; and closes June 11th.

FEES.—Matriculation fee, $5; Fees for Regular Session, $50; Spring Session, $10, to those who attend the regular term—to all others, $25; Hospital Fee, $10; Graduation Fee, $30; Perpetual Ticket, $100.

For further particulars, and for College Circular, apply to

CITY OF PITTSBURGH.
SESSIONS OF 1889—90.

The REGULAR SESSION begins on the last Tuesday of September, and continues six months. During this session, in addition to four Didactic Lectures, two or three hours are daily allotted to Clinical Instruction. Attendance upon two regular courses of lectures is requisite for graduation. A three years' graded course is also provided. The SPRING SESSION embraces recitations, clinical lectures and exercises, and didactic lectures on special subjects; this session begins the second Tuesday in April, and continues ten weeks.

The laboratories are open during the collegiate year for instruction in chemistry, microscopy, practical demonstrations in medical and surgical pathology, and lessons in normal histology. Special importance attaches to "the superior clinical advantages possessed by this College." For particulars, see annual announcement and catalogue, for which, address the Secretary of Faculty, Prof. J. W. J. MCKENNAN.

We claim for our Hypodermic Tablets:

Absolute Accuracy of Dose.
Ready and Entire Solubility.
Perfect Preservation of the Drug.

Their convenience and utility will at once be apparent on examination.

They are put up in Cylindrical Tubes, convenient for carrying in Hypodermic or Pocket case, ten tubes in a box, with twenty tablets in each tube.

NOTE.—It will only be necessary in ordering to specify the numbers, as above. Wyeth's Manufacture. These Tablets will be sent by mail, on receipt of the proper amount.

PHILADELPHIA, PA.

Doctor:

We wish to speak to you of one indication for the use of the Hypophosphites of Lime and Soda, which is most often overlooked.

There is a certain perversion of the process of nutrition, characterized by a hyperplasia of certain tissues, causing a pathological growth of those tissues.

Such an example is seen in Fibroid Tumors.

A careful histo-chemical examination of these cases shows that there is always a lack of the proper proportion of these important tissue salts.

Chemical experience demonstrates that their introduction, chemically pure, in a finely divided form, rapidly checks the pathological process.

These valuable salts will be found to control most other perversions of nutrition, as Consumption of the Lungs, Tabes Mesenterica, Chronic Inflammation of the respiratory passages, Scrofula and all its manifestations, Degenerations of the Nervous System, Muscular Atrophy, etc.

The one great desideratum is to obtain these inorganic salts in their absolute chemical purity, and in a pleasant and convenient vehicle. These requirements are all met in McArthur's Syrup, consisting of the pure Hypophosphites of Lime and Soda, especially prepared and thoroughly dissolved.

There are no other medicinal agents in the preparation, as will be found in others making similar claims, as these two salts form a distinct therapeutic unit, all the irritating stimulants being foreign to it.

If special cases temporarily require other medication, you can add the required ingredients to the Syrup in your prescription.

Write your prescription thus:

Syr. Hypophos. Comp., C. P., McArthur.

If you are interested we will send you, free, our valuable treatise, "The Curability and Treatment of Consumption;" also a large bottle of the Syrup, if you will pay express charges.

THE P.P.P. SYRINGE

Is universally considered the most perfect urethral Syringe in the market, because it combines within itself all desirable qualities. It measures but 1½ x 2¾ inches, has a capacity of fully half an ounce, and is made of one piece of soft rubber with conical point. To protect this soft point and to prevent pocket dust from getting into the Syringe, a Hard Rubber cap screws air-tight over it and enables the patient to carry it in his pocket filled with the injection ordered, ready for use when away from home.

For sale by all druggists.

PHENACETINE-BAYER.

In therapeutic action it is like all the analgesic antithermics, it has a double action—it lowers temperature and soothes pain. The lowering of the temperature is noticeable in cases of pyrexia. In fevers, 7½ grains of Phenacetine lowers the temperature by 1.8° to 3.4° F., and the antithermic action following such a dose lasts four hours. In certain cases the apyrexial period is more prolonged even from the same dose. Phenacetine is thought by some to be superior to antipyrin and acetanilid in producing marked antithermic effects without toxic phenomena. But it is above all as an analgesic that Phenacetine outrivals its predecessor. While it is as powerful, it does not produce pain in the stomach or the scarlatinaform rash of the antipyrin, nor does it give rise to the cyanosis of the acetanilid. However prolonged may be its administration, no bad effect has ever been seen from its use. It has been used for the relief of every form of pain, even for the lightning pain of tabes, with the best results. This double action, as an antithermic and as an analgesic, results from an effect produced upon the spinal cord; and the Phenacetine may be considered a depressor of the excitability of the medulla. The digestive, respiratory, and circulatory systems are not at at all affected by Phenacetine. It is inodorous, it is tasteless, and it is innocuous. [From a paper presented to the Central Kentucky Medical Association, by Steele Bailey, M. D., New England Medical Monthly, March, 1890.]

Phenacetine-Bayer, prepared by the Farbenfabriken, formerly Friedr. Bayer & Co., Elberfeld, is supplied by us in ounces and also in the form of our soluble pills and compressed tablets, containing two, four and five grains each. Either form may be obtained of any reputable apothecary.

ARISTOL.

Aristol, a combination of iodine and thymol, manufactured by the Farbenfabriken, formerly Fredr. Bayer & Co., Elberfeld, Germany, is a valuable, inodorous and non-toxic antiseptic remedy, said to be superior to Iodoform, Iodol and Sozo-Iodol.

For further information regarding this new remedy we would refer to the notes we have published, which we will be pleased to mail to applicants.

SULFONAL-BAYER.

Wm. H. Thomson, M. D., LL. D., in speaking of Sulfonal, says:—"Sulfonal is a pure hypnotic, neither anæsthetic nor depressing in character, and it does not affect the heart or circulation, and the sleep it produces is perfect. Being quite insoluble, it requires about three hours to become thoroughly dissolved in the stomach, and should be given about two hours before bed-time. As it is not affected by the digestive secretions, it may be given shortly after the evening meal.

"Sulfonal is of great value in the insomnia of the insane, and the dose should be repeated once during the night if the sleep is too short. **It is specially recommended in cases of nervous insomnia,** also in the sleeplessness of delirium tremens. In the latter case, gr. xx. should be administered every two hours until grs. lx or lxxx have been taken, but it should be remembered that every case of delirium tremens is also a case or starvation, and to produce sleep the patient must be fed. Dose as a hypnotic, gr. xv-xx." [From Notes, Materia Medica, and Therapeutics. Lectures delivered by Prof. Wm. H. Thomson, M. D., LL.D. Edited by Wm. H. McEnroe, M. D.]

Sulfonal-Bayer, prepared by the Farbenfabriken, formerly Fredr. Bayer & Co., Elberfeld, is supplied by us in ounces and in the form of Tablets of 5, 10 and 15 grains, put up in bottles of 10 and 100 tablets each.

We also offer Sulfonal-Bayer in the form of our soluble pills, containing 5 grains each.

W. H. Schieffelin & Co.,

NEW YORK.

ESTABLISHED 1855.

DRS. STRONG'S SANITARIUM,

SARATOGA SPRINGS, NEW YORK,

Receives persons recommended to it by their home physicians for Treatment, Change, Rest or Recreation, and places them under well-regulated hygienic conditions so helpful in the treatment of chronic invalids or the overtaxed.

For Treatment: In addition to the ordinary remedial agents, it employs Turkish, Russian, Roman, Sulphur, Electro-Thermal, the French Douche (Charcot's), and all Hydropathic Baths; Vacuum Treatment, Swedish Movements Massage, Pneumatic Cabinet, Inhalations of Medicated, Compressed, and Rarefied Air, Electricity in various forms, Thermo-Cautery, Calisthenics, and Saratoga Waters, under the direction of a staff of educated physicians.

For Change: This Institution is located in a phenomenally dry, tonic, and quiet atmosphere, in the lower arc of the Adirondack Zone, and within the "Snow Belt."

For Rest: The Institution offers a well-regulated, quiet home, heated by steam and thoroughly ventilated, with cheering influences and avoiding the depressing atmosphere of invalidism.

For Recreation: To prevent introspection, are household sports at all seasons of the year, and in Winter, tobogganning, elegant sleighing, etc.; in Summer, croquet, lawn-tennis, etc.

Private professional references furnished upon application. Physicians are invited to inspect the Institution at their convenience. A liberal discount to physicians and their families.

For further information, address,

A Phosphorized Cerebro-Spinant

(FRELIGH'S TONIC).

FORMULA.

Ten minims of the Tonic contain the equivalents (according to the formulæ of the U. S. P., and Dispensatory) of

Tinct. Nux Strychnos,	1	minim.
" Ignatia Amara,	1	"
" Cinchona,	4	"
" Matricaria,	1	"
" Gentian,	½	"
" Columbo,	½	"
" Phosphorus, C. P.,	1-300	gr.
Aromatics,	2	minims.

Dose: 5 to 10 drops in 2 tablespoonfuls of water.

INDICATIONS.

Paralysis, Neurasthenia, Sick and Nervous Headache, Dyspepsia, Epilepsy, Locomotor Ataxia, Insomnia, Debility of Old Age, and in the Treatment of Mental and Nervous Diseases.

A BALTIMORE PHYSICIAN, WHOSE DIPLOMA DATES FROM 1825, SAYS:

"Your combination I find vastly more effective than any tonic I have ever used. It furnishes a most powerful evidence of the vastly increased power of medicament by combination and judicious pharmaceutic preparation."

Price, One Dollar per Bottle, containing 100 of the Average 5-Drop Doses.—Physicians' single sample delivered, charges prepaid, on application. That every physician may be his own judge of its value, irrespective of the opinions of others, we make the following

SPECIAL OFFER:

We will send to any physician, delivered, charges prepaid, on receipt of twenty-five cents, and his card or letter-head, half a dozen physicians' samples, sufficient to test it on as many cases for a week to ten days each. The Tonic is kept in stock regularly by all the leading wholesale druggists of the country. As we furnish no samples through the trade, wholesale or retail, for samples, directions, price-lists, etc., address,

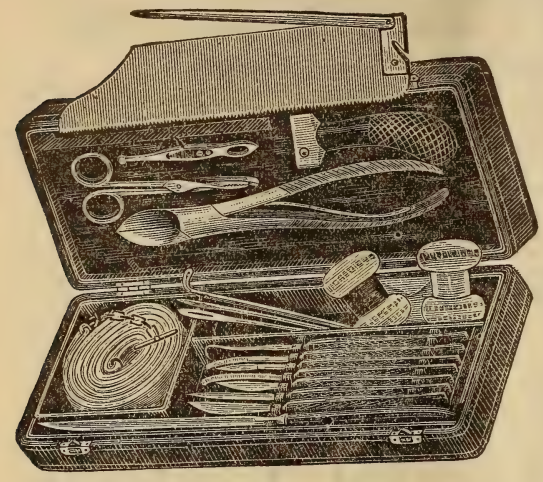
LENTZ'S ASEPTIC COMPACT OPERATING SET, No. 10.



We have from time to time made improvements to this set and are now making a perfect aseptic set, which offers especial facilities for aseptic precautions; the blades are soldered into hollow German-silver handles, nickel-plated, are light so as not to be unwieldy and admit of a firm grasp when operating.

The saw is adjusted to the handle on an entirely new principle, being made to separate easily and to facilitate thorough cleansing.

The handle is entirely of metal and fenestrated to overcome unnecessary weight.

Scissors and Forceps having French locks can be separated, and the slide can be easily removed from Artery and Needle Forceps.

Therefore, no opportunity is offered for the lodgment and development of germs.

The entire set is patterned with especial reference to facility in cleansing.

The instruments can be sterilized by placing them in boiling water, without fear of damaging them. Wood or rubber handles will not admit of this procedure. For price, see case A.

The following instruments are put up in either a fine Mahogany or Morocco case, with nickel trimmings, lined with velvet, and has an extra space for Trephine with handle, and Elevator if desired.

One Amputating Knife (6 in. blade); One Finger Knife; One Hernia Knife; One Sharp Curved Bistoury; Two Scalpels; One Tenotome; One Tenaculum; One Pair Scissors, curved or flat; One Saw (9 in. blade); One Liston's Bone Forceps, with Spring; One Artery and Needle Forceps, improved; One Esmarch's Flat Rubber Tourniquet, with Chain; One Hæmostatic Forceps; One Director, with Aneurism Needle; Two Silver Probes; Silk, Wire, Wax and Needles.

With the Sixteen Instruments Contained in this Case, any Ordinary Operation may be Performed.

SIZE, 11 INCHES LONG, 4 INCHES WIDE, 2 INCHES HIGH.

CLIN & CO.,—Paris.

GRAND NATIONAL PRIZE OF 16,600 FRANCS,

QUINA-LAROCHE

This meritorious **Elixir, QUINA-LAROCHE,** is prepared from the **three** Cinchonas; it is an agreeable and doubtless highly efficacious remedy.

—*The Lancet.*

VINOUS ELIXIR,

A STIMULATING RESTORATIVE

—AND—

ANTI-FEBRILE TONIC.

QUINA-LAROCHE under the form of a vinous **Elixir** contains the totality of the numerous principles of the **three** Cinchona barks. It is a preparation which renders great services to Therapeutics.—Extract of the *Gazette des Hôpitaux*, Paris.

FAR SUPERIOR TO ALL ORDINARY CINCHONA WINES.

LAROCHE'S QUINA, tried by the Academy of Medicine of Paris, is a specially prepared COMPOUND EXTRACT of Quinquina, a careful analysis, confirmed by experience, has shown that most of the wines and syrups hitherto used have not contained all the properties of this precious bark, of these some, although beneficial, are altogether lost, while many preparations contain but half the properties of the bark in varying proportions.

MR. LAROCHE, by his peculiar method, has succeeded in extracting all the active principles of the quinquina, combining these with *Catalan Wine* forming an Elixir free from the disagreeable bitterness of other similar preparations. Practitioners have found triple advantages in the use of this Elixir, it is a *strong tonic*, is easily administered, and perfectly harmless, being free from the unpleasant effects of Quinine.

THE FERRUGINOUS QUINA-LAROCHE is the invigorating tonic *par excellence*, having the advantage of being easily assimilated by the gastric juice; without, in any way, deranging the action of the digestive organs, proving itself to be a most efficacious remedy in cases of impoverishment of the blood, ANÆMIA, CHLOROSIS, INTESTINAL HÆMORRHAGE, CASTRALGIA, EXHAUSTION, ETC., ETC.

PARIS.—22 RUE DROUOT.—PARIS.

PRACTICAL INSTRUCTION IN DISEASES OF THE SKIN.

Opportunities for private clinical study of diagnosis and treatment of DISEASES OF THE SKIN are afforded by the services of the **Philadelphia Dispensary for Skin Diseases,** service for **Skin Diseases** of the **Northern Dispensary, Department for Skin Diseases of the Howard Hospital,** and the **Skin Wards of the Philadelphia Hospital.**

For information regarding fee, hours of service, etc., address the attending physician,

DR. HENRY W. STELWAGON 1411 SPRUCE ST., PHILADELPHIA.

BROMIDIA

THE HYPNOTIC.

FORMULA.—

Every fluid drachm contains 15 grains EACH of Pure Chloral Hydrat. and purified Brom. Pot., and one-eighth grain EACH of gen. imp. ext. Cannabis Ind. and Hyoscyam.

DOSE.—

One-half to one fluid drachm in WATER or SYRUP every hour, until sleep is produced.

INDICATIONS.—

Sleeplessness, Nervousness, Neuralgia, Headache, Convulsions, Colic, Mania, Epilepsy, Irritability, etc. In the restlessness and delirium of fevers it is absolutely invaluable.

IT DOES NOT LOCK UP THE SECRETIONS.

PAPINE

THE ANODYNE.

Papine is the Anodyne or pain-relieving principle of Opium, the Narcotic and Convulsive Elements being eliminated. It has less tendency to cause Nausea, Vomiting, Constipation, Etc.

INDICATIONS.—

Same as Opium or Morphia.

DOSE.—

(ONE FLUID DRACHM)—represents the Anodyne principle of one-eighth grain of Morphia.

IODIA

The Alterative and Uterine Tonic.

FORMULA.—

Iodia is a combination of active principles obtained from the Green Roots of Stillingia, Helonias, Saxifraga, Menispermum, and Aromatics. Each fluid drachm also contains five grains Iod. Potas., and three grains Phos. Iron.

DOSE.—

One or two fluid drachms (more or less as indicated) three times a day before meals.

INDICATIONS.—

Syphilitic, Scrofulous and Cutaneous Diseases, Dysmenorrhea, Menorrhagia, Leucorrhea, Amenorrhea, Impaired Vitality, Habitual Abortions, and General Uterine Debility.

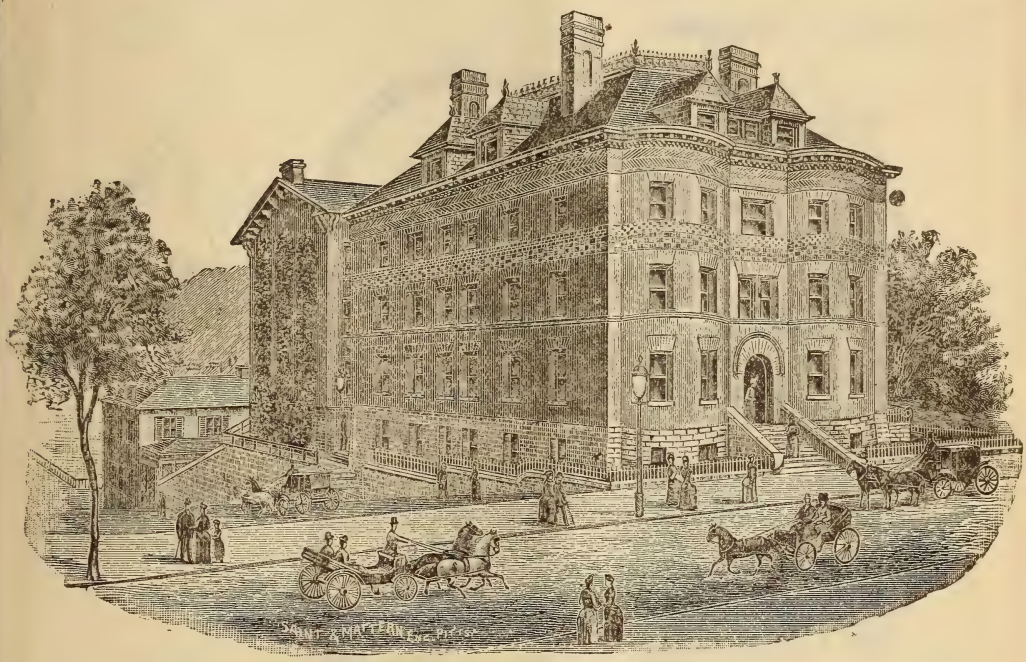
DR. R. S. SUTTON'S

Sanatorium for Diseases of Women.



Seventh Year Opens September 1, 1889.

ALLEGHENY CITY, PA.

This Institution is located on high ground, and overlooks the Allegheny, Monongahela and Ohio rivers; it commands a view of the city of Pittsburgh, and its picturesque surroundings. The building is large and beautiful, it is provided with every modern convenience, the halls are heated by steam, the rooms are commodious, well lighted and ventilated, and heated by open grates. The house is provided with a private parlor and reading-room for patients. The dining-room is large, handsomely finished, and furnished with small tables, securing privacy at meals for those who do not care to have meals served in their own rooms. Patients can be as secluded, should they desire it, as in a well appointed hotel. Each patient is examined by Dr. Sutton, and receives his daily personal attention, while Dr. J. H. Williamson, a physician of ample hospital experience, resides in the Institution, and has, under Dr. Sutton, the immediate care of the patients. The Institution accommodates 25 patients, and is equal in comfort to the best hotels.

Electricity, baths, douches, massage, local treatment, general medication and surgical operations are resorted to according to the requirements of each patient.

For further information address the Matron

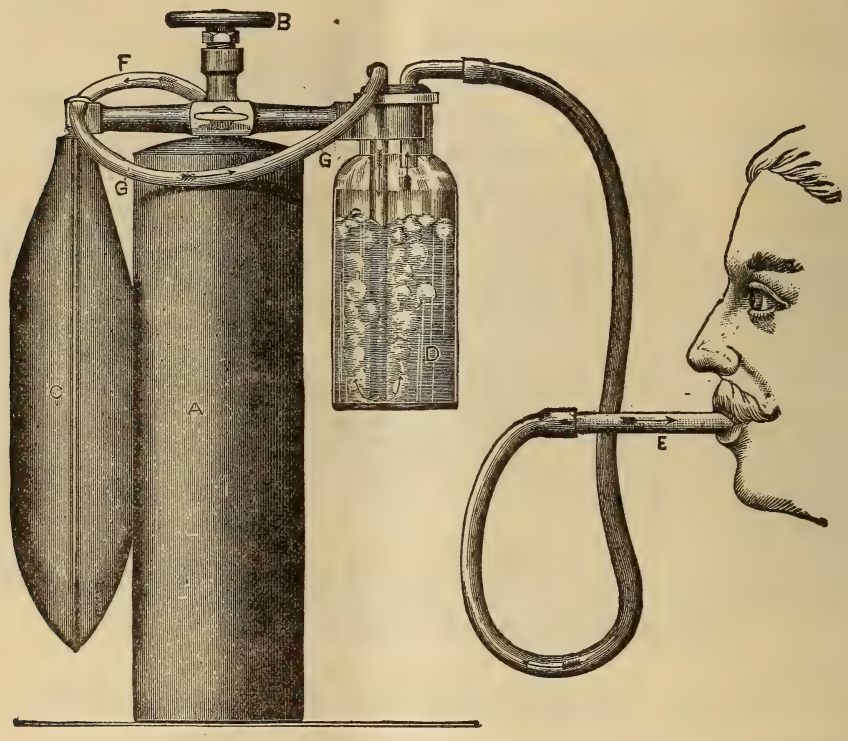
INHALATION APPARATUS

FOR

THE THERAPEUTIC ADMINISTRATION OF OXYGEN.



In the treatment of lung troubles by Oxygen its exhibition by inhalation is preferred. The apparatus herewith shown is a modification of the Nitrous Oxide apparatus which we have supplied for many years. It is made in the best manner throughout, and is the outcome of years of experience in the manufacture of gas apparatus. It will be found to meet all the requirements.

We supply the gas in two sizes of cylinders, containing respectively forty and one hundred gallons, either pure Oxygen, or a mixture of Oxygen and Nitrous Oxide in definite proportions of 20 per cent., and forty per cent. of Nitrous Oxide.

Whether pure or mixed the gas is sold at the uniform price of 5 cents a gallon. The cost of the cylinders will be refunded on their return empty with the valves in good condition. Full description of Inhalation and Enema apparatuses with directions for use accompany each apparatus, or will be supplied on application.

PRICES.

Inhalation Apparatus	$5.00
Cylinder, 40 gallons' capacity	6.00
40 gallons Gas, either pure Oxygen or mixed Oxygen and Nitrous Oxide	2.00
Complete Apparatus, Cylinder, and 40 gallons Gas	$13.00
Inhalation Apparatus	$5.00
Cylinder, 100 gallons' capacity	15.00
100 gallons Gas, either pure or mixed	5.00
Complete Apparatus, Cylinder, and 100 gallons Gas	$25.00

THE BEST ANTISEPTIC

FOR BOTH INTERNAL AND EXTERNAL USE.

ANTISEPTIC, PROPHYLACTIC, DEODORANT.

LISTERINE

NON-TOXIC, NON-IRRITANT, NON-ESCHAROTIC.

FORMULA—Listerine is the essential antiseptic constituent of Thyme, Eucalyptus, Baptisia, Gaultheria and Mentha Arvensis, in combination. Each fluid drachm also contains two grains of refined and purified Benzo-boracic Acid.

DOSE—Internally: One teaspoonful three or more times a day (as indicated) either full strength, or diluted, as necessary for varied conditions.

LISTERINE is a well-proven antiseptic agent—an antizymotic—especially adapted to internal use, and to make and maintain surgical cleanliness—asepsis—in the treatment of all parts of the human body, whether by spray, irrigation, atomization, or simple local application, and therefore characterized by its particular adaptability to the field of

PREVENTIVE MEDICINE—INDIVIDUAL PROPHYLAXIS.

Diseases of the Uric Acid Diathesis.

LAMBERT'S

LITHIATED HYDRANGEA

KIDNEY ALTERATIVE—ANTI-LITHIC.

FORMULA—Each fluid drachm of "Lithiated Hydrangea" represents thirty grains of FRESH HYDRANGEA and three grains of CHEMICALLY PURE Benzo-Salicylate of Lithia. Prepared by our improved process of osmosis, it is INVARIABLY of DEFINITE and UNIFORM therapeutic strength, and hence can be depended upon in clinical practice.

DOSE—One or two teaspoonfuls four times a day (preferably between meals).

Urinary Calculus, Gout, Rheumatism, Bright's Disease, Diabetes, Cystitis, Hæmaturia Albuminuria, and Vesical irritations generally.

We have much valuable literature upon { GENERAL ANTISEPTIC TREATMENT, LITHEMIA, DIABETES, CYSTITIS, ETC. } To forward to Physicians upon request:

LAMBERT PHARMACAL CO., ST. LOUIS, MO.

★——GENOIS'——★

Diastasic Extract of Malt,

A PURE LIQUID EXTRACT OF MALT.

CONTAINING at least 12 per cent. of extractive matter, rich in nitrogenous principles, and less than 4 per cent. of alcohol for its preservation. It is recommended for the treatment of dyspepsia, defective nutrition, flatulence, etc., as well as for a tonic. It is also recommended to persons suffering from insomnia. Its sedative and soporific action is gentle and gradual. Generally prescribed by physicians. It is now the standard malt in the market. Over 300 gross sold in Philadelphia last year. Obtainable from the retail drug trade.

French, Richards & Co.,

Sole Wholesale Agents,

1001, 1003, and 1005 Market Street, Philadelphia.

To PHYSICIANS.

THE FOREMOST COCOA OF EUROPE
THE COMING ONE OF AMERICA.

VAN HOUTEN'S
"Best and Goes Farthest."

Physicians will do well in recommending, as their European colleagues do, VAN HOUTEN'S COCOA for daily family use. Now that the profession is deprecating the habitual use of alcoholic liquors, and as even tea and coffee are found too exciting for many temperaments—to say nothing of the growing number of cases of nervous disorder in this age of hot haste and feverish anxiety—the question of what beverage may be recommended, as at once refreshing and innocuous, is assuming the highest importance.

VAN HOUTEN'S
Most Appetizing. Easily Digested.

Cocoa has long been known as a useful article of diet, and its claims are steadily winning recognition. Unlike tea or coffee, it is not only a stimulant but a nourisher; and it has the great advantage of leaving none of their narcotic effects on the system. For this reason it is adapted to general use. The strong may take it with pleasure, and the weak with impunity.

VAN HOUTEN'S
The Original—Most Soluble.

"Pure soluble cocoa" is an invention of Mr. C. J. Van Houten, who patented this invention in Holland. Thus all other "pure soluble cocoas" are imitations. The process of manufacturing Van Houten's cocoa is still, to-day, a secret of C. J. Van Houten & Zoon. Chemists and medical men of the highest standing say, universally, that their observation shows that the Van Houtens do exactly what science would suggest for the conversion of raw cocoa into a satisfactory article of food. They simply remove some of the originally contained fat, which is apt to disagree with the system, and in some ingenious manner, increase the solubility of flesh-forming constituents.

VAN HOUTEN'S
"Once Tried, Always Used."

To remove excess of fat is always desirable. Some manufacturers do this by largely diluting the ground cocoa with starch. A cupful of thick beverage may thus be made, which no doubt contains a diminished amount of fat, but of course also contains a diminished amount of every other constituent of the cocoa. For persons who desire a thick, starch-like beverage, such a mixture, miscalled "soluble" cocoa, may be unobjectionable, though the cocoa in it is less easy of digestion than Van Houten's preparation. A far better method, however, is to extract, as the Van Houtens do, one part of the fat from four of cocoa, and, as a consequence, render each of the valuable constituents remaining, one-third more effective than before. Instead of being weakened by starch, Van Houten's cocoa is thus made one-third stronger in every one of its valuable properties.

VAN HOUTEN'S
"Largest Sale in the World."

The Acutely Ill.

When a patient is acutely ill, the digestive powers share in the general condition, and consequently the food supplied should be of the most easily assimilable character. The predigestion of starchy matters outside the body, as in MELLIN'S FOOD, is necessary, and the soluble carbohydrates of which this food consists, soluble because predigested, form the true food of the acutely ill.—J. MILNER FOTHERGILL, M.D., Edin.

A sample of MELLIN'S FOOD *will be sent to any physician, free of expense, upon application.*

Doliber-Goodale Co., Boston, Mass.

"THIS IS AN AGE OF APOLLINARIS WATER."
—WALTER BESANT.

Apollinaris

"THE QUEEN OF TABLE WATERS."

The filling at the Apollinaris Spring (Rhenish Prussia), amounted to

11,894,000 BOTTLES IN **1887,**
12,720,000 BOTTLES IN **1888** AND
15,822,000 BOTTLES IN **1889.**

"The annual consumption of this favorite beverage affords a striking proof of the widespread demand which exists for table water of absolute purity, and it is satisfactory to find that, wherever one travels, in either hemisphere, it is to be met with; it is ubiquitous, and should be known as the cosmopolitan table water. 'Quod ab omnibus, quod ubique.'"—BRITISH MEDICAL JOURNAL.

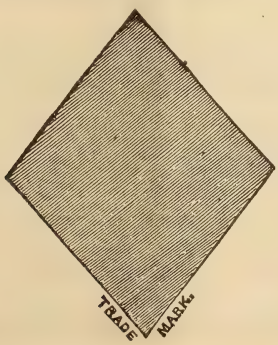
THE BEST NATURAL APERIENT.

THE APOLLINARIS COMPANY, LIMITED, London, beg to announce that, as numerous APERIENT WATERS are offered to the public under names of which the word "**Hunyadi**" forms part, they have now adopted an additional Label comprising their Registered Trade Mark of selection, which consists of

A RED DIAMOND.

This Label will henceforth also serve to distinguish the **HUNGARIAN APERIENT WATER SOLD BY THE COMPANY** from all other **Aperient Waters.**

DEMAND THE



DIAMOND MARK.

And insist upon receiving the HUNGARIAN APERIENT WATER of the APOLLINARIS COMPANY, LIMITED, London.

BOUDAULT'S PEPSINE

The only Pepsine used in the Hospitals of Paris for the last Thirty Years.

Unlike the various substitutes which, in most cases, are but unscientific or incompatible compounds, forced upon the Medical Profession as aids to digestion by extensive advertising, but which, when submitted to the proper tests, are found to be useless as digestive agents, Pepsine is constantly gaining in the esteem of the careful practitioner.

Since the introduction of Pepsine by Boudault and Corvisart in 1854, the original BOUDAULT'S PEPSINE HAS BEEN AT ALL TIMES CONSIDERED THE BEST, as is attested by the awards it has received at the Expositions of 1867, 1868, 187 1873, in 1876 at the Centennial Exposition of Philadelphia, and in 1878 at the Paris Exposition.

The most reliable tests, carefully applied, will satisfy everyone that BOUDAULT'S PEPSINE HAS A MUCH HIGHER DIGESTIVE POWER than the best Pepsines now before the Profession, and is therefore especially worthy of their attention.

BOUDAULT'S PEPSINE is prepared in the form of Pepsine Acid and Pepsine Neutral. It is sold in bottles of one ounce, with a measure containing exactly five grains; also in bottles of four, eight, and sixteen ounces for dispensing.

BOUDAULT'S WINE OF PEPSINE

FORMULA OF DR. CORVISART.

The taste of Pepsine being perfectly disguised in this Wine, it may be recommended to persons who have difficulty in taking Pepsine in the form of Powder. This Wine is tested so that a tablespoonful of it is equal in digestive power to ten grains of Boudault's Pepsine in powder. Sold only in bottles of eight ounces.

TANRET'S PELLETIERINE

For the Treatment of Tape-Worm (Tænia Solium).

This New Tænifuge, the Active Alkaloid of Pomegranate Bark, has of late come into extensive use in France for the treatment of Tape-Worm (Tænia Solium). The results of numerous experiments with it at the Marine Hospitals of Toulon, St. Mandrier, etc., and in the Hospitals of Paris, St. Antoine, La Charité, Necker Beaujon, etc., have all been most satisfactory. Doctor Dujardin Beaumetz, Member of the Academy of Medicine, and Professor Laboulbene, in their report to the Society of Therapeutics, have given it their unqualified approval, after the most searching experiments. This preparation is pleasant to administer, and, if certain preliminaries are observed, success will be insured.

Sold only in bottles containing one dose.

DUCRO'S ALIMENTARY ELIXIR

A Combination uniting the properties of Alcoholic Stimulants and Raw Meat.

This preparation, which has been used with great success in the hospitals of Paris since 1868, is adapted to the treatment of all diseases requiring administration, in a small volume, of a tonic able to stimulate and support the vital forces, as *Pulmonar Phthisis, Depression and Nervous Debility, Adynamia, Malarious Cachexia, etc.*

Prepared by EMILE DURIEZ & CO., Successors to DUCRO & CIE, Paris.

KIRKWOOD'S INHALER

This is the only complete, reliable, and effective inhaler in use, arranged for the direct application of Muriate of Ammonia and other remedial agents in the state of vapor to the diseased parts of the air-passages in the treatment of catarrh and diseases of the throat and lungs. No heat or warm liquids required in its use.

It is entirely different from the various frail, cheap instruments that have been introduced.

KIRKWOOD'S INHALER is accompanied by testimonials of the highest professional character, together with carefully prepared formulas for use.

RETAIL PRICE, COMPLETE, $2.50.

☞ A liberal discount allowed to the trade and profession. For descriptive pamphlet or other information address

E. FOUGERA & CO., 30 North William St., New York,

Sole Agents for the above Preparations.

GARDNER'S

SYRUP OF HYDRIODIC ACID,

Introduced in 1878 by R. W. GARDNER.

The Reputation which Hydriodic Acid has Attained During the past Eleven Years was Won by this Preparation.

Numerous Imitations prepared differently, and weaker in Iodine, are offered, from the use of which the same therapeutic effects cannot be obtained.

Caution.—Use no Syrup of Hydriodic Acid which has turned red. This shows decomposition and free Iodine. In this state it acts as an irritant and fails to produce desirable results

Unprincipled apothecaries substitute imitations when Gardner's Syrup is prescribed, and physicians, failing to get desirable and promised results, attribute the fault, unjustly, to Gardner's Syrup.

THERAPEUTIC INDICATIONS.

Hay Fever; Rose Cold; Poisoning by Lead, Mercury or Arsenic; Acute and Chronic Rheumatism; Asthma; Chronic Bronchitis; Catarrh; Congestion of Lungs in Children; Adenitis; Eczema; Lupus; Chronic Malarial Poisoning; Lumbago; Acute Pneumonia; Psoriasis; Scrofulous Diseases; Goitre; Enlarged Glands; Cold Abscesses; Indolent Sores; Excessive Fat; Fatty Degeneration of the Heart; to absorb non-malignant Tumors; and in the latter stages of Syphilis; Syphilitic Phthisis.

Details of treatment furnished physicians upon application to undersigned without charge.

Gardner's Chemically Pure Syrups of Hypophosphites.

Embracing the separate Syrups of Lime, of Soda, of Iron, of Potassa, of Manganese, and an Elixir of the Quinia Salt; enabling physicians to accurately follow Dr. Churchill's method, by which thousands of authenticated cases of Phthisis have been cured. The only salts, however, used by Churchill in Phthisis are those of Lime, of Soda, and of Quinia, and always separately according to indications,—never combined.

The reason for the use of single Salts is because of antagonistic action of the different bases, injurious and pathological action of Iron, Potassa, Manganese, etc., in this disease.

These facts have been demonstrated by thirty years' clinical experience in the treatment of this disease exclusively, by Dr. Churchill, who was the first to apply these remedies in Medical practice. Modified doses are also required in this disease; seven grains during twenty-four hours being the maximum dose in cases of Phthisis, because of increased susceptibility of the patient to their action, the danger of producing toxic symptoms (as hemorrhage, rapid softening of tubercular deposit, etc.), and the necessity that time be allowed the various functions to recuperate simultaneously; over-stimulation, by pushing the remedy, resulting in crisis and disaster.

A pamphlet of sixty-four pages, devoted to a full explanation of these details and others, such as contra-indicated remedies, indications for the use of each hypophosphite, reasons for the use of absolutely pure Salts, protected in Syrup from oxidation, etc., mailed to physicians without charge upon application to

R. W. GARDNER, 158 William St., N. Y. City.

W. H. SCHIEFFELIN & CO., Sole Wholesale Agents, New York.

CELERINA

NERVE TONIC, STIMULANT AND ANTISPASMODIC.

FORMULA.—Every Fluid Drachm represents FIVE grains EACH—Celery, Coca, Kola, Viburnum and Aromatics.

INDICATIONS.—Loss of Nerve-Power (so usual with Lawyers, Preachers, Writers and Business Men), Impotency, Spermatorrhea, Nervous Headache, Neuralgia, Paralysis, Hysteria, Opium Habit, Inebriety, Dyspepsia, and ALL LANGUID conditions of the System.

Indispensable to restore a patient after alcoholic excess.

DOSE.—One or two Teaspoonfuls three or more times a day, as directed by the Physician.

LIQUID IRON-RIO

Palatable and easily assimilated. Does not produce Nausea, nor irritate the Stomach. Does not Cause Headache, nor Constipate. Does not Stain the Teeth. It is so Acceptable to the Stomach that its Use is Admissible when all other forms of Iron would be rejected. Being so Readily Assimilable, it only requires a small Dose.

Each Fluid Drachm contains ONE GRAIN of Iron in a Pleasant and Digestible Form.

DOSE.—One or more Teaspoonfuls as indicated, during or after meals.

S. H. KENNEDY'S

CONCENTRATED EXTRACT OF

PINUS CANADENSIS

DARK. A NON-ALCOHOLIC LIQUID. WHITE.

A MOST VALUABLE NON-IRRITATING MUCOUS ASTRINGENT.

INDICATIONS.—Albuminuria, Diarrhea, Dysentery, Night-Sweats, Hemorrhages, Profuse Expectoration, Catarrh, Sore Throat, Leucorrhea, and other Vaginal Diseases, Piles, Sores, Ulcers, Burns, Scalds, Gonorrhea, Gleet, Etc.

When Used as an Injection, to Avoid Staining of Linen, the WHITE Pinus should be used.

RECOMMENDED BY PROMINENT EUROPEAN AND AMERICAN PHYSICIANS.

CITY OF PITTSBURGH.

SESSIONS OF 1889—90.

The REGULAR SESSION begins on the last Tuesday of September, and continues six months. During this session, in addition to four Didactic Lectures, two or three hours are daily allotted to Clinical Instruction. Attendance upon two regular courses of lectures is requisite for graduation. A three years' graded course is also provided. The SPRING SESSION embraces recitations, clinical lectures and exercises, and didactic lectures on special subjects; this session begins the second Tuesday in April, and continues ten weeks.

The laboratories are open during the collegiate year for instruction in chemistry, microscopy, practical demonstrations in medical and surgical pathology, and lessons in normal histology. Special importance attaches to "the superior clinical advantages possessed by this College." For particulars, see annual announcement and catalogue, for which, address the Secretary of Faculty, Prof. J. W. J. McKENNAN.

Business correspondence should be addressed to

The 68th Annual Session will begin October 7th and end March 1st. Graded three years' course required. Women admitted. Professors: J. F. Thompson, W. W. Johnston, A. F. A. King, E. T. Fristoe, Wm. Lee, D. W. Prentiss, D. K. Shute.

For circulars, address

A. F. A. KING, M. D., DEAN, 726 THIRTEENTH ST., N. W., WASHINGTON D. C.

UNIVERSITY OF PENNSYLVANIA.—Medical Department.

The 124TH ANNUAL WINTER SESSION began Tuesday, October 1st, 1889, at 12 M., and will continue until May 1st, 1890.
The PRELIMINARY SESSION began September 18th, 1889.
The curriculum is graded and three annual winter sessions are required. Practical instruction, including laboratory work in Chemistry, Histology, Osteology and Pathology, with Bedside Instruction in Medicine, Surgery and Gynecology are a part of the regular course and without additional expense.

FACULTY.

JOSEPH LEIDY, M.D., LL.D., Professor of Anatomy.
D. HAYES AGNEW, M.D., LL.D., Honorary Professor of Clinical Surgery.
WILLIAM PEPPER, M.D., LL.D., Professor of Theory and Practice of Medicine, and of Clinical Medicine.
WILLIAM GOODELL, M.D., Professor of Gynecology.
JAMES TYSON, M.D., Professor of Clinical Medicine.
HORATIO C. WOOD, M.D., LL.D., Professor of Materia Medica, Pharmacy and General Therapeutics.
THEODORE G. WORMLEY, M.D., LL.D., Professor of Chemistry and Toxicology.
JOHN ASHHURST, JR., M.D., Professor of Surgery and of Clinical Surgery.
EDWARD T. REICHERT, M.D., Professor of Physiology.
WILLIAM F. NORRIS, M.D., Honorary Prof. of Ophthalmology
BARTON COOKE HIRST, M.D., Professor of Obstetrics.
J. WILLIAM WHITE, M.D., Professor of Clinical Surgery.
JOHN GUITÉRAS M.D., Professor of General Pathology and Morbid Anatomy.
GEORGE A. PIERSOL, M.D., Professor of Histology and Embryology.
SAMUEL G. DIXON, M.D., Professor of Hygiene.

JAMES R. LEAMING, M.D., Emeritus Professor of Diseases of the Chest and Physical Diagnosis; Special Consulting Physician in Chest Diseases to St. Luke's Hospital.

EDWARD B. BRONSON, M.D., Professor of Dermatology; Visiting Dermatologist to the Charity Hospital; Consulting Dermatologist to Bellevue Hospital (Out-door Department).

A. G. GERSTER, M.D., Professor of Surgery; Visiting Surgeon to the German and Mt. Sinai Hospitals.

V. P. GIBNEY, M.D., Professor of Orthopædic Surgery; Orthopædic Surgeon to the Nursery and Child's Hospital; Surgeon-in-Chief to the Hospital for Ruptured and Crippled.

LANDON CARTER GRAY, M.D., Professor of Diseases of the Mind and Nervous System; Attending Physician to Hospital for Nervous and Mental Diseases, and to St. Mary's Hospital.

EMIL GRUENING, M.D., Professor of Ophthalmology; Visiting Ophthalmologist to Mt. Sinai Hospital, and to the German Hospital.

*JAMES B. HUNTER, M.D, Professor of Gynæcology; Surgeon to the Woman's Hospital; Surgeon to the New York Cancer Hospital; Consulting Surgeon to the New York Infirmary for Women and Children; President of the Faculty.

PAUL F. MUNDÉ, M.D., Professor of Gynæcology; Gynæcologist to Mt. Sinai Hospital; Consulting Gynæcologist to St. Elizabeth Hospital.

A. R. ROBINSON, M.D., Professor of Dermatology; Professor of Normal and Pathological Histology in the Woman's Medical College.

DAVID WEBSTER M.D., Professor of Ophthalmology; Surgeon to the Manhattan Eye and Ear Hospital.

JOHN A. WYETH, M.D., Professor of Surgery; Visiting Surgeon to Mt. Sinai Hospital; Consulting Surgeon to St. Elizabeth Hospital; Secretary of the Faculty.

W. GILL WYLIE, M.D., Professor of Gynæcology; Gynæcologist to Bellevue Hospital.

R. C. M. PAGE, M.D., Professor of General Medicine and Diseases of the Chest; Physician to St. Elizabeth Hospital; Attending Physician to the Northwestern Dispensary, Department of Chest Diseases.

D. BRYSON DELAVAN, M.D., Professor of Laryngology and Rhinology; Laryngologist to the Demilt Dispensary.

JOSEPH WILLIAM GLEITSMANN, M.D., Professor of Laryngology and Rhinology; Laryngologist and Octologist to the German Dispensary.

OREN D. POMEROY, M.D., Professor of Otology; Surgeon Manhattan Eye and Ear Hospital; Ophthalmic Surgeon to New York Infants' Asylum, and Consulting Surgeon to the Paterson Eye and Ear Infirmary.

HENRY N. HEINEMAN, M.D., Professor of General Medicine and Diseases of the Chest; Attending Physician to Mt. Sinai Hospital

B. SACHS, M.D., Professor of Diseases of the Mind and Nervous System; Consulting Neurologist to the Montefiore Home for Chronic Invalids.

THOMAS R. POOLEY, M.D., Professor of Ophthalmology; Surgeon-in-Chief of the New Amsterdam Eye and Ear Hospital; Ophthalmic Surgeon to the Sheltering Arms; Consulting Ophthalmologist to the St. Bartholomew's Hospital.

L. EMMETT HOLT, M.D., Professor of Diseases of Children; Visiting Physician to the New York Infant Asylum; Consulting Physician to the Hospital for Ruptured and Crippled.

AUGUST SEIBERT, M.D., Professor of Diseases of Children; Physician to the Children's Department of the German Dispensary.

H. MARION SIMS, M.D., Professor of Gynæcology, Gynæcologist to St. Elizabeth Hospital and New York Infant Asylum.

WILLIAM F. FLUHRER, M.D., Professor of Genito-Urinary Surgery; Surgeon to Bellevue and St. Sinai Hospitals.

HENRY C. COE, M. D., M. R. C. S. (Eng.), Professor of Gynecology; Attending Surgeon to New York Cancer Hospital; Assistant Surgeon to Woman's Hospital; Obstetric Surgeon to Maternity Hospital; Obstetrician to New York Infant Asylum; Gynecologist to Presbyterian Hospital, Out-door Department.

* Deceased.

THE NEW YORK POLYCLINIC is a School of Clinical Medicine and Surgery for *Practitioners only*. **No didactic lectures are given** The classes are limited. The demonstrations are made at the Polyclinic School and Hospital, and in the various Hospitals in New York City with which the Faculty are connected.

Session of 1889–90 opens Monday, September 16th, 1889. For further information and for catalogue, address

JOHN A. WYETH, M.D.,

Secretary of the Faculty,

Or WILLIS O. DAVIS, Clerk,

214, 216 & 218 East 34th Street, New York City.

ESTABLISHED 16 YEARS. BEWARE OF IMITATIONS.

COLDEN'S LIQUID BEEF TONIC

AN INVALUABLE AID IN MEDICAL PRACTICE.

ORIGINAL | COLDEN'S LIEBIG'S LIQUID EXTRACT OF BEEF AND TONIC INVIGORATOR. | LABEL.

ESSENTIALLY DIFFERENT FROM ALL OTHER BEEF TONICS. UNIVERSALLY ENDORSED BY LEADING PHYSICIANS.

This preparation, consisting of the Extract of Beef (prepared by Baron Liebig's process), the best Brandy obtainable, soluble Citrate of Iron, Cinchona and Gentian is offered to the Medical Profession upon its own merits. It is of inestimable value in the treatment of **Debility, Convalescence from Severe Illness Anæmia, Malarial Fever, Chlorosis, Incipient Consumption, Nervous Weakness,** and maladies requiring a Tonic and Nutrient. It is quickly absorbed by the Stomach and upper portion of the Alimentary Canal, and therefore finds its way into the circulation quite rapidly.

COLDEN'S LIQUID BEEF TONIC appeals to the judgment of intelligent Physicians in the treatment of

ALL CASES OF GENERAL DEBILITY.

By the urgent request of several eminent members of the medical profession, I have added to each wineglassful of this preparation two grains of Soluble Citrate of Iron, and which is designated on the label, "**With Iron, No. 1;**" while the same preparation, **Without Iron,** is designated on the label as "**No. 2.**"

In prescribing this preparation, physicians should be particular to mention "*COLDEN'S,*" viz., "*Ext. Carnis Fl. Comp. (Colden.)*" A Sample of **COLDEN'S BEEF TONIC** will be sent free on application, to any physician (enclosing business card) in the United States. *Sold by druggists generally.*

C. N. CRITTENTON, General Agent, 115 Fulton St., New York.

GLENN'S SULPHUR SOAP.

BEWARE OF COUNTERFEITS.

Physicians know the great value of the local use of Sulphur in the **Treatment of Diseases of the Skin.**

Constantine's Pine-Tar Soap.

THE BEST SOAP MADE.

Has been on trial among physicians for very many years as a healing agent. **By far the Best Tar Soap made.**

Wholesale Depot, C. N. CRITTENTON, 115 Fulton St, New York.

Samples of above Soaps SENT FREE, on application, to any Physician enclosing car

FELLOWS'
HYPO-PHOS-PHITES

(SYR: HYPOPHOS: COMP: FELLOWS)

Contains **The essential elements** to the Animal Organization—Potash and Lime.

The **Oxydizing Agents**—Iron and Manganese;

The **Tonics**—Quinine and Strychnine,

And the **Vitalizing Constituent**—Phosphorus,

Combined in the form of a Syrup, with *slight alkaline reaction.*

It Differs in Effect from all others, being pleasant to taste, acceptable to the stomach, and harmless under prolonged use.

It has Sustained a High Reputation in America and England for efficiency in the treatment of Pulmonary Tuberculosis, Chronic Bronchitis, and other affections of the respiratory organs, and is employed also in various nervous and debilitating diseases with success.

Its Curative Properties are largely attributable to Stimulant, Tonic, and Nutritive qualities, whereby the various organic functions are recruited.

In Cases where innervating constitutional treatment is applied, and tonic treatment is desirable, this preparation will be found to act with safety and satisfaction.

Its Action is Prompt; stimulating the appetite and the digestion, it promotes assimilation, and enters directly into the circulation with the food products.

The Prescribed Dose produces a feeling of buoyancy, removing depression or melancholy, and hence is of great value in the treatment of MENTAL AND NERVOUS AFFECTIONS.

From its exerting a double tonic effect and influencing a healthy flow of the secretions, its use is indicated in a wide range of diseases.

Prepared by JAMES I. FELLOWS, Chemist,

48 VESEY STREET, NEW YORK.

Circulars sent to Physicians on Application.

FOR SALE BY ALL DRUGGISTS.

MILK OF MAGNESIA.

A PURE HYDRATED OXIDE OF MAGNESIUM.—(MgH_2O_2.)

ANTACID AND CORRECTIVE.

Especially recommended in the Gastro-intestinal irritations of infant, child and adult life—Nausea—Vomiting in Pregnancy—Sour Stomach—Diarrhœa—Cholera Infantum—and the Rheumatic and Gouty conditions resulting from acid secretions.

This Hydrate presents Magnesia practically in solution without grittiness or precipitation—No danger from concretions as with the calcined—Free from Carbonic Acid—Miscible with other fluids—in a form easy of administration and absorption. Superior to lime water or chalk mixture for addition to milk. It is not a purge: but in antacid, corrective or mild laxative indications will be found reliable and safe. It combines well with Syrup Rhubarb—Soda—Opium—the various astringents, etc.

PHOSPHO-MURIATE OF QUININE,

COMPOUND,

A RELIABLE ALTERATO-CONSTRUCTIVE,

Particularly indicated in conditions of **disturbed nutrition** and **tissue retrograde.**

An easily appropriated general tonic, promoting digestion, and safe under prolonged use. A permanent combination of the soluble Wheat Phosphates, with Muriate of Quinine, Iron and Strychnia.

Of greater strength than the various Hypophosphite compounds.

The above are put up in Dispensing and Trade Containers.

DIGESTIBLE COCOA.
WHEAT PHOSPHATES.
COD LIVER OIL EMUL.

THE CHAS. H. PHILLIPS CHEMICAL CO.,
77 PINE STREET, NEW YORK.

CH. MARCHAND'S

Peroxide of Hydrogen,

MEDICINAL (ABSOLUTELY HARMLESS)

H_2O_2

is rapidly growing in favor with the medical profession. It is the most powerful antiseptic known, almost tasteless, and odorless. Can be taken internally or applied externally with perfect safety. Its curative properties are positive, and its strength and purity can always be relied upon. This remedy is not a nostrum.

Experiments of Prof. Pasteur, Dr. Koch, and many other scientific authorities, prove beyond doubt that Germs, Bacteria, or Microbes cause and develop: **NOSE, THROAT, AND LUNG DISEASES—Diphtheria, Croup, Sore Throat, Catarrh of the Nose, Hay Fever, Bronchitis, Laryngitis, Pharyngitis, Whooping Cough, Consumption and other Chronic Affections, specific or not.**

GERMS, BACTERIA, OR MICROBES are instantaneously annihilated when brought into contact with **Ch. Marchand's Peroxide of Hydrogen.** This wonderful bactericide acts both chemically and mechanically upon all excretions and secretions, so as to thoroughly change their character and reactions instantly. By destroying the microbian element this remedy removes the cause of the disease.

CAUTION.—I would earnestly impress upon the profession the very great importance of prescribing only my **Peroxide of Hydrogen (Medicinal)**, from which all hurtful chemicals have been eliminated.

By specifying in your prescriptions "**Ch. Marchand's Peroxide of Hydrogen (Medicinal)**," which is sold only in ¼-lb., ½-lb., and 1-lb. bottles, bearing my label and signature, you will never be imposed upon.

Prepared only by

Charles Marchand

Chemist and Graduate of the "Ecole Centrale des Arts et Manufactures de Paris" (France).

A book containing full explanations concerning the therapeutical applications of **Ch. Marchand's Peroxide of Hydrogen (Medicinal)**, with opinions of the profession, will be mailed to physicians free of charge on application.

¼ lb. bottle, retail, 35 cents; ½ lb. bottle, retail, 50 cents; 1 lb. bottle, retail, 75 cents.

SOLD BY LEADING DRUGGISTS.

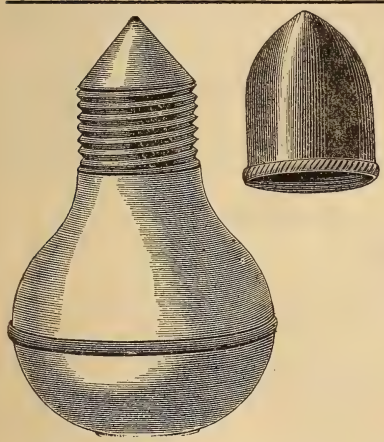
Address, MEDICAL AND SURGICAL REPORTER, P. O. Box 843, Philadelphia.



THE P.P.P. SYRINGE

Is universally considered the most perfect urethral Syringe in the market, because it combines within itself all desirable qualities. It measures but 1½ x 2¾ inches, has a capacity of fully half an ounce, and is made of one piece of soft rubber with conical point. To protect this soft point and to prevent pocket dust from getting into the Syringe, a Hard Rubber cap screws air-tight over it and enables the patient to carry it in his pocket filled with the injection ordered, ready for use when away from home.

For sale by all druggists.

PIL. PHENACETINE ET SALOL, 5 GRS., "W. H. S. & CO."

{Phenacetine-Bayer, ... 2½ grs.}
{Salol, ... 2½ grs.}

Anti-Rheumatic and Analgesic. This combination was first suggested by Dr. M. F. Price, Colton, Cal., President of the "Southern California Medical Society." In an address to the members he says: "In a case of acute Rheumatism, affecting elbows, wrists, knees, and ankles, ordered Phanacetine and Salol every three hours. No local application ordered. Made five daily visits, found the patient each day improved, discharged with orders to continue the medicine three times a day for a week."

After citing other cases, one of Sciatica where the patient was suffering such pain that the slightest motion caused faintness with nausea and continuous vomiting; two with acute Rheumatism, and one with Neuralgia of the stomach, Dr. Price continues:

"It will be observed that in some of these cases I have combined Salol with Phanacetine. I did this on the principle of the well-known effect of Salicylic Acid in Rheumatism, but I rely on the Phenacetine for the relief of the pain, and in this way perhaps the cure of the disease causing it." (*Southern California Practitioner*, August, 1889.)

PIL. TERPIN HYDRAT., 2 GRS., "W. H. S. & CO.,"

A new and potent remedy in the treatment of coughs, catarrh, bronchitis, and kindred diseases.

Terpin Hydrate is indicated in cases where violent irritation of the bronchial mucous membrane exists, and where the secretion is inconsiderable and peculiarly viscid, such as is met with in the chronic catarrh accompanying emphysema and phthisis. The effect obtained is always an increase and a liquefaction of the secretion, a considerable reduction of the irritation, and easy expectoration.

SOLUBLE PILLS.

Advanced pharmacy has, of late years, bestowed much attention upon eliminating the objectionable features which pertained to Pills, but it is only since their manufacture has been undertaken in wholesale quantities by responsible and capable parties that they have been produced in their present excellent quality.

The conditions of a perfect Pill are:

1*st.* *Ingredients of the finest quality.*
2*d.* *All materials weighed with scrupulous exactness.*
3*d.* *The mass sufficiently consistent to maintain the globular form, and yet readily soluble in the stomach.*
4*th.* *A coating which will preserve the mass in good condition, cover all offensive smell or taste, and facilitate deglutition.*

The continued favor which has been shown to our **Soluble Pills** is sufficient evidence that care has been bestowed upon their manufacture.

As for the purity of the drugs entering into their composition, and the presence in full and exact quantity of every article required by the formula in each case, we can only give our assurance that no deviation from correctness in any particular is, or ever has been, permitted in their manufacture; and they invite the most critical examination and test, either of analysis or of therapeutic effect.

They possess the advantage of a perfect coating, which is neither hard, bulky, opaque, nor insuluble, but elastic, thin, transparent, and readily soluble.

For further information about them we refer to our formula books and price lists, which we shall be happy to furnish upon application.

W. H. Schieffelin & Co.,
170 & 172 William Street,
NEW YORK.

SUCCUS ALTERANS

(McDADE.)

SUCCUS ALTERANS is a purely vegetable compound of the preserved juices of Stillingia Sylvatica Lappa Minor, Phytolacca Decandra, Smilax Sarsaparilla, and Xanthoxylum Carolinianum, as collected by DR. GEO. W. MCDADE, exclusively for ELI LILLY & CO., and endorsed by DR. J. MARION SIMS.

SUCCUS ALTERANS continues to gain favor from its remarkable Alterative and Tonic properties, *eliminating specific poison from the blood* and *increasing the proportion of red corpuscles in anæmic patients* to a wonderful degree; is endorsed by the medical profession, and in use by many hospitals of note.

SUCCUS ALTERANS in venereal and cutaneous diseases is fast supplanting Mercury, the Iodides, and Arsenic; and is a certain remedy for Mercurialization, Iodism, and the dreadful effects often following the use of Arsenic in skin diseases.

SUCCUS ALTERANS is also strongly recommended for its Tonic and Alterative effects in myriad forms of scrofulous disease, and in all cases where anæmia is a factor. Such patients rapidly develop a good appetite, sleep soundly, and gain flesh rapidly. Many cases are on record where patients increased ten to twenty-five pounds in weight in a few weeks.

SUCCUS ALTERANS is giving satisfactory results in treatment of *Chronic Rheumatism*, and can be used with confidence.

SUCCUS ALTERANS may be given for any length of time, without injury to the patient.

SUCCUS ALTERANS is put up in pint round amber bottles, and *never in bulk.*

Send for copy of our Hand-Book of Pharmacy and Therapeutics. Useful for reference and contains much valuable information.

PIL. APHRODISIACA

(LILLY.)

Phosphorus and **Nux Vomica,** as is well known to the profession, act as powerful tonics to the nervous system, especially the spinal cord, and can be relied upon as possessing real aphrodisiac power The **Damiana** used is the genuine **Turnera Aphrodisiaca.** By our process for the manufacture of **Phosphorus Pills,** a thorough subdivision of phosphorus in the mass is obtained, and, with a coating perfectly **protecting** it from **oxidation,** there is nothing to be desired. It is necessary that the administration of this pill be continued from **three to four weeks,** or until the **system is thoroughly under the influence of the remedy.** It is indicated in **mental overwork, sexual debility, impotency.** It is decidedly beneficial in cases of **nocturnal emissions,** the result of excesses, **mental apathy,** or indifference, and in an **enfeebled condition of the general system,** with **weakness or dull pain in the lumbo sacral region.** In diseases of the **reproductive organs** of the female, and especially of the uterus, it is one of our most valuable agents, acting as a **uterine tonic,** and gradually removing abnormal conditions, while at the same time, it imparts tone and vigor; hence, it is of value in **Leucorrhea, Amenorrhea, Dysmenorrhea,** and to remove the tendency to repeated miscarriages.

One Hundred Mailed on Receipt of $1.00.

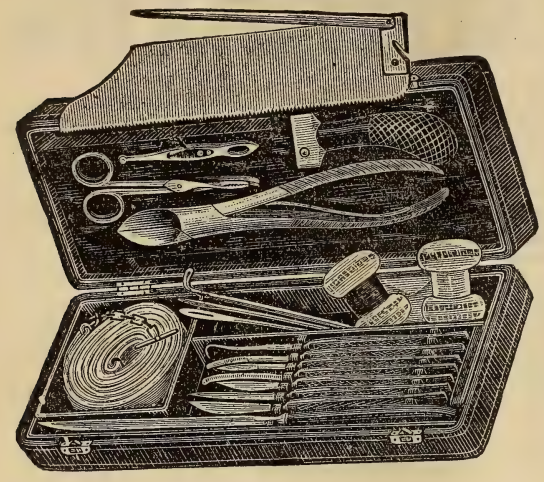
SUPPLIED BY ALL DRUGGISTS.

LENTZ'S ASEPTIC COMPACT OPERATING SET, No. 10.



We have from time to time made improvements to this set and are now making a perfect aseptic set, which offers especial facilities for aseptic precautions; the blades are soldered into hollow German-silver handles, nickel-plated, are light so as not to be unwieldy and admit of a firm grasp when operating.

The saw is adjusted to the handle on an entirely new principle, being made to separate easily and to facilitate thorough cleansing.

The handle is entirely of metal and fenestrated to overcome unnecessary weight.

Scissors and Forceps having French locks can be separated, and the slide can be easily removed from Artery and Needle Forceps.

Therefore, no opportunity is offered for the lodgment and development of germs.

The entire set is patterned with especial reference to facility in cleansing.

The instruments can be sterilized by placing them in boiling water, without fear of damaging them. Wood or rubber handles will not admit of this procedure. For price, see case A.

The following instruments are put up in either a fine Mahogany or Morocco case, with nickel trimmings, lined with velvet, and has an extra space for Trephine with handle, and Elevator if desired.

One Amputating Knife (6 in. blade); One Finger Knife; One Hernia Knife; One Sharp Curved Bistoury; Two Scalpels; One Tenotome; One Tenaculum; One Pair Scissors, curved or flat; One Saw (9 in. blade); One Liston's Bone Forceps, with Spring; One Artery and Needle Forceps, improved; One Esmarch's Flat Rubber Tourniquet, with Chain; One Hæmostatic Forceps; One Director, with Aneurism Needle; Two Silver Probes; Silk, Wire, Wax and Needles.

With the Sixteen Instruments Contained in this Case, any Ordinary Operation may be Performed.

SIZE, 11 INCHES LONG, 4 INCHES WIDE, 2 INCHES HIGH.

A.—German Silver aseptic Handles on Knives and Saw, ... $34 00
B.—Hard Rubber aseptic Handles on Knives and Saw, ... 29 00

ANTI-FEBRILE TONIC.

QUINA-LAROCHE under the form of a vinous **Elixir** contains the totality of the numerous principles of the **three** Cinchona barks. It is a preparation which renders great services to Therapeutics.—Extract of the *Gazette des Hôpitaux*, Paris.

FAR SUPERIOR TO ALL ORDINARY CINCHONA WINES.

LAROCHE'S QUINA, tried by the Academy of Medicine of Paris, is a specially prepared COMPOUND EXTRACT of Quinquina, a careful analysis, confirmed by experience, has shown that most of the wines and syrups hitherto used have not contained all the properties of this precious bark, of these some, although beneficial, are altogether lost, while many preparations contain but half the properties of the bark in varying proportions.

MR. LAROCHE, by his peculiar method, has succeeded in extracting all the active principles of the quinquina, combining these with *Catalan Wine* forming an Elixir free from the disagreeable bitterness of other similar preparations. Practitioners have found triple advantages in the use of this Elixir, it is a *strong tonic*, is easily administered, and perfectly harmless, being free from the unpleasant effects of Quinine.

THE FERRUGINOUS QUINA-LAROCHE is the invigorating tonic *par excellence*, having the advantage of being easily assimilated by the gastric juice; without, in any way, deranging the action of the digestive organs, proving itself to be a most efficacious remedy in cases of impoverishment of the blood, ANÆMIA, CHLOROSIS, INTESTINAL HÆMORRHAGE, CASTRALGIA, EXHAUSTION, ETC., ETC.

PARIS.—22 RUE DROUOT.—PARIS.

E. FOUGERA & CO., New York,

Sole Agents for the United States for the above Preparations.

To persons who are seeking a Perfectly Safe and Desirable Investment,

I can unhesitatingly recommend, and back by my name and reputation, **a Bond paying 6 per cent. interest clear of State tax,** secured by a paid-up capital of $500,000 and collateral deposited with the Girard Life Insurance, Annuity and Trust Company of Philadelphia, as Trustee for the bondholders. Principal and interest payable at the office of "The Girard," where Bonds can be registered if desired. Price of Bonds par and accrued interest. For full detailed information, apply to

WM. P. HUSTON,

Nine years Actuary of the Girard Life Insurance, Annuity and Trust Company, at office in "GIRARD BUILDING."

☞ SPECIFY "BATTLE" WHEN PRESCRIBING OUR PREPARATIONS. ☜

BROMIDIA

THE HYPNOTIC.

FORMULA.—

Every fluid drachm contains 15 grains EACH of Pure Chloral Hydrat. and purified Brom. Pot., and one-eighth grain EACH of gen. imp. ext. Cannabis Ind. and Hyoscyam.

DOSE.—

One-half to one fluid drachm in WATER or SYRUP every hour, until sleep is produced.

INDICATIONS.—

Sleeplessness, Nervousness, Neuralgia, Headache, Convulsions, Colic, Mania, Epilepsy, Irritability, etc. In the restlessness and delirium of fevers it is absolutely invaluable.

IT DOES NOT LOCK UP THE SECRETIONS.

PAPINE

THE ANODYNE.

Papine is the Anodyne or pain-relieving principle of Opium, the Narcotic and Convulsive Elements being eliminated. It has less tendency to cause Nausea, Vomiting, Constipation, Etc.

INDICATIONS.—

Same as Opium or Morphia.

DOSE.—

(ONE FLUID DRACHM)—represents the Anodyne principle of one-eighth grain of Morphia.

IODIA

The Alterative and Uterine Tonic.

FORMULA.—

Iodia is a combination of active principles obtained from the Green Roots of Stillingia, Helonias, Saxifraga, Menispermum, and Aromatics. Each fluid drachm also contains five grains Iod. Potas., and three grains Phos. Iron.

DOSE.—

One or two fluid drachms (more or less as indicated) three times a day before meals.

INDICATIONS.—

Syphilitic, Scrofulous and Cutaneous Diseases, Dysmenorrhea, Menorrhagia, Leucorrhea, Amenorrhea, Impaired Vitality, Habitual Abortions, and General Uterine Debility.

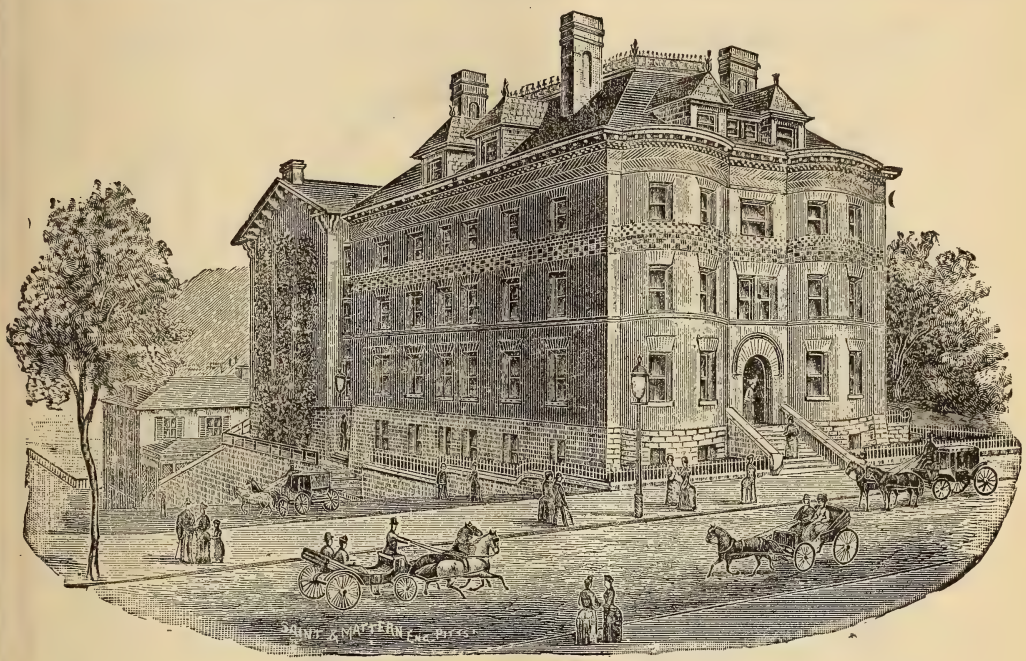
DR. R. S. SUTTON'S

Sanatorium for Diseases of Women.



Seventh Year Opens September 1, 1889.

ALLEGHENY CITY, PA.

This Institution is located on high ground, and overlooks the Allegheny, Monongahela and Ohio rivers; it commands a view of the city of Pittsburgh, and its picturesque surroundings. The building is large and beautiful, it is provided with every modern convenience, the halls are heated by steam, the rooms are commodious, well lighted and ventilated, and heated by open grates. The house is provided with a private parlor and reading-room for patients. The dining-room is large, handsomely finished, and furnished with small tables, securing privacy at meals for those who do not care to have meals served in their own rooms. Patients can be as secluded, should they desire it, as in a well appointed hotel. Each patient is examined by Dr. Sutton, and receives his daily personal attention, while Dr. J. H. Williamson, a physician of ample hospital experience, resides in the Institution, and has, under Dr. Sutton, the immediate care of the patients. The Institution accommodates 25 patients, and is equal in comfort to the best hotels.

Electricity, baths, douches, massage, local treatment, general medication and surgical operations are resorted to according to the requirements of each patient.

For further information address the Matron

MISS KENNEDY,

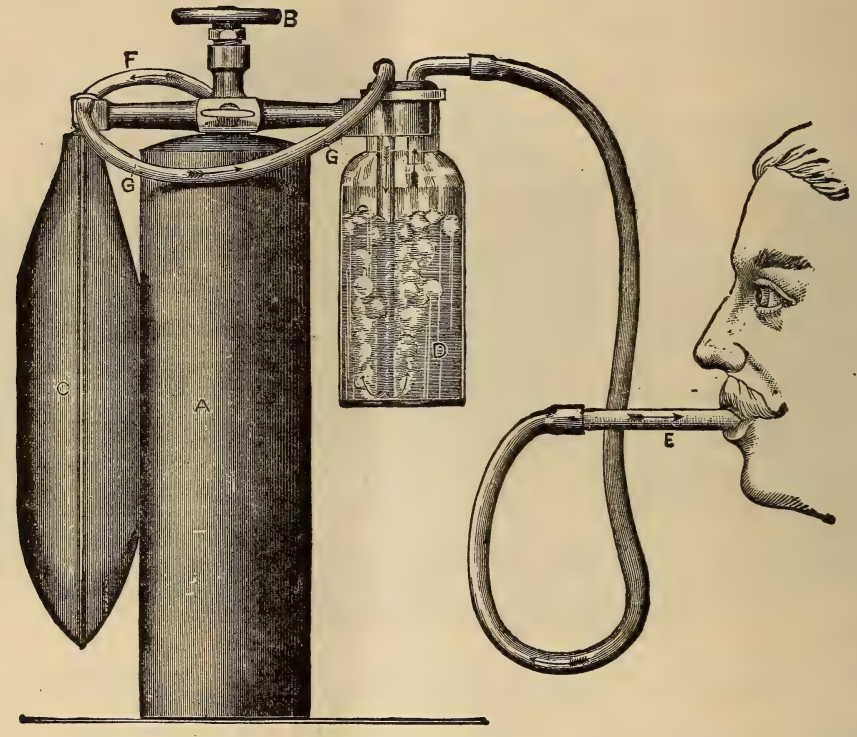
INHALATION APPARATUS

FOR

THE THERAPEUTIC ADMINISTRATION OF OXYGEN.



In the treatment of lung troubles by Oxygen its exhibition by inhalation is preferred. The apparatus herewith shown is a modification of the Nitrous Oxide apparatus which we have supplied for many years. It is made in the best manner throughout, and is the outcome of years of experience in the manufacture of gas apparatus. It will be found to meet all the requirements.

We supply the gas in two sizes of cylinders, containing respectively forty and one hundred gallons, either pure Oxygen, or a mixture of Oxygen and Nitrous Oxide in definite proportions of 20 per cent., and forty per cent. of Nitrous Oxide.

Whether pure or mixed the gas is sold at the uniform price of 5 cents a gallon. The cost of the cylinders will be refunded on their return empty with the valves in good condition. Full description of Inhalation and Enema apparatuses with directions for use accompany each apparatus, or will be supplied on application.

PRICES.

Inhalation Apparatus	$5.00
Cylinder, 40 gallons' capacity	6.00
40 gallons Gas, either pure Oxygen or mixed Oxygen and Nitrous Oxide	2.00
Complete Apparatus, Cylinder, and 40 gallons Gas	$13.00
Inhalation Apparatus	$5.00
Cylinder, 100 gallons' capacity	15.00
100 gallons Gas, either pure or mixed	5.00
Complete Apparatus, Cylinder, and 100 gallons Gas	$25.00

Derangements of the Liver.

HORSFORD'S ACID PHOSPHATE

has been used with good effect in diseases of the liver, and biliary disorders, where an acid treatment is indicated, and has especially proved a desirable medium to employ in chronic hepatic affections. By its action it stimulates the liver and promotes an increased flow of bile.

The Acid Phosphate is far superior to the nitro-muriatic acid of the pharmacopœia, in that it serves to assist digestion, and promotes in a marked degree the healthful action of the digestive organs.

Dr. H. P. NELSON, Ashland, Ohio, says: "I have used it in a case of torpor of the liver, and am highly pleased with the results obtained."

Send for descriptive circular. Physicians who wish to test it will be furnished a bottle on application, without expense, except express charges.

Rumford Chemical Works, Providence, R. I.

Beware of Substitutes and Imitations.

CAUTION:—Be sure the word "Horsford's" is printed on the label. All others are spurious. Never sold in bulk.

A Phosphorized Cerebro-Spinant

(FRELIGH'S TONIC).

FORMULA.

Ten minims of the Tonic contain the equivalents (according to the formulæ of the U. S. P., and Dispensatory) of

Tinct. Nux Strychnos,	1	minim.
" Ignatia Amara,	1	"
" Cinchona,	4	"
" Matricaria,	1	"
" Gentian,	½	"
" Columbo,	½	"
" Phosphorus, C. P.,	1-300	gr.
Aromatics,	2	minims.

Dose: 5 to 10 drops in 2 tablespoonfuls of water.

INDICATIONS.

Paralysis, Neurasthenia, Sick and Nervous Headache, Dyspepsia, Epilepsy, Locomotor Ataxia, Insomnia, Debility of Old Age, and in the Treatment of Mental and Nervous Diseases.

A BALTIMORE PHYSICIAN, WHOSE DIPLOMA DATES FROM 1825, SAYS:

"Your combination I find vastly more effective than any tonic I have ever used. It furnishes a most powerful evidence of the vastly increased power of medicament by combination and judicious pharmaceutic preparation."

Price, One Dollar per Bottle, containing 100 of the Average 5-Drop Doses.—Physicians' single sample delivered, charges prepaid, on application. That every physician may be his own judge of its value, irrespective of the opinions of others, we make the following

SPECIAL OFFER:

We will send to any physician, delivered, charges prepaid, on receipt of twenty-five cents, and his card or letter-head, half a dozen physicians' samples, sufficient to test it on as many cases for a week to ten days each. The Tonic is kept in stock regularly by all the leading wholesale druggists of the country. As we furnish no samples through the trade, wholesale or retail, for samples, directions, price-lists, etc., address,

"THIS IS AN AGE OF APOLLINARIS WATER."
—WALTER BESANT.

Apollinaris

"THE QUEEN OF TABLE WATERS."

The filling at the Apollinaris Spring (Rhenish Prussia), amounted to

11,894,000 BOTTLES IN **1887,**
12,720,000 BOTTLES IN **1888** AND
15,822,000 BOTTLES IN **1889.**

"The annual consumption of this favorite beverage affords a striking proof of the widespread demand which exists for table water of absolute purity, and it is satisfactory to find that, wherever one travels, in either hemisphere, it is to be met with; it is ubiquitous, and should be known as the cosmopolitan table water. 'Quod ab omnibus, quod ubique.'"—BRITISH MEDICAL JOURNAL.

THE BEST NATURAL APERIENT.

THE APOLLINARIS COMPANY, LIMITED, London, beg to announce that, as numerous APERIENT WATERS are offered to the public under names of which the word "Hunyadi" forms part, they have now adopted an additional Label comprising their Registered Trade Mark of selection, which consists of

A RED DIAMOND.

This Label will henceforth also serve to distinguish the HUNGARIAN APERIENT WATER SOLD BY THE COMPANY from all other Aperient Waters.

DEMAND THE 
DIAMOND MARK.

And insist upon receiving the HUNGARIAN APERIENT WATER of the APOLLINARIS COMPANY, LIMITED, London.

BOUDAULT'S PEPSINE

The only Pepsine used in the Hospitals of Paris for the last Thirty Years.

Unlike the various substitutes which, in most cases, are but unscientific or incompatible compounds, forced upon the Medical Profession as aids to digestion by extensive advertising, but which, when submitted to the proper tests, are found to be useless as digestive agents, Pepsine is constantly gaining in the esteem of the careful practitioner.

Since the introduction of Pepsine by Boudault and Corvisart in 1854, the original BOUDAULT'S PEPSINE HAS BEEN AT ALL TIMES CONSIDERED THE BEST, as is attested by the awards it has received at the Expositions of 1867, 1868, 187 1873, in 1876 at the Centennial Exposition of Philadelphia, and in 1878 at the Paris Exposition.

The most reliable tests, carefully applied, will satisfy everyone that BOUDAULT'S PEPSINE HAS A MUCH HIGHER DIGESTIVE POWER than the best Pepsines now before the Profession, and is therefore especially worthy of their attention.

BOUDAULT'S PEPSINE is prepared in the form of Pepsine Acid and Pepsine Neutral. It is sold in bottles of one ounce, with a measure containing exactly five grains; also in bottles of four, eight, and sixteen ounces for dispensing.

BOUDAULT'S WINE OF PEPSINE

FORMULA OF DR. CORVISART.

The taste of Pepsine being perfectly disguised in this Wine, it may be recommended to persons who have difficulty in taking Pepsine in the form of Powder. This Wine is tested so that a tablespoonful of it is equal in digestive power to ten grains of Boudault's Pepsine in powder. Sold only in bottles of eight ounces.

TANRET'S PELLETIERINE

For the Treatment of Tape-Worm (Tænia Solium).

This New Tænifuge, the Active Alkaloid of Pomegranate Bark, has of late come into extensive use in France for the treatment of Tape-Worm (Tænia Solium). The results of numerous experiments with it at the Marine Hospitals of Toulon, St. Mandrier, etc., and in the Hospitals of Paris, St. Antoine, La Charité, Necker Beaujon, etc., have all been most satisfactory. Doctor Dujardin Beaumetz, Member of the Academy of Medicine, and Professor Laboulbene, in their report to the Society of Therapeutics, have given it their unqualified approval, after the most searching experiments. This preparation is pleasant to administer, and, if certain preliminaries are observed, success will be insured.

Sold only in bottles containing one dose.

DUCRO'S ALIMENTARY ELIXIR

A Combination uniting the properties of Alcoholic Stimulants and Raw Meat.

This preparation, which has been used with great success in the hospitals of Paris since 1868, is adapted to the treatment of all diseases requiring administration, in a small volume, of a tonic able to stimulate and support the vital forces, as *Pulmonar Phthisis, Depression and Nervous Debility, Adynamia, Malarious Cachexia, etc.*

Prepared by EMILE DURIEZ & CO., Successors to DUCRO & CIE, Paris.

KIRKWOOD'S INHALER

This is the only complete, reliable, and effective inhaler in use, arranged for the direct application of Muriate of Ammonia and other remedial agents in the state of vapor to the diseased parts of the air-passages in the treatment of catarrh and diseases of the throat and lungs. No heat or warm liquids required in its use.

It is entirely different from the various frail, cheap instruments that have been introduced.

KIRKWOOD'S INHALER is accompanied by testimonials of the highest professional character, together with carefully prepared formulas for use.

RETAIL PRICE, COMPLETE, $2.50.

☞ A liberal discount allowed to the trade and profession. For descriptive pamphlet or other information address

E. FOUGERA & CO., 30 North William St., New York.

Sole Agents for the above Preparations.

GOUDRON DE BLOUNT

PREPARED FROM THE GENUINE CAROLINA TAR.

DOSE.—One fluid drachm four or more times a day (as indicated), either full strength, diluted, or, in combination.

INDICATIONS.—Chronic and acute affections of the Air Passages, Coughs, Colds, Bronchitis, Asthma and Consumption.

WILLIAM MURRELL, M.D., F.R.C.P.,

Lecturer on Pharmacology and Therapeutics at the Westminster Hospital; Examiner in Materic Medica to the Royal College of Physicians of London; Fellow of the Medico-Chirurgical College of Philadelphia,

Says:—"I have used with success 'Goudron de Blount.' The results have been good, and the preparation is popular with patients."

PREPARED EXCLUSIVELY FOR PHYSICIANS' PRESCRIPTIONS BY

R. E. BLOUNT, 33 RUE ST. ROCH, PARIS.

82 and 84 Fulton St., New York City.

ALETRIS CORDIAL

UTERINE TONIC AND RESTORATIVE.

Prepared from the Aletris Farinosa or True Unicorn and Aromatics.

INDICATIONS.

Amenorrhea, Dysmenorrhea, Leucorrhea, Prolapsus Uteri, Sterility, to Prevent Miscarriage, Etc.

DOSE:—ONE TEASPOONFUL THREE OR FOUR TIMES A DAY.

UNRIVALED AS A UTERINE TONIC IN IRREGULAR, PAINFUL, SUPPRESSED AND EXCESSIVE MENSTRUATION.

It Restores Normal Action to the Uterus, and Imparts Vigor to the Entire Uterine System.

☞Where women have miscarried during previous pregnancies, or in any case where miscarriage is feared, the ALETRIS CORDIAL is indicated, and should be continuously administered during entire gestation.

CHAS. CLAY, M. R. C. S., Manor House, Dewsbury, England, says:—I find Aletris Cordial (Rio) is of great service in threatened miscarriage.

FRANCIS E. CANE, L. R. C. S., &c., Leeds, England, says:—I have tried the Aletris Cordial (Rio) in two cases of long standing dysmenorrhea, with excellent results. One of these patients has spent a week in bed every month for two years. After all the usual remedies, I put her on Aletris Cordial, and for the last two periods she has been out and about all the time.

L. M. WATSON, M. D., Delhi, Ills., says:—I have used Aletris Cordial (Rio) in cases of dysmenorrhea, suppressed menses and threatened miscarriage, and also, combined with Celerina, as a tonic after confinement, with the happiest results, and now I am using it on a case of leucorrhea, with injections of S. H. Kennedy's Extract of Pinus Canadensis, and it is acting like a charm.

P. H. OWEN, M. D., Morganville, Ala., says:—I have prescribed Aletris Cordial (Rio) in several cases with the most satisfactory results, and regard it as the best uterine tonic I have met with in a professional experience of over twenty-five years. In cases of threatened miscarriage it acts like a charm. Would recommend its continuous administration in all cases when there is any indication of miscarriage.

Dr. W. BERTHELOT, Santander, Spain, says:—I have tried the Aletris Cordial (Rio), and it has seemed to me to be useful, especially in cases of dysmenorrhea.

Dr. RASQUINET, Jupile, near Liege, Belgium, says:—I tried Aletris Cordial (Rio) in the case of a woman who had had several miscarriages at the end of five months, and who is now again pregnant, having reached the seventh month, thanks to Aletris Cordial.

R. REECE, M. R. C. S., Walton-on-Thames, England, says:—Aletris Cordial (Rio) in painful menstruation is most valuable. A wife of a minister suffered much, and had had three miscarriages. I prescribed Aletris Cordial. She has for the first time, gone her full time, and was safely confined with a male child.

J. T. COLLIER, M. D., Brooks, Me., says:—I have used your Aletris Cordial (Rio) in cases of females at the menopause. Consider it one of the finest remedies for these cases.

Dr. GORDILLON, St. Amand, France, says: I have tried the Aletris Cordial (Rio) in a case of dysmenorrhea. The result I obtained from the use of your preparation was excellent, better than I had obtained in the same patient by prescribing the usual remedies employed in such cases.

W. F. TOOMBS, M. D., Morrillton, Ark., says:—I have used a great deal of your Aletris Cordial (Rio) and I find it all you claim for it in amenorrhea, dysmenorrhea, metritis, leucorrhea; I don't think it has an equal. I have used it in two cases of threatened miscarriage and the trouble was obviated. For a general Uterine Tonic I know of nothing superior.

R. D. PATTERSON, L. R. C. S. &c., Medical Officer, Caledon Dispensary, Co. Tyrone, Ireland, says:—I have very great pleasure in testifying to the very high opinion I hold of Aletris Cordial (Rio) in threatened miscarriage.

The Acutely Ill.

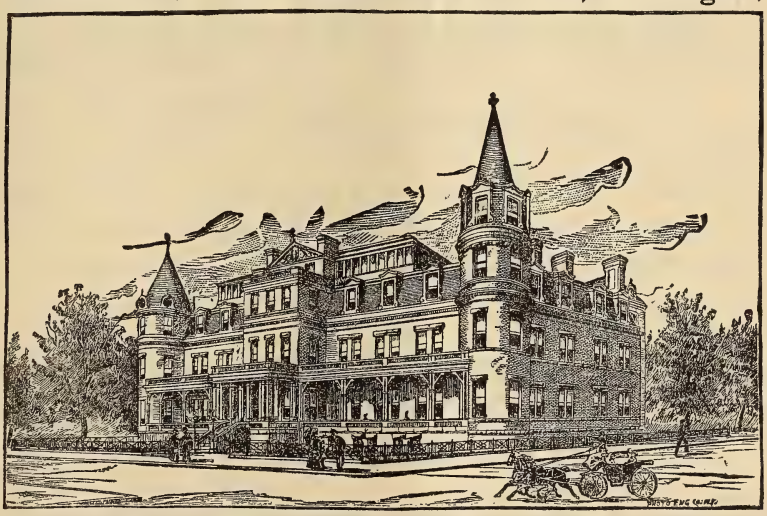
When a patient is acutely ill, the digestive powers share in the general condition, and consequently the food supplied should be of the most easily assimilable character. The predigestion of starchy matters outside the body, as in MELLIN'S FOOD, is necessary, and the soluble carbohydrates of which this food consists, soluble because predigested, form the true food of the acutely ill.—J. MILNER FOTHERGILL, M.D., Edin.

A sample of MELLIN'S FOOD *will be sent to any physician, free of expense, upon application.*

Doliber-Goodale Co., Boston, Mass.

DR. WILLIAM A. HAMMOND'S SANITARIUM,

FOR DISEASES OF THE NERVOUS SYSTEM, Washington, D. C.



DR. WILLIAM A. HAMMOND announces to the medical profession that he has returned from New York to Washington, D. C., where he has established, in a building especially erected for the purpose, a *Sanitarium* for the treatment of mild and curable cases of mental derangement, diseases of the nervous system generally, cases of the morphia and chloral habits, and such other affections as may properly be treated by the remedial agencies under his control.

The *Sanitarium* is situated on Columbia Heights, at the corner of Fourteenth Street and Sheridan Avenue. The position is the highest in the immediate vicinity of Washington, the soil is dry, and all the surroundings are free from noxious influences. Electricity in all its forms, baths, douches, massage, inhalations, nursing, etc., are provided as may be required by patients, in addition to such other medical treatment as may be deemed advisable.

A large *Solarium* for sun-baths and exercise in cold or inclement weather and heated with steam in winter, is constructed on the top of the main building.

The *Sanitarium* has now been in successful operation since the 7th of January, 1889.

For further information Dr. Hammond can be addressed at The Sanitarium, Fourteenth Street and Sheridan Avenue, Washington, D. C.

Doctor.—Three days' trial will prove that we offer a true galactagogue which greatly increases the quantity of mother's milk, notably improves the quality and removes the maternal debility due to Lactation, Nutrolactis.

WESTERN PENNSYLVANIA MEDICAL COLLEGE
CITY OF PITTSBURGH.
SESSIONS OF 1889—90.

The REGULAR SESSION begins on the last Tuesday of September, and continues six months. During this session, in addition to four Didactic Lectures, two or three hours are daily allotted to Clinical Instruction. Attendance upon two regular courses of lectures is requisite for graduation. A three years' graded course is also provided. The SPRING SESSION embraces recitations, clinical lectures and exercises, and didactic lectures on special subjects; this session begins the second Tuesday in April, and continues ten weeks.

The laboratories are open during the collegiate year for instruction in chemistry, microscopy, practical demonstrations in medical and surgical pathology, and lessons in normal histology. Special importance attaches to "the superior clinical advantages possessed by this College." For particulars, see annual announcement and catalogue, for which, address the Secretary of Faculty, Prof. J. W. J. MCKENNAN.

Business correspondence should be addressed to
PROF. W. J. ASDALE, 2107 Penn Avenue, Pittsburgh.

NATIONAL MEDICAL COLLEGE.
MEDICAL DEPARTMENT OF THE
COLUMBIAN UNIVERSITY,
WASHINGTON, D. C.

The 68th Annual Session will begin October 7th and end March 1st. Graded three years' course required. Women admitted. Professors: J. F. Thompson, W. W. Johnston, A. F. A. King, E. T. Fristoe, Wm. Lee, D. W. Prentiss, D. K. Shute.

For circulars, address

Or WILLIS O. DAVIS, Clerk,

214, 216 & 218 East 34th Street, New York City.

Buffalo Lithia Springs [Va.] Water.

Its Uses after Surgical Operations, etc.

[Reprint from Editorial in April number, 1890, of the Virginia Medical Monthly.]

Hunter McGuire, M. D., LL. D., etc., formerly Professor of Surgery in the Medical College of Virginia, Ex-President of the Southern Surgical and Gynæcological Association, etc., in a recent conversation with us on the subject of Mineral Springs Waters, made special mention of the use of Buffalo Lithia Water after cases of laparotomy and other surgical operations. Feeling assured that his views on this subject would be of interest to the Profession generally, we requested a statement of his opinion, and obtained his permission to quote him as follows:

"RICHMOND, VA., March 24th, 1890.

"*Dear Dr. Edwards*—I have just received your letter of this date. I use Buffalo Lithia Water very freely in my hospital. After every case of laparotomy, I give this water for its diuretic properties, and because the stomach bears it so well—often retaining it when everything is rejected. Indeed, I use it freely after nearly all my surgical operations. It is especially valuable in supra-pubic cystotomy. Many years' experience in its use only confirms the good opinion I have so often expressed in regard to it.

"Yours very truly,

"HUNTER MCGUIRE."

To whom all orders for samples must be addressed.

SVAPNIA IS FOR SALE BY DRUGGISTS GENERALLY.

GENUINE BLAUD'S PILLS.

These pills, which have been inserted in the new French Pharmacopœia, have been employed with the greatest success for more than fifty years by most French and foreign physicians, to cure anemia, chlorosis, and all chlorotic affections in which iron is indicated.

Here is the opinion of men most eminent in medical science who have employed them:

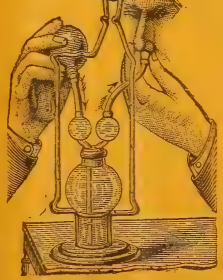
"For thirty-five years, in which I have practised medicine, I have recognized the incontestable advantages of BLAUD'S PILLS over all other ferruginous preparations, and I regard them as the best anti-chlorotic."—DR. DOUBLE, *Ex-President of the Academy of Medicine.*

"Of all the ferruginous preparations, which have given good results in the treatment of chlorotic affections, BLAUD'S PILLS appear to us to deserve to hold the first rank."—*Dictionnaire universel de médecine*, Vol. II, p. 99.

These pills, prepared according to the genuine formule of the originator, by his nephew, Aug. Blaud, Pharmacist of the Faculty of Paris, are sold only in bottles of 200 pills and half bottles of 100 pills, at a cost of 5 and 3 francs ($1.00, and seventy-five cents), and never in smaller quantities. *See that his name is stamped on each pill.* **PARIS, 8 RUE PAYENNE, and at every Pharmacy.** (Beware of imitations.)

BLAUD

A HOME TREATMENT



For **Catarrh, Deafness, Throat, and Lung Affections,** that will *cure.*

A new apparatus that has received the highest award, is giving universal satisfaction, and is just the thing for the busy practitioner. Special inducements to

Moore-McGregor Medication,

351 West 7th St., P. O. Box 671, CINCINNATI, O.

Doctor:

We wish to speak to you of one indication for the use of the Hypophosphites of Lime and Soda, which is most often overlooked.

There is a certain perversion of the process of nutrition, characterized by a hyperplasia of certain tissues, causing a pathological growth of those tissues.

Such an example is seen in Fibroid Tumors.

A careful histo-chemical examination of these cases shows that there is always a lack of the proper proportion of these important tissue salts.

Chemical experience demonstrates that their introduction, chemically pure, in a finely divided form, rapidly checks the pathological process.

These valuable salts will be found to control most other perversions of nutrition, as Consumption of the Lungs, Tabes Mesenterica, Chronic Inflammation of the respiratory passages, Scrofula and all its manifestations, Degenerations of the Nervous System, Muscular Atrophy, etc.

The one great desideratum is to obtain these inorganic salts in their absolute chemical purity, and in a pleasant and convenient vehicle. These requirements are all met in McArthur's Syrup, consisting of the pure Hypophosphites of Lime and Soda, especially prepared and thoroughly dissolved.

There are no other medicinal agents in the preparation, as will be found in others making similar claims, as these two salts form a distinct therapeutic unit, all the irritating stimulants being foreign to it.

If special cases temporarily require other medication, you can add the required ingredients to the Syrup in your prescription.

Write your prescription thus:

Syr. Hypophos. Comp., C. P., McArthur.

If you are interested we will send you, free, our valuable treatise, "The Curability and Treatment of Consumption;" also a large bottle of the Syrup, if you will pay express charges.

THE P.P.P. SYRINGE

Is universally considered the most perfect urethral Syringe in the market, because it combines within itself all desirable qualities. It measures but 1½ x 2¾ inches, has a capacity of fully half an ounce, and is made of one piece of soft rubber with conical point. To protect this soft point and to prevent pocket dust from getting into the Syringe, a Hard Rubber cap screws air-tight over it and enables the patient to carry it in his pocket filled with the injection ordered, ready for use when away from home.

For sale by all druggists.

PHENACETINE-BAYER.

In therapeutic action it is like all the analgesic antithermics, it has a double action—it lowers temperature and soothes pain. The lowering of the temperature is noticeable in cases of pyrexia. In fevers, 7½ grains of Phenacetine lowers the temperature by 1.8° to 3.4° F., and the antithermic action following such a dose lasts four hours. In certain cases the apyrexial period is more prolonged even from the same dose. Phenacetine is thought by some to be superior to antipyrin and acetanilid in producing marked antithermic effects without toxic phenomena. But it is above all as an analgesic that Phenacetine outrivals its predecessor. While it is as powerful, it does not produce pain in the stomach or the scarlatinaform rash of the antipyrin, nor does it give rise to the cyanosis of the acetanilid. However prolonged may be its administration, no bad effect has ever been seen from its use. It has been used for the relief of every form of pain, even for the lightning pain of tabes, with the best results. This double action, as an antithermic and as an analgesic, results from an effect produced upon the spinal cord; and the Phenacetine may be considered a depressor of the excitability of the medulla. The digestive, respiratory, and circulatory systems are not at at all affected by Phenacetine. It is inodorous, it is tasteless, and it is innocuous. [From a paper presented to the Central Kentucky Medical Association, by Steele Bailey, M. D., New England Medical Monthly, March, 1890.]

Phenacetine-Bayer, prepared by the Farbenfabriken, formerly Friedr. Bayer & Co., Elberfeld, is supplied by us in ounces and also in the form of our soluble pills and compressed tablets, containing two, four and five grains each. Either form may be obtained of any reputable apothecary.

ARISTOL.

Aristol, a combination of iodine and thymol, manufactured by the Farbenfabriken, formerly Fredr. Bayer & Co., Elberfeld, Germany, is a valuable, inodorous and non-toxic antiseptic remedy, said to be superior to Iodoform, Iodol and Sozo-Iodol.

For further information regarding this new remedy we would refer to the notes we have published, which we will be pleased to mail to applicants.

SULFONAL-BAYER.

Wm. H. Thomson, M. D., LL. D., in speaking of Sulfonal, says:—"Sulfonal is a pure hypnotic, neither anæsthetic nor depressing in character, and it does not affect the heart or circulation, and the sleep it produces is perfect. Being quite insoluble, it requires about three hours to become thoroughly dissolved in the stomach, and should be given about two hours before bed-time. As it is not affected by the digestive secretions, it may be given shortly after the evening meal.

"Sulfonal is of great value in the insomnia of the insane, and the dose should be repeated once during the night if the sleep is too short. **It is specially recommended in cases of nervous insomnia,** also in the sleeplessness of delirium tremens. In the latter case, gr. xx. should be administered every two hours until grs. lx or lxxx have been taken, but it should be remembered that every case of delirium tremens is also a case or starvation, and to produce sleep the patient must be fed. Dose as a hypnotic, gr. xv-xx." [From Notes, Materia Medica, and Therapeutics. Lectures delivered by Prof. Wm. H. Thomson, M. D., LL.D. Edited by Wm. H. McEnroe, M. D.]

Sulfonal-Bayer, prepared by the Farbenfabriken, formerly Fredr. Bayer & Co., Elberfeld, is supplied by us in ounces and in the form of Tablets of 5, 10 and 15 grains, put up in bottles of 10 and 100 tablets each.

We also offer Sulfonal-Bayer in the form of our soluble pills, containing 5 grains each.

W. H. Schieffelin & Co.,

170 & 172 William Street,

NEW YORK.

ESTABLISHED 1855.

DRS. STRONG'S SANITARIUM,

SARATOGA SPRINGS, NEW YORK,

Receives persons recommended to it by their home physicians for Treatment, Change, Rest or Recreation, and places them under well-regulated hygienic conditions so helpful in the treatment of chronic invalids or the overtaxed.

For Treatment: In addition to the ordinary remedial agents, it employs Turkish, Russian, Roman, Sulphur, Electro-Thermal, the French Douche (Charcot's), and all Hydropathic Baths; Vacuum Treatment, Swedish Movements Massage, Pneumatic Cabinet, Inhalations of Medicated, Compressed, and Rarefied Air, Electricity in various forms, Thermo-Cautery, Calisthenics, and Saratoga Waters, under the direction of a staff of educated physicians.

For Change: This Institution is located in a phenomenally dry, tonic, and quiet atmosphere, in the lower arc of the Adirondack Zone, and within the "Snow Belt."

For Rest: The Institution offers a well-regulated, quiet home, heated by steam and thoroughly ventilated, with cheering influences and avoiding the depressing atmosphere of invalidism.

For Recreation: To prevent introspection, are household sports at all seasons of the year, and in Winter, tobogganning, elegant sleighing etc.; in Summer, croquet, lawn-tennis, etc.

Private professional references furnished upon application. Physicians are invited to inspect the Institution at their convenience. A liberal discount to physicians and their families.

TRYMBY, HUNT & CO.,

1219 & 1221 MARKET STREET, PHILADELPHIA, PA.

Agents for Cutler's Office Desk and Baldwin Dry Air Refrigerators.

A Phosphorized Cerebro-Spinant

(FRELIGH'S TONIC).

FORMULA.

Ten minims of the Tonic contain the equivalents (according to the formulæ of the U. S. P., and Dispensatory) of

Tinct. Nux Strychnos,	1 minim.
" Ignatia Amara,	1 "
" Cinchona,	4 "
" Matricaria,	1 "
" Gentian,	½ "
" Columbo,	½ "
" Phosphorus, C. P.,	1-300 gr.
Aromatics,	2 minims.

Dose: 5 to 10 drops in 2 tablespoonfuls of water.

INDICATIONS.

Paralysis, Neurasthenia, Sick and Nervous Headache, Dyspepsia, Epilepsy, Locomotor Ataxia, Insomnia, Debility of Old Age, and in the Treatment of Mental and Nervous Diseases.

A BALTIMORE PHYSICIAN, WHOSE DIPLOMA DATES FROM 1825, SAYS:

"Your combination I find vastly more effective than any tonic I have ever used. It furnishes a most powerful evidence of the vastly increased power of medicament by combination and judicious pharmaceutic preparation."

Price, One Dollar per Bottle, containing 100 of the Average 5-Drop Doses.—Physicians' single sample delivered, charges prepaid, on application. That every physician may be his own judge of its value, irrespective of the opinions of others, we make the following

SPECIAL OFFER:

We will send to any physician, delivered, charges prepaid, on receipt of twenty-five cents, and his card or letter-head, half a dozen physicians' samples, sufficient to test it on as many cases for a week to ten days each. The Tonic is kept in stock regularly by all the leading wholesale druggists of the country. As we furnish no samples through the trade, wholesale or retail, for samples, directions, price-lists, etc., address,

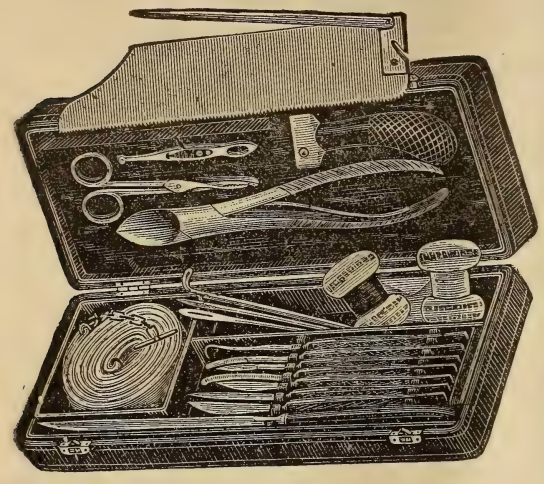
Manufacturers of Physicians' Specialties,

No. 88 Maiden Lane, New York City.

LENTZ'S ASEPTIC COMPACT OPERATING SET, No. 10.



We have from time to time made improvements to this set and are now making a perfect aseptic set, which offers especial facilities for aseptic precautions; the blades are soldered into hollow German-silver handles, nickel-plated, are light so as not to be unwieldy and admit of a firm grasp when operating.

The saw is adjusted to the handle on an entirely new principle, being made to separate easily and to facilitate thorough cleansing.

The handle is entirely of metal and fenestrated to overcome unnecessary weight.

Scissors and Forceps having French locks can be separated, and the slide can be easily removed from Artery and Needle Forceps.

Therefore, no opportunity is offered for the lodgment and development of germs.

The entire set is patterned with especial reference to facility in cleansing.

The instruments can be sterilized by placing them in boiling water, without fear of damaging them. Wood or rubber handles will not admit of this procedure. For price, see case A.

The following instruments are put up in either a fine Mahogany or Morocco case, with nickel trimmings, lined with velvet, and has an extra space for Trephine with handle, and Elevator if desired.

One Amputating Knife (6 in. blade); One Finger Knife; One Hernia Knife; One Sharp Curved Bistoury; Two Scalpels; One Tenotome; One Tenaculum; One Pair Scissors, curved or flat; One Saw (9 in. blade); One Liston's Bone Forceps, with Spring; One Artery and Needle Forceps, improved; One Esmarch's Flat Rubber Tourniquet, with Chain; One Hæmostatic Forceps; One Director, with Aneurism Needle; Two Silver Probes; Silk, Wire, Wax and Needles.

With the Sixteen Instruments Contained in this Case, any Ordinary Operation may be Performed.

SIZE, 11 INCHES LONG, 4 INCHES WIDE, 2 INCHES HIGH.

A.—German Silver aseptic Handles on Knives and Saw, ... **$34 00**
B.—Hard Rubber aseptic Handles on Knives and Saw, ... **29 00**
C.—Ebony Handles on Knives and Saw (as shown in illustration), ... **25 00**
Either Set, with Trephine and Elevator in addition, ... **4 65**

DISCOUNT 25 PER CENT. TO PHYSICIANS. Our Catalogue of 260 pages will be sent on receipt of 10 cts. for postage.

NEURALGIAS

PILLS OF DR. MOUSSETTE.

The **Moussette Pills** of aconitine and quinium, calm or cure *Gastralgia, Hemicrania, Headache, Sciatica,* and the most obstinate Neuralgias.

"The sedative action exerted by the **Moussette Pills** "upon the apparatus of the sanguineous circulation by the "intermediation of the vaso-motor nerves, indicates their "use in *neuralgias of the trigemini nerves,* (fifth pair), *con- "gestive neuralgias,* and *painful and inflammatory Rheumatismal "affections.*"

"Aconitine produces marvelous effects in the treatment "of *facial neuralgias* when they are not symptomatic of "intracranial tumor."—*Society of Biology of Paris, Meeting "of the 28th February, 1880.*

DOSE—Take 3 to 6 pills during the twenty-four hours.

ACCEPT ONLY THE GENUINE MOUSSETTE PILLS OF
CLIN & CO.,—Paris.

GRAND NATIONAL PRIZE OF 16,600 FRANCS,

QUINA-LAROCHE

This meritorious **Elixir, QUINA-LAROCHE,** is prepared from the **three** Cinchonas; it is an agreeable and doubtless highly efficacious remedy.

—*The Lancet.*

VINOUS ELIXIR,

A STIMULATING RESTORATIVE

—AND—

ANTI-FEBRILE TONIC.

QUINA-LAROCHE under the form of a vinous **Elixir** contains the totality of the numerous principles of the **three** Cinchona barks. It is a preparation which renders great services to Therapeutics.—Extract of the *Gazette des Hôpitaux,* Paris.

FAR SUPERIOR TO ALL ORDINARY CINCHONA WINES.

LAROCHE'S QUINA, tried by the Academy of Medicine of Paris, is a specially prepared COMPOUND EXTRACT of Quinquina, a careful analysis, confirmed by experience, has shown that most of the wines and syrups hitherto used have not contained all the properties of this precious bark, of these some, although beneficial, are altogether lost, while many preparations contain but half the properties of the bark in varying proportions.

MR. LAROCHE, by his peculiar method, has succeeded in extracting all the active principles of the quinquina, combining these with *Catalan Wine* forming an Elixir free from the disagreeable bitterness of other similar preparations. Practitioners have found triple advantages in the use of this Elixir, it is a *strong tonic,* is easily administered, and perfectly harmless, being free from the unpleasant effects of Quinine.

THE FERRUGINOUS QUINA-LAROCHE is the invigorating tonic *par excellence,* having the advantage of being easily assimilated by the gastric juice; without, in any way, deranging the action of the digestive organs, proving itself to be a most efficacious remedy in cases of impoverishment of the blood, ANÆMIA, CHLOROSIS, INTESTINAL HÆMORRHAGE, CASTRALGIA, EXHAUSTION, ETC., ETC.

PARIS.—22 RUE DROUOT.—PARIS.

For Sale.

A physician's property and practice, eight miles from Phila., in a thriving borough with macadamized streets, electric lights, and water-works. Large lot on Main street, good building and abundance of fruit.

Practice worth from $4,500 to $5,500 per year, and can be increased. This property has been the residence of a physician over fifty years. Thorough introduction given to purchaser, and satisfactory reasons given for disposal.

EVANS & GARNER, Hatboro, Pa.

BROMIDIA

THE HYPNOTIC.

FORMULA.—

Every fluid drachm contains 15 grains EACH of Pure Chloral Hydrat. and purified Brom. Pot., and one-eighth grain EACH of gen. imp. ext. Cannabis Ind. and Hyoscyam.

DOSE.—

One-half to one fluid drachm in WATER or SYRUP every hour, until sleep is produced.

INDICATIONS.—

Sleeplessness, Nervousness, Neuralgia, Headache, Convulsions, Colic, Mania, Epilepsy, Irritability, etc. In the restlessness and delirium of fevers it is absolutely invaluable.

IT DOES NOT LOCK UP THE SECRETIONS.

PAPINE

THE ANODYNE.

Papine is the Anodyne or pain-relieving principle of Opium, the Narcotic and Convulsive Elements being eliminated. It has less tendency to cause Nausea, Vomiting, Constipation, Etc.

INDICATIONS.—

Same as Opium or Morphia.

DOSE.—

(ONE FLUID DRACHM)—represents the Anodyne principle of one-eighth grain of Morphia.

IODIA

The Alterative and Uterine Tonic.

FORMULA.—

Iodia is a combination of active principles obtained from the Green Roots of Stillingia, Helonias, Saxifraga, Menispermum, and Aromatics. Each fluid drachm also contains five grains Iod. Potas., and three grains Phos. Iron.

DOSE.—

One or two fluid drachms (more or less as indicated) three times a day before meals.

INDICATIONS.—

Syphilitic, Scrofulous and Cutaneous Diseases, Dysmenorrhea, Menorrhagia, Leucorrhea, Amenorrhea, Impaired Vitality, Habitual Abortions, and General Uterine Debility.

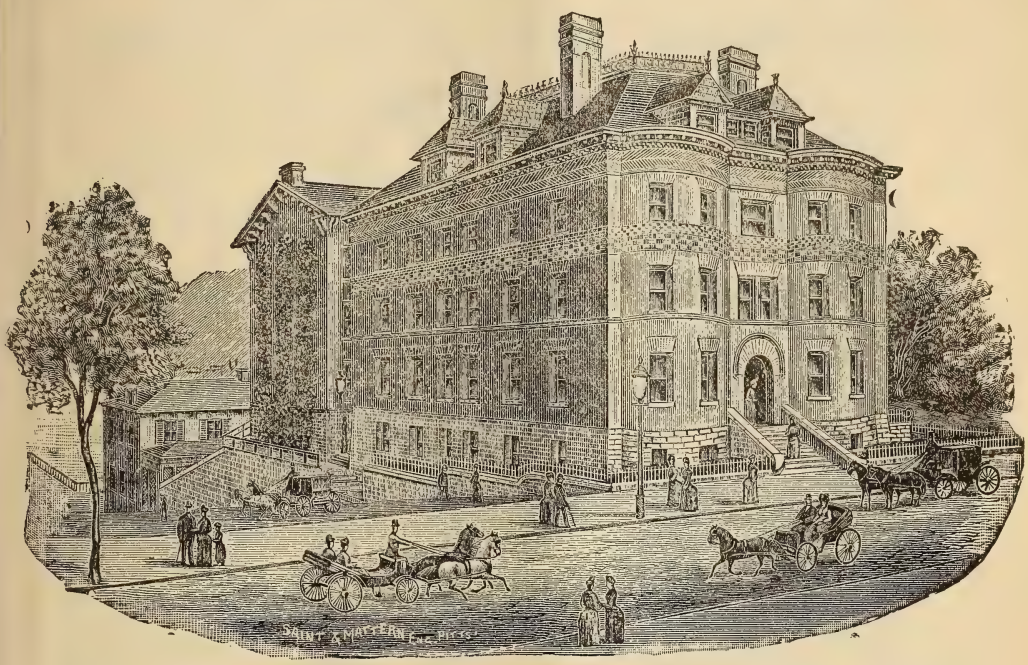
DR. R. S. SUTTON'S

Sanatorium for Diseases of Women.



Seventh Year Opens September 1, 1889.

ALLEGHENY CITY, PA.

This Institution is located on high ground, and overlooks the Allegheny, Monongahela and Ohio rivers; it commands a view of the city of Pittsburgh, and its picturesque surroundings. The building is large and beautiful, it is provided with every modern convenience, the halls are heated by steam, the rooms are commodious, well lighted and ventilated, and heated by open grates. The house is provided with a private parlor and reading-room for patients. The dining-room is large, handsomely finished, and furnished with small tables, securing privacy at meals for those who do not care to have meals served in their own rooms. Patients can be as secluded, should they desire it, as in a well appointed hotel. Each patient is examined by Dr. Sutton, and receives his daily personal attention, while Dr. J. H. Williamson, a physician of ample hospital experience, resides in the Institution, and has, under Dr. Sutton, the immediate care of the patients. The Institution accommodates 25 patients, and is equal in comfort to the best hotels.

Electricity, baths, douches, massage, local treatment, general medication and surgical operations are resorted to according to the requirements of each patient.

For further information address the Matron

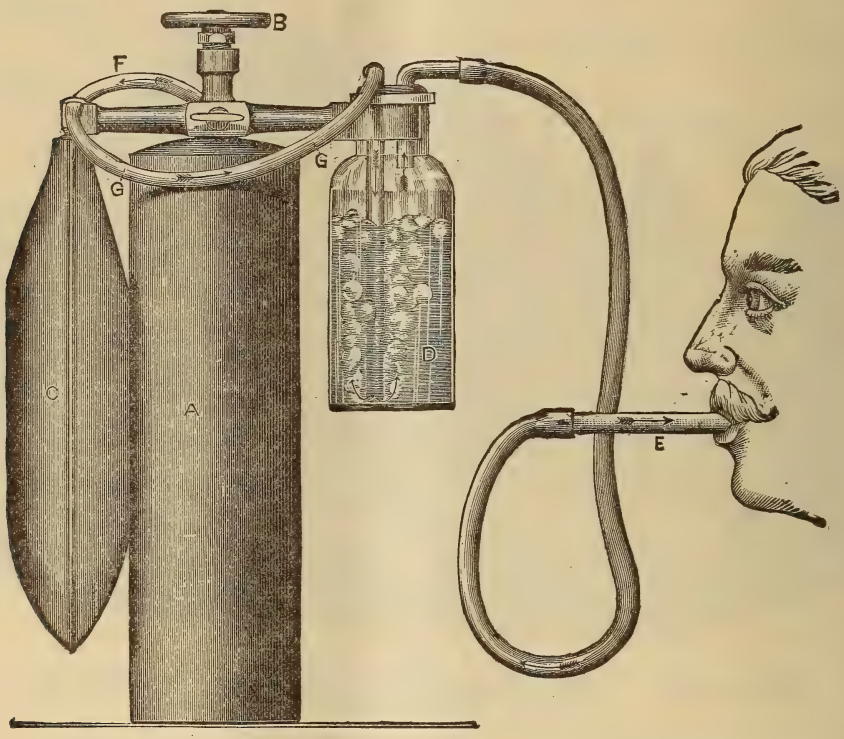
INHALATION APPARATUS

FOR

THE THERAPEUTIC ADMINISTRATION OF OXYGEN.



In the treatment of lung troubles by Oxygen its exhibition by inhalation is preferred. The apparatus herewith shown is a modification of the Nitrous Oxide apparatus which we have supplied for many years. It is made in the best manner throughout, and is the outcome of years of experience in the manufacture of gas apparatus. It will be found to meet all the requirements.

We supply the gas in two sizes of cylinders, containing respectively forty and one hundred gallons, either pure Oxygen, or a mixture of Oxygen and Nitrous Oxide in definite proportions of 20 per cent., and forty per cent. of Nitrous Oxide.

Whether pure or mixed the gas is sold at the uniform price of 5 cents a gallon. The cost of the cylinders will be refunded on their return empty with the valves in good condition. Full description of Inhalation and Enema apparatuses with directions for use accompany each apparatus, or will be supplied on application.

PRICES.

Inhalation Apparatus	$5.00
Cylinder, 40 gallons' capacity	6.00
40 gallons Gas, either pure Oxygen or mixed Oxygen and Nitrous Oxide	2.00
Complete Apparatus, Cylinder, and 40 gallons Gas	$13.00
Inhalation Apparatus	$5.00
Cylinder, 100 gallons' capacity	15.00
100 gallons Gas, either pure or mixed	5.00
Complete Apparatus, Cylinder, and 100 gallons Gas	$25.00

THE BEST ANTISEPTIC
FOR BOTH INTERNAL AND EXTERNAL USE.

ANTISEPTIC, PROPHYLACTIC, DEODORANT.

LISTERINE

NON-TOXIC. NON-IRRITANT. NON-ESCHAROTIC.

FORMULA—Listerine is the essential antiseptic constituent of Thyme, Eucalyptus, Baptisia, Gaultheria and Mentha Arvensis, in combination. Each fluid drachm also contains two grains of refined and purified Benzo-boracic Acid.

DOSE—Internally: One teaspoonful three or more times a day (as indicated) either full strength, or diluted, as necessary for varied conditions.

LISTERINE is a well-proven antiseptic agent—an antizymotic—especially adapted to internal use, and to make and maintain surgical cleanliness—asepsis—in the treatment of all parts of the human body, whether by spray, irrigation, atomization, or simple local application, and therefore characterized by its particular adaptability to the field of

PREVENTIVE MEDICINE—INDIVIDUAL PROPHYLAXIS.

Diseases of the Uric Acid Diathesis.

LAMBERT'S
LITHIATED HYDRANGEA
KIDNEY ALTERATIVE—ANTI-LITHIC.

FORMULA—Each fluid drachm of "Lithiated Hydrangea" represents thirty grains of FRESH HYDRANGEA and three grains of CHEMICALLY PURE Benzo-Salicylate of Lithia. Prepared by our improved process of osmosis, it is INVARIABLY of DEFINITE and UNIFORM therapeutic strength, and hence can be depended upon in clinical practice.

DOSE—One or two teaspoonfuls four times a day (preferably between meals).

Urinary Calculus, Gout, Rheumatism, Bright's Disease, Diabetes, Cystitis, Hæmaturia Albuminuria, and Vesical irritations generally.

We have much valuable literature upon { GENERAL ANTISEPTIC TREATMENT, LITHEMIA, DIABETES, CYSTITIS, ETC. } To forward to Physicians upon request.

LAMBERT PHARMACAL CO., ST. LOUIS, MO.

FRENCH'S
Compressed Sulphur and Cream of Tartar Tablets

Sulphur is a well-known remedial agent in the treatment of various forms of skin diseases, and is of especial value in combination with Cream of Tartar. Our compressed tablets of Sulphur and Cream of Tartar, are particularly recommended as an alterative and mild laxative for children and invalids. They are pleasantly flavored and sweetened, and form an agreeable method of medication.

FORMULA.

Sulphur Lotum, U. S. P., ... grs. v.
Potass. Bitart., pur., ... grs. xv in each tablet.

Put up in metal screw-cap glass jars, each containing 35 tablets. Also in 1 lb. bottles.
Samples mailed to physicians free of charge, on application.
For sale by the retail drug trade generally.

Champagne ANALYZED

Of Interest to all Medical Practitioners.

WHAT IS SAID BY

THOMAS KING CHAMBERS, M.D., F.R.C.P.
R. OGDEN DOREMUS, M.D.
F. W. PAVY, M.D., F.R.S.

"Champagne, with a minimum of alcohol, is by far the wholesomest, and possesses remarkable exhilarating power."—THOMAS KING CHAMBERS, M.D., F.R.C.P.

"Having occasion to investigate the question of wholesome beverages, I have made a chemical analysis of the most prominent brands of Champagne. I find G. H. Mumm & Co.'s Extra Dry to contain, in a marked degree, less alcohol than the others. I therefore most cordially commend it not only for its purity but as the most wholesome of the Champagnes."—R. OGDEN DOREMUS, M.D., *Professor of Chemistry, Bellevue Hospital Medical College, New York.*

"Champagne, while only possessing the alcoholic strength of natural wines, is useful for exciting the flagging powers in case of exhaustion."—F. W. PAVY, M.D., F.R.S., *Lecturer on Physiology at Guy's Hospital, London.*

The remarkable vintage of 1884 of **C. H. MUMM & CO.'S EXTRA DRY CHAMPAGNE,** the finest for a number of years.
Pronounced by connoisseurs unsurpassed for excellence and bouquet.

FRED'K DE BARY & CO., New York,

"THIS IS AN AGE OF APOLLINARIS WATER."
—WALTER BESANT.

Apollinaris

"THE QUEEN OF TABLE WATERS."

The filling at the Apollinaris Spring (Rhenish Prussia), amounted to

11,894,000 BOTTLES IN **1887,**
12,720,000 BOTTLES IN **1888** AND
15,822,000 BOTTLES IN **1889.**

"The annual consumption of this favorite beverage affords a striking proof of the widespread demand which exists for table water of absolute purity, and it is satisfactory to find that, wherever one travels, in either hemisphere, it is to be met with; it is ubiquitous, and should be known as the cosmopolitan table water. 'Quod ab omnibus, quod ubique.'"—BRITISH MEDICAL JOURNAL.

THE BEST NATURAL APERIENT.

THE APOLLINARIS COMPANY, LIMITED, London, beg to announce that, as numerous APERIENT WATERS are offered to the public under names of which the word "Hunyadi" forms part, they have now adopted an additional Label comprising their Registered Trade Mark of selection, which consists of

A RED DIAMOND.

This Label will henceforth also serve to distinguish the HUNGARIAN APERIENT WATER SOLD BY THE COMPANY from all other Aperient Waters.

DEMAND THE 
DIAMOND MARK.

And insist upon receiving the HUNGARIAN APERIENT WATER of the APOLLINARIS COMPANY, LIMITED, London.

BOUDAULT'S PEPSINE

The only Pepsine used in the Hospitals of Paris for the last Thirty Years.

Unlike the various substitutes which, in most cases, are but unscientific or incompatible compounds, forced upon the Medical Profession as aids to digestion by extensive advertising, but which, when submitted to the proper tests, are found to be useless as digestive agents, Pepsine is constantly gaining in the esteem of the careful practitioner.

Since the introduction of Pepsine by Boudault and Corvisart in 1854, the original BOUDAULT'S PEPSINE HAS BEEN AT ALL TIMES CONSIDERED THE BEST, as is attested by the awards it has received at the Expositions of 1867, 1868, 187 1873, in 1876 at the Centennial Exposition of Philadelphia, and in 1878 at the Paris Exposition.

The most reliable tests, carefully applied, will satisfy everyone that BOUDAULT'S PEPSINE HAS A MUCH HIGHER DIGESTIVE POWER than the best Pepsines now before the Profession, and is therefore especially worthy of their attention.

BOUDAULT'S PEPSINE is prepared in the form of Pepsine Acid and Pepsine Neutral. It is sold in bottles of one ounce, with a measure containing exactly five grains; also in bottles of four, eight, and sixteen ounces for dispensing.

BOUDAULT'S WINE OF PEPSINE

FORMULA OF DR. CORVISART.

The taste of Pepsine being perfectly disguised in this Wine, it may be recommended to persons who have difficulty in taking Pepsine in the form of Powder. This Wine is tested so that a tablespoonful of it is equal in digestive power to ten grains of Boudault's Pepsine in powder. Sold only in bottles of eight ounces.

TANRET'S PELLETIERINE

For the Treatment of Tape-Worm (Tænia Solium).

This New Tænifuge, the Active Alkaloid of Pomegranate Bark, has of late come into extensive use in France for the treatment of Tape-Worm (Tænia Solium). The results of numerous experiments with it at the Marine Hospitals of Toulon, St. Mandrier, etc., and in the Hospitals of Paris, St. Antoine, La Charité, Necker Beaujon, etc., have all been most satisfactory. Doctor Dujardin Beaumetz, Member of the Academy of Medicine, and Professor Laboulbene, in their report to the Society of Therapeutics, have given it their unqualified approval, after the most searching experiments. This preparation is pleasant to administer, and, if certain preliminaries are observed, success will be insured.

Sold only in bottles containing one dose.

DUCRO'S ALIMENTARY ELIXIR

A Combination uniting the properties of Alcoholic Stimulants and Raw Meat.

This preparation, which has been used with great success in the hospitals of Paris since 1868, is adapted to the treatment of all diseases requiring administration, in a small volume, of a tonic able to stimulate and support the vital forces, as *Pulmonar Phthisis, Depression and Nervous Debility, Adynamia, Malarious Cachexia, etc.*

Prepared by EMILE DURIEZ & CO., Successors to DUCRO & CIE, Paris.

KIRKWOOD'S INHALER

This is the only complete, reliable, and effective inhaler in use, arranged for the direct application of Muriate of Ammonia and other remedial agents in the state of vapor to the diseased parts of the air-passages in the treatment of catarrh and diseases of the throat and lungs. No heat or warm liquids required in its use.

It is entirely different from the various frail, cheap instruments that have been introduced.

KIRKWOOD'S INHALER is accompanied by testimonials of the highest professional character, together with carefully prepared formulas for use.

RETAIL PRICE, COMPLETE, $2.50.

☞ A liberal discount allowed to the trade and profession. For descriptive pamphlet or other information address

E. FOUGERA & CO., 30 North William St., New York.

Sole Agents for the above Preparations.

GARDNER'S

SYRUP OF HYDRIODIC ACID,

Introduced in 1878 by R. W. GARDNER.

The Reputation which Hydriodic Acid has Attained During the past Eleven Years was Won by this Preparation.

Numerous Imitations prepared differently, and weaker in Iodine, are offered, from the use of which the same therapeutic effects cannot be obtained.

Caution.—Use no Syrup of Hydriodic Acid which has turned red. This shows decomposition and free Iodine. In this state it acts as an irritant and fails to produce desirable results.

Unprincipled apothecaries substitute imitations when Gardner's Syrup is prescribed, and physicians, failing to get desirable and promised results, attribute the fault, unjustly, to Gardner's Syrup.

THERAPEUTIC INDICATIONS.

Hay Fever; Rose Cold; Poisoning by Lead, Mercury or Arsenic; Acute and Chronic Rheumatism; Asthma; Chronic Bronchitis; Catarrh; Congestion of Lungs in Children; Adenitis; Eczema; Lupus; Chronic Malarial Poisoning; Lumbago; Acute Pneumonia; Psoriasis; Scrofulous Diseases; Goitre; Enlarged Glands; Cold Abscesses; Indolent Sores; Excessive Fat; Fatty Degeneration of the Heart; to absorb non-malignant Tumors; and in the latter stages of Syphilis; Syphilitic Phthisis.

Details of treatment furnished physicians upon application to undersigned without charge.

Gardner's Chemically Pure Syrups of Hypophosphites.

Embracing the separate Syrups of Lime, of Soda, of Iron, of Potassa, of Manganese, and an Elixir of the Quinia Salt; enabling physicians to accurately follow Dr. Churchill's method, by which thousands of authenticated cases of Phthisis have been cured. The only salts, however, used by Churchill in Phthisis are those of Lime, of Soda, and of Quinia, and always separately according to indications,—never combined.

The reason for the use of single Salts is because of antagonistic action of the different bases, injurious and pathological action of Iron, Potassa, Manganese, etc., in this disease.

These facts have been demonstrated by thirty years' clinical experience in the treatment of this disease exclusively, by Dr. Churchill, who was the first to apply these remedies in Medical practice. Modified doses are also required in this disease; seven grains during twenty-four hours being the maximum dose in cases of Phthisis, because of increased susceptibility of the patient to their action, the danger of producing toxic symptoms (as hemorrhage, rapid softening of tubercular deposit, etc.), and the necessity that time be allowed the various functions to recuperate simultaneously; over-stimulation, by pushing the remedy, resulting in crisis and disaster.

A pamphlet of sixty-four pages, devoted to a full explanation of these details and others, such as contra-indicated remedies, indications for the use of each hypophosphite, reasons for the use of absolutely pure Salts, protected in Syrup from oxidation, etc., mailed to physicians without charge upon application to

R. W. GARDNER, 158 William St., N. Y. City.

W. H. SCHIEFFELIN & CO., Sole Wholesale Agents, New York.

CELERINA

NERVE TONIC, STIMULANT AND ANTISPASMODIC.

FORMULA.—Every Fluid Drachm represents FIVE grains EACH—Celery, Coca, Kola, Viburnum and Aromatics.

INDICATIONS.—Loss of Nerve-Power (so usual with Lawyers, Preachers, Writers and Business Men), Impotency, Spermatorrhea, Nervous Headache, Neuralgia, Paralysis, Hysteria, Opium Habit, Inebriety, Dyspepsia, and ALL LANGUID conditions of the System.

Indispensable to restore a patient after alcoholic excess.

DOSE.—One or two Teaspoonfuls three or more times a day, as directed by the Physician.

LIQUID IRON-RIO

Palatable and easily assimilated. Does not produce Nausea, nor irritate the Stomach. Does not Cause Headache, nor Constipate. Does not Stain the Teeth. It is so Acceptable to the Stomach that its Use is Admissible when all other forms of Iron would be rejected. Being so Readily Assimilable, it only requires a small Dose.

Each Fluid Drachm contains ONE GRAIN of Iron in a Pleasant and Digestible Form.

DOSE.—One or more Teaspoonfuls as indicated, during or after meals.

S. H. KENNEDY'S

CONCENTRATED EXTRACT OF

PINUS CANADENSIS

DARK. **A NON-ALCOHOLIC LIQUID.** WHITE.

A MOST VALUABLE NON-IRRITATING MUCOUS ASTRINGENT.

INDICATIONS.—Albuminuria, Diarrhea, Dysentery, Night-Sweats, Hemorrhages, Profuse Expectoration, Catarrh, Sore Throat, Leucorrhea, and other Vaginal Diseases, Piles, Sores, Ulcers, Burns, Scalds, Gonorrhea, Gleet, Etc.

When Used as an Injection, to Avoid Staining of Linen, the WHITE Pinus should be used.

RECOMMENDED BY PROMINENT EUROPEAN AND AMERICAN PHYSICIANS.

DETROIT COLLEGE OF MEDICINE.
SESSION 1889-90.

Clinical and Practical teaching are made an important feature of this College. Clinical instruction is given daily at HARPER, ST. MARY'S and ST. LUKE'S HOSPITAL, at the COLLEGE, at COLLEGE EYE and EAR INFIRMARY, ST. MARY'S FREE EYE and EAR INFIRMARY, and at the three FREE DISPENSARIES. The facilities offered by this college are unsurpassed for the practical study of MEDICINE, SURGERY, OBSTETRICS, GYNÆCOLOGY, DISEASES OF CHILDREN, GENITO-URINARY, and ORTHOPÆDIC SURGERY, OPHTHALMOLOGY and OTOLOGY, DERMATOLOGY and LARYNGOLOGY.

REGULAR SESSION opens on Wednesday, Sept. 25, and continues six months. During the session, the Professors will take special pains to examine the Students upon the subjects of the previous lectures.

SPRING SESSION begins April 2d, 1890; and closes June 11th.

FEES.—Matriculation fee, $5; Fees for Regular Session, $50; Spring Session, $10, to those who attend the regular term—to all others, $25; Hospital Fee, $10; Graduation Fee, $30; Perpetual Ticket, $100.

For further particulars, and for College Circular, apply to

H. O. WALKER, M.D., Secretary,
33 Lafayette Ave., Detroit, Mich.

ANTISEPTIC DRAINAGE TUBES.—Glass.

These Tubes have large holes, one-half inch apart, arranged alternately on opposite sides.
They are carefully finished, especial care being taken to make them smooth.
In addition to the drainage-holes, each tube has at one end two smaller holes for the insertion of Safety-Pin, through which it is prevented slipping into the wound.

FURNISHED IN SEVEN SIZES.

No. 1,	$1.25 per doz.	No. 4,	$1.55 per doz.
No. 2,	1.25 "	No. 5,	1.70 "
No. 3,	1.40 "	No. 6,	1.90 "
	No. 7, $2.10 per dozen.		

RAW CAT-GUT. I put this up in coils of 10 feet, four difierent sizes, Nos. 1, 2, 3, 4 (4 is thickest). Nos. 2 and 3 are the most useful sizes. **No. 1 Coil, 10 Cents; No. 2 Coil, 12 Cents; No. 3 Coil, 14 Cents; No. 4 Coil, 16 Cents.** Full directions with each coil for making it absolutely aseptic.

WILLIAM SNOWDEN,
Manufacturer, Importer and Exporter of Surgical Instruments,
No. 7 SOUTH ELEVENTH STREET, PHILADELPHIA.

ONEITA

The perfection of table waters, with mineral properties unsurpassed in the treatment of Dyspepsia, Kidney and Liver troubles, Gout, Rheumatism, etc. The analysis of the spring shows a combination of mineral virtues unequaled in any other water. The water has been before the public but a short time, yet in that time has won public favor to a marked degree. Send for analysis of C. F. Chandler, Ph. D.

Practical individual instruction, Clinical and Demonstrative, to physicians only, during the entire year. Fee for any one branch for six weeks, **$15 00**; General Ticket for twelve Clinical branches, **$100.00**; Tickets good for one Clinic weekly for three months, issued on application. For Announcement, with full particulars of CLINICAL AND LABORATORY COURSES, address

S. SOLIS-COHEN, M. D., Secretary.

MEDICO-CHIRURGICAL COLLEGE

OF PHILADELPHIA.

WINTER SESSION will begin Wednesday, October 1st, and continue until April 16th. PRELIMINARY SESSION begins September 8th. SPRING TERM, April 20th, 1891.

The curriculum is graded, and a preliminary examination and three Annual Winter Sessions are required. Laboratory instruction in Chemistry, Histology, Pathology, Hygiene, Physiology, with Bedside instruction in Medicine, Surgery and Gynecology, is a part of the regular course.

Fees: Matriculation $5.00. First and second years, each $75.00. Third year $100.00. Fourth year free to those in attendance three sessions; to all others $100.00.

For Announcement or information apply to

E. E. MONTGOMERY, M. D.,

1818 Arch Street, Philadelphia, Pa.

WESTERN PENNSYLVANIA MEDICAL COLLEGE

CITY OF PITTSBURGH.

SESSIONS OF 1889–90.

The REGULAR SESSION begins on the last Tuesday of September, and continues six months. During this session, in addition to four Didactic Lectures, two or three hours are daily allotted to Clinical Instruction. Attendance upon two regular courses of lectures is requisite for graduation. A three years' graded course is also provided. The SPRING SESSION embraces recitations, clinical lectures and exercises, and didactic lectures on special subjects; this session begins the second Tuesday in April, and continues ten weeks.

The laboratories are open during the collegiate year for instruction in chemistry, microscopy, practical demonstrations in medical and surgical pathology, and lessons in normal histology. Special importance attaches to "the superior clinical advantages possessed by this College." For particulars, see annual announcement and catalogue, for which, address the Secretary of Faculty, Prof. J. W. J. MCKENNAN.

Business correspondence should be addressed to

PROF. W. J. ASDALE, 2107 Penn Avenue, Pittsburgh.

NATIONAL MEDICAL COLLEGE.

MEDICAL DEPARTMENT OF THE

COLUMBIAN UNIVERSITY,

WASHINGTON, D. C.

The 68th Annual Session will begin October 7th and end March 1st. Graded three years' course required. Women admitted. Professors: J. F. Thompson, W. W. Johnston, A. F. A. King, E. T. Fristoe, Wm. Lee, D. W. Prentiss, D. K. Shute.

For circulars, address

A. F. A. KING, M. D., DEAN, 726 THIRTEENTH ST., N. W., WASHINGTON D. C.

UNIVERSITY OF PENNSYLVANIA.—Medical Department.

The 125TH ANNUAL WINTER SESSION will begin Wednesday, October 1st, 1890, at 12 M., and will continue seven months. The PRELIMINARY SESSION begins September 22d, 1890, the Spring Term early in May, 1891.

The curriculum is graded and three annual winter sessions are required. Practical instruction, including laboratory work in Chemistry, Histology, Osteology and Pathology, with Bedside Instruction in Medicine, Surgery and Gynecology are a part of the regular course and without additional expense.

FACULTY.

JOSEPH LEIDY, M.D., LL.D., Professor of Anatomy.
D. HAYES AGNEW, M.D., LL.D., Honorary Professor of Clinical Surgery.

JAMES R. LEAMING, M.D., Emeritus Professor of Diseases of the Chest and Physical Diagnosis; Special Consulting Physician in Chest Diseases to St. Luke's Hospital.

EDWARD B. BRONSON, M.D., Professor of Dermatology; Visiting Dermatologist to the Charity Hospital; Consulting Dermatologist to Bellevue Hospital (Out-door Department).

A. G. GERSTER, M.D., Professor of Surgery; Visiting Surgeon to the German and Mt. Sinai Hospitals.

V. P. GIBNEY, M.D., Professor of Orthopædic Surgery; Orthopædic Surgeon to the Nursery and Child's Hospital; Surgeon-in-Chief to the Hospital for Ruptured and Crippled.

LANDON CARTER GRAY, M.D., Professor of Diseases of the Mind and Nervous System; Attending Physician to Hospital for Nervous and Mental Diseases, and to St. Mary's Hospital.

EMIL GRUENING, M.D., Professor of Ophthalmology; Visiting Ophthalmologist to Mt. Sinai Hospital, and to the German Hospital.

*JAMES B. HUNTER, M.D., Professor of Gynæcology; Surgeon to the Woman's Hospital; Surgeon to the New York Cancer Hospital; Consulting Surgeon to the New York Infirmary for Women and Children; President of the Faculty.

PAUL F. MUNDÉ, M.D., Professor of Gynæcology; Gynæcologist to Mt. Sinai Hospital; Consulting Gynæcologist to St. Elizabeth Hospital.

A. R. ROBINSON, M.D., Professor of Dermatology; Professor of Normal and Pathological Histology in the Woman's Medical College.

DAVID WEBSTER M.D., Professor of Ophthalmology; Surgeon to the Manhattan Eye and Ear Hospital.

JOHN A. WYETH, M.D., Professor of Surgery; Visiting Surgeon to Mt. Sinai Hospital; Consulting Surgeon to St. Elizabeth Hospital; Secretary of the Faculty.

W. GILL WYLIE, M.D., Professor of Gynæcology; Gynæcologist to Bellevue Hospital.

R. C. M. PAGE, M. D., Professor of General Medicine and Diseases of the Chest; Physician to St. Elizabeth Hospital; Attending Physician to the Northwestern Dispensary, Department of Chest Diseases.

D. BRYSON DELAVAN, M. D., Professor of Laryngology and Rhinology; Laryngologist to the Demilt Dispensary.

JOSEPH WILLIAM GLEITSMANN, M. D., Professor of Laryngology and Rhinology; Laryngologist and Octologist to the German Dispensary.

OREN D. POMEROY, M.D., Professor of Otology; Surgeon Manhattan Eye and Ear Hospital; Ophthalmic Surgeon to New York Infants' Asylum, and Consulting Surgeon to the Paterson Eye and Ear Infirmary.

HENRY N. HEINEMAN, M. D., Professor of General Medicine and Diseases of the Chest; Attending Physician to Mt. Sinai Hospital.

B. SACHS, M.D., Professor of Diseases of the Mind and Nervous System; Consulting Neurologist to the Montefiore Home for Chronic Invalids.

THOMAS R. POOLEY, M.D., Professor of Ophthalmology; Surgeon-in-Chief of the New Amsterdam Eye and Ear Hospital; Ophthalmic Surgeon to the Sheltering Arms; Consulting Ophthalmologist to the St. Bartholomew's Hospital.

L. EMMETT HOLT, M.D., Professor of Diseases of Children; Visiting Physician to the New York Infant Asylum; Consulting Physician to the Hospital for Ruptured and Crippled.

AUGUST SEIBERT, M.D., Professor of Diseases of Children; Physician to the Children's Department of the German Dispensary.

H. MARION SIMS, M.D., Professor of Gynæcology; Gynæcologist to St. Elizabeth Hospital and New York Infant Asylum.

WILLIAM F. FLUHRER, M.D., Professor of Genito-Urinary Surgery; Surgeon to Bellevue and St. Sinai Hospitals.

HENRY C. COE, M. D., M. R. C. S. (Eng.), Professor of Gynecology; Attending Surgeon to New York Cancer Hospital; Assistant Surgeon to Woman's Hospital; Obstetric Surgeon to Maternity Hospital; Obstetrician to New York Infant Asylum; Gynecologist to Presbyterian Hospital, Out-door Department.

* Deceased.

THE NEW YORK POLYCLINIC is a School of Clinical Medicine and Surgery for *Practitioners only*. No didactic lectures are given. The classes are limited. The demonstrations are made at the Polyclinic School and Hospital, and in the various Hospitals in New York City with which the Faculty are connected.

Session of 1889-90 opens Monday, September 16th, 1889. For further information and for catalogue, address

JOHN A. WYETH, M.D.,
Secretary of the Faculty,
Or WILLIS O. DAVIS, Clerk,
214, 216 & 218 East 34th Street, New York City.

The only prominent Emulsion of Cod-Liver Oil introduced directly to the medical profession. It is advertised exclusively in medical journals.

HYDROLEINE.

(HYDRATED OIL.)

Produces rapid increase in Flesh and Strength.

FORMULA.—Each Dose contains:			
Pure Cod Liver Oil	30 m. (drops)	Soda	1-3 Grains
Distilled Water	35 "	Salicylic Acid	1-4 "
Soluble Pancreatin	5 Grains.	Hyocholic Acid	1-20 "

Recommended and Prescribed by EMINENT PHYSICIANS Everywhere. It is pleasant to the Taste and acceptable to the most delicate Stomach.

IT IS ECONOMICAL IN USE AND CERTAIN IN RESULTS.

HYDROLEINE (Hydrated Oil) is not a simple alkaline emulsion of oleum morrhuæ, but a hydro-pancreated preparation, containing acids and a small percentage of soda. Pancreatin is the digestive principle of fatty foods, and in the soluble form here used, readily converts the oleaginous material into assimilable matter, a change so necessary to the reparative process in all wasting diseases.

The following are some of the diseases in which **HYDROLEINE** is indicated:

Phthisis, Tuberculosis, Catarrh, Cough, Scrofula, Chlorosis, General Debility, etc.

TO BRAIN WORKERS of all classes, **HYDROLEINE** is invaluable, supplying as it does, the true brain-food, and being more easily assimilated by the digestive organs than any other emulsion.

The principles upon which this discovery is based have been described in a treatise on "The Digestion and Assimilation of Fats in the Human Body," and "Consumption and Wasting Diseases," by two distinguished London physicians, which will be sent free on application.

SOLD BY DRUGGISTS GENERALLY.

C. N. CRITTENTON,

SOLE AGENT FOR THE UNITED STATES. 115 FULTON STREET, N. Y.

A Sample of Hydroleine will be sent free upon application, to any physician (enclosing business card) in the U. S.

An Open Letter to the Medical Profession.

THE INFANT FOOD PROBLEM SOLVED.

NEW YORK, May 1, 1890.

The Annual of the Universal Medical Sciences for 1889 says: "A perfect Infant Food is still a desideratum; such a food will probably be evolved in the mind of some manufacturer who understands the physiology of infantile digestion and the chemistry of milk. A substitute for human milk to approximate the latter closely should be made entirely from cow's milk, without the addition of any ingredient not derived from milk."

"But not alone do we demand that these Milk Foods contain the equivalent of the solids in human milk, and especially of the albuminoids derived from milk, but that the latter be gathered with the utmost care from properly fed animals, transported with the least possible jolting to the factory, maintained during its transit at a low temperature, then transferred to an apparatus for sterilization, and immediately after the latter has been accomplished reduced to the dry state, in order to prevent the formation of those organisms which Loeffer, Pasteur, and Lester have found to develop in fluid milk after boiling under an alkaline reaction. If such a preparation be put into air-tight and sterilized jars, all will have been accomplished that can be done to render the food sterile, and thus fulfil the chief indications in the prevention of the most serious gastro-intestinal derangements."

"Such a food, too, would have the advantage of being easily and rapidly prepared by addition of sterilized water, affording an altogether sterilized food."

To the *Medical Profession* at large we submit for examination and trial the perfected Milk Food known as LACTO-PREPARATA. We claim that LACTO-PREPARATA is an *ideal Infant Food*, and that it fulfils the above requirements in every particular, except the partial substitution of unstable milk-fat for cocoa-butter. This substitution was made by advice of Prof. Attfield, London, who made extensive tests of its food value and digestibility in the London Hospitals for Infants.

LACTO-PREPARATA is made from cow's milk evaporated in vacuo a few hours after it leaves the udder. In order to have the product correspond in composition with breast-milk, sufficient milk-sugar is added to bring up the carbohydrates and reduce the albuminoids to a proper proportion (17 per cent.). The casein is partially pre-digested (30 per cent.), and the remaining portion is rendered like human milk in character and digestibility. The ingredients are perfectly sterilized and placed in hermetically sealed cans; the powdering, bolting, and canning are done in an air-tight room, all air entering and leaving this room is forced by a blower through heavy layers of cotton. LACTO-PREPARATA is adapted more especially to infants from birth to six months of age; *and by the addition of water alone represents almost perfectly human milk in taste, composition, and digestibility.*

Another product of our laboratory which has been before the profession for a number of years is CARNRICK'S SOLUBLE FOOD, which, as now prepared and perfected, contains 37½ per cent. of the solid constituents of milk, 37½ per cent. of wheat with the starch converted into dextrine and soluble starch, and 25 per cent. additional milk-sugar. For infants over six months of age it is perfect in every respect; for infants younger than this, LACTO-PREPARATA is more suitable, although *Soluble Food* has also been used largely from birth with the most satisfactory results.

Samples will be sent prepaid, also pamphlet giving detailed description.

REED & CARNRICK, NEW YORK.

TO THE MEDICAL PROFESSION.

SPECIAL MENTION.

In offering these special preparations, there is no attempt made to "prescribe for the physician," but simply to place within his reach elegant and palatable combinations of known value, such as local pharmacists ordinarily have not the means of preparing.

Among our leading specialties we take pleasure in mentioning the following:

ALKALINE ELIXIR RHUBARB CO. AND PANCREATIN.

A combination of E. I. Rhubarb and Potass. Bicarbonate, āā 20 grs., Pancreatin, 16 grs., and Fluid Hydrastis, 10 ♏ to the fluid ounce. This is unequalled as an antacid, carminative, stomachic and digestive. It is very valuable in cholera infantum, infantile colics, dyspepsia and all abnormally acid conditions of the alimentary tract. Dose ½ to 4 teaspoonfuls every 1 to 4 hours, according to case and age.

ESSENCE OF PEPSIN (FLUID PEPSIN).

A direct solution of all the soluble constituents of the peptic glands of the pig's stomach, unchanged by chemical action or manipulation.

It is without bad odor or taste, and represents, in each fluid drachm, the digestive power of at least 20 grs. U. S. P. Sacch. Pepsin.

Readily used as a basis to which may be added Ammonio Cit. Bismuth, Strychnia, etc., as indicated.

This preparation is rapidly assuming its proper position *at the very front* of all preparations of pepsin.

NUTRITIVE HYPOPHOSPHITES.

A combination of the well-known formula of the hypophosphites of Lime, Soda, Iron, Potass., Quin., Strychnine and Manganese, with a vehicle of glycerine and cane-sugar syrup instead of glucose. More palatable, more permanent, and less likely to disturb the stomach. It is sold as a legitimate pharmaceutical preparation at legitimate prices, and is unequalled in elegance and efficacy by any similar preparation.

Specify Nutritive Hypophos.: Merrell.

ELIXIR PINUS COMPOSITUS.

Considered by those who have used it as the most valuable routine expectorant in the market. It is unlike the many syrups, etc., under similar names, and the difference will be readily appreciated when tried. Formula supplied to the profession.

EXTRACT TRIFOLIUM COMPOUND.

From the well-known and approved prescription of Dr. E. F. Rush, prepared in a concentrated form, one bottle will make 3 pints Syr. Trifolium comp'd. By its use a stronger or weaker syrup may be prepared as indicated. Formula furnished.

"Merrell Co.'s" "Green Drug," Fluid Extracts, True Salicylic Acid, Salts of Hydrastis, Fluid Hydrastis and Specialties may be obtained of wholesale druggists throughout the United States, at the Home Office at Cincinnati, or the New York Office, 96 Maiden Lane, New York City, Smith, Kline & Co., Philadelphia. Prices current and printed matter cheerfully supplied.

THE P.P.P. SYRINGE

Is universally considered the most perfect urethral Syringe in the market, because it combines within itself all desirable qualities. It measures but 1½ x 2¾ inches, has a capacity of fully half an ounce, and is made of one piece of soft rubber with conical point. To protect this soft point and to prevent pocket dust from getting into the Syringe, a Hard Rubber cap screws air-tight over it and enables the patient to carry it in his pocket filled with the injection ordered, ready for use when away from home.

For sale by all druggists.

PIL. PHENACETINE ET SALOL, 5 GRS., "W. H. S. & CO."

{Phenacetine-Bayer, ... 2½ grs.
{Salol, ... 2½ grs.

Anti-Rheumatic and Analgesic. This combination was first suggested by Dr. M. F. Price, Colton, Cal., President of the "Southern California Medical Society." In an address to the members he says: "In a case of acute Rheumatism, affecting elbows, wrists, knees, and ankles, ordered Phanacetine and Salol every three hours. No local application ordered. Made five daily visits, found the patient each day improved, discharged with orders to continue the medicine three times a day for a week."

After citing other cases, one of Sciatica where the patien t was suffering such pain that the slightest motion caused faintness with nausea and continuous vomi ting; two with acute Rheumatism, and one with Neuralgia of the stomach, Dr. Price continues:

"It will be observed that in some of these cases I have combined Salol with Phanacetine. I did this on the principle of the well-known effect of Salicylic Acid in Rheumatism, but I rely on the Phenacetine for the relief of the pain, and in this way perhaps the cure of the disease causing it." (*Southern California Practitioner*, August, 1889.)

PIL. TERPIN HYDRAT., 2 GRS., "W. H. S. & CO.,"

A new and potent remedy in the treatment of coughs, catarrh, bronchitis, and kindred diseases.

Terpin Hydrate is indicated in cases where violent irritation of the bronchial mucous membrane exists, and where the secretion is inconsiderable and peculiarly viscid, such as is met with in the chronic catarrh accom panying emphysema and phthisis. The effect obtained is always an increase and a liquefaction of the secretion, a considerable reduction of the irritation, and easy expectoration.

SOLUBLE PILLS.

Advanced pharmacy has, of late years, bestowed much attention upon eliminating the objectionable features which pertained to Pills, but it is only since their manufacture has been undertaken in wholesale quantities by responsible and capable parties that they have been produced in their present excellent quality.

The conditions of a perfect Pill are:

1*st.* *Ingredients of the finest quality.*
2*d.* *All materials weighed with scrupulous exactness.*
3*d.* *The mass sufficiently consistent to maintain the globular form, and yet readily soluble in the stomach.*
4*th.* *A coating which will preserve the mass in good condition, cover all offensive smell or taste, and facilitate deglutition.*

The continued favor which has been shown to our **Soluble Pills** is sufficient evidence that care has been bestowed upon their manufacture.

As for the purity of the drugs entering into their composition, and the presence in full and exact quantity of every article required by the formula in each case, we can only give our assurance that no deviation from correctness in any particular is, or ever has been, permitted in their manufacture; and they invite the most critical examination and test, either of analysis or of therapeutic effect.

They possess the advantage of a perfect coating, which is neither hard, bulky, opaque, nor insuluble, but elastic, thin, transparent, and readily soluble.

For further information about them we refer to our formula books and price lists, which we shall be happy to furnish upon application.

A Phosphorized Cerebro-Spinant

(FRELIGH'S TONIC).

FORMULA.

Ten minims of the Tonic contain the equivalents (according to the formulæ of the U. S. P., and Dispensatory) of

Tinct. Nux Strychnos,	1	minim.
" Ignatia Amara,	1	"
" Cinchona,	4	"
" Matricaria,	1	"
" Gentian,	½	"
" Columbo,	½	"
" Phosphorus, C. P.,	1-300	gr.
Aromatics,	2	minims.

Dose: 5 to 10 drops in 2 tablespoonfuls of water.

INDICATIONS.

Paralysis, Neurasthenia, Sick and Nervous Headache, Dyspepsia, Epilepsy, Locomotor Ataxia, Insomnia, Debility of Old Age, and in the Treatment of Mental and Nervous Diseases.

A BALTIMORE PHYSICIAN, WHOSE DIPLOMA DATES FROM 1825, SAYS:

"Your combination I find vastly more effective than any tonic I have ever used. It furnishes a most powerful evidence of the vastly increased power of medicament by combination and judicious pharmaceutic preparation."

Price, One Dollar per Bottle, containing 100 of the Average 5-Drop Doses.—Physicians' single sample delivered, charges prepaid, on application. That every physician may be his own judge of its value, irrespective of the opinions of others, we make the following

SPECIAL OFFER:

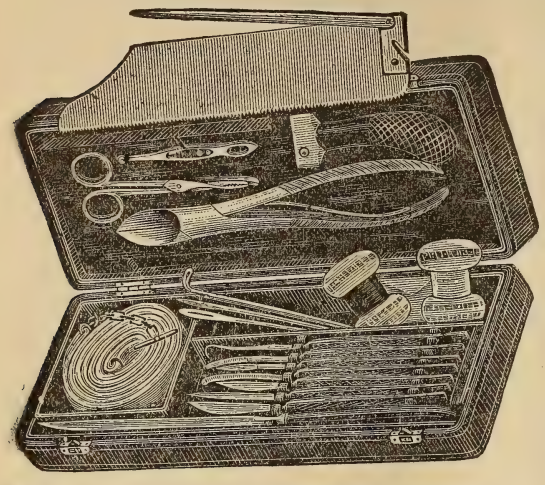
We will send to any physician, delivered, charges prepaid, on receipt of twenty-five cents, and his card or letter-head, half a dozen physicians' samples, sufficient to test it on as many cases for a week to ten days each. The Tonic is kept in stock regularly by all the leading wholesale druggists of the country. As we furnish no samples through the trade, wholesale or retail, for samples, directions, price-lists, etc., address,

I. O. WOODRUFF & CO.,

Manufacturers of Physicians' Specialties,

No. 88 Maiden Lane, New York City.

LENTZ'S ASEPTIC COMPACT OPERATING SET, No. 10.



We have from time to time made improvements to this set and are now making a perfect aseptic set, which offers especial facilities for aseptic precautions; the blades are soldered into hollow German-silver handles, nickel-plated, are light so as not to be unwieldy and admit of a firm grasp when operating.

The saw is adjusted to the handle on an entirely new principle, being made to separate easily and to facilitate thorough cleansing.

The handle is entirely of metal and fenestrated to overcome unnecessary weight.

Scissors and Forceps having French locks can be separated, and the slide can be easily removed from Artery and Needle Forceps.

Therefore, no opportunity is offered for the lodgment and development of germs.

The entire set is patterned with especial reference to facility in cleansing.

The instruments can be sterilized by placing them in boiling water, without fear of damaging them. Wood or rubber handles will not admit of this procedure. For price, see case A.

The following instruments are put up in either a fine Mahogany or Morocco case, with nickel trimmings, lined with velvet, and has an extra space for Trephine with handle, and Elevator if desired.

Gymnasium Department.

From this time henceforth the **Gymnasium** in all its important details will be a department in our business to which we shall devote especial attention.

With the addition to our own valuable patents, those of the **A. J. Reach Company,** of Philadelphia, recently purchased by us, enables us to claim the most **extensive department** of **Gymnasium Appliances in the world.**

We have been encouraged in this **important** movement by the constantly increasing demand from **Colleges, Seminaries,** and other **Educational** Institutions for Gymnasium Supplies, and henceforth we shall devote special attention to furnishing **plans, specifications,** and **estimates** to such and for **private residences** as well, and solicit correspondence with all contemplating the introduction of gymnastics for any purpose.

The Peerless Pulley Weight, illustration of which appears on this page, is a most perfect appliance for the development of the **chest** and **arms,** adjustable to the height of *any* person, and in weight from five to thirty pounds. For **man or woman** this is the peer of any method yet devised, especially for home use. Realizing the attention the **medical profession** and the **teacher,** are now giving to **healthful** exercise in **schools,** we solicit also their correspondence, and any orders, or business proceeding from such, will be gratefully received, and entitled to our best rates of discount, and will receive prompt and careful attention.

Visitors to our different establishments at **Chicago, New York,** and **Philadelphia** will always be welcome and politely served by the many efficient salesmen constantly in attendance.

GRAND NATIONAL PRIZE OF 16,600 FRANCS,

QUINA-LAROCHE

This meritorious **Elixir, QUINA-LAROCHE,** is prepared from the three Cinchonas; it is an agreeable and doubtless highly efficacious remedy.

—*The Lancet.*

VINOUS ELIXIR,

A STIMULATING RESTORATIVE

—AND—

ANTI-FEBRILE TONIC.

QUINA-LAROCHE under the form of a vinous **Elixir** contains the totality of the numerous principles of the three Cinchona barks. It is a preparation which renders great services to Therapeutics.—Extract of the *Gazette des Hôpitaux*, Paris.

FAR SUPERIOR TO ALL ORDINARY CINCHONA WINES.

LAROCHE'S QUINA, tried by the Academy of Medicine of Paris, is a specially prepared COMPOUND EXTRACT of Quinquina, a careful analysis, confirmed by experience, has shown that most of the wines and syrups hitherto used have not contained all the properties of this precious bark, of these some, although beneficial, are altogether lost, while many preparations contain but half the properties of the bark in varying proportions.

MR. LAROCHE, by his peculiar method, has succeeded in extracting all the active principles of the quinquina, combining these with *Catalan Wine* forming an Elixir free from the disagreeable bitterness of other similar preparations. Practitioners have found triple advantages in the use of this Elixir, it is a *strong tonic*, is easily administered, and perfectly harmless, being free from the unpleasant effects of Quinine.

THE FERRUGINOUS QUINA-LAROCHE is the invigorating tonic *par excellence*, having the advantage of being easily assimilated by the gastric juice; without, in any way, deranging the action of the digestive organs, proving itself to be a most efficacious remedy in cases of impoverishment of the blood, ANÆMIA, CHLOROSIS, INTESTINAL HÆMORRHAGE, CASTRALGIA, EXHAUSTION, ETC., ETC.

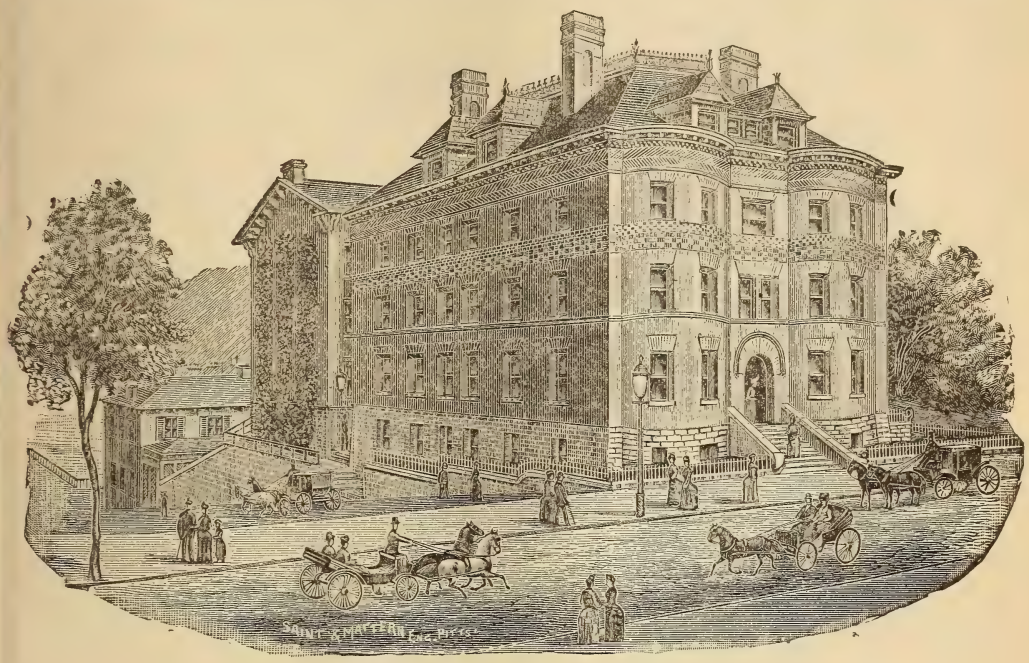
DR. R. S. SUTTON'S

Sanatorium for Diseases of Women.



Seventh Year Opens September 1, 1889.

ALLEGHENY CITY, PA.

This Institution is located on high ground, and overlooks the Allegheny, Monongahela and Ohio rivers; it commands a view of the city of Pittsburgh, and its picturesque surroundings. The building is large and beautiful, it is provided with every modern convenience, the halls are heated by steam, the rooms are commodious, well lighted and ventilated, and heated by open grates. The house is provided with a private parlor and reading-room for patients. The dining-room is large, handsomely finished, and furnished with small tables, securing privacy at meals for those who do not care to have meals served in their own rooms. Patients can be as secluded, should they desire it, as in a well appointed hotel. Each patient is examined by Dr. Sutton, and receives his daily personal attention, while Dr. J. H. Williamson, a physician of ample hospital experience, resides in the Institution, and has, under Dr. Sutton, the immediate care of the patients. The Institution accommodates 25 patients, and is equal in comfort to the best hotels.

Electricity, baths, douches, massage, local treatment, general medication and surgical operations are resorted to according to the requirements of each patient.

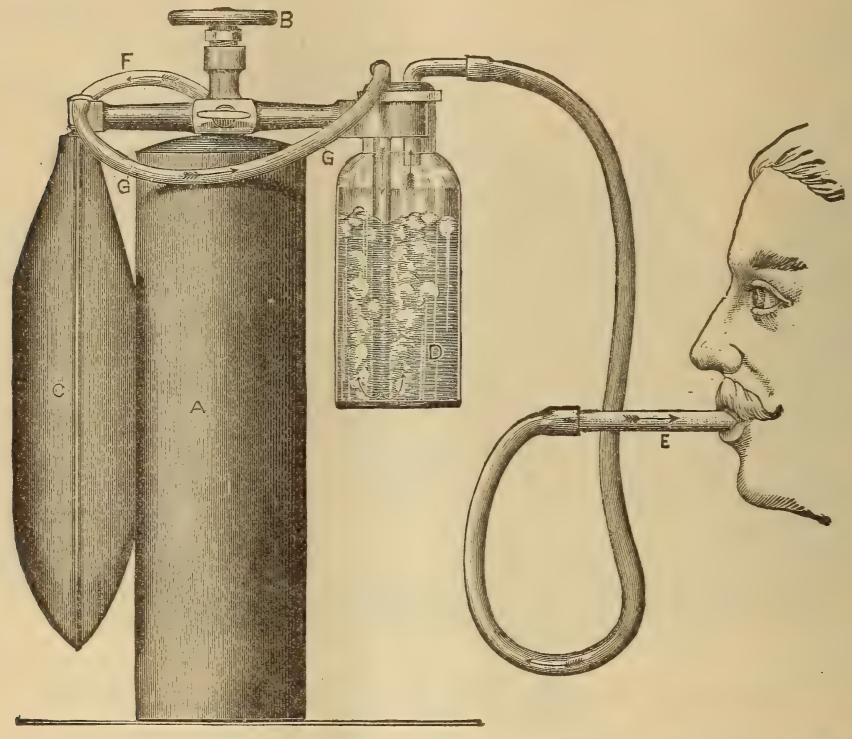
INHALATION APPARATUS

FOR

THE THERAPEUTIC ADMINISTRATION OF OXYGEN.



In the treatment of lung troubles by Oxygen its exhibition by inhalation is preferred. The apparatus herewith shown is a modification of the Nitrous Oxide apparatus which we have supplied for many years. It is made in the best manner throughout, and is the outcome of years of experience in the manufacture of gas apparatus. It will be found to meet all the requirements.

We supply the gas in two sizes of cylinders, containing respectively forty and one hundred gallons, either pure Oxygen, or a mixture of Oxygen and Nitrous Oxide in definite proportions of 20 per cent., and forty per cent. of Nitrous Oxide.

Whether pure or mixed the gas is sold at the uniform price of 5 cents a gallon. The cost of the cylinders will be refunded on their return empty with the valves in good condition. Full description of Inhalation and Enema apparatuses with directions for use accompany each apparatus, or will be supplied on application.

PRICES.

Inhalation Apparatus	$5.00
Cylinder, 40 gallons' capacity	6.00
40 gallons Gas, either pure Oxygen or mixed Oxygen and Nitrous Oxide	2.00
Complete Apparatus, Cylinder, and 40 gallons Gas	$13.00
Inhalation Apparatus	$5.00
Cylinder, 100 gallons' capacity	15.00
100 gallons Gas, either pure or mixed	5.00
Complete Apparatus, Cylinder, and 100 gallons Gas	$25.00

SPECIAL and RELIABLE FORMULÆ for PHYSICIANS' PRESCRIBING

The Coating will Dissolve in 4½ Minutes.

PIL. SUMBUL COMP.
(Wm. R. Warner & Co.)

(DR. GOODELL.)

℞—Ext. Sumbul.....1 gr. | Ferri Sulph. Ext.....1 gr.
Assafœtida.....2 gr. | Ac. Arsenious.....1-30 gr.

"I use this pill for nervous and hysterical women who need building up." This pill is used with advantage in neurasthenic conditions in connection with Warner & Co.'s Bromo-Soda, one or two pills taken three times a day.

PIL. LADY WEBSTER.
(Wm. R. Warner & Co.)

℞ Pulv. Aloes.....2 gr. | Pulv. Rose los.....½ gr.
" Mastic.....½ gr. | M. ft. one pill.

Lady Webster Dinner Pills. This is an excellent combination officially designated as Aloes and Mastich, U. S. P. We take very great pleasure in asking physicians to prescribe them more liberally, as they are very excellent as an aperient for persons of full habit or gouty tendency when given in doses of one pill after dinner.

PIL. ALOIN, BELLADONNA, AND STRYCHNINE.
(Wm. R. Warner & Co.)

℞—Aloin, 1-5 gr. Strychnine, 1-60 gr. Ext. Belladonna, ⅛ gr.

Medical Properties—Tonic, Laxative. Dose, 1 to 2 Pills.

Try this Pill in habitual constipation.

PIL. ARTHROSIA.
(Wm. R. Warner & Co.)

FOR CURE OF RHEUMATISM AND RHEUMATIC GOUT.

Formula.—Acidum Salicylicum; Resina Podophyllum; Quinia: Ext. Colchicum; Ext. Phytolacca; Capsicum.

Almost a specific in Rheumatic and Gouty Affections.

PIL. CHALYBEATE COMP.
(Wm. R. Warner & Co.)

Same as Pil. Chalybeate, with 1-6 gr. Ext. Nux Vomica added to each Pill to increase the tonic effect. Dose, 1 to 3 Pills.

PIL. DIGESTIVA.
(Wm. R. Warner & Co.)

A VALUABLE AID TO DIGESTION.

℞—Pepsin Conc't.....1 gr. | Gingerine.....1-16 gr.
Pv. Nux Vom.....¼ gr. | Sulphur.....⅛ gr.
IN EACH PILL.

This combination is very useful in relieving various forms of Dyspepsia and Indigestion, and will afford permanent benefit in cases of enfeebled digestion, where the gastric juices are not properly secreted.

As a dinner pill, Pil. Digestiva is unequalled, and may be taken in doses of a single pill either before or after eating.

Easton, Pa., May 8th 1893

Mr. W. Clark

Dear Sir.

The same obvious reasons that make you want your letter returned make it necessary for me to not write - You can call upon me if you desire. I will be in from two to four or if you prefer you can fix an other hour or even Glad Confidence begets confidence I return with this your letter which is of course proper Please destroy this also your coming often would excite no comment if you are a stranger you would be taken for an agent or as from ten to thirty

callers per day is a usual thing
no one notices unless they call with
ladies either younger or lower
By seeing me you can learn what
you want.

Yours
H. Jackenthal

P.S.

Please to remember you are
a perfect stranger to me - and
transient, I am permanent
H.J.

"THIS IS AN ACE OF APOLLINARIS WATER."
—WALTER BESANT.

Apollinaris

"THE QUEEN OF TABLE WATERS."

The filling at the Apollinaris Spring (Rhenish Prussia), amounted to

11,894,000 BOTTLES IN **1887,**
12,720,000 BOTTLES IN **1888** AND
15,822,000 BOTTLES IN **1889.**

"The annual consumption of this favorite beverage affords a striking proof of the widespread demand which exists for table water of absolute purity, and it is satisfactory to find that, wherever one travels, in either hemisphere, it is to be met with; it is ubiquitous, and should be known as the cosmopolitan table water. 'Quod ab omnibus, quod ubique.'"—BRITISH MEDICAL JOURNAL.

THE BEST NATURAL APERIENT.

THE APOLLINARIS COMPANY, LIMITED, London, beg to announce that, as numerous APERIENT WATERS are offered to the public under names of which the word "Hunyadi" forms part, they have now adopted an additional Label comprising their Registered Trade Mark of selection, which consists of

A RED DIAMOND.

This Label will henceforth also serve to distinguish the HUNGARIAN APERIENT WATER SOLD BY THE COMPANY from all other Aperient Waters.

DEMAND THE 
DIAMOND MARK.

And insist upon receiving the HUNGARIAN APERIENT WATER of the APOLLINARIS COMPANY, LIMITED, London.

BOUDAULT'S PEPSINE

The only Pepsine used in the Hospitals of Paris for the last Thirty Years.

Unlike the various substitutes which, in most cases, are but unscientific or incompatible compounds, forced upon the Medical Profession as aids to digestion by extensive advertising, but which, when submitted to the proper tests, are found to be useless as digestive agents, Pepsine is constantly gaining in the esteem of the careful practitioner.

Since the introduction of Pepsine by Boudault and Corvisart in 1854, the original BOUDAULT'S PEPSINE HAS BEEN AT ALL TIMES CONSIDERED THE BEST, as is attested by the awards it has received at the Expositions of 1867, 1868, 187 1873, in 1876 at the Centennial Exposition of Philadelphia, and in 1878 at the Paris Exposition.

The most reliable tests, carefully applied, will satisfy everyone that BOUDAULT'S PEPSINE HAS A MUCH HIGHER DIGESTIVE POWER than the best Pepsines now before the Profession, and is therefore especially worthy of their attention.

BOUDAULT'S PEPSINE is prepared in the form of Pepsine Acid and Pepsine Neutral. It is sold in bottles of one ounce, with a measure containing exactly five grains; also in bottles of four, eight, and sixteen ounces for dispensing.

BOUDAULT'S WINE OF PEPSINE

FORMULA OF DR. CORVISART.

The taste of Pepsine being perfectly disguised in this Wine, it may be recommended to persons who have difficulty in taking Pepsine in the form of Powder. This Wine is tested so that a tablespoonful of it is equal in digestive power to ten grains of Boudault's Pepsine in powder. Sold only in bottles of eight ounces.

TANRET'S PELLETIERINE

For the Treatment of Tape-Worm (Tænia Solium).

This New Tænifuge, the Active Alkaloid of Pomegranate Bark, has of late come into extensive use in France for the treatment of Tape-Worm (Tænia Solium). The results of numerous experiments with it at the Marine Hospitals of Toulon, St. Mandrier, etc., and in the Hospitals of Paris, St. Antoine, La Charité, Necker Beaujon, etc., have all been most satisfactory. Doctor Dujardin Beaumetz, Member of the Academy of Medicine, and Professor Laboulbene, in their report to the Society of Therapeutics, have given it their unqualified approval, after the most searching experiments. This preparation is pleasant to administer, and, if certain preliminaries are observed, success will be insured.

Sold only in bottles containing one dose.

DUCRO'S ALIMENTARY ELIXIR

A Combination uniting the properties of Alcoholic Stimulants and Raw Meat.

This preparation, which has been used with great success in the hospitals of Paris since 1868, is adapted to the treatment of all diseases requiring administration, in a small volume, of a tonic able to stimulate and support the vital forces, as *Pulmonar Phthisis, Depression and Nervous Debility, Adynamia, Malarious Cachexia, etc.*

Prepared by EMILE DURIEZ & CO., Successors to DUCRO & CIE, Paris.

KIRKWOOD'S INHALER

This is the only complete, reliable, and effective inhaler in use, arranged for the direct application of Muriate of Ammonia and other remedial agents in the state of vapor to the diseased parts of the air-passages in the treatment of catarrh and diseases of the throat and lungs. No heat or warm liquids required in its use.

It is entirely different from the various frail, cheap instruments that have been introduced.

KIRKWOOD'S INHALER is accompanied by testimonials of the highest professional character, together with carefully prepared formulas for use.

RETAIL PRICE, COMPLETE, $2.50.

☞ A liberal discount allowed to the trade and profession. For descriptive pamphlet or other information address

E. FOUGERA & CO., 30 North William St., New York.

Sole Agents for the above Preparations.

GOUDRON DE BLOUNT

PREPARED FROM THE GENUINE CAROLINA TAR.

DOSE.—One fluid drachm four or more times a day (as indicated), either full strength, diluted, or, in combination.

INDICATIONS.—Chronic and acute affections of the Air Passages, Coughs, Colds, Bronchitis, Asthma and Consumption.

WILLIAM MURRELL, M.D., F.R.C.P.,

Lecturer on Pharmacology and Therapeutics at the Westminster Hospital; Examiner in Materic Medica to the Royal College of Physicians of London; Fellow of the Medico-Chirurgical College of Philadelphia,

Says:—"I have used with success 'Goudron de Blount.' The results have been good, and the preparation is popular with patients."

ALETRIS CORDIAL

UTERINE TONIC AND RESTORATIVE.

Prepared from the Aletris Farinosa or True Unicorn and Aromatics.

INDICATIONS.

Amenorrhea, Dysmenorrhea, Leucorrhea, Prolapsus Uteri, Sterility, to Prevent Miscarriage, Etc.

DOSE:—ONE TEASPOONFUL THREE OR FOUR TIMES A DAY.

UNRIVALED AS A UTERINE TONIC IN IRREGULAR, PAINFUL, SUPPRESSED AND EXCESSIVE MENSTRUATION.

It Restores Normal Action to the Uterus, and Imparts Vigor to the Entire Uterine System.

☞Where women have miscarried during previous pregnancies, or in any case where miscarriage is feared, the ALETRIS CORDIAL is indicated, and should be continuously administered during entire gestation.

CHAS. CLAY, M. R. C. S., Manor House, Dewsbury, England, says:—I find Aletris Cordial (Rio) is of great service in threatened miscarriage.

FRANCIS E. CANE, L R. C. S., &c., Leeds, England, says:—I have tried the Aletris Cordial (Rio) in two cases of long standing dysmenorrhea, with excellent results. One of these patients has spent a week in bed every month for two years. After all the usual remedies, I put her on Aletris Cordial, and for the last two periods she has been out and about all the time.

L. M. WATSON, M. D., Delhi, Ills., says:—I have used Aletris Cordial (Rio) in cases of dysmenorrhea. suppressed menses and threatened miscarriage, and also, combined with Celerina, as a tonic after confinement, with the happiest results, and now I am using it on a case of leucorrhea, with injections of S. H. Kennedy's Extract of Pinus Canadensis, and it is acting like a charm.

P. H. OWEN, M. D., Morganville, Ala., says:—I have prescribed Aletris Cordial (Rio) in several cases with the most satisfactory results, and regard it as the best uterine tonic I have met with in a professional experience of over twenty-five years. In cases of threatened miscarriage it acts like a charm. Would recommend its continuous administration in all cases when there is any indication of miscarriage.

Dr. W. BERTHELOT, Santander, Spain, says:—I have tried the Aletris Cordial (Rio), and it has seemed to me to be useful, especially in cases of dysmenorrhea.

Dr. RASQUINET, Jupile, near Liege, Belgium, says:—I tried Aletris Cordial (Rio) in the case of a woman who had had several miscarriages at the end of five months, and who is now again pregnant, having reached the seventh month: thanks to Aletris Cordial.

R. REECE, M. R. C. S., Walton-on-Thames, England, says:—Aletris Cordial (Rio) in painful menstruation is most valuable. A wife of a minister suffered much, and had had three miscarriages. I prescribed Aletris Cordial. She has for the first time, gone her full time, and was safely confined with a male child.

J. T. COLLIER, M. D., Brooks, Me., says:—I have used your Aletris Cordial (Rio) in cases of females at the menopause. Consider it one of the finest remedies for these cases.

Dr. GORDILLON, St. Amand, France, says: I have tried the Aletris Cordial (Rio) in a case of dysmenorrhea. The result I obtained from the use of your preparation was excellent, better than I had obtained in the same patient by prescribing the usual remedies employed in such cases.

W. F. TOOMBS, M. D., Morrillton, Ark., says:—I have used a great deal of your Aletris Cordial (Rio) and I find it all you claim for it in amenorrhea, dysmenorrhea, metritis, leucorrhea; I don't think it has an equal. I have used it in two cases of threatened miscarriage and the trouble was obviated. For a general Uterine Tonic I know of nothing superior.

R. D. PATTERSON, L. R. C. S. &c., Medical Officer, Caledon Dispensary, Co. Tyrone, Ireland, says:—I have very great pleasure in testifying to the very high opinion I hold of Aletris Cordial (Rio) in threatened miscarriage.

DETROIT COLLEGE OF MEDICINE.
SESSION 1889-90.

Clinical and Practical teaching are made an important feature of this College. Clinical instruction is given daily at HARPER, ST. MARY'S and ST. LUKE'S HOSPITAL, at the COLLEGE, at COLLEGE EYE and EAR INFIRMARY, ST. MARY'S FREE EYE and EAR INFIRMARY, and at the three FREE DISPENSARIES. The facilities offered by this college are unsurpassed for the practical study of MEDICINE, SURGERY, OBSTETRICS, GYNÆCOLOGY, DISEASES OF CHILDREN, GENITO-URINARY, and ORTHOPÆDIC SURGERY, OPHTHALMOLOGY and OTOLOGY, DERMATOLOGY and LARYNGOLOGY.

REGULAR SESSION opens on Wednesday, Sept. 25, and continues six months. During the session, the Professors will take special pains to examine the Students upon the subjects of the previous lectures.

SPRING SESSION begins April 2d, 1890; and closes June 11th.

FEES.—Matriculation fee, $5; Fees for Regular Session, $50; Spring Session, $10, to those who attend the regular term—to all others, $25; Hospital Fee, $10; Graduation Fee, $30; Perpetual Ticket, $100.

For further particulars, and for College Circular, apply to

MEDICO-CHIRURGICAL COLLEGE

OF PHILADELPHIA.

WINTER SESSION will begin Wednesday, October 1st, and continue until April 16th. PRELIMINARY SESSION begins September 8th. SPRING TERM, April 20th, 1891.

The curriculum is graded, and a preliminary examination and three Annual Winter Sessions are required. Laboratory instruction in Chemistry, Histology, Pathology, Hygiene, Physiology, with Bedside instruction in Medicine, Surgery and Gynecology, is a part of the regular course.

Fees: Matriculation $5.00. First and second years, each $75.00. Third year $100.00. Fourth year free to those in attendance three sessions; to all others $100.00.

For Announcement or information apply to

E. E. MONTGOMERY, M. D.,

1818 Arch Street, Philadelphia, Pa.

WESTERN PENNSYLVANIA MEDICAL COLLEGE

CITY OF PITTSBURGH.

SESSIONS OF 1889—90.

The REGULAR SESSION begins on the last Tuesday of September, and continues six months. During this session, in addition to four Didactic Lectures, two or three hours are daily allotted to Clinical Instruction. Attendance upon two regular courses of lectures is requisite for graduation. A three years' graded course is also provided. The SPRING SESSION embraces recitations, clinical lectures and exercises, and didactic lectures on special subjects; this session begins the second Tuesday in April, and continues ten weeks.

The laboratories are open during the collegiate year for instruction in chemistry, microscopy, practical demonstrations in medical and surgical pathology, and lessons in normal histology. Special importance attaches to "the superior clinical advantages possessed by this College." For particulars, see annual announcement and catalogue, for which, address the Secretary of Faculty, Prof. J. W. J. MCKENNAN.

Business correspondence should be addressed to

We claim for our Hypodermic Tablets:

Absolute Accuracy of Dose.

Ready and Entire Solubility.

Perfect Preservation of the Drug.

Their convenience and utility will at once be apparent on examination.

They are put up in Cylindrical Tubes, convenient for carrying in Hypodermic or Pocket case, ten tubes in a box, with twenty tablets in each tube.

NOTE.—It will only be necessary in ordering to specify the numbers, as above. Wyeth's Manufacture. These Tablets will be sent by mail, on receipt of the proper amount.

PHILADELPHIA, PA.

Doctor:

We wish to speak to you of one indication for the use of the Hypophosphites of Lime and Soda, which is most often overlooked.

There is a certain perversion of the process of nutrition, characterized by a hyperplasia of certain tissues, causing a pathological growth of those tissues.

Such an example is seen in Fibroid Tumors.

A careful histo-chemical examination of these cases shows that there is always a lack of the proper proportion of these important tissue salts.

Chemical experience demonstrates that their introduction, chemically pure, in a finely divided form, rapidly checks the pathological process.

These valuable salts will be found to control most other perversions of nutrition, as Consumption of the Lungs, Tabes Mesenterica, Chronic Inflammation of the respiratory passages, Scrofula and all its manifestations, Degenerations of the Nervous System, Muscular Atrophy, etc.

The one great desideratum is to obtain these inorganic salts in their absolute chemical purity, and in a pleasant and convenient vehicle. These requirements are all met in McArthur's Syrup, consisting of the pure Hypophosphites of Lime and Soda, especially prepared and thoroughly dissolved.

There are no other medicinal agents in the preparation, as will be found in others making similar claims, as these two salts form a distinct therapeutic unit, all the irritating stimulants being foreign to it.

If special cases temporarily require other medication, you can add the required ingredients to the Syrup in your prescription.

Write your prescription thus:

Syr. Hypophos. Comp., C. P., McArthur.

If you are interested we will send you, free, our valuable treatise, "The Curability and Treatment of Consumption;" also a large bottle of the Syrup, if you will pay express charges.

McARTHUR HYPOPHOSPHITE CO.,
BOSTON, MASS.

PHENACETINE-BAYER.

In therapeutic action it is like all the analgesic antithermics, it has a double action—it lowers temperature and soothes pain. The lowering of the temperature is noticeable in cases of pyrexia. In fevers, 7½ grains of Phenacetine lowers the temperature by 1.8° to 3.4° F., and the antithermic action following such a dose lasts four hours. In certain cases the apyrexial period is more prolonged even from the same dose. Phenacetine is thought by some to be superior to antipyrin and acetanilid in producing marked antithermic effects without toxic phenomena. But it is above all as an analgesic that Phenacetine outrivals its predecessor. While it is as powerful, it does not produce pain in the stomach or the scarlatinaform rash of the antipyrin, nor does it give rise to the cyanosis of the acetanilid. However prolonged may be its administration, no bad effect has ever been seen from its use. It has been used for the relief of every form of pain, even for the lightning pain of tabes, with the best results. This double action, as an antithermic and as an analgesic, results from an effect produced upon the spinal cord; and the Phenacetine may be considered a depressor of the excitability of the medulla. The digestive, respiratory, and circulatory systems are not at at all affected by Phenacetine. It is inodorous, it is tasteless, and it is innocuous. [From a paper presented to the Central Kentucky Medical Association, by Steele Bailey, M. D., New England Medical Monthly, March, 1890.]

Phenacetine-Bayer, prepared by the Farbenfabriken, formerly Friedr. Bayer & Co., Elberfeld, is supplied by us in ounces and also in the form of our soluble pills and compressed tablets, containing two, four and five grains each. Either form may be obtained of any reputable apothecary.

ARISTOL.

Aristol, a combination of iodine and thymol, manufactured by the Farbenfabriken, formerly Fredr. Bayer & Co., Elberfeld, Germany, is a valuable, inodorous and non-toxic antiseptic remedy, said to be superior to Iodoform, Iodol and Sozo-Iodol.

For further information regarding this new remedy we would refer to the notes we have published, which we will be pleased to mail to applicants.

SULFONAL-BAYER.

Wm. H. Thomson, M. D., LL. D., in speaking of Sulfonal, says:—"Sulfonal is a pure hypnotic, neither anæsthetic nor depressing in character, and it does not affect the heart or circulation, and the sleep it produces is perfect. Being quite insoluble, it requires about three hours to become thoroughly dissolved in the stomach, and should be given about two hours before bed-time. As it is not affected by the digestive secretions, it may be given shortly after the evening meal.

"Sulfonal is of great value in the insomnia of the insane, and the dose should be repeated once during the night if the sleep is too short. **It is specially recommended in cases of nervous insomnia,** also in the sleeplessness of delirium tremens. In the latter case, gr. xx. should be administered every two hours until grs. lx or lxxx have been taken, but it should be remembered that every case of delirium tremens is also a case or starvation, and to produce sleep the patient must be fed. Dose as a hypnotic, gr. xv-xx." [From Notes, Materia Medica, and Therapeutics. Lectures delivered by Prof. Wm. H. Thomson, M. D., LL.D. Edited by Wm. H. McEnroe, M. D.]

Sulfonal-Bayer, prepared by the Farbenfabriken, formerly Fredr. Bayer & Co., Elberfeld, is supplied by us in ounces and in the form of Tablets of 5, 10 and 15 grains, put up in bottles of 10 and 100 tablets each.

We also offer Sulfonal-Bayer in the form of our soluble pills, containing 5 grains each.

W. H. Schieffelin & Co.,

170 & 172 William Street,

NEW YORK.

ESTABLISHED 1855.

DRS. STRONG'S SANITARIUM,

SARATOGA SPRINGS, NEW YORK,

Receives persons recommended to it by their home physicians for Treatment, Change, Rest or Recreation, and places them under well-regulated hygienic conditions so helpful in the treatment of chronic invalids or the overtaxed.

For Treatment: In addition to the ordinary remedial agents, it employs Turkish, Russian, Roman, Sulphur, Electro-Thermal, the French Douche (Charcot's), and all Hydropathic Baths; Vacuum Treatment, Swedish Movements Massage, Pneumatic Cabinet, Inhalations of Medicated, Compressed, and Rarefied Air, Electricity in various forms, Thermo-Cautery, Calisthenics, and Saratoga Waters, under the direction of a staff of educated physicians.

For Change: This Institution is located in a phenomenally dry, tonic, and quiet atmosphere, in the lower arc of the Adirondack Zone, and within the "Snow Belt."

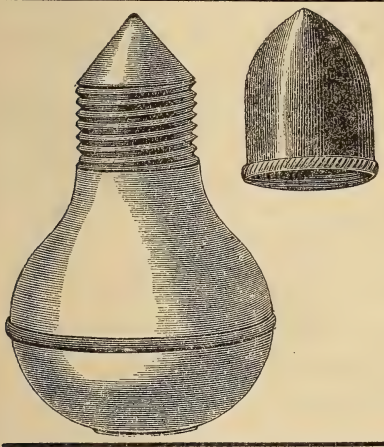
For Rest: The Institution offers a well-regulated, quiet home, heated by steam and thoroughly ventilated, with cheering influences and avoiding the depressing atmosphere of invalidism.

For Recreation: To prevent introspection, are household sports at all seasons of the year, and in Winter, tobogganning, elegant sleighing etc.; in Summer, croquet, lawn-tennis, etc.

Private professional references furnished upon application. Physicians are invited to inspect the Institution at their convenience. A liberal discount to physicians and their families.

For further information, address,

DRS. S. S. & S. E. STRONG.



THE P.P.P. SYRINGE

Is universally considered the most perfect urethral Syringe in the market, because it combines within itself all desirable qualities. It measures but 1½ x 2¾ inches, has a capacity of fully half an ounce, and is made of one piece of soft rubber with conical point. To protect this soft point and to prevent pocket dust from getting into the Syringe, a Hard Rubber cap screws air-tight over it and enables the patient to carry it in his pocket filled with the injection ordered, ready for use when away from home.

For sale by all druggists.

THE GOODYEAR RUBBER CO.,

49 MAIDEN LANE, NEW YORK.

A Phosphorized Cerebro-Spinant

(FRELIGH'S TONIC).

FORMULA.

Ten minims of the Tonic contain the equivalents (according to the formulæ of the U. S. P., and Dispensatory) of

Tinct. Nux Strychnos,	1 minim.
" Ignatia Amara,	1 "
" Cinchona,	4 "
" Matricaria,	1 "
" Gentian,	½ "
" Columbo,	½ "
" Phosphorus, C. P.,	1-300 gr.
Aromatics,	2 minims.

Dose: 5 to 10 drops in 2 tablespoonfuls of water.

INDICATIONS.

Paralysis, Neurasthenia, Sick and Nervous Headache, Dyspepsia, Epilepsy, Locomotor Ataxia, Insomnia, Debility of Old Age, and in the Treatment of Mental and Nervous Diseases.

A BALTIMORE PHYSICIAN, WHOSE DIPLOMA DATES FROM 1825, SAYS:

"Your combination I find vastly more effective than any tonic I have ever used. It furnishes a most powerful evidence of the vastly increased power of medicament by combination and judicious pharmaceutic preparation."

Price, One Dollar per Bottle, containing 100 of the Average 5-Drop Doses.—Physicians' single sample delivered, charges prepaid, on application. That every physician may be his own judge of its value, irrespective of the opinions of others, we make the following

SPECIAL OFFER:

We will send to any physician, delivered, charges prepaid, on receipt of twenty-five cents, and his card or letter-head, half a dozen physicians' samples, sufficient to test it on as many cases for a week to ten days each. The Tonic is kept in stock regularly by all the leading wholesale druggists of the country. As we furnish no samples through the trade, wholesale or retail, for samples, directions, price-lists, etc., address,

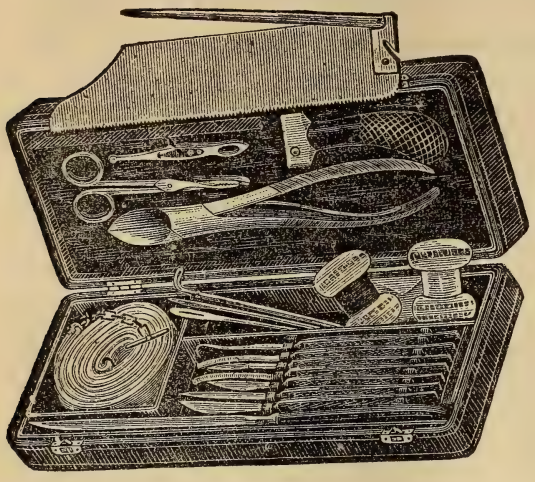
Manufacturers of Physicians' Specialties,

No. 88 Maiden Lane, New York City.

LENTZ'S ASEPTIC COMPACT OPERATING SET, No. 10.



We have from time to time made improvements to this set and are now making a perfect aseptic set, which offers especial facilities for aseptic precautions; the blades are soldered into hollow German-silver handles, nickel-plated, are light so as not to be unwieldy and admit of a firm grasp when operating.

The saw is adjusted to the handle on an entirely new principle, being made to separate easily and to facilitate thorough cleansing.

The handle is entirely of metal and fenestrated to overcome unnecessary weight.

Scissors and Forceps having French locks can be separated, and the slide can be easily removed from Artery and Needle Forceps.

Therefore, no opportunity is offered for the lodgment and development of germs.

The entire set is patterned with especial reference to facility in cleansing.

The instruments can be sterilized by placing them in boiling water, without fear of damaging them. Wood or rubber handles will not admit of this procedure. For price, see case A.

The following instruments are put up in either a fine Mahogany or Morocco case, with nickel trimmings, lined with velvet, and has an extra space for Trephine with handle, and Elevator if desired.

One Amputating Knife (6 in. blade); One Finger Knife; One Hernia Knife; One Sharp Curved Bistoury; Two Scalpels; One Tenotome; One Tenaculum; One Pair Scissors, curved or flat; One Saw (9 in. blade); One Liston's Bone Forceps, with Spring; One Artery and Needle Forceps, improved; One Esmarch's Flat Rubber Tourniquet, with Chain; One Hæmostatic Forceps; One Director, with Aneurism Needle; Two Silver Probes; Silk, Wire, Wax and Needles.

With the Sixteen Instruments Contained in this Case, any Ordinary Operation may be Performed.

SIZE, 11 INCHES LONG, 4 INCHES WIDE, 2 INCHES HIGH.

GRAND NATIONAL PRIZE OF 16,600 FRANCS,

QUINA-LAROCHE

This meritorious **Elixir, QUINA-LAROCHE,** is prepared from the three Cinchonas; it is an agreeable and doubtless highly efficacious remedy.

—*The Lancet.*

VINOUS ELIXIR,

A STIMULATING RESTORATIVE

—AND—

ANTI-FEBRILE TONIC.

QUINA-LAROCHE under the form of a vinous **Elixir** contains the totality of the numerous principles of the three Cinchona barks. It is a preparation which renders great services to Therapeutics.—Extract of the *Gazette des Hôpitaux*, Paris.

FAR SUPERIOR TO ALL ORDINARY CINCHONA WINES.

LAROCHE'S QUINA, tried by the Academy of Medicine of Paris, is a specially prepared COMPOUND EXTRACT of Quinquina, a careful analysis, confirmed by experience, has shown that most of the wines and syrups hitherto used have not contained all the properties of this precious bark, of these some, although beneficial, are altogether lost, while many preparations contain but half the properties of the bark in varying proportions.

MR. LAROCHE, by his peculiar method, has succeeded in extracting all the active principles of the quinquina, combining these with *Catalan Wine* forming an Elixir free from the disagreeable bitterness of other similar preparations. Practitioners have found triple advantages in the use of this Elixir, it is a *strong tonic*, is easily administered, and perfectly harmless, being free from the unpleasant effects of Quinine.

THE FERRUGINOUS QUINA-LAROCHE is the invigorating *tonic par excellence*, having the advantage of being easily assimilated by the gastric juice; without, in any way, deranging the action of the digestive organs, proving itself to be a most efficacious remedy in cases of impoverishment of the blood, ANÆMIA, CHLOROSIS, INTESTINAL HÆMORRHAGE, CASTRALGIA, EXHAUSTION, ETC., ETC.

PARIS.—22 RUE DROUOT.—PARIS.

BROMIDIA

THE HYPNOTIC.

FORMULA.—

Every fluid drachm contains 15 grains EACH of Pure Chloral Hydrat. and purified Brom. Pot., and one-eighth grain EACH of gen. imp. ext. Cannabis Ind. and Hyoscyam.

DOSE.—

One-half to one fluid drachm in WATER or SYRUP every hour, until sleep is produced.

INDICATIONS.—

Sleeplessness, Nervousness, Neuralgia, Headache, Convulsions, Colic, Mania, Epilepsy, Irritability, etc. In the restlessness and delirium of fevers it is absolutely invaluable.

IT DOES NOT LOCK UP THE SECRETIONS.

PAPINE

THE ANODYNE.

Papine is the Anodyne or pain-relieving principle of Opium, the Narcotic and Convulsive Elements being eliminated. It has less tendency to cause Nausea, Vomiting, Constipation, Etc.

INDICATIONS.—

Same as Opium or Morphia.

DOSE.—

(ONE FLUID DRACHM)—represents the Anodyne principle of one-eighth grain of Morphia.

IODIA

The Alterative and Uterine Tonic.

FORMULA.—

Iodia is a combination of active principles obtained from the Green Roots of Stillingia, Helonias, Saxifraga, Menispermum, and Aromatics. Each fluid drachm also contains five grains Iod. Potas., and three grains Phos. Iron.

DOSE.—

One or two fluid drachms (more or less as indicated) three times a day before meals.

INDICATIONS.—

Syphilitic, Scrofulous and Cutaneous Diseases, Dysmenorrhea, Menorrhagia, Leucorrhea, Amenorrhea, Impaired Vitality, Habitual Abortions, and General Uterine Debility.

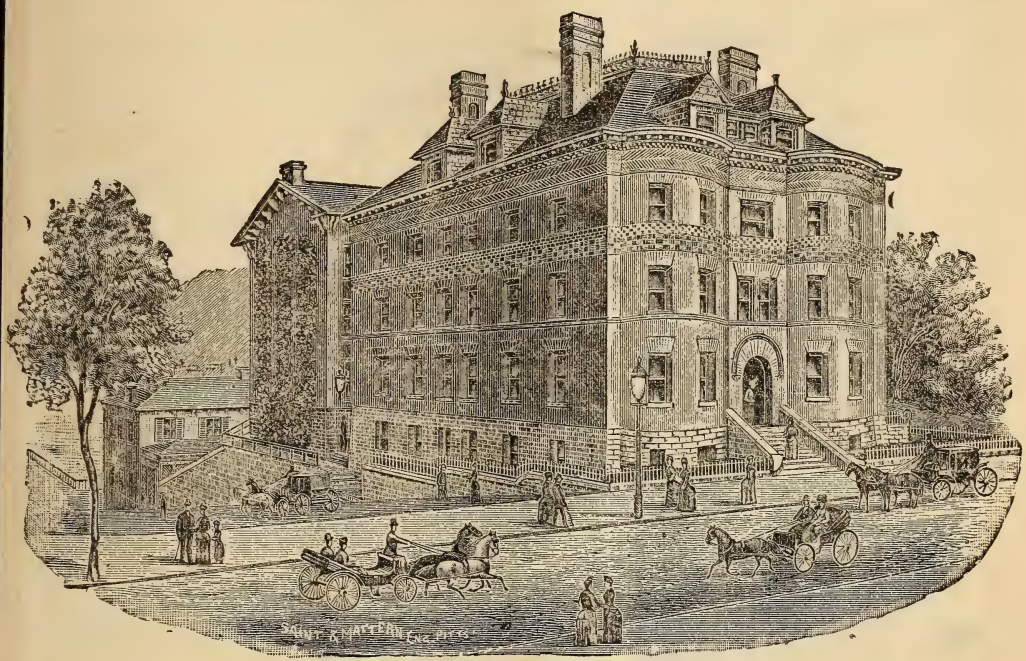
DR. R. S. SUTTON'S

Sanatorium for Diseases of Women.



Seventh Year Opens September 1, 1889.

ALLEGHENY CITY, PA.

This Institution is located on high ground, and overlooks the Allegheny, Monongahela and Ohio rivers; it commands a view of the city of Pittsburgh, and its picturesque surroundings. The building is large and beautiful, it is provided with every modern convenience, the halls are heated by steam, the rooms are commodious, well lighted and ventilated, and heated by open grates. The house is provided with a private parlor and reading-room for patients. The dining-room is large, handsomely finished, and furnished with small tables, securing privacy at meals for those who do not care to have meals served in their own rooms. Patients can be as secluded, should they desire it, as in a well appointed hotel. Each patient is examined by Dr. Sutton, and receives his daily personal attention, while Dr. J. H. Williamson, a physician of ample hospital experience, resides in the Institution, and has, under Dr. Sutton, the immediate care of the patients. The Institution accommodates 25 patients, and is equal in comfort to the best hotels.

Electricity, baths, douches, massage, local treatment, general medication and surgical operations are resorted to according to the requirements of each patient.

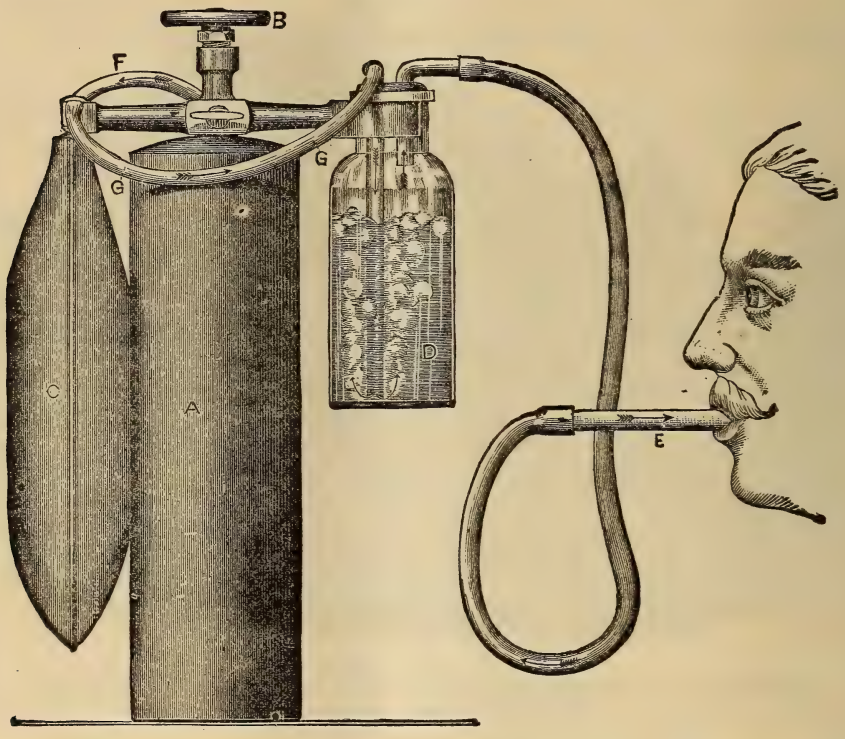
INHALATION APPARATUS

FOR

THE THERAPEUTIC ADMINISTRATION OF OXYGEN.



In the treatment of lung troubles by Oxygen its exhibition by inhalation is preferred. The apparatus herewith shown is a modification of the Nitrous Oxide apparatus which we have supplied for many years. It is made in the best manner throughout, and is the outcome of years of experience in the manufacture of gas apparatus. It will be found to meet all the requirements.

We supply the gas in two sizes of cylinders, containing respectively forty and one hundred gallons, either pure Oxygen, or a mixture of Oxygen and Nitrous Oxide in definite proportions of 20 per cent., and forty per cent. of Nitrous Oxide.

Whether pure or mixed the gas is sold at the uniform price of 5 cents a gallon. The cost of the cylinders will be refunded on their return empty with the valves in good condition. Full description of Inhalation and Enema apparatuses with directions for use accompany each apparatus, or will be supplied on application.

PRICES.

Inhalation Apparatus	$5.00
Cylinder, 40 gallons' capacity	6.00
40 gallons Gas, either pure Oxygen or mixed Oxygen and Nitrous Oxide	2.00
Complete Apparatus, Cylinder, and 40 gallons Gas	$13.00
Inhalation Apparatus	$5.00
Cylinder, 100 gallons' capacity	15.00
100 gallons Gas, either pure or mixed	5.00
Complete Apparatus, Cylinder, and 100 gallons Gas	$25.00

To PHYSICIANS.

THE FOREMOST COCOA OF EUROPE
THE COMING ONE OF AMERICA.

VAN HOUTEN'S
"Best and Goes Farthest."

Physicians will do well in recommending, as their European colleagues do, VAN HOUTEN'S COCOA for daily family use. Now that the profession is deprecating the habitual use of alcoholic liquors, and as even tea and coffee are found too exciting for many temperaments—to say nothing of the growing number of cases of nervous disorder in this age of hot haste and feverish anxiety—the question of what beverage may be recommended, as at once refreshing and innocuous, is assuming the highest importance.

VAN HOUTEN'S
Most Appetizing. Easily Digested.

Cocoa has long been known as a useful article of diet, and its claims are steadily winning recognition. Unlike tea or coffee, it is not only a stimulant but a nourisher; and it has the great advantage of leaving none of their narcotic effects on the system. For this reason it is adapted to general use. The strong may take it with pleasure, and the weak with impunity.

VAN HOUTEN'S
The Original—Most Soluble.

"Pure soluble cocoa" is an invention of Mr C. J. Van Houten, who patented this invention in Holland. Thus all other "pure soluble cocoas" are imitations. The process of manufacturing Van Houten's cocoa is still, to-day, a secret of C. J. Van Houten & Zoon. Chemists and medical men of the highest standing say, universally, that their observation shows that the Van Houtens do exactly what science would suggest for the conversion of raw cocoa into a satisfactory article of food. They simply remove some of the originally contained fat, which is apt to disagree with the system, and in some ingenious manner, increase the solubility of flesh-forming constituents.

VAN HOUTEN'S
"Once Tried, Always Used."

To remove excess of fat is always desirable. Some manufacturers do this by largely diluting the ground cocoa with starch. A cupful of thick beverage may thus be made, which no doubt contains a diminished amount of fat, but of course also contains a diminished amount of every other constituent of the cocoa. For persons who desire a thick, starch-like beverage, such a mixture, miscalled "soluble" cocoa, may be unobjectionable, though the cocoa in it is less easy of digestion than Van Houten's preparation. A far better method, however, is to extract, as the Van Houtens do, one part of the fat from four of cocoa, and, as a consequence, render each of the valuable constituents remaining, one-third more effective than before. Instead of being weakened by starch, Van Houten's cocoa is thus made one-third stronger in every one of its valuable properties.

VAN HOUTEN'S
"Largest Sale in the World."

Requires No Cooking.

Liebig demonstrated that the best substitute for normal human milk was not the milk of any animal, but a combination of animal milk with the elements of those grains which are used in repairing waste, building tissues, and generating heat.

Mellin's Food

Dissolved in hot water and milk, according to the directions, is the genuine Liebig's Food, and promotes in infants a healthy growth, a full development, and a vigorous constitution. *It requires no cooking.*

DOLIBER-GOODALE CO., BOSTON, MASS.

"THIS IS AN AGE OF APOLLINARIS WATER."
—WALTER BESANT.

Apollinaris

"THE QUEEN OF TABLE WATERS."

The filling at the Apollinaris Spring (Rhenish Prussia), amounted to

11,894,000 BOTTLES IN **1887,**
12,720,000 BOTTLES IN **1888** AND
15,822,000 BOTTLES IN **1889.**

"The annual consumption of this favorite beverage affords a striking proof of the widespread demand which exists for table water of absolute purity, and it is satisfactory to find that, wherever one travels, in either hemisphere, it is to be met with; it is ubiquitous, and should be known as the cosmopolitan table water. 'Quod ab omnibus, quod ubique.'"—BRITISH MEDICAL JOURNAL.

THE BEST NATURAL APERIENT.

THE APOLLINARIS COMPANY, LIMITED, London, beg to announce that, as numerous APERIENT WATERS are offered to the public under names of which the word "Hunyadi" forms part, they have now adopted an additional Label comprising their Registered Trade Mark of selection, which consists of

A RED DIAMOND.

This Label will henceforth also serve to distinguish the HUNGARIAN APERIENT WATER SOLD BY THE COMPANY from all other Aperient Waters.

DEMAND THE 
DIAMOND MARK.

And insist upon receiving the HUNGARIAN APERIENT WATER of the APOLLINARIS COMPANY, LIMITED, London.

BOUDAULT'S PEPSINE

The only Pepsine used in the Hospitals of Paris for the last Thirty Years.

Unlike the various substitutes which, in most cases, are but unscientific or incompatible compounds, forced upon the Medical Profession as aids to digestion by extensive advertising, but which, when submitted to the proper tests, are found to be useless as digestive agents, Pepsine is constantly gaining in the esteem of the careful practitioner.

Since the introduction of Pepsine by Boudault and Corvisart in 1854, the original BOUDAULT'S PEPSINE HAS BEEN AT ALL TIMES CONSIDERED THE BEST, as is attested by the awards it has received at the Expositions of 1867, 1868, 187 1873, in 1876 at the Centennial Exposition of Philadelphia, and in 1878 at the Paris Exposition.

The most reliable tests, carefully applied, will satisfy everyone that BOUDAULT'S PEPSINE HAS A MUCH HIGHER DIGESTIVE POWER than the best Pepsines now before the Profession, and is therefore especially worthy of their attention.

BOUDAULT'S PEPSINE is prepared in the form of Pepsine Acid and Pepsine Neutral. It is sold in bottles of one ounce, with a measure containing exactly five grains; also in bottles of four, eight, and sixteen ounces for dispensing.

BOUDAULT'S WINE OF PEPSINE

FORMULA OF DR. CORVISART.

The taste of Pepsine being perfectly disguised in this Wine, it may be recommended to persons who have difficulty in taking Pepsine in the form of Powder. This Wine is tested so that a tablespoonful of it is equal in digestive power to ten grains of Boudault's Pepsine in powder. Sold only in bottles of eight ounces.

TANRET'S PELLETIERINE

For the Treatment of Tape-Worm (Tænia Solium).

This New Tænifuge, the Active Alkaloid of Pomegranate Bark, has of late come into extensive use in France for the treatment of Tape-Worm (Tænia Solium). The results of numerous experiments with it at the Marine Hospitals of Toulon, St. Mandrier, etc., and in the Hospitals of Paris, St. Antoine, La Charité, Necker Beaujon, etc., have all been most satisfactory. Doctor Dujardin Beaumetz, Member of the Academy of Medicine, and Professor Laboulbene, in their report to the Society of Therapeutics, have given it their unqualified approval, after the most searching experiments. This preparation is pleasant to administer, and, if certain preliminaries are observed, success will be insured.

Sold only in bottles containing one dose.

DUCRO'S ALIMENTARY ELIXIR

A Combination uniting the properties of Alcoholic Stimulants and Raw Meat.

This preparation, which has been used with great success in the hospitals of Paris since 1868, is adapted to the treatment of all diseases requiring administration, in a small volume, of a tonic able to stimulate and support the vital forces, as *Pulmonar Phthisis, Depression and Nervous Debility, Adynamia, Malarious Cachexia, etc.*

Prepared by EMILE DURIEZ & CO., Successors to DUCRO & CIE, Paris.

KIRKWOOD'S INHALER

This is the only complete, reliable, and effective inhaler in use, arranged for the direct application of Muriate of Ammonia and other remedial agents in the state of vapor to the diseased parts of the air-passages in the treatment of catarrh and diseases of the throat and lungs. No heat or warm liquids required in its use.

It is entirely different from the various frail, cheap instruments that have been introduced.

KIRKWOOD'S INHALER is accompanied by testimonials of the highest professional character, together with carefully prepared formulas for use.

RETAIL PRICE, COMPLETE, $2.50.

☞ A liberal discount allowed to the trade and profession. For descriptive pamphlet or other information address

E. FOUGERA & CO., 30 North William St., New York.

Sole Agents for the above Preparations.

GARDNER'S

SYRUP OF HYDRIODIC ACID,

Introduced in 1878 by R. W. GARDNER.

The Reputation which Hydriodic Acid has Attained During the past Eleven Years was Won by this Preparation.

Numerous Imitations prepared differently, and weaker in Iodine, are offered, from the use of which the same therapeutic effects cannot be obtained.

Caution.—Use no Syrup of Hydriodic Acid which has turned red. This shows decomposition and free Iodine. In this state it acts as an irritant and fails to produce desirable results.

Unprincipled apothecaries substitute imitations when Gardner's Syrup is prescribed, and physicians, failing to get desirable and promised results, attribute the fault, unjustly, to Gardner's Syrup.

THERAPEUTIC INDICATIONS.

Hay Fever; Rose Cold; Poisoning by Lead, Mercury or Arsenic; Acute and Chronic Rheumatism; Asthma; Chronic Bronchitis; Catarrh; Congestion of Lungs in Children; Adenitis; Eczema; Lupus; Chronic Malarial Poisoning; Lumbago; Acute Pneumonia; Psoriasis; Scrofulous Diseases; Goitre; Enlarged Glands; Cold Abscesses; Indolent Sores; Excessive Fat; Fatty Degeneration of the Heart; to absorb non-malignant Tumors; and in the latter stages of Syphilis; Syphilitic Phthisis.

Details of treatment furnished physicians upon application to undersigned without charge.

Gardner's Chemically Pure Syrups of Hypophosphites.

Embracing the separate Syrups of Lime, of Soda, of Iron, of Potassa, of Manganese, and an Elixir of the Quinia Salt; enabling physicians to accurately follow Dr. Churchill's method, by which thousands of authenticated cases of Phthisis have been cured. The only salts, however, used by Churchill in Phthisis are those of Lime, of Soda, and of Quinia, and always separately according to indications,—never combined.

The reason for the use of single Salts is because of antagonistic action of the different bases, injurious and pathological action of Iron, Potassa, Manganese, etc., in this disease.

These facts have been demonstrated by thirty years' clinical experience in the treatment of this disease exclusively, by Dr. Churchill, who was the first to apply these remedies in Medical practice. Modified doses are also required in this disease; seven grains during twenty-four hours being the maximum dose in cases of Phthisis, because of increased susceptibility of the patient to their action, the danger of producing toxic symptoms (as hemorrhage, rapid softening of tubercular deposit, etc.), and the necessity that time be allowed the various functions to recuperate simultaneously; over-stimulation, by pushing the remedy, resulting in crisis and disaster.

A pamphlet of sixty-four pages, devoted to a full explanation of these details and others, such as contra-indicated remedies, indications for the use of each hypophosphite, reasons for the use of absolutely pure Salts, protected in Syrup from oxidation, etc., mailed to physicians without charge upon application to

R. W. GARDNER, 158 William St., N. Y. City.

W. H. SCHIEFFELIN & CO., Sole Wholesale Agents, New York.

PARTURITION.

Aletris Cordial (Rio), given in Teaspoonful doses every hour or two AFTER PARTURITION, is the best agent to prevent after-pains and hemorrhage. By its DIRECT tonic action on the uterus, it expels blood clots, closes the uterine sinuses, causes the womb to contract, and prevents subinvolution. In severe cases, it can be combined with ergot in the proportion of one ounce of fluid Ext. Ergot to three ounces Aletris Cordial. It is the experience of eminent practitioners, in all cases where ergot is indicated, that its action is rendered much more efficacious by combining it with Aletris Cordial in the proportions above stated.

DETROIT COLLEGE OF MEDICINE.
SESSION 1889-90.

Clinical and Practical teaching are made an important feature of this College. Clinical instruction is given daily at HARPER, ST. MARY'S and ST. LUKE'S HOSPITAL, at the COLLEGE, at COLLEGE EYE and EAR INFIRMARY, ST. MARY'S FREE EYE and EAR INFIRMARY, and at the three FREE DISPENSARIES. The facilities offered by this college are unsurpassed for the practical study of MEDICINE, SURGERY, OBSTETRICS, GYNÆCOLOGY, DISEASES OF CHILDREN, GENITO-URINARY, and ORTHOPÆDIC SURGERY, OPHTHALMOLOGY and OTOLOGY, DERMATOLOGY and LARYNGOLOGY.

REGULAR SESSION opens on Wednesday, Sept. 25, and continues six months. During the session, the Professors will take special pains to examine the Students upon the subjects of the previous lectures.

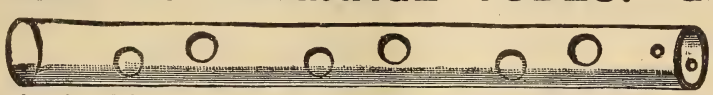
SPRING SESSION begins April 2d, 1890; and closes June 11th.

FEES.—Matriculation fee, $5; Fees for Regular Session, $50; Spring Session, $10, to those who attend the regular term—to all others, $25; Hospital Fee, $10; Graduation Fee, $30; Perpetual Ticket, $100.

For further particulars, and for College Circular, apply to

H. O. WALKER, M.D., Secretary,
33 Lafayette Ave., Detroit, Mich

ANTISEPTIC DRAINAGE TUBES.—Glass.



These Tubes have large holes, one-half inch apart, arranged alternately on opposite sides.
They are carefully finished, especial care being taken to make them smooth.
In addition to the drainage-holes, each tube has at one end two smaller holes for the insertion of Safety-Pin, through which it is prevented slipping into the wound.

FURNISHED IN SEVEN SIZES.

No. 1, $1.25 per doz.		No. 4, $1.55 per doz.	
No. 2, 1.25	"	No. 5, 1.70	"
No. 3, 1.40	"	No. 6, 1.90	"
No. 7, $2.10 per dozen.			

RAW CAT-GUT. I put this up in coils of 10 feet, four different sizes, Nos. 1, 2, 3, 4 (4 is thickest). Nos. 2 and 3 are the most useful sizes. **No. 1 Coil, 10 Cents; No. 2 Coil, 12 Cents; No. 3 Coil, 14 Cents; No. 4 Coil, 16 Cents.** Full directions with each coil for making it absolutely aseptic.

WESTERN PENNSYLVANIA MEDICAL COLLEGE
CITY OF PITTSBURGH.
SESSIONS OF 1889—90.

The REGULAR SESSION begins on the last Tuesday of September, and continues six months. During this session, in addition to four Didactic Lectures, two or three hours are daily allotted to Clinical Instruction. Attendance upon two regular courses of lectures is requisite for graduation. A three years' graded course is also provided. The SPRING SESSION embraces recitations, clinical lectures and exercises, and didactic lectures on special subjects; this session begins the second Tuesday in April, and continues ten weeks.

The laboratories are open during the collegiate year for instruction in chemistry, microscopy, practical demonstrations in medical and surgical pathology, and lessons in normal histology. Special importance attaches to "the superior clinical advantages possessed by this College." For particulars, see annual announcement and catalogue, for which, address the Secretary of Faculty, Prof. J. W. J. MCKENNAN.

Business correspondence should be addressed to

JAMES R. LEAMING, M.D., Emeritus Professor of Diseases of the Chest and Physical Diagnosis; Special Consulting Physician in Chest Diseases to St. Luke's Hospital.

EDWARD B. BRONSON, M.D., Professor of Dermatology; Visiting Dermatologist to the Charity Hospital; Consulting Dermatologist to Bellevue Hospital (Out-door Department).

A. G. GERSTER, M.D., Professor of Surgery; Visiting Surgeon to the German and Mt. Sinai Hospitals.

V. P. GIBNEY, M.D., Professor of Orthopædic Surgery; Orthopædic Surgeon to the Nursery and Child's Hospital; Surgeon-in-Chief to the Hospital for Ruptured and Crippled.

LANDON CARTER GRAY, M.D., Professor of Diseases of the Mind and Nervous System; Attending Physician to Hospital for Nervous and Mental Diseases, and to St. Mary's Hospital.

EMIL GRUENING, M.D., Professor of Ophthalmology; Visiting Ophthalmologist to Mt. Sinai Hospital, and to the German Hospital.

*JAMES B. HUNTER, M.D., Professor of Gynæcology; Surgeon to the Woman's Hospital; Surgeon to the New York Cancer Hospital; Consulting Surgeon to the New York Infirmary for Women and Children; President of the Faculty.

PAUL F. MUNDÉ, M.D., Professor of Gynæcology; Gynæcologist to Mt. Sinai Hospital; Consulting Gynæcologist to St. Elizabeth Hospital.

A. R. ROBINSON, M.D., Professor of Dermatology; Professor of Normal and Pathological Histology in the Woman's Medical College.

DAVID WEBSTER M.D., Professor of Ophthalmology; Surgeon to the Manhattan Eye and Ear Hospital.

JOHN A. WYETH, M.D., Professor of Surgery; Visiting Surgeon to Mt. Sinai Hospital; Consulting Surgeon to St. Elizabeth Hospital; Secretary of the Faculty.

W. GILL WYLIE, M.D., Professor of Gynæcology; Gynæcologist to Bellevue Hospital.

R. C. M. PAGE, M.D., Professor of General Medicine and Diseases of the Chest; Physician to St. Elizabeth Hospital; Attending Physician to the Northwestern Dispensary, Department of Chest Diseases.

D. BRYSON DELAVAN, M. D., Professor of Laryngology and Rhinology; Laryngologist to the Demilt Dispensary.

JOSEPH WILLIAM GLEITSMANN, M. D., Professor of Laryngology and Rhinology; Laryngologist and Octologist to the German Dispensary.

OREN D. POMEROY, M.D., Professor of Otology; Surgeon Manhattan Eye and Ear Hospital; Ophthalmic Surgeon to New York Infants' Asylum, and Consulting Surgeon to the Paterson Eye and Ear Infirmary.

HENRY N. HEINEMAN, M. D., Professor of General Medicine and Diseases of the Chest; Attending Physician to Mt. Sinai Hospital.

B. SACHS, M.D., Professor of Diseases of the Mind and Nervous System; Consulting Neurologist to the Montefiore Home for Chronic Invalids.

THOMAS R. POOLEY, M.D., Professor of Ophthalmology; Surgeon-in-Chief of the New Amsterdam Eye and Ear Hospital; Ophthalmic Surgeon to the Sheltering Arms; Consulting Ophthalmologist to the St. Bartholomew's Hospital.

L. EMMETT HOLT, M.D., Professor of Diseases of Children; Visiting Physician to the New York Infant Asylum; Consulting Physician to the Hospital for Ruptured and Crippled.

AUGUST SEIBERT, M.D., Professor of Diseases of Children; Physician to the Children's Department of the German Dispensary.

H. MARION SIMS, M.D., Professor of Gynæcology, Gynæcologist to St. Elizabeth Hospital and New York Infant Asylum.

WILLIAM F. FLUHRER, M.D., Professor of Genito-Urinary Surgery; Surgeon to Bellevue and St. Sinai Hospitals.

HENRY C. COE, M. D., M. R. C. S. (Eng.), Professor of Gynecology; Attending Surgeon to New York Cancer Hospital; Assistant Surgeon to Woman's Hospital; Obstetric Surgeon to Maternity Hospital; Obstetrician to New York Infant Asylum; Gynecologist to Presbyterian Hospital, Out-door Department.

* Deceased.

THE NEW YORK POLYCLINIC is a School of Clinical Medicine and Surgery for *Practitioners only.* **No didactic lectures are given** The classes are limited. The demonstrations are made at the Polyclinic School and Hospital, and in the various Hospitals in New York City with which the Faculty are connected.

Session of 1889-90 opens Monday, September 16th, 1889. For further information and for catalogue, address

JOHN A. WYETH, M.D.,
Secretary of the Faculty,

Or WILLIS O. DAVIS, Clerk,
214, 216 & 218 East 34th Street, New York City.

ESTABLISHED 16 YEARS. BEWARE OF IMITATIONS.

COLDEN'S LIQUID BEEF TONIC

AN INVALUABLE AID IN MEDICAL PRACTICE.

ORIGINAL | COLDEN'S LIEBIG'S LIQUID EXTRACT OF BEEF AND TONIC INVIGORATOR. | LABEL.

ESSENTIALLY DIFFERENT FROM ALL OTHER BEEF TONICS. UNIVERSALLY ENDORSED BY LEADING PHYSICIANS.

This preparation, consisting of the Extract of Beef (prepared by Baron Liebig's process), the best Brandy obtainable, soluble Citrate of Iron, Cinchona and Gentian is offered to the Medical Profession upon its own merits. It is of inestimable value in the treatment of **Debility, Convalescence from Severe Illness Anæmia, Malarial Fever, Chlorosis, Incipient Consumption, Nervous Weakness,** and maladies requiring a Tonic and Nutrient. It is quickly absorbed by the Stomach and upper portion of the Alimentary Canal, and therefore finds its way into the circulation quite rapidly.

COLDEN'S LIQUID BEEF TONIC appeals to the judgment of intelligent Physicians in the treatment of

ALL CASES OF GENERAL DEBILITY.

By the urgent request of several eminent members of the medical profession, I have added to each wineglassful of this preparation two grains of Soluble Citrate of Iron, and which is designated on the label, "**With Iron, No. 1;**" while the same preparation, **Without Iron,** is designated on the label as "**No. 2.**"

In prescribing this preparation, physicians should be particular to mention "*COLDEN'S,*" viz., "*Ext. Carnis Fl. Comp. (Colden).*" A Sample of **COLDEN'S BEEF TONIC** will be sent free on application, to any physician (enclosing business card) in the United States. *Sold by druggists generally.*

C. N. CRITTENTON, General Agent, 115 Fulton St., New York.

GLENN'S SULPHUR SOAP.

BEWARE OF COUNTERFEITS.

Physicians know the great value of the local use of Sulphur in the **Treatment of Diseases of the Skin.**

Constantine's Pine-Tar Soap.

THE BEST SOAP MADE.

Has been on trial among physicians for very many years as a healing agent. **By far the Best Tar Soap made.**

Wholesale Depot, C. N. CRITTENTON, 115 Fulton St, New York.

Samples of above Soaps SENT FREE, on application, to any Physician enclosing card

MILK OF MAGNESIA.

A PURE HYDRATED OXIDE OF MAGNESIUM.—(MgH_2O_2.)

ANTACID AND CORRECTIVE.

Especially recommended in the Gastro-intestinal irritations of infant, child and adult life—Nausea—Vomiting in Pregnancy—Sour Stomach—Diarrhœa—Cholera Infantum—and the Rheumatic and Gouty conditions resulting from acid secretions.

This Hydrate presents Magnesia practically in solution without grittiness or precipitation—No danger from concretions as with the calcined—Free from Carbonic Acid—Miscible with other fluids—in a form easy of administration and absorption. Superior to lime water or chalk mixture for addition to milk. It is not a purge: but in antacid, corrective or mild laxative indications will be found reliable and safe. It combines well with Syrup Rhubarb—Soda—Opium—the various astringents, etc.

PHOSPHO-MURIATE OF QUININE,

COMPOUND,

A RELIABLE ALTERATO-CONSTRUCTIVE,

Particularly indicated in conditions of **disturbed nutrition** and **tissue retrograde.**

An easily appropriated general tonic, promoting digestion, and safe under prolonged use. A permanent combination of the soluble Wheat Phosphates, with Muriate of Quinine, Iron and Strychnia.

Of greater strength than the various Hypophosphite compounds.

The above are put up in Dispensing and Trade Containers.

DIGESTIBLE COCOA.

COD LIVER OIL EMUL.

THE CHAS. H. PHILLIPS CHEMICAL CO.,
77 PINE STREET, NEW YORK.

CH. MARCHAND'S

Peroxide of Hydrogen,

MEDICINAL (ABSOLUTELY HARMLESS)
H_2O_2

is rapidly growing in favor with the medical profession. It is the most powerful antiseptic known, almost tasteless, and odorless. Can be taken internally or applied externally with perfect safety. Its curative properties are positive, and its strength and purity can always be relied upon. This remedy is not a nostrum.

Experiments of Prof. Pasteur, Dr. Koch, and many other scientific authorities, prove beyond doubt that Germs, Bacteria, or Microbes cause and develop: **NOSE, THROAT, AND LUNG DISEASES—Diphtheria, Croup, Sore Throat, Catarrh of the Nose, Hay Fever, Bronchitis, Laryngitis, Pharyngitis, Whooping Cough, Consumption and other Chronic Affections, specific or not.**

GERMS, BACTERIA, OR MICROBES are instantaneously annihilated when brought into contact with **Ch. Marchand's Peroxide of Hydrogen.** This wonderful bactericide acts both chemically and mechanically upon all excretions and secretions, so as to thoroughly change their character and reactions instantly. By destroying the microbian element this remedy removes the cause of the disease.

CAUTION.—I would earnestly impress upon the profession the very great importance of prescribing only my Peroxide of Hydrogen (Medicinal), from which all hurtful chemicals have been eliminated.

By specifying in your prescriptions "Ch. Marchand's Peroxide of Hydrogen (Medicinal)," which is sold only in ¼-lb., ½-lb., and 1-lb. bottles, bearing my label and signature, you will never be imposed upon.

Prepared only by

Charles Marchand

Chemist and Graduate of the "Ecole Centrale des Arts et Manufactures de Paris" (France).

A book containing full explanations concerning the therapeutical applications of **Ch. Marchand's Peroxide of Hydrogen (Medicinal)**, with opinions of the profession, will be mailed to physicians free of charge on application.

¼ lb. bottle, retail, 35 cents; ½ lb. bottle, retail, 50 cents; 1 lb. bottle, retail, 75 cents.

SOLD BY LEADING DRUGGISTS.

Laboratory, 10 West Fourth Street, New York.

☞ **Mention this Paper.**

FELLOWS'
HYPO-PHOS-PHITES

(SYR: HYPOPHOS: COMP: FELLOWS)

Contains **The essential elements** to the Animal Organization—Potash and Lime.

The **Oxydizing Agents**—Iron and Manganese;

The **Tonics**—Quinine and Strychnine,

And the **Vitalizing Constituent**—Phosphorus,

Combined in the form of a Syrup, with *slight alkaline reaction.*

It Differs in Effect from all others, being pleasant to taste, acceptable to the stomach, and harmless under prolonged use.

It has Sustained a High Reputation in America and England for efficiency in the treatment of Pulmonary Tuberculosis, Chronic Bronchitis, and other affections of the respiratory organs, and is employed also in various nervous and debilitating diseases with success.

Its Curative Properties are largely attributable to Stimulant, Tonic, and Nutritive qualities, whereby the various organic functions are recruited.

In Cases where innervating constitutional treatment is applied, and tonic treatment is desirable, this preparation will be found to act with safety and satisfaction.

Its Action is Prompt; stimulating the appetite and the digestion, it promotes assimilation, and enters directly into the circulation with the food products.

The Prescribed Dose produces a feeling of buoyancy, removing depression or melancholy, and hence is of great value in the treatment of MENTAL AND NERVOUS AFFECTIONS.

From its exerting a double tonic effect and influencing a healthy flow of the secretions, its use is indicated in a wide range of diseases.

Prepared by JAMES I. FELLOWS, Chemist,

48 VESEY STREET, NEW YORK.

THE P.P.P. SYRINGE

Is universally considered the most perfect urethral Syringe in the market, because it combines within itself all desirable qualities. It measures but 1½ x 2¾ inches, has a capacity of fully half an ounce, and is made of one piece of soft rubber with conical point. To protect this soft point and to prevent pocket dust from getting into the Syringe, a Hard Rubber cap screws air-tight over it and enables the patient to carry it in his pocket filled with the injection ordered, ready for use when away from home.

For sale by all druggists.

PIL. PHENACETINE ET SALOL, 5 GRS., "W. H. S. & CO."

{Phenacetine-Bayer, ... 2½ grs.
{Salol, ... 2½ grs.

Anti-Rheumatic and Analgesic. This combination was first suggested by Dr. M. F. Price, Colton, Cal., President of the "Southern California Medical Society." In an address to the members he says: "In a case of acute Rheumatism, affecting elbows, wrists, knees, and ankles, ordered Phanacetine and Salol every three hours. No local application ordered. Made five daily visits, found the patient each day improved, discharged with orders to continue the medicine three times a day for a week."

After citing other cases, one of Sciatica where the patient was suffering such pain that the slightest motion caused faintness with nausea and continuous vomiting; two with acute Rheumatism, and one with Neuralgia of the stomach, Dr. Price continues:

"It will be observed that in some of these cases I have combined Salol with Phanacetine. I did this on the principle of the well-known effect of Salicylic Acid in Rheumatism, but I rely on the Phenacetine for the relief of the pain, and in this way perhaps the cure of the disease causing it." (*Southern California Practitioner*, August, 1889.)

PIL. TERPIN HYDRAT., 2 GRS., "W. H. S. & CO.,"

A new and potent remedy in the treatment of coughs, catarrh, bronchitis, and kindred diseases.

Terpin Hydrate is indicated in cases where violent irritation of the bronchial mucous membrane exists, and where the secretion is inconsiderable and peculiarly viscid, such as is met with in the chronic catarrh accompanying emphysema and phthisis. The effect obtained is always an increase and a liquefaction of the secretion, a considerable reduction of the irritation, and easy expectoration.

SOLUBLE PILLS.

Advanced pharmacy has, of late years, bestowed much attention upon eliminating the objectionable features which pertained to Pills; but it is only since their manufacture has been undertaken in wholesale quantities by responsible and capable parties that they have been produced in their present excellent quality.

The conditions of a perfect Pill are:

1*st.* *Ingredients of the finest quality.*
2*d.* *All materials weighed with scrupulous exactness.*
3*d.* *The mass sufficiently consistent to maintain the globular form, and yet readily soluble in the stomach.*
4*th.* *A coating which will preserve the mass in good condition, cover all offensive smell or taste, and facilitate deglutition.*

The continued favor which has been shown to our **Soluble Pills** is sufficient evidence that care has been bestowed upon their manufacture.

As for the purity of the drugs entering into their composition, and the presence in full and exact quantity of every article required by the formula in each case, we can only give our assurance that no deviation from correctness in any particular is, or ever has been, permitted in their manufacture; and they invite the most critical examination and test, either of analysis or of therapeutic effect.

They possess the advantage of a perfect coating, which is neither hard, bulky, opaque, nor insuluble, but elastic, thin, transparent, and readily soluble.

For further information about them we refer to our formula books and price lists, which we shall be happy to furnish upon application.

W. H. Schieffelin & Co.,

NEW YORK.

LILLY'S

Improved

Glycerin Suppositories.

Contain 95 per cent. Pure Glycerin.

Made in both Adult and Infant Sizes.

FOR THE IMMEDIATE RELIEF OF CONSTIPATION.

These Suppositories are incomparably superior to those produced by others, inasmuch as the covering is impervious to moisture, unchangeable and easily removed, preserving the Suppository in all climates. The constitution of the Suppository is so modified as to cause no irritation of the rectum.

The value of **Glycerin Suppositories** in Constipation is well established, painless and copious stools being promptly produced. The Glycerin acts by lubrication and solution of the indurated feces and by stimulating the bowel, thus providing a certain and agreeable method of emptying the colon at pleasure.

After the insertion the Suppository should be retained as long as possible in order to obtain the best results.

Glycerin Suppositories.—These invaluable "peristaltic persuaders" are prepared in a most excellent and approved manner by Messrs. Eli Lilly & Co., of Indianapolis. Their Suppositories contain 95 per cent. of glycerin, and a beauty of their construction is the peculiar water-proof covering of each Suppository, which is readily and easily removed. By simply pressing upon or slightly squeezing the Suppository between the fingers it slips out with astonishing ease, leaving the covering between the fingers. A great improvement, as any one will readily recognize who has ever made the effort to divest one of the ordinary Suppositories from its lead foil and tissue paper envelope. — *Medical Practitioner*, Oct., 1889.

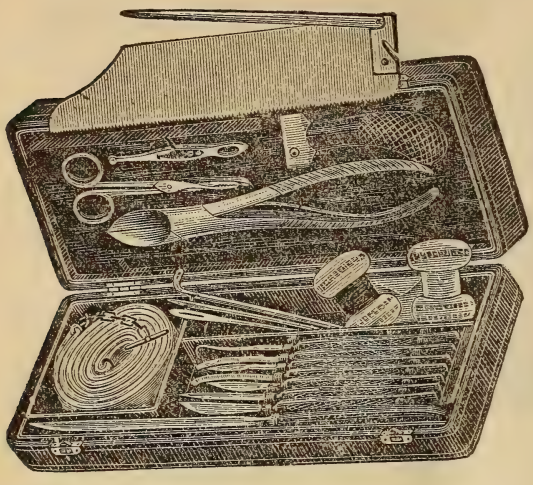
PHARMACEUTICAL CHEMISTS,

INDIANAPOLIS, IND., U. S. A.

LENTZ'S ASEPTIC COMPACT OPERATING SET, No. 10.



We have from time to time made improvements to this set and are now making a perfect aseptic set, which offers especial facilities for aseptic precautions; the blades are soldered into hollow German-silver handles, nickel-plated, are light so as not to be unwieldy and admit of a firm grasp when operating.

The saw is adjusted to the handle on an entirely new principle, being made to separate easily and to facilitate thorough cleansing.

The handle is entirely of metal and fenestrated to overcome unnecessary weight.

Scissors and Forceps having French locks can be separated, and the slide can be easily removed from Artery and Needle Forceps.

Therefore, no opportunity is offered for the lodgment and development of germs.

The entire set is patterned with especial reference to facility in cleansing.

The instruments can be sterilized by placing them in boiling water, without fear of damaging them. Wood or rubber handles will not admit of this procedure. For price, see case A.

The following instruments are put up in either a fine Mahogany or Morocco case, with nickel trimmings, lined with velvet, and has an extra space for Trephine with handle, and Elevator if desired.

One Amputating Knife (6 in. blade); One Finger Knife; One Hernia Knife; One Sharp Curved Bistoury; Two Scalpels; One Tenotome; One Tenaculum; One Pair Scissors, curved or flat; One Saw (9 in. blade); One Liston's Bone Forceps, with Spring; One Artery and Needle Forceps, improved; One Esmarch's Flat Rubber Tourniquet, with Chain; One Hæmostatic Forceps; One Director, with Aneurism Needle; Two Silver Probes; Silk, Wire, Wax and Needles.

With the Sixteen Instruments Contained in this Case, any Ordinary Operation may be Performed.

SIZE, 11 INCHES LONG, 4 INCHES WIDE, 2 INCHES HIGH.

GRAND NATIONAL PRIZE OF 16,600 FRANCS,

QUINA-LAROCHE

This meritorious **Elixir, QUINA-LAROCHE,** is prepared from the **three** Cinchonas; it is an agreeable and doubtless highly efficacious remedy.

—*The Lancet.*

VINOUS ELIXIR,

A STIMULATING RESTORATIVE

—AND—

ANTI-FEBRILE TONIC.

QUINA-LAROCHE under the form of a vinous **Elixir** contains the totality of the numerous principles of the **three** Cinchona barks. It is a preparation which renders great services to Therapeutics.—Extract of the *Gazette des Hôpitaux*, Paris.

FAR SUPERIOR TO ALL ORDINARY CINCHONA WINES.

LAROCHE'S QUINA, tried by the Academy of Medicine of Paris, is a specially prepared COMPOUND EXTRACT of Quinquina, a 'careful analysis, confirmed by experience, has shown that most of the wines and syrups hitherto used have not contained all the properties of this precious bark, of these some, although beneficial, are altogether lost, while many preparations contain but half the properties of the bark in varying proportions.

MR. LAROCHE, by his peculiar method, has succeeded in extracting all the active principles of the quinquina, combining these with *Catalan Wine* forming an Elixir free from the disagreeable bitterness of other similar preparations. Practitioners have found triple advantages in the use of this Elixir, it is a *strong tonic*, is easily administered, and perfectly harmless, being free from the unpleasant effects of Quinine.

THE FERRUGINOUS QUINA-LAROCHE is the invigorating tonic *par excellence*, having the advantage of being easily assimilated by the gastric juice; without, in any way, deranging the action of the digestive organs, proving itself to be a most efficacious remedy in cases of impoverishment of the blood, ANÆMIA, CHLOROSIS, INTESTINAL HÆMORRHAGE, CASTRALGIA, EXHAUSTION, ETC., ETC.

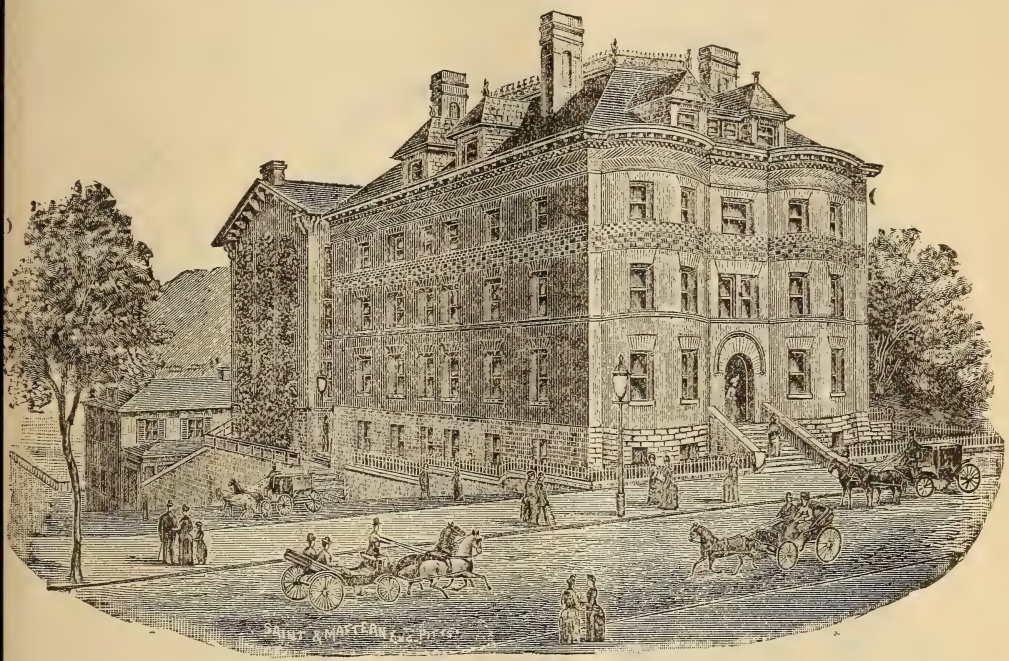
DR. R. S. SUTTON'S

Sanatorium for Diseases of Women.



Seventh Year Opens September 1, 1889.

ALLEGHENY CITY, PA.

This Institution is located on high ground, and overlooks the Allegheny, Monongahela and Ohio rivers; it commands a view of the city of Pittsburgh, and its picturesque surroundings. The building is large and beautiful, it is provided with every modern convenience, the halls are heated by steam, the rooms are commodious, well lighted and ventilated, and heated by open grates. The house is provided with a private parlor and reading-room for patients. The dining-room is large, handsomely finished, and furnished with small tables, securing privacy at meals for those who do not care to have meals served in their own rooms. Patients can be as secluded, should they desire it, as in a well appointed hotel. Each patient is examined by Dr. Sutton, and receives his daily personal attention, while Dr. J. H. Williamson, a physician of ample hospital experience, resides in the Institution, and has, under Dr. Sutton, the immediate care of the patients. The Institution accommodates 25 patients, and is equal in comfort to the best hotels.

Electricity, baths, douches, massage, local treatment, general medication and surgical operations are resorted to according to the requirements of each patient.

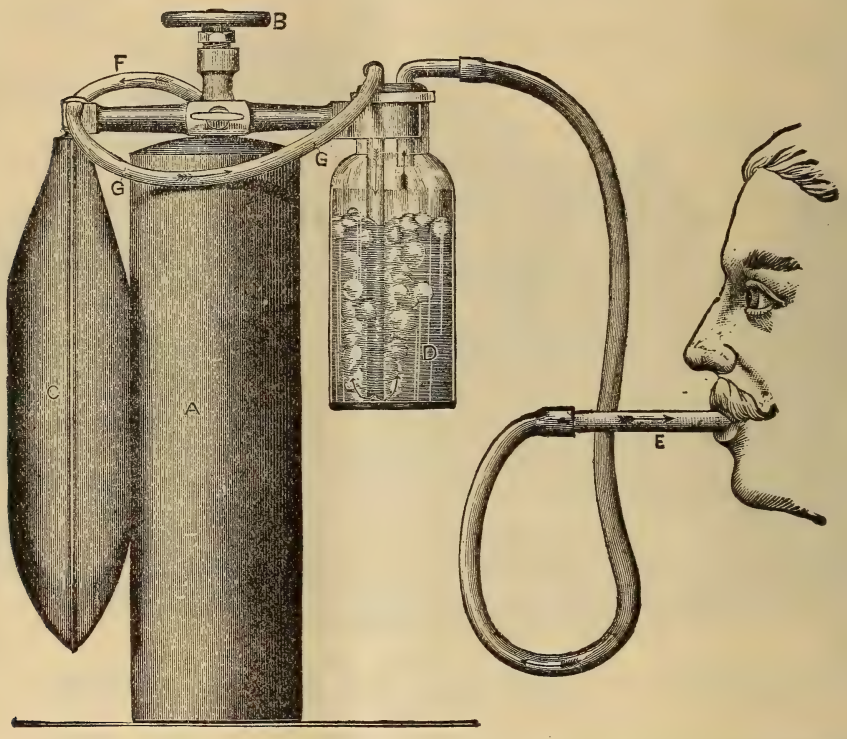
INHALATION APPARATUS

FOR

THE THERAPEUTIC ADMINISTRATION OF OXYGEN.



In the treatment of lung troubles by Oxygen its exhibition by inhalation is preferred. The apparatus herewith shown is a modification of the Nitrous Oxide apparatus which we have supplied for many years. It is made in the best manner throughout, and is the outcome of years of experience in the manufacture of gas apparatus. It will be found to meet all the requirements.

We supply the gas in two sizes of cylinders, containing respectively forty and one hundred gallons, either pure Oxygen, or a mixture of Oxygen and Nitrous Oxide in definite proportions of 20 per cent., and forty per cent. of Nitrous Oxide.

Whether pure or mixed the gas is sold at the uniform price of 5 cents a gallon. The cost of the cylinders will be refunded on their return empty with the valves in good condition. Full description of Inhalation and Enema apparatuses with directions for use accompany each apparatus, or will be supplied on application.

PRICES.

Inhalation Apparatus	$5.00
Cylinder, 40 gallons' capacity	6.00
40 gallons Gas, either pure Oxygen or mixed Oxygen and Nitrous Oxide	2.00
Complete Apparatus, Cylinder, and 40 gallons Gas	$13.00
Inhalation Apparatus	$5.00
Cylinder, 100 gallons' capacity	15.00
100 gallons Gas, either pure or mixed	5.00
Complete Apparatus, Cylinder, and 100 gallons Gas	$25.00

Derangements of the Liver.

HORSFORD'S ACID PHOSPHATE

has been used with good effect in diseases of the liver, and biliary disorders, where an acid treatment is indicated, and has especially proved a desirable medium to employ in chronic hepatic affections. By its action it stimulates the liver and promotes an increased flow of bile.

The Acid Phosphate is far superior to the nitro-muriatic acid of the pharmacopœia, in that it serves to assist digestion, and promotes in a marked degree the healthful action of the digestive organs.

Dr. H. P. NELSON, Ashland, Ohio, says: "I have used it in a case of torpor of the liver, and am highly pleased with the results obtained."

Send for descriptive circular. Physicians who wish to test it will be furnished a bottle on application, without expense, except express charges.

Rumford Chemical Works, Providence, R. I.

Beware of Substitutes and Imitations.

CAUTION:—Be sure the word "Horsford's" is printed on the label. All others are spurious. Never sold in bulk.

A Phosphorized Cerebro-Spinant

(FRELIGH'S TONIC).

FORMULA.

Ten minims of the Tonic contain the equivalents (according to the formulæ of the U. S. P., and Dispensatory) of

Tinct. Nux Strychnos,	1	minim.
" Ignatia Amara,	1	"
" Cinchona,	4	"
" Matricaria,	1	"
" Gentian,	½	"
" Columbo,	½	"
" Phosphorus, C. P.,	1-300	gr.
Aromatics,	2	minims.

Dose: 5 to 10 drops in 2 tablespoonfuls of water.

INDICATIONS.

Paralysis, Neurasthenia, Sick and Nervous Headache, Dyspepsia, Epilepsy, Locomotor Ataxia, Insomnia, Debility of Old Age, and in the Treatment of Mental and Nervous Diseases.

A BALTIMORE PHYSICIAN, WHOSE DIPLOMA DATES FROM 1825, SAYS:

"Your combination I find vastly more effective than any tonic I have ever used. It furnishes a most powerful evidence of the vastly increased power of medicament by combination and judicious pharmaceutic preparation."

Price, One Dollar per Bottle, containing 100 of the Average 5-Drop Doses.—Physicians' single sample delivered, charges prepaid, on application. That every physician may be his own judge of its value, irrespective of the opinions of others, we make the following

SPECIAL OFFER:

We will send to any physician, delivered, charges prepaid, on receipt of twenty-five cents, and his card or letter-head, half a dozen physicians' samples, sufficient to test it on as many cases for a week to ten days each. The Tonic is kept in stock regularly by all the leading wholesale druggists of the country. As we furnish no samples through the trade, wholesale or retail, for samples, directions, price-lists, etc., address,

I. O. WOODRUFF & CO.,

Manufacturers of Physicians' Specialties,

No. 88 Maiden Lane, New York City.

"THIS IS AN AGE OF APOLLINARIS WATER."
—WALTER BESANT.

Apollinaris

"THE QUEEN OF TABLE WATERS."

The filling at the Apollinaris Spring (Rhenish Prussia), amounted to

11,894,000 BOTTLES IN **1887,**
12,720,000 BOTTLES IN **1888** AND
15,822,000 BOTTLES IN **1889.**

"The annual consumption of this favorite beverage affords a striking proof of the widespread demand which exists for table water of absolute purity, and it is satisfactory to find that, wherever one travels, in either hemisphere, it is to be met with; it is ubiquitous, and should be known as the cosmopolitan table water. 'Quod ab omnibus, quod ubique.'"—BRITISH MEDICAL JOURNAL.

THE BEST NATURAL APERIENT.

THE APOLLINARIS COMPANY, LIMITED, London, beg to announce that, as numerous APERIENT WATERS are offered to the public under names of which the word "Hunyadi" forms part, they have now adopted an additional Label comprising their Registered Trade Mark of selection, which consists of

A RED DIAMOND.

This Label will henceforth also serve to distinguish the HUNGARIAN APERIENT WATER SOLD BY THE COMPANY from all other Aperient Waters.

DEMAND THE 
DIAMOND MARK.

And insist upon receiving the HUNGARIAN APERIENT WATER of the APOLLINARIS COMPANY, LIMITED, London.

BOUDAULT'S PEPSINE

The only Pepsine used in the Hospitals of Paris for the last Thirty Years.

Unlike the various substitutes which, in most cases, are but unscientific or incompatible compounds, forced upon the Medical Profession as aids to digestion by extensive advertising, but which, when submitted to the proper tests, are found to be useless as digestive agents, Pepsine is constantly gaining in the esteem of the careful practitioner.

Since the introduction of Pepsine by Boudault and Corvisart in 1854, the original BOUDAULT'S PEPSINE HAS BEEN AT ALL TIMES CONSIDERED THE BEST, as is attested by the awards it has received at the Expositions of 1867, 1868, 187 1873, in 1876 at the Centennial Exposition of Philadelphia, and in 1878 at the Paris Exposition.

The most reliable tests, carefully applied, will satisfy everyone that BOUDAULT'S PEPSINE HAS A MUCH HIGHER DIGESTIVE POWER than the best Pepsines now before the Profession, and is therefore especially worthy of their attention.

BOUDAULT'S PEPSINE is prepared in the form of Pepsine Acid and Pepsine Neutral. It is sold in bottles of one ounce, with a measure containing exactly five grains; also in bottles of four, eight, and sixteen ounces for dispensing.

BOUDAULT'S WINE OF PEPSINE

FORMULA OF DR. CORVISART.

The taste of Pepsine being perfectly disguised in this Wine, it may be recommended to persons who have difficulty in taking Pepsine in the form of Powder. This Wine is tested so that a tablespoonful of it is equal in digestive power to ten grains of Boudault's Pepsine in powder. Sold only in bottles of eight ounces.

TANRET'S PELLETIERINE

For the Treatment of Tape-Worm (Tænia Solium).

This New Tænifuge, the Active Alkaloid of Pomegranate Bark, has of late come into extensive use in France for the treatment of Tape-Worm (Tænia Solium). The results of numerous experiments with it at the Marine Hospitals of Toulon, St. Mandrier, etc., and in the Hospitals of Paris, St. Antoine, La Charité, Necker Beaujon, etc., have all been most satisfactory. Doctor Dujardin Beaumetz, Member of the Academy of Medicine, and Professor Laboulbene, in their report to the Society of Therapeutics, have given it their unqualified approval, after the most searching experiments. This preparation is pleasant to administer, and, if certain preliminaries are observed, success will be insured.

Sold only in bottles containing one dose.

DUCRO'S ALIMENTARY ELIXIR

A Combination uniting the properties of Alcoholic Stimulants and Raw Meat.

This preparation, which has been used with great success in the hospitals of Paris since 1868, is adapted to the treatment of all diseases requiring administration, in a small volume, of a tonic able to stimulate and support the vital forces, as *Pulmonar Phthisis, Depression and Nervous Debility, Adynamia, Malarious Cachexia, etc.*

Prepared by EMILE DURIEZ & CO., Successors to DUCRO & CIE, Paris.

KIRKWOOD'S INHALER

This is the only complete, reliable, and effective inhaler in use, arranged for the direct application of Muriate of Ammonia and other remedial agents in the state of vapor to the diseased parts of the air-passages in the treatment of catarrh and diseases of the throat and lungs. No heat or warm liquids required in its use.

It is entirely different from the various frail, cheap instruments that have been introduced.

KIRKWOOD'S INHALER is accompanied by testimonials of the highest professional character, together with carefully prepared formulas for use.

RETAIL PRICE, COMPLETE, $2.50.

☞ A liberal discount allowed to the trade and profession. For descriptive pamphlet or other information address

E. FOUGERA & CO., 30 North William St., New York.

Sole Agents for the above Preparations.

GOUDRON DE BLOUNT

PREPARED FROM THE GENUINE CAROLINA TAR.

DOSE.—One fluid drachm four or more times a day (as indicated), either full strength, diluted, or, in combination.

INDICATIONS.—Chronic and acute affections of the Air Passages, Coughs, Colds, Bronchitis, Asthma and Consumption.

WILLIAM MURRELL, M.D., F.R.C.P.,

Lecturer on Pharmacology and Therapeutics at the Westminster Hospital; Examiner in Materic Medica to the Royal College of Physicians of London; Fellow of the Medico-Chirurgical College of Philadelphia,

Says:—"I have used with success 'Goudron de Blount.' The results have been good, and the preparation is popular with patients."

PREPARED EXCLUSIVELY FOR PHYSICIANS' PRESCRIPTIONS BY

R. E. BLOUNT, 33 RUE ST. ROCH, PARIS.

WHOLESALE AGENTS FOR UNITED STATES AND CANADA,

Fairchild Bros. & Foster,

MAKERS OF

The Most Active and Reliable Preparations of the Digestive Ferments

In every useful and reliable combination—as remedies per se—for the Artificial Digestion of MILK, BEEF, GRUELS and other Peptonized Food for the Sick and for the Qualitative and Quantitative Modification of Cows' Milk to the Standard of Normal Human Milk as a food for Bottle-Fed Infants.

82 and 84 Fulton St., New York City.

PARTURITION.

Aletris Cordial (Rio), given in Teas oonful doses every hour or two AFTER PARTURITION, is the best agent to prevent after-pains and hemorrhage. By its DIRECT tonic action on the uterus, it expels blood clots, closes the uterine sinuses, causes the womb to contract, and prevents subinvolution. In severe cases, it can be combined with ergot in the proportion of one ounce of fluid Ext. Ergot to three ounces Aletris Cordial. It is the experience of eminent practitioners, in all cases where ergot is indicated, that its action is rendered much more efficacious by combining it with Aletris Cordial in the proportions above stated.

Requires No Cooking.

Liebig demonstrated that the best substitute for normal human milk was not the milk of any animal, but a combination of animal milk with the elements of those grains which are used in repairing waste, building tissues, and generating heat.

Mellin's Food

Dissolved in hot water and milk, according to the directions, is the genuine Liebig's Food, and promotes in infants a healthy growth, a full development, and a vigorous constitution. *It requires no cooking.*

DOLIBER-GOODALE CO., BOSTON, MASS.

DR. WILLIAM A. HAMMOND'S SANITARIUM,

FOR DISEASES OF THE NERVOUS SYSTEM, Washington, D. C.

DR. WILLIAM A. HAMMOND announces to the medical profession that he has returned from New York to Washington, D. C., where he has established, in a building especially erected for the purpose, a *Sanitarium* for the treatment of mild and curable cases of mental derangement, diseases of the nervous system generally, cases of the morphia and chloral habits, and such other affections as may properly be treated by the remedial agencies under his control.

The *Sanitarium* is situated on Columbia Heights, at the corner of Fourteenth Street and Sheridan Avenue. The position is the highest in the immediate vicinity of Washington, the soil is dry, and all the surroundings are free from noxious influences. Electricity in all its forms, baths, douches, massage, inhalations, nursing, etc., are provided as may be required by patients, in addition to such other medical treatment as may be deemed advisable.

A large *Solarium* for sun-baths and exercise in cold or inclement weather and heated with steam in winter, is constructed on the top of the main building.

The *Sanitarium* has now been in successful operation since the 7th of January, 1889.

For further information Dr. Hammond can be addressed at The Sanitarium, Fourteenth Street and Sheridan Avenue, Washington, D. C.

Doctor,—Three days' trial will prove that we offer a true galactagogue which greatly increases the quantity of mother's milk, notably improves the quality and removes the maternal debility due to Lactation,

Nutrolactis.

DETROIT COLLEGE OF MEDICINE.
SESSION 1889-90.

Clinical and Practical teaching are made an important feature of this College. Clinical instruction is given daily at HARPER, ST. MARY'S and ST. LUKE'S HOSPITAL, at the COLLEGE, at COLLEGE EYE and EAR INFIRMARY, ST. MARY'S FREE EYE and EAR INFIRMARY, and at the three FREE DISPENSARIES. The facilities offered by this college are unsurpassed for the practical study of MEDICINE, SURGERY, OBSTETRICS, GYNÆCOLOGY, DISEASES OF CHILDREN, GENITO-URINARY, and ORTHOPÆDIC SURGERY, OPHTHALMOLOGY and OTOLOGY, DERMATOLOGY and LARYNGOLOGY.

REGULAR SESSION opens on Wednesday, Sept. 25, and continues six months. During the session, the Professors will take special pains to examine the Students upon the subjects of the previous lectures.

SPRING SESSION begins April 2d, 1890; and closes June 11th.

FEES.—Matriculation fee, $5; Fees for Regular Session, $50; Spring Session, $10, to those who attend the regular term—to all others, $25; Hospital Fee, $10; Graduation Fee, $30; Perpetual Ticket, $100.

For further particulars, and for College Circular, apply to

GENUINE BLAUD'S PILLS.

These pills, which have been inserted in the new French Pharmacopœia, have been employed with the greatest success for more than fifty years by most French and foreign physicians, to cure anemia, chlorosis, and all chlorotic affections in which iron is indicated.

Here is the opinion of men most eminent in medical science who have employed them:

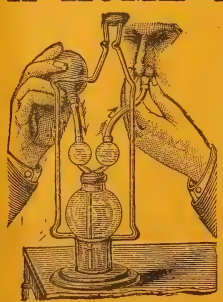
"For thirty-five years, in which I have practised medicine, I have recognized the incontestable advantages of BLAUD'S PILLS over all other ferruginous preparations, and I regard them as the best anti-chlorotic."—DR. DOUBLE, *Ex-President of the Academy of Medicine.*

"Of all the ferruginous preparations, which have given good results in the treatment of chlorotic affections, BLAUD'S PILLS appear to us to deserve to hold the first rank."—*Dictionnaire universel de médecine*, Vol. II, p. 99.

These pills, prepared according to the genuine formule of the originator, by his nephew, Aug. Blaud, Pharmacist of the Faculty of Paris, are sold only in bottles of 200 pills and half bottles of 100 pills, at a cost of 5 and 3 francs ($1.00, and seventy-five cents), and never in smaller quantities. *See that his name is stamped on each pill.* **PARIS, 8 RUE PAYENNE, and at every Pharmacy.** (Beware of imitations.)

BLAUD

A HOME TREATMENT



For **Catarrh, Deafness, Throat, and Lung Affections,** that will *cure.*

A new apparatus that has received the highest award, is giving universal satisfaction, and is just the thing for the busy practitioner. Special inducements to

in every city, town, and village. A 24-page pamphlet, giving full instructions, terms, etc., sent free. Address

Moore-McGregor Medication,

351 West 7th St., P. O. Box 671, CINCINNATI, O.

Doctor:

While treating cases of Tubercular Phthisis no doubt you have, at some time or other, touched upon the Hypophosphites.

You may have given the Hypophosphites in oil, or in malt extract, or in some acid mixture, or in a compound with a half dozen "tonics" added to it; and you have been disappointed. As in trying to extinguish a conflagration with a garden sprinkler, or to restrain the course of a river with a spade, you find the disease pursues its relentless way unchecked to the fatal end.

Now, Doctor, why not come back to first principles and give the Hypophites as the illustrious founder of this successful mode of treatment, Dr. Churchill, directed?

He did not recommend that they should be given with cod-liver oil, or with quinine and iron and strychnine and free phosphoric acid and various other ingredients. He simply urged that the chemically pure Hypophophites of Lime and Soda should be administered perseveringly until a permanent cure resulted.

Pharmacists, ambitious of getting a new preparation on the market, have made the attempted improvements.

It is needless to say that wherever these innovations have been adopted, failure has resulted, and the entire treatment has been brought into disrepute and abandoned.

McArthur's Syrup is prepared on the principles laid down by Dr. Churchill, and with which he achieved his wonderful success. It contains the chemically pure Hypophosphites of Lime and Soda, uncomplicated with other drugs, in a pure and wholesome syrup.

With it you can score success time and again.

Its results are gradual, steady and certain, but you must persevere faithfully until the cure is complete. Give it throughout all the seasons, the entire year round.

By this means you may have the satisfaction of restoring health to many a despairing one and prolonging precious lives.

Be careful that you get none but the genuine. Write your prescription thus:

℞ Syr. Hypophos. Comp., C. P., McArthur.

If you would like to study this subject more closely we will send you, free, our treatise on "The Curability and Treatment of Consumption." We will also send you, free, a bottle of the Syrup, if you are willing to pay express charges.

PHENACETINE-BAYER.

In therapeutic action it is like all the analgesic antithermics, it has a double action—it lowers temperature and soothes pain. The lowering of the temperature is noticeable in cases of pyrexia. In fevers, 7½ grains of Phenacetine lowers the temperature by 1.8° to 3.4° F., and the antithermic action following such a dose lasts four hours. In certain cases the apyrexial period is more prolonged even from the same dose. Phenacetine is thought by some to be superior to antipyrin and acetanilid in producing marked antithermic effects without toxic phenomena. But it is above all as an analgesic that Phenacetine outrivals its predecessor. While it is as powerful, it does not produce pain in the stomach or the scarlatinaform rash of the antipyrin, nor does it give rise to the cyanosis of the acetanilid. However prolonged may be its administration, no bad effect has ever been seen from its use. It has been used for the relief of every form of pain, even for the lightning pain of tabes, with the best results. This double action, as an antithermic and as an analgesic, results from an effect produced upon the spinal cord; and the Phenacetine may be considered a depressor of the excitability of the medulla. The digestive, respiratory, and circulatory systems are not at at all affected by Phenacetine. It is inodorous, it is tasteless, and it is innocuous. [From a paper presented to the Central Kentucky Medical Association, by Steele Bailey, M. D., New England Medical Monthly, March, 1890.]

Phenacetine-Bayer, prepared by the Farbenfabriken, formerly Friedr. Bayer & Co., Elberfeld, is supplied by us in ounces and also in the form of our soluble pills and compressed tablets, containing two, four and five grains each. Either form may be obtained of any reputable apothecary.

ARISTOL.

Aristol, a combination of iodine and thymol, manufactured by the Farbenfabriken, formerly Fredr. Bayer & Co., Elberfeld, Germany, is a valuable, inodorous and non-toxic antiseptic remedy, said to be superior to Iodoform, Iodol and Sozo-Iodol.

For further information regarding this new remedy we would refer to the notes we have published, which we will be pleased to mail to applicants.

SULFONAL-BAYER.

Wm. H. Thomson, M. D., LL. D., in speaking of Sulfonal, says:—"Sulfonal is a pure hypnotic, neither anæsthetic nor depressing in character, and it does not affect the heart or circulation, and the sleep it produces is perfect. Being quite insoluble, it requires about three hours to become thoroughly dissolved in the stomach, and should be given about two hours before bed-time. As it is not affected by the digestive secretions, it may be given shortly after the evening meal.

"Sulfonal is of great value in the insomnia of the insane, and the dose should be repeated once during the night if the sleep is too short. **It is specially recommended in cases of nervous insomnia,** also in the sleeplessness of delirium tremens. In the latter case, gr. xx. should be administered every two hours until grs. lx or lxxx have been taken, but it should be remembered that every case of delirium tremens is also a case or starvation, and to produce sleep the patient must be fed. Dose as a hypnotic, gr. xv-xx." [From Notes, Materia Medica, and Therapeutics. Lectures delivered by Prof. Wm. H. Thomson, M. D., LL.D. Edited by Wm. H. McEnroe, M. D.]

Sulfonal-Bayer, prepared by the Farbenfabriken, formerly Fredr. Bayer & Co., Elberfeld, is supplied by us in ounces and in the form of Tablets of 5, 10 and 15 grains, put up in bottles of 10 and 100 tablets each.

We also offer Sulfonal-Bayer in the form of our soluble pills, containing 5 grains each.

W. H. Schieffelin & Co.,

NEW YORK.

ESTABLISHED 1855.

DRS. STRONG'S SANITARIUM,

SARATOGA SPRINGS, NEW YORK,

Receives persons recommended to it by their home physicians for Treatment, Change, Rest or Recreation, and places them under well-regulated hygienic conditions so helpful in the treatment of chronic invalids or the overtaxed.

For Treatment: In addition to the ordinary remedial agents, it employs Turkish, Russian, Roman, Sulphur, Electro-Thermal, the French Douche (Charcot's), and all Hydropathic Baths; Vacuum Treatment, Swedish Movements Massage, Pneumatic Cabinet, Inhalations of Medicated, Compressed, and Rarefied Air, Electricity in various forms, Thermo-Cautery, Calisthenics, and Saratoga Waters, under the direction of a staff of educated physicians.

For Change: This Institution is located in a phenomenally dry, tonic, and quiet atmosphere, in the lower arc of the Adirondack Zone, and within the "Snow Belt."

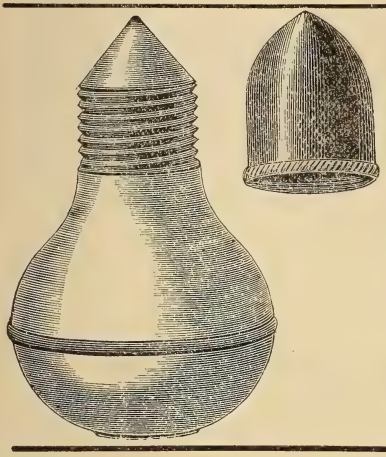
For Rest: The Institution offers a well-regulated, quiet home, heated by steam and thoroughly ventilated, with cheering influences and avoiding the depressing atmosphere of invalidism.

For Recreation: To prevent introspection, are household sports at all seasons of the year, and in Winter, tobogganning, elegant sleighing, etc.; in Summer, croquet, lawn-tennis, etc.

Private professional references furnished upon application. Physicians are invited to inspect the Institution at their convenience. A liberal discount to physicians and their families.

For further information, address,

DRS. S. S. & S. E. STRONG.



THE P.P.P. SYRINGE

Is universally considered the most perfect urethral Syringe in the market, because it combines within itself all desirable qualities. It measures but 1½ x 2¾ inches, has a capacity of fully half an ounce, and is made of one piece of soft rubber with conical point. To protect this soft point and to prevent pocket dust from getting into the Syringe, a Hard Rubber cap screws air-tight over it and enables the patient to carry it in his pocket filled with the injection ordered, ready for use when away from home.

For sale by all druggists.

THE GOODYEAR RUBBER CO.,

49 MAIDEN LANE, NEW YORK.

A Phosphorized Cerebro-Spinant

(FRELIGH'S TONIC).

FORMULA.

Ten minims of the Tonic contain the equivalents (according to the formulæ of the U. S. P., and Dispensatory) of

Tinct. Nux Strychnos,	1 minim.
" Ignatia Amara,	1 "
" Cinchona,	4 "
" Matricaria,	1 "
" Gentian,	½ "
" Columbo,	½ "
" Phosphorus, C. P.,	1-300 gr.
Aromatics,	2 minims.

Dose: 5 to 10 drops in 2 tablespoonfuls of water.

INDICATIONS.

Paralysis, Neurasthenia, Sick and Nervous Headache, Dyspepsia, Epilepsy, Locomotor Ataxia, Insomnia, Debility of Old Age, and in the Treatment of Mental and Nervous Diseases.

A BALTIMORE PHYSICIAN, WHOSE DIPLOMA DATES FROM 1825, SAYS:

"Your combination I find vastly more effective than any tonic I have ever used. It furnishes a most powerful evidence of the vastly increased power of medicament by combination and judicious pharmaceutic preparation."

Price, One Dollar per Bottle, containing 100 of the Average 5-Drop Doses.—Physicians' single sample delivered, charges prepaid, on application. That every physician may be his own judge of its value, irrespective of the opinions of others, we make the following

SPECIAL OFFER:

We will send to any physician, delivered, charges prepaid, on receipt of twenty-five cents, and his card or letter-head, half a dozen physicians' samples, sufficient to test it on as many cases for a week to ten days each. The Tonic is kept in stock regularly by all the leading wholesale druggists of the country. As we furnish no samples through the trade, wholesale or retail, for samples, directions, price-lists, etc., address,

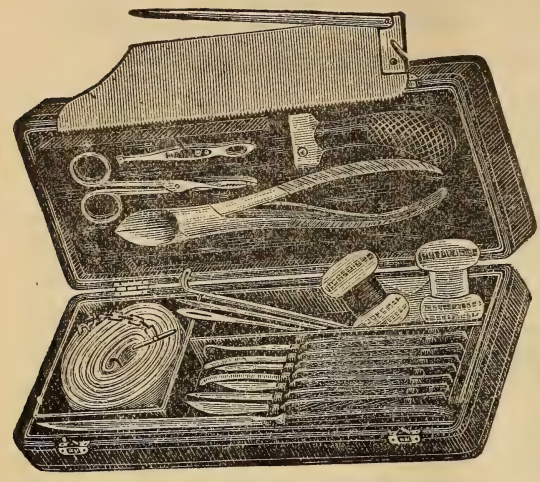
Manufacturers of Physicians' Specialties,

No. 88 Maiden Lane, New York City.

LENTZ'S ASEPTIC COMPACT OPERATING SET, No. 10.



We have from time to time made improvements to this set and are now making a perfect aseptic set, which offers especial facilities for aseptic precautions; the blades are soldered into hollow German-silver handles, nickel-plated, are light so as not to be unwieldy and admit of a firm grasp when operating.

The saw is adjusted to the handle on an entirely new principle, being made to separate easily and to facilitate thorough cleansing.

The handle is entirely of metal and fenestrated to overcome unnecessary weight.

Scissors and Forceps having French locks can be separated, and the slide can be easily removed from Artery and Needle Forceps.

Therefore, no opportunity is offered for the lodgment and development of germs.

The entire set is patterned with especial reference to facility in cleansing.

The instruments can be sterilized by placing them in boiling water, without fear of damaging them. Wood or rubber handles will not admit of this procedure. For price, see case A.

The following instruments are put up in either a fine Mahogany or Morocco case, with nickel trimmings, lined with velvet, and has an extra space for Trephine with handle, and Elevator if desired.

One Amputating Knife (6 in. blade); One Finger Knife; One Hernia Knife; One Sharp Curved Bistoury; Two Scalpels; One Tenotome; One Tenaculum; One Pair Scissors, curved or flat; One Saw (9 in. blade); One Liston's Bone Forceps, with Spring; One Artery and Needle Forceps, improved; One Esmarch's Flat Rubber Tourniquet, with Chain; One Hæmostatic Forceps; One Director, with Aneurism Needle; Two Silver Probes; Silk, Wire, Wax and Needles.

With the Sixteen Instruments Contained in this Case, any Ordinary Operation may be Performed.

SIZE, 11 INCHES LONG, 4 INCHES WIDE, 2 INCHES HIGH.

A.—German Silver aseptic Handles on Knives and Saw, ... $34 00
B.—Hard Rubber aseptic Handles on Knives and Saw, ... 29 00

GRAND NATIONAL PRIZE OF 16,600 FRANCS,

QUINA-LAROCHE

This meritorious **Elixir, QUINA-LAROCHE,** is prepared from the **three** Cinchonas; it is an agreeable and doubtless highly efficacious remedy.

—*The Lancet.*

VINOUS ELIXIR,

A STIMULATING RESTORATIVE

—AND—

ANTI-FEBRILE TONIC.

QUINA-LAROCHE under the form of a vinous **Elixir** contains the totality of the numerous principles of the **three** Cinchona barks. It is a preparation which renders great services to Therapeutics.—Extract of the *Gazette des Hôpitaux*, Paris.

FAR SUPERIOR TO ALL ORDINARY CINCHONA WINES.

LAROCHE'S QUINA, tried by the Academy of Medicine of Paris, is a specially prepared COMPOUND EXTRACT of Quinquina, a careful analysis, confirmed by experience, has shown that most of the wines and syrups hitherto used have not contained all the properties of this precious bark, of these some, although beneficial, are altogether lost, while many preparations contain but half the properties of the bark in varying proportions.

MR. LAROCHE, by his peculiar method, has succeeded in extracting all the active principles of the quinquina, combining these with *Catalan Wine* forming an Elixir free from the disagreeable bitterness of other similar preparations. Practitioners have found triple advantages in the use of this Elixir, it is a *strong tonic*, is easily administered, and perfectly harmless, being free from the unpleasant effects of Quinine.

THE FERRUGINOUS QUINA-LAROCHE is the invigorating tonic *par excellence*, having the advantage of being easily assimilated by the gastric juice; without, in any way, deranging the action of the digestive organs, proving itself to be a most efficacious remedy in cases of impoverishment of the blood, ANÆMIA, CHLOROSIS, INTESTINAL HÆMORRHAGE, CASTRALGIA, EXHAUSTION, ETC., ETC.

PARIS.—22 RUE DROUOT.—PARIS.

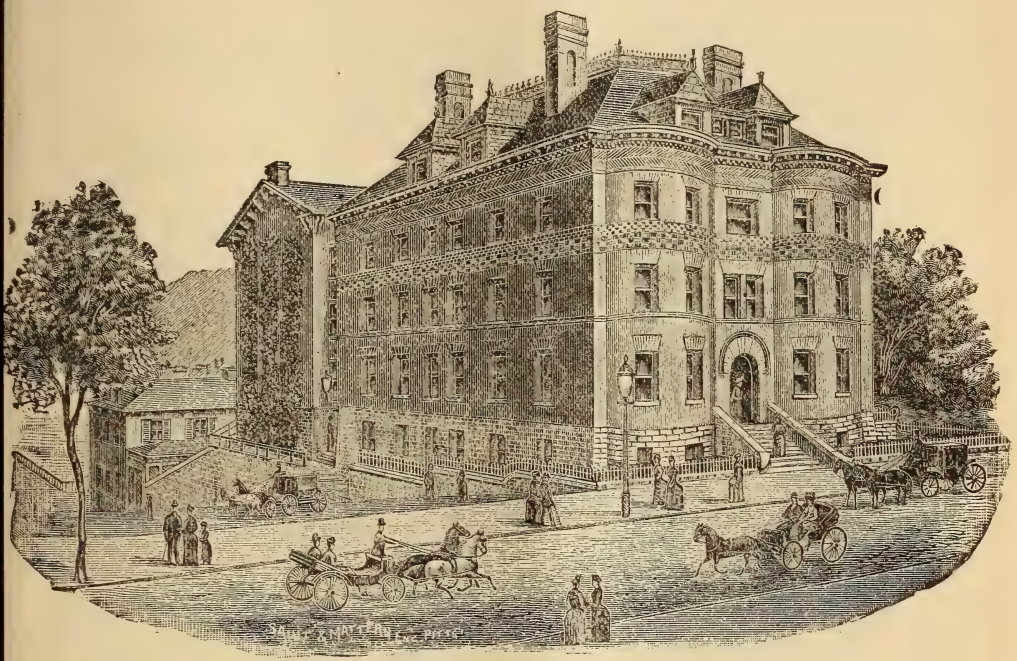
DR. R. S. SUTTON'S

Sanatorium for Diseases of Women.



Seventh Year Opens September 1, 1889.

ALLEGHENY CITY, PA.

This Institution is located on high ground, and overlooks the Allegheny, Monongahela and Ohio rivers; it commands a view of the city of Pittsburgh, and its picturesque surroundings. The building is large and beautiful, it is provided with every modern convenience, the halls are heated by steam, the rooms are commodious, well lighted and ventilated, and heated by open grates. The house is provided with a private parlor and reading-room for patients. The dining-room is large, handsomely finished, and furnished with small tables, securing privacy at meals for those who do not care to have meals served in their own rooms. Patients can be as secluded, should they desire it, as in a well appointed hotel. Each patient is examined by Dr. Sutton, and receives his daily personal attention, while Dr. J. H. Williamson, a physician of ample hospital experience, resides in the Institution, and has, under Dr. Sutton, the immediate care of the patients. The Institution accommodates 25 patients, and is equal in comfort to the best hotels.

Electricity, baths, douches, massage, local treatment, general medication and surgical operations are resorted to according to the requirements of each patient.

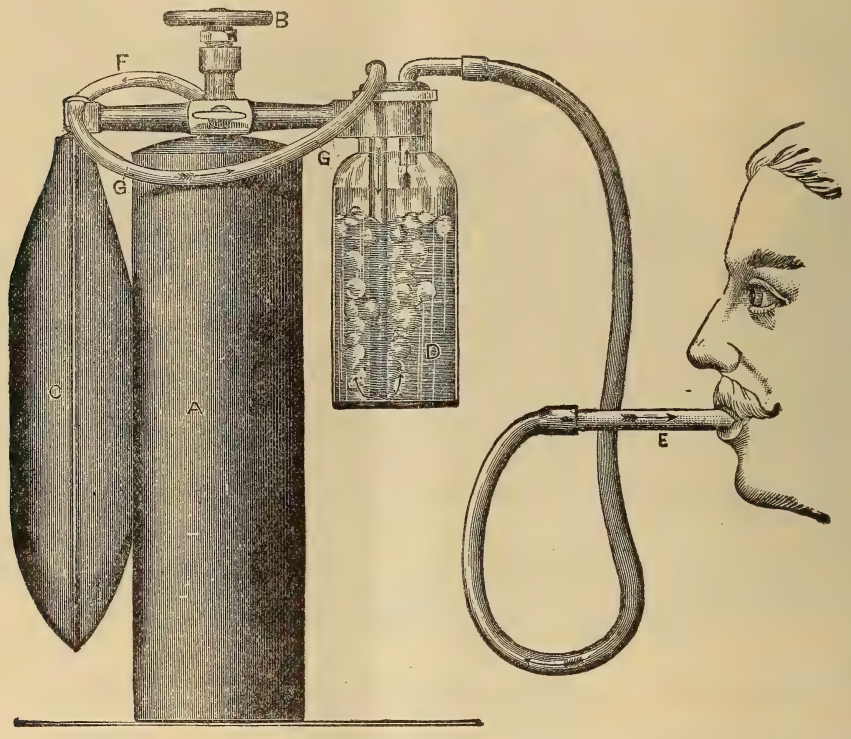
INHALATION APPARATUS

FOR

THE THERAPEUTIC ADMINISTRATION OF OXYGEN.



In the treatment of lung troubles by Oxygen its exhibition by inhalation is preferred. The apparatus herewith shown is a modification of the Nitrous Oxide apparatus which we have supplied for many years. It is made in the best manner throughout, and is the outcome of years of experience in the manufacture of gas apparatus. It will be found to meet all the requirements.

We supply the gas in two sizes of cylinders, containing respectively forty and one hundred gallons, either pure Oxygen, or a mixture of Oxygen and Nitrous Oxide in definite proportions of 20 per cent., and forty per cent. of Nitrous Oxide.

Whether pure or mixed the gas is sold at the uniform price of 5 cents a gallon. The cost of the cylinders will be refunded on their return empty with the valves in good condition. Full description of Inhalation and Enema apparatuses with directions for use accompany each apparatus, or will be supplied on application.

PRICES.

Inhalation Apparatus	$5.00
Cylinder, 40 gallons' capacity	6.00
40 gallons Gas, either pure Oxygen or mixed Oxygen and Nitrous Oxide	2.00
Complete Apparatus, Cylinder, and 40 gallons Gas	$13.00
Inhalation Apparatus	$5.00
Cylinder, 100 gallons' capacity	15.00
100 gallons Gas, either pure or mixed	5.00
Complete Apparatus, Cylinder, and 100 gallons Gas	$25.00

LISTERINE

NON-TOXIC, NON-IRRITANT, NON-ESCHAROTIC.

FORMULA—Listerine is the essential antiseptic constituent of Thyme, Eucalyptus, Baptisia, Gaultheria and Mentha Arvensis, in combination. Each fluid drachm also contains two grains of refined and purified Benzo-boracic Acid.

DOSE—Internally: One teaspoonful three or more times a day (as indicated) either full strength, or diluted, as necessary for varied conditions.

LISTERINE is a well-proven antiseptic agent—an antizymotic—especially adapted to internal use, and to make and maintain surgical cleanliness—asepsis—in the treatment of all parts of the human body, whether by spray, irrigation, atomization, or simple local application, and therefore characterized by its particular adaptability to the field of

PREVENTIVE MEDICINE—INDIVIDUAL PROPHYLAXIS.

Diseases of the Uric Acid Diathesis.

LAMBERT'S

LITHIATED HYDRANGEA

KIDNEY ALTERATIVE—ANTI-LITHIC.

FORMULA—Each fluid drachm of "Lithiated Hydrangea" represents thirty grains of FRESH HYDRANGEA and three grains of CHEMICALLY PURE Benzo-Salicylate of Lithia. Prepared by our improved process of osmosis, it is INVARIABLY of DEFINITE and UNIFORM therapeutic strength, and hence can be depended upon in clinical practice.

DOSE—One or two teaspoonfuls four times a day (preferably between meals).

Urinary Calculus, Gout, Rheumatism, Bright's Disease, Diabetes, Cystitis, Hæmaturia Albuminuria, and Vesical irritations generally.

We have much valuable literature upon { GENERAL ANTISEPTIC TREATMENT, LITHEMIA, DIABETES, CYSTITIS, ETC. } To forward to Physicians upon request.

LAMBERT PHARMACAL CO., ST. LOUIS, MO.

GENOIS'

Diastasic Extract of Malt,

A PURE LIQUID EXTRACT OF MALT.

CONTAINING at least 12 per cent. of extractive matter, rich in nitrogenous principles, and less than 4 per cent. of alcohol for its preservation. It is recommended for the treatment of dyspepsia, defective nutrition, flatulence, etc., as well as for a tonic. It is also recommended to persons suffering from insomnia. Its sedative and soporific action is gentle and gradual. Generally prescribed by physicians. It is now the standard malt in the market. Over 300 gross sold in Philadelphia last year. Obtainable from the retail drug trade.

Champagne ANALYZED

Of Interest to all Medical Practitioners.

WHAT IS SAID BY

THOMAS KING CHAMBERS, M.D., F.R.C.P.
R. OGDEN DOREMUS, M.D.
F. W. PAVY, M.D., F.R.S.

"Champagne, with a minimum of alcohol, is by far the wholesomest, and possesses remarkable exhilarating power."—THOMAS KING CHAMBERS, M.D., F.R.C.P.

"Having occasion to investigate the question of wholesome beverages, I have made a chemical analysis of the most prominent brands of Champagne. I find G. H. Mumm & Co.'s Extra Dry to contain, in a marked degree, less alcohol than the others. I therefore most cordially commend it not only for its purity but as the most wholesome of the Champagnes."—R. OGDEN DOREMUS, M.D., *Professor of Chemistry, Bellevue Hospital Medical College, New York.*

"Champagne, while only possessing the alcoholic strength of natural wines, is useful for exciting the flagging powers in case of exhaustion."—F. W. PAVY, M.D., F.R.S., *Lecturer on Physiology at Guy's Hospital, London.*

The remarkable vintage of 1884 of **C. H. MUMM & CO.'S EXTRA DRY CHAMPAGNE,** the finest for a number of years.
Pronounced by connoisseurs unsurpassed for excellence and bouquet.

FRED'K DE BARY & CO., New York,

SOLE AGENTS IN THE UNITED STATES AND CANADA.

MAKERS OF

The Most Active and Reliable Preparations of the Digestive Ferments

In every useful and reliable combination—as remedies per se—for the Artificial Digestion of MILK, BEEF, GRUELS and other Peptonized Food for the Sick and for the Qualitative and Quantitative Modification of Cows' Milk to the Standard of Normal Human Milk as a food for Bottle-Fed Infants.

82 and 84 Fulton St., New York City.

"THIS IS AN AGE OF APOLLINARIS WATER."
—WALTER BESANT.

Apollinaris

"THE QUEEN OF TABLE WATERS."

The filling at the Apollinaris Spring (Rhenish Prussia), amounted to

11,894,000 BOTTLES IN **1887,**
12,720,000 BOTTLES IN **1888** AND
15,822,000 BOTTLES IN **1889.**

"The annual consumption of this favorite beverage affords a striking proof of the widespread demand which exists for table water of absolute purity, and it is satisfactory to find that, wherever one travels, in either hemisphere, it is to be met with; it is ubiquitous, and should be known as the cosmopolitan table water. 'Quod ab omnibus, quod ubique.'"—BRITISH MEDICAL JOURNAL.

THE BEST NATURAL APERIENT.

THE APOLLINARIS COMPANY, LIMITED, London, beg to announce that, as numerous APERIENT WATERS are offered to the public under names of which the word "Hunyadi" forms part, they have now adopted an additional Label comprising their Registered Trade Mark of selection, which consists of

A RED DIAMOND.

This Label will henceforth also serve to distinguish the HUNGARIAN APERIENT WATER SOLD BY THE COMPANY from all other Aperient Waters.

DEMAND THE 
DIAMOND MARK.

And insist upon receiving the HUNGARIAN APERIENT WATER of the APOLLINARIS COMPANY, LIMITED, London.

BOUDAULT'S PEPSINE

The only Pepsine used in the Hospitals of Paris for the last Thirty Years.

Unlike the various substitutes which, in most cases, are but unscientific or incompatible compounds, forced upon the Medical Profession as aids to digestion by extensive advertising, but which, when submitted to the proper tests, are found to be useless as digestive agents, Pepsine is constantly gaining in the esteem of the careful practitioner.

Since the introduction of Pepsine by Boudault and Corvisart in 1854, the original BOUDAULT'S PEPSINE HAS BEEN AT ALL TIMES CONSIDERED THE BEST, as is attested by the awards it has received at the Expositions of 1867, 1868, 187 1873, in 1876 at the Centennial Exposition of Philadelphia, and in 1878 at the Paris Exposition.

The most reliable tests, carefully applied, will satisfy everyone that BOUDAULT'S PEPSINE HAS A MUCH HIGHER DIGESTIVE POWER than the best Pepsines now before the Profession, and is therefore especially worthy of their attention.

BOUDAULT'S PEPSINE is prepared in the form of Pepsine Acid and Pepsine Neutral. It is sold in bottles of one ounce, with a measure containing exactly five grains; also in bottles of four, eight, and sixteen ounces for dispensing.

BOUDAULT'S WINE OF PEPSINE

FORMULA OF DR. CORVISART.

The taste of Pepsine being perfectly disguised in this Wine, it may be recommended to persons who have difficulty in taking Pepsine in the form of Powder. This Wine is tested so that a tablespoonful of it is equal in digestive power to ten grains of Boudault's Pepsine in powder. Sold only in bottles of eight ounces.

TANRET'S PELLETIERINE

For the Treatment of Tape-Worm (Tænia Solium).

This New Tænifuge, the Active Alkaloid of Pomegranate Bark, has of late come into extensive use in France for the treatment of Tape-Worm (Tænia Solium). The results of numerous experiments with it at the Marine Hospitals of Toulon, St. Mandrier, etc., and in the Hospitals of Paris, St. Antoine, La Charité, Necker Beaujon, etc., have all been most satisfactory. Doctor Dujardin Beaumetz, Member of the Academy of Medicine, and Professor Laboulbene, in their report to the Society of Therapeutics, have given it their unqualified approval, after the most searching experiments. This preparation is pleasant to administer, and, if certain preliminaries are observed, success will be insured.

Sold only in bottles containing one dose.

DUCRO'S ALIMENTARY ELIXIR

A Combination uniting the properties of Alcoholic Stimulants and Raw Meat.

This preparation, which has been used with great success in the hospitals of Paris since 1868, is adapted to the treatment of all diseases requiring administration, in a small volume, of a tonic able to stimulate and support the vital forces, as *Pulmonar Phthisis, Depression and Nervous Debility, Adynamia, Malarious Cachexia, etc.*

Prepared by EMILE DURIEZ & CO., Successors to DUCRO & CIE, Paris.

KIRKWOOD'S INHALER

This is the only complete, reliable, and effective inhaler in use, arranged for the direct application of Muriate of Ammonia and other remedial agents in the state of vapor to the diseased parts of the air-passages in the treatment of catarrh and diseases of the throat and lungs. No heat or warm liquids required in its use.

It is entirely different from the various frail, cheap instruments that have been introduced.

KIRKWOOD'S INHALER is accompanied by testimonials of the highest professional character, together with carefully prepared formulas for use.

RETAIL PRICE, COMPLETE, $2.50.

☞ A liberal discount allowed to the trade and profession. For descriptive pamphlet or other information address

E. FOUGERA & CO., 30 North William St., New York.

Sole Agents for the above Preparations.

GARDNER'S

SYRUP OF HYDRIODIC ACID,

Introduced in 1878 by R. W. GARDNER.

The Reputation which Hydriodic Acid has Attained During the past Eleven Years was Won by this Preparation.

Numerous Imitations prepared differently, and weaker in Iodine, are offered, from the use of which the same therapeutic effects cannot be obtained.

Caution.—Use no Syrup of Hydriodic Acid which has turned red. This shows decomposition and free Iodine. In this state it acts as an irritant and fails to produce desirable results.

Unprincipled apothecaries substitute imitations when Gardner's Syrup is prescribed, and physicians, failing to get desirable and promised results, attribute the fault, unjustly, to Gardner's Syrup.

THERAPEUTIC INDICATIONS.

Hay Fever; Rose Cold; Poisoning by Lead, Mercury or Arsenic; Acute and Chronic Rheumatism; Asthma; Chronic Bronchitis; Catarrh; Congestion of Lungs in Children; Adenitis; Eczema; Lupus; Chronic Malarial Poisoning; Lumbago; Acute Pneumonia; Psoriasis; Scrofulous Diseases; Goitre; Enlarged Glands; Cold Abscesses; Indolent Sores; Excessive Fat; Fatty Degeneration of the Heart; to absorb non-malignant Tumors; and in the latter stages of Syphilis; Syphilitic Phthisis.

Details of treatment furnished physicians upon application to undersigned without charge.

Gardner's Chemically Pure Syrups of Hypophosphites.

Embracing the separate Syrups of Lime, of Soda, of Iron, of Potassa, of Manganese, and an Elixir of the Quinia Salt; enabling physicians to accurately follow Dr. Churchill's method, by which thousands of authenticated cases of Phthisis have been cured. The only salts, however, used by Churchill in Phthisis are those of Lime, of Soda, and of Quinia, and always separately according to indications,—never combined.

The reason for the use of single Salts is because of antagonistic action of the different bases, injurious and pathological action of Iron, Potassa, Manganese, etc., in this disease.

These facts have been demonstrated by thirty years' clinical experience in the treatment of this disease exclusively, by Dr. Churchill, who was the first to apply these remedies in Medical practice. Modified doses are also required in this disease; seven grains during twenty-four hours being the maximum dose in cases of Phthisis, because of increased susceptibility of the patient to their action, the danger of producing toxic symptoms (as hemorrhage, rapid softening of tubercular deposit, etc.), and the necessity that time be allowed the various functions to recuperate simultaneously; over-stimulation, by pushing the remedy, resulting in crisis and disaster.

A pamphlet of sixty-four pages, devoted to a full explanation of these details and others, such as contra-indicated remedies, indications for the use of each hypophosphite, reasons for the use of absolutely pure Salts, protected in Syrup from oxidation, etc., mailed to physicians without charge upon application to

R. W. GARDNER, 158 William St., N. Y. City.

W. H. SCHIEFFELIN & CO., Sole Wholesale Agents, New York.

CELERINA

NERVE TONIC, STIMULANT AND ANTISPASMODIC.

FORMULA.—Every Fluid Drachm represents FIVE grains EACH—Celery, Coca, Kola, Viburnum and Aromatics.

INDICATIONS.—Loss of Nerve-Power (so usual with Lawyers, Preachers, Writers and Business Men), Impotency, Spermatorrhea, Nervous Headache, Neuralgia, Paralysis, Hysteria, Opium Habit, Inebriety, Dyspepsia, and ALL LANGUID conditions of the System.

Indispensable to restore a patient after alcoholic excess.

DOSE.—One or two Teaspoonfuls three or more times a day, as directed by the Physician.

LIQUID IRON-RIO

Palatable and easily assimilated. Does not produce Nausea, nor irritate the Stomach. Does not Cause Headache, nor Constipate. Does not Stain the Teeth. It is so Acceptable to the Stomach that its Use is Admissible when all other forms of Iron would be rejected. Being so Readily Assimilable, it only requires a small Dose.

Each Fluid Drachm contains ONE GRAIN of Iron in a Pleasant and Digestible Form.

DOSE.—One or more Teaspoonfuls as indicated, during or after meals.

S. H. KENNEDY'S

CONCENTRATED EXTRACT OF

PINUS CANADENSIS

DARK. **A NON-ALCOHOLIC LIQUID.** WHITE.

A MOST VALUABLE NON-IRRITATING MUCOUS ASTRINGENT.

INDICATIONS.—Albuminuria, Diarrhea, Dysentery, Night-Sweats, Hemorrhages, Profuse Expectoration, Catarrh, Sore Throat, Leucorrhea, and other Vaginal Diseases, Piles, Sores, Ulcers, Burns, Scalds, Gonorrhea, Gleet, Etc.

When Used as an Injection, to Avoid Staining of Linen, the WHITE Pinus should be used.

RECOMMENDED BY PROMINENT EUROPEAN AND AMERICAN PHYSICIANS.

RIO CHEMICAL CO., St. Louis, Mo., U. S. A.

LONDON. PARIS. CALCUTTA. MONTREAL.

Requires No Cooking.

Liebig demonstrated that the best substitute for normal human milk was not the milk of any animal, but a combination of animal milk with the elements of those grains which are used in repairing waste, building tissues, and generating heat.

Mellin's Food

Dissolved in hot water and milk, according to the directions, is the genuine Liebig's Food, and promotes in infants a healthy growth, a full development, and a vigorous constitution. *It requires no cooking.*

MEDICAL AND SURGICAL REPORTER,

P. O. BOX 843. PHILADELPHIA.

The only prominent Emulsion of Cod-Liver Oil introduced directly to the medical profession. It is advertised exclusively in medical journals.

HYDROLEINE.

(HYDRATED OIL.)

Produces rapid increase in Flesh and Strength.

FORMULA.—Each Dose contains:			
Pure Cod Liver Oil.....80 m. (drops)		Soda.....1-3 Grains	
Distilled Water.....35 "		Salicylic Acid.....1-4 "	
Soluble Pancreatin..... 5 Grains.		Hyocholic Acid.....1-30 "	

Recommended and Prescribed by EMINENT PHYSICIANS Everywhere. It is pleasant to the Taste and acceptable to the most delicate Stomach.

IT IS ECONOMICAL IN USE AND CERTAIN IN RESULTS.

HYDROLEINE (Hydrated Oil) is not a simple alkaline emulsion of oleum morrhuæ, but a hydro-pancreated preparation, containing acids and a small percentage of soda. Pancreatin is the digestive principle of fatty foods, and in the soluble form here used, readily converts the oleaginous material into assimilable matter, a change so necessary to the reparative process in all wasting diseases.

The following are some of the diseases in which HYDROLEINE is indicated:

Phthisis, Tuberculosis, Catarrh, Cough, Scrofula, Chlorosis, General Debility, etc.

TO BRAIN WORKERS of all classes, **HYDROLEINE** is invaluable, supplying as it does, the true brain-food, and being more easily assimilated by the digestive organs than any other emulsion.

The principles upon which this discovery is based have been described in a treatise on "The Digestion and Assimilation of Fats in the Human Body," and "Consumption and Wasting Diseases," by two distinguished London physicians, which will be sent free on application.

SOLD BY DRUGGISTS GENERALLY.

C. N. CRITTENTON,

SOLE AGENT FOR THE UNITED STATES. 115 FULTON STREET, N. Y.

A Sample of Hydroleine will be sent free upon application, to any physician (enclosing business card) in the U. S.

There are on hand a small number of

CLEARANCE SALE

Pocket-Records

(VISITING-LISTS),

Dated for the year 1890.

There is nothing the matter with them, but as the year is half gone we will sell them now for 50 cents.

Send money with order.

MEDICAL AND SURGICAL REPORTER,

P. O. Box 843, Philadelphia, Pa.

An Open Letter to the Medical Profession.

THE INFANT FOOD PROBLEM SOLVED.

NEW YORK, May 1, 1890.

The Annual of the Universal Medical Sciences for 1889 says: "A perfect Infant Food is still a desideratum; such a food will probably be evolved in the mind of some manufacturer who understands the physiology of infantile digestion and the chemistry of milk. A substitute for human milk to approximate the latter closely should be made entirely from cow's milk, without the addition of any ingredient not derived from milk."

"But not alone do we demand that these Milk Foods contain the equivalent of the solids in human milk, and especially of the albuminoids derived from milk, but that the latter be gathered with the utmost care from properly fed animals, transported with the least possible jolting to the factory, maintained during its transit at a low temperature, then transferred to an apparatus for sterilization, and immediately after the latter has been accomplished reduced to the dry state, in order to prevent the formation of those organisms which Loeffer, Pasteur, and Lester have found to develop in fluid milk after boiling under an alkaline reaction. If such a preparation be put into air-tight and sterilized jars, all will have been accomplished that can be done to render the food sterile, and thus fulfil the chief indications in the prevention of the most serious gastro-intestinal derangements."

"Such a food, too, would have the advantage of being easily and rapidly prepared by addition of sterilized water, affording an altogether sterilized food."

To the *Medical Profession* at large we submit for examination and trial the perfected Milk Food known as LACTO-PREPARATA. We claim that LACTO-PREPARATA is an *ideal Infant Food*, and that it fulfils the above requirements in every particular, except the partial substitution of unstable milk-fat for cocoa-butter. This substitution was made by advice of Prof. Attfield, London, who made extensive tests of its food value and digestibility in the London Hospitals for Infants.

LACTO-PREPARATA is made from cow's milk evaporated in vacuo a few hours after it leaves the udder. In order to have the product correspond in composition with breast-milk, sufficient milk-sugar is added to bring up the carbohydrates and reduce the albuminoids to a proper proportion (17 per cent.). The casein is partially pre-digested (30 per cent.), and the remaining portion is rendered like human milk in character and digestibility. The ingredients are perfectly sterilized and placed in hermetically sealed cans; the powdering, bolting, and canning are done in an air-tight room, all air entering and leaving this room is forced by a blower through heavy layers of cotton. LACTO-PREPARATA is adapted more especially to infants from birth to six months of age; *and by the addition of water alone represents almost perfectly human milk in taste, composition, and digestibility.*

Another product of our laboratory which has been before the profession for a number of years is CARNRICK'S SOLUBLE FOOD, which, as now prepared and perfected, contains 37½ per cent. of the solid constituents of milk, 37½ per cent. of wheat with the starch converted into dextrine and soluble starch, and 25 per cent. additional milk-sugar. For infants over six months of age it is perfect in every respect; for infants younger than this, LACTO-PREPARATA is more suitable, although *Soluble Food* has also been used largely from birth with the most satisfactory results.

Samples will be sent prepaid, also pamphlet giving detailed description.

REED & CARNRICK, NEW YORK.

TO THE MEDICAL PROFESSION.

SPECIAL MENTION.

In offering these special preparations, there is no attempt made to "prescribe for the physician," but simply to place within his reach elegant and palatable combinations of known value, such as local pharmacists ordinarily have not the means of preparing.

Among our leading specialties we take pleasure in mentioning the following:

ALKALINE ELIXIR RHUBARB CO. AND PANCREATIN.

A combination of E. I. Rhubarb and Potass. Bicarbonate, āā 20 grs., Pancreatin, 16 grs., and Fluid Hydrastis, 10 ♏ to the fluid ounce. This is unequalled as an antacid, carminative, stomachic and digestive. It is very valuable in cholera infantum, infantile colics, dyspepsia and all abnormally acid conditions of the alimentary tract. Dose ½ to 4 teaspoonfuls every 1 to 4 hours, according to case and age.

ESSENCE OF PEPSIN (FLUID PEPSIN).

A direct solution of all the soluble constituents of the peptic glands of the pig's stomach, unchanged by chemical action or manipulation.

It is without bad odor or taste, and represents, in each fluid drachm, the digestive power of at least 20 grs. U. S. P. Sacch. Pepsin.

Readily used as a basis to which may be added Ammonio Cit. Bismuth, Strychnia, etc., as indicated.

This preparation is rapidly assuming its proper position *at the very front* of all preparations of pepsin.

NUTRITIVE HYPOPHOSPHITES.

A combination of the well-known formula of the hypophosphites of Lime, Soda, Iron, Potass., Quin., Strychnine and Manganese, with a vehicle of glycerine and cane-sugar syrup instead of glucose. More palatable, more permanent, and less likely to disturb the stomach. It is sold as a legitimate pharmaceutical preparation at legitimate prices, and is unequalled in elegance and efficacy by any similar preparation.

Specify Nutritive Hypophos.: Merrell.

ELIXIR PINUS COMPOSITUS.

Considered by those who have used it as the most valuable routine expectorant in the market. It is unlike the many syrups, etc., under similar names, and the difference will be readily appreciated when tried. Formula supplied to the profession.

EXTRACT TRIFOLIUM COMPOUND.

From the well-known and approved prescription of Dr. E. F. Rush, prepared in a concentrated form, one bottle will make 3 pints Syr. Trifolium comp'd. By its use a stronger or weaker syrup may be prepared as indicated. Formula furnished.

"Merrell Co.'s" "Green Drug," Fluid Extracts, True Salicylic Acid, Salts of Hydrastis, Fluid Hydrastis and Specialties may be obtained of wholesale druggists throughout the United States, at the Home Office at Cincinnati, or the New York Office, 96 Maiden Lane, New York City, Smith, Kline & Co., Philadelphia. Prices current and printed matter cheerfully supplied.

PIL. PHENACETINE ET SALOL, 5 GRS., "W. H. S. & CO."

{Phenacetine-Bayer, ... 2½ grs.
{Salol, ... 2½ grs.

Anti-Rheumatic and Analgesic. This combination was first suggested by Dr. M. F. Price, Colton, Cal., President of the "Southern California Medical Society." In an address to the members he says: "In a case of acute Rheumatism, affecting elbows, wrists, knees, and ankles, ordered Phanacetine and Salol every three hours. No local application ordered. Made five daily visits, found the patient each day improved, discharged with orders to continue the medicine three times a day for a week."

After citing other cases, one of Sciatica where the patient was suffering such pain that the slightest motion caused faintness with nausea and continuous vomiting; two with acute Rheumatism, and one with Neuralgia of the stomach, Dr. Price continues:

"It will be observed that in some of these cases I have combined Salol with Phanacetine. I did this on the principle of the well-known effect of Salicylic Acid in Rheumatism, but I rely on the Phenacetine for the relief of the pain, and in this way perhaps the cure of the disease causing it." (*Southern California Practitioner*, August, 1889.)

PIL. TERPIN HYDRAT., 2 GRS., "W. H. S. & CO.,"

A new and potent remedy in the treatment of coughs, catarrh, bronchitis, and kindred diseases.

Terpin Hydrate is indicated in cases where violent irritation of the bronchial mucous membrane exists, and where the secretion is inconsiderable and peculiarly viscid, such as is met with in the chronic catarrh accompanying emphysema and phthisis. The effect obtained is always an increase and a liquefaction of the secretion, a considerable reduction of the irritation, and easy expectoration.

SOLUBLE PILLS.

Advanced pharmacy has, of late years, bestowed much attention upon eliminating the objectionable features which pertained to Pills, but it is only since their manufacture has been undertaken in wholesale quantities by responsible and capable parties that they have been produced in their present excellent quality.

The conditions of a perfect Pill are:

1*st.* *Ingredients of the finest quality.*
2*d.* *All materials weighed with scrupulous exactness.*
3*d.* *The mass sufficiently consistent to maintain the globular form, and yet readily soluble in the stomach.*
4*th.* *A coating which will preserve the mass in good condition, cover all offensive smell or taste, and facilitate deglutition.*

The continued favor which has been shown to our **Soluble Pills** is sufficient evidence that care has been bestowed upon their manufacture.

As for the purity of the drugs entering into their composition, and the presence in full and exact quantity of every article required by the formula in each case, we can only give our assurance that no deviation from correctness in any particular is, or ever has been, permitted in their manufacture; and they invite the most critical examination and test, either of analysis or of therapeutic effect.

They possess the advantage of a perfect coating, which is neither hard, bulky, opaque, nor insuluble, but elastic, thin, transparent, and readily soluble.

For further information about them we refer to our formula books and price lists, which we shall be happy to furnish upon application.

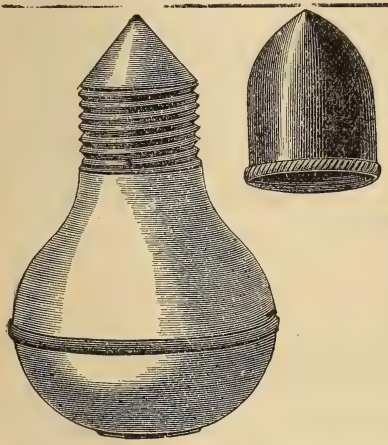
Price, 50 cents.



THE P.P.P. SYRINGE

Is universally considered the most perfect urethral Syringe in the market, because it combines within itself all desirable qualities. It measures but 1½ x 2¾ inches, has a capacity of fully half an ounce, and is made of one piece of soft rubber with conical point. To protect this soft point and to prevent pocket dust from getting into the Syringe, a Hard Rubber cap screws air-tight over it and enables the patient to carry it in his pocket filled with the injection ordered, ready for use when away from home.

For sale by all druggists.

THE GOODYEAR RUBBER CO.,

49 MAIDEN LANE, NEW YORK.

A Phosphorized Cerebro-Spinant

(FRELIGH'S TONIC).

FORMULA.

Ten minims of the Tonic contain the equivalents (according to the formulæ of the U. S. P., and Dispensatory) of

Tinct. Nux Strychnos,	1 minim.
" Ignatia Amara,	1 "
" Cinchona,	4 "
" Matricaria,	1 "
" Gentian,	½ "
" Columbo,	½ "
" Phosphorus, C. P.,	1-300 gr.
Aromatics,	2 minims.

Dose: 5 to 10 drops in 2 tablespoonfuls of water.

INDICATIONS.

Paralysis, Neurasthenia, Sick and Nervous Headache, Dyspepsia, Epilepsy, Locomotor Ataxia, Insomnia, Debility of Old Age, and in the Treatment of Mental and Nervous Diseases.

A BALTIMORE PHYSICIAN, WHOSE DIPLOMA DATES FROM 1825, SAYS:

"Your combination I find vastly more effective than any tonic I have ever used. It furnishes a most powerful evidence of the vastly increased power of medicament by combination and judicious pharmaceutic preparation."

Price, One Dollar per Bottle, containing 100 of the Average 5-Drop Doses.—Physicians' single sample delivered, charges prepaid, on application. That every physician may be his own judge of its value, irrespective of the opinions of others, we make the following

SPECIAL OFFER:

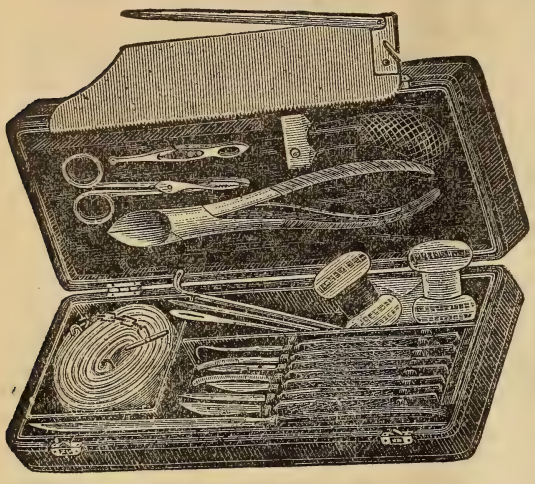
We will send to any physician, delivered, charges prepaid, on receipt of twenty-five cents, and his card or letter-head, half a dozen physicians' samples, sufficient to test it on as many cases for a week to ten days each. The Tonic is kept in stock regularly by all the leading wholesale druggists of the country. As we furnish no samples through the trade, wholesale or retail, for samples, directions, price-lists, etc., address,

I. O. WOODRUFF & CO.,

Manufacturers of Physicians' Specialties,

No. 88 Maiden Lane, New York City.

LENTZ'S ASEPTIC COMPACT OPERATING SET, No. 10.



We have from time to time made improvements to this set and are now making a perfect aseptic set, which offers especial facilities for aseptic precautions; the blades are soldered into hollow German-silver handles, nickel-plated, are light so as not to be unwieldy and admit of a firm grasp when operating.

The saw is adjusted to the handle on an entirely new principle, being made to separate easily and to facilitate thorough cleansing.

The handle is entirely of metal and fenestrated to overcome unnecessary weight.

Scissors and Forceps having French locks can be separated, and the slide can be easily removed from Artery and Needle Forceps.

Therefore, no opportunity is offered for the lodgment and development of germs.

The entire set is patterned with especial reference to facility in cleansing.

The instruments can be sterilized by placing them in boiling water, without fear of damaging them. Wood or rubber handles will not admit of this procedure. For price, see case A.

The following instruments are put up in either a fine Mahogany or Morocco case, with nickel trimmings, lined with velvet, and has an extra space for Trephine with handle, and Elevator if desired.

One Amputating Knife (6 in. blade); One Finger Knife; One Hernia Knife; One Sharp Curved Bistoury; Two Scalpels; One Tenotome; One Tenaculum; One Pair Scissors, curved or flat; One Saw (9 in. blade); One Liston's Bone Forceps, with Spring; One Artery and Needle Forceps, improved; One Esmarch's Flat Rubber Tourniquet, with Chain; One Hæmostatic Forceps; One Director, with Aneurism Needle; Two Silver Probes; Silk, Wire, Wax and Needles.

With the Sixteen Instruments Contained in this Case, any Ordinary Operation may be Performed.

SIZE, 11 INCHES LONG, 4 INCHES WIDE, 2 INCHES HIGH.

GRAND NATIONAL PRIZE OF 16,600 FRANCS,

QUINA-LAROCHE

This meritorious **Elixir, QUINA-LAROCHE,** is prepared from the **three** Cinchonas; it is an agreeable and doubtless highly efficacious remedy.

—*The Lancet.*

VINOUS ELIXIR,

A STIMULATING RESTORATIVE

—AND—

ANTI-FEBRILE TONIC.

QUINA-LAROCHE under the form of a vinous **Elixir** contains the totality of the numerous principles of the **three** Cinchona barks. It is a preparation which renders great services to Therapeutics.—Extract of the *Gazette des Hôpitaux*, Paris.

FAR SUPERIOR TO ALL ORDINARY CINCHONA WINES.

LAROCHE'S QUINA, tried by the Academy of Medicine of Paris, is a specially prepared COMPOUND EXTRACT of Quinquina, a careful analysis, confirmed by experience, has shown that most of the wines and syrups hitherto used have not contained all the properties of this precious bark, of these some, although beneficial, are altogether lost, while many preparations contain but half the properties of the bark in varying proportions.

MR. LAROCHE, by his peculiar method, has succeeded in extracting all the active principles of the quinquina, combining these with *Catalan Wine* forming an Elixir free from the disagreeable bitterness of other similar preparations. Practitioners have found triple advantages in the use of this Elixir, it is a *strong tonic*, is easily administered, and perfectly harmless, being free from the unpleasant effects of Quinine.

THE FERRUGINOUS QUINA-LAROCHE is the invigorating tonic *par excellence*, having the advantage of being easily assimilated by the gastric juice; without, in any way, deranging the action of the digestive organs, proving itself to be a most efficacious remedy in cases of impoverishment of the blood, ANÆMIA, CHLOROSIS, INTESTINAL HÆMORRHAGE, CASTRALGIA, EXHAUSTION, ETC., ETC.

PARIS.—22 RUE DROUOT.—PARIS.

"The Packer Manufacturing Co. make a soap from pure pine tar, vegetable oils, and glycerine, which is of marked value in dermatology." —*Medical Standard.*

It cleanses well, affords a fine lather; its employment is really delightful. 25 cents. Druggists.

BROMIDIA

THE HYPNOTIC.

FORMULA.—

Every fluid drachm contains 15 grains EACH of Pure Chloral Hydrat. and purified Brom. Pot., and one-eighth grain EACH of gen. imp. ext. Cannabis Ind. and Hyoscyam.

DOSE.—

One-half to one fluid drachm in WATER or SYRUP every hour, until sleep is produced.

INDICATIONS.--

Sleeplessness, Nervousness, Neuralgia, Headache, Convulsions, Colic, Mania, Epilepsy, Irritability, etc. In the restlessness and delirium of fevers it is absolutely invaluable.

IT DOES NOT LOCK UP THE SECRETIONS.

PAPINE

THE ANODYNE.

Papine is the Anodyne or pain-relieving principle of Opium, the Narcotic and Convulsive Elements being eliminated. It has less tendency to cause Nausea, Vomiting, Constipation, Etc.

INDICATIONS.—

Same as Opium or Morphia.

DOSE.—

(ONE FLUID DRACHM)—represents the Anodyne principle of one-eighth grain of Morphia.

IODIA

The Alterative and Uterine Tonic.

FORMULA.—

Iodia is a combination of active principles obtained from the Green Roots of Stillingia, Helonias, Saxifraga, Menispermum, and Aromatics. Each fluid drachm also contains five grains Iod. Potas., and three grains Phos. Iron.

DOSE.—

One or two fluid drachms (more or less as indicated) three times a day before meals.

INDICATIONS.—

Syphilitic, Scrofulous and Cutaneous Diseases, Dysmenorrhea, Menorrhagia, Leucorrhea, Amenorrhea, Impaired Vitality, Habitual Abortions, and General Uterine Debility.

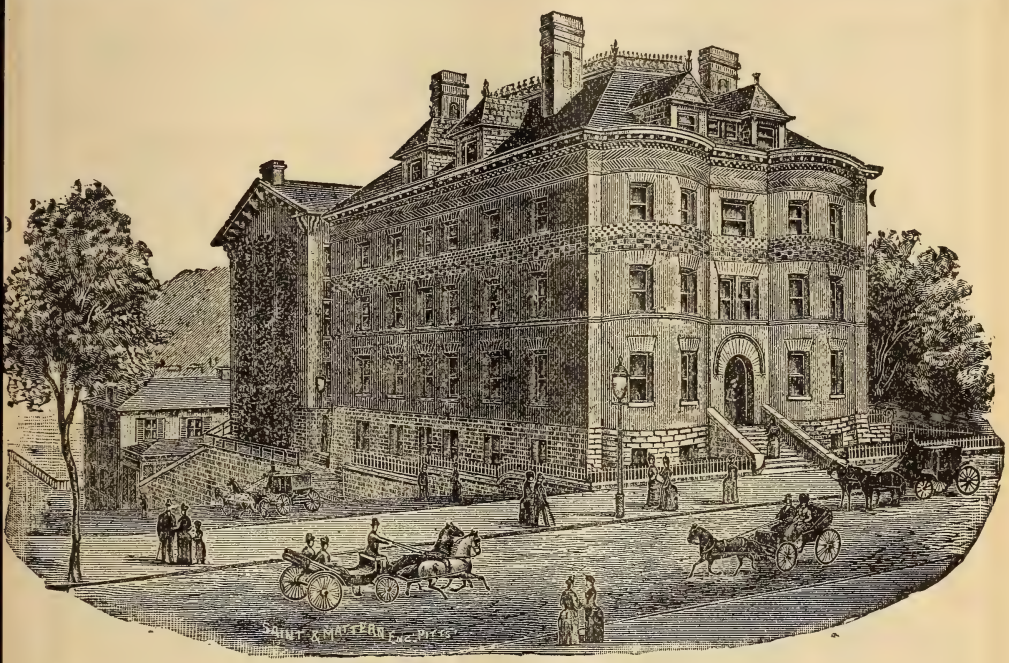
DR. R. S. SUTTON'S

Sanatorium for Diseases of Women.



Seventh Year Opens September 1, 1889.

ALLEGHENY CITY, PA.

This Institution is located on high ground, and overlooks the Allegheny, Monongahela and Ohio rivers; it commands a view of the city of Pittsburgh, and its picturesque surroundings. The building is large and beautiful, it is provided with every modern convenience, the halls are heated by steam, the rooms are commodious, well lighted and ventilated, and heated by open grates. The house is provided with a private parlor and reading-room for patients. The dining-room is large, handsomely finished, and furnished with small tables, securing privacy at meals for those who do not care to have meals served in their own rooms. Patients can be as secluded, should they desire it, as in a well appointed hotel. Each patient is examined by Dr. Sutton, and receives his daily personal attention, while Dr. J. H. Williamson, a physician of ample hospital experience, resides in the Institution, and has, under Dr. Sutton, the immediate care of the patients. The Institution accommodates 25 patients, and is equal in comfort to the best hotels.

Electricity, baths, douches, massage, local treatment, general medication and surgical operations are resorted to according to the requirements of each patient.

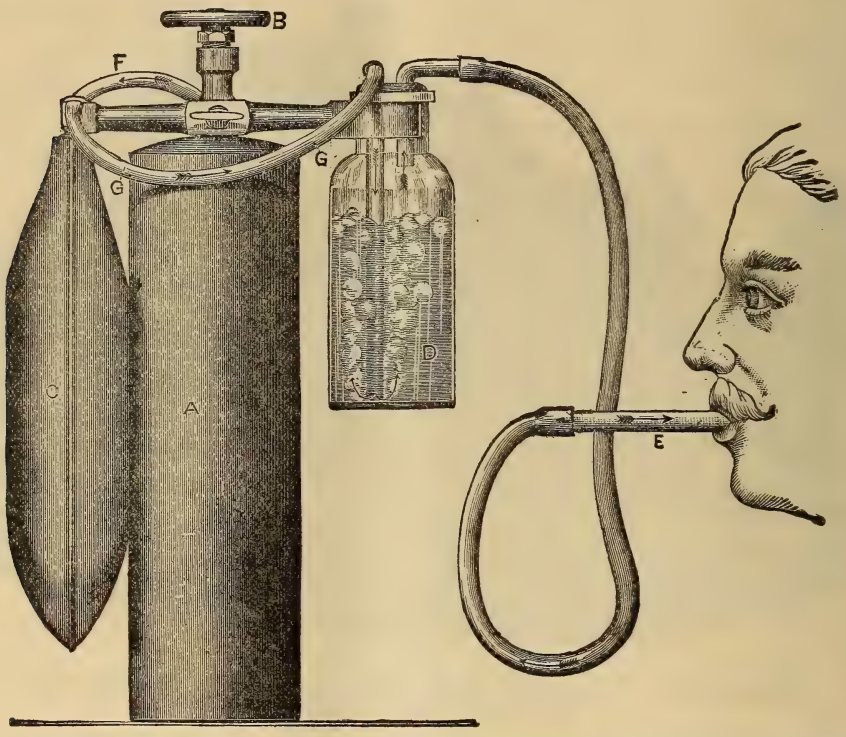
INHALATION APPARATUS

FOR

THE THERAPEUTIC ADMINISTRATION OF OXYGEN.



In the treatment of lung troubles by Oxygen its exhibition by inhalation is preferred. The apparatus herewith shown is a modification of the Nitrous Oxide apparatus which we have supplied for many years. It is made in the best manner throughout, and is the outcome of years of experience in the manufacture of gas apparatus. It will be found to meet all the requirements.

We supply the gas in two sizes of cylinders, containing respectively forty and one hundred gallons, either pure Oxygen, or a mixture of Oxygen and Nitrous Oxide in definite proportions of 20 per cent., and forty per cent. of Nitrous Oxide.

Whether pure or mixed the gas is sold at the uniform price of 5 cents a gallon. The cost of the cylinders will be refunded on their return empty with the valves in good condition. Full description of Inhalation and Enema apparatuses with directions for use accompany each apparatus, or will be supplied on application.

PRICES.

Inhalation Apparatus	$5.00
Cylinder, 40 gallons' capacity	6.00
40 gallons Gas, either pure Oxygen or mixed Oxygen and Nitrous Oxide	2.00
Complete Apparatus, Cylinder, and 40 gallons Gas	$13.00
Inhalation Apparatus	$5.00

THE S. S. WHITE DENTAL MFG. CO.,

PHILADELPHIA, NEW YORK, BOSTON, CHICAGO, BROOKLYN.

THE BEST ANTISEPTIC
FOR BOTH INTERNAL AND EXTERNAL USE.

ANTISEPTIC, PROPHYLACTIC, DEODORANT.

LISTERINE

NON-TOXIC. NON-IRRITANT. NON-ESCHAROTIC.

FORMULA—Listerine is the essential antiseptic constituent of Thyme, Eucalyptus, Baptisia, Gaultheria and Mentha Arvensis, in combination. Each fluid drachm also contains two grains of refined and purified Benzo-boracic Acid.

DOSE—Internally: One teaspoonful three or more times a day (as indicated) either full strength, or diluted, as necessary for varied conditions.

LISTERINE is a well-proven antiseptic agent—an antizymotic—especially adapted to internal use, and to make and maintain surgical cleanliness—asepsis—in the treatment of all parts of the human body, whether by spray, irrigation, atomization, or simple local application, and therefore characterized by its particular adaptability to the field of

PREVENTIVE MEDICINE—INDIVIDUAL PROPHYLAXIS.

Diseases of the Uric Acid Diathesis.

LAMBERT'S

LITHIATED HYDRANGEA

KIDNEY ALTERATIVE—ANTI-LITHIC.

FORMULA—Each fluid drachm of "Lithiated Hydrangea" represents thirty grains of FRESH HYDRANGEA and three grains of CHEMICALLY PURE Benzo-Salicylate of Lithia. Prepared by our improved process of osmosis, it is INVARIABLY of DEFINITE and UNIFORM therapeutic strength, and hence can be depended upon in clinical practice.

DOSE—One or two teaspoonfuls four times a day (preferably between meals).

Urinary Calculus, Gout, Rheumatism, Bright's Disease, Diabetes, Cystitis, Hæmaturia Albuminuria, and Vesical irritations generally.

We have much valuable literature upon { GENERAL ANTISEPTIC TREATMENT, LITHEMIA, DIABETES, CYSTITIS, ETC. } To forward to Physicians upon request.

LAMBERT PHARMACAL CO., ST. LOUIS, MO.

GENOIS'

Diastasic Extract of Malt,

A PURE LIQUID EXTRACT OF MALT.

CONTAINING at least 12 per cent. of extractive matter, rich in nitrogenous principles, and less than 4 per cent. of alcohol for its preservation. It is recommended for the treatment of dyspepsia, defective nutrition, flatulence, etc., as well as for a tonic. It is also recommended to persons suffering from insomnia. Its sedative and soporific action is gentle and gradual. Generally prescribed by physicians. It is now the standard malt in the market. Over 300 gross sold in Philadelphia last year. Obtainable from the retail drug trade.

SPECIAL and RELIABLE FORMULÆ for PHYSICIANS' PRESCRIBING

The Coating will Dissolve in 4½ Minutes.

PIL. SUMBUL COMP.
(Wm. R. Warner & Co.)

(DR. GOODELL.)

℞—Ext. Sumbul.....1 gr. | Ferri Sulph. Ext.....1 gr.
Assafœtida.....2 gr. | Ac. Arsenious.....1-30 gr.

"I use this pill for nervous and hysterical women who need building up." This pill is used with advantage in neurasthenic conditions in connection with Warner & Co.'s Bromo-Soda, one or two pills taken three times a day.

PIL. LADY WEBSTER.
(Wm. R. Warner & Co.)

℞ Pulv. Aloes.....2 gr. | Pulv. Rose los.....½ gr.
" Mastic..... ½ gr. | M. ft. one pill.

Lady Webster Dinner Pills. This is an excellent combination officially designated as Aloes and Mastich, U. S. P. We take very great pleasure in asking physicians to prescribe them more liberally, as they are very excellent as an aperient for persons of full habit or gouty tendency when given in doses of one pill after dinner.

PIL. ALOIN, BELLADONNA, AND STRYCHNINE.
(Wm. R. Warner & Co.)

℞—Aloin, 1-5 gr. Strychnine, 1-60 gr. Ext. Belladonna, ⅛ gr.

Medical Properties—Tonic, Laxative. Dose, 1 to 2 Pills.

Try this Pill in habitual constipation.

PIL. ARTHROSIA.
(Wm. R. Warner & Co.)

FOR CURE OF RHEUMATISM AND RHEUMATIC GOUT.

Formula.—Acidum Salicylicum; Resina Podophyllum; Quinia; Ext. Colchicum; Ext. Phytolacca; Capsicum.

Almost a specific in Rheumatic and Gouty Affections.

PIL. CHALYBEATE COMP.
(Wm. R. Warner & Co.)

Same as Pil. Chalybeate, with 1-6 gr. Ext. Nux Vomica added to each Pill to increase the tonic effect. Dose, 1 to 3 Pills.

PIL. DIGESTIVA.
(Wm. R. Warner & Co.)

A VALUABLE AID TO DIGESTION.

℞—Pepsin Conc't.....1 gr. | Gingerine.....1-16 gr.
Pv. Nux Vom..... ¼ gr. | Sulphur.....⅛ gr.
IN EACH PILL.

This combination is very useful in relieving various forms of Dyspepsia and Indigestion, and will afford permanent benefit in cases of enfeebled digestion, where the gastric juices are not properly secreted.

As a dinner pill, Pil. Digestiva is unequalled, and may be taken in doses of a single pill either before or after eating.

VALUABLE MEDICAL WORKS.

PUBLISHED BY J. B. LIPPINCOTT COMPANY.

THOROUGHLY REVISED.

Agnew's Surgery.

Second edition. A Treatise on Surgical Diseases and Injuries. By D. HAYES AGNEW, M. D., LL. D., Professor of Surgery in the Medical Department of the University of Pennsylvania. Profusely illustrated. Three Volumes. 8vo. Price, per volume: Extra cloth, $7.50; sheep, $8.50; half Russia, $9.00.

"Every chapter is pregnant with wisdom, and the physician who daily turns the pages of 'Agnew's Surgery' need have no fear of ever wandering far astray from the safe path of treatment."—*Philadelphia Medical Bulletin.*

United States Dispensatory.

New (16th) *edition.* Illustrated. Carefully revised and rewritten by H. C. WOOD, M. D., LL. D., JOSEPH P. REMINGTON, Ph. M., F. C. S., SAMUEL P. SADTLER, Ph. D., F. C. S. Containing more than 800 pages of new material. Green title label distinguishes the binding of the sixteenth edition. Cloth extra, $7.00; best leather, raised bands, $8.00; half Russia, raised bands, $9.00. For facility of reference, Denison's Patent Index will be inserted for $1.00 additional to these prices.

"We commend this work as a most valuable addition not only to pharmaceutical literature, but to the medical profession as almost invaluable. Its literature, its chemistry, and its pharmacy are fully up to any similar work here or abroad of its kind, and the high standard of excellence in the past is only enhanced by the thoroughly reliable and trustworthy work of the present edition."—*Pharmaceutical Record, N. Y.*

For sale by all Booksellers, or will be sent by the Publishers, postpaid, on receipt of the price.

"THIS IS AN AGE OF APOLLINARIS WATER."
—WALTER BESANT.

Apollinaris

"THE QUEEN OF TABLE WATERS."

The filling at the Apollinaris Spring (Rhenish Prussia), amounted to

11,894,000 BOTTLES IN **1887,**
12,720,000 BOTTLES IN **1888** AND
15,822,000 BOTTLES IN **1889.**

"The annual consumption of this favorite beverage affords a striking proof of the widespread demand which exists for table water of absolute purity, and it is satisfactory to find that, wherever one travels, in either hemisphere, it is to be met with; it is ubiquitous, and should be known as the cosmopolitan table water. 'Quod ab omnibus, quod ubique.'"—
BRITISH MEDICAL JOURNAL.

THE BEST NATURAL APERIENT.

THE APOLLINARIS COMPANY, LIMITED, London, beg to announce that, as numerous APERIENT WATERS are offered to the public under names of which the word "Hunyadi" forms part, they have now adopted an additional Label comprising their Registered Trade Mark of selection, which consists of

A RED DIAMOND.

This Label will henceforth also serve to distinguish the HUNGARIAN APERIENT WATER SOLD BY THE COMPANY from all other Aperient Waters.

DEMAND THE 
DIAMOND MARK.

And insist upon receiving the HUNGARIAN APERIENT WATER of the APOLLINARIS COMPANY, LIMITED, London.

BOUDAULT'S PEPSINE

The only Pepsine used in the Hospitals of Paris for the last Thirty Years.

Unlike the various substitutes which, in most cases, are but unscientific or incompatible compounds, forced upon the Medical Profession as aids to digestion by extensive advertising, but which, when submitted to the proper tests, are found to be useless as digestive agents, Pepsine is constantly gaining in the esteem of the careful practitioner.

Since the introduction of Pepsine by Boudault and Corvisart in 1854, the original BOUDAULT'S PEPSINE HAS BEEN AT ALL TIMES CONSIDERED THE BEST, as is attested by the awards it has received at the Expositions of 1867, 1868, 1873, in 1876 at the Centennial Exposition of Philadelphia, and in 1878 at the Paris Exposition.

The most reliable tests, carefully applied, will satisfy everyone that BOUDAULT'S PEPSINE HAS A MUCH HIGHER DIGESTIVE POWER than the best Pepsines now before the Profession, and is therefore especially worthy of their attention.

BOUDAULT'S PEPSINE is prepared in the form of Pepsine Acid and Pepsine Neutral. It is sold in bottles of one ounce, with a measure containing exactly five grains; also in bottles of four, eight, and sixteen ounces for dispensing.

BOUDAULT'S WINE OF PEPSINE

FORMULA OF DR. CORVISART.

The taste of Pepsine being perfectly disguised in this Wine, it may be recommended to persons who have difficulty in taking Pepsine in the form of Powder. This Wine is tested so that a tablespoonful of it is equal in digestive power to ten grains of Boudault's Pepsine in powder. Sold only in bottles of eight ounces.

TANRET'S PELLETIERINE

For the Treatment of Tape-Worm (Tænia Solium).

This New Tænifuge, the Active Alkaloid of Pomegranate Bark, has of late come into extensive use in France for the treatment of Tape-Worm (Tænia Solium). The results of numerous experiments with it at the Marine Hospitals of Toulon, St. Mandrier, etc., and in the Hospitals of Paris, St. Antoine, La Charité, Necker Beaujon, etc., have all been most satisfactory. Doctor Dujardin Beaumetz, Member of the Academy of Medicine, and Professor Laboulbene, in their report to the Society of Therapeutics, have given it their unqualified approval, after the most searching experiments. This preparation is pleasant to administer, and, if certain preliminaries are observed, success will be insured.

Sold only in bottles containing one dose.

DUCRO'S ALIMENTARY ELIXIR

A Combination uniting the properties of Alcoholic Stimulants and Raw Meat.

This preparation, which has been used with great success in the hospitals of Paris since 1868, is adapted to the treatment of all diseases requiring administration, in a small volume, of a tonic able to stimulate and support the vital forces, as *Pulmonar Phthisis, Depression and Nervous Debility, Adynamia, Malarious Cachexia, etc.*

Prepared by EMILE DURIEZ & CO., Successors to DUCRO & CIE, Paris.

KIRKWOOD'S INHALER

This is the only complete, reliable, and effective inhaler in use, arranged for the direct application of Muriate of Ammonia and other remedial agents in the state of vapor to the diseased parts of the air-passages in the treatment of catarrh and diseases of the throat and lungs. No heat or warm liquids required in its use.

It is entirely different from the various frail, cheap instruments that have been introduced.

KIRKWOOD'S INHALER is accompanied by testimonials of the highest professional character, together with carefully prepared formulas for use.

RETAIL PRICE, COMPLETE, $2.50.

☞ A liberal discount allowed to the trade and profession. For descriptive pamphlet or other information address

E. FOUGERA & CO., 30 North William St., New York.

Sole Agents for the above Preparations.

GOUDRON DE BLOUNT

PREPARED FROM THE GENUINE CAROLINA TAR.

DOSE.—One fluid drachm four or more times a day (as indicated), either full strength, diluted, or, in combination.

INDICATIONS.—Chronic and acute affections of the Air Passages, Coughs, Colds, Bronchitis, Asthma and Consumption.

WILLIAM MURRELL, M.D., F.R.C.P.,

Lecturer on Pharmacology and Therapeutics at the Westminster Hospital; Examiner in Materic Medica to the Royal College of Physicians of London; Fellow of the Medico-Chirurgical College of Philadelphia,

Says:—"I have used with success 'Goudron de Blount.' The results have been good, and the preparation is popular with patients."

REASONS FOR SPECIFYING FAIRCHILD'S PEPSIN.

It is the most active, gives the greatest value for the price asked.

One grain will digest more albumen than will a grain of any other pepsin made. We do not care by whose test, what the proportions of albumen, water, and acid, only let the conditions be the same for all.

It is positively guaranteed to be permanent. It will not get soft or sticky, or deteriorate in value, because it is not a peptone. It is free from all the well-known characteristics of peptone. It is not made by a patented or pirated process.

If you prescribe pepsin in scale or powder, and it becomes sticky, you may be sure that it is not Fairchild's. Investigate the matter, place the blame where it belongs.

There are pepsins "made to sell" under the title of scales—products which are inferior and dissimilar to Fairchild's pepsin in scales. They are peptones made by a patented process and sold under cover of a title first and properly used only by Fairchilds to describe their original, true pepsin in the form of scales.

The druggist is told "they are just as good as Fairchild's. If Fairchild's is not specified, put in mine." But claims and pretensions, however colossal, cannot make peptones permanent.

There is no soluble or peptone pepsin equal in activity to Fairchild's, none which will keep in all weathers and all conditions as Fairchild's will.

FAIRCHILD BROS. & FOSTER, NEW YORK.

ALETRIS CORDIAL

UTERINE TONIC AND RESTORATIVE.

Prepared from the Aletris Farinosa or True Unicorn and Aromatics.

INDICATIONS.

Amenorrhea, Dysmenorrhea, Leucorrhea, Prolapsus Uteri, Sterility, to Prevent Miscarriage, Etc.

DOSE:—ONE TEASPOONFUL THREE OR FOUR TIMES A DAY.

UNRIVALED AS A UTERINE TONIC IN IRREGULAR, PAINFUL, SUPPRESSED AND EXCESSIVE MENSTRUATION.

It Restores Normal Action to the Uterus, and Imparts Vigor to the Entire Uterine System.

☞Where women have miscarried during previous pregnancies, or in any case where miscarriage is feared, the ALETRIS CORDIAL is indicated, and should be continuously administered during entire gestation.

CHAS. CLAY, M. R. C. S., Manor House, Dewsbury, England, says:—I find Aletris Cordial (Rio) is of great service in threatened miscarriage.

FRANCIS E. CANE, L. R. C. S., &c., Leeds, England, says:—I have tried the Aletris Cordial (Rio) in two cases of long standing dysmenorrhea, with excellent results. One of these patients has spent a week in bed every month for two years. After all the usual remedies, I put her on Aletris Cordial, and for the last two periods she has been out and about all the time.

L. M. WATSON, M. D., Delhi, Ills., says:—I have used Aletris Cordial (Rio) in cases of dysmenorrhea. suppressed menses and threatened miscarriage, and also, combined with Celerina, as a tonic after confinement, with the happiest results, and now I am using it on a case of leucorrhea, with injections of S. H. Kennedy's Extract of Pinus Canadensis, and it is acting like a charm.

P. H. OWEN, M. D., Morganville, Ala., says:—I have prescribed Aletris Cordial (Rio) in several cases with the most satisfactory results, and regard it as the best uterine tonic I have met with in a professional experience of over twenty-five years. In cases of threatened miscarriage it acts like a charm. Would recommend its continuous administration in all cases when there is any indication of miscarriage.

Dr. W. BERTHELOT, Santander, Spain, says:—I have tried the Aletris Cordial (Rio), and it has seemed to me to be useful, especially in cases of dysmenorrhea.

Dr. RASQUINET, Jupile, near Liege, Belgium, says:—I tried Aletris Cordial (Rio) in the case of a woman who had had several miscarriages at the end of five months, and who is now again pregnant, having reached the seventh month: thanks to Aletris Cordial.

R. REECE, M. R. C. S., Walton-on-Thames, England, says:—Aletris Cordial (Rio) in painful menstruation is most valuable. A wife of a minister suffered much, and had had three miscarriages. I prescribed Aletris Cordial. She had for the first time, gone her full time, and was safely confined with a male child.

J. T. COLLIER, M. D., Brooks, Me., says:—I have used your Aletris Cordial (Rio) in cases of females at the menopause. Consider it one of the finest remedies for these cases.

Dr. GORDILLON, St. Amand, France, says: I have tried the Aletris Cordial (Rio) in a case of dysmenorrhea. The result I obtained from the use of your preparation was excellent, better than I had obtained in the same patient by prescribing the usual remedies employed in such cases.

W. F. TOOMBS, M. D., Morrillton, Ark., says:—I have used a great deal of your Aletris Cordial (Rio) and I find it all you claim for it in amenorrhea, dysmenorrhea, metritis, leucorrhea; I don't think it has an equal. I have used it in two cases of threatened miscarriage and the trouble was obviated. For a general Uterine Tonic I know of nothing superior.

R. D. PATTERSON, L. R. C. S. &c., Medical Officer, Caledon Dispensary, Co. Tyrone, Ireland, says:—I have very great pleasure in testifying to the very high opinion I hold of Aletris Cordial (Rio) in threatened miscarriage.

A CASE WITH A LESSON IN IT.

We have frequently referred to the necessity of keeping the pregnant woman supplied with those chemical substances which she must give to the child in the formation of its little frame, and the dire effects which may result from a deficiency of those substances. The headaches, neuralgias, spinal tenderness, and some of the many disorders of digestion, and even mental failure, may be all prevented or relieved by supplying to the mother the chemical food her system demands.

We have noticed a few cases where the most serious results have occurred to the mother by such a deficiency, one of which is well worth relating. Mrs. M., aged 30, pregnant with her third child, suffered from the second to the fifth month of her pregnant term with gradually failing strength and health, and nervous irritability. She was very restless nights for three or four days, the peculiar restlessness of complete nervous exhaustion, and was irrational for more than a week.

At this time I advised that she have a teaspoonful of Murdock's Liquid Food every hour in milk, and a little wine every four hours. The third night she had fifteen drops of hydrobromic acid dil. every three or four hours, which was continued for a week. The liquid food after a week every two hours, and all other medicines were discontinued. Her bowels were moved with a mild laxative at first, and afterward became regular. Her tongue cleaned quickly and her skin assumed a more natural appearance.

At this writing, less than three weeks from our first visit, the patient is able to sit up an hour at a time, is quite rational and cheerful, has a good appetite, the bowels are quite regular, there is no headache, and but little spinal tenderness. She sleeps reasonably well if fed frequently. She is allowed to suit her taste in her diet. The child is quite active, and the mother is progressing so nicely that it is hoped that she will pass safely through her confinement, which is nearly at hand. She will be kept on the liquid food and the phosphates until her confinement, after which, the condition will suggest the treatment. This is the most marked case of a starved nervous system we have ever seen, and the benefit derived from the treatment proves the theory as to the cause of the trouble.

Apropos with the above, comes the question of the selection of nutritious foods for those many cases which demand strong and immediate nourishment. The food used in the above case has produced marvelous results for us in some of those extreme cases in which we have used it.

In one case of nervous exhaustion the insomnia was absolutely painful. When the exhaustion forced the patient to sleep there was an immediate sense of falling or approaching death, or there were hallucinations which were appalling, rendering the nights unbearable. One teaspoonful of Murdock's Liquid Food so nourished the system the first night it was given that the patient sank into a quiet, refreshing sleep which lasted, with a single awakening, until morning, and the improvement the patient obtained was most striking.

One case of mitral regurgitation with leucocythemia and nervous exhaustion improved more rapidly on this food than on all other measures combined. In cases of nervous exhaustion and brain tire, its effects are most marked, as we have experienced many times in the past five years in the frequent personal use of the agent. It contains the principles of pure, healthy blood and nerve tissue ready for immediate assimilation. Fourteen per cent. of the entire quantity is uncoagulated albumen, as we have demonstrated by actual analysis.

We have tided babies over critical periods often with a few drops in its usual diet. We have given it to dipsomaniacs with or without non-alcoholic stimulants with superb results. The sole objection our patients have to it is its odor. Its taste is not disagreeable; it has the odor and appearance of blood. All objections are soon forgotten, however, in the results of its action upon the nutrition of the system, and the patient soon learns to like it, and often craves for it, drinking it from the bottle or a glass readily, like any beverage. It ought to be the food par-excellence for rapid appropriation in all conditions of exhaustion.

P. S.—Phosphates act well with the Liquid Food.

JOHN WYETH & BROTHER'S

Soluble Compressed Hypodermic Tablets.

Recent improvements in our Hypodermic Compressing Machines enable us now to manufacture these tablets entirely free from any foreign material, thus insuring immediate solution and

Freedom from all possibility of Local Irritation.

Put up in cases of 10 tubes, each tube containing 20 tablets. Also, in bottles of 100 each.

1 Morphinæ Sulphas 1-2 grain.
2 Morphinæ Sulphas 1-3 grain.
3 Morphinæ Sulphas 1-4 grain.
4 Morphinæ Sulphas 1-6 grain.
5 Morphinæ Sulphas 1-8 grain.
6 Morphinæ Sulphas 1-12 grain.
7 Morphinæ Sulphas 1-2 grain.
Atropinæ Sulphas 1-100 grain.
8 Morphinæ Sulphas 1-3 grain.
Atropinæ Sulphas 1-120 grain.
9 Morphinæ Sulphas 1-4 grain.
Atropinæ Sulphas 1-150 grain.
10 Morphinæ Sulphas 1-6 grain.
Atropinæ Sulphas 1-180 grain.
11 Morphinæ Sulphas 1-8 grain.
Atropinæ Sulphas 1-200 grain.
12 Morphinæ Sulphas 1-12 grain.
Atropinæ Sulphas 1-250 grain.
13 Atropinæ Sulphas 1-60 grain.
14 Atropinæ Sulphas 1-100 grain.
15 Atropinæ Sulphas 1-150 grain.
16 Strychninæ Sulphas 1-60 grain.
17 Strychninæ Sulphas 1-100 grain.
18 Strychninæ Sulphas 1-150 grain.

57 Eserinæ Sulph. 1-60 grain.
58 Eserinæ Sulph. 1-80 grain.
59 Eserinæ Sulph. 1-100 grain.
60 Eserinæ Sulph. 1-100 grain.
Morphinæ Sulph. 1-6 grain.
61 Physostygminæ Salicylas 1-40 grain.
62 Physostygminæ Salicylas 1-60 grain.
63 Caffeinæ 1-2 grain.
64 Caffeinæ 1 grain.
65 Quin. Carbam. Mur. 1 grain.
66 Quin. Carbam. Mur. 2 grains.
67 Quin. Carbam. Mur. 3 grains.
68 Hyoscin Hydrobrom. 1-100 grain.
69 Hyoscin Hydrobrom. 1-50 grain.
70 Spartein Sulphas 1-30 grain.
71 Spartein Sulphas 1-60 grain.
72 Trinitrin 1-100 grain.
73 Trinitrin 1-150 grain.
74 Trinitrin 1-200 grain.

We claim for our Hypodermic Tablets:

Absolute Accuracy of Dose.
Ready and Entire Solubility.
Perfect Preservation of the Drug.

Their convenience and utility will at once be apparent on examination.

They are put up in Cylindrical Tubes, convenient for carrying in Hypodermic or Pocket case, ten tubes in a box, with twenty tablets in each tube.

NOTE.—It will only be necessary in ordering to specify the numbers, as above. Wyeth's Manufacture. These Tablets will be sent by mail, on receipt of the proper amount.

PHILADELPHIA, PA.

Doctor:

While treating cases of Tubercular Phthisis no doubt you have, at some time or other, touched upon the Hypophosphites.

You may have given the Hypophosphites in oil, or in malt extract, or in some acid mixture, or in a compound with a half dozen "tonics" added to it; and you have been disappointed. As in trying to extinguish a conflagration with a garden sprinkler, or to restrain the course of a river with a spade, you find the disease pursues its relentless way unchecked to the fatal end.

Now, Doctor, why not come back to first principles and give the Hypophosphites as the illustrious founder of this successful mode of treatment, Dr. Churchill, directed?

He did not recommend that they should be given with cod-liver oil or with quinine and iron and strychnine and free phosphoric acid and various other ingredients. He simply urged that the chemically pure Hypophosphites of Lime and Soda should be administered perseveringly until a permanent cure resulted.

Pharmacists, ambitious of getting a new preparation on the market, have made the attempted improvements.

It is needless to say that wherever these innovations have been adopted, failure has resulted, and the entire treatment has been brought into disrepute and abandoned.

McArthur's Syrup is prepared on the principles laid down by Dr. Churchill, and with which he achieved his wonderful success. It contains the chemically pure Hypophosphites of Lime and Soda, uncomplicated with other drugs, in a pure and wholesome syrup.

With it you can score success time and again.

Its results are gradual, steady and certain, but you must persevere faithfully until the cure is complete. Give it throughout all the seasons, the entire year round.

By this means you may have the satisfaction of restoring health to many a despairing one and prolonging precious lives.

Be careful that you get none but the genuine. Write your prescription thus:

℞ Syr. Hypophos. Comp., C. P., McArthur.

If you would like to study this subject more closely we will send you, free, our treatise on "The Curability and Treatment of Consumption." We will also send you, free, a bottle of the Syrup, if you are willing to pay express charges.
